10520 Old Frederick Road, Woodstock MD 21163

Briefly describe the purpose and reason for the project:

This bond will provide for the extension and completion of an accessible trail adjacent to our nature center. The project will also mitigate stormwater runoff issues and replace the existing loose stone path with a pervious paver system along approximately 6,250 feet of trail in our John L. Clark Honors Garden, named by Senator James Clark in honor of his brother. The current trail material is inaccessible to users with mobility challenges using walkers, wheelchairs or strollers. Additionally, the current trail substrate has had numerous problems with erosion of the material resulting in large gullies that require closing sections of the trail. The total area consists of approximately 5,000 square feet of trail which averages 10 feet wide along its course and a large 38 diameter circular turnaround area of about 1,250 square feet.

Does the project or recipient have any religious affiliation or involvement? No

Please list the year of any previous bond bills or initiatives:
