April 1, 2015

The Honorable Mary Kay Sigaty
Chairperson, Howard County Council
3430 Courthouse Drive
Ellicott City, MD 21043

Dear Chairperson Sigaty,

I am pleased to present to you my proposed FY 2016 Capital Improvement Program (CIP) budget for Howard County. I am confident this proposed CIP budget provides needed support to our strategic priorities, such as education (including the school system, the community college and libraries), essential infrastructure (including roads and facilities), public safety (including the detention center and police and fire stations), environmental (including stormwater, water and sewer), and quality of life projects (including recreation and park facilities). These investments promote long-term development of our communities and economic base, assuring they are financially, economically and environmentally sustainable.

As you know, the County currently faces fiscal challenges. We have to make hard choices in FY 2016 to stay within our budget constraints. The Spending Affordability Advisory Committee recommended General Obligation (GO) bond authorization of \$90 million for FY 2016, which is significantly lower than the \$120 million ceiling in the prior two years. The Committee urged lowering debt authorization to offset the impact from a significant growth of debt authorization in the past two years and also to allow the County's operating budget to keep sufficient capacity to fund strategic priorities (such as education) after paying increasing debt services.¹

The proposed CIP budget for FY 2016 totals \$342.9 million. This includes \$96 million from GO bonds, which is close to the Spending Affordability Advisory Committee's recommended level. After making many hard choices and reducing total GO bonds from the original request of \$245.7 million to \$96 million, we believe the amount in the proposed CIP budget represents the minimum level of funding needed in order to support critical CIP needs. This amount is necessary to continue/complete existing priority CIP projects that could not be stopped without significant waste of prior investment or disruption of the project, to meet the matching fund requirements for projects receiving state funding, and to fund federal or state mandates. Of the \$96 million GO bonds, \$58.7 million (or 61.2 percent) are earmarked for education projects, including the school system, community college and libraries.

¹ The Committee also pointed out the County's debt service payments will continue to grow based on \$485 million bonds previously authorized but not issued yet and anticipated increases of interest rates in the next few years (which will raise the cost for issuing same amount of debt).

The CIP spending program includes \$63.7 million for the Howard County Board of Education, including \$41.7 million in county funding consisting of \$35 million General Obligation bonds and \$6.7 million in Transfer Tax funding.

County funding supports the new Elementary School #42 (\$13.4 million) to relieve the northeastern and southeastern regions, the Wilde Lake Middle School replacement project (\$8.7 million) to provide needed additional educational program spaces based on facilities assessment survey results, and the Patuxent Valley Middle School renovation project (\$2.5 million) to expand educational program spaces. In addition, this budget allows ongoing county investments in systematic renovation (\$8 million), roofing (\$2.7 million), technology (\$5 million) and other priority needs of the school system.

In FY 2016, Howard Community College will receive \$16.0 million in county funding through GO bonds to support its Science, Engineering and Technology Building, which matches proposed State funding to design and construct a 145,300-square-foot building with classrooms, labs and study areas. Another \$913,000 is slated for the design of the Nursing and Science Technology Building renovation project. Moreover, the County and Community College reached an agreement to launch the long needed Campus Roadway and Parking project, which will be financed through bonds supported entirely by student fees.

The County will continue its investment in the Elkrige Branch Library/Senior Center project with \$6.7 million budgeted in FY 2016 on top of the prior appropriation of \$22.2 million.

In the realm of public safety, the proposed CIP budget includes: \$8.6 million for the Detention Center renovation to solve severe challenges and meet regulatory mandates; \$2 million towards a third police station; and \$2.4 million (\$1.4 million GO bonds and \$1 million Transfer Tax) for the relocation of Fire Station #1 to Elkrige and to study building a new 30,000-square-foot Banneker Fire Station to replace the existing station. The budget also funds a feasibility study for the planned Circuit Courthouse project.

Water and Sewer projects total \$156.3 million and are funded by the self-sustaining Utility Fund and Metro bonds. The largest project is \$84 million for a new facility to handle water treatment at the existing Little Patuxent Water Reclamation Plant (LPWRP), which will handle the biosolids processing facility to meet new regulations from the Maryland Department of the Environment (MDE). The County will also use \$7 million in GO bonds (including the mandated \$4.8 million maintenance of effort requirement) and \$6.4 million stormwater bonds in FY 2016 to fund various storm drainage projects to gradually address federal and state mandates and support the County's environmental sustainability efforts. This includes continued investment for the design and construction of flood mitigation and stormwater/waterway enhancement efforts in downtown Ellicott City.

The Department of Recreation and Parks will receive a total of \$5 million – \$2.5 million in GO bonds and \$2.5 million from designated Transfer Tax revenues. This funding will be used to finish the installation of artificial turf fields at county high schools, continue funding for the Blandair Regional Park and the Troy Park and Historic Preservation project, and on systematic replacements for recreation and parks facilities across the County.

This budget includes a \$3 million IT investment to improve government efficiency and productivity with a focus on continuing the SAP implementation and launching the long-awaited Human Resources module to replace the outdated paper timesheet practice. This will allow more timely, accurate and integrated recording, analysis and monitoring of data. Funding also supports website redesign for enhanced transparency and better communications and to meet the CB-32-2014 mandates for information publication.

Due to considerable fiscal challenges, many projects – while desired and beneficial – cannot be funded or funded fully in FY 2016. However, during meetings with community representatives and key stakeholders, we gathered input to help prioritize CIP projects to maximize benefits for projects of greatest interest and need to our communities. I am proud to provide you with this FY 2016 CIP proposed budget, which I believe is fiscally responsible and supports strategic priorities of the County.

If you have any questions during your review process, my staff is available to provide assistance.

Sincerely,

Allan H. Kittleman
Howard County Executive

2016 New Capital Projects

Project	Description
DRAIN-DRAINAGE PROJECTS (6)	
D1169-FY2016 STORM DRAIN CULVERT REPLACEMENT PROGRAM	This program will provide for the replacement of failed storm drain pipes and culverts. The County's storm drain infrastructure is aging and many of the metal pipe culverts installed from 1960 through the 1990s have reached the end of their service life. Currently no asset inventory with condition assessment exists; therefore no funding is programmed to systematic replacement of these pipes and culverts. This program will provide for emergency culvert replacement and provide for funding assist in the development of an asset inventory program to better forecast future replacement needs. This program includes: storm water pipe and culvert replacement of both metal and concrete in less than six (6) feet in roadway longitudinal length, headwalls, end sections, replacement, or extension of culverts to assure positive flow of storm water and channeling of storm water into existing ditch lines or structures. Repairs also include roadside pipe and culvert end treatment safety improvements to eliminate safety hazards. This project will not make major changes to the location or size of existing storm drainage structures.
D1170-FY2017 CARDINAL FOREST DRAINAGE IMPROVEMENTS	A project to provide a drainage system to reduce the runoff from adjacent properties onto the properties at the north end of Dove's Fly Way.
D1171-FY2016 CISELL AVENUE-HADDAWAY PLACE DRAINAGE IMPROVEMENTS	A project to acquire the necessary easements of the drainage channel that travels behind the homes of Cissell Avenue and Haddaway Place. The County owns a storm drain system that travels about one-half of the way down this drainage channel. The storm drain outlets into a natural channel. The natural channel has become clogged with bamboo. This project will acquire easements along the channel area so that the Bureau of Highways is able to maintain the channel by removing the bamboo. Work may include providing a storm drain or clearing drainage impediments in the channel.
D1172-FY2016 DORSEY RUN TRIBUTARY STORM DRAIN REPAIR	A project to repair the storm drain that carries drainage from the MD175 area just east of US1 through and from the Columbia East Marketplace to the outfall just south of Assateague Drive and adjacent to US1.
D1174-FY2016 SPRING GLEN DRAINAGE IMPROVEMENTS	A project to design and construct drainage improvements in the Spring Glen Community including but not limited to: Ivy Spring Road and Cross Ivy Road. The improvements to be considered include adding curb & gutter with storm drains and filling in the swales.
D1173-FY2016 HARRIET TUBMAN LANE DRAINAGE IMPROVEMENTS	A project to design and construct drainage improvements along HarrietTubman Lane in the 7900 and 8000 block area.
EDUC-SCHOOL SYSTEM PROJECTS (7)	
E1037-FY2017 ELLICOTT MILLS MIDDLE SCHOOL ADDITION	The Ellicott Mills Middle School project will add 156 seats of new capacity to the existing school. This project will include an addition and light renovation to ensure seamless operation of the expanded facility. The majority of existing walls will remain; therefore, most existing classrooms will remain as classrooms, though they will receive new finishes, cabinetry, doors, data, electrical and mechanical systems. The addition will be designed to retain use natural daylight. The cafeteria will be enlarged to meet educational program requirements. The mechanical system will likely utilize geothermal technology. The school should achieve USGBC LEED certification. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

2016 New Capital Projects

Project	Description
E1039-FY2020 NEW ELEM SCHOOL #43	The New Elementary School #43 will be a new facility. The Southeast region is projected to be at 121% capacity utilization in 2023. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.
E1042-FY2025 NEW MIDDLE SCHOOL #21	The New Middle School #21 will be a new facility. The Northeast region is projected to be at 128% capacity utilization in 2025. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.
E1041-FY2023 NEW ELEM SCHOOL #45	The New Elementary School #45 will be a new facility. The Northern region is projected to be at 132% capacity utilization in 2026. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.
E1040-FY2022 NEW ELEM SCHOOL #44	The New Elementary School #44 will be a new facility. The Columbia West region is projected to be at 122% capacity utilization in 2025. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.
E1036-FY2017 OAKLAND MILLS MIDDLE SCHOOL LIMITED RENOVATION	The Oakland Mills Middle School project will renovate the existing facility. The project calls for a limited renovation of the existing building in accord with recommendations of a future feasibility study or scope of work review. Renovation may include new electrical, mechanical, plumbing, technology, roofing, and life safety systems as applicable per the scope of work. Some interior spaces will be reconfigured, new finishes provided, accessibility improved, and new spaces added as required, bringing the facility into compliance with the Howard County Public School System Guidance Manual for Renovations and Modernizations of Existing Schools. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.
E1038-FY2017 PLANNING AND DESIGN	The Planning and Design project has been established to provide funding for feasibility studies prior to the funding of individual projects. During the concept development stage, each project is summarized, supporting documentation is gathered, and necessary approvals are obtained before construction begins. A feasibility study provides the analysis to determine the scope and breadth of a project under consideration.
GENCO-GENERAL COUNTY PROJECTS (5)	
C0344-FY2016 SOUTHEAST INFRASTRUCTURE IMPROVEMENTS	A project to plan, design and construct a series of infrastructure improvements targeted within the southeast area of the Route 1 corridor. Projects will advance community, economic and environmental sustainability goals. Infrastructure includes storm water management, sidewalk and biking facilities, transit and community open space.
C0343-FY2016 SALT STORAGE FACILITY	This project will provide for the storage of salt and liquid de-icing material for the winter season. The storage facility will be a barn-type structure capable of storing about 4,000 to 5,000 tons of material. The location is anticipated to be in the suitable area. A site has not been identified at this time.

2016 New Capital Projects

Project	Description
C0347-FY2017 MCE BUILDING RENOVATIONS	Renovate 10750 Little Patuxent Parkway, Columbia MD for the Maryland Center for Entrepreneurship. A project for the renovation of the former Columbia Flier building to house the Economic Development Authority's Maryland Center for Entrepreneurship (MCE). Significant renovations are required to both upgrade building systems and design flexible space to support the creation on new companies and further job growth in the County.
C0342-FY2017 CLARKSVILLE PARKING GARAGE	This project is for the design, construction and construction management of a parking garage on Clarksville Pike, Clarksville Maryland. The parking garage will be located on an existing surface parking lot on the corner of Route 108 and Signal Bell Lane adjacent to an existing Conference/ Fire Station. The garage will be a precast concrete structure.
C0346-FY2017 DAYTON ADMINISTRATION BUILDING	This project will provide for the replacement of an aging trailer currently used for the Highways Administration functions. It houses eight full-time employees. It has no bathroom facility, no meeting or conference room and no room to expand.
LIBRA-LIBRARY PROJECTS (2)	
L0018-FY2017 GLENWOOD BRANCH RENOVATION	A project to renovate the Glenwood Branch to include much needed study rooms and classroom space for the benefit of students of all ages. Refurbishment of interior spaces for teen areas, child reading rooms and restrooms will also be completed.
L0019-FY2017 SOUTHWEST BRANCH	Conduct a site survey and feasibility assessment for a new HCLS Branch in Howard County's Southwest region.
PARKS-PARKS PROJECTS (2)	
N3977-FY2016 KIWANIS PARK EXTENSION	A project to master plan, design and construct an additional 30-acre site adjacent to the existing Kiwanis Park and to improve the existing park site.
N3976-FY2017 SOUTH FULTON PARK	A project to master plan, design and construct a 84-acre community park located off of Rt29 and Murphy Road, north of the Patuxent River. Facilities will be determined by a citizen's advisory committee and a master plan effort.
RESURF-HIGHWAY RESURFACING (2)	
H2017-FY2017 HOT IN-PLACE RECYCLING PROGRAM	A program to in-place re-profile roads surface to various County roads. The roads are selected and prioritized by the Pavement Management System (PMS). The PMS rated roads based on American Society for Testing & Materials (ASTM) standard practices for pavement condition index (PCI) measurement.
H2018-FY2017 COLD IN-PLACE RECYCLING PROGRAM	A program to in-place reconstruct road base to various County roads. The roads are selected and prioritized by the Pavement Management System (PMS). The PMS rated roads based on American Society for Testing & Materials (ASTM) standard practices for pavement condition index (PCI) measurement.
ROAD-ROAD CONSTRUCTION PROJECTS (2)	
J4245-FY2016 SCENIC ROADS ENHANCEMENT	A project to plan, design, and install enhancements at certain historic or high visibility locations along the National Scenic Byway or County scenic roads. Projects will preserve and enhance the intrinsic historic and scenic qualities of the roads and byways.
J4246-FY2017 OLD MONTGOMERY ROAD AT BRIGHTFIELD ROAD INTERSECTION IMPROVEMENTS	A project to reconfigure the intersection of Old Montgomery Road and Brightfield Road for safety and increased capacity. This project will determine the type of reconfiguration and then proceed to design, acquire the necessary land and construct the improvement.

2016 New Capital Projects

Project	Description
SEWER-SEWER PROJECTS (3)	
S6296-FY2016 HARRIET TUBMAN LANE SEWER EXTENSION	A project for the design and construction of 150 linear feet of sewer to serve one property on Harriet Tubman Lane.
S6297-FY2016 OLD FREDERICK ROAD PUMPING STATION UPGRADE	A project for the design and construction of upgrades to increase the pumping capacity of the Old Frederick Road Pumping Station. Work includes improvements to the station discharge forcemain and downstream interceptor sewer in conjunction with the increasing station capacity.
S6295-FY2016 LPWRP 8th ADDITION BIOSOLIDS PROCESSING FACILITIES	A project to design and construct new Biosolids Processing Facilities at the LPWRP for the purposes of meeting new Maryland Department of the Environment (MDE) biosolids storage and disposal regulations, achieve biosolids volume reduction, and enhance biosolids quality for end use purposes.
SIDE-SIDEWALKS (3)	
K5067-FY2016 ADA RAMPS COMPREHENSIVE STUDY PROGRAM	A program to self-evaluate Countywide ramps and curb cuts in compliance with American with Disabilities Act 1990 (ADA) requirements. The purpose of the self-evaluation is to evaluate County roadway network and facilities for accessibility.
K5068-FY2016 ADA RAMPS UPGRADE PROGRAM	A program to upgrade sidewalk ramps and curb cuts in compliance with Federal Americans with Disabilities Act 1990 (ADA) requirements. The upgrade shall be aligned with road resurfacing construction projects.
K5069-FY2016 BITUMINOUS CURB REPLACEMENT PROGRAM	A program to replace bituminous curbs with concrete ones.
TRAF-TRAFFIC IMPROVEMENTS (2)	
T7108-FY2016 CLARKSVILLE-RIVER HILL STREETSCAPE IMPROVEMENTS	A project to plan, design and construct road and related improvements -- including streetscape, storm water management, pedestrian, bicycle, and public space enhancements -- in the Route 108 corridor.
T7109 FY2016-DEVELOPER STREETLIGHT PROGRAM	A project to facilitate the design, installation and modification of street lights in new developments. New street lights are planned for most new residential developments and many site development plans based on DPZ and DPW guidelines.
WATER-WATER PROJECTS (2)	
W8601-FY2016 ACQUISITION CONTINGENCY FUND	Project funding will be used to resolve easement and rights-of-way issues on water and sewer projects which have been constructed or special quick response projects of a capital nature requiring title research, appraisals and acquisition.
W8602-FY2016 SLEEVES, RELOCATIONS & APPURTENANCES	A project for funding design and construction of sewer and water lines in conjunction with Maryland State Highway Administration (SHA) and Howard County projects prior to construction. This funding will be used to relocate the existing sewer and water mains in the SHA's rights-of-way as a result of road construction, or construct lines prior to capital project initiation in the Howard County construction program. The project will also provide funding for the addition of valves and fire hydrants on the existing system, inspection testing, supplies, and equipment for the implementation of the existing system.

HOW TO READ THE CAPITAL BUDGET

There is a Program Summary page in the beginning of the budget. It is organized to show where the money comes from and the level of effort given to major elements of the Plan Howard 2030 including the cumulative Capital Improvement Program

The budget book is organized in alpha-numeric order following the alpha codes shown in the Table of Contents. The projects in each alpha group are then presented in numeric order.

Each category of projects is summarized in the initial pages for that group. They represent a type of project. Projects with specific locations are shown on a detail map.

In the presentation of the budget detail for each capital project, the display of the project number and title appears on both parts of a two-part form with the following information:

PART A

DESCRIPTION in general terms of what is to be ultimately funded

JUSTIFICATION of need, why, or the objective being met

REMARKS gives further details or statistics

SCHEDULE of major milestones by fiscal year timeframe

OPERATING BUDGET IMPACT estimates cost after project is completed

MAP depicts a specific site or a County-wide project

PART B

A matrix which vertically adds elements of the project development and funding sources which match at the horizontal row Total Project Expenditures with columns to show:

PRIOR APPROPRIATION shows dollars funded in previous budget years

FISCAL '200_' BUDGET shows dollars being acted-on in this >_ = fiscal year

APPROPRIATION TOTAL is the sum of the Prior Appropriation and this Fiscal year

FIVE YEAR CAPITAL PROGRAM is a projection of needs 6 to10 years into the future

TOTAL PROJECT combines prior, this fiscal year, and projected future dollars

PROJECT STATUS shows major milestones which have been accomplished and how much of the prior appropriation has been spent up to February of the current fiscal year.

Capital Budget Revenues

CAPITAL BUDGET REVENUE FUNDING TYPE CODES

A = Aid for Schools

State Inter Agency Committee contribution

B = Bonds, general obligation or short term instruments

Part of affordability limit calculation

C = Cash (Utility Enterprise Fund)

Ad valorem and associated interest income

D = Developer Contribution

Either through Agreement or obligation

E = Excise Tax

Dedicated annual tax collected and associated interest income

G = Grant (defined in 'Remarks' on project sheets)

State or Federal monies; POS, FHWA, ISTEA, etc

I = In - Aid of Construction (Utility Enterprise Fund)

Building permit fee to support infrastructure

M = Metro District Bonds (Utility Enterprise Fund)

Not part of affordability % calculation

O = Other (defined in 'Remarks' on project sheets)

Race Track funds, Special interest group contribution, Fines, assessments, fees, reimbursement

P = Pay as you go

General fund cash on a year by year basis

R = Stormwater Utility (Watershed Protection and Restoration fund)

S = Storm Drain Fund & Storm Water Mgmt Fees
(defined in 'Remarks' on project sheets)

Down stream off property improvement fund by drainage area or Fee paid in lieu of constructing a retention facility

T = Transfer Tax

% of total collected annually dedicated to education, fire service, parks

U = Utility Enterprise Fund (Summary Level)

'C', 'I', 'M'= from above combined

W = Water Quality State Bond Loan

Bonds floated by State for better rate, we repay as if our own
Not part of affordability % calculation

X = Excise tax backed Bonds – 'Non GO Bonds'

Supported borrowing based on dedicated revenue stream
Not part of General obligation Bond affordability limit calculation

Z = Education Excise tax backed Bonds

Supported borrowing based on dedicated revenue stream

CC = College revenue backed Bonds

Supported borrowing based on fee-based revenue stream

Fiscal 2016 Capital Budget

Project: B3831-FY2007 RIVER ROAD BRIDGE-ROCKBURN (H0-6)

BRIDGE PROJECTS

Number: B3831

Description

A project for the design and construction of a replacement structure for the River Road bridge over Rockburn Branch. River Road is classified as a local road in the Plan Howard 2030.

Operating Budget Impact

Annual Bond Redemption \$ \$64,125
Replacement Facility.

Justification

The existing bridge is 26 feet long with 20 feet of pavement in a 30-foot right-of-way and is currently posted for 13 tons. The bridge is functionally obsolete due to its posted weight limit and narrow width.

Remarks

1. This bridge is not eligible for Federal Bridge Rehabilitation/Replacement Funds.
2. Project to be designed under scenic road guidelines.
3. Land acquisition requires park property.

Project Schedule

FY16 - Land Acquisition.
FY17 - Construction
FY18 - Construction
FY19 - Close

Project: B3835-FY2006 HENRYTON ROAD BRIDGE (H0-105)

BRIDGE PROJECTS

Number: B3835

Description

A project for the design and construction of a replacement bridge for the Henryton Road bridge over a tributary to the Patapsco River. Henryton Road is classified as a local road in the Plan Howard 2030.

Justification

The existing bridge is 40 feet long with 25 feet of pavement in a 30-foot right-of-way and is currently posted for 12 tons. The new structure will be wider to meet AASHTO and County Standards.

Remarks

1. Grant represents Federal Bridge Rehabilitation/Replacement funds.
2. Scenic road characteristics will be preserved in the improvements.

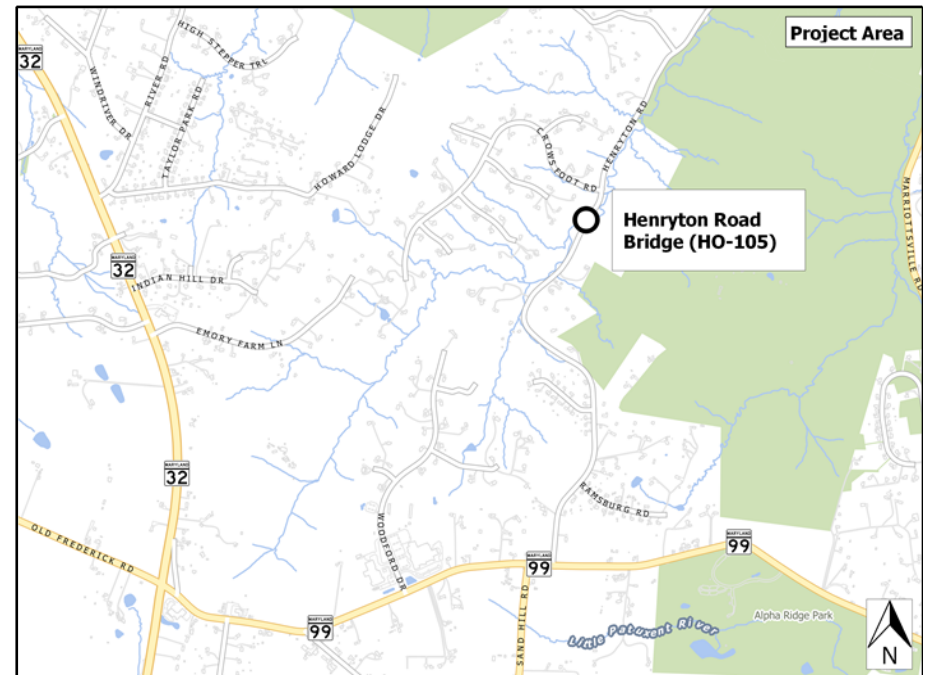

Project Schedule

FY16 - Construction.
FY17 - Continue construction.
FY18 - Close.

Operating Budget Impact

Annual Bond Redemption \$ \$33,975

Replacement facility.

Total Funding	1,454	150	1,604	0	0	0	0	0	0	0	0	0	0	1,604

Project Status :

\$431,758 spent and encumbered through February 2015

Project being bid for construction in Spring 2015.

Description

A project for the design and construction of a replacement bridge and roadway tie-ins. The existing bridge is 32 feet long with a clear roadway of 23 feet and has a weight limit of 12 tons. Daisy Road is classified as a major collector in the Plan Howard 2030.

Justification

This bridge is functionally obsolete due to its narrow width and weight limit. It is on a six-month inspection cycle due to a greater posted load capacity (verified by testing) than would normally be allowed for a bridge of this construction. The new structure will be wider to meet AASHTO and County Standards.

Remarks

- 1. GRANT represents Federal Bridge Rehabilitation/Replacement funds.

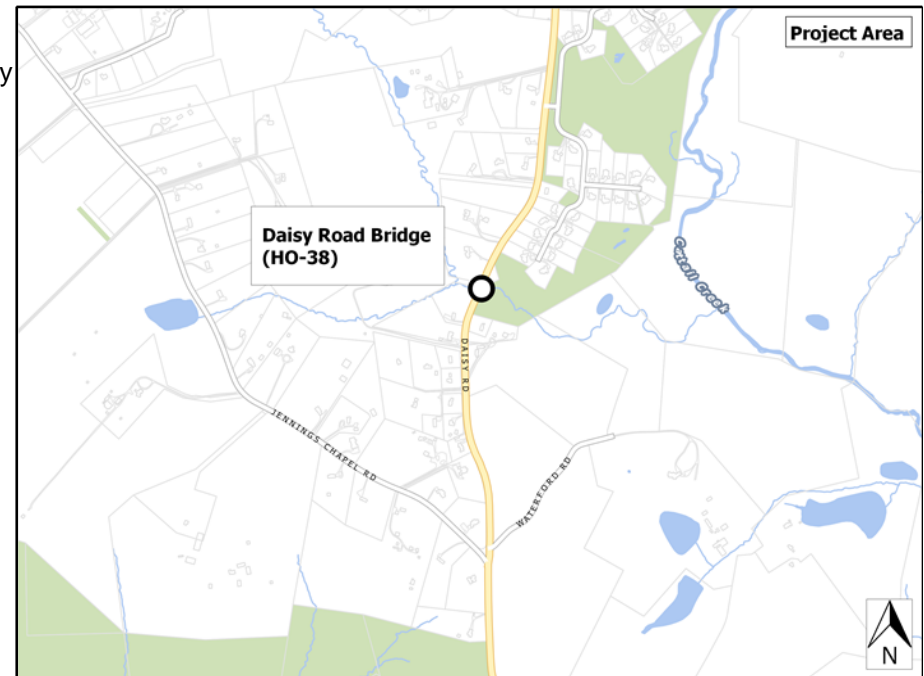

Project Schedule

- FY15 - Project to be bid.
- FY16 - Construction.
- FY17 - Construction Complete.
- FY19 - Close.

Operating Budget Impact

Annual Bond Redemption \$ \$22,905

Replacement facility.

Project Status :

\$212,042 spent and encumbered through February 2015

Project to be bid in Spring 2016.

Description

A project to inspect Howard County bridges in accordance with the federally mandated National Bridge Inspection Standards. This work includes determining the structural condition and safe load carrying capacity of the structures.

Operating Budget Impact

Annual Bond Redemption \$ \$9,000

Justification

Howard County bridges are inspected on a two-year cycle for the safety of the traveling public, to qualify for FHWA Grant funding for all jurisdictional bridges, and to protect Howard County's infrastructure investment.

Remarks

1. Funding is for bridge inspections on a two-year cycle.
2. Adding Retaining Wall inspections.

Description

A fund for Howard County to undertake construction and repair of bridges, culverts and retaining walls requiring prompt action. Structures may suffer damage as a result of heavy storms or fail due to progressive deterioration or disasters and thereby require immediate action with these design and construction funds.

Justification

Without this fund a roadway may be closed for an extended period of time thus creating a major inconvenience to citizens.

Remarks

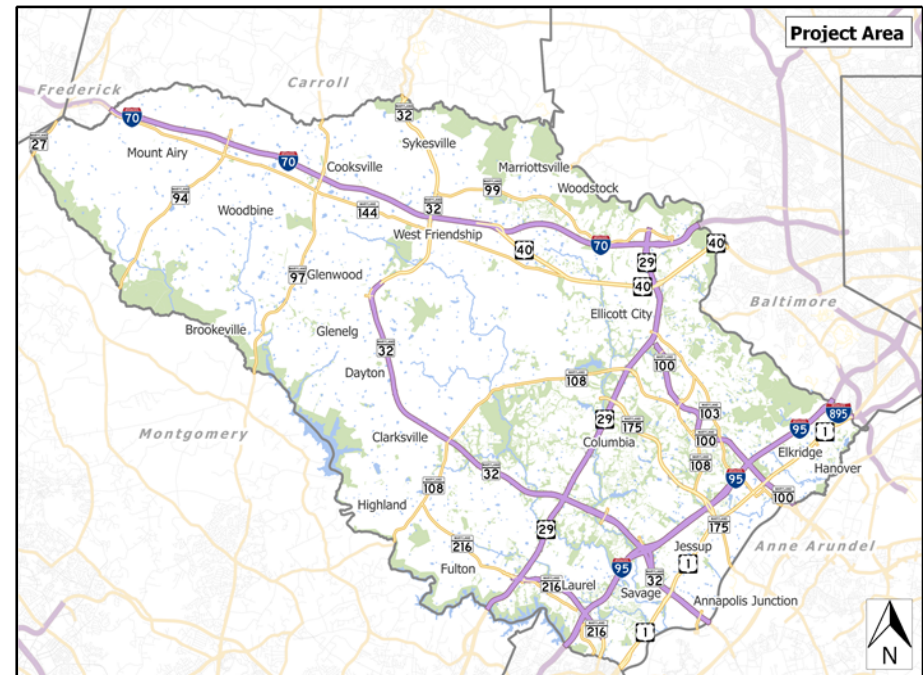

- 1. Grant represents possible FEMA reimbursement.
- 2. Request represents funding for emergency projects.

