Honorable County Executive,
Honorable Members of the County Council and
Citizens of Howard County

Ladies and Gentlemen:

FORMAL TRANSMITTAL OF THE CAFR

The audited Comprehensive Annual Financial Report (CAFR) of Howard County, Maryland (the County) prepared by the Department of Finance for the fiscal year (FY) ended June 30, 2015, is hereby submitted in compliance with Howard County Charter, Section 212 and includes the auditor's opinion issued by the independent public accounting firm of CohnReznick LLP, hired by the County Council. The annual report was prepared by the Howard County Department of Finance in cooperation with the finance departments of the County's component units.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

CohnReznick LLP licensed certified public accountants performed an independent audit and issued an unmodified ("clean") opinion on the County's financial statements for the fiscal year ended June 30, 2015. The Independent Auditor's Report is presented as the first element of the Financial Section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis to accompany the basic financial statements. The MD&A is designed to complement this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

Howard County, Maryland was formed in 1851 and was named for the fifth Governor of Maryland, Colonel John Eager Howard. Under a home rule charter adopted in 1968, the County's executive functions are vested in the elected County Executive. The County Council consists of five members elected by district.

Located directly between Baltimore, Maryland and Washington, D.C. and at its closest point is less than four miles from the former and 13 miles from the latter, the County is 251 square miles in area. The County was predominantly agricultural in character until 1966, when construction

began on the planned community of Columbia. Columbia is unique for its purposeful goal to be an integrated community at a time before the Fair Housing Act of 1968 made it illegal to discriminate in housing based on race, color, national origin or religion. Howard County is home to approximately 309,284 residents based on estimates by the Maryland Department of Planning. In 2015, Smart Asset ranked Howard County, MD among the top 10 happiest counties in America. The Howard County Library System (HCLS) was named the 2013 Library of the Year by the Library Journal and Gale Cengage Learning. In a 2013 survey, conducted by the Center for Digital Government and the National Association of Counties, Howard County was ranked the eighth most digital county in the nation. In 2012, Howard County was ranked the healthiest Maryland county by the Robert Wood Johnson Foundation and the University of Wisconsin Population Health Institute.

Source: United States Department of Commerce, Bureau of the Census, State and County QuickFacts

COMPONENT UNITS

The County government provides all the local government services as there are no incorporated cities or towns in Howard County. Services provided by the County include police, fire and rescue, sheriff, corrections, public works, planning and zoning, landfill, water and sewer, public housing, and recreation and parks. In addition to general government activities, the governing body has financial accountability for the Howard County Public School System, Howard Community College, the Howard County Public Library, and the Howard County Housing Commission. Therefore, the activities of these entities are included in this annual report. Additional information on all four of these legally separate entities can be found in Note 1A in the Notes to Basic Financial Statements. The financial activities of the Howard County Economic Development Authority, which is also a component unit of the County, are excluded due to immateriality. The Volunteer Fire Districts do not meet the established criteria for inclusion in the reporting entity and, accordingly, are excluded from this report.

BUDGET

The Howard County budget is a comprehensive plan of all monies spent by County departments and agencies. As required by County law, the budget consists of the current operating expenditure and revenue budget (with five-year spending projections), the capital budget and capital program, and the budget message. The annual budget includes all revenues, all expenditures and the projected surplus or deficit in the general fund and all other funds. Funds in the operating budget include appropriations for the following functional areas: education, public safety, public works, community services, general government, legislative and judicial, and capital, debt and reserves. The capital budget includes funds to construct major government facilities such as roads, bridges, schools, libraries, water and sewer infrastructure and fire stations. Capital projects usually take more than a year to complete, unlike the operating budget which covers only one year.

The budget process begins each fall when the County Executive appoints a Spending Affordability Advisory Committee to establish guidelines for determining debt affordability levels for the upcoming year. County departments and agencies submit budget requests to the Executive in late January or early February. After a public process that involves two public hearings and a thorough review of departmental requests, the County Executive submits proposed capital and operating budgets to the County Council by April 1 and 21, respectively. The County Council then conducts a series of public hearings and work sessions in April and May to review the Executive's proposed budget. The County Council cannot change the form of the budget as submitted by the Executive to alter the revenue estimates or to increase any expenditure recommended by the Executive for current or capital purposes unless expressly provided for in State law or to correct mathematical errors. The County Council can reduce the Executive's budget, but not increase it, except in the case of the Department of Education School Board's budget. The County Council may restore funds back to the level requested by the School Board. After its review, the County Council finalizes the entire budget and sets tax rates, fees and charges needed to generate enough revenue to balance the budget. The Annual Budget must be adopted by the County Council by the first day of the last month of the current fiscal year. Expenditure authority for the operating budget is at the fund and department level in major categories, including personnel costs, various operating expenses and capital costs. Appropriations in the capital budget are determined at the project level on an annual basis.

Once the budget is approved, the County Council can only amend it at the request of the County Executive. The operating budget is amended during the year through the use of supplemental budget appropriation ordinances (SAOs). The County Executive may request at any time during the fiscal year, the approval of an SAO by transferring funds from the County's budgeted contingency reserves. The capital budget may be amended through the use of Transfer Appropriation Ordinances (TAOs). The County Executive may request, at any time during the fiscal year that a TAO be approved by transferring funds from one capital project to another. At no time may the bottom line of the capital budget be increased. The County maintains an encumbrance system for budgetary control. All unencumbered appropriations of the operating budget lapse at year-end. Unencumbered capital appropriations continue until the specific capital project is closed.

ECONOMIC CONDITION AND OUTLOOK

Howard County continues to have a diverse economic base, taking advantage of a friendly business climate, a highly educated workforce and superb quality of life. It is located in the heart of the corridor between Washington, D.C. and Baltimore. Employment is expected to remain stable and the unemployment rate should continue to remain below the state (5.2%) and national (5.3%) levels as evidenced by the June 2015 rate of 4.5%.

Source: Maryland Department of Labor, Licensing and Regulation

LOCAL ECONOMY

Howard County's ideal geographic location is a major factor in the substantial economic growth across a wide variety of industry sectors. Over 9,554 businesses in Howard County employ 161,970 workers in industries such as information technology, telecommunications, biotechnology, research and development, wholesale distribution, manufacturing, agriculture and in multinational corporations. The service sector is the largest industry in the County, employing 87% of the workforce. In the service industry, government contracts support cybersecurity and information technology programs and will continue to do so with the growth projected at Fort George Meade. Less than two miles outside the County border, Fort Meade is Howard County's largest employer. Although BRAC (Base Realignment and Closure) officially ended in 2011, projections indicate that the on-base workforce could grow by an additional 13,000 to a total of 64,000 by 2020. Approximately 3,000-4,000 of this workforce will be new jobs related to cybersecurity with the potential of an additional 8,920 private sector government contractor positions to support this growth.

Commercial real estate vacancy rates continue to decline and the average remains under 10% for flex, retail, industrial, and office space. The year-to-date average vacancy rate for 2015 is 7.7%. The average rental rate per square foot for Class A office space currently stands at \$25.52.

FY 2015 property tax collections increased 3.6% above the previous fiscal year. In its FY 2016 budget, Howard County projects a 16.3% increase in property tax collections. One-third of property in the County is assessed each year, with increases in assessed values phased in over 3 years. This triennial assessment of property, the phasing in of assessment increases, and the County's 5% Homestead Property Tax Credit rate help to stabilize the tax base and tax revenues.

Local income tax is the County's other main revenue source. Income tax collection increased by 0.6% when compared to the actual for FY 2014. While there is still positive growth, the reduction in local income tax revenue is due mainly to the fluctuation in the income tax paid on capital gains. The FY 2016 projection for income tax collections represents a 0.3% decrease from what was budgeted in FY 2015 and a 3.1% percent increase over actual collections in FY 2015.

The decline in the real estate market that began in FY 2006 has begun to stabilize in the County and the revenues related to housing activity increased in FY 2015. Recordation tax, a leading indicator of the health of the local real estate market, continues to fluctuate each year and remains 21.6% below the FY 2006 level. FY 2015 Revenue from recordation tax increased 11.9% from the previous fiscal year. The FY 2016 budget projects a 5.8% reduction in recordation tax collections compared to FY 2015.

Another indicator of the continued struggling economy is maintenance of the Federal Funds Rate, at low levels, which limits investment income. Revenue from this source increased 30.3% in FY 2015 yet remains 89% below FY 2008 revenue.

Source: Metropolitan Regional Information Systems Inc.

As a result of continued focus on opportunities to reduce spending and increase efficiencies, the County had a surplus at the end of FY 2015.

Looking forward, overall economic performance is expected to improve slightly in FY 2016. It is anticipated that the FY 2016 gross assessable base of Howard County will increase by 3.4%. Due to decreasing Homestead Tax Credits, the net taxable assessment will increase by approximately 8.5%. This is because the Homestead Tax Credit limits taxable increases on homeowner occupied properties to 5% per year, and despite the decrease in home values most residential properties are still phasing in the pre-2006 housing market increases. Approximately 31% of homeowner occupying properties in Howard County received this credit in FY 2015. The demand for real estate remains strong, especially in the residential resale market, where the average days on market remained stable going from 55 to 58 days between December 2013 and 2014.

MAJOR INITIATIVES

The County will continue the strong fiscal management policies which have led to Triple-A ratings from all three credit rating agencies. The County will take advantage of opportunities to expand the diverse local economy created by the location of the U.S. Cyber Command at nearby Fort Meade through the new Maryland Center for Entrepreneurship, operated by the Howard County Economic Development Authority. In order to maintain our highly educated workforce, the County continues to invest in our top-ranked school system. Recognizing our responsibility to the environment and the health of the Chesapeake Bay, the County has created a program to create partnerships with residents, businesses, and institutions to address storm water pollution on a County-wide basis.

LONG TERM FINANCIAL PLANNING

Rainy Day Fund

County voters approved an amendment to the County Charter to establish a budget stabilization account, also known as a Rainy Day Fund, to provide a financial safety net for the County effective December 3, 1992. The amendment requires all surplus funds in the County be placed in this fund until it reaches 7% of the prior year's audited expenditures. The funds may be used if an emergency exists pursuant to the County Charter, or if the County Executive determines that actual revenues will be substantially below the revenues budgeted and reasonable expenditure reduction will not offset the anticipated loss. See Note 1P in the Notes to Basic Financial Statements for a discussion of the status of the Rainy Day Fund. The Rainy Day Fund's balance is currently at the target level.

Capital Projects and Debt Administration

The County funds its capital programs based on the requirements of the General Plan and supporting master plans for schools, recreation and parks, human services, water and sewer, solid waste, libraries, fire stations and public facilities.

The County plans long and short-term debt issuance to finance its capital budget based on cash flow needs, sources of revenue, capital construction periods, available financing instruments and

market conditions. The County finances its capital needs on a regular basis dictated by its capital spending pattern. External financial specialists assist the County in developing a bond issuance strategy, preparing bond documents, and marketing bonds to investors. Bonds issued by the County mature over a term that does not exceed the economic life of the improvements that they finance.

The County consolidates general County improvements into Consolidated Public Improvement bonds with a term of up to 20 years and water and sewer improvements into Metropolitan District Bonds with a term of up to 30 years. Debt obligations are generally issued through a competitive sale. However, the County may use a negotiated sale process when it will provide significant savings and/or if the terms of the offering are sufficiently complex that the bond issue might be compromised in a competitive sale.

Spending Affordability Advisory Committee

The Spending Affordability Advisory Committee was established by Executive Order in 1987 to provide recommendations and projections for the upcoming budget year. Specifically, the Committee is charged to review in detail the status and projections of revenues and expenditures for the County for the next budget year and subsequent five years; to evaluate future County revenue levels and consider the impact of economic indicators such as changes in residential personal income and assessable base growth; and to evaluate expenditure levels with consideration of County long-term obligations and the best way to pay for them.

The Committee recommends revenue projections and the amount of new County debt authorization for the upcoming fiscal year. The Committee report includes the effect its recommendations will have on future budgets. This Committee also assesses the County's ability to repay bond debt and issues an annual report defining debt capacity of the County.

FINANCIAL POLICIES

The financial policies and management practices of Howard County were recognized by all three major rating agencies with a continued Triple-A credit rating, the highest possible rating.

Debt Management Policy

The County adopted an updated debt management policy on October 7, 2009 that establishes the processes employed to manage its debt. The policy sets the parameters for issuing debt and managing outstanding debt. It provides guidance to decision makers regarding the timing and purposes for which debt may be issued, types and amounts of permissible debt, method of sale that may be used and structural features that may be incorporated. By establishing a debt policy, the County has recognized the binding commitment to full and timely repayment of all debt. The policy ensures that the County maintains a sound debt position and that credit quality is protected.

Investment Policy

The County's investment policy provides for the safety and liquidity of public funds by minimizing credit and market risk while maintaining a competitive yield on the investment portfolio. Investment activities are governed by State laws. Accordingly, the County invests in:

certificates of deposit (Maryland State banks only); repurchase agreements; banker's acceptances; commercial paper; U.S. Government and Federal agency obligations; Treasury and other government mutual funds; and the State of Maryland investment pool. Repurchase agreements and certificates of deposit are subject to the County's collateralization policy.

The investment policies for the two Howard County retirement plans establish asset allocation targets, investment manager selection, and investment performance guidelines.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Howard County, Maryland for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2014. This was the thirty-ninth consecutive year that the County received this prestigious award. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized CAFR. This report satisfied both Generally Accepted Accounting Principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the County also received the GFOA's Distinguished Budget Presentation Award for its annual budget document dated July 1, 2015. This was the twenty-second consecutive year the County has received this award. In order to qualify for the Distinguished Budget Presentation Award, the County's budget document was judged as proficient in several categories, including as a policy document, a financial plan, an operations guide and a communication device.

A very special thank you to Charisse Antonio, Salomey Awuku, Lori Buchman, Dawit Gebregiorgis, Paul German, Verda Hall, Sean Hollywood, Rafiu Ighile, Anne Keyes, Sherrea Lassiter, Marquia Lewis, Marvin Miller, Angela Moore, Diamond Okojie, Angela Price, Sima Taghavi, Thomas Wall, and Mimi Xu, for their efforts in preparing and publishing this document. Credit also must be given to the County Executive and the County Council for their unwavering support for maintaining the highest standards of professionalism in the management of Howard County's finances.

Respectfully submitted,

Stanley J. Milesky
Director of Finance

OFFICE OF THE COUNTY AUDITOR

CERTIFICATE OF THE COUNTY AUDITOR

The Honorable Allan Kittleman
County Executive

Honorable Members of the County Council

Mary Kay Sigaty, Chairperson
Jon Weinstein, Vice Chairperson
Calvin Ball
Greg Fox
Jennifer Terrasa

Article II, Section 212 of the Howard County Charter, requires that a complete audit of all offices, departments, institutions, boards, commissions, corporations, courts, and other agencies of the County Government be prepared for the preceding fiscal year, and submitted to the County Council and to the County Executive, no later than November 30th of each year.

The independent certified public accounting firm of CohnReznick LLP has been retained by the County Council to assist the County Auditor in the discharge of this responsibility. I hereby certify that the auditing requirements of Article II, Section 212 of the Howard County Charter have been satisfied for the fiscal year ended June 30, 2015. Also, in accordance with the Charter Amendment approved by the voters of Howard County, I will make copies of this report available to the public at the County Auditor's Office and at the Howard County public libraries.

Respectfully submitted,

Craig Glendenning, CPA
County Auditor

Project SEARCH: An Internship Program

Project SEARCH is an initiative to support employment skills and opportunities for youth with disabilities in their final year of school. This past school year (2014-2015), Howard County Government hosted 12 students who took part in three, 10-week internships in various career paths to help prepare them for the transition from school to the workplace. The onsite training and practical experience allow the students to become more marketable in their job search and access opportunities to be productive in the community. An internationally-based program, Project SEARCH was launched in Howard County in August 2014 by the Arc of Howard County and Howard County Government, in partnership with the Howard County Public School System, the Howard County Autism Society and the Maryland Division of Rehabilitation Services.

Independent Auditor's Report

To the County Council
Howard County, Maryland

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Howard County, Maryland (the County), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Howard County Public School System, Howard Community College, or the Howard County Housing Commission, which represent 99.6 percent, 99.8 percent and 98.0 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Howard County Public School System, Howard Community College and the Howard County Housing Commission, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Howard County, Maryland, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and Agricultural Land Preservation Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Change in Accounting Principle

As discussed in Notes 1 and 17 to the financial statements, during the year ended June 30, 2015, the County adopted new accounting guidance from Government Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions". Our opinion is not modified with respect to this matter.

Correction of Error

As fully described in Note 17 to the financial statements, certain errors were noted which resulted in the restatement of prior year balances.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, supplemental schedules of Changes in the County's Net Pension Liability and Related Ratios and Schedule of County Contributions for both the Howard County Retirement Plan and Howard County Police and Fire Employees' Retirement Plan, and the schedules of funding progress and employer contributions for the Other Post Employment Benefit Trust (OPEB) on pages 3-14 and 73-77 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Howard County Maryland's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules, capital assets schedules, long-term debt schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, budgetary comparison schedules, capital asset schedules and long-term debt schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the combining and individual nonmajor fund financial statements, budgetary comparison schedules, capital asset schedules and long-term debt schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2015, on our consideration of Howard County, Maryland's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Howard County, Maryland's internal control over financial reporting and compliance.

Baltimore, Maryland
November 24, 2015

Management's Discussion and Analysis

As management of Howard County, Maryland (the County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information furnished in our letter of transmittal (found on pages iii to x of this report). The discussion focuses on the County's primary government and, unless otherwise noted, does not include component units reported separately from the primary government.

Financial Highlights

- The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$478.1 million. That amount is net of a \$835.1 million unrestricted deficit. The unrestricted deficit occurs because the County issues debt to fund construction costs for the Public School System and the Community College, two of its component units, but does not own the corresponding assets. Debt outstanding for education projects is \$461.0 million and for college projects is \$83.5 million. Public School System ownership of buildings transfers to the County if the assets are no longer needed for educational purposes. The current net value of the Public School System's buildings and improvements and construction in progress is \$1.086 billion. The unrestricted deficit was further increased in the current fiscal year by \$101.9 million due to the implementations of GASB Statement No. 68, "Accounting and Financial Reporting for Pension" and related GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No. 68" in recording the beginning net pension liability and the beginning deferred outflow of resources, contributions subsequent to the measurement date, for the defined benefit pension plans.
- The \$4.9 million increase in the government's total net position is primarily due to an increase of \$40.9 million in capital grants and contributions offset by an increase of \$31.2 million in the County's funding of education expenses (Public School System 3.6% and Community College 26.0%).
- The County's property tax revenues increased this year by \$19.7 million, or 3.6%, due to rising property values.
- Approximately 49.1% of the total governmental fund balance, \$126.2 million, is available to meet the County's current and future needs as mandated by the appropriate level of authority within the County and is properly designated as committed, assigned and unassigned. Available fund balance for the General Fund is \$99.6 million, or 10.1% of total General Fund expenditures.
- At the end of the fiscal year, the County's governmental funds reported combined ending fund balances of \$256.9 million, a decrease of about \$18.3 million in comparison with the prior year. Specifically, the fund balance of the General Fund decreased by \$18.6 million due to expenditures for one-time initiatives of about \$37.7 million.
- The reserve for the budget stabilization account balance is \$61.3 million, an increase of \$2.0 million or 6.2% of fiscal year 2015 general fund expenditures. That balance meets the target set by the County Charter (7% of fiscal year 2013 expenditures). We have reached that target and assigned \$6.1 million for subsequent years' budget stabilization. The County is committed to meeting this mandated target in future years.
- The County's total long-term debt increased by \$75.8 million (5.5%) during the current fiscal year. The major factors in this increase were the issuance of \$184.2 million in Consolidated Public Improvement (CPI) Project Bonds, and \$31.0 million in Metropolitan (Metro) District Project Bonds. The County refunded \$87.3 million in CPI bonds and \$4.2 million in Metro bonds and retired \$58.7, \$9.6, and \$3.3 million of CPI, Metro, and Water Quality Bonds, respectively. The County also retired \$450,000 of Special Facility Revenue bonds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Howard County, Maryland's basic financial statements that include: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. The two government-wide statements are on a full accrual accounting basis, including the elimination and/or reclassification of internal activities.

The first government-wide statement is the *Statement of Net Position*. This is the Countywide position presenting information that includes all County assets and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. Evaluations of the overall health of the County would extend to other non-financial factors such as diversification of the taxpayer base or the condition of County infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which presents information showing how the government's net position changed during the current fiscal year. All current-year revenues and expenses are included regardless of when cash is received or disbursed. An important purpose of the Statement of Activities is to show the financial reliance of the County's distinct activities or functions on revenues provided by the County's taxpayers.

Both government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public safety, public works (roads, trash collection and disposal, planning and zoning, inspections and permits), legislative and judicial, education, community services (health, housing, aging, and consumer protection), recreation and parks and state highways. The business-type activities of the County include the operations of water and sewer services, watershed restoration and protection services, broadband services, and a public golf course. Fiduciary activities, such as employee pension plans, are not included in the government-wide statements since these assets are not available to fund County programs.

The government-wide financial statements include not only the County, the *primary government*, but also a legally separate school system, community college, library system, and housing commission for which the County is financially accountable. Financial information for these *component units* is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements are located on pages 15-16 of this report.

Fund financial statements. A *fund* is an accountability unit used to maintain control over resources that have been segregated for specific activities or objectives. State and local governments use fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Within the basic financial statements, fund financial statements focus on the County's most significant funds rather than the County as a whole. Major funds are separately reported while all others are combined into a single, aggregate presentation. Individual fund data for non-major funds is provided in the form of combining statements in a latter section of this report.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, the focus is very different with fund statements focusing on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Since the government-wide focus includes the long-term view and the fund focus includes the short-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *government-wide activities*.

The County maintains eighteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statements of revenues, expenditures, and changes in fund balances for the general, agricultural land preservation, and general capital projects funds, all of which are major funds. Data from the other fifteen non-major governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for its non-capital governmental funds. Budgetary comparison statements are provided for the general and agricultural land preservation funds to demonstrate compliance with this budget. Budgetary statements for non-major special revenue and debt service funds are provided in the combining section of this report.

The basic governmental fund financial statements are located on pages 17-22 of this report.

Proprietary funds are reported in the fund financial statements and generally report services for which the County charges customers a fee. The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its water and sewer infrastructure and operations, its watershed restoration and protection services, its broadband services, and for the operations of its public golf course. Internal service funds are an accounting structure used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its fleet of vehicles, technology and communication systems, risk management self-insurance program, and employee benefits self-insurance. Because the internal service funds' services predominately benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide both long- and short-term financial information consistent with the focus provided by the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer operations, which is a major fund of the County, and combined fund information for the watershed restoration and protection services, broadband services, and golf course operations, which are all non-major funds of the County. Conversely, all internal service funds are combined into a single, aggregate presentation in the proprietary fund financial statements. Individual fund data for the non-major enterprise funds and the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary funds financial statements are located on pages 23-25 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements are located on pages 26-27 of this report.

The component unit financial statements are located on pages 28-29 of this report.

Notes to basic financial statements. The notes provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to Basic Financial Statements are located immediately after the Basic Financial Statements on pages 31-72.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning management's discussion and analysis and the County's progress in funding its obligation to provide pension and other post-employment benefits (OPEB) to its employees. Required supplementary information is located on pages 73-77 of this report.

The combining statements referred to earlier in connection with the general fund, non-major governmental funds, enterprise funds, internal service funds, and fiduciary funds are presented immediately following the required supplementary information on pensions and are considered to be supplementary information. Combining and individual fund statements and schedules start on page 79 of this report.

Detailed capital asset schedules for governmental and proprietary funds are located on pages 117-119. Schedules providing additional long-term debt detail start on page 121. The Statistical Section begins on page 127.

Government-Wide Financial Analysis

Over time, changes in net position serve as a useful indicator of a government's financial position. Howard County's assets exceeded liabilities by \$478.1 million at the close of the most recent fiscal year.

The largest portion of the County's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire or construct those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending.

Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities. It is important to note that although counties in the State of Maryland issue debt for the construction of schools, the school buildings are owned by each county's Public School System. Ownership reverts to the County if the local board determines a building is no longer needed. The County also funds projects for the Howard Community College and for intersection improvements to state-owned roads. As of June 30, 2015, debt outstanding for education projects is \$461.0 million and for college projects is \$83.4 million. Therefore, while the County's financial statements include this outstanding debt, they do not include the capital assets funded by the debt. The negative unrestricted governmental activities' net position of \$942.9 million reflects the imbalance of liabilities without corresponding assets as well as the County's Net OPEB Obligation of \$380.9 million and net pension liability of \$108.3 million.

An additional portion of the County's net position (\$148.6 million or 31.1%) represents resources subject to external restrictions on their usage.

Summary of Net Position

Governmental activities. Governmental activities decreased the County's net position by \$48.1 million. Key elements of this decrease are as follows:

- Expenses increased by \$25.7 million for additional Net OPEB obligation.
- Education expenses increased by \$31.2 million: \$21.0 million for the Public School System, \$9.3 million for the Community College, and \$0.9 million for the Library.
- Contributions to the OPEB Trust increased by \$3.0 million.

Expenses and Program Revenues – Governmental Activities

Revenues by Source – Governmental Activities

Business-type activities. Business-type activities increased the County's net position by \$53.0 million. The components of this increase are as follows:

- Charges for services increased by \$6.3 million due to a 9% rate increase for water and sewer usage and the establishment of a charge for broadband services.
- Operating grants and contributions, which totaled \$30.0 million, represent an annual ad valorem fee levied on all properties within the water and sewer service district. This charge is used primarily to fund debt service payments and pay-as-you-go funding on capital projects.
- \$40.9 million was received in capital contributions. This revenue includes the value of broadband fiber and infrastructure that was created through a capital project and transferred to the broadband enterprise fund, as well as water and sewer lines constructed by developers and donated at no cost to the County. The County pays for additional water and sewer lines built by developers through a rebate process. Capital contributions also include front foot revenues assessed to properties connected to the water and sewer system. These front foot revenues fund the debt issued to pay developer rebates. Effective July 1, 2004, the County has not entered into any new rebate contracts. Developers pay for those improvements and are still required to donate the assets to the County. Overall, capital grants and contributions increased by \$29.5 million from fiscal year 2014.
- Expenses increased by \$1.9 million mainly due to the establishment of the broadband services fund and increased activity in the watershed protection and restoration fund due to a full year's operations.

Business-type activities are shown comparing costs to revenues generated by related services. Both water and sewer and other activities, consisting of Golf Course, Broadband Services, and Watershed Protection and Restoration, are self-supporting.

Expenses and Program Revenues – Business-type Activities

Revenues by Source – Business-type Activities

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of Howard County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$256.9 million, a decrease of \$18.3 million in comparison with the prior year. Of this fund balance, \$30.3 million is nonspendable, \$99.7 million is restricted by enabling legislation, \$96.8 million is committed by the County, at the highest level of authority, \$98.4 million is assigned, and (\$68.4) million is deficit unassigned fund balance.

The general fund is the chief operating fund of the County. At fiscal year-end, the total General Fund fund balance is \$107.7 million, \$18.6 million or 14.7% less than the prior year, due to expenditures for one-time initiatives of about \$37.7 million.

The \$68.5 million total fund balance of the Agricultural Land Preservation Fund is a \$119 thousand increase from the prior year. The increase is the result of an increase in transfer tax revenue.

The general capital projects fund is used to track the construction of general county buildings. The fund balance is a \$32.0 million deficit. This is a timing issue due to capital project expenditures occurring before revenues are recognized.

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

All assets in the Water and Sewer Proprietary Fund, except those available to fund current liabilities, are considered restricted because a change in the County charter is required to allow these assets to be used for other purposes. Net position of the water and sewer operations at fiscal year-end was \$538.7 million. Net position of the Water and Sewer Proprietary Fund increased \$35.0 million due to a 9% rate increase in the charges for services and an increase in capital contributions.

General Fund Budgetary Highlights

The original general fund expenditure and revenue budgets did not change in total during the current fiscal year.

The County spent \$14.5 million less than the budget due to an anticipated shortfall in income tax revenue, which fell short by \$14.2 million. Total debt service final budget amounts compared to expenditures and encumbrances for the fiscal year show a favorable variance of \$1.5 million, as interest expense on variable-rate debt was budgeted high to allow for increases in interest rates during the year.

Capital Assets and Debt Administration

Capital assets. The County's investment in capital assets for its governmental and business-type activities as of June 30, 2015 is \$1.9 billion (net of accumulated depreciation). Capital assets include land, easements, buildings, improvements, machinery and equipment, park facilities, sidewalks, roads, highways, bridges, water and sewer lines, and stormwater management systems. The total increase in the County's investment in capital assets for the current fiscal year was 3.1% (a 2.0% increase for governmental activities and a 5.3% increase for business-type activities).

Major capital asset events during the current fiscal year included the following:

- \$12.9 million for additions to the Savage and Miller libraries
- \$10.4 million for completion of phase I of Troy Park
- \$4.9 million in land acquisitions for several properties, including the Long Reach Village Center
- \$3.7 million for improvements to the infrastructure in the Little Patuxent sewer interceptor

- \$3.5 million for the purchase of emergency generators for the Little Patuxent Water Reclamation Plant

Capital Assets (net of depreciation)

Additional information on the County's capital assets are located in Note 6 on pages 47-48 of this report.

Long-term debt. At the end of the current fiscal year, the County had total long-term debt outstanding of \$1.4 billion. Of this amount, \$1.1 billion comprises debt backed by the full faith and credit of the government. The remainder of the County's debt represents bonds secured solely by specific revenue sources (i.e., revenue bonds).

Outstanding Debt

	Governmental activities		Business-type activities		Total	
	2015	2014	2015	2014	2015	2014
	General obligation bonds	\$ 1,035,280,459	989,034,698	238,963,476	220,641,739	1,274,243,935
State water quality loan	2,475,000	2,830,000	27,678,601	30,930,315	30,153,601	33,760,315
Tax increment financing bonds	17,000,000	17,000,000	-	-	17,000,000	17,000,000
Agricultural land preservation program	96,626,177	95,628,635	-	-	96,626,177	95,628,635
Special facility revenue bonds	-	-	4,133,000	4,583,000	4,133,000	4,583,000
Other	17,893,604	5,062,113	1,461,969	49,308	19,355,573	5,111,421
Total outstanding debt	\$1,169,275,240	1,109,555,446	272,237,046	256,204,362	1,441,512,286	1,365,759,808

The County's total long-term debt increased by \$75.8 million (5.5%) during the current fiscal year. The major factors in this increase were the issuance of \$184.2 million in Consolidated Public Improvement (CPI) Project Bonds and \$31.0 million in Metropolitan (Metro) District Project Bonds. The County refunded \$87.3 million in CPI bonds and \$4.2 million in Metro bonds and retired \$58.7, \$9.6, and \$3.3 million of CPI, Metro, and Water Quality Bonds, respectively. The County also retired \$450,000 of Special Facility Revenue bonds. The County maintains an "AAA" rating from both Standard & Poor's and Fitch Ratings, and an "Aaa" rating from Moody's Investors Service for general obligation debt.

Local statutes limit the amount of general obligation debt a governmental entity may issue to 4.8% of its total assessed valuation. The current debt limitation for the County is \$2.2 billion, which is significantly more than the County's outstanding general obligation debt at fiscal year-end.

Additional information on the County's long-term debt is located in Note 7 starting on page 49 of this report.

Economic Factors and Next Year's Budgets and Rates

Howard County has a relatively low unemployment rate as evidenced by the following:

- The June 2015 unemployment rate for the County was 4.5% (the low was 3.8% in December 2014). This compares favorably to the state's unemployment rate of 5.2% and the national rate of 5.3% for the same period. The County's rate was 2.3% in April 2008.
- The occupancy rate for commercial space as of June 2015 was 92.3%, up from 91.3% a year ago. Howard County had 1,189,558 total rentable building area (RBA) during this fiscal year.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the County's budget for the 2016 fiscal year.

The fiscal year 2016 general fund budget is \$15.2 million or 1.5% less than the fiscal year 2015 budget. This decrease is the result of a \$12.5 million decrease in pay-as-you-go funding of capital projects

The County's property tax and income tax rates remained the same for fiscal year 2016. The Building Excise Tax (used to fund road expansion) rate was increased 1.7% (based on the Baltimore Cost Index). Water and Sewer charges remained the same for fiscal year 2016, as well as the annual refuse and recycling fees and the water and sewer ad valorem.

Currently Known Facts, Decisions and Conditions

The County is anticipating to break-even in fiscal year 2016, although fiscal year 2016 income tax received through October 2015 is down 16.0% compared to fiscal year 2015 in the same period. All other major revenue sources are on budget for fiscal year 2016.

Requests for Information

This financial report is designed to provide a general overview of Howard County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information can be addressed to the Department of Finance, 3430 Court House Drive, Ellicott City, Maryland 21043 (410) 313-2195 or e-mailed to smilesky@howardcountymd.gov. Complete financial reports are also available on our website: www.howardcountymd.gov.

Fire and Rescue's Pump-A-Thon at Family Wellness Day

Howard County Family Wellness Day is more than a health fair. It is a high energy, get active, get educated event that promotes health and wellness in the broadest sense. One of the educational pieces featured at Family Wellness Day is Howard County's Department Fire and Rescue Services' 2Hands4Life Pump-A-Thon. Over the past four years, several hundred participants have stepped up to the challenge and learned hands-only CPR. When an individual – it doesn't matter the age – suffers from a sudden cardiac arrest, their chances of survival can double or triple if they receive CPR immediately. Through its Pump-A-Thon and other Hands-Only CPR courses offered throughout the year, Fire and Rescue hopes to train all county residents on this lifesaving technique.

Basic Financial Statements

Government-wide financial statements combine all of Howard County's governmental and business-type activities, as well as its discretely presented component units.

Fund financial statements show the financial position and the operating results by fund.

Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position
June 30, 2015

Amounts reported for governmental activities in the statement of net position (page 15) are different because:

Total fund balances - governmental funds (page 17)	\$	256,859,679
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net position.		32,754,600
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.		
Bonds and notes payable		(1,061,406,177)
Capital leases		(16,212,060)
Deferred refunding gain/loss and premium		(89,538,490)
Accrued interest payable		(16,427,033)
Compensated absences		(22,751,822)
Net OPEB obligation		(380,920,007)
Landfill closure and post-closure		(31,862,000)
		(1,619,117,589)
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		1,247,107,397
The net pension liability is not due and payable in the current period and related deferred outflows and inflows are not an available resource and, therefore, are not reported in the funds.		(90,438,709)
Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as deferred inflows in the funds.		84,636,219
		84,636,219
Net position of governmental activities (page 15)	\$	(88,198,403)

The accompanying notes are an integral part of these financial statements.

Howard County, Maryland
Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2015

Amounts reported for governmental activities in the statement of activities (page 16) are different because:

Net change in fund balances - total governmental funds (page 19)		\$ (42,194,371)
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of the amount by which capital outlays exceed depreciation in the current period is as follows:</p>		
Capital outlays	69,601,042	
Less: Depreciation expense	<u>(35,507,686)</u>	34,093,356
<p>In the statement of activities, only the gain on the sale of land and buildings is reported, whereas in the governmental funds, the proceeds from the sales increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the land and buildings sold.</p>		
		(7,317,455)
<p>Donations of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.</p>		
		12,068,405
<p>Revenues to governmental funds that relate to prior periods are not reported in the statement of activities. Similarly, revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund. The details are as follows:</p>		
Revenues related to prior periods	(45,699,026)	
Revenues that do not provide current financial resources	<u>76,974,886</u>	31,275,860
<p>Long-term debt proceeds (i.e., bonds, leases, installment purchase agreements) provide current financial resources to governmental funds, while the repayment of the principal of the long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.</p>		
		(53,108,876)
<p>In the statement of activities, some expenses do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.</p>		
		(12,716,840)
<p>Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The new revenue (expense) of certain internal service funds is reported with governmental activities.</p>		
		<u>(10,249,357)</u>
Change in net position of governmental activities (page 16).		<u>\$ (48,149,278)</u>

The accompanying notes are an integral part of these financial statements.

Cycle2Health Howard County: A Bicycling Club for Older Adults

Now in its third season, Cycle2Health Howard County (C2H) is the first non-competitive, peer-led bicycling club developed for older adults. Coordinated by the Department of Citizen Services' Office on Aging, the goal of the C2H program is to provide an affordable recreational opportunity for participants to experience the benefits of exercise while exploring the natural beauty and sights of Howard County. Adults of all ages and riding abilities can participate in weekday rides, which vary in length and difficulty and depart from various locations in and around Howard County. In 2014, 140 individuals participated, averaging 15 cyclists per ride.

Notes to Basic Financial Statements

1. Summary of Significant Accounting Policies

A. The Reporting Entity

Howard County, Maryland (the County), was formed in 1851 under a commission form of government. Under home rule charter since 1968, the County is governed by an elected County Executive and a five-member County Council serving separate executive and legislative functions.

The basic financial statements include Howard County, Maryland as the primary government and its significant component units, entities for which the County is considered to be financially accountable. The component units include the activities of the Howard County Public School System, the Library, the Community College, and the Housing Commission. The Volunteer Fire Districts have not met the established criteria for inclusion in the reporting entity and, accordingly, are excluded from this report. The component units are included in the County's reporting entity because of the significance of their operational or financial relationship with the County in that the County approves budgetary requests and provides a significant amount of funding.

Discretely Presented Component Units

The financial data of the County's component units are discretely presented in a column separate from the financial data of the primary government. They are reported in a separate column to emphasize that they are legally separate from the County. The following are the County's component units that are included in the reporting:

The Howard County Public School System is responsible for the operation of special education, elementary, middle and high schools. The Board of Education is comprised of five members elected by County voters. The County is responsible for levying taxes and has budgetary control over the Board.

The Howard County Library operates various library branches throughout the County. The Library is governed by a seven-member board nominated by the County Executive and approved by the County Council. The County approves the Library's annual budget and provides substantial funding to the Library.

The Howard Community College provides educational services to County citizens by offering two-year associate degrees and a continuing education program. The Community College is governed by a seven-member board appointed by the governor of Maryland. The County approves the College's annual budget and provides substantial funding to the College.

The Howard County Housing Commission is a public corporation established by Maryland and Howard County law to act as builder, developer, owner, and manager of housing for eligible participants. The Commission is comprised of seven commissioners appointed by the County Executive and approved by the County Council. The County provides substantial funding to the Commission and approves its annual budget.

Financial information regarding the component units is included in the component units combining statements. Annual financial reports for individual component units can be obtained from their respective administrative offices:

Howard County Public School System
10910 Route 108
Ellicott City, Maryland 21042

Howard County Library
10375 Little Patuxent Parkway
Columbia, Maryland 21044

B. Government-Wide and Fund Financial Statements

The Statement of Net Position and Statement of Activities present financial information on all the non-fiduciary activities of the primary government and its component units. Generally, the effect of interfund activity has been removed from these statements with the exception of interfund services provided and used. Government activities, which primarily are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities displays the extent to which direct expenses are offset by program revenues for each function of governmental activities and for each segment of business-type activities. Direct expenses are those that can be attributed to a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and pension trust fund financial statements. Agency funds do not have a measurement focus and are reported using the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when liabilities are incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they become both measureable and available. Revenues are considered to be available when they are collectible within the current period, or soon enough thereafter to pay liabilities of the current period. The County considers all revenues, with the exception of income tax revenue, to be available if they are collected within sixty days after the end of the current fiscal period. Income tax revenue is considered to be available if it is collected within thirty days after the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, as well as expenditures related to vacation, sick leave, claims, and judgments, are recorded only when payment is due.

Property taxes, other local taxes, state shared taxes, fines and forfeitures, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measureable and available only when cash is received by the County.

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Agricultural Land Preservation Fund* accounts for 25% of the local transfer tax and the County development tax which are dedicated to preserving the agricultural use of land through the purchase of development rights of property owners.

The *General Capital Projects Fund* is used to account for the construction of general capital projects such as senior centers, community centers, and administrative buildings, in addition to public schools and buildings for the Community College.

The County reports the following major proprietary fund:

The *Water and Sewer Fund* accounts for the County's water and sewer operations, construction or acquisition of capital assets, and related debt service costs. All assets, except those available to fund current liabilities, are considered restricted because a change in the charter is required to allow these assets to be used for other purposes.

The County reports the following fund types:

Special Revenues Funds are used to account for and report the proceeds of special revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. This definition establishes that at least one restricted or committed revenue source must be the foundation of the special revenue fund. The following revenue sources are included in special revenue funds: local transfer tax, fire and rescue tax, forest conservation developer fees, residential trash collection and disposal fees, grants, registration fees for recreational programs, fines for speed enforcement, and fees for health services.

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets, except those accounted for in the General Capital Projects Fund and proprietary fund types.

Debt Service Funds are used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of principal and interest on long-term obligations of governmental funds.

Enterprise Funds are used to account for the activities of the Special Recreation Facility Fund, Watershed Protection and Restoration Fund and Broadband Fund. The Special Recreation Facility Fund accounts for the operations and related debt service costs of a public golf course, the Watershed Protection and Restoration Fund accounts for the maintenance, operations, and improvement of the local stormwater management system and the Broadband Fund accounts for broadband services to private sector businesses as well as non-County government agencies and County departments and component units. All assets, except those available to fund current liabilities, are considered restricted because a change in the charter is required to allow these assets to be used for other purposes.

Internal Service Funds are funds used to account for goods and services furnished by one County department to another County department on a cost reimbursement basis. Internal Service Funds account for centralized vehicle fleet and mailing services; technology and communication operation; risk management activities for workers' compensation, general liability, environmental, vehicle and property insurance; and County employee health benefit costs.

Agency Funds are used to account for resources held in a custodial capacity on behalf of parties outside the government, including money paid by residents for State property tax, bay restoration

fees, surety bonds held on construction work, and multifarious funds donated to be used by the Law Library, the Revenue Authority and the Domestic Violence Center.

Pension Trust Funds are used to account for the activities of the County's single-employer public employee retirement plans. These include the Police and Fire Employees' Retirement Plan and the General Employees' Plan. The plans account for employee contributions, County contributions and the earnings and profits from investments. They also account for the disbursements made for employee retirements, withdrawals, disability, and death benefits as well as administrative expenses. Annual Financial Reports for both pension trust funds can be obtained from their administrative office at Howard County, Maryland, Director of Finance, 3430 Court House Drive, Ellicott City, Maryland, 21043 or from the website at www.howardcountymd.gov.

Other Post-Employment Benefits (OPEB) Trust Fund was established to account for the other post-employment benefits of the County and its component units. The trust fund acts as a funding mechanism for employers' cost of retiree benefits.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this general rule is charges between water and sewer operations and other County departments because the elimination of those charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds and Internal Service Funds are charges to customers for sales and services. Operating expenses for Enterprise Funds and Internal Service Funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first and then unrestricted resources as they are needed.

D. Budgetary Process

Pursuant to County Charter, the County Executive's capital and operating portions of the budget for all County funds are submitted to the County Council by April 1 and 21, respectively. The County Council holds public hearings before passing the annual budget appropriation ordinance. If the County Council does not pass the budget ordinance, the Executive's proposed budget ordinance stands adopted. The adopted budget becomes effective July 1, and provides the spending authority at the individual department level for the operations of the County government with the unexpended or unencumbered appropriation authority of the operating budget expiring the following June 30. Capital unencumbered appropriations continue until the capital project is closed.

During the fiscal year, the County Council, upon the request of the County Executive, may approve transfers between projects in the capital budget but it may not increase the total size of the capital budget. The County Council, at any time during the fiscal year, may approve supplemental operating budget requests from the County Executive. The budgeted contingency reserve, which may not exceed 4 percent of the appropriated budget, is the funding source for supplemental requests. After April 1 of each year, the Council may also, at the request of the Executive, approve transfers between departments in the operating budgets. The Council may approve supplemental budgets from un-appropriated funds only in emergencies affecting "life, health, and property." Additionally, the County Executive has the authority to make

transfers within a department at any time during the year without approval of the County Council. During fiscal year 2015, the Council approved eight operating budget supplements.

Budgetary data, as revised, is presented in the Basic Financial Statements for the General and Agricultural Land Preservation Funds. Outstanding encumbrances are included in the final budget as actual expenditure amounts in those statements because they remain in force and do not lapse until the end of the subsequent fiscal year. Lapsed appropriations are reported as additions to fund balance on a budgetary basis.

E. Deposits and Investments

Cash Equivalents

The County considers all demand deposits and investments with a maturity of three months or less when purchased to be cash and cash equivalents.

Investments

The County follows Governmental Accounting Standards Board (GASB) Statement 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, which requires marketable securities to be carried at fair value. The County currently limits its purchases to maturities of one year or less (except those items described in the next paragraph). The County has an internal investment pool that is available for use by all funds.

The investments of the Pension Trust Funds are reported at fair value. The securities of the Pension Trust Funds traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments in the Governmental Funds represent stripped-coupon U.S. Treasury securities stated at fair value in the Agricultural Land Preservation Fund. They are also reported in aggregate as part of U.S. Government Securities in the Equity in Pooled Cash and Cash Equivalents and Investments note.

Also, in accordance with investment policy, the Pension Trust Funds may invest in collateralized mortgage obligations (CMO) and putable bonds. These investments are reported as part of U.S. Government Agency notes in the Equity in Pooled Cash and Cash Equivalents and Investments note disclosure.

