

RECYCLE!

J. Baker  
Dayton Oaks ES

Coloring Book

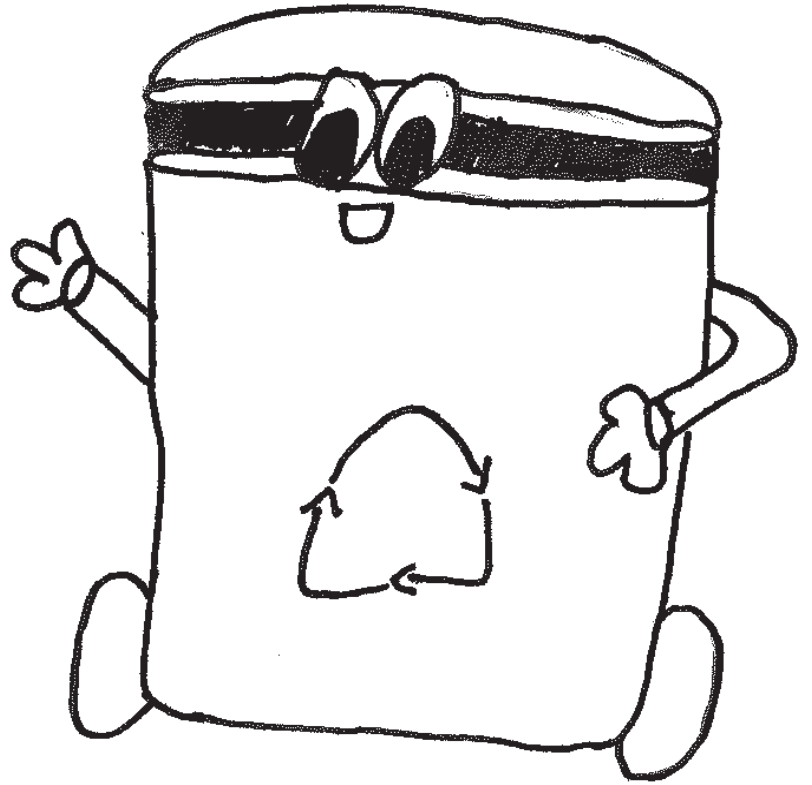

The Howard County Recycling Division sponsored this coloring book to promote the idea of 'Reduce, Reuse, Recycle'. This coloring book is the result of a contest that encouraged all County third, fourth and fifth graders to express their thoughts through art. This contest was very successful and we hope that everyone enjoys the winning selections. As you can see from the themes expressed in these drawings, Howard County students are well aware that their actions have an impact, not only locally, but globally as well.

Thank you to everyone who participated in the production of this book.

USE REUSABLE CONTAINERS

NOT PLASTIC BAGGIES

# Did You Know?

Howard County public schools recycle just like you do at home. Don't forget those milk cartons, juice boxes, yogurt cups and Lunchable trays!

A typical family consumes 182 gallons of soda, 29 gallons of juice, 104 gallons of milk, and 26 gallons of bottled water a year. That's a lot of bottles that are great for recycling!

The United States uses more than 80 billion aluminum cans a year. The energy saved from recycling one can is enough to power a TV for 3 hours!