Projects in progress:

Projects complete: Mulligan Hill Ln Retaining wall, Parking Lot E wall, Parking Lot D pedestrian bridge repair, HO112 - Cradlerock Way, HO3 - Ilchester Rd over Bonnie Branch Rd, HO015 - Volmerhausen Rd, HO126 - Snowden River Pkwy, HO162 - Landing Rd, HO194 - Guilford Rd, HO101X - Frederick Rd.

Description

A project for specialized renovation items for bridges throughout the County.

Justification

This effort will reduce the need for closing of bridges by addressing problem items in a timely manner. Some items of work will be cleaning and painting structural steel to extend the useful life of the bridges or placing Class 2 riprap (up to 2,000-pound stones) to counter scour at abutments.

Remarks

1. This work is beyond the capabilities of the County Highway maintenance crews.

Fiscal 2016 Capital Budget

Project: B3858-FY2018 PFEFFERKORN ROAD BRIDGE (HO-31)

BRIDGE PROJECTS

Number: B3858

Description

A project for the design and construction of a bridge replacement for Pfefferkorn Road over Middle Patuxent River. Pfefferkorn Road is classified as a local road in the Plan Howard 2030.

Justification

The existing bridge is 36 feet long with 20 feet of pavement in a 30-foot right-of-way and is currently posted for 14 tons and 30 mph. The bridge is functionally obsolete due to its narrow width and posted weight limit.

Remarks

1. The bridge is not eligible for Federal Bridge Rehabilitation/Reconstruction funds.
2. Scenic road characteristics will be preserved in the improvements.

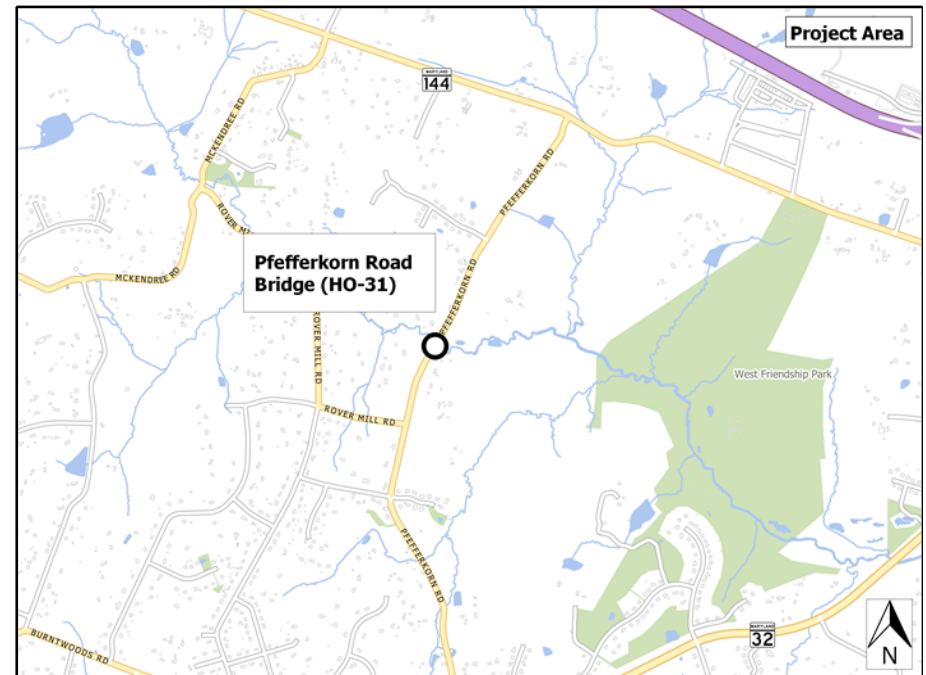

Project Schedule

- FY18 - Design.
- FY19 - Design and Land Acquisition.
- FY20 - Construction.
- FY21 - Complete and Close.

Operating Budget Impact

Annual Bond Redemption \$ \$61,875

Replacement facility.

BRIDGE PROJECTS

Project: B3860-FY2016 CARROLL MILL ROAD BRIDGE REPLACEMENT (H0-23)

Number: B3860

Description

A project for the design and construction of a replacement structure for the Carroll Mill Road bridge over Benson Branch. Carroll Mill Road is classified as a minor collector road in the Plan Howard 2030.

Operating Budget Impact

Annual Bond Redemption \$ \$58,500

Replacement facility

Justification

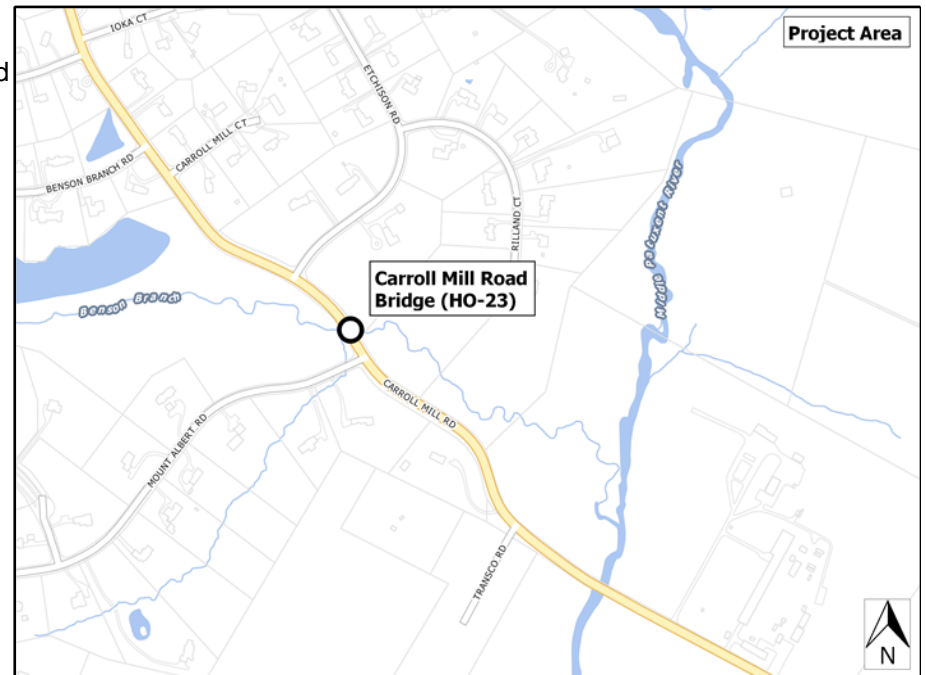

The deck beams and abutments are deteriorating making the bridge structurally deficient. It is expected that continued deterioration will require the bridge to be posted, decreasing its weight carrying capacity in the future. It is on an increased inspection schedule.

Remarks

May be eligible for Federal Funds in the future.

Project Schedule

- FY16 - Design.
- FY17 - Design and Land Acquisition.
- FY18 - Construction.
- FY19 - Close.

Project Status :

\$0 spent and encumbered through February 2015

Description

A Countywide project for the design and construction of replacement or rehabilitated retaining walls and slope stabilization. The walls are at various County locations in/out of the right-of-way and vary in height and length.

Justification

These retaining walls require extensive rehabilitation/replacement which is beyond the scope of normal highway maintenance. This project may also address areas of slope failure where no wall currently exists.

Remarks

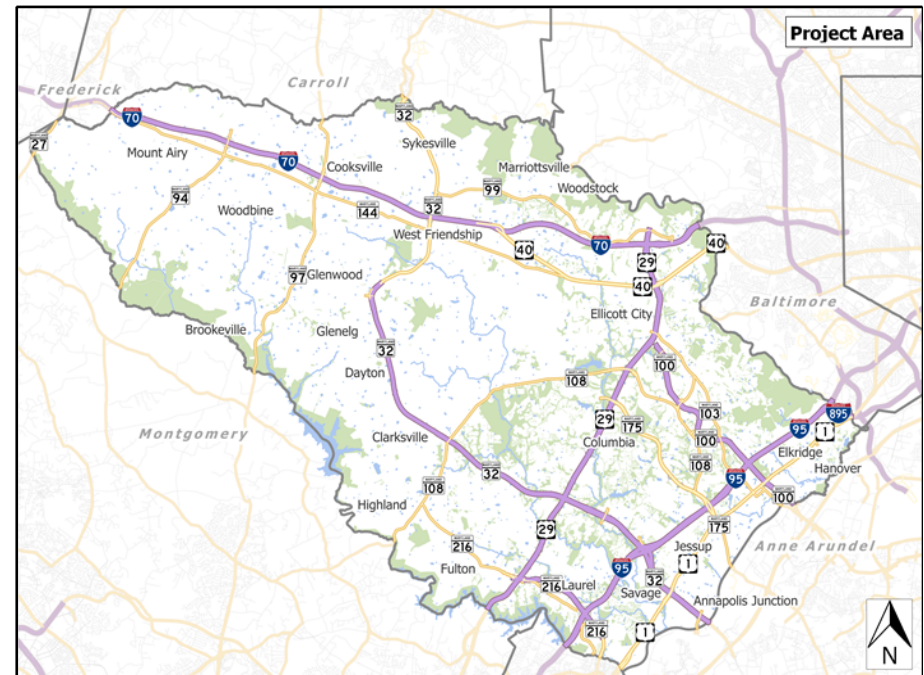

- 1. Project replaces J4154.

Spending down funds in J4154 first.

Study Complete: Lawyers Hill slope.

Projects to start include: Loudon Ave wall, New Cut Rd wall, Old Stockbridge wall, and walls in Ellicott City.

Fiscal 2016 Capital Budget

BRIDGE PROJECTS

Project: B3863-FY2013 DOWNTOWN COLUMBIA-OAKLAND MILLS CONNECTION IMPROVEMENTS

Number: B3863

Description

A project to provide a feasibility study, design and construction of enhancements to existing and potential future connections over US29.

Operating Budget Impact

Annual Bond Redemption \$ \$38,250

Justification

Given the redevelopment plans for Downtown Columbia and planned multimodal path linking Howard County General Hospital and Howard Community College through Downtown over US29 to Blandair Park, this project is necessary to develop an effective crossing over US29.

Remarks

OTHER - Sources represents developer contribution.

Project Schedule

FY17 - Complete Design and Engineering; Begin Construction.

Project: C0182-FY1985 PUBLIC SAFETY EDUCATION CENTER

GENERAL COUNTY PROJECTS

Number: C0182

Description

A project for design and construction of a group of facilities for training of public safety employees. Facilities are intended to include a burn building and drill tower, offices, classrooms, laboratories, weapons training facilities, crime scene simulation facilities, ancillary buildings, and library/study for emergency service education programs.

Justification

This project is intended to meet combined training missions of both Police and Fire and Rescue. Critical training will be compromised if progress is not made in establishing both hands-on and classroom training facilities that are co-located close to the existing outdoor pistol range.

Remarks

1. Verification of program requirements .
2. Phase II - Administration/Classroom/Fitness Facility; Burn Building.
3. Phase III - Multi-Purpose Fire Grounds; Police Simulations; Range Armory; K-9 Training area; Gas Exposure; Vehicle Extraction Area expansion.
4. Feasibility Study completed, recommended enclosure of Firing Range.
5. Phase IV - Enclosure of Firing Range
6. Add classrooms to main training facility, design & construct Phase One of Indoor firing range, upgrade lighting in Logistics Bldg, Provide covered storage of OEM and Fire Department equipment and Citizen Services Containers

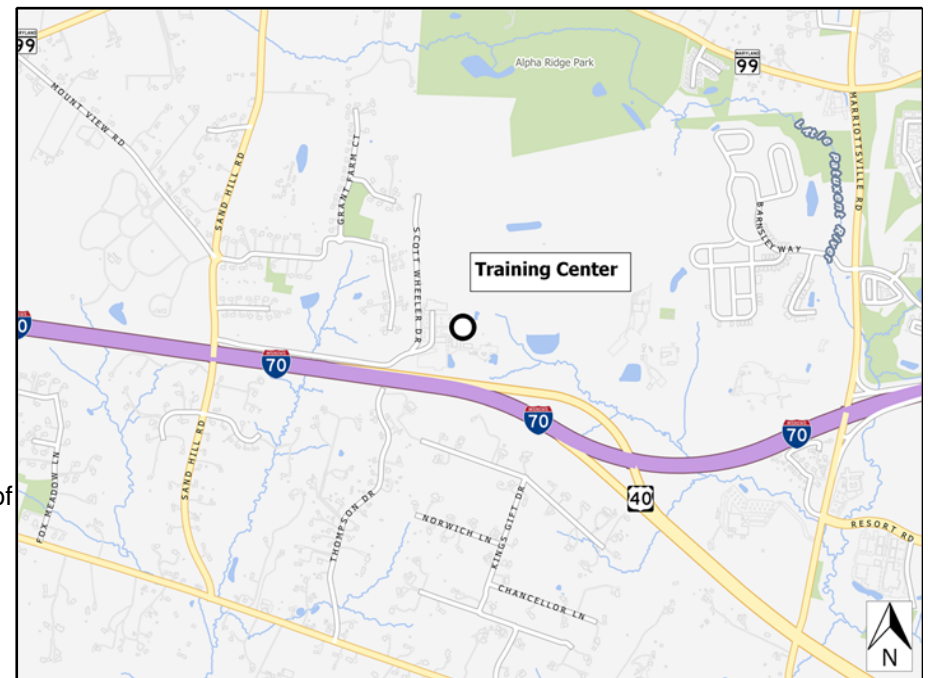

Project Schedule

FY17 - Design of Enclosed Firing Range Phase I, Classroom Addition, Renovations to Main Bldg. Design and Construction of Vehicle and Equipment Storage Bldg, Design and Installation of Emergency Generator for Logistic Bldg
FY18 - Construction of Classroom Addition Main Bldg; Construction of Enclosed Firing Range Phase I
FY18 - Design of Enclosed Firing Range Phase II;
FY19 - Construction of Enclosed Firing Range Phase II
FY20 - Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$2,452,950

Estimated annual utility/custodial costs upon construction completion for the Enclosed Firing Range: \$100,000.00

Project Status :

\$26,974,704 spent and encumbered through February 2015

FY08/09/10 - Hands-on training facilities (F&R Simulation Bldg; Maze Bldg; Pump House; Police Simulation Bldg; Hogans Alley; Exposure Training Bldg; K9 Training Facility; Fire Simulation Prop (Tower) completed.

FY13/14 - Replaced contaminated/deteriorated Firing Range admin trailer with a new admin trailer with water/sewer services.

Description

The fund is designed for use as a revenue source for Transfers of Appropriation when either construction costs are higher than originally estimated, contributions from grants vary from projections, or engineering must be advanced from future years to the present fiscal year for critical program needs; all subject to Council approval.

Justification

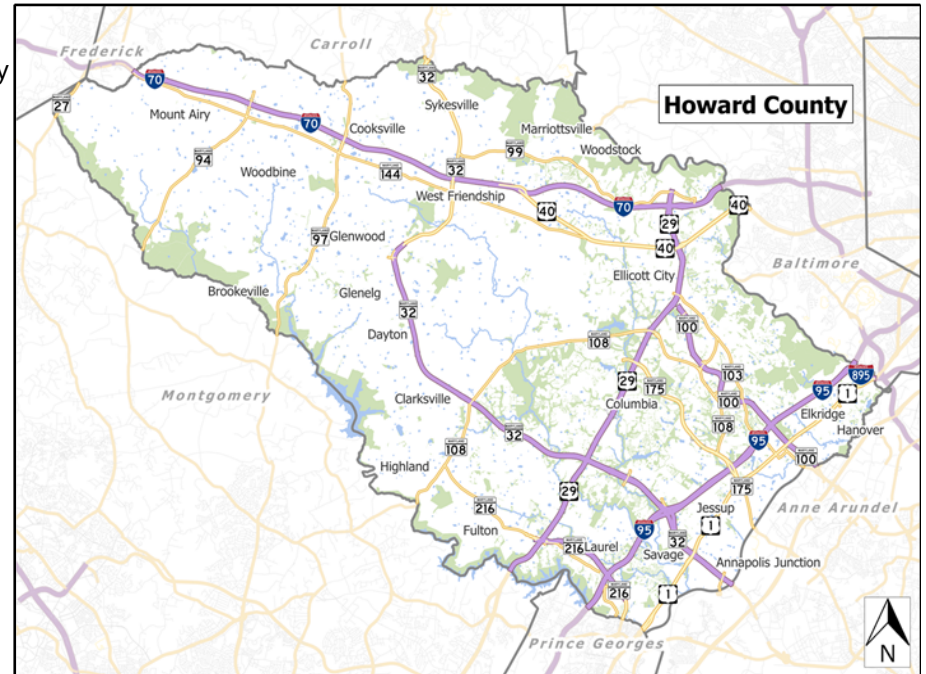

This fund will allow for the timely completion of approved projects by contingency funding as-required.

Remarks

1. GRANT & OTHER funds represent only an appropriation that can be drawn from when an appropriation is needed by a recipient project that is under-appropriated.
2. Prior Appropriation reflects TAO #2 adopted October 5th, 2006.
3. TAO #1 and #3-2009.
4. TAO#1 and TAO#2-2011.
5. TAO #1, #2 -2014

Project Status :

\$0 spent and encumbered through February 2015

Description

Evaluation of environmental conditions of property and buildings which become available for purchase or use prior to a specific capital project being established or which are part of an existing project. This also applies to purchases under the Acquisition Contingency Fund. Phase I, II and/or III environmental assessments would be completed as necessary to evaluate the properties or buildings and may include various remediation measures under Phase III.

Operating Budget Impact

There is no operating cost impact.

Justification

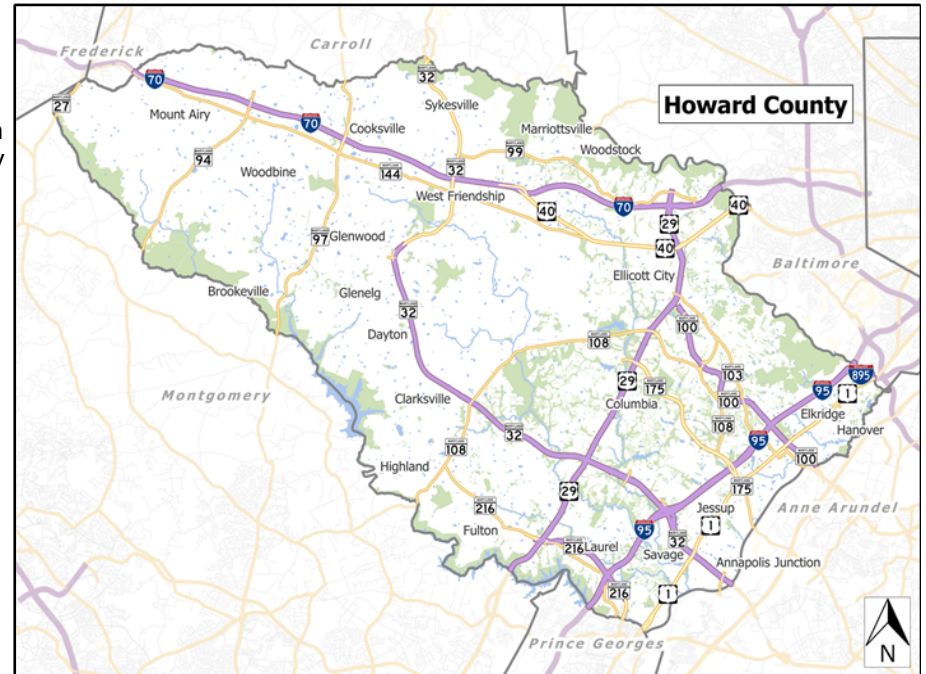

Acquisition of property can result in liability for environmental cleanups. Environmental assessments prior to property acquisition will assist the County in determining fair market value. Environmental assessments and remediation may also be required if problems are identified after acquisition.

Remarks

- 1. Assessments may be performed which determine that the site is not suitable and no purchase is made.

Project: C0264-FY1998 SYSTEMIC FACILITY IMPROVEMENTS

GENERAL COUNTY PROJECTS

Number: C0264

Description

A project to improve or upgrade the physical plant of public buildings, their equipment and systems, to replace plants/systems which have deteriorated beyond routine maintenance, or to provide for system management initiatives, energy initiatives, or environmental initiatives.

Justification

Building systems that exceeded their useful life, are inefficient, or have deteriorated beyond maintenance standards. Upgrades, replacement, or renovations are necessary to allow Facilities to maintain its support function.

Remarks

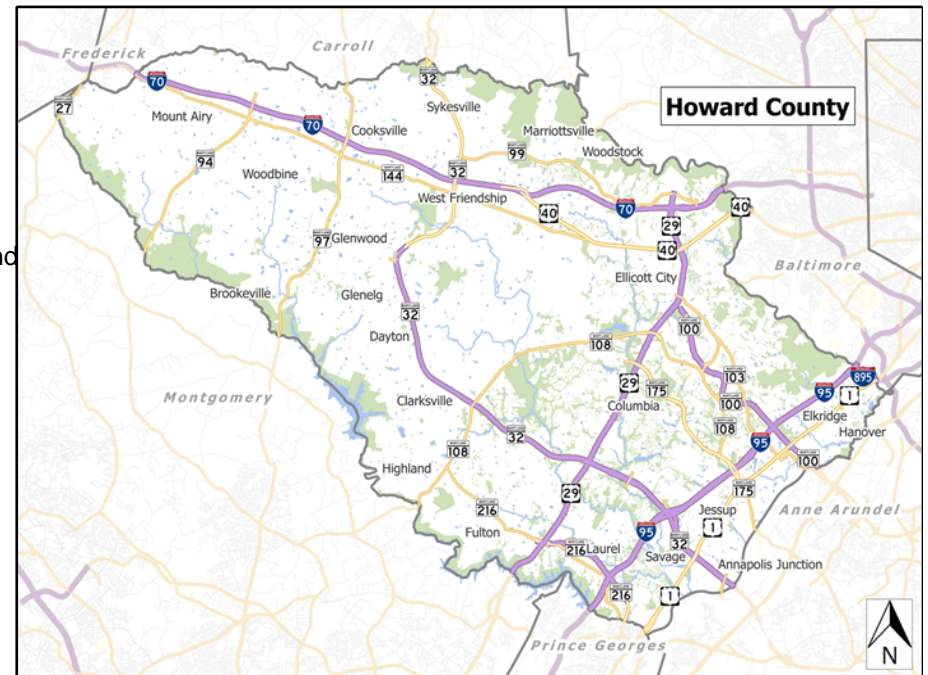

1. Upgrade/improve building infrastructures to meet current facility standards/requirements; to meet changed/expanded/complex missions; to extend facility life expectancy; to improve environmental and energy efficiency, effectiveness and life safety: Roofing Systems, Window Systems, HVAC Systems, Electrical Systems, Fire Protection Systems, Safety Systems, Energy Management and Conservation Systems, Environmental Systems, Green Building Initiatives, ADA Requirements.

Project Status :

\$26,580,193 spent and encumbered through February 2015

FY02 - Completed Rockland Arts Center Structural Repairs; Boiler Replacement at Mayfield, Cooksville, Dayton and Utilities Building; Repair of Howard Lower Level Walkways, Stairs, Sidewalks, and Ramp.

FY03 - Completed Banneker Room ADA Upgrade; Completed Detention Center Structural Analysis.

FY04 - Dorsey/Gateway Buildings Upgrade/Renovations to Meet F&R and Circuit Court Requirements. FY05 - Replaced Howard Building Roof.

FY06 - Clerk of Court infrastructure; asbestos abatement and refurbishment Carroll Bldg; Courthouse roof ; Animal Control HVAC & roof; Florence Bain roof

FY07 - Renovate Southern District central booking area to office space; significant roofing repairs at several buildings.

FY08 - New security fencing system; security camera system; storage system improvements for Detention Center; Howard & Dorsey bldg renovations to meet customer requirements; Energy efficiency investments from energy performance contracts. Dorsey modifications to meet changed operation requirements.

FY09 - Energy efficiency investments from energy performance contract.

FY10 - Upgrades to Detention Center security camera system & converted space to Interview Room; Developed design for replacement of Rockland Arts Center roof & structural supports.

FY11 - Renovated Ligon & Carroll Bldgs; added Interview Room in Detention Center; repaired Detention Center water damage from boiler pipe break; added larger access security door for Detention Center kitchen area.

FY12/13/14 - Installed new roof on Center for the Arts; installed new Emergency Generator for the Public Safety Complex, Scaggsville; constructed new roof & structural supports for Centennial Park Maintenance Bldg; built new Board of Educ Data Center in the Dorsey Bldg; renovated the Utilities Hdqtrs Bldg; Design the Dept of Health Dept relocation to Ascend 1; designed/built new Technology Data Center for Dorsey Bldg

FY15 Provided new HVAC system at B&O Museum; designed new HVAC system for Fire Station No. 9; Provided new office area at the Detention Center; renovations in the Gateway, Carroll and Howard Buildings.

Planned projects, including an addition and renovation at Cooksville Shop and renovations at the Dorsey building will draw down the balance of the funds in this project.

Description

A project to plan, design and implement a series of streetscape, pedestrian, bicycle, transportation and public green space improvements on public property in the US1 Corridor. Acquisition for these improvements may be needed. Funding includes developer contributions. The County will either construct the improvements or have the developers construct the improvements for the County.

Justification

Revitalization of the US1 Corridor continues to be a priority area under PlanHoward 2030. The purpose is to invest public funds in community enhancement projects that will support and spur revitalization by the private sector, promote economic development improvement and public safety and enhance the quality of life in existing, older neighborhoods in the Corridor. Changes and improvements planned along entire 11 miles. Larger projects will implement improvements for the public benefit.

Remarks

1. FY2012 Project J-4233 workscope and funding included;
2. County funding will be used to leverage additional Federal, State and developer funds. Programming of projects for construction based on available funding;
3. The completed US 1 Corridor Improvement Strategy identifies projects and investments in conjunction with SHA;
4. Pedestrian and bicycle improvements to be coordinated with and promote access to State and Howard County public transportation services and MARC rail;
5. OTHER: Developer Contribution

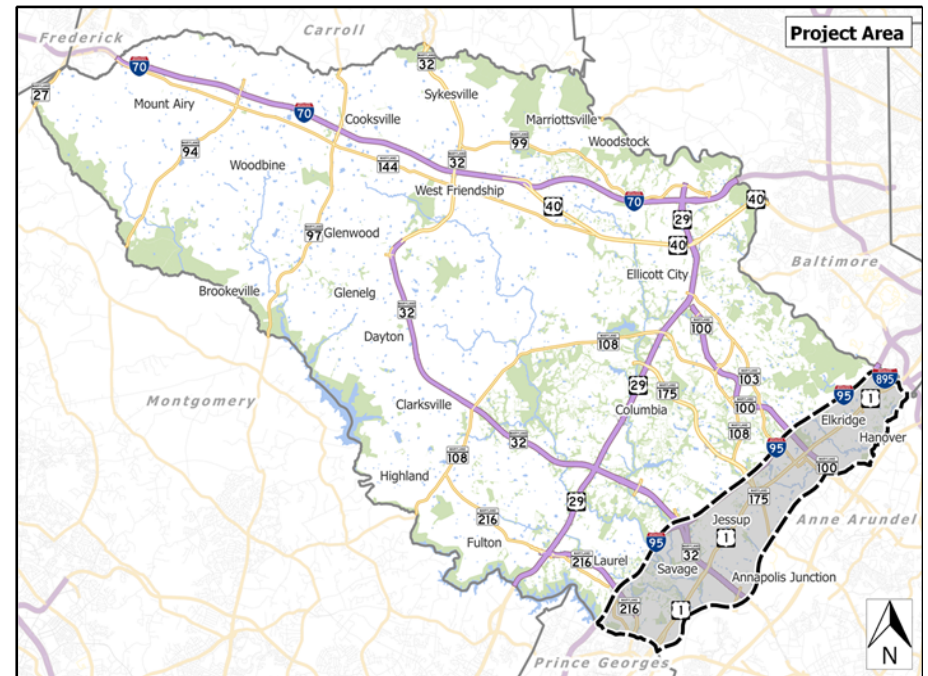

Project Schedule

FY16 - Construction North Laurel project.

Operating Budget Impact

Annual Bond Redemption \$ \$474,750

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project Status :

\$1,545,331 spent and encumbered through February 2015

FY15 - SHA working on preliminary engineering for N. Laurel Area improvements.

1. Engineering consultant was retained in FY09 to conduct a project planning study for a potential alignment of a section of US1 to accommodate the newly identified right-of-way and improvements. Planning continued in FY 10 with SHA and property owners regarding alignment and financial obligations.

2. FY12 - Three sidewalk improvements projects constructed totaling \$494,890 utilizing HUD grant and local funds.

3. FY16 - Reduction to Grant Funds to align with grants received and spent.

Description

A project to implement a series of systemic improvements to Howard Transit bus stops. These improvements would include the installation of approach sidewalks, curb cuts (consistent with ADA requirements), bus shelters, concrete pads, bus stop signs, cross walks, route map holders and other improvements. Planning and Zoning, in conjunction with the Office of Transportation, will determine the location of these improvements.

Operating Budget Impact

Annual Bond Redemption \$ \$14,400

Justification

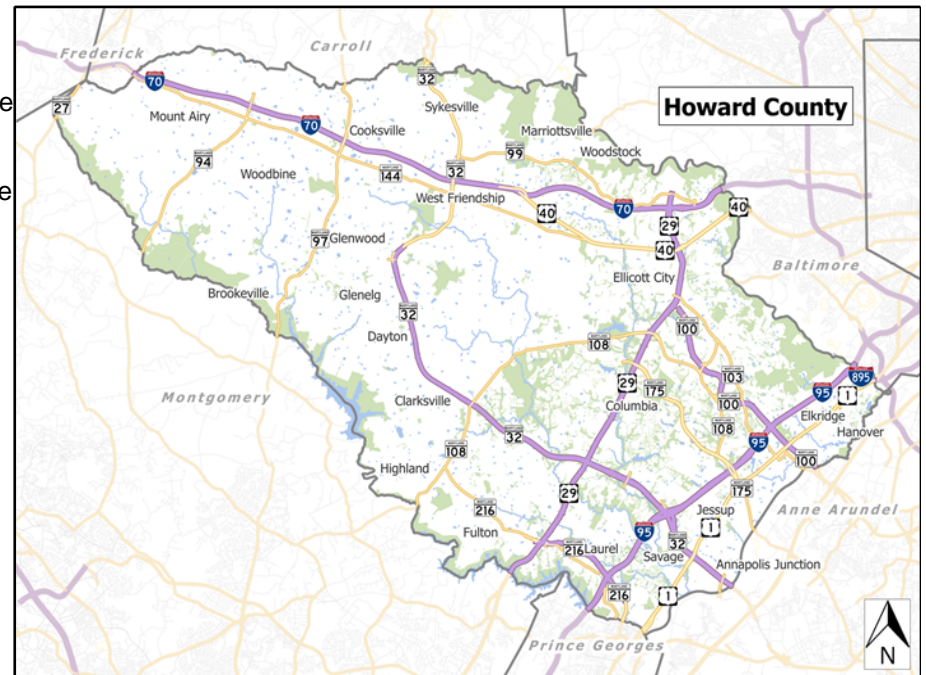

A field survey of Howard Transit bus stops indicates that these improvements are needed for the safety, comfort and access of passengers, as well as to conform with ADA guidelines. The proposed improvements also reflect the County's desire to increase ridership on the local system by making stops more accessible and convenient.