F. Loans Receivable

For purposes of the fund financial statements, housing loans in the Community Renewal Fund are charged to the budget upon funding, and the loans are recorded with an offset to a non-spendable fund balance account. A receivable, "due from component units," along with an offset to non-spendable fund balance, is recorded in the General Fund as the Howard Community College has an agreement to reimburse the County for bond issues related to construction costs of a parking deck and the Horowitz Visual and Performing Arts Center. For purposes of the government-wide financial statements, neither housing loans nor the receivable from the College are offset by restricted Net Position accounts.

G. Inventory

Materials and supplies are valued at cost, using the weighted average method. Materials and supplies are recorded as assets when purchased, and charged to expenditures/expenses when consumed. This is referred to as the consumption method of inventory accounting. The County also has some materials and supplies that are expensed off directly when purchased, as they are consumable items purchased for the use within County, examples include office supplies, paper towels and cleaning materials.

H. Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items). They are recorded at historical or at estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair market value at the date donated.

Capital assets are defined by Howard County as assets with an initial, individual cost of \$5,000 or greater and an estimated useful life in excess of one year.

Capital assets are depreciated using the straight-line method over the estimated useful lives (in years) as follows:

Buildings	50	Computer Software	5
Infrastructure	15-40	Vehicles	5-10
Water and sewer lines	50	Furniture and equipment	5-20

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized; they are charged to operations when incurred. Betterments and major improvements that significantly increases values, change capacities or extend useful lives are capitalized.

I. Compensated Absences

County employees are granted vacation, personal, and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation days. Classified employees are limited to an accrual of forty days and executive exempt employees have no leave accrual limit. Employees who terminate employment are not reimbursed for accumulated sick leave. Payments made to terminated employees for accumulated vacation leave are charged as expenditures/expenses, primarily in the General Fund, Special Revenue Funds, and Proprietary Funds, when paid. Accumulated vacation benefits at year-end are recorded as obligations in the Statement of Net Position and Proprietary Fund Statements.

J. Self-Insurance

The County establishes its funding of claims liabilities as they occur. This funding level includes provisions for indemnity, medical losses, and allocated loss adjustment expenses which are all classified as incremental claim adjustment expenses. Unpaid claims in the self-insurance funds include liabilities for unpaid claims based upon individual case estimates for claims reported and claims incurred but not reported (IBNR) as of fiscal year-end.

K. Water and Sewer Assessments

Water and sewer assessments are charged to property owners on a 30-year basis to recover the debt service on bonds used to construct main and lateral water and sewer lines which benefit such properties. A water and sewer assessments receivable (restricted assets) is established for the entire uncollected assessed amount. The portion of the receivable relating to bond principal is credited to Net Position and the portion representing interest is initially recorded as a deferred inflow and then recognized as revenue when billed.

From 1980 to 2004 the deferred inflow increased as the water and sewer system was being built. The deferred inflow is now declining and will continue to do so as debt is retired and there are minimal new assessments. The Water and Sewer ad valorem charge (billed annually to all property within the Metropolitan District) is sufficient to fund the debt service related to the cost of infrastructure.

L. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for *deferred outflows of resources*. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government has several items that qualify for reporting in this category. The first is the deferred refunding amount reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The second is for changes in actuarial assumptions for the pension plans reported in the government-wide statement of net position. This amount is amortized over the

average expected remaining service life of employees. The third is for pension contributions made subsequent to the measurement date. This amount will be recognized on the government-wide statement of activities in the next fiscal year.

In addition to liabilities, the statement of financial position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has several types of deferred inflows of resources that qualify for reporting in this category. In the government-wide statement of net position the government reports unavailable revenue from prepaid taxes. For business-type activities, the government reports unavailable revenues from water and sewer assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Additionally, the County reports pension investment earnings greater than projected as a deferred inflow. This amount is amortized over five years.

Under the modified accrual basis of accounting, several deferred inflows of resources are reported as unavailable revenues. In the governmental balance sheet the government reports deferred inflows of resources from: income and property taxes, fees, grant revenues and prepaid taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

M. Net Position Flow Assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the County's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

N. Fund Balance Flow Assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

O. Fund Balance

In the fund financial statements, fund balance is classified based on the extent to which the County is bound to observe constraints on the specific purposes for which the amounts can be spent. Fund balance is reported within one of the five fund balance categories listed below:

Nonspendable – Includes fund balance amounts that cannot be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact such as a permanent fund. Not in spendable form includes items that are not expected to be converted to cash, such as inventories and prepaid items.

Restricted – Includes fund balance amounts that are restricted to specific purposes when constraints are placed on the use of resources by external parties, constitution provisions or enabling legislation. Enabling legislation authorizes the County to assess, levy, charge or

otherwise mandate payment of resources and includes a legally enforceable requirement that those resources be used only for the specific purpose stipulated in the legislation.

Committed – Includes fund balance amounts for which constraints have been imposed by the government itself, using the highest level of decision-making authority via County ordinances. In addition, these constraints can only be removed or changed through formal action by the Council.

Assigned – Includes fund balance amounts intended to be used for specific purposes. It is County policy that the County Executive assigns fund balance amounts in the General Fund at the recommendation of both the Director of Finance and the Budget Administrator. In addition, GASB 54 requires all residual amounts in special revenue funds to be reported as assigned.

Unassigned - Represents the residual fund balance of the General Fund (cannot be reported in other Governmental Funds unless amount is reported negative) after the above fund balance categories are reported.

P. Budget Stabilization Account

The County has established a budget stabilization account (also known as the Rainy Day Fund) to provide funding in emergency situations or in cases of revenue shortfalls. The County Charter sets a goal of maintaining the account at seven percent of audited General Fund expenditures for the most recently completed fiscal year at the time the budget is prepared. When the fiscal year 2015 budget was prepared, the fiscal year 2013 financial statements were the most recently completed and audited. Therefore, the charter target is based upon fiscal year 2013 audited expenditures. An increase of \$1,989,413 was made to the fund in fiscal year 2015, which resulted in achieving the charter target of \$61,260,575.

The budget stabilization account is calculated as follows:

Budget Fiscal Year	Audited Expenditures from Fiscal Year	Audited Expenditures*	Percentage	Charter Target
2015	2013	\$ 875,151,065	7%	\$ 61,260,575
2016	2014	\$ 916,751,956	7%	\$ 64,172,637
2017	2015	\$ 962,613,898	7%	\$ 67,382,973

*Budgetary expenditures and encumbrances less pay-as-you-go expenditures.

Q. Net Position Restricted by Enabling Legislation

Net Position restricted by enabling legislation represents accumulated Net Position attributed to revenue sources, such as taxes and fees, which are restricted for specified purposes by State enabling legislation in the County Code. These amounts, which are included with restricted Net Position in the government-wide Statement of Net Position, were as follows at year-end:

Governmental activities	\$ 100,314,009
Business-type activities	48,241,852
Component units	16,090,584
Total	\$ 164,646,445

R. Implementation of New Accounting Principles

The County adopted the provisions of one Governmental Accounting Standards Board Statement:

Statement No. 68, “*Accounting and Financial Reporting for Pension Plans*,” effective for fiscal years beginning after June 15, 2014. This statement replaces the current standards (GASB No. 27, “*Accounting for Pensions by State and Local Governmental Employers*,” and GASB No. 50, “*Pension Disclosures*”) for employers with defined benefit pension plans. GASB No. 68 requires employers to shift from a “funding approach,” in which pension liability is not reported if employers make the annual required contribution, to an “earnings approach,” in which pension liability is reported as employees earn their pension benefits. Changes in pension liability are recognized immediately as pension expense or as deferred inflows/outflows of resources to be amortized over future periods by (1) establishing the standards for measuring and recognizing Net Pension Liability, (2) identifying the methods and assumptions that should be used to determine Total Pension Liability and (3) stipulating incremental note disclosures and RSI in the financial reports for employers with defined benefit plans.

Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date, issued in November 2013 as an amendment to GASB 68. This statement requires the government to recognize a beginning deferred outflow of resources for its pension contributions made subsequent to the measurement date of the beginning net pension liability and must be applied simultaneously with the provisions of GASB 68.

2. Equity in Pooled Cash and Cash Equivalents and Investments

The County’s cash and cash equivalents and investments are managed separately from the Pension and Other Post-Employment Benefits Trust funds and each are discussed separately below.

County’s Cash and Cash Equivalents and Investments

The County maintains a cash, cash equivalents, and investment pool that is available for use by all funds except the Pension and Other Post-Employment Benefits Trust funds. Each County fund is allocated interest income based on its share of the investment pool. Except as otherwise legislated, interest income earned by Governmental and Internal Service Funds is transferred to the General Fund.

Custodial Credit Risk – Deposits: In the case of deposits, this is the risk that in the event of a bank failure, the government’s deposits may not be returned to it. The County’s investment policy requires at least 102% collateralization of deposits. None of the component units have a policy covering deposits. The carrying amount of total deposits, including certificates of deposit, for the County was \$43,642,297 and the bank balance was \$56,387,776 at fiscal year-end. The bank balance was covered by federal depository insurance or by collateral held by the County’s agent in the County’s name. The component units had a combined bank balance of \$58,378,451. Of that amount, \$1,621,595 was covered by federal depository insurance or by collateral held in the component unit’s name, and the remaining \$56,756,856 was covered by collateral held in the pledging bank’s trust department or by the pledging bank’s agent in the component unit’s name.

Investments: The County has adopted an investment policy that is designed to provide maximum safety and liquidity of funds while providing a reasonable rate of return. Permissible investments include U.S. Treasury Obligations, U.S. Government Agency and U.S. Government-Sponsored Enterprises, repurchase agreements, collateralized certificates of deposit, bankers’ acceptances, commercial paper, the Maryland Local Government Investment Pool, and mutual funds dealing in government securities. The County’s policy and State law require that the underlying collateral for repurchase agreements and certificates of deposit must have a market value of at least 102% of the investment’s cost plus accrued interest.

The County’s policy is more restrictive than State law, limiting the percentage of total portfolio that can be invested in certain investment types. These investment types, and the maximum percentage of the portfolio that can be invested in each are: U.S. Treasury Obligations – 100%, U.S. Government Agency and U.S. Government-Sponsored Enterprises – 90%, repurchase agreements – 90%, collateralized certificates of deposit – 5%, bankers’ acceptances – 30%, commercial paper – 5%, and mutual funds – 60%. State law places no limits

on these types of investments. Another restriction the County has is to limit the maximum amount invested through any broker, dealer or other financial institution to 40% of the portfolio. In addition, all component units have investment policies.

The table below reconciles the County's deposits (\$43,642,297) and the investments (\$1,206,054,873) to the government-wide Statement of Net Position and the Statement of Fiduciary Net Position – Pension and Other Post-Employment Benefits Trust Funds and Agency Funds:

Equity in pooled cash and cash equivalents	\$ 224,822,848
Restricted equity in pooled cash and cash equivalents	117,978,049
Investments - fair value	906,896,273
Total	\$ 1,249,697,170

Investments of the County and its component units at fiscal year-end:

Investments	Fair Value		
	Primary Government	Component Units	Reporting Entity
Repurchase agreements	\$ 20,000,000	-	20,000,000
U.S. Government securities	52,717,251	-	52,717,251
U.S. Government - Sponsored Enterprises	134,813,662	-	134,813,662
Commercial Paper	9,990,744	-	9,990,744
Maryland Local Govt. Investment Pool	109,352,056	124,370,753	233,722,809
Money market funds	25,002,137	672,268	25,674,405
Mutual funds	-	10,087,811	10,087,811
Treasury Bills	-	708,940	708,940
Equity in properties under home ownership	-	3,867,470	3,867,470
Total	\$ 351,875,850	139,707,242	491,583,092

Interest Rate Risk: The County's investment policy requires that the majority of investments have a maturity of one year or less, except for U.S. Treasury stripped coupon securities purchased as part of the Agricultural Land Preservation Program (see Note 7). These securities have no coupon and have long-term maturity lengths; therefore, they are very interest-rate sensitive. If market interest rates were to rise, the market value of these securities would decline further than a similar coupon-paying Treasury security. Conversely, if market interest rates were to fall, the market value of these securities would rise further than a similar coupon-paying Treasury security. The County plans to hold these securities to their maturity.

At fiscal year-end, the County did not have any callable investments. Therefore, all investment maturity dates were considered when calculating the weighted average maturity.

The following is a list of County investments included in the computation of weighted average maturities.

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (in years)</u>
Repurchase agreements	\$ 20,000,000	0.16
U.S. Government securities	52,717,251	5.87
U.S. Government - Sponsored Enterprises	134,813,662	0.32
Commercial Paper	9,990,744	0.33
Total	\$ 217,521,657	
Portfolio weighted average maturity		1.65

The Maryland Local Government Investment Pool and the money market funds used by the County are operated in accordance with Rule 2a-7 of the Investment Company Act of 1940. The County's investments in these pools are not included in the computation of weighted average maturity.

Credit Risk: State law limits investments in bankers' acceptances and commercial paper to the highest short-term debt letter and numerical rating by at least one nationally recognized statistical rating organization. All investments in U.S. Government Sponsored Enterprises are rated AA+ by Standard & Poor's. The Maryland Local Government Investment Pool and the money market fund are both rated AAAm by Standard & Poor's. Investments in short-term commercial paper is rated P-1 by Moody's Investor Services.

Concentration of Credit Risk: The County's investment policy places no limit on the amount the County may invest in any one issuer. More than 5% of the County's investments are in the Federal Home Loan Bank, Federal Farm Credit Bank and the Federal Agricultural Mortgage Corporation. At fiscal year-end, investments in these U.S. Government Sponsored Enterprises represent 64.96% of the County's total investments.

Pension Trust Funds' Cash and Investments

The County's Pension Trust funds, the Howard County Police and Fire Employees' Retirement Plan, and the Howard County Retirement Plan (the Plans), share commingled funds that are allocated based on each Plan's percentage of ownership. The Plans have an investment policy that is designed to provide benefits as anticipated through a carefully planned and executed investment program that achieves a reasonable long-term total return consistent with the level of risk assumed. To help achieve this return, professional investment managers are employed by the Plans to manage the Plans' assets. The Plans employ State Street Bank as trustee for their assets.

Investments: The Plans' investment policy includes an asset allocation plan for investments. The target allocation is 70% equities (including alternative investments and real estate) and 30% fixed income. The minimum and maximum percentages for equities are 47.5% (including 15% alternative investment and 2.5% real estate) and 90% (including 27.5% alternative investments and 12.5% real estate), respectively, and for fixed income are 20% and 40%, respectively.

Investments of the Plans at fiscal year-end:

Investments	Fair Value
Equities	\$ 363,582,745
Alternative Investments	153,607,986
Money market funds	12,500,067
Fixed income	218,262,188
Real estate	35,650,644
Total	\$ 783,603,630

Interest rate risk: The Plans' investment policy does not place any limits on the professional investment managers with respect to the duration of investments managed for the Plans. Following is a list of County Plan investments included in the computation of weighted average maturities.

Investment Type	Fair Value	Weighted Average Maturity (in years)
Corporate bonds	\$ 52,804,802	10.94
U.S. Government - Sponsored Enterprises	32,881,914	20.70
Government Issues/Treasuries	8,879,435	1.23
Collateralized mortgage obligations	5,729,595	26.20
Credit card receivable	4,618,815	3.80
Municipal securities	3,706,298	11.55
Other asset-backed securities	1,179,506	11.91
Auto loan receivable	1,160,219	7.72
Total	\$ 110,960,584	
Portfolio weighted average maturity		1.92

Credit Risk: The money market fund used by State Street Bank is unrated, as are the mutual funds used by the Plans. At fiscal year-end, the Plans' fixed income investments had the following risk characteristics:

Standard & Poor's Rating or Comparable	Fair Value
AAA to A-	\$ 17,495,233
BBB to B+	44,771,041
Total	\$ 62,266,274

Custodial Credit Risk: State Street Bank invests in Government Short-Term Investment Fund (GSTIF) on behalf of the Plans. At fiscal year-end, the amount in this fund at fair value was \$12,462,306 which was partially used for settlement of open purchases of \$546,210. All other investments of the fund are held by State Street Bank as trustee in the Plans' names.

Credit Risk – Currency Forward Contract: One of the Plans’ investment objectives is to diversify assets in accordance with the Modern Portfolio Theory (MPT) in order to reduce overall risk. Consistent with this objective, the Plans have participated in a mutual fund that holds 3-month currency forward contracts. This strategy is undertaken to protect the dollar value of underlying international investments. The hedging is restricted to 100% of the underlying asset value and 50% of the total Fund value. At fiscal year-end, there were no hedges in place.

Foreign Currency Risk: The Plans’ exposure to foreign currency risk derives from its investments in foreign currency or instruments denominated in foreign currency. Investments in such securities are limited to a maximum net currency exposure of 40.0% at any given time. At fiscal year-end, the Plans’ exposure to foreign currency risk is as follows:

Investment Type	Currency	Fair Value
Foreign currency	Canadian & Euro currency	\$ 114
Total		\$ 114

Other Post-Employment Benefits (OPEB) Trust Funds’ Cash, Cash Equivalents and Investments

The County’s OPEB Trust funds have an investment policy that is designed to provide benefits as anticipated through a carefully planned and executed investment program that achieves a reasonable long-term total return consistent with the level of risk assumed. To help achieve this return, professional investment managers are employed by the Plans to manage the Plans’ assets. The Trust employs U.S. Bank as the custodian of its assets.

Investments: The Plans’ investment policy includes an asset allocation plan for investments. The target allocation is 65% equity mutual funds and 35% fixed income mutual funds. The minimum and maximum percentages for equities are 39% and 99%, respectively, and for fixed income are 20% and 60%, respectively.

Investments of the Plans at fiscal year-end:

Investments	Fair Value
Cash	\$ 34,110
Mutual Funds	70,414,766
Money market funds	126,516
Total	\$ 70,575,392

Credit Risk: The Maryland Local Government Investment Pool is rated AAA by Standard & Poor’s. The money market funds used by U.S. Bank are unrated, as are the mutual funds used by the Plans.

3. Receivables

Receivables at fiscal year-end of the County's major individual Governmental Funds, Non-Major Governmental Funds, and other funds (including Proprietary Funds, Internal Service Funds and Fiduciary Funds) in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

Receivables:	General	Agricultural	General	Water and	Non-Major	Total
	Fund	Land Pres. Fund	Capital Proj.	Sewer	and Other Funds	
Property taxes	\$ 4,374,274	-	-	264,610	1,317,996	5,956,880
Service billings	-	-	-	13,438,827	224,531	13,663,358
Water and sewer assessments	-	-	-	47,681,852	-	47,681,852
Due from other governments	83,003,879	1,545,716	2,530,735	27,635,759	15,459,992	130,176,081
Due from component units	7,495,229	-	7,092,557	-	-	14,587,786
Other	1,556,421	-	1,277,734	66,739	24,881,694	27,782,588
Gross receivables	96,429,803	1,545,716	10,901,026	89,087,787	41,884,213	239,848,545
Less: Allowance for uncollectibles	(805,932)	-	-	-	-	(805,932)
Total Receivables	\$ 95,623,871	1,545,716	10,901,026	89,087,787	41,884,213	239,042,613

Due from other governments consists of uncollected tax and grant revenues from Federal and State governments. Property tax receivables in the proprietary funds are liens on real property that will be sold via the annual tax sale process if not paid. Therefore, no allowance is established.

4. Interfund Receivables, Payables, and Transfers

The composition of interfund balances at fiscal year-end is as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Health Department Fund	\$ 1,137,466
	Grants Fund	1,862,242
	Tax Increment Financing Fund	60,950
		<u>\$ 3,060,658</u>
Highway Fund	Library Fund Capital Projects	\$ 937,239
	Storm Drain Fund Capital Projects	7,157,409
	General Capital Projects	25,548,595
		<u>\$ 33,643,243</u>
Total		\$36,703,901

The balances are the result of loans made to cover any operating cash deficits.

Transfers:

Interfund transfers for the year consisted of the following:

Fund	General	Capital		Non-Major	Internal Service	Debt Service	Enterprise		Total In
		General	Non-Major	Special Revenue			W&S	Non-Major	
General	\$ -	8,188,796	11,790,762	648,153	2,319,571	37,638	-	-	22,984,920
Capital									
General	1,367,938	-	-	-	-	-	-	-	1,367,938
Non-Major	15,605,895	-	-	534,992	-	-	500,000	3,369,951	20,010,838
Non-Major Special									
Revenue	7,791,621	-	-	650,098	-	-	-	-	8,441,719
Debt Service	348,194	-	-	-	-	-	-	-	348,194
Non-Major Enterprise	168	-	-	120,000	52,940	-	-	-	173,108
Total Out	\$25,113,816	8,188,796	11,790,762	1,953,243	2,372,511	37,638	500,000	3,369,951	53,326,717

The transfers out from the General Fund are operating funding to the Health Department, the disbursement of pay-as-you-go funding to various capital projects, funding of bond anticipation note debt service expenditures in excess of interest income, and interest allocation to various funds. Transfers out from the Debt Service Funds are to reimburse the General Fund for expenditures related to the Tax Increment Financing Fund. Transfer tax revenue is dedicated to various functions in the Capital Projects and Non-Major Special Revenue Funds. Part of that revenue is then transferred to the General Fund to cover each function’s share of debt service costs for the year.

5. Property Tax and Transfer Tax

The County’s real property tax is levied each July 1 on the assessed value certified as of that date for all taxable real property located in the County. Assessed values are established by the Maryland State Department of Assessments and Taxation at 100 percent of estimated market value. The State uses January 1 as the date of finality and processes additions, deletions and corrections throughout the year. A revaluation of all property is required to be completed every three years. County taxes are due and payable, and become a lien on the property, on July 1 of each fiscal year. A discount of ½ percent is allowed if payment is made in July. Property taxes are billed and payable semi-annually on properties designated as “principal residence” unless a taxpayer makes an election to pay annually. The first installment is due by September 30 while the second installment is due December 31. If delinquent, taxes are charged a penalty and interest (1.5 percent) each month that they remain unpaid. If the annual payment election is made, taxes become delinquent October 1 and are charged a penalty and interest (1.5 percent) each month that taxes remain unpaid. Tax lien certificates are sold at a public auction in May or June for properties with delinquent taxes. Property taxes levied during the current year are recorded as receivables and revenue, net of estimated uncollectible amounts of personal property tax. The net receivables uncollected 60 days after year-end are recorded as deferred inflows of resources as described in Note 3.

The Howard County Code imposes a transfer tax upon every instrument of writing conveying title to real or leasehold property offered for sale or lease and recorded in Howard County. The Code specifies that the proceeds shall be distributed to the School Construction Fund (25 percent), the Recreation and Parks Fund (25 percent), the Agricultural Land Preservation Fund (25 percent), the Community Renewal Fund (12-1/2 percent), and the Fire Service Building and Equipment Fund (12-1/2 percent).

6. Capital Assets

Capital asset activity for governmental activities for the fiscal year was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities:				
Capital assets not being depreciated:				
Land and land improvements	\$ 554,238,198	13,003,469	6,031,479	561,210,188
Construction in progress	64,728,234	89,397,253	103,510,599	50,614,888
Total capital assets, not being depreciated	<u>618,966,432</u>	<u>102,400,722</u>	<u>109,542,078</u>	<u>611,825,076</u>
Capital assets being depreciated:				
Buildings	320,827,785	35,423,424	1,427,968	354,823,241

Depreciation expense was charged to functions/programs of business-type activities as follows:

Business-type activities:	Amount
Water and sewer system	\$ 19,701,340
Golf course	39,829
Inter-County Broadband	720,961
Watershed	25,762
Total depreciation expense - business-type activities	<u>\$ 20,487,892</u>

Construction Commitments:

Total construction encumbrances outstanding at fiscal year-end were \$114,053,748.

7. Long-Term Obligations

A. Primary Government

A summary of long-term debt outstanding for the primary government at fiscal year-end is as follows:

	<u>Due Dates</u>	<u>Interest Rates</u>	<u>Amount Outstanding</u>
Governmental Activities:			
Consolidated public improvement bonds	2016-2035	2.375% to 5.55%	\$ 945,305,000
State water quality revolving loan	2016	2.41%	2,475,000
Total debt subject to statutory limit			947,780,000
Tax increment financing bonds	2016 - 2044	4.80% to 6.10%	17,000,000
Compensated absences	various	not applicable	23,385,185
Capital leases	various	not applicable	17,893,604
Net OPEB obligation	various	not applicable	380,920,007
Net pension liability	various	not applicable	108,323,773
Landfill closure obligation	various	not applicable	31,862,000
Agricultural land preservation program	2016-2033	2.19% to 8.60%	96,626,177
Total Governmental Activities			(1) \$ 1,623,790,746
Business Type Activities:			
Metropolitan district bonds	2016-2045	2.00% to 5.00%	\$ 230,735,000
Special facility revenue bonds	2016-2022	2.475%	4,133,000
State water quality revolving loan	2016-2031	1.00% to 2.40%	27,678,601
Compensated absences	various	not applicable	818,469
Net OPEB obligation	various	not applicable	6,963,442
Net pension liability	various	not applicable	2,185,432
Major water and sewer agreements	various	not applicable	1,461,969
Total Business Type Activities			(2) \$ 273,975,913
Total			\$ 1,897,766,659

Note (1): Does not include deferred refunding premium liability of \$89,975,459, unpaid claims of \$15,750,339, other non-current liabilities of \$3,125,245, included in the Statement of Net Position.

Note (2): Does not include deferred refunding premium of \$8,303,241 and developer agreement rebates of \$43,501 (a contractual obligation to reimburse a developer for a portion of the cost of constructing water/sewer lines donated to the County) included in the Statement of Net Position.

The County is subject to State and County law which limits the amount of applicable General County debt (including Consolidated Public Improvement Bonds and State Water Quality Revolving Loan) outstanding to 4.8 percent of the assessed value of real property and personal property located in the County. At fiscal year-end the statutory debt limit was \$2,195,095,879, providing a debt margin of \$1,247,315,879. The authorized, unissued General County Bonds, Metropolitan District Bonds, and Water Quality Bonds at fiscal year-end were \$304,736,995, \$260,663,477 and \$23,936,000 respectively. It is the County's intent to use such unissued bonds

to fund future capital projects. There is no overlapping municipal bonded debt in the County and the County is in compliance with its debt agreement provisions.

The changes in long-term obligations for the primary government for the fiscal year are as follows:

	Beginning			Ending		Amounts
	Balance	Additions	Retirements	Balance		Due Within One Year
Consolidated public improvement bonds	906,780,000	184,195,000	145,670,000	945,305,000		60,970,000
State water quality revolving loan	2,830,000	-	355,000	2,475,000		2,475,000
Tax increment financing bonds	17,000,000	-	-	17,000,000		-
Compensated absences	21,935,378	3,449,577	1,999,770	23,385,185		420,529
Capital leases	5,062,113	14,454,424	1,622,933	17,893,604		3,078,370
Landfill closure obligation	32,116,000	-	254,000	31,862,000		-
Agricultural land preservation program	95,628,635	3,448,120	2,450,578	96,626,177		2,541,578
Total Governmental Activities	1,081,352,126	205,547,121	152,352,281	1,134,546,966	(1)	69,485,477
Metropolitan district bonds	213,570,000	31,015,000	13,850,000	230,735,000		9,500,000
Special facility revenue bonds	4,583,000	-	450,000	4,133,000		461,000
State water quality revolving loan	30,930,305	-	3,251,704	27,678,601		3,171,029
Compensated absences	751,248	83,140	15,919	818,469		36,846
Major water and sewer agreements	49,308	1,866,415	453,754	1,461,969		-
Total Business Type Activities	249,883,861	32,964,555	18,021,377	264,827,039	(2)	13,168,875
Total	\$1,331,235,987	238,511,676	170,373,658	1,399,374,005		82,654,352

Note (1): Does not include deferred refunding premium liability of \$89,975,459, unpaid claims of \$15,750,339, other non-current liabilities of \$3,125,245, net OPEB obligation of \$380,920,007, and net pension liability of \$108,323,773 included in the Statement of Net Position.

Note (2): Does not include deferred refunding premium of \$8,303,241, net OPEB obligation of \$6,963,442, net pension liability of \$2,185,432, and developer agreement rebates of \$43,501 (a contractual obligation to reimburse a developer for a portion of the cost of constructing water/sewer lines donated to the County) included in the Statement of Net Position.

The full faith and credit and unlimited taxing power of the County are irrevocably pledged to the payment of the principal and interest of General County bonds and other long-term debt. Metropolitan District bonds and their related interest charges are being financed from front foot benefit assessment charges, ad valorem taxes and in-aid-of-construction charges. In the event such revenues and charges are insufficient to finance the debt service, the full faith and credit and unlimited taxing power of the County are irrevocably pledged to the payment of the principal and interest of these bonds.

On April 22, 2015 the County issued \$184,195,000 in Consolidated Public Improvement Project and Refunding Bonds 2015 Series A, with a true interest cost of 2.65% and \$31,015,000 in Metropolitan District Project Bonds 2015 Series A, with a true interest cost of 3.22%. The County issued these bonds to refund \$87,290,000 and \$4,210,000 of Consolidated Public Improvement and Metropolitan District Bonds, respectively; pay off \$134,700,000 of Consolidated Public Improvement Commercial Paper Bond Anticipation Notes, 2014 Series (BANs); reimburse the County for costs related to capital projects; and to pay bond issuance costs. The savings or aggregate difference in debt service from refunding Consolidated Public Improvement Bonds was \$12,871,667 and from refunding Metropolitan District Bonds was \$533,806. The

economic gain or net present value of savings from refunding Consolidated Public Improvement Bonds was \$10,678,015 and from refunding Metropolitan District Bonds was \$421,887.

The County issues debt to finance the construction of certain capital facilities of its component units and to finance major water and sewer projects done in conjunction with the City of Baltimore (the "City") and Baltimore County, which affects the "unrestricted" net position component in the statement of net position. The following summarizes these situations in which the County is reporting the debt in its financial statements, while the corresponding assets are reported by the other reporting entity.

- The Board of Education (Public School System) and the Community College have no authority to issue bonded debt. The authority rests with the County subject to approval of the Council. The County had approximately \$544.5 million of its net Consolidated Public Improvement general obligation bonds outstanding that is related to capital facilities of the component units at fiscal year-end.
- The Metropolitan District Act requires the City to provide water to the County's Metropolitan District. The City also treats sewage from the Metropolitan District at cost. The County has agreed to pay the City on a pro rata basis for construction of certain City-owned water and sewer capital projects that serve the Metropolitan District. The County has contributed approximately \$61.8 million toward these City-owned facilities that are funded primarily with bond proceeds. The County estimates 16.02% of its net Metropolitan District general obligation bonds outstanding of \$29.9 million is related to these facilities at fiscal year-end.