Remarks

1. Installation of these improvements will comply with the Americans with Disabilities Act (ADA) regulations.
2. GRANT funds represent Federal American Recovery and Reinvestment Act (ARRA) funds of \$100,000. Additionally, New Freedom grant funds of \$320,000 with \$80,000 in local matching funds are being used for the construction of shelters and bus stop improvements.
3. OTHER funds represent potential BWI Airport Noise Zone Grants to communities that will be passed through to County. Potential fee-in-lieu from developer also included.

Project Schedule

1. FY11 - Two (2) replacement bus shelters installed
2. FY12 - Eight (8) replacement and new bus shelters installed
3. FY13 - Continued bus shelter installation and ADA compliant access improvements
4. FY14 - Reconstruction of Harpers Choice Bus Shelter and other ADA compliant access improvements.

Project slated to close 2014.

Description

A project to design and implement a series of pedestrian improvements, streetscape enhancements and repair or enhancement of public green spaces. Pedestrian improvements such as sidewalks, curb and gutter, ramps or curb cuts; streetscape enhancements include signs, street trees or landscaping, benches, trash receptacles; and public green spaces such as paths, landscaping, signs and site furniture.

Justification

PlanHoward 2030 establishes numerous policies pertaining to community sustainability and the implementation of enhancement projects within existing communities.

Remarks

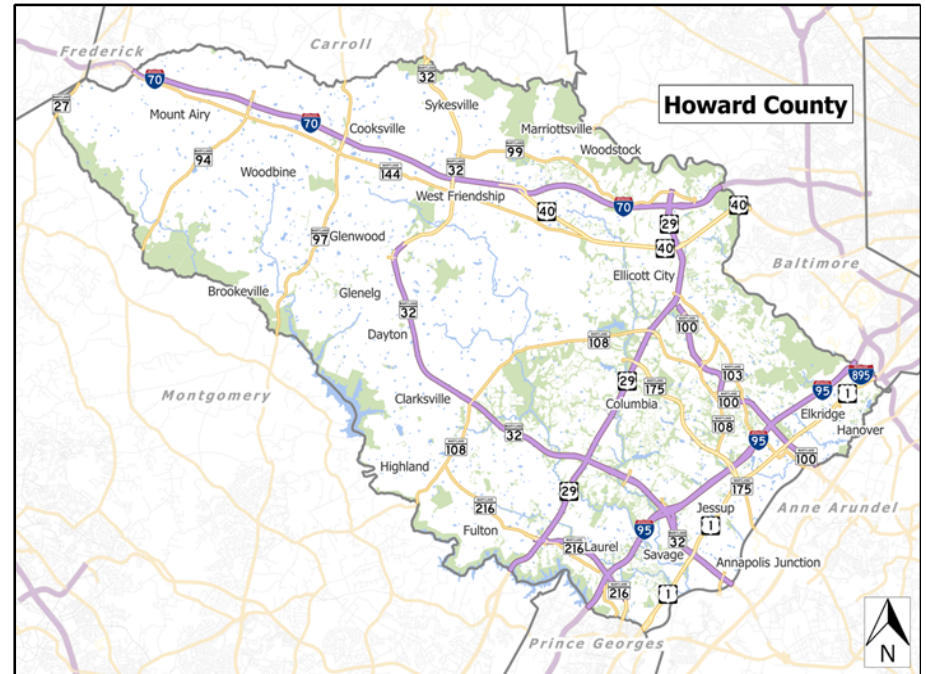

1. Project funding will target public property in neighborhoods with community enhancement committees or community associations that request and support the improvements.
2. Pedestrian improvements will comply with the Americans with Disabilities Act (ADA) and will be coordinated with and promote access to State and County public transportation services.
3. OTHER funding will allow projects that receive community contributions to be constructed on county property.

Project Schedule

FY16 - FY19 - Planning, Design and Construction Continued

Operating Budget Impact

Project Status :

\$570,356 spent and encumbered through February 2015

1. FY04 - Retaining Wall in Village of Wilde Lake Complete.
2. FY05 - Completed Bryant Square Landscape Revitalization Plan, Landscape Maintenance Manual, and Drainage and Sidewalk Improvements.
3. FY08-FY10 - Village of Oakland Mills revitalization, Robert Oliver Place Enhancement. Completed in FY11.
4. FY14/15 - Completed study and 30% design of Frederick Road/Route 144 mile marker enhancement along Route 40.
5. FY15-FY16 - Design and engineering of the Oakland Mills streetscape on Stevens Forest Road and White Acre Road to be completed in FY15. Construction to be completed by FY16.

Description

A project for site selection, acquisition, design and construction of a multi-jurisdictional transit facility. The facility will support the County's fixed route and paratransit services including such functions as dispatch, vehicle maintenance, parts storage, revenue collection and handling, vehicle storage, management and administrative office space, and similar functions.

Operating Budget Impact

Annual Bond Redemption \$ \$158,445

County is estimated to recover its local share of the investment in the facility within eight years. The facility is expected to have a useful life of at least 30 years.

Justification

MTA will provide at least 80% of the funding. Development of the facility allows Howard County to respond to future transportation requirements engendered by redevelopment of US 1, BRAC and Downtown Columbia.

Remarks

1. Facility funding is predicated on Federal/State GRANTS. MTA has designated project as eligible to receive transit facility funding. Prior Approp OTHER includes Federal funding through MTA and Anne Arundel County. Requested FY14 OTHER funding will be sought from project partners for wash bays.
2. Land acquisition of approximately 6 usable acres allowing total fleet capacity of 100 vehicles and attendant services.
3. County has entered into joint agreements with MTA and Anne Arundel County (Total Contribution \$1,921,000) to establish leasing and/or cost-sharing arrangements.
4. Facility to open on July 1, 2014.
5. Additional funds programed for equipment acquisition in FY 2014.
6. Additional funds programed for LEED Silver certification and projected final costs of construction.

Project Schedule

FY16 Acquire Equipment; Close.

FY09 - FY10 - Planning, site assessment, agency coordination and NEPA. FTA to grant NEPA approval for site purchase.

FY11 - Land Acquisition, NEPA Documents, Preliminary Engineering

FY13 - Design, Procurement (contractor/construction inspection)

FY14/15 Construction; FY15 Acquire Equipment.

Description

A project to expand and renovate the existing courthouse. The effort will be to construct a new Judicial Function Building/Parking Garage, to add a new building addition to the Courthouse, and to renovate/upgrade interior spaces of the existing courthouse. An alternative possibility is to construct a new courthouse on a different site

Justification

The project will provide:

1. A new Judicial Function Building/Parking Garage to provide the additional Court facilities to get the Courthouse through it's short term & intermediate term requirements;
2. A Single Entry Security Checkpoint with a sky bridge connection to the existing Courthouse;
3. Two new Civil Courtrooms, with Judges Chambers;
4. Secure parking for the Judges and Masters;
5. Greater functionality for the Lobby, Jury Assembly Areas, Waiting Areas, and the Circulation Atrium space;
6. For the renovation of functional space in the existing Courthouse to meet the Court expanding requirements;
7. For the necessary site work revisions associated with the Judicial Building/Parking Garage.

The project's construction is dependent on matching State Grant funding for the Judicial Function Building/Parking Garage.

Remarks

FY15 - Alternative site and preliminary building layouts have been prepared.

Project Schedule

FY16 - Study phase for new construction/interpretation of options. Provide future budget.

FY17/18 - commence new construction.

18/19 - Complete New Construction

FY20 - Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$355,275

FY16 - 1 FTE increase to County General fund budget. Accomodations for up tp 6 additional FTE supporting Judicial function, and 4 FTE for Sheriff/Security. Will be re-evaluated closer to construction completion. The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project Status :

\$5,783,823 spent and encumbered through February 2015

FY03-FY13 - Numerous modifications to help make the aging Courthouse more usable in changing times and requirements.

FY14 - Used QBS process to select Consultants; executed contracts; started Design

FY15 - Preliminary results of study seems to indicate alternate site would be less expensive and less intrusive solution than addition to existing Court House.

Description

A project to plan, design and implement improvements (eg sidewalks, landscaping, street trees, median and gateway enhancements) within public right-of-way and to develop a corridor design manual to guide site design on adjacent properties.

Justification

Enhancement of the RT40 Corridor is a priority under PlanHoward 2030. The purpose is to invest public funds in community enhancement

Remarks

Projects that will promote economic development, encourage revitalization, guide redevelopment, improve public safety and enhance the quality of life along the corridor. The project area and specific enhancement strategies are identified in the RT40 Design Manual and the RT40 Streetscape Master Plan.

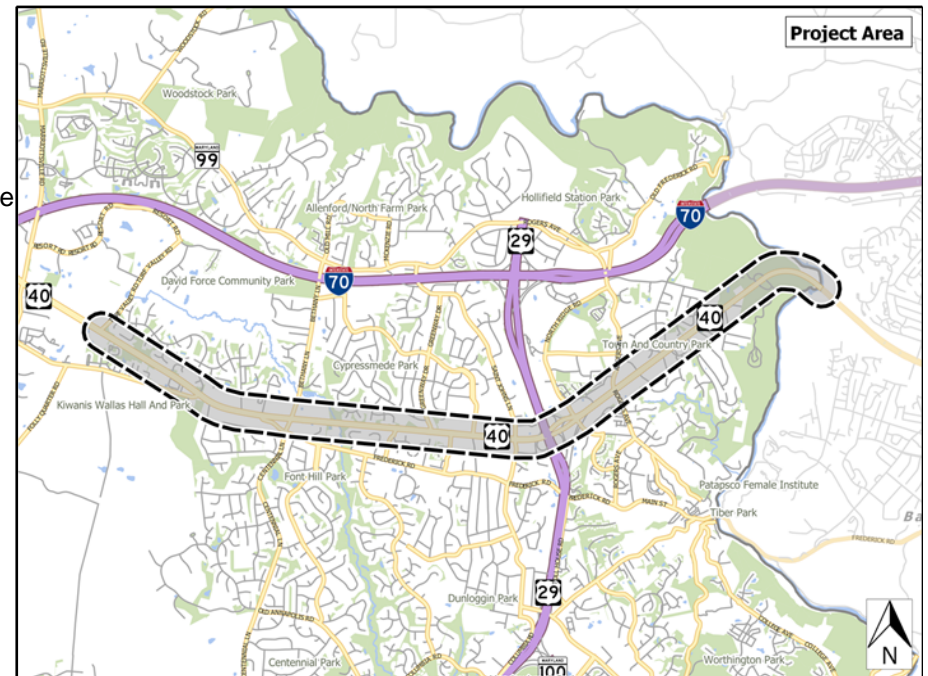

Project Schedule

FY15-FY19 - Continuation of enhancement projects.

Operating Budget Impact

Annual Bond Redemption \$ \$112,500

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

FY11 - Completion of Streetscape Master Plan.

FY11/12 - Design development, engineering and construction of initial two projects at Chatham Road and Wheaton Way.

FY14 - Design of Phase II to complete improvements in the Chatham Road area.

FY15 - Construct Phase II.

FY16 - Complete construction Phase II and initiate planning and design of improvements within selected parkway medians and the Frederick Road intersection.

Description

A project for the design and construction of capital improvements at the Alpha Ridge Solid Waste Facility, New Cut and Carrs Mill Landfills. Scheduled improvements are detailed in the "Project Schedule" section. Unscheduled improvements may be under taken based on monitoring results or systems failures.

Justification

Improvements required to comply with State/Federal regulations, and to provide facilities adequate to serve long term waste management needs.

Remarks

1. Schedule for construction of new cell and capping of existing cell at landfill dependent on rate at which existing cell reaches capacity.
2. Improvements are for Alpha Ridge Solid Waste Facility except as noted.
3. OTHER funding represents Bonds financed by the Environmental Service Fund.

Project Schedule

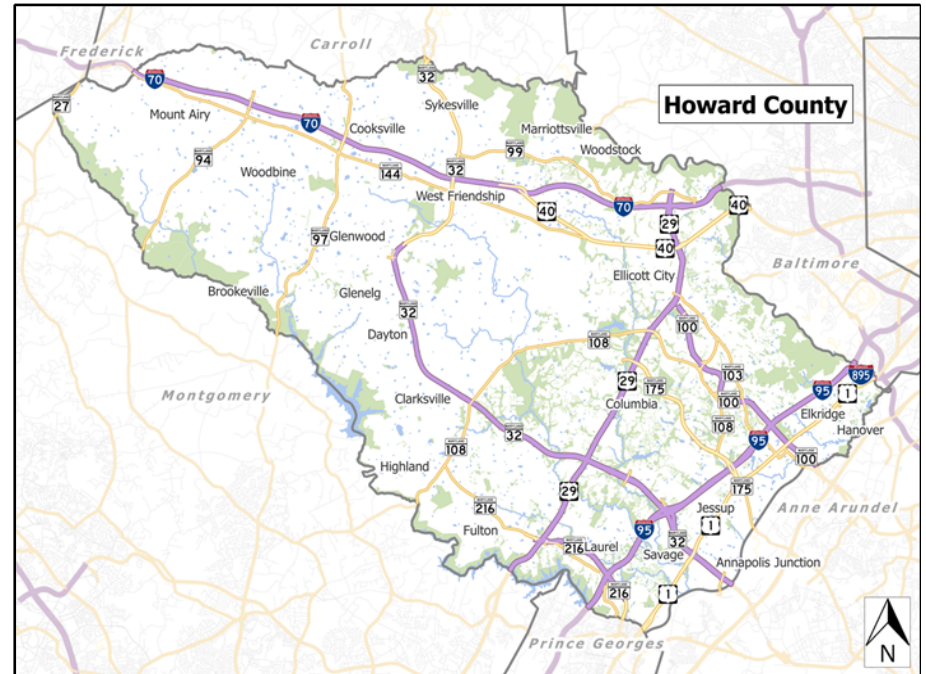

FY16 - Construct gas capture improvement, compost facility, and maintenance team compound. Upgrade pumping stations. Evaluate closure of New Cut groundwater system.

FY17-FY21 - Design and Construct cell 1 regrading, additional gas capture, materials recovery facility, scalehouse and scale replacements, resident area reconfiguration and cell 2.

Operating Budget Impact

Annual Bond Redemption \$ \$1,355,535

A project for the design and construction of capital improvements at the Alpha Ridge Solid Waste Facility, New Cut and Carrs Mill Landfills. Scheduled improvements are detailed in the "Project Schedule" section. Unscheduled improvements may be under tak

Project Status :

\$13,382,636 spent and encumbered through February 2015

FY07 - Residents convenience area and sediment/storm water basin construction. Phase I of video surveillance system installed. Front security gate at Alpha Ridge installed.

FY08 - Residents convenience area and ponds. Perimeter security fencing at landfills and improvements to scalehouse completed. Design of trailer storage area, groundwater remediation system expansion and LFG generation system on-going.

FY09 - Design of shop pond pipe lining, overall facility design, groundwater remediation system expansion, trailer storage area, and yard waste compost facility. Construction of outbound scale replacement, shop pond pipe relining.

FY10 - Study yard waste composting, scalehouse scale replacement, design ongoing groundwater expansion.

FY11 - Ongoing design of landfill mining plan and transfer station expansion. Ongoing design and construct landfill gas to energy system. Begin constructing trailer storage area and groundwater expansion.

FY12 - Design and construction of pilot compost facility. Begin landfill leachate collection improvements. Continue construction of gas to energy system.

FY13 - Complete gas to energy system, leachate improvements and LFG capture improvements. Design and begin construction of full scale composting facility. Improve video surveillance. Design office space, gas collection and route truck access improvements.

FY14 - Complete trailer storage area and groundwater expansion, entrance road improvements, transfer station noise reduction equipment pole barn, Design leachate collection improvements and additional gas capture and continue full scale compost design.

FY15 - Complete blower 1 replacement, access road construction, compost facility design and construction groundwater system expansion. Construct residential recycling shelters, and maintenance shop yard improvements. Design landfill gas capture improvements, eastern drop-off facility, and pond maintenance team compound.

Description

A project to upgrade infrastructure of the County's Local Area Networks and Wide Area Networks. This includes engineering assessment/analysis to define upgrades necessary to overcome existing and projected deficiencies, and meet longer term objectives. Installation of optical fiber plant, replacement of network infrastructure hardware (switches, routers, etc.) as necessary to provide a Gigabit Backbone Network.

Operating Budget Impact

Annual Bond Redemption \$ \$952,920
 The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Justification

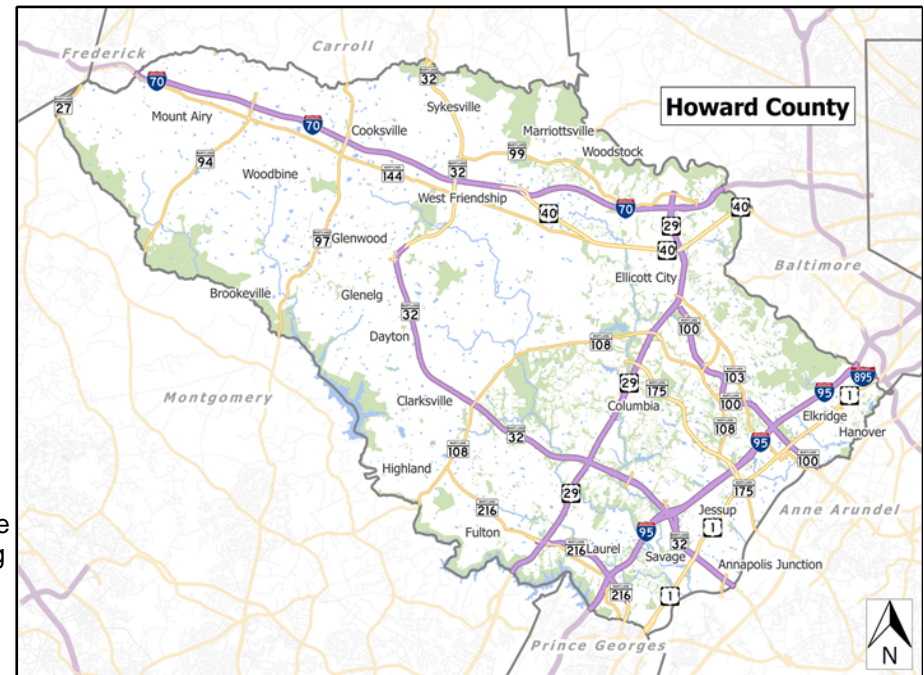

The County is currently in process of migrating to more client/server based processing with more robust applications, which are requiring higher bandwidth for adequate response time, particularly in the areas of Public Safety Systems (Intergraph 911/Records Management) which spans several campuses. Upgrades will enable the speed and response time of technology devices to remain within acceptable levels of performance. Proactive improvement of the infrastructure will enable the County to move forward with its application development without constraining the end product because of bandwidth issue.

Remarks

Rebuilding and refreshing to include cable modernization, hardware infrastructure upgrades, installation of WiFi and VOIP in those areas where it previously did not exist. Upgrade the HVAC system in Ascend One Data Center thereby safeguarding equipment and protect against outages caused by extreme fluctuations in temperature. Additionally this project will be used for the planning and development of new County intranet and internet websites.

Project Schedule

FY16 - Continuation of Project and necessary Cyber Security enhancements. Add WiFi and VOIP to County facilities; plan and development new County intranet and internet sites.

FY07- Phase III - Finish rewire of county buildings. FY08- Continuance of Phase III - The Howard County Detention Center only building remaining to be rewired. FY09- On Target. FY10- Install backbone segments to core County facilities. FY11- Portion of backbone complete and up to six county facilities to be connected. Continual elimination of leased phone lines. FY12- Continuance of the project. FY13- Continuance of the project. FY14- Backbone completed and additional facilities connected. FY15-Additional facilities connected, Cyber Security enhancements initiated.

Description

A fund for acquisition of land that comes available on the market that meets the future needs of the County to serve the public interest and no funded Capital Project exists. The project will also serve as a transfer source and to resolve other acquisition issues on projects that were closed or on those not funded by the Enterprise Fund. This shall include title and appraisal reports, surveys, environmental assessments, etc. required for the acquisition of property.

Justification

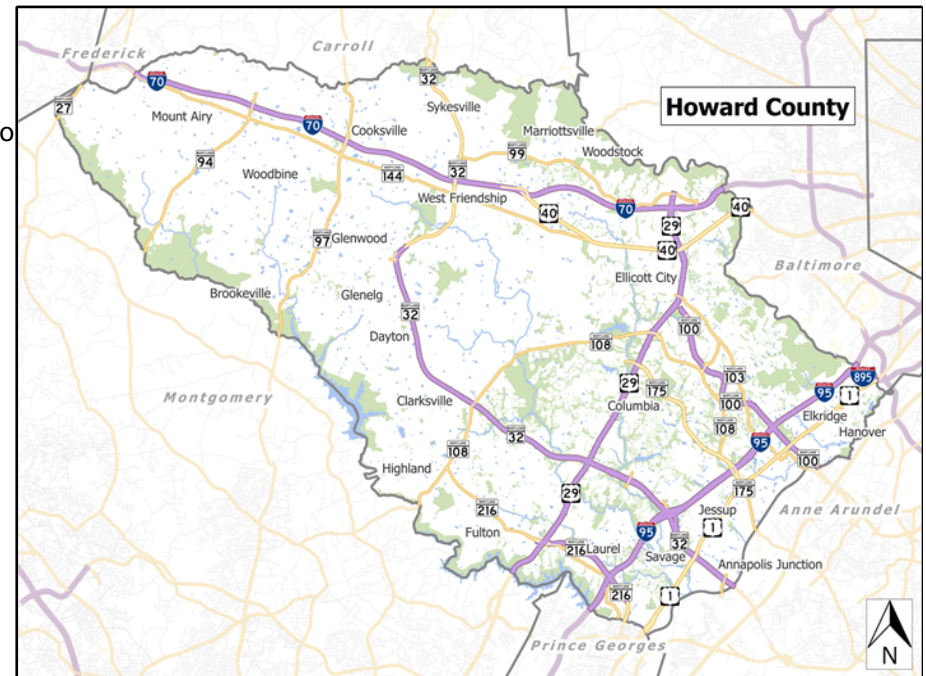

Allows the County to move quickly on parcels that come on the market. Land resources are becoming rare and it is essential that the County have the ability to move quickly to take advantage of unique opportunities for unique locations and possibly prevent the future need for condemnation.

Project Status :

\$23,231,610 spent and encumbered through February 2015

FY09 - Purchased Ellicott City Post Office

FY10 - Purchased property to be used for Route One Fire Station (F5975)

FY12 - Purchased the Refuse Collection Facility

FY14 - Purchased Court Place, Fels Lane, Little Patuxent Parkway, TSC/Route 32.

FY15 - Purchased 10750 Little Patuxent Parkway, 8518 Frederick Road, Long Reach Village Center, 9770 & 9790 Washington Boulevard.

Description

Enhancements to 800 MHz Motorola Astro trunking radio system for Public Safety. This first phase will replace all site radios including mobile radios on Fire and Police vehicles, along with FCC-mandated Narrowbanding for Howard County Fire Alert and Interoperability.

Justification

Howard County's 800 MHz Radio system is aging out of serviceability. As our radio system ages, we fall behind with need features and standards. We are taking a phased approach, first upgrading the Radio Core and 911 radio consoles to P25 standards, replacement of all portable radios due to end of life cycle, and the addition of radio frequencies t system and replacement of site infrastructure. This will allow us to stay in communications with Federal, State and other local area governments and public safety officers.

Remarks

1. Replace radio core equipment/software and 911 consoles.
 2. Replace tower light systems and GPS timing systems at all sites
 3. Replace all portable radios
 4. Replace site controller, UPS, generators, antennas, and lines.
 5. Building improvement at Howard High.
- OTHER revenue represents paygo generated from Fire Tax revenues.

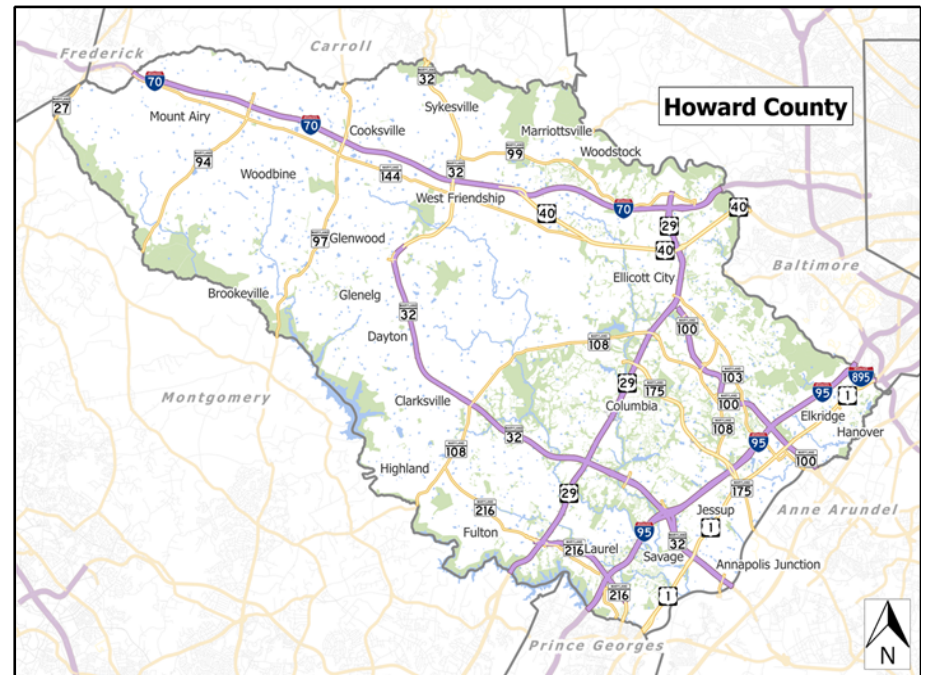

Project Schedule

FY15-FY16 - Radio System P25 Core and 911 console replacements
 FY16 - replace tower light and GPS timing system. Replace all XTS series portable radios to APX series.
 FY17-FY18 - Replace all site infrastructure such as base station radios, antennas, lines, UPS and generators.

Operating Budget Impact

Annual Bond Redemption \$ \$1,989,900

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project Status :

\$5,393,568 spent and encumbered through February 2015

FY08 - On going delivery of Site Ten materials and installation. Microwave material received. Continued negotiation and purchase of upgrade equipment and systems. FY09 - On target. FY10 - Mobile Tower Unit (MTU) to be outfitted with equipment; wireless AP Site for WEBEOC, 800MHZ single site Conventional Channel, 100 handheld low grade radios base site; Motorbridge CMARC to Southern Backup 911; Timbers of Troy shelter replacement. FY11 - CMARC Motorbridge has been completed. Timbers of Troy shelter replacement completed. FY12 - Start first phase of Project 25 radio system by upgrading all radio sites with GTR radios. Upgrade of Police and Fire vehicles radios to new Motorola APX 6500, 700/800 MHz radio Project 25. This will enhance public safety with interoperability with Prince George County, Baltimore County, Baltimore City and State of Maryland Project 25 state wide radio system. This will also enhance Howard County 800 MHz public safety radio capabilities to expand the operations of Fire and Police with more talkgroups and flexibly to manage radios inside of vehicles. Future funding from Technology fund. FY13 - Narrowbanding of radio frequencies completed.

Description

The County currently is utilizing SAP ERP software solution as the system of Financial Accounting, Purchasing and Utility Water and Sewer billing.

Operating Budget Impact

Annual Bond Redemption \$ \$553,950

Justification

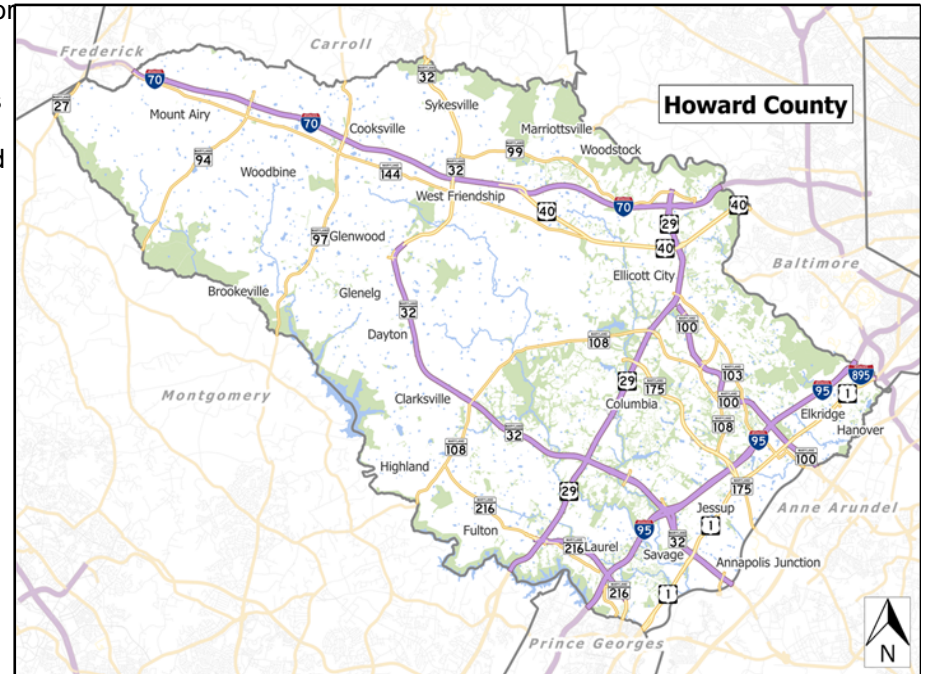

The first three phases of SAP implementation, including Financial Accounting and Purchasing, Utility billing, and SAP Business Intelligence for Management for reporting and planning have been implemented by the County in prior fiscal years. The County continues to implement SAP functionalities to enhance the performance, efficiency and financial reporting internally. The new functionalities being implemented and planned to be implemented will require augmenting County resources with SAP consultants to provide quick resolution of issues and timely implementations.. In parallel CountyÆs SAP team is constantly engaged in fixing and continuous process improvement activities that require enhancing, modifying, and developing functionalities to meet changing business and legal accounting needs.