Since 1993, the County has participated in the State Water Quality Revolving Loan Program. Under this program, the State makes loans to local governments with interest rates that are below the market rate for tax-exempt financing. As of fiscal year-end the County has borrowed \$91,255,779, of which \$77,058,851 was borrowed by the Water and Sewer Enterprise Fund to expand the County's water reclamation plant and \$14,210,000 was used to refund Consolidated Public Improvement Bonds. The outstanding balances of these loans are \$27,678,601 and \$2,475,000, respectively.

Industrial revenue bonds issued by the County for the benefit of private businesses in the County are neither debt of nor charges against the general credit or taxing power of the County. These amounts are not included in general long-term debt (see Note 9).

During fiscal year 1995, the County issued Special Facility Revenue Bonds in the amount of \$10,675,000. On June 1, 2003, the County refunded the balance of the Special Facility Revenue Bonds, which was \$9,220,000 and issued Golf Course Refunding Bonds in the amount of \$9,880,000. On May 30, 2012, the County refunded the balance of the Golf Course Refunding Bonds, which was \$5,775,000, and issued a Taxable Golf Course Refunding Note in the amount of \$5,400,000. The original bonds were issued for the purpose of constructing a public golf course with related facilities. Income derived from the golf course facility is pledged to pay debt service on these bonds and to establish a debt service reserve fund equal to the greatest amount of debt service payable in a fiscal year. The balance in the debt service reserve fund at fiscal year-end is \$560,000. This reserve will not be available for other purposes until the maturity of the notes on August 15, 2022. If a deficiency exists in the debt service reserve fund securing the note, the County is obligated to restore the amount in the debt service reserve fund to \$560,000 not later than 30 days after the beginning of the first fiscal year beginning after such deficiency is determined, until the note has been paid in full. This note does not constitute a pledge of the County's full faith and credit or taxing power, but the County's covenant to restore the amount in the debt service reserve fund is a general contractual obligation of the County. For fiscal year 2015, the net available revenue and debt service payments were \$433,965 and \$558,362, respectively.

In prior years, the County defeased certain Consolidated Public Improvement and Metropolitan District bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included as long-term obligations of the County. At fiscal year-end, \$146,780,000 of Consolidated Public Improvement Bonds and \$3,110,000 of Metropolitan District Bonds were considered defeased.

Under its Agricultural Land Preservation Program, the County acquires development rights on a parcel of agricultural property by entering into an installment purchase agreement with the property owner. The County acquires the development rights to the land in perpetuity. Historically, under the terms of the agreement, the

County paid the property owner semiannual interest payments for 30 years and minimal portions of the installment purchase price until maturity. The remaining amount of the purchase price was paid at the end of 30 years with a balloon payment. Upon execution of an agreement, the County purchased stripped-coupon U.S. Treasury obligations in amounts sufficient to equal the balloon payment in 30 years (see Note 2). Under the current program, the County pays five or ten percent of the purchase price at closing, with equal annual principal payments over 15 or 20 years with interest.

Special Obligation Bonds

On March 11, 2014 the County issued its first Special Obligation Tax Increment Financing (TIF) Bonds in the amount of \$17 million, with an overall true interest cost of 6.148%. The proceeds were be used to construct a 704-space parking garage on 12.73 acres of land dedicated for commuter rail patrons. The County had previously designated the 12.73 acres as a Tax Increment Financing District, at the site of the MARC Savage Commuter Rail Station. The land is state-owned, thus no real property taxes were paid to the County for this property. However, County management anticipates opportunities for local economic development by putting tax-exempt property on the local tax roll while improving transportation infrastructure.

A companion special tax district has been created as a backup for the Special Obligation TIF bonds. Special taxes will be imposed on property owners located within the special tax district in any year where the tax increment collections are lower than the next year’s debt service obligation and TIF District expenses. The special taxes are also to be pledged for the repayment of the Special Obligation TIF bonds.

These bonds are not general obligation bonds of the County; rather they are special obligations of the County payable solely from the real property tax increment to be realized from the TIF District, any special taxes imposed and collected from the companion Special Tax District, and any Base Realignment and Closure (BRAC) Zone Grant awarded by the State of Maryland. The project was approved for designation as a BRAC Zone in June 2009. The total amount of pledged revenue is \$37,353,233. A reserve fund in the amount of \$1,678,465 was established as part of the debt issuance. This reserve will not be available for other purposes until the final maturity of the bonds in fiscal year 2044. No pledged revenues were recognized in fiscal year 2015, as \$939,435 of debt service was paid out of capitalized interest. The debt of \$17,000,000 is included in the primary government’s long-term debt on the Statement of Net Position.

The bond offering is part of an overall Public Private Partnership (P3) development project known as Annapolis Junction Town Center. When completed, the entire development project will be a comprehensive mixed-use State Transit-Oriented Development (TOD) and will include 100,000 square feet of Class A office space, 416 luxury apartment units, a 150-room hotel, 17,250 square feet of retail space and the 700-space parking garage (financed by the TIF). The project will also include two additional parking garages, to be funded privately, to separately support parking needs for businesses and residents.

A summary of debt service requirements to maturity, including principal and interest, for certain long-term obligations at fiscal year-end are below.

Debt service requirements of governmental activities:

<u>Year ending</u> <u>June 30:</u>	<u>General County Bonds</u>		<u>Agricultural Land Program</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2016	\$ 63,445,000	39,908,361 *	2,541,578	5,458,804

B. Component Units

The changes in long-term obligations for the component units for the fiscal year are as follows:

	Beginning			Ending
	Balance	Additions	Reductions	Balance
Public School System:	\$ 52,694,626	13,080,261	9,382,342	56,392,545
Capital leases, workers compensation, compensated absences and net pension liability				
Community College: Loans, compensated absences and net pension liability	12,516,478	102,624	809,181	11,809,921
Library: Compensated absences	1,043,326	917,664	916,714	1,044,276
Housing: Loans, compensated absences and net pension liability	107,785,031	39,854,301	2,470,092	145,169,240
Total	\$ 174,039,461	53,954,850	13,578,329	214,415,982

Beginning balances restated for implementation of GASB 68 to record net pension liabilities of Public School System - \$38,057,620; Community College - \$2,070,587 and Housing - \$470,304.

8. Short-Term Debt

The changes in short-term debt for the primary government for the fiscal year are as follows:

Type	Beginning			Ending
	Balance	Issued	Retired	Balance
Bond Anticipation Notes	\$ 43,800,000	90,900,000	134,700,000	-
Consolidated Public Improvement Bonds 2014 Series B (Taxable) - maturity date February 15, 2015	1,500,000	-	1,500,000	-
Total	\$ 45,300,000	90,900,000	136,200,000	-

9. Conduit Debt

From time to time, the County has issued Industrial Revenue Bonds, Economic Revenue Development Bonds, Multi-Family Rental Housing Revenue Bonds, and Recovery Zone Facility Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the County, State, nor any political subdivision, thereof, is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

At fiscal year-end, there were 25 series of conduit debt outstanding. The aggregate principal amount outstanding for the 11 series issued after July 1, 1996 was \$83,571,162. The aggregate principal amount outstanding for the 14 series issued prior to June 30, 1996 could not be determined; however, their original issue amounts totaled \$86,356,000.

10. Lease Obligations

A. Operating Leases – Primary Government

The County is committed under various long-term operating lease agreements for office space as lessee. Lease expenditures for the fiscal year amounted to \$1,801,211.

Future lease payments including any agreed-upon percentage increases are as follows:

<u>Fiscal Year</u>	
2016	\$ 1,471,250
2017	801,310
2018	661,106
2019	661,106
2020	661,106
2021-2025	1,355,035

The County, as lessor, leases County-owned tower space under various long-term operating lease agreements.

Lease revenues for the year amounted to \$1,347,649. Future lease revenues are as follows:

<u>Fiscal Year</u>	
2016	\$ 1,012,844
2017	945,735
2018	948,989
2019	971,387
2020	995,120
2021-2025	3,698,336

B. Capital Leases

The County entered into a Master Lease-Purchase Agreement with Grant Capital Management Inc. for financing the acquisition of equipment. The County maintains leasing agreements with First Niagara Leasing and TD Asset Management Funds, which are also for financing the acquisition of equipment. These lease agreements qualify as capital leases for accounting purposes, and must be recorded as the lesser of their fair value or the present value of their future minimum lease payments. Therefore, they have been recorded at the present value of their future minimum lease payments as of the inception date.

The future minimum lease obligations and the net present value of these minimum lease payments at fiscal year-end are as follows:

<u>Year Ending June 30, 2015</u>	<u>Activities</u>
2016	\$ 3,390,808
2017	3,272,463
2018	3,289,048
2019	3,306,131
2020	2,247,485
2021-2025	3,520,462
Total minimum lease payments	19,026,397
Less: amount representing interest	(1,132,793)
Present value of minimum lease payments	<u><u>\$ 17,893,604</u></u>

11. Restricted Assets

Federal and State grants, golf course receivables, water and sewer assessments, user charges, in-aid-of-construction charges, developer contributions, and bond and loan proceeds for purposes of construction of the water and sewer system are restricted. Developer contributions primarily represent water and sewer projects constructed by developers on behalf of the County in connection with the development of privately owned property. The agreements between the developers and the County relating to such projects provide for specific rebates of construction costs to the developer from bond proceeds based upon house connections within a ten-year period. Any amounts not rebated at the end of ten years are recognized as contributed revenue. The cumulative amounts of other non-operating revenues are available for construction activities and reflected as restricted Net Position. Assets and liabilities arising from the construction and operation of the County's publicly owned golf course are restricted in the Special Recreation Facility Fund. Restricted assets also include funds reserved for capital projects and funds that are legally restricted for special purposes such as public housing projects.

12. Landfill Closure and Post-Closure Care Cost

State and Federal laws and regulations require the County to place a final cover cap on closed cells at the currently operating Alpha Ridge Landfill and to perform certain maintenance and monitoring functions at the landfill site for a minimum period of 30 years after closure. The County recognizes a portion of these costs in each operating period based on landfill capacity used as of each fiscal year-end. Closure and post-closure care costs are paid after each cell is filled to capacity. The closure cap for a 70-acre inactive landfill cell was completed in fiscal year 2000. A separate active lined landfill cell is projected to close no earlier than 2050 if current operating conditions continue and will be capped at that time. In addition, the County has constructed closure caps and groundwater treatment systems at two older closed landfills, and the post-closure operating

costs are included in the Environmental Services Fund budget. The long-term liability for these older landfills has been removed from long-term debt. Future total closure and post-closure care costs for the Alpha Ridge Landfill as determined through engineering studies will approximate \$39,618,762. Actual costs may differ due to inflation or future design changes. The County ceased using the Alpha Ridge Landfill as its primary disposal site as of March 1997 and, thus, it is not expected to use the landfill to its full capacity in the foreseeable future. The County is exporting waste to a regional landfill in Virginia. The remaining capacity at the landfill will be held for backup or future use. At fiscal year-end, the County has recognized \$31,862,000 of these costs. This cumulative amount reported to date is based on the use of 70.49 percent of the existing cell and 100 percent of the closed cell. The total current cost of closure and post-closure care to be recognized in future years is \$7,756,762. The County intends to finance these costs through the proceeds of bonds and through its annual operating budget. The General Fund has been used in prior years to liquidate the liability.

13. Retirement Plans

Summary of Significant Accounting Policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Howard County Retirement Plan (HCRP) and Police and Fire Employees' Plan (PFEP) and additions to/ deductions from the two plans' fiduciary net position have been determined on the same basis as they were reported by each plan as of June 30, 2014. The financial statements of the Plans were prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Employee and employer contributions are recognized as revenues in the period in which employee services are performed and expenses, benefits, and refunds are recorded when the corresponding liabilities are incurred, regardless of when payment is made. Investments were reported at fair value.

General Information about the Pension Plans

Plan description. The Howard County Retirement Plan ("Retirement Plan") and the Howard County Police and Fire Plan ("Police and Fire Plan") are single-employer defined benefit public employee retirement plans administered by Howard County, Maryland, which provide retirement benefits as well as death and disability benefits and cost-of-living adjustments.

The Plans were established and operate under the provisions of the Howard County Code, Sections 1.400, 1.401 to 1.478, and 1.401A to 1.478A. Essentially all the County full-time benefited and part-time benefited employees are eligible to participate in one of the Retirement Plans, except for certain exceptions provided for in Howard County Code Section 1.406.

Responsibilities for administration and operation of the Retirement Plan and Police and Fire Plan vest in Retirement Committees with seven members each ("Committees"). The Committees have authority to establish and amend the respective benefit and contribution provisions.

Generally, the majority of employees of the primary government, except certain police and fire officers, participate in the Retirement Plan, which was established July 1, 1995. As of that date, approximately 73 percent of the County employees participating in the Maryland State Retirement Systems, described below, transferred to the Retirement Plan. Certain police and fire personnel participate in the Police and Fire Plan, which was established July 1, 1990.

The remaining employees of the primary government participate in the State Employees Retirement System ("Retirement System") established October 1, 1941, and the State Employees' Pension System ("Pension System") established January 1, 1980. These cost-sharing multiple-employer defined benefit systems administered by the Maryland State Retirement Systems were established under the provisions of Article 73B of the Annotated Code of Maryland. Responsibility for administration and operation of the systems vests in a 14-member Board of Trustees ("Trustees").

Both the Retirement Plan and the Police and Fire Plan issue separate audited financial reports which may be obtained by writing to: Howard County, Maryland, Director of Finance, 3430 Court House Drive, Ellicott City, Maryland 21043, or by accessing the reports online at www.howardcountymd.gov.

Howard County Retirement Plan:

Benefits provided. Under the Retirement Plan, participants become vested after 5 years of eligibility service and are entitled to a benefit beginning at age 62. If an employee leaves employment or dies before 5 years of eligibility service, accumulated employee contributions plus interest are refunded to the employee or designated beneficiary.

A participant who becomes totally and permanently disabled may retire prior to normal retirement and receive a benefit. Both disability and death benefits vary if incurred in the line of duty.

Participating general employees with thirty years of eligibility service, regardless of age, are entitled to a normal retirement benefit. Also, participants attaining the age of 62 and older who have completed between 2 to 5 years of eligibility service (for a total of 67) may retire and receive unreduced benefits. For creditable service earned prior to June 30, 2012, the benefit is 1.55% of the participant’s average compensation times the participant’s creditable service; for creditable service after July 1, 2012, the multiplier is 1.66%. The Plan permits early retirement for participants who attain the age of 55 with at least 15 years of Eligibility Service or have 25 years of eligibility service, regardless of age. For early retirement, the benefit is reduced by 0.5% for each month that the benefit begins prior to normal retirement date.

For participating AFSCME Local 3085 the benefit is 1.66% of the participant’s average compensation times all years of creditable service.

Participating Corrections employees are entitled to receive a normal retirement benefit of 2.5% of average compensation multiplied by years of creditable service (up to 20 years) plus 1.0% of average compensation multiplied by creditable service greater than 20 years but less than 30 years (excluding sick leave, which is always credited at 1.0% of average compensation).

Annually, the retirement benefits are adjusted for cost of living adjustment (“COLA”). The Plan uses the Consumer Price Index (“CPI-U”) for the Washington/Baltimore area as published by the Bureau of Labor Statistics to calculate the change in retiree allowances each July. Maximum annual COLA is 3%.