Remarks

Current request is to able to support, enhance modify and develop the current and new functionalities in SAP as well as support the new Fleet Management and Inventory initiatives.

Project Schedule

FY16-Fleet Maintenance Management implementation is expected to be completed by FY16 Q1. Roll out Inventory barcoding solution for all inventory locations. Upgrade SAP Portal for single sign-onintegration and to improve processing speed for employee self-servicing components of HR Module.Begin Phase 1-Planning HR Module Implementation. Implement Governance, Risk and Compliance SAP tool for automated managing of the transaction authorization controls.

Project Status :

\$4,200,317 spent and encumbered through February 2015

Design:

Completed Regulatory Compliance Guide.

Prepared SPCC plans for all required facilities. SPCC preparation ongoing at Centennial Park Shop.

Prepared and updated SWPPPs at required facilities.

Conducted environmental compliance assessments of twelve facilities.

Trained staff on SPCC plans, SWPPPs, and handling hazardous wastes.

Prepared County-wide Hazard Communication Policy.

GIS inventory and database ongoing.

Set up hazardous waste collection program for Howard County sites.

Construction:

Design and installation of vehicle wash pads and rainwater harvesting systems at fire stations and four park shops ongoing.

19 USTs removed.

Removal of leaking underground hydraulic lifts and contaminated soil completed at five sites, ongoing at one additional site.

Oil/water separator replacement completed at 6 sites and ongoing at one site.

Underground waste water storage tanks for truck wash pads and oil/water separators designed and installed at two sites.

Truck wash pad and trench drain replacement ongoing at Alpha Ridge Maintenance Shop.

Design of stormwater protection system at Cooksville fueling site.

Updated SPCC Plans and SWPPPs for all required facilities.

Installed stormwater controls at Cooksville fuel island.

Description

This project will provide a variety of functionality enhancements for the County's existing Public Safety System. Enhancements will include replacing the paper-based Fire emergency medical reporting system, upgrading the 911 system to the latest technology, and enabling Police field reporting.

Justification

The project builds on the existing Public Safety System, which is made up of software supporting 911, Police and Fire records, Detention Center management and Police, Fire and Sheriff mobile data computers. The system has been in use since 2001. The enhancements will provide electronic reporting for the Police and Fire Departments. The upgrade is needed to keep the existing systems up to speed with new technology advances.

Remarks

- 1. Electronic Fire EMS system complete.
- 2. Field reporting pilot complete. Decisions pending on future direction.
- 3. 911 upgrade scheduled for FY14.
- 4. Legacy incident report conversion to searchable format underway.
- 5. OTHER represents Pay as you Go generated by Fire Tax.

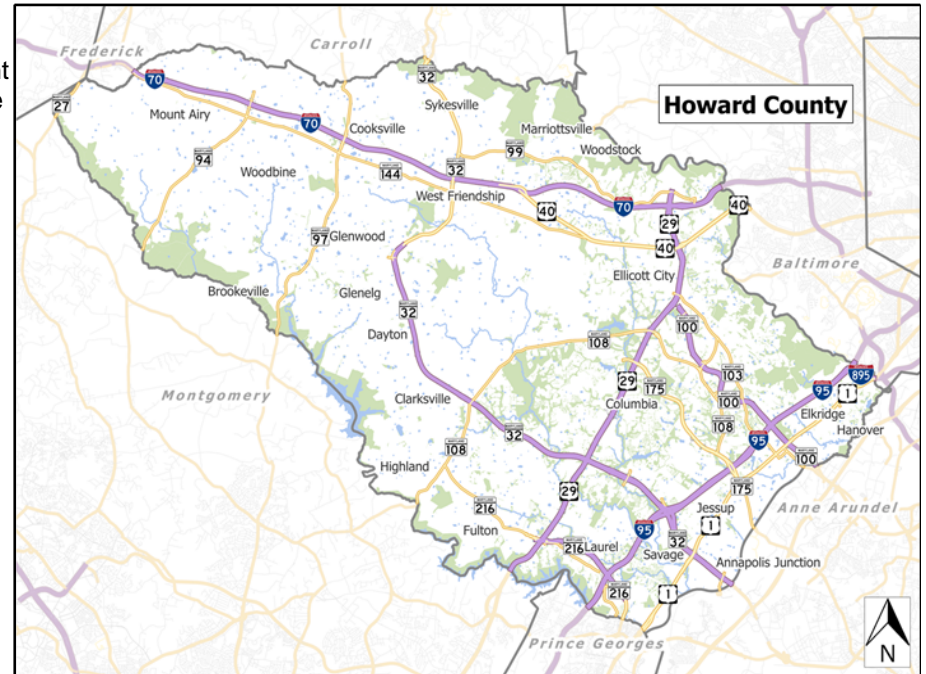

Project Schedule

- FY15 - Jail Records Management System upgrade.
- FY16 - Replace the existing Police Records Management System, Fire Records Management System, and Mobile Computer Software System. Initiate an Automated Field Reporting Solution.
- FY17 - Completion of the project.

Operating Budget Impact

Annual Bond Redemption \$ \$159,750

This project builds upon existing County computer systems. Any new hardware and software acquisitions will require ongoing maintenance and upgrades.

FY09 - Police and Fire MDT reassessment completed. FY10 - Netmotion installed. Police field reporting and Fire ambulance field reporting started. FY11 - System upgrades completed. FY12 - Police field reporting pilot underway. FY13 - Police field reporting and Fire EMS reporting completed. FY14 - Legacy records conversion and 911 upgrade ongoing.

Description

Renovate the Historic Ellicott City Post Office in the heart of Ellicott City.

Justification

The property (0.3195 acres with 2-story former post office) was purchased with 2009 Capital Project funds (\$640,000.00) in September 2008. The facility needs exterior and interior renovations to meet present codes/standards and to function as an effective Visitors Center for Ellicott City. The Howard County Tourism Council will manage the visitor center, which is currently located in space in the basement of building.

Remarks

- 1. State Grants of \$150k & \$175K were approved.

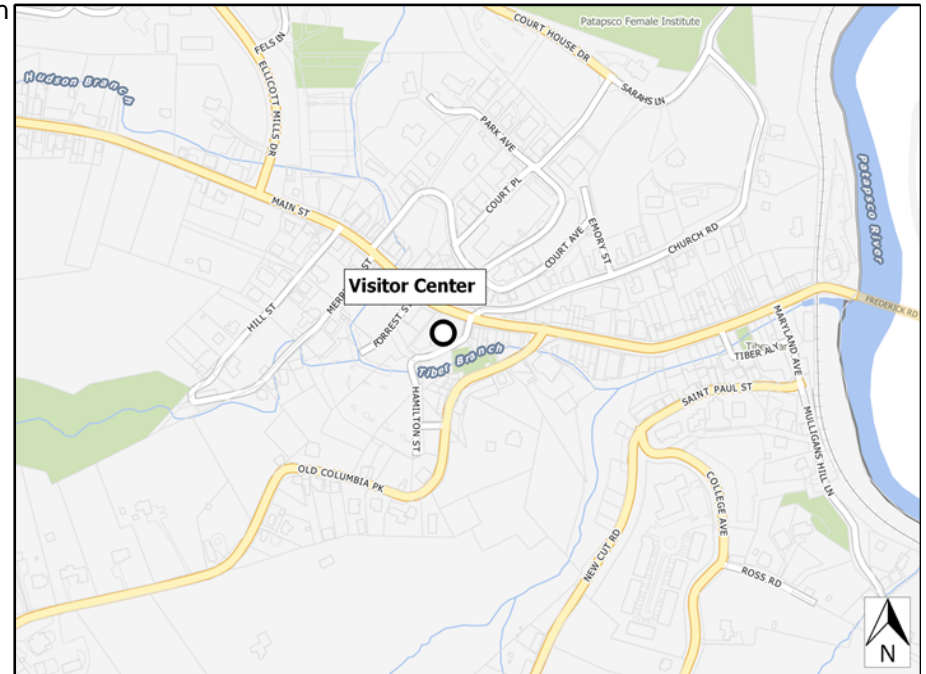

Project Schedule

FY16 - Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$31,500

Estimated annual utility/custodial costs upon construction completion: No increase

Fiscal 2016 Capital Budget

Project: C0317-FY2013 SYSTEMIC FACILITY IMPROVEMENTS

GENERAL COUNTY PROJECTS

Number: C0317

Description

A project to improve or upgrade the physical plant of public buildings, their equipment and systems, to replace plants/systems which have deteriorated beyond routine maintenance or provide for system management initiatives.

Justification

Building systems that exceeded their useful life, are inefficient, or have deteriorated beyond maintenance standards. Upgrades, replacement, or renovations are necessary to allow Facilities to maintain its' support function.

Remarks

1. OTHER revenue represents Energy Performance Contract approved by Council Bill #52-2014.
2. Upgrade/improve building infrastructures to meet current facility standards/requirements; to meet changed/expanded/complex missions; to extend facility life expectancy; to improve efficiency, effectiveness and life safety: for roofing systems, window systems, HVAC systems, electrical systems, fire protection systems, energy management & control systems, and for environmental/safety corrections.

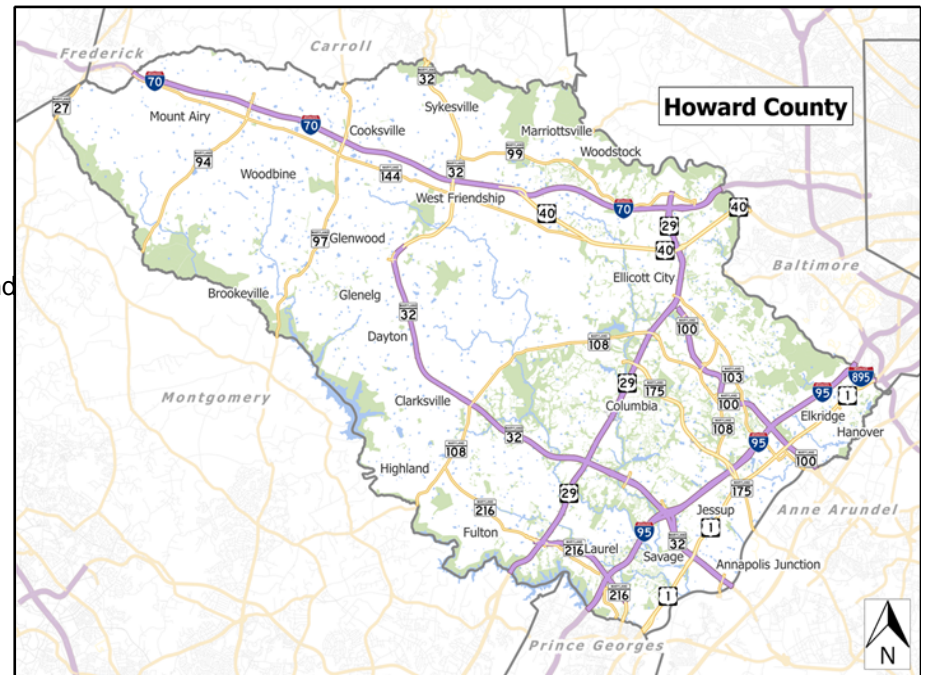

Project Schedule

FY16 - Design/Construction
FY17 - Design/Construction
FY18 - Design/Construction

Operating Budget Impact

Annual Bond Redemption \$ \$2,745,000

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~Will provide future savings as a result of reduced maintenance and energy costs.

FY15 Completed design of expansion of Cookeville Highways shop; Completed repairs to Circuit Court sidewalks,

Description

A project to fund the construction of a public parking garage adjacent to the MARC Savage Commuter Rail Station located at 9009 Dorsey Run Road, Annapolis Junction.

Justification

The construction of a parking garage for commuter rail patrons will permit the transfer of approximately 10.5 acres of surface parking lots owned by the State of Maryland to private ownership and assessment of real property taxes on the multi-use development proposed for the site. The construction of the garage will be funded by the issuance of Tax Increment Financing Bonds. The debt service will be funded by the incremental real property taxes and special district taxes to be collected from the owners of the property and potential BRAC Revitalization and Incentive Zone funds from the State.

Remarks

Separate legislation to establish the tax increment financing development and special tax districts and an ordinance to authorize the issuance of the bonds are required for tax increment financing projects.

Project Schedule

FY16 - The bond proceeds included Capitalized Interest to fund interest on the debt through August 2015.

Operating Budget Impact

Tax Increment Financing Bonds are not a general obligation of the County.

Project Status :

\$0 spent and encumbered through February 2015

Description

A project for the purchase of fixed route and paratransit vehicles for the Howard Transit and HT Ride systems respectively. Project includes the purchase of necessary equipment for the operation of the fixed route and paratransit buses such as security cameras, communication system, and other incidental equipment. The project reappropriates capital equipment funding from FY08 and FY09 Operating budget.

Justification

The replacement of transit buses with diesel/electric hybrid buses will enable the fixed route and paratransit systems to replace obsolete buses with reliable, energy efficient models. Federal and State grant funds support a portion of the cost of the vehicles.

Remarks

The purchase of hybrid buses is based on need to replace equipment after its useful life has been achieved and to advance County goals for energy efficiency and environmental protection.

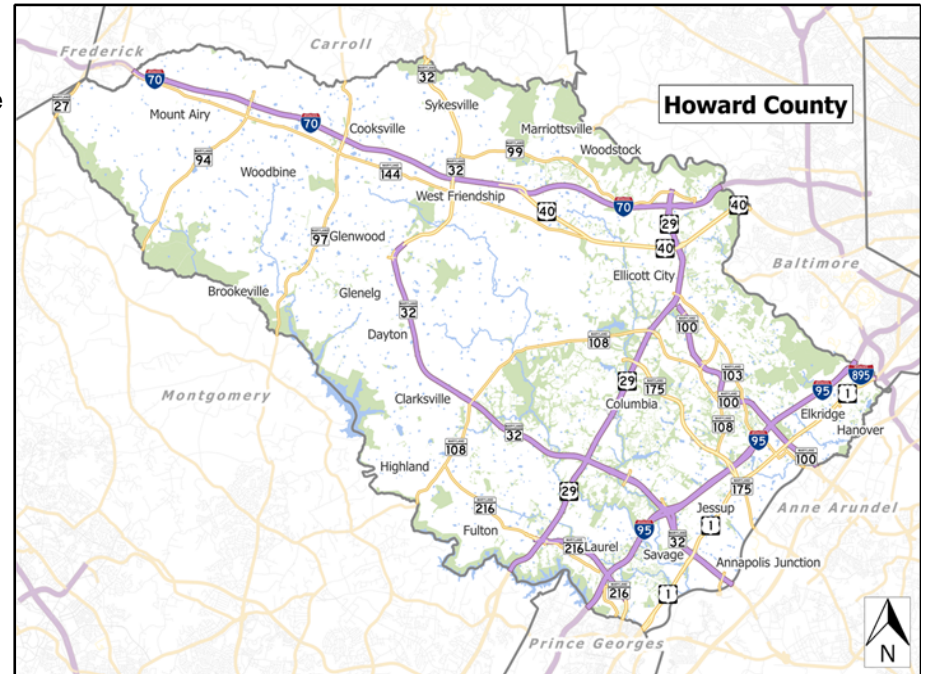

1. Federal American Recovery and Reinvestment Act (ARRA) funds cover all purchases scheduled for FY10.
2. FY11 thru FY15 requests are based on a five-year Transportation Development Plan. Federal/State grant funds are requested annually.
3. Funding for FY11 has been decreased due to actual bids for vehicles in FY10 being lower than anticipated.

Project Schedule

FY16 - Project to be completed and closed.

Operating Budget Impact

This project has removed funding for transit vehicles from the operating budget and places them into the capital budget.

Project Status :

\$4,082,253 spent and encumbered through February 2015

FY10 - Purchase nine Medium Duty Hybrid buses for the Fixed Route System. Purchase five Small Hybrid Buses for the Paratransit System. Includes additional funding for the purchase of security cameras and fareboxes for the Fixed Route System and a Communication Call-Back System for the Paratransit System.

Description

A project for the purchase of fixed route and paratransit vehicles for the Howard Transit and HT Ride systems respectively. Project includes the purchase of necessary equipment for the operation of the fixed route and paratransit buses.

Justification

The continued replacement of transit buses with diesel/electric hybrid buses enables the fixed route and paratransit systems to replace obsolete buses with reliable, energy efficient models. Federal and State grant funds support a portion of the cost of the vehicles.

Remarks

The purchase of hybrid buses is based on need to replace equipment after its useful life has been achieved and to advance County goals for energy efficiency and environmental protection.

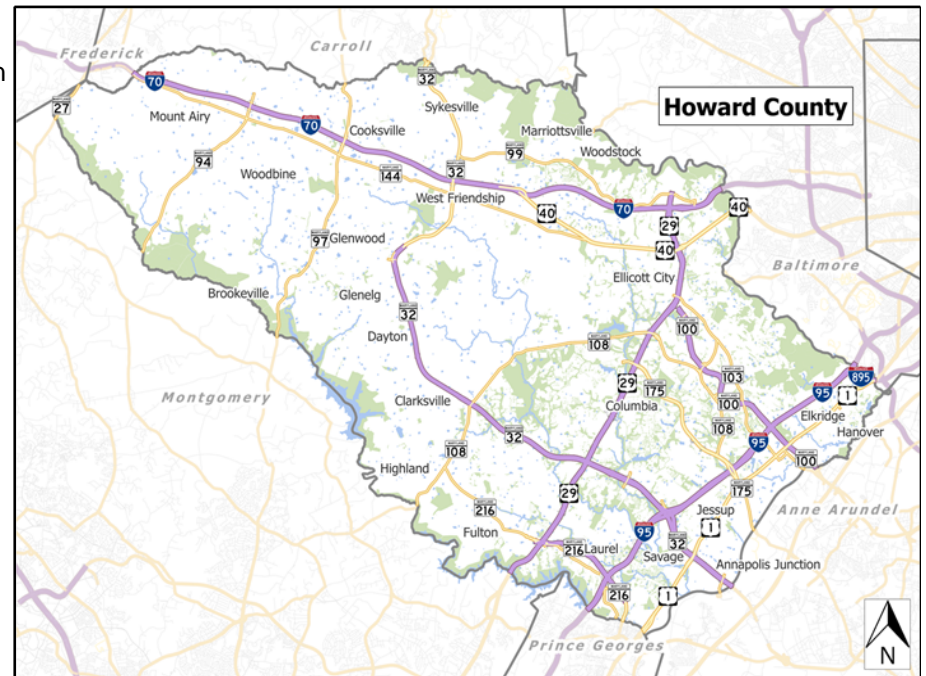

- 1. Federal American Recovery and Reinvestment Act (ARRA) funds cover all purchases scheduled for FY10.
- 2. FY11 thru FY15 requests are based on a five-year Transportation Development Plan. Federal/State grant funds are requested annually.

Project Schedule

FY16 - Project to be completed and closed.

Operating Budget Impact

This project continues the funding for transit vehicles to support the Howard Transit and HT Ride systems.

Fiscal 2016 Capital Budget

FY10 - Fixed Route System: 3 Large Hybrid buses (2 replacement, 1 expansion); Security Cameras and Painting/Decaling of Existing Buses; Paratransit System: 3 Small Hybrid paratransit buses; Preventative Maintenance and GPS Units for Paratransit vehicles.

Description

This is a project to fund improvements to the County's fuel storage/dispensing/monitoring systems, and to improve or upgrade the physical plant of Fleet Equipment.

Justification

These improvements to the County's fuel storage/dispensing/monitoring systems are needed to meet the Maryland Department of Environment (MDE) Code of Maryland Regulations (COMAR) 26.10.03.10A, including installing new above ground fuel storage systems to replace underground units, and technology upgrades to automate the collection and reporting of fuel data to increase the County's ability to manage fuel accountability.

Remarks

1. Upgrade/replace/improve fuel storage/dispensing/monitoring systems and fleet equipment infrastructures to meet current laws, regulations and standards/requirements; to meet changed/expanded/complex missions; to extend equipment life expectancy; to improve efficiency, effectiveness and life safety; and for environmental/safety corrections.
2. OTHER revenue represents central fleet funding.

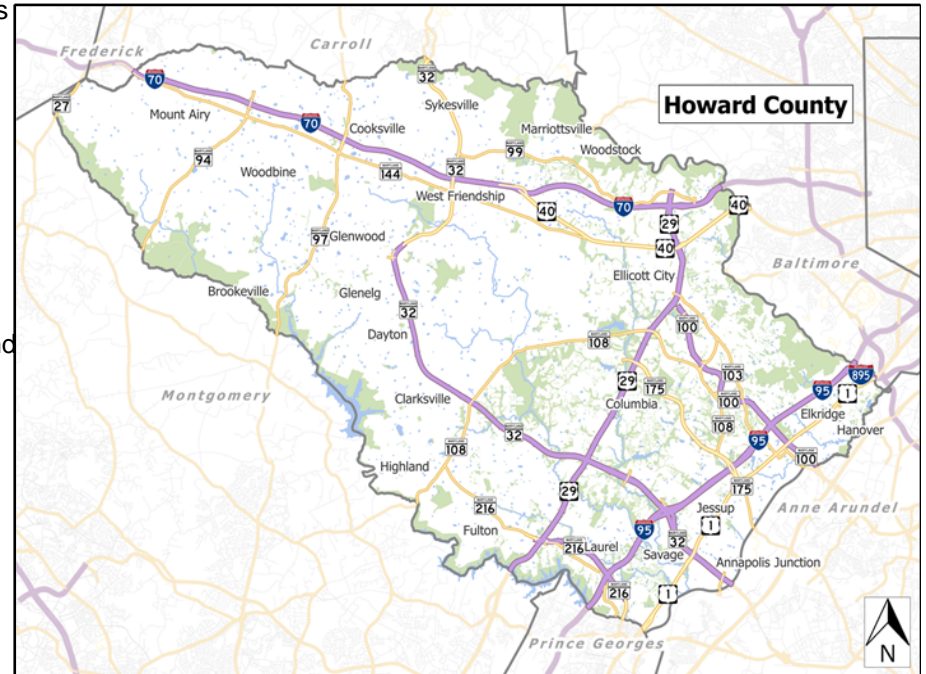

Project Schedule

- FY16 -Design/Construction
- FY17- Design/Construction
- FY18- Construction; Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$234,225

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project Status :

\$464,386 spent and encumbered through February 2015

FY11 - \$475,000 - Federal Grants; \$149,985 - State Grants. Fixed Route System: 3 medium hybrid buses through a Congressional Earmark; Paratransit System: 3 Small Hybrid Paratransit buses; and 2 hybrid sedans.

Description

A project to purchase survey global positioning system (GPS) and digital survey equipment. To allow the County to take full advantage of the federal and international network of 120 satellites. To use existing County Geodetic Control Network for incident and small scale mapping.

Operating Budget Impact

Annual Bond Redemption \$ \$6,525

No impact for five (5) years as maintenance, software and training provided under initial purchase.

Justification

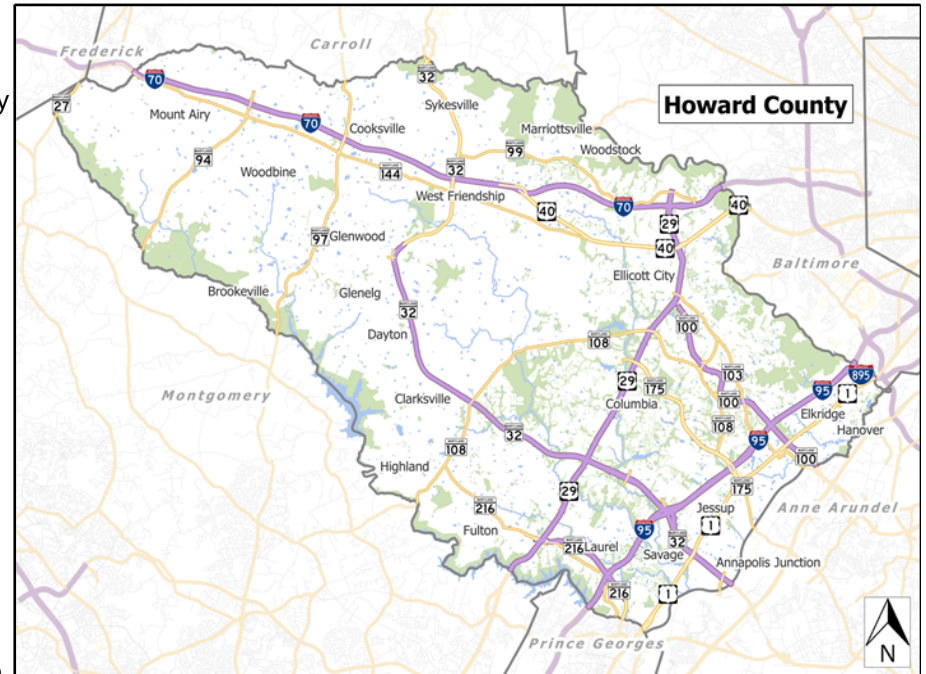

Existing County equipment is over 20 years old and cannot utilize the full GPS network of 120 satellites. The supporting software for the existing equipment is in a format that is not supported by the manufacturer and current Howard County computers. This equipment is used to maintain the Howard County Geodetic Network of 1200 monuments. This network loses 20% of its monumentation each year and this equipment is used to replace that lose. The equipment and this network are used in every water, sewer, storm drain, park, building, site related capital project County wide and mapping for any general or homeland defense incidents.

Remarks

1. The County presently must maintain 1,200 Geodetic Control Network Monuments (Horizontal and Vertical). 20% must be re-established each year.
2. Upgrading the existing GPS and survey equipment will shorten field observation time by 50% enabling manpower to focus on additional projects.
3. Upgrading the existing GPS and survey equipment will allow the use of modern software that is compatible with current Howard County computers and communication network.
4. The 20 year old existing equipment is very old technology and costly to maintain. Some of the equipment cannot be maintained.
5. To purchase equipment to allow the Department of Public Works to be able to have incident and small scale mapping capabilities.

Project Schedule

FY16 - Purchase UAV equipment, software and training and HDS scanner, software and training.

Total Funding	435	0	435	15	0	0	0	0	15	0	0	0	0	450

Project Status :

\$65,738 spent and encumbered through February 2015

FY15 - Purchase HDS scanner, software and training.

Description

A project for the purchase of fixed route and paratransit vehicles for the Howard Transit and HT Ride systems respectively. Project includes the purchase of necessary equipment for the operation of the fixed route and paratransit buses for FY 2013.

Justification

The continued replacement of transit buses with diesel/electric hybrid buses enables the fixed route and paratransit systems to continue the replacement of buses that are beyond their useful life. It is anticipated that Federal and State grant funds will support a portion of the cost of the vehicles.

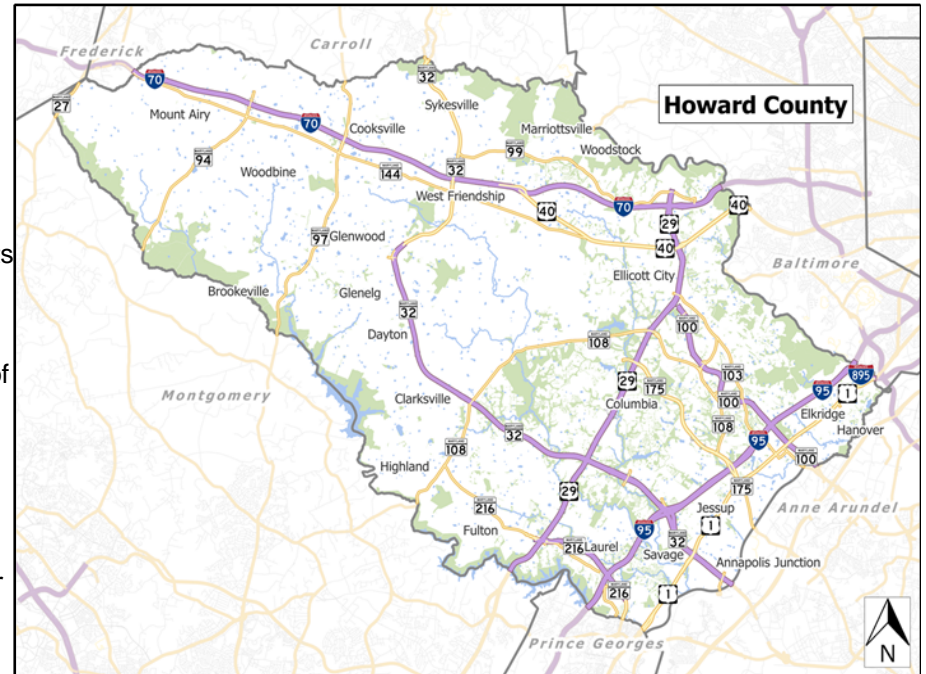

Remarks

The purchase of hybrid buses is based on the need to replace equipment after its useful life has been achieved. The purchase of hybrid vehicles meets Howard County's goals for energy efficiency and environmental protection.

- 1. Congestion Mitigation Air Quality (CMAQ) grant to purchase four (4) hybrid sedans and one (1) paratransit bus. This grant covers the hybridization portion of the purchase of the vehicles. The base costs are covered through County funds.
- 2. Annual Preventive Maintenance (PM) grant of \$150,000 from the MTA for maintenance efforts on current Howard Transit fixed route and paratransit vehicles.

In FY 2014, grant funds have been reduced to the level that was actually received in the grant agreements from the MTA. Plans and Engineering appropriation for the study, design and development of the recharging station for the electric bus project have been added.