Employees covered by benefit terms. At July 1, 2013 and 2012, the following employees were covered by the benefit terms:

	<u>2013</u>	<u>2012</u>
Inactive employees or beneficiaries currently receiving benefits	517	474
Inactive employees entitled to but not yet receiving benefits	189	188
Active employees	<u>1,596</u>	<u>1,570</u>
Total	<u>2,302</u>	<u>2,232</u>

Contributions. The Plan is authorized to establish or amend the obligation to make contributions under the provisions of Sections 1.423 and 1.465 of the Howard County Code. The Plan’s funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. Participant contributions are 8.5% of base pay for participating Corrections participants with less than 20 years of creditable service, 0% for Corrections participants with greater than 20 years of creditable service, and, effective January 1, 2014, 3.0% of base pay for other participants. The County funds the remainder of the cost of its employees’ participation in the Retirement Plan which was 13.1% and 12.3% of covered payroll in fiscal years 2014 and 2013, respectively.

Net Pension Liability

The County's net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2013 rolled forward to June 30, 2014.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of July 1, 2013 rolled forward to June 30, 2014 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent (COLA = 3%)
Salary increases	Varies by service, 4.0 to 6.6 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation
Mortality	RP-2000 Combined Healy tables with generational projection by Scale AA set forward one year.

The actuarial assumptions used in the July 1, 2013 valuation were based on the 2009 Experience Study covering the period of July 1, 2005 through June 30, 2009.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equities	45.0%	4.90%
Alternative investments	17.5%	5.71%
Fixed income	32.5%	1.75%
Real estate funds	5.0%	5.25%
Total	100.0%	

For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of the pension plan investment expense, was 15.62 percent.

Discount rate. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that County contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payment of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at 6/30/2013	\$ 327,817,170	\$ 289,285,027	\$ 38,532,143
Changes for the year:			
Service cost	12,726,866	-	12,726,866
Interest	24,974,185	-	24,974,185
Changes of benefit terms	3,534,438	-	3,534,438
Changes of assumptions	10,917,962	-	10,917,962
Contributions - employer	-	12,778,495	(12,778,495)
Contributions - member	-	2,979,366	(2,979,366)
Net investment income	-	45,955,743	(45,955,743)
Benefit payments, including refunds of employee contributions	(11,139,258)	(11,139,258)	-
Administrative expense	-	(283,093)	283,093
Net changes	41,014,193	50,291,253	(9,277,060)
Balance as of 6/30/2014	\$ 368,831,363	\$ 339,576,280	\$29,255,083

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the County and the component units participating in the General Employee Plan (Economic Development Authority ⁽¹⁾ and Housing Commission), calculated using the discount rate of 7.75 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.75 percent) or 1 percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
County's net pension liability	\$ 75,503,374	\$ 28,529,889	\$ (10,728,131)
Economic Development Authority	980,254	370,401	(139,282)
Housing Commission	938,948	354,793	(133,413)
Total	\$ 77,422,576	\$ 29,255,083	\$ (11,000,826)

⁽¹⁾ Economic Development Authority statements are not included in the County's CAFR due to immateriality.

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports for both Plans.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the County and the participating component units recognized pension expense of \$12,506,312, \$174,701 and \$156,691, respectively. The County and the participating component units reported outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes of assumptions	\$ 9,358,253	\$ -
Net difference between projected and actual earnings on pension plan investments		18,694,522
Contributions subsequent to the measurement date	13,967,304	
Total	\$ 23,325,557	\$ 18,694,522

Other than contributions subsequent to the measurement date (\$13,967,304), which will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2016, amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the fiscal years ended June 30:

2016	\$ (3,113,921)
2017	(3,113,921)
2018	(3,113,921)
2019	(3,113,923)
2020	1,559,709
Thereafter	1,559,708

Police and Fire Plan:

Benefits provided. All of the County's full-time career police and fire officers hired on or after July 1, 1990 must enroll in the Police and Fire Plan. The Plan provides retirement benefits as well as death and disability benefits and cost-of-living adjustment.

Participants become vested after 5 years of eligibility service and are entitled to a benefit beginning at age 62. Terminated vested employees with less than 20 years of service will receive a benefit equal to 2.5% of average compensation times the number of years of creditable service, payable at age 62. If an employee leaves employment or dies before 5 years of eligibility service, accumulated employee contributions plus interest are refunded to the employee or the designated beneficiary. A participant who becomes totally and permanently disabled may retire prior to normal retirement and receive a benefit. Both disability and death benefits vary if incurred in the line of duty.

Employees attaining the age of 62 who have completed 5 years of eligibility service and employees who have completed 20 years of eligibility service are entitled to a normal retirement benefit. The amount will vary, based on the number of years of creditable service, from 50% (with 20 years of service) to 80% (with 30 years of service) of average compensation for police, and from 50% (with 20 years of service) to 70% (with 30 years of service) of average compensation for firefighters.

Annually, the retirement benefits are adjusted for COLA. The Plan uses the CPI-U for the Washington/Baltimore area as published by the Bureau of Labor Statistics to calculate the change in retiree allowances each July. Maximum annual COLA is 2%.

Employees covered by benefit terms. At July 1, 2013 and 2012, the following employees were covered by the benefit terms:

	<u>2013</u>	<u>2012</u>
Inactive employees or beneficiaries currently receiving benefits	298	285
Inactive employees entitled to but not yet receiving benefits	24	21
Active employees	849	828
Total	<u>1,171</u>	<u>1,134</u>

The Plan offers a program called Deferred Retirement Option Plan (DROP). This is a voluntary benefit program which offers qualified active Police Participants, who would be entitled to retire and receive benefits, the option to continue working. An individual DROP account is created and is credited with the monthly retirement benefits that would have been paid during the DROP period had the participant actually retired. Adjustments are made for cost-of-living increases awarded to retirees and additional sick leave earned. The payment is made to the employee, in addition to the benefit payment entitled under the defined benefit plan based on the earlier years of service, when the employee eventually retires. Participating members may elect distribution as one lump sum payment, a rollover or in monthly payments. Balance held by plan as of June 30, 2014 is \$7,929,547.

Contributions. The Plan is authorized to establish or amend the obligations to make contributions under the provisions of the Howard County Code, Sections 1.423A and 1.465A. The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. Participant contributions are 11.6% of pay for participating Police Department Employees and 7.7% of pay for participating Fire Department Employees. The County funds the remainder of the cost of its employees' participation in the Police and Fire Plan, which was 31% and 30.5% of covered payroll in fiscal years 2014 and 2013, respectively.

Net Pension Liability

The County's net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability in the July 1, 2013 actuarial valuation rolled forward to June 30, 2014 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent (COLA = 2% Fixed)
Salary increases	Varies by service, 4.5 to 8.25 percent, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation
Mortality	RP-2000 Combined Healty tables with generational projection by Scale AA set forward two years.

The actuarial assumptions used in the July 1, 2013 valuation were based on the 2009 Experience Study covering the period of July 1, 2005 through June 30, 2009.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equities	45.0%	4.90%
Alternative investments	17.5%	5.71%
Fixed income	32.5%	1.75%
Real estate funds	5.0%	5.25%
Total	<u>100.0%</u>	

For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of the pension plan investment expense, was 15.62 percent.

Discount rate. The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that County contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payment of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at 6/30/2013	\$ 441,775,021	\$ 344,139,563	\$ 97,635,458
Changes for the year:			
Service cost	17,534,988	-	17,534,988
Interest	33,629,983	-	33,629,983
Changes of assumptions	14,989,455	-	14,989,455
Contributions - employer	-	20,822,339	(20,822,339)
Contributions - member	-	6,525,501	(6,525,501)
Net investment income	-	54,733,278	(54,733,278)
Benefit payments, including refunds of employee contributions	(15,679,515)	(15,679,515)	-
Administrative expense	-	(270,550)	270,550
Net changes	<u>50,474,911</u>	<u>66,131,053</u>	<u>(15,656,142)</u>
Balance as of 6/30/2014	\$ 492,249,932	\$ 410,270,616	\$ 81,979,316

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the County, calculated using the discount rate of 7.75 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.75 percent) or 1 percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
County's net pension liability	\$ 148,935,936	\$ 81,979,316	\$ 26,560,368

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports for both Plans.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the County recognized pension expense of \$13,938,875. The County reported outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of assumptions	\$ 13,323,960	\$ -
Net difference between projected and actual earnings on pension plan investments		22,096,638
Contributions subsequent to the measurement date	22,530,039	
Total	\$ 35,853,999	\$ 22,096,638

Other than contributions subsequent to the measurement date (\$22,530,039), which will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2016, amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in the fiscal years ended June 30:

2016	\$	(3,858,665)
2017		(3,858,665)
2018		(3,858,665)
2019		(3,858,663)
2020		1,665,495
Thereafter		4,996,485

Component Units:

Generally, all employees of three of the component units (Board of Education, Howard Community College and Library) are covered by the Maryland State Retirement and Pension System (the System), which is a cost-sharing, multi-employer defined benefit pension plan. The System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to State employees, teachers and employees of participating governmental units. The plans are administered by the State Retirement Agency.

These three component units adopted GASB 68 for the year ended June 30, 2015 and reported their proportionate share of the collective pension amounts calculated by the Maryland State Retirement and Pension System. The net pension liability was measured as of June 30, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The proportionate share of these component units' net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. As of June 30, 2015, the Howard County School System and Howard County Community College proportions for the System were 0.193% and 0.011%, respectively, which were substantially the same from their proportions measured as of June 30, 2014. Howard County School System and Howard County Community College reported net pension liabilities of \$507,145,242 and \$1,878,075, respectively. For the year ended June 30, 2015, Howard County School System and Howard County Community College recognized pension expense for the System of approximately \$72 million and \$232,500, respectively. Howard County Library has no expense for pension costs, is not responsible for unfunded pension obligation and did not report any net pension liability due to a special funding situation.

Detailed retirement plan information for the component units is available in their current year audited financial statements. The financial statements may be obtained from their respective administrative offices:

Howard County Public School System

14. Other Post-Employment Benefits (OPEB)

Plan Description

The County's OPEB plan is a Cost-Sharing Multiple Employer Defined Benefit Healthcare Plan. Per Section 1.406B of Howard County Bill No. 14-2008, the County established an irrevocable trust for administering the plan assets and paying healthcare costs on behalf of the participants. The Plan includes the County (consisting of the County government, Howard County Library, Mental Health Authority, and Economic Development Authority), and its component units, Howard County Community College and Howard County Public School System.

The County provides a post-employment health insurance program in addition to the pension benefits described in Note 13. These post-employment benefits are subject to change at any time. All employees who retire from the County may participate in the program. In order to be eligible, the retiree must have a minimum of fifteen years of County service and, immediately preceding retirement, have been enrolled in a medical, vision or prescription drug insurance plan offered to active employees of the County. The County will pay a percentage of the retiree's health insurance premium based upon these criteria. This percentage varies with the number of years of service attained by the employee. Other retirees who do not meet the eligibility criteria are permitted to participate in the retirees' health insurance program by paying the full premium at the group rate.

The component units provide medical benefits to eligible employees who retire from employment with the entity. The eligibility requirements vary among different entities. Each entity pays a percentage of the health insurance premium based on certain criteria. In addition to medical benefits, the school system offers life insurance benefits to eligible retirees who have provided ten years of service with the school system and have retired from the Howard County Public School System.

Plan membership at fiscal year-end per the most recent actuarial valuation consisted of the following:

Retirees and beneficiaries receiving benefits	2,791
Active plan members	9,664
Deferred vested terminations	35
Total	<u>12,490</u>

There are no separate financial statements for the Plan.

Basis of Accounting

The Plan's financial information is prepared on the accrual basis of accounting. Expenditures are recognized on the accrual basis as retirees' insurance costs are incurred. For the fiscal year, the Plan's insurance costs were \$24.4 million; \$9.0 million was paid by the retirees and the balance was paid by the County and its component units through the County's self-insurance fund (internal service fund).

Funding Policies and Funded Progress

The Plan's funding policy provides for the County to contribute to the trust the actuarially determined annual required contribution (ARC). During the fiscal year, the County contributed \$15,000,000 to the trust. The County has re-adopted its eight-year phase-in funding policy due to improvement in the economy. The County budget for fiscal year 2016 includes funding for pay-as-you-go OPEB costs as well as \$10,000,000 to the trust.

As of July 1, 2014, per the most recent actuarial valuation, the actuarial accrued liability (AAL) was \$587,850,000 and there was \$54,230,000 of actuarial plan assets; therefore, the unfunded AAL (UAAL) was \$533,620,000. The annual covered payroll of active employees covered by the Plan was \$745,749,057 and the ratio of the UAAL to covered payroll was 71.6%.

The annual required contribution (ARC) amount and OPEB expense per the most recent actuarial valuation report with valuation dates of December 1, 2014 for the Board of Education, and July 1, 2014 for both the General Government and College are presented below. The end-of-year net OPEB obligation (NOO) is calculated below:

	Actuarial Unfunded Accrued Liability (1)	Amortization of Actuarial Unfunded Accrued Liability (2)	Normal Cost (3)	Annual Required Contribution (2)+(3)	ARC Funding (4)	PAYGO Funding (5)	Net OPEB Obligation (NOO) (2)+(3)-(4)-(5)
Schools	\$ 363,052,000	22,535,000	15,248,000	37,783,000	9,905,012	12,811,710	15,066,278
College	11,532,000	716,000	787,000	1,503,000	394,019	-	1,108,981
County ¹	159,036,000	9,871,000	8,061,000	17,932,000	4,700,969	2,265,516	10,965,515
	533,620,000	33,122,000	24,096,000	57,218,000	15,000,000	15,077,226	27,140,774
			Beginning balance				361,492,137
			Less NOO amortization				22,438,990
			Plus interest on NOO				21,689,528
			Total NOO				\$ 387,883,449

¹ Enterprise fund share of PAYGO funding and net OPEB obligation is \$113,221 and \$716,852 respectively.

The Plan's annual OPEB cost (AOC) and the net OPEB obligation of the plan for the current and prior two years were as follows:

Fiscal Year		Annual OPEB Cost (AOC)	Contribution	% of AOC contributed	Net OPEB Obligation
2013	\$	70,776,000	20,169,779	28%	316,977,003
2014		72,198,000	27,682,273	38%	361,492,137
2015		57,218,000	30,077,226	53%	387,883,449

The Plan's actuarial value of plan assets and actuarial accrued liability as of the implementation year are as follows:

Fiscal Year		Plan Assets	AAL
2010	\$	20,229,000	848,066,000
2011		19,820,099	671,151,000
2012		21,306,000	649,960,000
2013		27,007,000	744,203,000
2014		32,860,000	760,760,000
2015		54,230,000	587,850,000

Actuarial Assumptions

The actuarial methods and significant assumptions used by the actuary are summarized in this note to conform to the disclosure requirements for GASB statements 43 and 45.

Actuarial valuation date	12/1/14 for Board of Ed, 7/1/14 for General Government and 7/1/14 for College
Actuarial cost method	Projected Unit Credit
Amortization method	Amortized over a closed period of 23 years using level percentage of pay.
Asset valuation method	Fair Value. Assets are assumed to earn a 7.50% return.
Actuarial trend assumption	Medical and prescription drug trend rate applied to FY 2015 is 4.5%. This rate will increase 0.20% in FY 2016 and 0.90% in FY 2017. The ultimate rate is 3.9%. Dental trend to be applied is 5.0% for all years
Interest assumption	Discount rate of 6.0%
Salary increases	3.00%

15. Deferred Compensation Plan

Deferred compensation plans are available to all County employees. The plans were established in accordance with Internal Revenue Code Section 457. A deferred compensation plan offers employees an opportunity to defer a portion of their salary along with the related Federal and State income taxes until future years. The deferred compensation funds are not available to employees until termination, retirement, death, or unforeseeable emergency. The assets of this plan were transferred to custodial accounts and the County no longer reports those assets and liabilities in the Agency Funds of the County.

16. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The reporting entity, excluding the Howard County Public School System, has established two internal service funds to account for and finance its uninsured risks of loss. The reporting entity's risk financing techniques include a combination of risk retention through self-insurance and risk transfer using a risk pool. The Employee Benefits Self-Insurance Fund provides full coverage for employee benefits and long-term disability claims. The Risk Management Self-Insurance Fund provides coverage up to a maximum of \$1,000,000 for each automobile liability claim, \$1,000,000 for each general liability claim, \$100,000 for each property damage claim, and unlimited coverage for each workers' compensation claim.

The reporting entity belongs to the Maryland Local Government Insurance Trust ("LGIT"), which provides insurance for claims in excess of coverage for the entity's property, general, and automobile liability coverages. LGIT consists of various counties and local municipalities and was created to provide broader insurance coverages than those available from commercial insurers, as well as loss control and risk management services. The County pays an annual premium to LGIT for this coverage.

Claims settled by the County in the past five fiscal years have not exceeded the Risk Management Fund's retention to trigger payment by LGIT. All funds and component units of the reporting entity, excluding the Howard County Public School System, participate in the risk management program and make payments to the internal service funds based on a combination of actuarial estimates and historical cost information. These amounts are needed to pay prior and current year claims and to establish a reserve for future claims and/or catastrophic losses. The Howard County Public School System has its own risk management program.

At fiscal year-end, the combined Net Position for the two internal service funds was a net deficit of (\$1,415,006) and is reported as unrestricted. The combined claims liability of the two funds, \$15,750,332, is based on generally accepted accounting principles, which require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

The changes in the combined self-insurance funds' unpaid claims liability in fiscal years 2015 and 2014 are presented below.

	Current Year Claims and				Expected Amount	
	<u>Beginning of Year</u>	<u>Changes in Estimates</u>	<u>Claims Payments</u>	<u>End of Year</u>	<u>Due Within One Year</u>	
2015	\$ 13,960,015	48,393,647	(46,603,330)	15,750,332	7,642,629	
2014	\$ 13,666,263	45,283,312	(44,989,560)	13,960,015	6,137,488	

The current portion is included in the non-current liabilities – due within one year and the non-current portion is included in non-current liabilities – due in more than one year, on the government-wide Statement of Net Position.

17. Individual Fund Disclosure, Change in Accounting Principle, and Prior Period Adjustments

Individual Fund Disclosures:

The General Capital Projects Fund, a major fund, and the Public Libraries Capital Projects Fund, a non-major fund, plan to eliminate their deficit fund balances of (\$31,981,388) and (\$416,117), respectively, through future bond sales. The Storm Drainage Capital Projects Fund, a non-major fund, will eliminate its deficit of (\$8,385,430) through receipt of future grant revenues and future bond sales.

The deficit of (\$63,944) in the Tax Increment Financing Fund (TIF) will be eliminated with the receipt of future property tax revenues.

The Grants Fund will eliminate its deficit of (\$3,450,607) through the receipt of inter-governmental revenues while the Risk Management Self-Insurance Internal Service Fund will eliminate its deficit of (\$3,145,715) through increased charge-back funding from other funds in fiscal years 2016 and 2017. Both funds are non-major.

Change in Accounting Principle:

The implementation of GASB 68 requires the Governmental Activities and the Water and Sewer Fund (Business-Type Activities) to retroactively record a net pension liability which is now calculated as the present value of projected benefit payments to current active and inactive employees attributable to past periods of service, less the amount of the pension plan's fiduciary net position. This resulted in decreases to beginning net position of (\$99,980,422) in governmental activities, (\$1,951,537) in the Water and Sewer Fund, and (\$314,336) in Housing Commission. For the Howard County Public School System and Howard Community College, this change resulted in decreases to beginning net position of (\$33,554,977) and (\$1,823,973), respectively.

Prior Period Adjustments:

Adjustments were also made to beginning of year net position/fund balance for the following:

General Fund - increase to record long-term receivable from Howard Community College for bonds payable of \$8,057,796.

General Fund - increase to remove cost of issuance expenditures recorded for the 2014 Tax Incremental Financing (TIF) bonds issue of \$470,294.

General Improvement Capital Projects Fund - increase to reflect cash held by escrow agent at fiscal year-end from 2014 TIF bond issue of \$14,451,414; decrease of (\$3,370,843) for capital expenditures incurred as of June 30, 2014 but were not accrued; increase of \$3,658,821 for state revenues earned but previously reported as unavailable at June 30, 2014 – total increase of \$14,739,392.

Grants Fund - increase to record governmental activities that were recorded as agency fund transactions in prior years of \$614,754.

Governmental Activities - the net effect of all the above-described misstatements at the fund level, which total \$23,882,236.

18. Commitments and Contingencies

A. Grants

The County receives grant funds, principally from the U.S. Government, for various County programs. Expenditures from certain of these funds are subject to audit by the grantor, and the County is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of County management, no material refunds will be required as a result of expenditures disallowed by the grantors.

B. Construction

The County had \$860,069,901 authorized but unobligated capital project appropriations at fiscal year-end.

C. Litigation

The County is a defendant in lawsuits and other claims that occur in the ordinary course of County operations. It is the opinion of the County Solicitor that such lawsuits and claims will not have a material adverse impact on the County's financial condition.

In the case of *Comptroller v. Wynne*, 431 Md. 147 (2013) the United States Supreme Court ruled in May 2015 that counties are prohibited from collecting personal income taxes from their own residents to the extent that the income was earned from sources in another state where the income is subject to tax by that state. The ruling means that each county in Maryland will see a reduction in income tax revenue, including Howard County. Based on preliminary data as of June 2015, the Comptroller's Office is estimating that the fiscal impact of the ruling on the County will be \$3,050,801 of refunds for prior years' taxes, and an estimated reduction of \$2.4 million each year going forward. The estimated amount of refunds to be paid has been recorded as a noncurrent liability on the Statement of Net Position and as an assignment of fund balance in the General Fund, as the County will not be required to start reimbursing the State until fiscal year 2017.

D. Encumbrances

The County uses "encumbrances" to control expenditure commitments for the year. Encumbrances represent commitments related to contracts executed and not yet performed and purchase orders not yet fulfilled. Commitments for such expenditure of monies are encumbered to reserve applicable appropriations. Depending on the source(s) of funding, encumbrances are reported as part of restricted, committed or assigned fund balance on the governmental funds balance sheet.

The encumbrance balances for the governmental funds at fiscal year-end are reported as follows:

	Restricted	Committed	Assigned	Total
Major Governmental Funds				
General Fund	\$ -	-	17,518,826	17,518,826
General Capital Projects	15,393,896	-	-	15,393,896
Non-Major Governmental Funds				
Special Revenue	1,750,285	3,241,944	-	4,992,229

“HoCoGro” Compost Giveaway Day

On May 2, 2015, Howard County Executive Allan H. Kittleman gave away 10-gallon, reusable tubs of “HoCoGro” compost to the first 100 vehicles that entered the Alpha Ridge Landfill. A leader in food scrap collection and recycling, Howard County has 5,000 households currently participating in food scrap collection. Those food scraps are turned into compost at the landfill and then sold under the brand name “HoCoGro.” Thanks to the food scrap and recycling efforts of our residents, the county is able to divert 600 tons of material annually from its landfill.

50+EXPO

Presented by the Department of Citizen Services' Office on Aging, this premier event is geared toward adults ages 50 and older, caregivers, family members and health care professionals. The 50+EXPO, held every October, features numerous exhibitors, a comprehensive health fair, informative seminars and workshops, great food and all-day entertainment, including the always popular and hilarious Capitol Steps. In 2014, this event drew more than 5,000 attendees.

Non-Major Governmental Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Capital project funds are used to account for the construction of major capital facilities. These funds are generally financed by bond issues, intergovernmental revenue, and contributions.

Debt service funds are used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of principal and interest on long-term obligations of governmental funds.

Women Fest: Inspiring Women to Live a Healthier Life

At Howard County's 7th annual Women Fest, attendees found inspiration from local experts on ways to improve their health and fitness, fine tune their finances and learned about self-defense and relationship building. Presented by the Department of Citizen Services' Office on Aging, Women Fest is an interactive day that focuses on health, wellness, fashion and beauty, and is designed to inspire women to live more balanced, healthier and fuller lives. This annual event features a wide array of vendors and exhibitors, as well as special guests. This year's keynote address was delivered by internationally acclaimed fitness expert Lynne Brick, president of Brick Bodies Fitness Services, Inc.

Internal Service Funds

Internal service funds are used to account for the financing, on a cost-reimbursement basis, of goods and services provided by one department to other departments within the County.

Business Appreciation Week

2015 marks the 24th year of Business Appreciation Week, an initiative began in 1991 by then Howard County Executive Chuck Ecker. Held in partnership with the Howard County Economic Development Authority (HCEDA), during Business Appreciation Week teams of ambassadors from Howard County Government, HCEDA and partnering organizations visit businesses across the county to discuss ways to ensure that Howard County retains and grows existing businesses and attracts new ventures. Since its inception, ambassadors have met with more than 1,000 businesses.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and which cannot be used to support the government's own programs.

Coffee with a Cop: Building Relationships One Cup of Coffee at a Time

"Coffee with a Cop" is a Howard County Police Department community outreach initiative to provide officers and members of the community an opportunity to come together in an informal, neutral space to discuss community issues and build relationships one cup of coffee at a time. Held the first Thursday of each month at locations throughout the county, "Coffee with a Cop" is a national effort supported by The United States Department of Justice.

Long-Term Debt

Liabilities of the County represented by outstanding general obligation bonds and other long-term debt.

Independent Auditor's Report on Internal Control over Financial Reporting and
on Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance with
Government Auditing Standards

To the County Council
Howard County, Maryland

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Howard County, Maryland as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Howard County, Maryland's basic financial statements and have issued our report thereon dated November 24, 2015. Our report includes a reference to other auditors who audited the financial statements of the Howard County Public School System, Howard Community College and the Howard County Housing Commission, as described in our report on Howard County, Maryland's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Howard County, Maryland's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Howard County, Maryland's internal control. Accordingly, we do not express an opinion on the effectiveness of Howard County, Maryland's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weakness or significant deficiencies may exist that were not identified. We did identify a certain deficiency in internal control, described below, that we consider to be a material weakness.

Prior Period Adjustments

As further described in Note 17 to the financial statements, certain amounts have been restated to correct account balances reported in the June 30, 2014 financial statements. Proceeds from a bond issuance held in escrow for future use at June 30, 2014 were recorded as expenditures but not yet expended. An escrow has been recorded to the extent bond proceeds have not been expended. In addition, the County advanced funds to a component unit in prior years and did not record the amount due back as a receivable. Amounts received back have been recorded as revenue instead of a reduction of a receivable. A receivable has been recorded for the amount of the advance still to be paid back.

Management should review its internal controls, including the review and approval of accounting adjustments, surrounding significant and non-recurring transactions to protect against future material misstatements.

Howard County, Maryland's response to the findings identified in our audit is described below. Howard County, Maryland's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Howard County, Maryland's Response to Findings

Management agrees with the recommendation. In conjunction with our preparation of interim financial statements, the Office of the Controller will be reviewing the posting of significant and non-recurring transactions with management.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Howard County, Maryland's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Baltimore, Maryland

Total primary government net position	\$ 891,948,942	900,297,420	909,698,151	879,870,164	781,217,025	790,331,017	676,843,828	619,726,434	473,183,096	478,073,714

(a) Deficits occur in unrestricted net position for governmental activities because the County issues debt to fund construction costs for the Public School

System and Community College, yet these component units own the capital assets. See the Management's Discussion and Analysis for further details.

(b) FY2008 net position of governmental activities were restated in fiscal year 2009.

(c) FY2010 net position of governmental and business-type activities were restated in fiscal year 2011.

(d) FY2011 net position of governmental and business-type activities were restated in fiscal year 2012.

(e) FY2012 net position of governmental and business-type activities were restated in fiscal year 2013.

(f) FY2014 net position of governmental and business-type activities were restated in fiscal year 2015, mainly due to the implementation of GASB 68 which resulted in an overall negative net position of governmental activities.

Total primary government	\$ 891,948,942	900,297,420	909,698,151	879,870,164	891,696,969	801,224,875	844,745,692	619,726,434	551,232,818	478,073,714

(a) State highways expenses were misclassified as public works in fiscal years 2006, 2007, and 2008, but have been restated for comparative analysis.

(b) In fiscal year 2009, the fiscal year 2008 net position of governmental activities was restated due to failure to capitalize all eligible expenditures as work in progress. Expenses of governmental activities for fiscal year 2008 were restated, accordingly, for comparative analysis across fiscal years.

(c) The increase from prior period is due to expenses incurred on behalf of the other local government jurisdictions participating in the Inter-County Broadband Network (ICBN) Project.

(d) Other consists of golf course and watershed restoration and protection in fiscal year 2014, as well as broadband services starting in fiscal year 2015.

(e) The increase from prior period is due to recognizing significant federal grant monies for the ICBN Project.

(f) Net position of business-type activities was restated in fiscal year 2006 to eliminate internal balances created in prior years to allocate profit and loss in internal service funds since internal service funds operate under the premise of breaking even.

(g) The decrease from prior period results from a decrease in local income taxes due to a change in the timing of remittance from the State.

(h) The decrease from prior period is the result of decreases in local taxes and interest income due to the downturn of the national economy.

(i) In fiscal year 2010, funding from the State government for highway improvements was drastically reduced.

(j) The decrease from prior period is due to decreases in the fair value of U.S. Treasury Strips investments.

Notes:

Fund balance format for 2011 has been updated due to implementation of GASB Statement No. 54.

- (a) Decrease in the general fund - unreserved fund balance from fiscal year 2007 to 2010 was the result of downturns in the national economy.
- (b) Increase in the general fund - unreserved fund balance from fiscal year 2006 to 2007 was the result of increases in local income, property, and/or recodation taxes received.
- (c) Increases in the total fund balance of the general fund in fiscal years 2011 through 2013 are due to increases in the local income taxes received.
- (d) Decrease in the total fund balance of the general fund in fiscal year 2015 was due to one-time initiatives of \$37.7 million.

(a) Increase in real property taxes is due to steady increases in property values in the County.

(b) Other local taxes decreased due to declines in the quantity and value of real estate transactions.

(c) Decrease in State shared taxes is due to drastic decline in State highway funding.

(d) Reclassifications of prior years' data were made to allow for consistency purposes and comparison amongst all years.

(e) Expenditures on capital projects for the Public School System and Community College were reclassified to the Education function in fiscal year 2006 from the Capital Improvements line in previous years.

(f) The decrease from prior period is due to decreases in the fair value of U.S. Treasury Strip investments.