Project Status :

\$733,463 spent and encumbered through February 2015

FY13 - Fixed Route System: 1 Medium Duty Hybrid Transit Bus; Paratransit System: 4 hybrid sedans and 1 paratransit bus through CMAQ grant; 2 additional paratransit buses through the Annual MTA Transportation Grant; Annual PM grant

Description

The ECM will remove critical strain from the existing email system and replace our outdated records management system. Improved functionality includes enterprise archive, search and legal discovery/hold. Records management and archive functionality will be extended to enterprise systems like email, file shares, SharePoint and CRM.

Operating Budget Impact

Annual Bond Redemption \$ \$56,250

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~New hardware and software will require ongoing maintenance and upgrades.

Justification

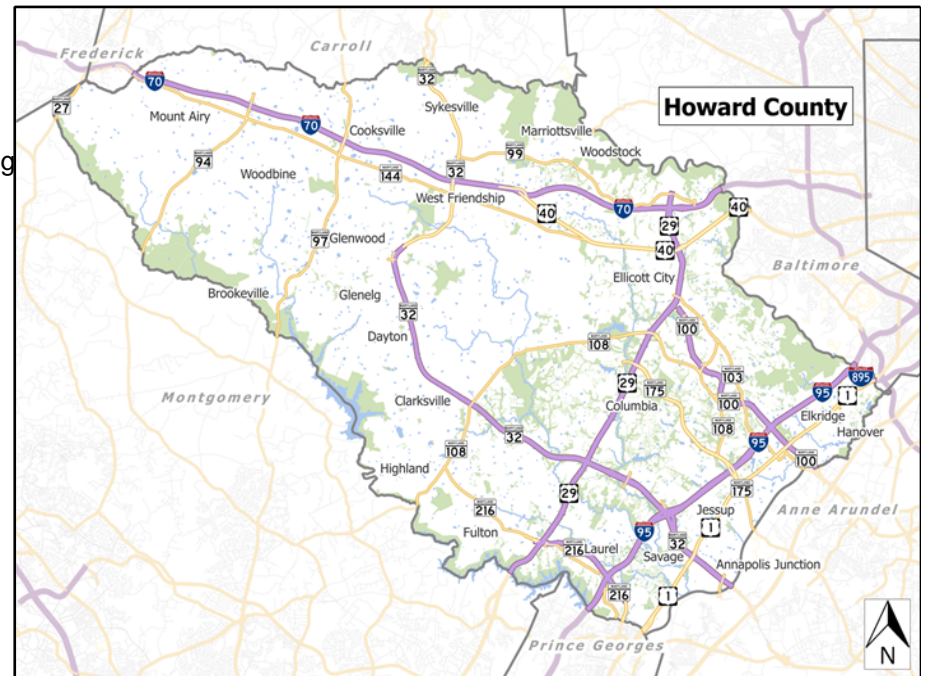

The new system will solve a number of existing problems. The County's email system is severely strained. Without changes, it will fail. Unstructured data in other enterprise systems is largely unmanaged. Users spend large amounts of time searching for documents and County official records are easily lost. Existing eDiscovery processes are time intensive and subject to error.

Remarks

Most County departments are live in the ECM system as of the end of FY 2015. Email management functions are in place removing strain from the County's email system. Federated Search has streamlined legal discovery searching for electronic documents.

Project Schedule

- FY15 - Complete project rollout. Extend ECM to include workflows and interfaces identified during initial rollout activities.
- FY16 - Complete migrating legacy documents from departmental file shares. Create workflows and interfaces to further automate the system to better realize time efficiency and cost savings.
- FY17 - Evaluate the cost-effectiveness of integrating the ECM with SAP and SharePoint.

Project Status :

\$1,948,289 spent and encumbered through February 2015

FY13 - Initiated project and began Phase I - Replace records management system, implement email archive and eDiscovery. Train users County-wide.

FY14 - Continuation of Phase I implementation & training. Began Phase II - Pilot and subsequently implement, email archive. Extend ECM to include records and eDiscovery for file shares, SharePoint and CRM files.

FY15 - Implementation, training, email archive, email management and eDiscovery largely complete.

Description

A project for the purchase of fixed route and paratransit vehicles for the Howard Transit and HT Ride systems respectively. Project includes the purchase of necessary equipment for the operation of the fixed route and paratransit buses for FY2012.

Justification

The continued replacement of transit buses with diesel/electric hybrid buses enables the fixed route and paratransit systems to continue the replacement of buses that are beyond their useful life. It is anticipated that Federal and State grant funds will support a portion of the cost of the vehicles.

Remarks

The purchase of hybrid buses is based on the need to replace equipment after its useful life has been achieved. The purchase of hybrid vehicles meets Howard County's goals for energy efficiency and environmental protection.

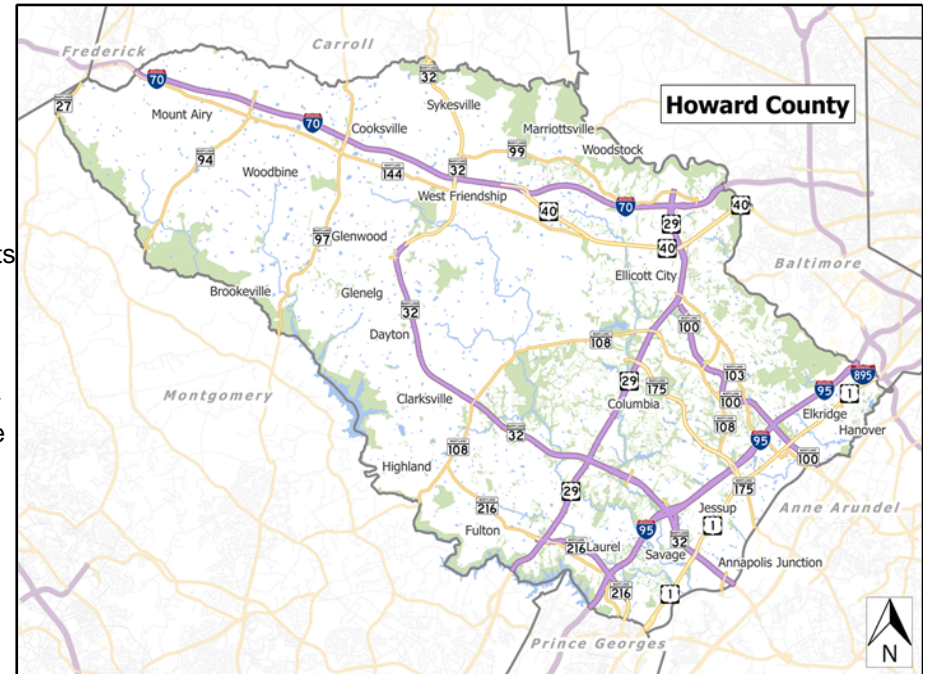

1. Federal Congressional Earmark for the purchase of three (3) medium duty hybrid buses.
2. Automatic Vehicle Locator (AVL) Bus Stop Annunciator System - Provides for ADA compliance by having prerecorded messages announcing bus stops on the fixed route system.
3. Purchase of three (3) hybrid sedans/SUVs for use in the Paratransit system.
4. Purchase of three (3) paratransit hybrid buses for use in the Paratransit system.
5. Preventive Maintenance - Annual Federal/State grant for the funding of ongoing, preventive maintenance on the fixed route and paratransit vehicles utilized in the Howard Transit system.

Project Schedule

FY16 - Complete/Close.

Operating Budget Impact

This project continues the funding for transit vehicles to support the Howard Transit and HT Ride systems.

Project Status :

\$610,000 spent and encumbered through February 2015

FY2012 - Fixed Route System: 3 medium hybrid buses through a Congressional Earmark; Fixed Route Annunciator System; Paratransit System: 3 Small Hybrid Paratransit sedans/SUVs, 3 paratransit hybrid buses and; Annual Preventive Maintenance.

Description

A project to develop a 5-10 year business plan for energy performance optimization. This project allows the county to inventory and assess its facilities for the feasibility of energy improvements, especially those improvements that can be supported by rebates and incentives. Both current and alternative energy solutions will be considered for life-cycle cost-effectiveness.

Justification

This project supports the County's commitment to energy savings and environmental performance. It will allow the county to effectively pursue external energy-related rebates, incentives, demand response, and similar support as these become available. External support for energy improvements usually requires some matching commitment from recipients in the form of capital or analysis. This project will fund those potential matches. It will also support a program for scheduling of infrastructure replacement to minimize the future energy costs of all county operations.

Remarks

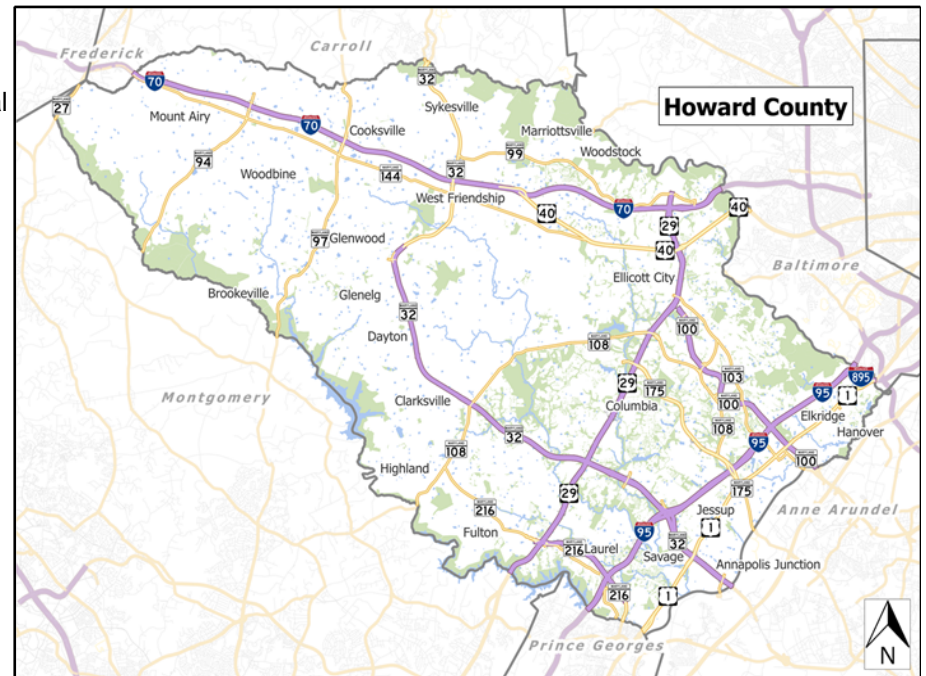

1. The funding for this will provide direction for decision making as it applies to energy use for public buildings, utilities, transportation, County and public works operations.
2. Initiate studies will be: Assessments of HVAC systems for B & O Museum, Northern District, Cedar Lane Park West and Detention center Intake Area; Assessment of Detention Center for improvements of Facility Exterior Lighting.

Project Schedule

FY15 - Implement study/analysis recommendations

Operating Budget Impact

Annual Bond Redemption \$ \$11,250

Project Status :

\$488,790 spent and encumbered through February 2015

FY12/13/14 - Selected Energy consultant & completed study/analysis; completed lighting retrofit at Mayfield & Cooksville; completed initial LEED EBOM plans

Description

A project to plan, design and implement a set of improvements to publicly owned land currently designated as Lot D in Ellicott City. Funding will be utilized to improve and expand storm water management, to alter the traffic flow and movement and to more fully expose the Tiber-Hudson River as an amenity and natural resource.

Justification

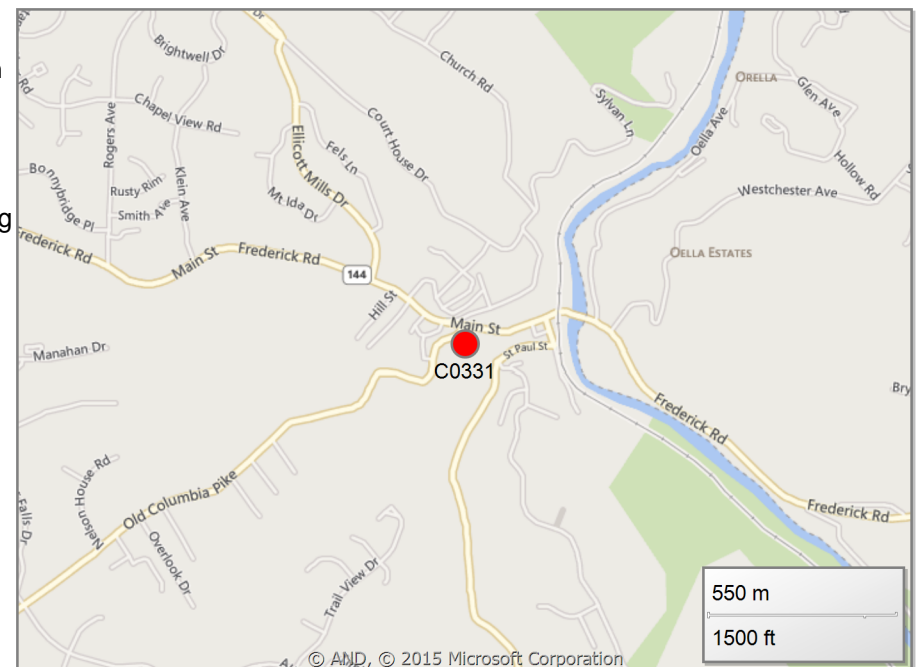

The County's Watershed Implementation Plan requires a substantial reduction in the pollutants that enter the Patapsco River and the Chesapeake Bay. The extensive impervious surface in Ellicott City requires greater stormwater management in order to control pollution runoff from its parking lots. The Tiber-Hudson is currently channelized through the lot, but has the potential to be improved as a natural and visual amenity and public gathering place. The parking lot is not efficient and egress to Main Street has limited sight distance. Public funds will be used to address and better control stormwater runoff, to create a public amenity space for the community and to improve the parking on the County-owned lot.

Remarks

1. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.
2. Additional funding may be available through the State.

Project Schedule

FY16 - Construction and opening of the river and addition of water quality treatment.

Project Status :

\$45,600 spent and encumbered through February 2015

Designed Parking Lot D improvements concept

Description

A project to implement a series of systemic improvements to Howard Transit bus stops. These improvements may include the installation of bus shelters, concrete pads, bus stop signs, connecting sidewalks, curb cuts (consistent with ADA requirements), crosswalks, route map holders and other improvements. The Office of Transportation, in conjunction with the Department of Planning and Zoning, will determine the location and extent of these improvements.

Operating Budget Impact

Annual Bond Redemption \$ \$10,800

Justification

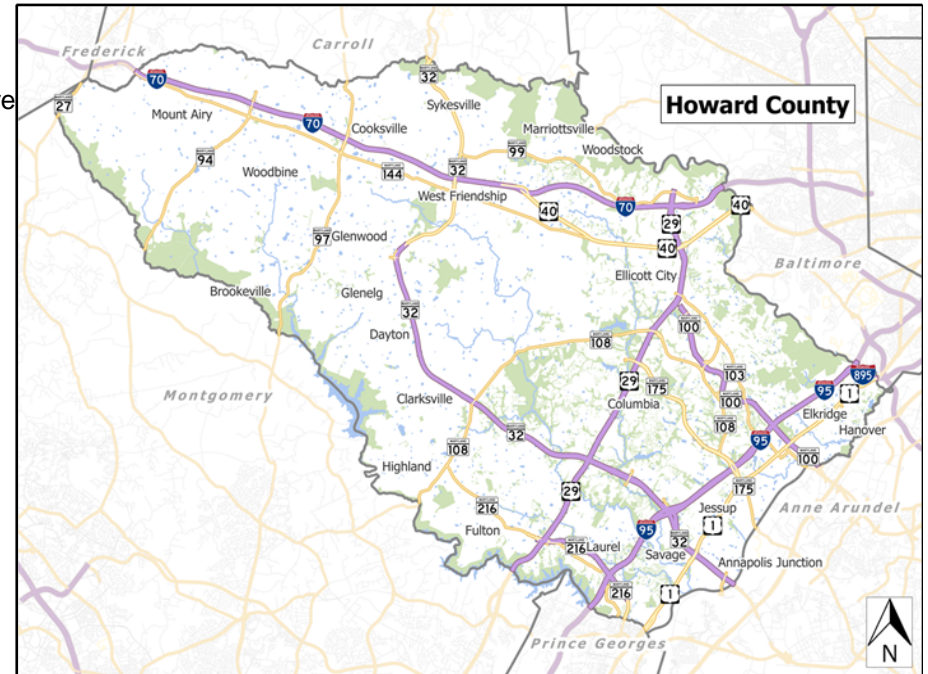

A field survey of Howard Transit bus stops indicates that these improvements are needed for passenger access, safety, and comfort as well as to conform with ADA guidelines. The proposed improvements also seek to increase ridership on the local system by making stops more accessible and convenient.

Remarks

1. Installation of these improvements will comply with the Americans with Disabilities Act (ADA) regulations.
2. Grant funding through the Maryland Transit Administration for capital improvements is included in the budget.

Project Schedule

- FY14 - Identification of locations and construction of bus stop improvements.
- FY15 - Engineering and Construction of bus stop improvements.
- FY16 - Engineering and Construction of bus stop improvements.

\$74,110 spent and encumbered through February 2015

FY16 - Engineering and Construction of bus stop improvements.

Description

The Department of Corrections currently is facing severe challenges and regulatory mandates that must be resolved through the renovation and expansion of the Detention Center.

Justification

1. The current medical unit lacks sufficient space to meet its operational needs and comply with HIPPA and PREA statutes.
2. The Federal Prison Rape Elimination Act (PREA) requires housing for juveniles charged as adults to be housed separately by sight and sound from adults.
3. The current intake/discharge area was built in 1982 and way beyond capacity, creating significant security & staff efficiency problems.
4. The current maximum security housing area is at maximum capacity and needs to be in close proximity to the intake/discharge area.
5. The Center's disciplinary segregation unit is not of the size or construction to safely & securely provide the necessary isolation and separation.
6. The Center's existing Control Center components & locking systems are antiquated relative to today's security requirements, and are falling apart.
7. Additionally, the existing Administrative area does not provide the effective space for the Center.

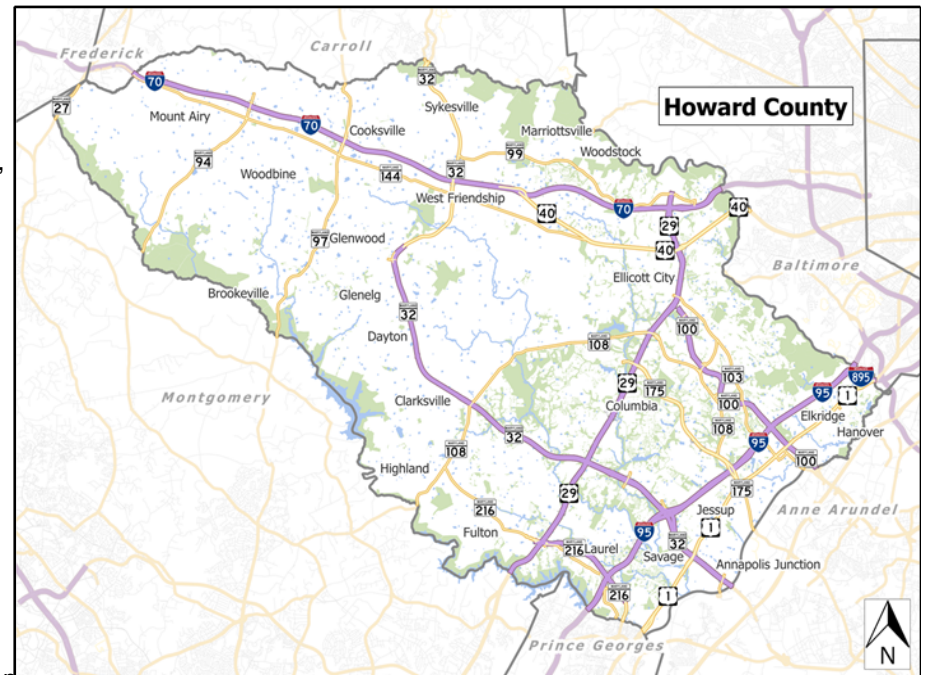

Remarks

Project Schedule

- FY15 - Obtain Expert Consultant to analyze Center facilities/operations & develop a long term Site and Facility Master Plan
- FY16 - Design and Correct Obvious Facility Deficiencies in order to comply with State and Federal Correctional Standards
- FY17 - Design Major Renovations and Expansion based upon Master Plan
- FY18 - Begin Construction of Major Renovations and Expansions.
- FY19 - Continue Construction of Major Renovations and Expansions
- FY20 - Complete Construction and Project Close Out

Project Status :

\$59,970 spent and encumbered through February 2015

Description

Relative to County facilities, implement a program to ensure continuity of operations in County facilities for purposes relative to essential functions during various emergency scenarios and make the necessary hardware modifications. Project changes may be undertaken based on lessons learned in actual or exercise scenarios.

Justification

Analyses of the County's ability to continue essential functions and deliver needed emergency services during major weather events has indicated the need for more emergency generation and/or emergency power generation connection capabilities for County facilities.

Remarks

- 1. GRANT represents federal and or state funding sought to maximize County funding.
 - 2. Construction will be phased.
 - 3. Request represents program advancement.
- FY16/17 - Complete Design and construction of Emergency Generator installation for: Dayton Highway Shop, Cookesville Highway Shop, Rec & Parks Hdqtrs, Gateway Bldg, Ascend One Bldg and Clarksville Fire Station

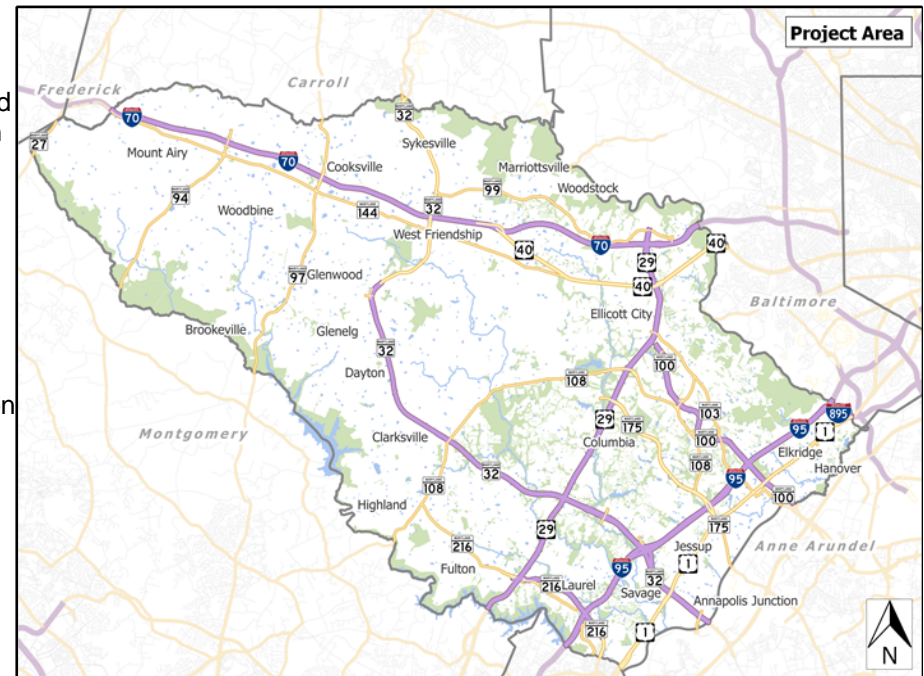

Project Schedule

FY16-21 - Continue to implement upgrades.

Operating Budget Impact

Annual Bond Redemption \$ \$227,250

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project Status :

\$733,912 spent and encumbered through February 2015

Construction of backup generator improvements complete at: Ridge Road shop, Bureau of Utilities (phase 1), and Animal Control. Design in progress for upgrades at: Bureau of Utilities (phase 2), Recreation and Parks headquarters, Cooksville Highways shop, Gateway and Ascend-1 buildings.

Description

A project to determine the additional facility needs for the Department of Citizen Services. This is to include Senior Centers, Senior Center Plus sites and space needs for other departmental programming.

Operating Budget Impact

Annual Bond Redemption \$ \$742,725

Justification

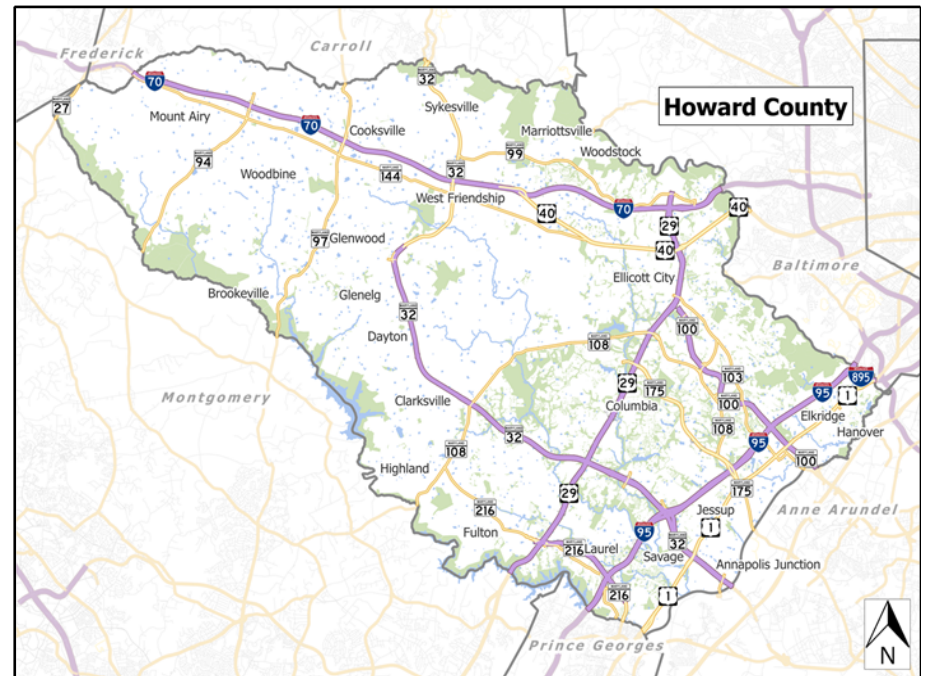

Existing Senior Centers/Senior+ Facilities are not adequate to support the tremendously increasing demand for such services/facilities, nor are the existing facilities necessarily located to effectively service all the expanding aging population. We need to develop a master plan to define how we can best serve this growing segment of the County population. In order to prepare for plan development, we will conduct a comprehensive needs assessment to determine community needs and identify gaps in existing services.

Remarks

1. Needs assessment to review existing policies, programs and services specifically focused toward older adults in the areas of: housing and adaptive reuse of housing; health and long-term care; education and learning; transportation; employment; recreation and parks; and volunteerism/civic engagement.
2. Obtain expert technical analyses of Senior Center & Senior+ requirements within Howard County, defining optimum sizes and geographic locations for additional facility requirements (i.e. a Master Plan).
3. All costs provided are holding spots until detailed followup information is provided from the Master Plan

Project Schedule

- FY17 - obtain property - indicated cost based on consultant estimate;
- FY18 - Design 1st Master Plan specified facility
- FY19 - Construction
- FY20 - Project Close Out

Project Status :

\$299,959 spent and encumbered through February 2015

FY14 - Selected Consultants through QBS process; awarded contract; started master plan process; Master Plan 50% complete; FY15 - Master Plan complete.

FY16 Phase II of Master Plan to begin. Design and construct of improvements to Florence Bain Citizen Services Center identified during analysis of existing facilities.

FY17 Planned Site Acquisition of New Citizens Services Center and design of Center.

FY18 Construction of new Center.

Description

A project for the design and construction of resource improvements at the Alpha Ridge Landfill and Resident's Recycling and Demonstration Center. The project will include implementing improvements to existing facilities within the landfill and Recycling Center using renewable and sustainable technologies; seek improvements at the Recycling Center in handling material recovery and reuse; and address storm water quality and watershed improvements in accordance with the latest National Pollutant Discharge Elimination System (NPDES) Industrial permit requirements.

Operating Budget Impact

Annual Bond Redemption \$ \$18,000

Justification

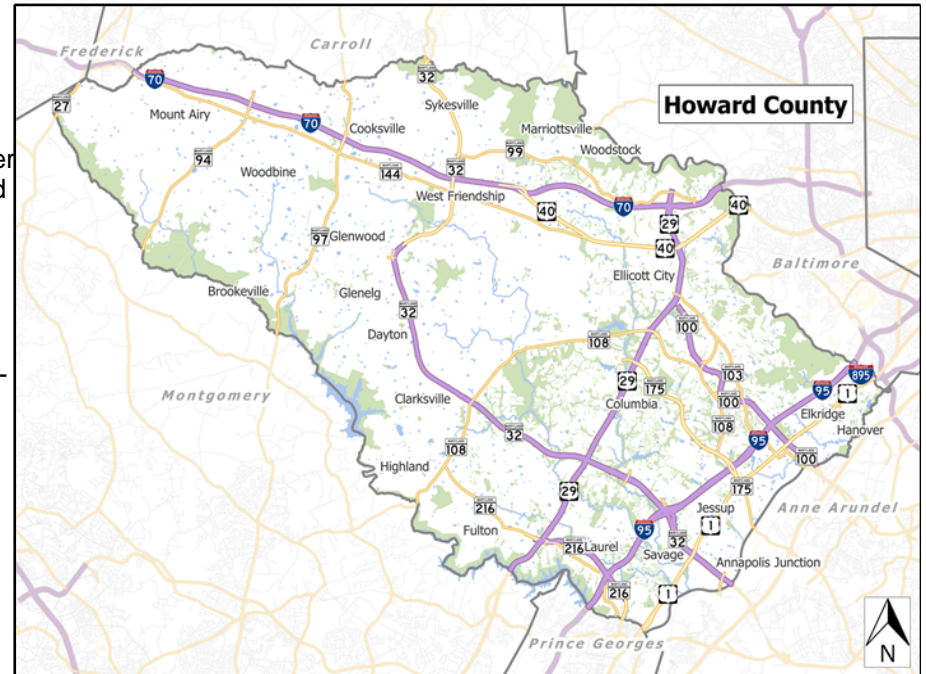

The project will aide in meeting the NPDES and Municipal Separate Storm Sewer System (MS4) requirements at Alpha Ridge Landfill, reduce operating costs, and increase public awareness of improved storm water quality techniques and renewable/sustainable technologies.

Remarks

1. Projects directly related to municipal solid waste activities are funded under C-0299.

Project Schedule

FY15 - Evaluate wind feasibility. Continue American Elm and Wildlife Work projects.
 FY16 - Construct demonstration area for sustainable practices.

Fiscal 2016 Capital Budget

Project Status :

\$196,106 spent and encumbered through February 2015

FY14 - Design stormwater technologies demonstration area. Evaluate feasibility of wind energy. Expand HHW building to reduce stormwater impact. Develop wildlife work plan and begin pursuing certification.

FY15 - Plant/construct American Elm pilot reforestation. Construct Pond Habitat Improvements.

Description

This is a project to provide a variety of repairs and improvements to public infrastructure and address other community improvements and to make improvements to the downtown and historic district of the Howard County Seat. This project may include land acquisition for water quality and drainage needs and other public improvements.

Justification

Community has requested improvements to the downtown Ellicott City area.

Remarks

1. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.
2. Construction of some projects may be dependent upon donation of the necessary easements and/or resident cost share participation.
3. TAO #3 - 2014 current pending legislation will add \$100,000 grant funding for Ellicott City Streetscape program.

Project Schedule

FY15 - Construct water quality projects, construct crosswalks, sidewalks and parking Lot E improvements.
FY16/17 - Complete stormwater and pedestrian improvements for Parking Lot E and F. Begin work on additional stormwater and pedestrian improvements.

Operating Budget Impact

Annual Bond Redemption \$ \$189,000

Project Status :

\$2,226,205 spent and encumbered through February 2015

Performed design for Main St. crosswalk.

Performed concept design for Parking Lot F improvements.

Partial funding for Parking Lot E improvements.

Performed design for water quality bumpout on Ellicott Mills Drive.

Description

The Broadband Installation project will improve the fiber installed through the ICBN grant and extend services to various organizations including adding additional county facilities to our fiber network. This will also be used for the equipment inside the building to light the fiber and provide services.

Justification

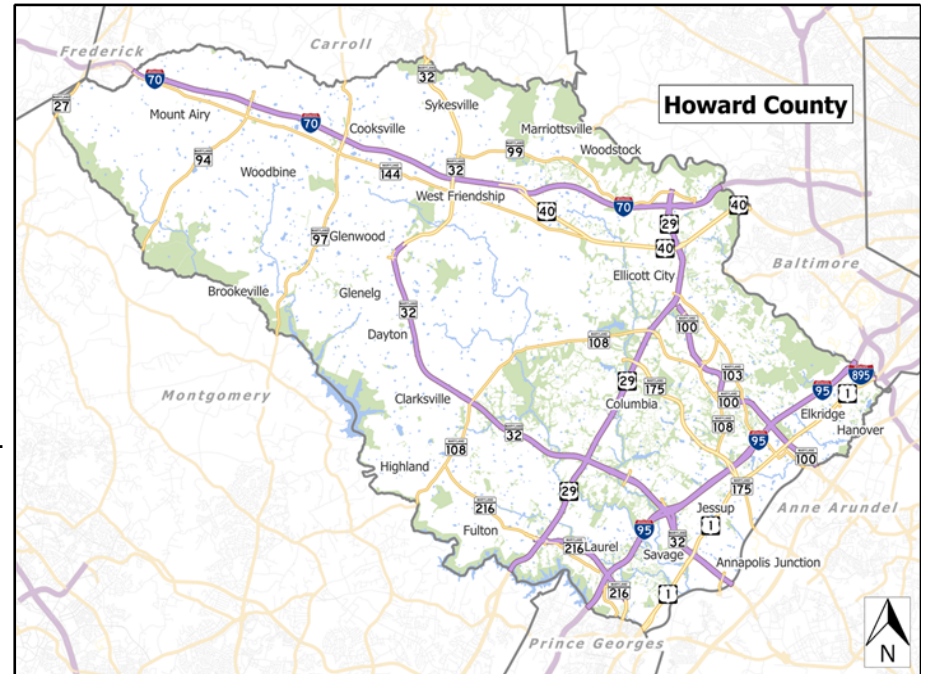

This is to help reduce overall leased line costs as well as provide equipment refreshes to support higher network speeds that are being requested.

Remarks

- 1. OTHER revenue is generated by Master Lease program.
- 2. Build out and infrastructure upgrades continue through fiscal year.
- 3. Fiber build out of laterals and backbone will also continue throughout fiscal year.

Project Schedule

Completion of infrastructure upgrades and begin expansion of fiber network to begin as soon as possible. Project is to be ongoing as need and demand exists.

Several County facilities have been connected to the fiber network during FY 15 and will continue throughout FY 16 thereby reducing the County's cost for leased lines.

Description

The Broadband Installation project will extend services to various non-county government organizations including adding facilities to our fiber network. This will also be used for the equipment inside the building to light the fiber and provide services.

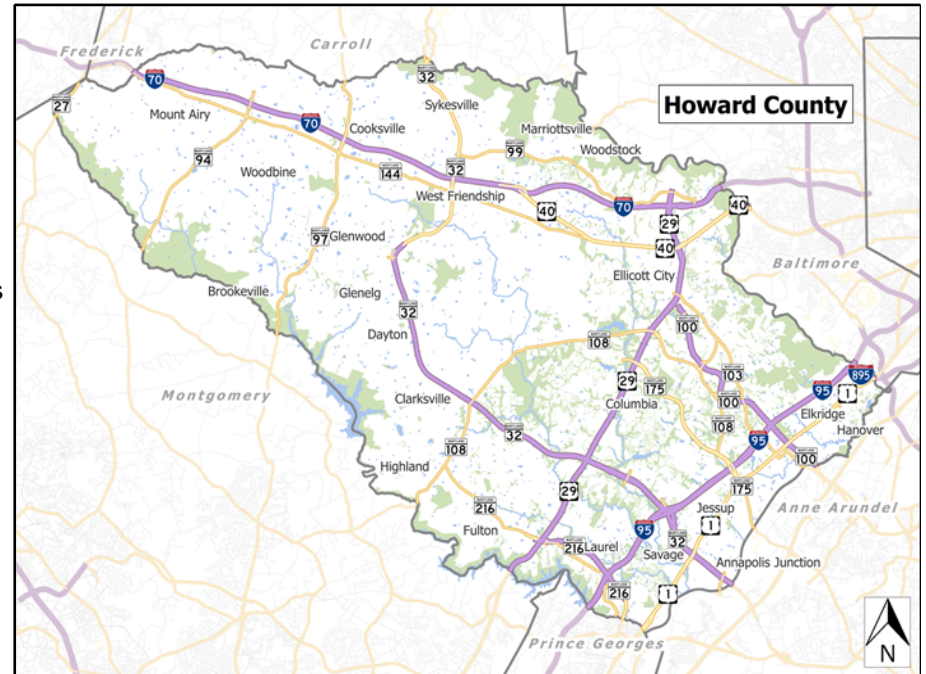

Justification

Remarks

OTHER revenue is generated by master lease.

Project Schedule

FY16 - continue to add non-County government agencies to the fiber network as demand requires.

Project Status :

\$326,368 spent and encumbered through February 2015

Several non-County government agencies, such as Howard County Public School System, Howard County Public Library System, and Howard Community College, were added to the fiber network in FY2015. Additions will continue as demand requires in FY2016.

Description

The Broadband Installation project will extend services to non-government facilities to our fiber network. This will also be used for the equipment inside the building to light the fiber and provide services.

Justification

Remarks

OTHER revenues are generated from master lease.

Project Schedule

FY16 - Plan to continue adding customers to the network as demand requires.

Project Status :

\$127,029 spent and encumbered through February 2015

FY15 - Connected several customers to the County fiber network.

FY16 - Plan to continue adding customers to the network as demand requires.

Description

This project will allow the County to design, build and operate diesel generators at all County Radio and Water Tower sites. A recent FCC ruling requires all cell phone carriers to have power backup for 8 hours for all cellular devices. This project will allow the County to provide the required generators and bill the carriers for this service. This will eliminate the need for each carrier to provide its own power backup. This capital project will reduce the number of generators located at each site, as well as the corresponding noise and environmental impacts. Moreover, security concerns can be better managed using this model.

Justification

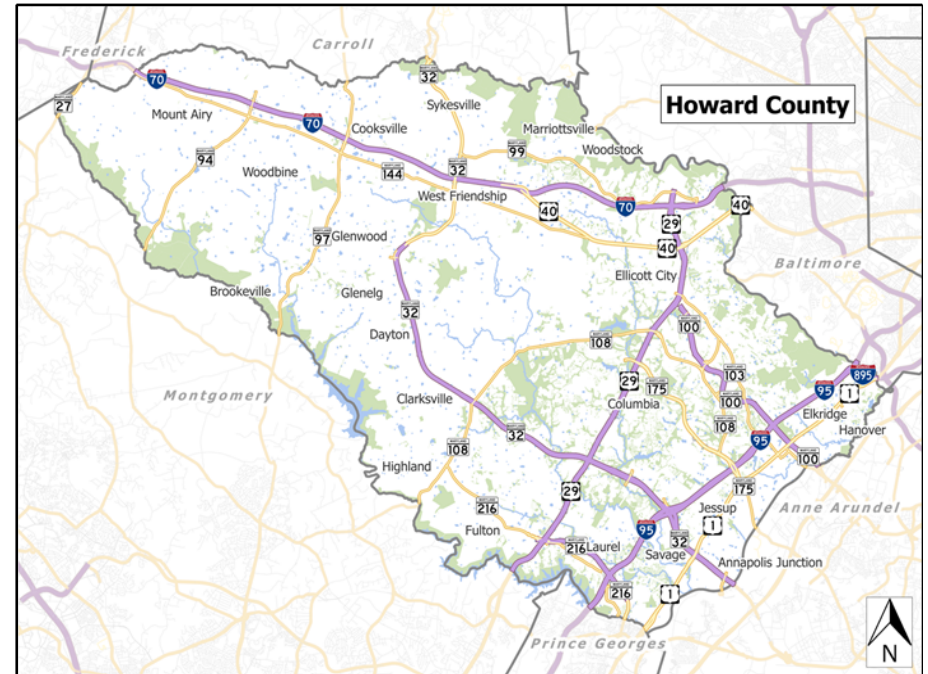

This project will allow the County to better manage its radio and tower sites subject to the new FCC ruling. It will also allow the County to be reimbursed for this service through billings to its vendors.

Remarks

OTHER revenues are generated from incoming matching revenues.

Project Schedule

FY15 - Construction
FY16 - Complete and Close

Total Funding	5,000	0	5,000	0	0	0	0	0	0	0	0	0	0	5,000

Project Status :

\$0 spent and encumbered through February 2015

Description

This project is for the design, construction and construction management of a parking garage on Clarksville Pike, Clarksville Maryland. The parking garage will be located on an existing surface parking lot on the corner of Route 108 and Signal Bell Lane adjacent to an existing Conference/ Fire Station. The garage will be a precast concrete structure.

Operating Budget Impact

Annual Bond Redemption \$ \$248,625

Justification

The existing surface parking lot reaches capacity due to the use by commuters and people attending the conference center. The existing parking patterns of the Ten Oaks Ballroom parking lot: Commuter parking includes bus passengers, individual park and ride carpools, and commercial vanpools.

Remarks

1. A preliminary study was completed in August 22, 2013 that actually proposed different alternatives for the type of structure to put in place. There are two components that were incorporated into the analysis: 1- the commuter park and ride lot; 2- Ten Oaks Ballroom
2. The Study dated December 2014 documents existing and latent parking demand at the parking lot, identifies alternatives to provide additional parking accommodations, summarizes the projected traffic impacts associated with the proposed expansion of the parking facility, and evaluates roadway improvements to mitigate adverse traffic impacts.

Project Schedule

- FY17 - Start design
- FY18 - Complete design/start construction
- FY19 - Complete construction

Project Status :

\$0 spent and encumbered through February 2015

Description

A project to plan, design and construct a series of infrastructure improvements targeted within the southeast area of the Route 1 corridor. Projects will advance community, economic and environmental sustainability goals. Infrastructure includes storm water management, sidewalk and biking facilities, transit and community open space.

Justification

PlanHoward 2030 calls for the enhancement of established communities through sustainability and strategic public infrastructure investments. The project will target public funds in locations where additional infrastructure has been identified by the community and which promotes efficient use through multi-benefit returns on investment. The southeast area consists of the North Laurel ûSavage communities which received State Sustainable Community designation in 2013. The designation allows the County to leverage State funding for more efficient and effective delivery of resources.

Remarks

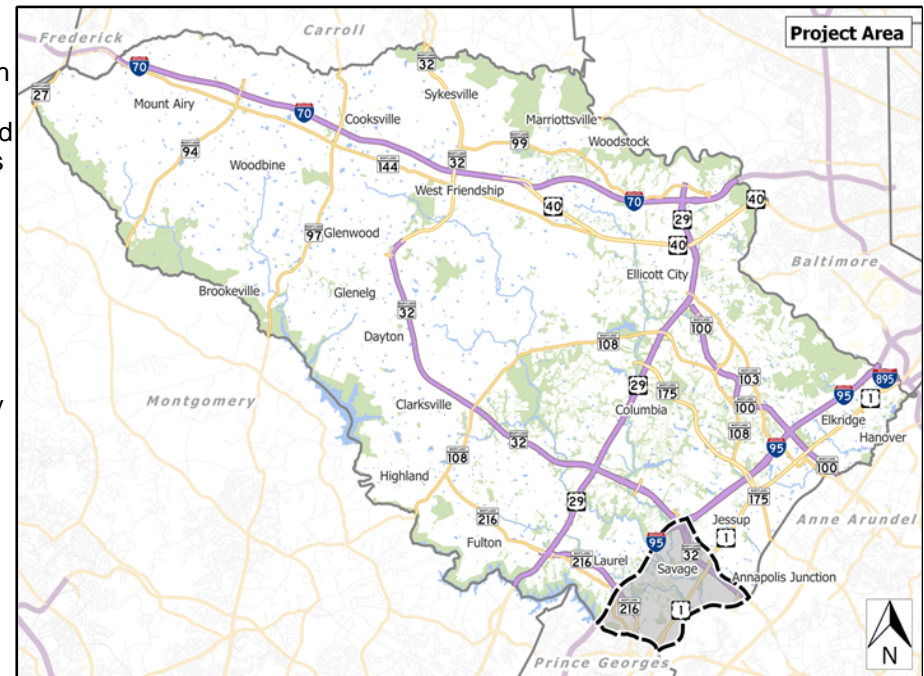

- 1. A community plan has been prepared for the North Laurel-Savage community in 2014 which will refine and prioritize actions and policies for implementing infrastructure improvements.
- 2. Public easements on private property, and/or property acquisition, will be needed to advance certain improvements.

Project Schedule

- FY16 - Study, planning and design.
- FY17 - Construction

Operating Budget Impact

Annual Bond Redemption \$ \$418,500

Project Status :

\$0 spent and encumbered through February 2015

NEW

Description

This project will provide for the replacement of an aging trailer currently used for the Highways Administration functions. It houses eight full-time employees. It has no bathroom facility, no meeting or conference room and no room to expand.

Operating Budget Impact

Annual Bond Redemption \$ \$90,000

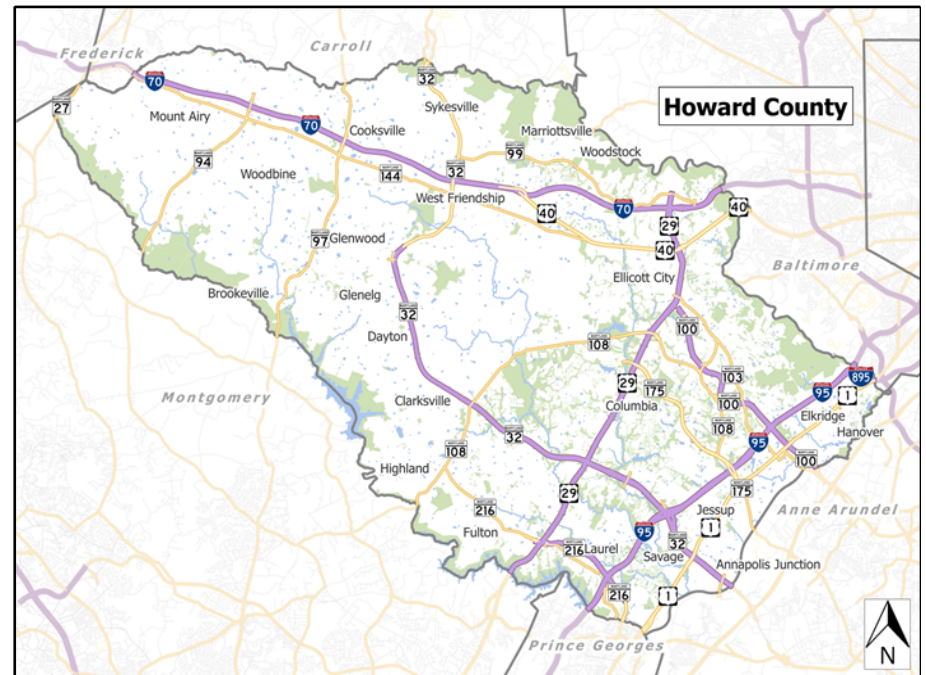

Justification

This program will address the need for a permanent Administration building for the Bureau. It will provide the staff with a more conducive work environment which may lead to a better productivity.

Project: D1112-FY1997 DAVIS AVE AREA DRAINAGE IMPROVEMENTS

DRAINAGE PROJECTS

Number: D1112

Description

This project is for the design and construction of storm drainage facilities in the area of Davis Avenue in North Laurel.

Operating Budget Impact

Annual Bond Redemption \$ \$19,125

Justification

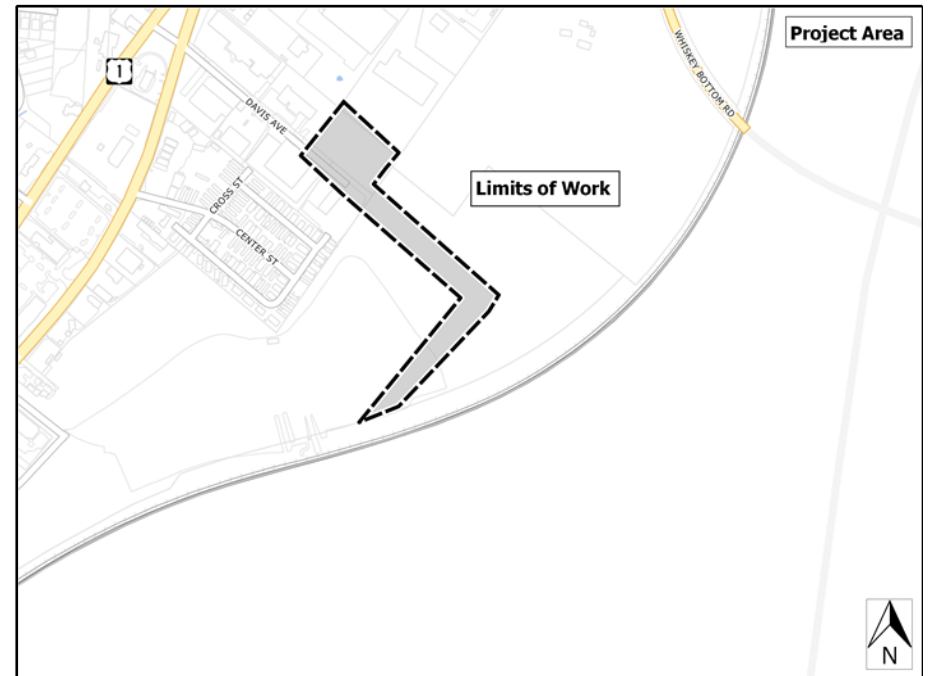

The existing storm drainage system is inadequate. Parts of the area were developed prior to the requirements for adequate storm drains and stormwater management facilities.

Remarks

1. A stormwater management pond (Phase I) and a storm drainage system (Phase II) will be built.
2. OTHER funds are from County share of race track money.
3. The County may enter into an agreement for the developer to construct the County improvements.

Project Schedule

FY16 - Design and Construction (Phase II).
FY17 - Close.

SWM Pond complete (Phase I). Storm drainage system (Phase II) under design.

Description

A project for the design and construction of small to medium size drainage improvements requested by County residents and the Bureau of Highways.

Justification

Create improved drainage to safely convey surface runoff, to stop flow onto residential properties or to protect the traveled way.

Remarks

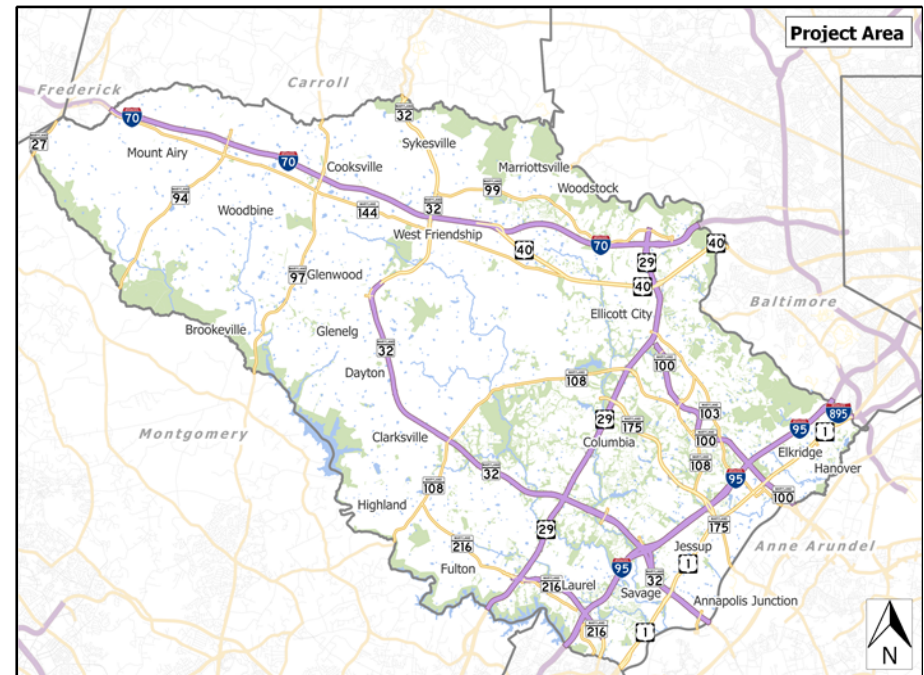

- 1. SDFUND represents Storm Drainage developer contributions derived as a result of 16.133e of the County Code.
- 2. Construction of some projects may be dependent upon donation of the necessary easements and/or resident cost share participation.
- 3. After initial investigation, projects over \$250,000 in construction costs may be split out as a separate Capital Project.
- 4. OTHER funds are resident cost share.
- 5. Project includes assistance with debris removal and assessment of flood mitigation opportunities in the Allview area.
- 6. Request represents program advancement.

Design/land acquisition in progress: Abel St (Phase II), Montgomery Rd easement, Woodside Ct.

Construction in progress: Cradlerock Way channel wall.

Construction complete: Abel St (Phase I), Montgomery Rd., Patuxent Range Rd, Beechfield Ave.

Description

A fund for Howard County to undertake construction or repairs to storm drainage facilities on an as-needed basis meeting the provisions of the County Code. This program is envisioned to provide rapid assistance in emergency situations.

Operating Budget Impact

Annual Bond Redemption \$ \$58,500

Justification

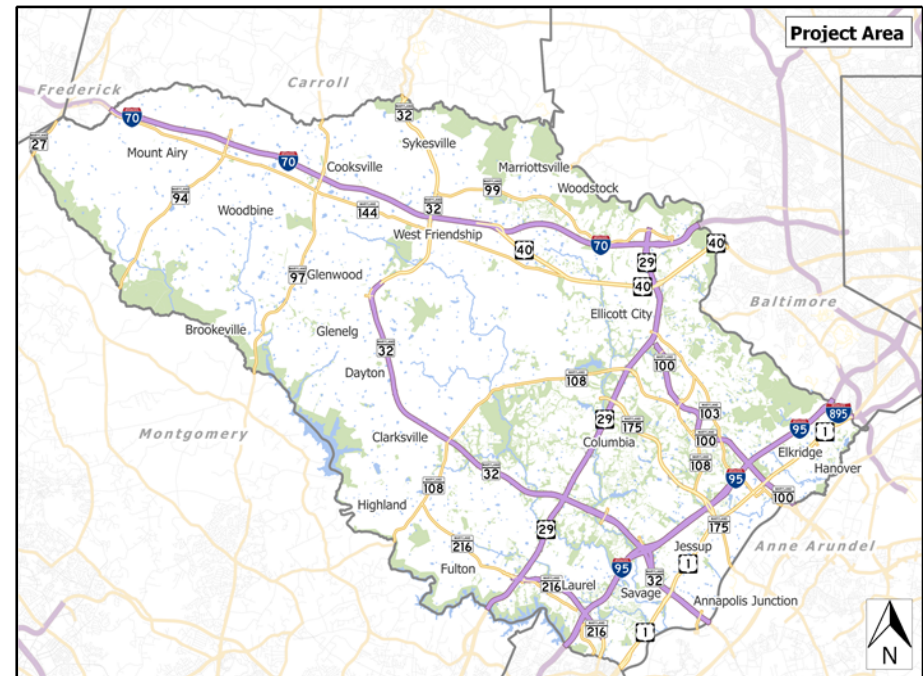

Howard County Code Subtitle 5, Section 18.500, which mandated extensive County involvement in storm drainage.

Remarks

1. Construction of some projects may be dependent on donation of necessary easements and/or resident cost share participation.
2. SDFUND represents Storm Drainage developer contributions derived as a result of 16.133e of the County Code.
3. Request represents program advancement.

\$936,389 spent and encumbered through February 2015

Study complete: Columbia Gateway pipes, Red Clover.

Construction Complete: Dorsey Run Tributary storm drain, Patuxent Range Rd (Phase 2), Great Oaks outfall, Patuxent Range Rd (Phase 1), New Country Ln outfall, Folly Quarter Rd culvert, Sewall Ave, Danmark Dr, Golden Star PI, Greenwood PI.

Description

A project for the design and construction of a storm drain system along Pine Tree Annual Bond Redemption \$ \$152,550 Road, Glen Court, and Guilford Road.

Justification

Currently surface runoff is picked up by roadside ditches which have little grade and water stagnates in them. During heavy storms, the residences experience flooding. This work is requested by the residents and recommended by the Bureau of Highways.

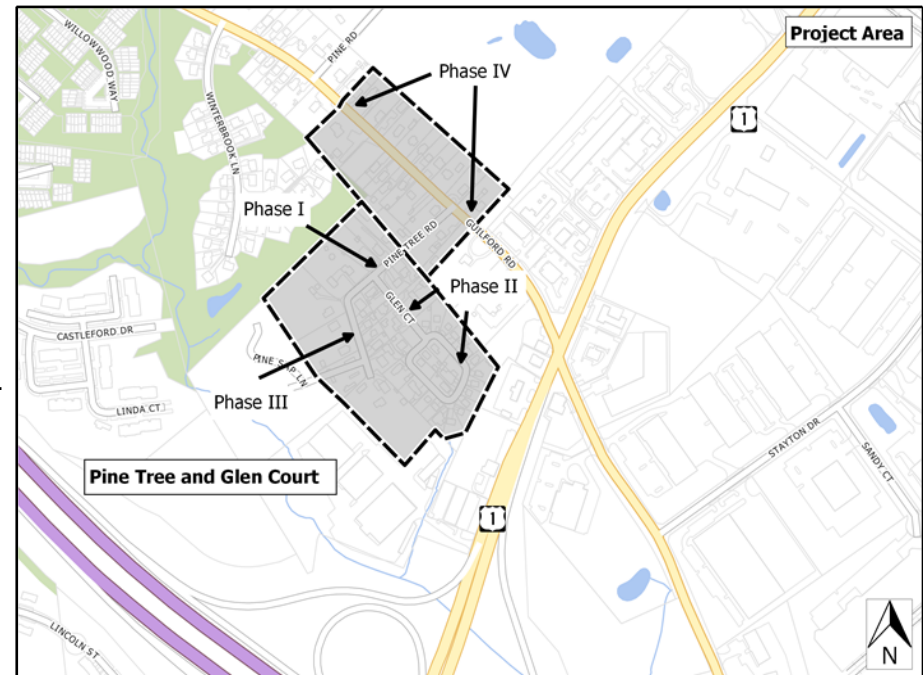

Remarks

- 1. Construction project may be dependent on donation of necessary easements and/or resident cost share participation.
- 2. Request represents latest engineer's estimate.

Project Schedule

- FY16 - Land acquisition and construction of Phases 2 and 3; Design of Phase 4.
- FY17 - Land acquisition of Phase 4.
- FY18 - Construction of Phase 4.

Description

A project for permitting and implementing the requirements of the National Pollutant Discharge Elimination System (NPDES) to detect and reduce pollutants in stormwater system discharges and to perform studies related to storm water utility financing.

Operating Budget Impact

Annual Bond Redemption \$ \$395,100

Justification

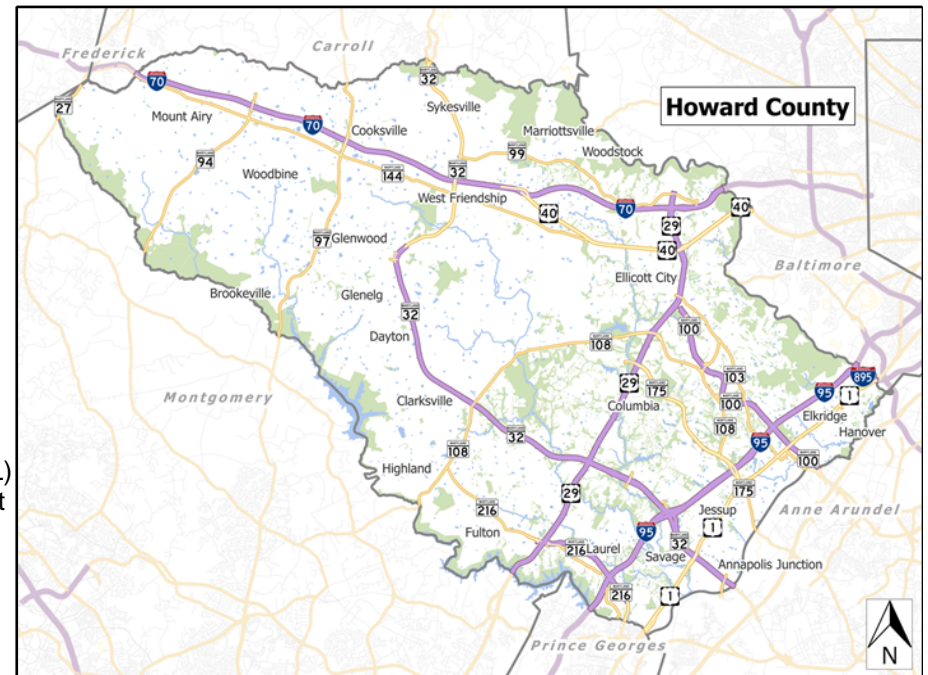

This project is necessary to comply with the Federal Government's Clean Water Act.

Remarks

1. This project replaces Capital Project D1115.
2. A five year renewal NPDES permit was issued by MDE in June 2005.
3. Anticipate next permit being issued in 2014.
4. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.

Project Schedule

- FY16 - Perform work to assess and address Total Maximum Daily Loads (TMDL) and Watershed Implementation Plan (WIP) requirements to meet NPDES permit conditions.
- Perform additional assessments and public education required by first year of new NPDES permit.
- Establish database to comply with NPDES reporting requirements.
- Perform additional watershed studies needed for NPDES permit & TMDL requirements.
- FY22 - Close.

Project Status :

\$3,117,958 spent and encumbered through February 2015

- Performed Upper Little Patuxent Watershed Study.
- Prepared Watershed Treatment Model and generated input to State WIP II.
- Performed stormwater utility fund financing study.
- Performed site assessments for additional BMP implementation.
- Partially funded Alliance for the Chesapeake Bay (READY) grant.
- Design ESD BMPs at Rockburn Branch Park.
- Completed draft Countywide Implementation Strategy (CIS) for meeting TMDL commitments and impervious cover treatment requirements.
- Initiated database creation and impervious cover baseline calculations for NPDES reporting requirements.
- Perform historical BMP cleanup to meet MDE requirements.

Fiscal 2016 Capital Budget

Project: D1150-FY2005 HIGH RIDGE DRAINAGE

DRAINAGE PROJECTS

Number: D1150

Description

A project to design and construct storm drain improvements in the High Ridge area including, but not limited to: Naylor Avenue, Hughes Avenue, Robinson Boulevard, Gross Avenue, Bryant Avenue, Grant Avenue, and Lyon Avenue

Operating Budget Impact

Annual Bond Redemption \$ \$122,850

None

Justification

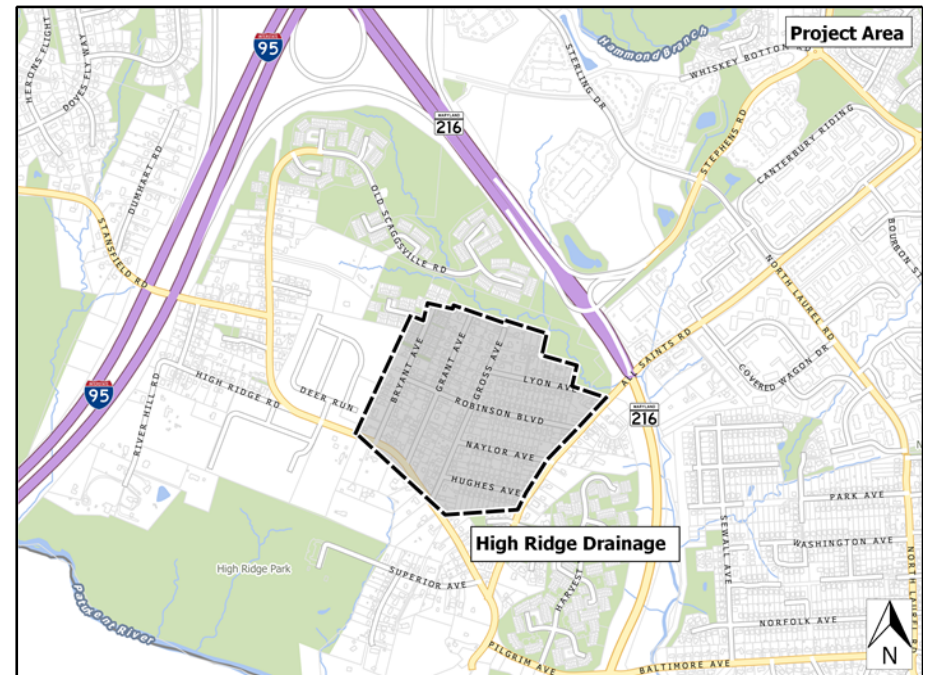

The High Ridge Community was initially developed before the current day standards for streets and drainage accommodations. The community has requested drainage improvements to the area.

Remarks

1. Construction project may be dependent on donation of necessary easements and/or resident cost share participation.
2. Request represents project advancement.

Project Schedule

- FY16 - Design (Hughes Avenue, Gross Avenue and Lyon Avenue).
- FY17 - Design and Land Acquisition (Hughes Avenue, Gross Avenue and Lyon Avenue).
- FY18 - Construction (Gross Avenue, Hughes Avenue and Lyon Avenue).
- FY19 - Complete and Close.

Fiscal 2016 Capital Budget

Project: D1155-FY2006 LINCOLN DRIVE at CEDAR VIL PARK DRAINAGE

DRAINAGE PROJECTS

Number: D1155

Description

There is an inadequate drainage system to carry the runoff from the park side of the road to the outfall side of Lincoln Drive. Additional drainage facilities are needed along Cedar Avenue, Georgia Avenue and Wye Avenue.

Operating Budget Impact

Annual Bond Redemption \$ \$73,575

Justification

The Bureau of Highways requested this project to reduce annual maintenance costs.

Remarks

1. Project has been split into two phases to move project despite right-of-way issues.

Phase 1 includes all work south of Georgia Avenue.

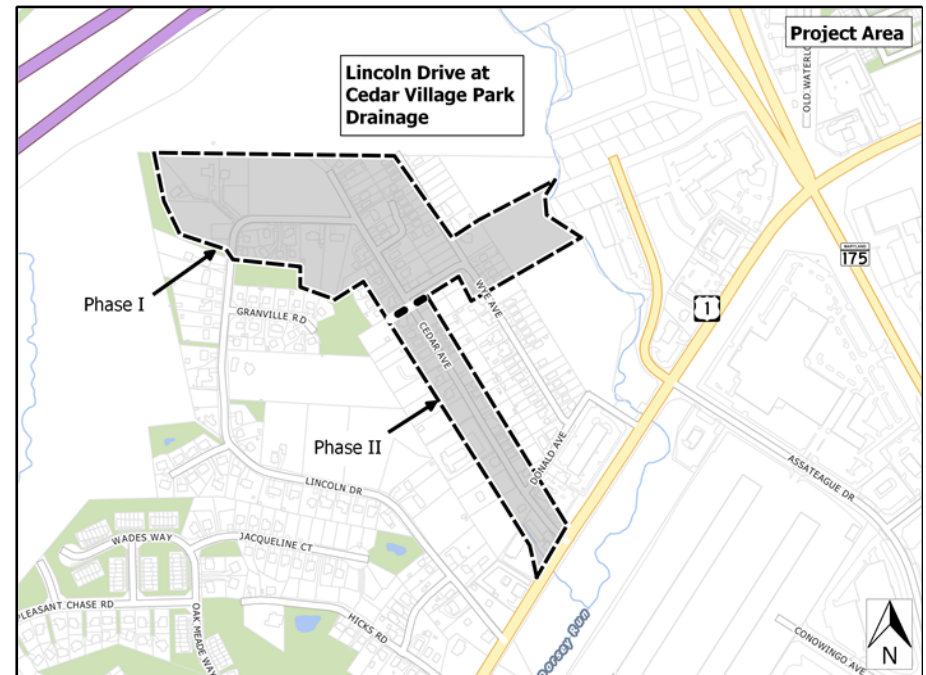

Phase 2 includes all other work, including work in vicinity of Wye Avenue.

Project Schedule

FY16 - Land acquisition Phase 2

FY17 - Construction of Phase 2.

FY18 - Complete and Close.

Project: D1157-FY2006 ST JOHNS LANE VICINITY DRAINAGE

DRAINAGE PROJECTS

Number: D1157

Description

A project for the construction of drainage improvements along St Johns Lane, Northfield Road, Southfield Road, Crescent Road, Hawthorne Road, Crestleigh Road, Club Court and the adjacent neighborhoods.

Justification

The Traffic Division has requested that the drainage of St. Johns Lane be improved and adjacent property owners have requested that the runoff from the road and other drainage issues in the adjacent neighborhoods be addressed.

Remarks

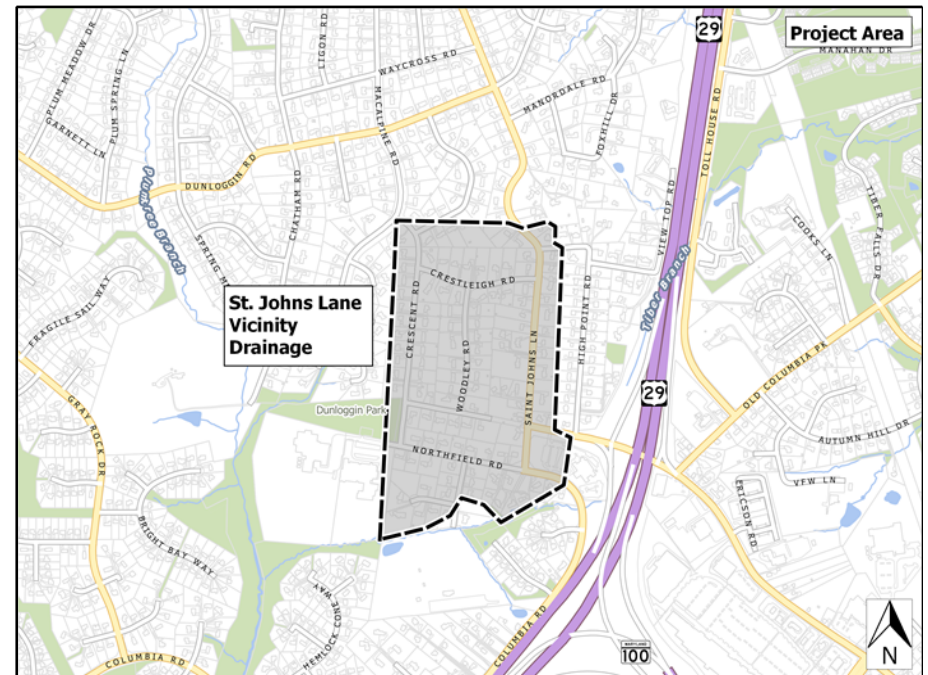

1. Construction of some projects may be dependent on donation of necessary easements and/or resident cost share participation.
2. Phase IV - Drainage Improvements along Northfield Road and Southfield Road.
3. Phase V - Drainage Improvements along Club Court.

Project Schedule

FY16 - Design, Land Acquisition and Construction.
FY17 - Complete, Close.

Operating Budget Impact

Annual Bond Redemption \$ \$68,175

Project Status :

\$609,637 spent and encumbered through February 2015

Study completed. Design and land acquisition in progress for Phase IV. Construction complete for Phase I.

Design and land acquisition for Phase V. Phase II and Phase III deleted.

Description

This project is for design and construction of stormwater facility improvements. The project will include NPDES stormwater management implementation requirements, floodplain studies, including retrofitting of stormwater management ponds, restoration and certification of detention basins, continued improvement of flood alert systems, streambank restoration including bio-engineering, water quality devices (such as wetlands), channel restoration and water quality monitoring studies.

Operating Budget Impact

Annual Bond Redemption \$ \$553,275

Justification

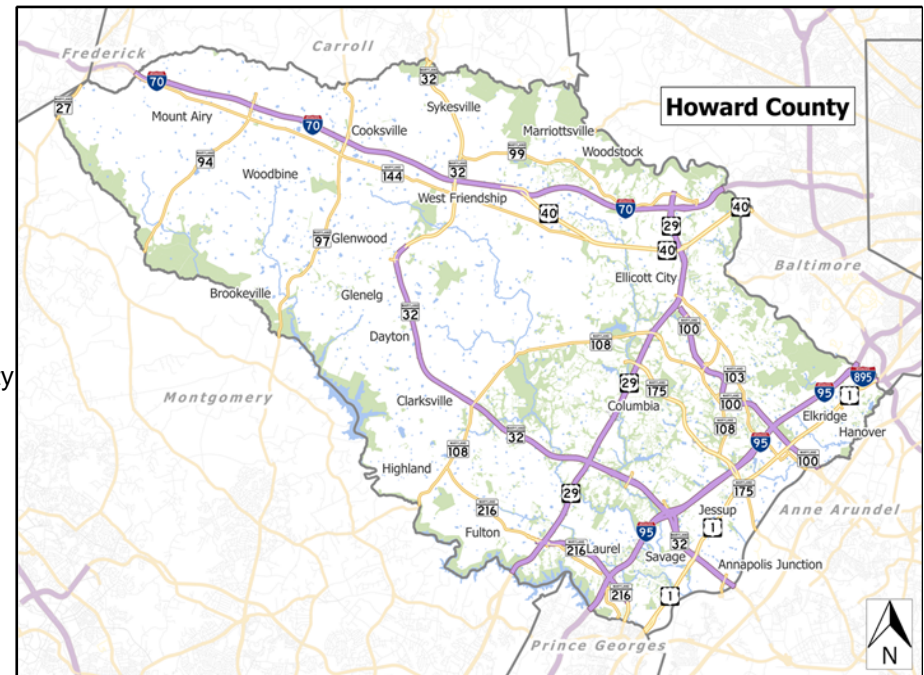

1. NPDES Program is required by EPA and MDE under the Clean Water Act.
2. Watershed management of floodplains is needed to provide additional protection for older communities.
3. Erosion of tributaries of the Patapsco and Patuxent Rivers needs to be addressed.

Remarks

1. SDFUND represents fee-in-lieu of SWM construction by developers for County use in design or construction of other SWM facilities.
2. This project replaced Capital Project D1126 in FY08.
3. GRANT funds include local implementation grant from Chesapeake and Atlantic Coastal Bays 2010 Trust Fund and ARRA.
4. A portion of current request represents funding to be generated from the Watershed Protection and Restoration fund.

Project Schedule

FY16 - Design stream restoration projects (Design) - Woodstock Park (Davis Branch), Mellen Court Stream Restoration and Outfall Stabilization, Churchill Way Outfall Stabilization, Swansfield Road Trail Stream Restoration, Longview Drive Stream Restoration, Global Court Stream Restoration. Construct stream restoration projects (Constr.) - Bonnie Branch, Howard Community College, Greenway Drive Drainage Improvements, Willow Bend Court, Woodlot Road, Stonehouse Drive, Font Hill Park. Continue to perform post construction stream monitoring at multiple sites. Perform watershed monitoring (Red Hill Branch and Dorsey Hall).

Project Status :

\$14,251,591 spent and encumbered through February 2015

Stream Restoration Projects:

1. Design initiated - Woodlot Rd, Willow Bend, Dorsey Hall Village Center, Bonnie Branch Rd, Font Hill Park.
2. Construction initiated - Southview Rd, Pinehurst Ct.
3. Construction completed - Autumn Harvest - Phase 2, Bramhope La, Brightwood Ct, Dower Dr, Ducks Foot Ln - Phase 2, Elmmede Rd, Faulkner Ridge Cir, Great Drum Cir, Meadowbrook Park, Old Willow Way, Paul Mill Rd, Red Hill Way, Stone Trail Ct, Tall Maple Ct, Threshfield Ct, Tiller Dr, Tiller Dr - Phase 2, Tuscany Rd, Waverly Woods retrofit, Wheatfield Way, Whiterock Ct, Windflower Dr.

Other Projects:

- FEMA floodplain updates by Corps of Engineers.
- Red Hill Branch and Dorsey Village watershed monitoring - ongoing.
- Post-construction monitoring for completed stream projects.

Description

A fund for Howard County to undertake construction or repairs to stormwater management on an as-needed basis meeting the provisions of the County Code. This program is envisioned to provide rapid assistance in emergency situations.

Operating Budget Impact

Annual Bond Redemption \$ \$895,275

Justification

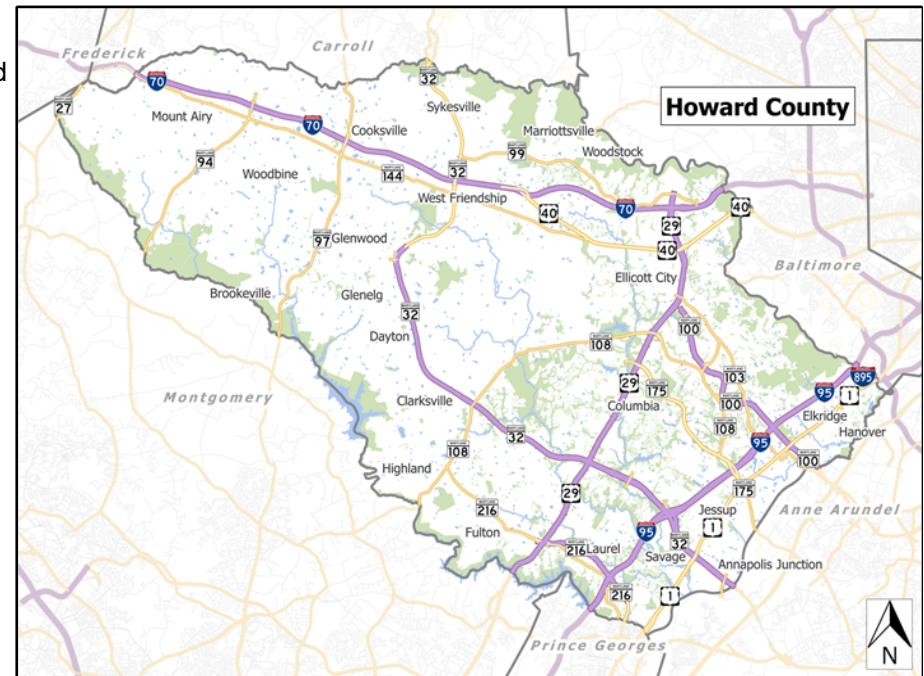

Howard County Code Section 18.900, which requires inspection and maintenance of storm water management facilities. Metal pipe pond barrels are deteriorating as they reach the end of their expected life and need to be repaired or replaced.

Remarks

- 1. GRANT funds include local implementation grant from the Chesapeake and Atlantic Coastal Bays 2010 Trust Fund.
- 2. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.

Project Schedule

FY16 - Designs: 9 barrel repairs/replacements.
Construction: 9 barrel repairs/replacements.
FY20 - Close.

Fiscal 2016 Capital Budget

Project: D1160-FY2010 STORMWATER MANAGEMENT RETROFITS

DRAINAGE PROJECTS

Number: D1160

Description

A project for the retrofit of stormwater management facilities to include water quality management.

Justification

Numerous facilities built in the early period of stormwater management provide only water quality management. Howard County's Stormwater Management NPDES permit requires the County to improve water quality, in part, through retrofitting existing facilities designed only for water quality management.

Remarks

1. This project replaces D-1141.
2. Grant funds included from the American Recovery and Reinvestment Act and local implementation grant from Chesapeake and Atlantic Coastal Bays 2010 Trust Fund.
3. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.
4. There are 8 projects planned for retrofits for FY16; 15 currently under design; 2 currently in construction; and 22 projects completed since 2010.

Project Schedule

FY16 - Designs: Garand Drive Pond; Ashton Woods, Patapsco Park Estates; Carriage Hills Drive; South Meadow Court; St. Johns Lane; Gray Rock Drive; Diversifield Lane; Fetlock Court.

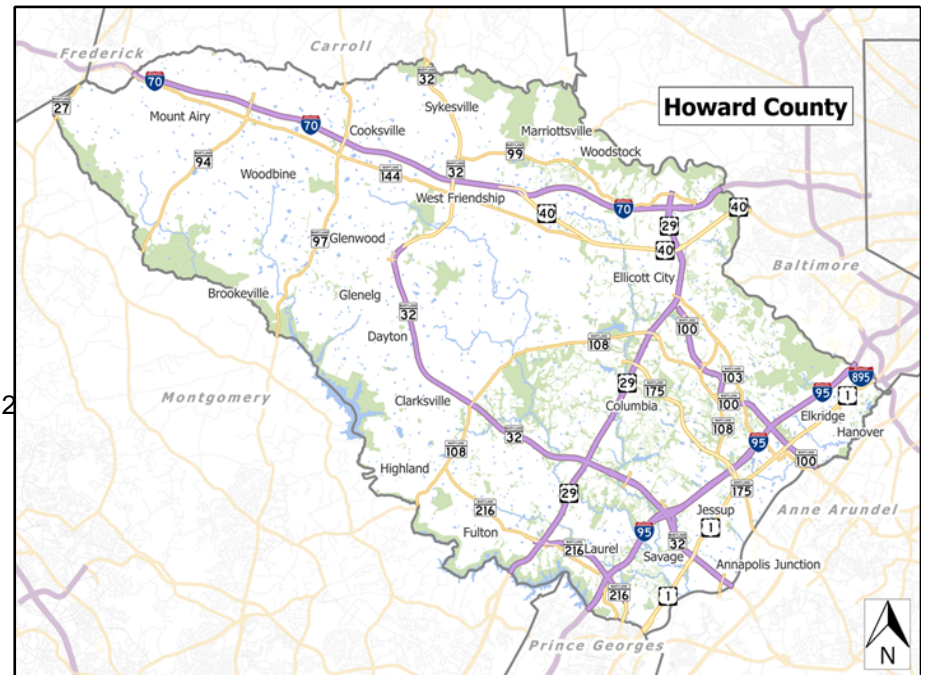

FY16 - Construction: Lynwood Manor; Quaker Mill; Deep Earth Lane; Heritage Woods.

FY22 - Close.

Operating Budget Impact

Annual Bond Redemption \$ \$614,475

Technical/administrative management support.

Project Status :

\$7,411,042 spent and encumbered through February 2015

Students Branching Out - CBTF Grant for tree planting at schools and at County parks.

Designed: Heritage Woods; Quaker Mill; Lynwood Manor; Deep Earth Ln; Recreation and Parks Headquarters; Turf Valley Overlook Pond 3; Rockburn Park.

Constructed: Country Ln; Oak West; Wilde Lake HS; Turf Valley Overlook Pond 2; Rockburn Park; Whitworth Way; Wimbledon Ct; Stevens Forest ES, Dorsey Hall Village Center; Mt. Hebron HS pond; Cedar Lane Park, Atholton Park, Baltimore-Washington Industrial Park pond; Howard County Center for the Arts; St Johns Green pond; River Hill Shallow Marsh; Doresy Bldg parking lot; Ashmede Rd pond; Hearthstone Rd pond; Salterforth ponds 1 and 2.

Description

A project to replace the existing culvert on Shaffersville Road (between Florence Road and Shaffers Mill Road).

Operating Budget Impact

Annual Bond Redemption \$ \$23,625

Justification

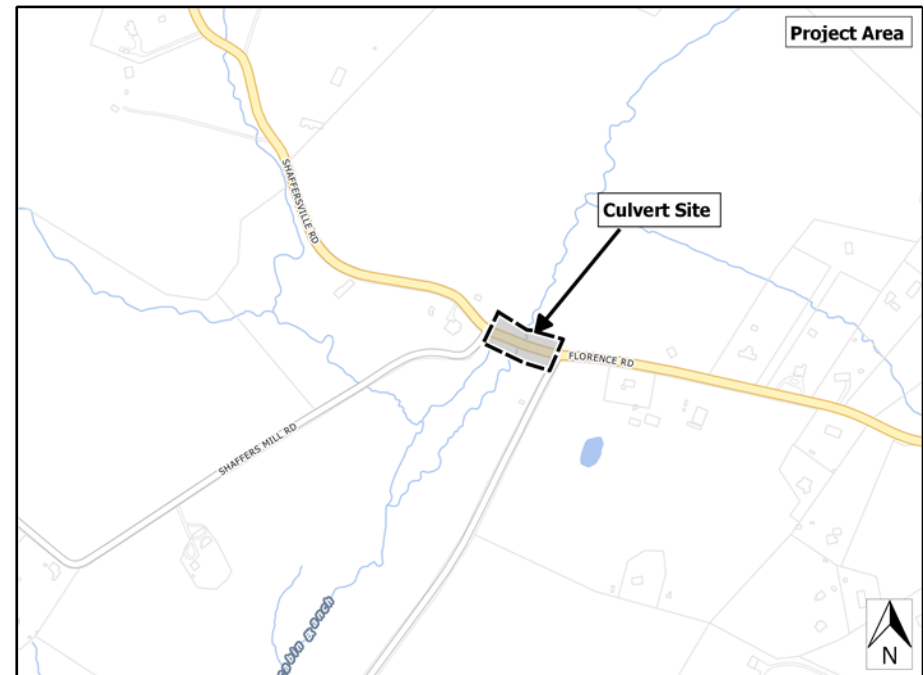

Requested by the Bureau of Highways. The existing culvert floods regularly necessitating the closure of the road. This is a maintenance problem for the Bureau of Highways and an inconvenience to the traveling public.

Remarks

Shaffersville Road is a scenic road.

Project Schedule

FY18 - Design.
FY19 - Land Acquisition.
FY20 - Construction.

Project Status :

\$0 spent and encumbered through February 2015

Description

A project for the purchase of easements as required and repairs for pipes under County roads in the older sections of the County.

Operating Budget Impact

Annual Bond Redemption \$ \$51,750

Justification

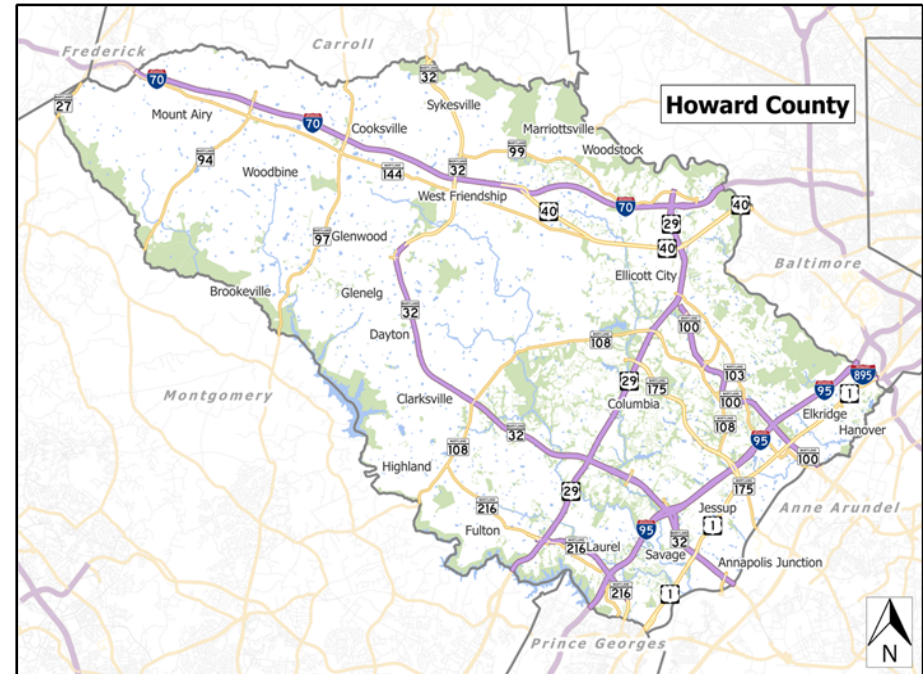

The County may not have easements to access the ends of pipes under the road and thus cannot maintain the pipes.

Remarks

1. The County will seek donation of these easements but may have to purchase them in some cases.
2. Project is conditional upon reaching agreement which is satisfactory to the County, the homeowner association, and/or private property owners.

Project Schedule

FY16 Program Funded.

Project Status :

\$1,349,695 spent and encumbered through February 2015

Description

This project is for the design and construction of stabilization of the streambank of a tributary of the Middle Patuxent River and the adjacent roadway fill of Trotter Road.

Operating Budget Impact

Annual Bond Redemption \$ \$33,975

Justification

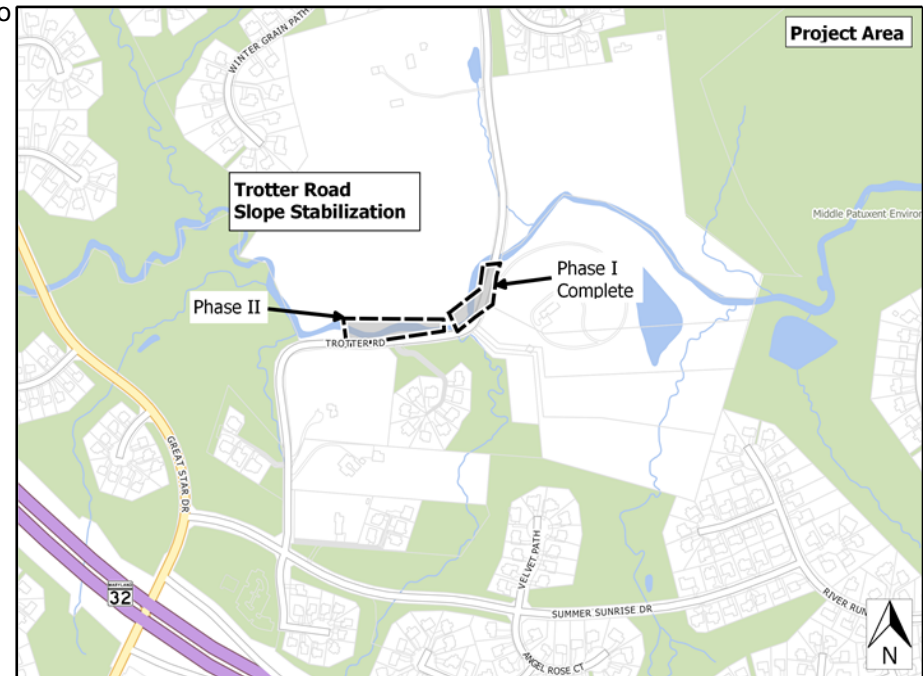

The roadway embankment is being eroded by the force of the stream adjacent to the roadway fill.

Remarks

- 1. Trotter Road is a Scenic Road.
- 2. County will request donation of the necessary easement(s).
- 3. Request represents latest construction estimate.

Project Schedule

FY16 - Construction of Phase 2.

 Performed concept grading, soil borings, and survey for Ellicott City Parking Lot E.
 Performed design & construction for Savage Library water quality enhancements.

Fiscal 2016 Capital Budget

DRAINAGE PROJECTS

Project: D1165-FY2013 FLOOD MITIGATION and STORMWATER/WATERWAY ENHANCEMENT

Number: D1165

Description

This project is for the study, design, and construction of flood mitigation and stormwater/waterway enhancement efforts in downtown Ellicott City. Projects may include drainage improvements, stormwater retrofits, flood control, stream improvements, and design of additional drainage facilities.

Justification

Damage from flooding in downtown Ellicott City during recent storms was substantial.

Remarks

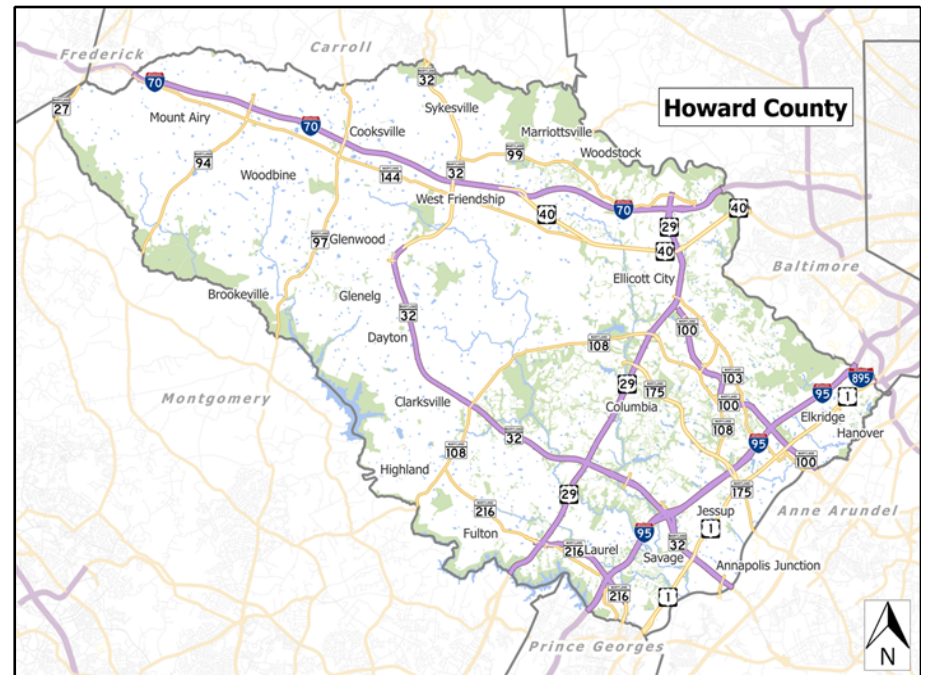

1. Future years once projects cost/benefits determined, apply for FEMA grants.
2. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.

Project Schedule

FY16 - Design and begin construction of one of the feasible mitigation projects. Set up public-private partnership to acquire easements over damaged walls along stream & perform stream cleanup.

Operating Budget Impact

Annual Bond Redemption \$ \$27,000

Project in design.

Description

A project to design and construct drainage improvements in the Glenbrook Community including but not limited to: Walker Drive and Dogwood Drive.

Justification

This community was built in the 1960s and 1970s with the drainage standards of the time (little or no storm drainage system and no stormwater management). Parts of the area suffer flooding during infrequent, large runoff events that would not be as damaging if the area were designed to today's drainage standards. This work is requested by residents of the area.

Remarks

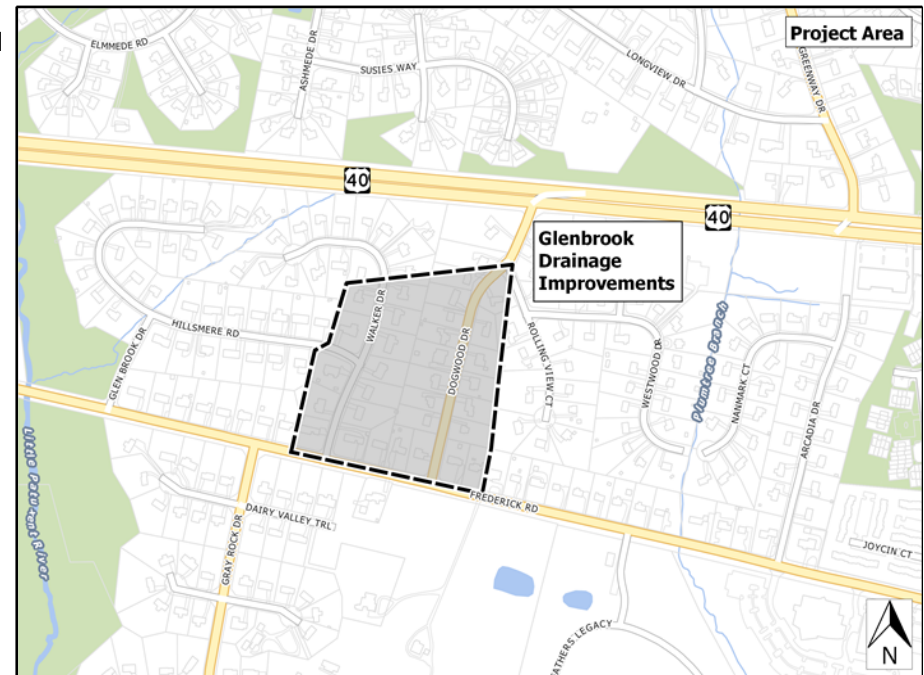

- 1. Construction project may be dependent on donation of necessary easements and/or resident cost share participation.
- 2. Request represents project initiation.

Project Schedule

FY16 - Design and Land Acquisition.
FY17 - Construction.

Operating Budget Impact

Annual Bond Redemption \$ \$34,200

Project in Design.

Description

This program will provide for the replacement of failed storm drain pipes and culverts. The County's storm drain infrastructure is aging and many of the metal pipe culverts installed from 1960 through the 1990s have reached the end of their service life. Currently no asset inventory with condition assessment exists; therefore no funding is programmed to systematic replacement of these pipes and culverts. This program will provide for emergency culvert replacement and provide for funding assist in the development of an asset inventory program to better forecast future replacement needs. This program includes: storm water pipe and culvert replacement of both metal and concrete in less than six (6) feet in roadway longitudinal length, headwalls, end sections, replacement, or extension of culverts to assure positive flow of storm water and channeling of storm water into existing ditch lines or structures. Repairs also include roadside pipe and culvert end treatment safety improvements to eliminate safety hazards. This project will not make major changes to the location or size of existing storm drainage structures.

Justification

This program will address emergency pipe replacement of aging metal and concrete pipes that have reached the end of their service life. The result of these pipe failures has been deep depressions, sinkholes, sediment build up, open pipe joins and metal pipe inverts to unacceptable levels. Existing storm drain conditions are extremely poor. Repairs are needed to improve safety and reduce the potential for hazards and associated public inconvenience. Failure of a storm drain pipe will require emergency repairs at much higher prices. Further, this program will provide some funding towards the development of an asset inventory of the storm drain system including pipe and culvert conditions for future funding forecasting.

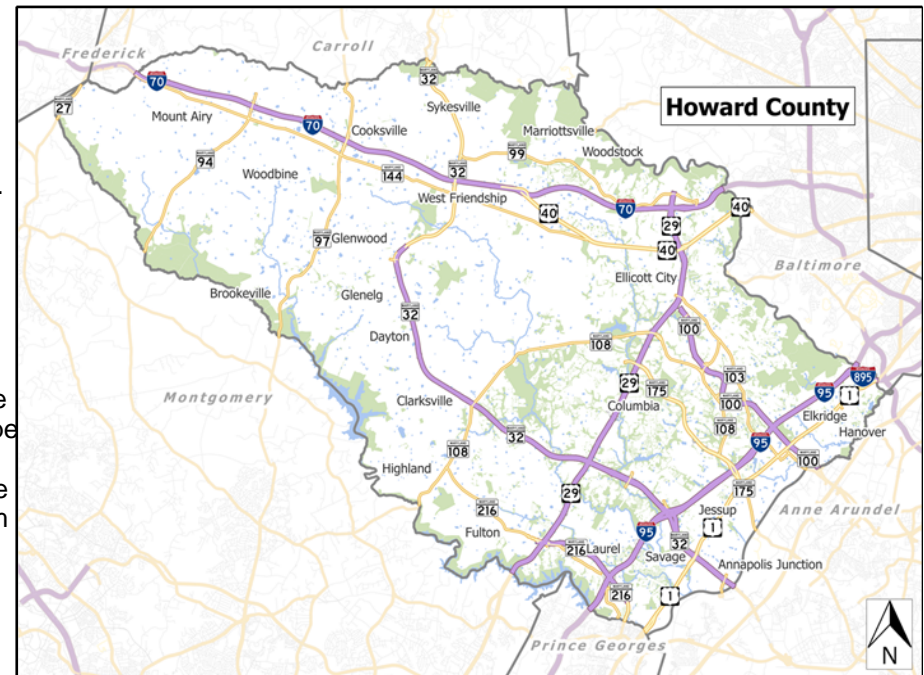

Remarks

Project Schedule

Close at program completion

Operating Budget Impact

Annual Bond Redemption \$ \$189,000

Total Funding	0	0	0	200	50	450	0	0	700	0	0	0	0	700

Project Status :

\$0 spent and encumbered through February 2015

Description

A project to acquire the necessary easements of the drainage channel that travels behind the homes of Cissell Avenue and Haddaway Place. The County owns a storm drain system that travels about one-half of the way down this drainage channel. The storm drain outlets into a natural channel. The natural channel has become clogged with bamboo. This project will acquire easements along the channel area so that the Bureau of Highways is able to maintain the channel by removing the bamboo. Work may include providing a storm drain or clearing drainage impediments in the channel.

Justification

This older neighborhood has had drainage issues in the past and the County has constructed storm drain systems to try and improve the situation. Since the construction of those systems, bamboo has invaded the privately owned property of the natural drainage channel. Bamboo is a known invasive plant. It has clogged the channel and the drainage water floods out into the back yards of the adjacent homes. The Bureau of Highways is willing to maintain the channel if the County is able to obtain the necessary easements. The improvements were requested by adjacent property owners and the Bureau of Highways.

Remarks

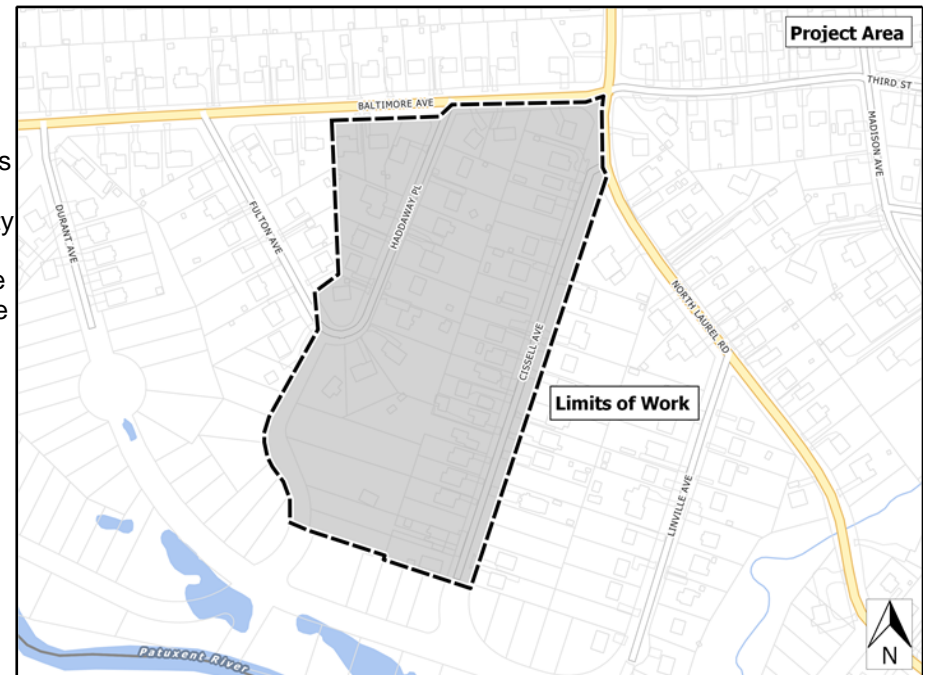

1. The project may be dependent on the donation of the necessary easements from the adjacent properties.
2. Project is contingent on regulatory approval.
3. Request represents project initiation.

Project Schedule

FY16 - Design and Land Acquisition.
FY17 - Construction.

Operating Budget Impact

Annual Bond Redemption \$ \$13,500

Project: D1173-FY2016 HARRIET TUBMAN LANE DRAINAGE IMPROVEMENTS

DRAINAGE PROJECTS

Number: D1173

Description

A project to design and construct drainage improvements along Harriet Tubman Lane in the 7900 and 8000 block area.

Operating Budget Impact

Annual Bond Redemption \$ \$36,000

Justification

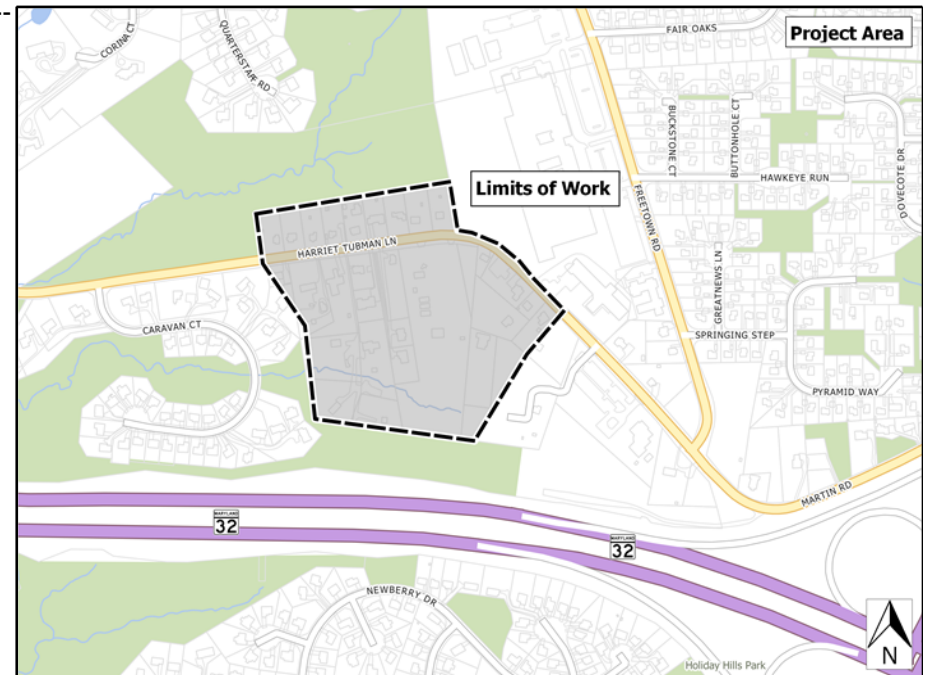

While the roadway is old, the homes in the area are a mix of older and more recent construction. Because of the nature of the development -- individual lots -- there is not a well-designed drainage system to serve the area. This work would improve the drainage in the area. Improvements have been requested by the Bureau of Highways and residents of the area.

Remarks

Request represents project initiation.

Project Schedule

FY16 - Design.
FY17 - Land Acquisition.

Description

A project to design and construct drainage improvements in the Spring Glen Community including but not limited to: Ivy Spring Road and Cross Ivy Road. The improvements to be considered include adding curb & gutter with storm drains and filling in the swales.

Justification

This community was built in the early 2000s using the new storm drainage design for subdivisions. The roads are narrow and open section (no curb & gutter). The plowing of snow tears up the adjacent grass areas. The yards have deep swales and are difficult to maintain.

The improvements were requested by the Homeowners Association and the Bureau of Highways.

Remarks

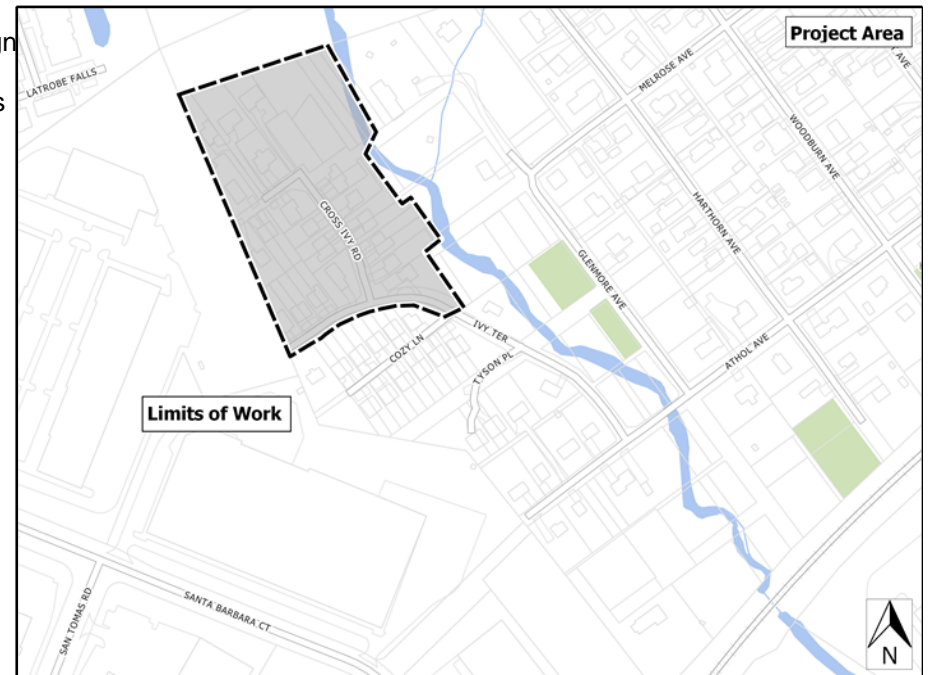

Request represents project initiation.

Project Status :

\$2,921,000 spent and encumbered through February 2015

Phase I Completed in 2007.

Description

Improvements and installation of systemic renovations at various school sites, including projects of a critical nature such as sprinkler repair, HVAC repair, window replacement, and other projects in support of the local CIP outlined in the HCPSS Comprehensive Maintenance Plan, as well as emergent projects on school properties. For larger systemic renovation projects (see schools listed in the remarks section) the complete scope of these projects are defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

The systemic renovation program will include projects that are needed to bring older facilities up to current standards in lighting, electrical, HVAC systems, reconfiguring space, handicap accessible improvements, and provide for upgrades to other building systems.

Remarks

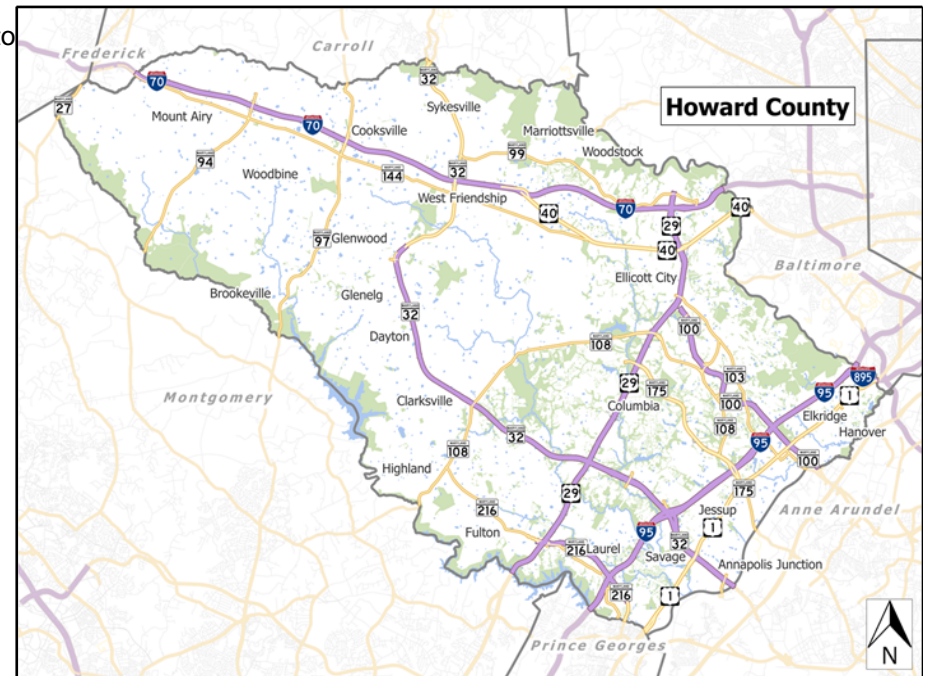

1. FY 2016 Capital Budget request represents renovation work or planning for future construction at the following school facilities:
2. Mayfield Woods MS Electronics (Fire Alarm): Construction Summer 2015.
3. Manor Woods ES Electronics (Fire Alarm): Construction Summer 2015.
4. Clarksville ES Doors/Frames: Construction Summer 2015.
5. Rockburn ES Boiler: Construction Summer 2015.
6. Glenwood MS Boiler/Water Heater: Construction Summer 2016.
7. Lime Kiln MS Control Systems: Construction Summer 2016.
8. Bonnie Branch MS HVAC: Construction Summer 2016.
9. Hollifield Station ES Control Systems: Construction Summer 2018.
10. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

Project Schedule

See remarks.

Operating Budget Impact

Annual Bond Redemption \$ \$31,883,985

See remarks.

Description

Installation of ramps; alteration of restrooms, fixtures and drinking fountains; and various modifications to make all remaining spaces (school buildings and school sites) accessible to the public, students, teachers, and staff.

Operating Budget Impact

Annual Bond Redemption \$ \$254,250

Justification

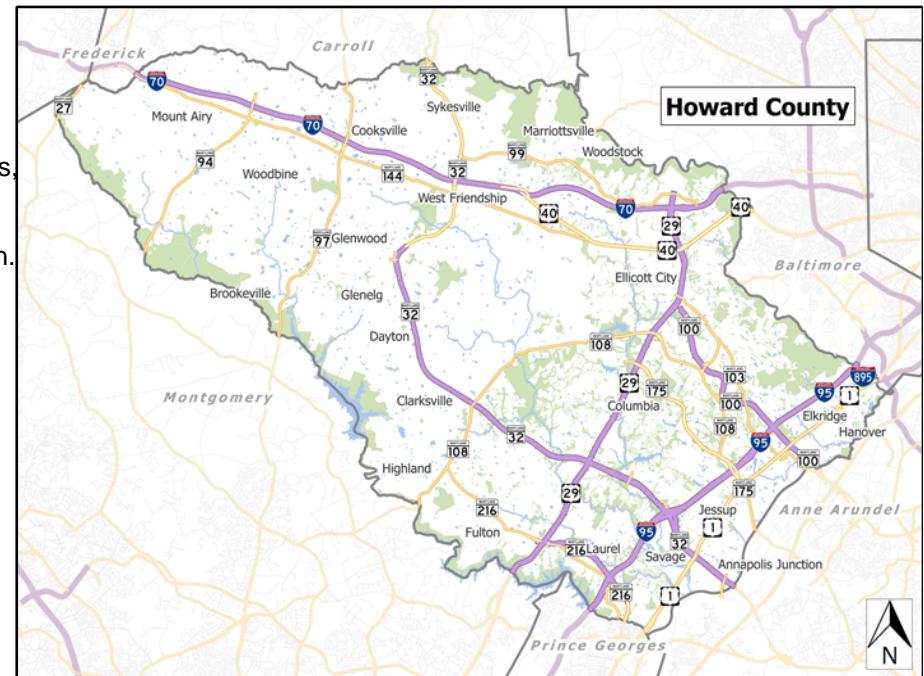

Federal, state, and local regulations require that school facilities be made accessible to persons with disabilities by removing barriers to access.

Remarks

1. Examples of projects include stadium bleacher ramps, play field access ramps, automatic door opening devices, and reconfiguration of bathroom fixtures and partitions to allow wheelchair access.
2. Other school specific projects that remove barriers as described in justification.

Project Schedule

Ongoing.

Project: E0990-FY2002 PLAYGROUND EQUIPMENT

SCHOOL SYSTEM PROJECTS

Number: E0990

Description

Improvements and installation of playground equipment at various school sites.

Justification

The program will include projects that are needed to bring older schools' playgrounds up to current standards.

Remarks

Playgrounds at the following schools are under consideration for replacement:

1. Hollifield Station ES.
2. Manor Woods ES.

Project Schedule

April 2015: Final Site Specific Selection and Requisition.
July 2015 - August 2015: Equipment Installation.

Operating Budget Impact

Annual Bond Redemption \$ \$202,500

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project Status :

\$2,236,512 spent and encumbered through February 2015

Ongoing.

Description

This request will provide funds for the relocation of existing portable classrooms or purchase of new portable classrooms to be placed at schools in need of additional capacity in August 2015. Relocation includes moving the buildings as well as installation of support services that make the buildings functional classrooms.

Justification

Additional classroom spaces are needed to help relieve overcapacity schools until such time as permanent classroom spaces are available.

Remarks

1. In September 2014, there were 235 relocatable/modular classrooms in use (four are used for administrative purposes at the Central Office, all others are at school sites). The school system will continue to conduct an annual review of all relocatables which will include condition and usage. The potential to either remove relocatables out-of-service, transport them to other locations where needed, or place them in excess to dispose of in an appropriate manner will be decided upon annually.

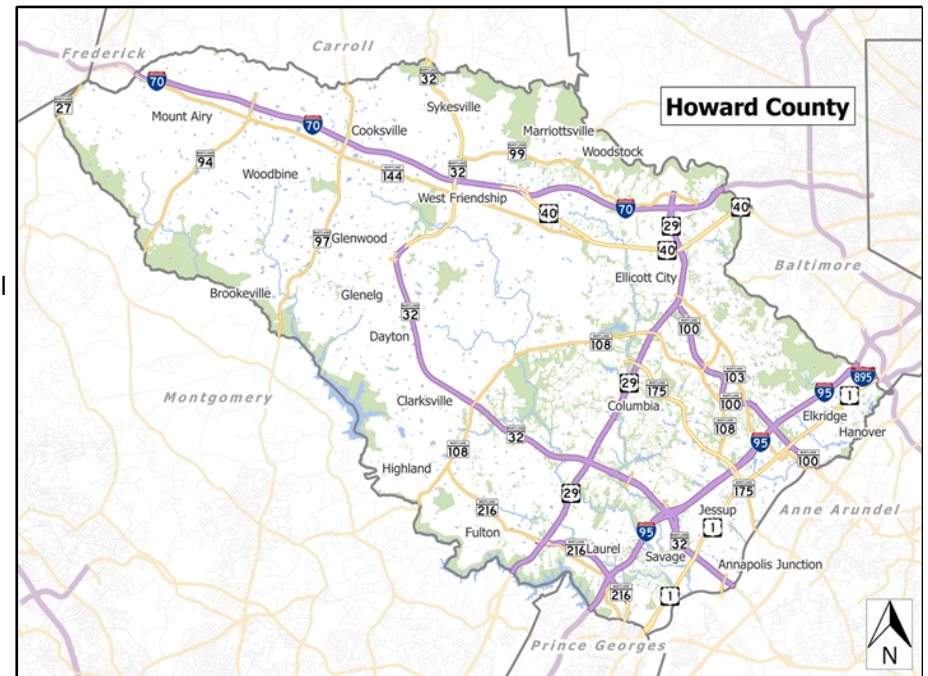

Project Schedule

Summer 2015.

Operating Budget Impact

Annual Bond Redemption \$ \$1,305,450

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project: E0994-FY2004 ROOFING PROGRAM

SCHOOL SYSTEM PROJECTS

Number: E0994

Description

Reroofing for various schools including design and construction of repairs to existing roofs, old roof removal, new flashing and drains, and installation of new roofing structure and material.

Justification

The roof system is the largest single area of the building that must endure the most severe weather conditions. The roof protects the structural integrity of the building as well as equipment. Because of building age and environmental conditions, scheduled roof replacements must be completed to protect the investment that has been made in many facilities.

Remarks

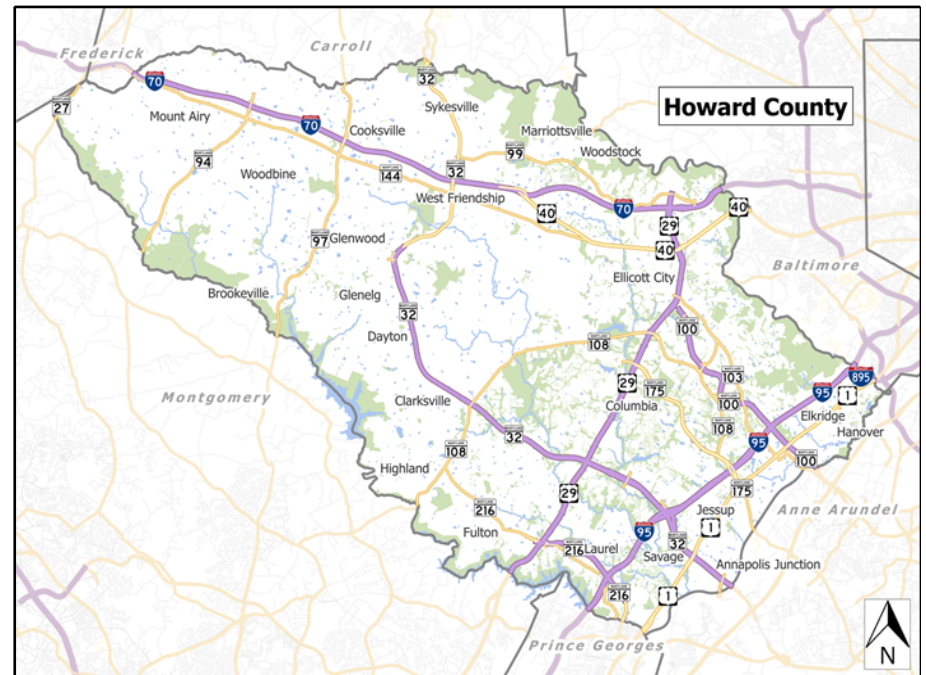

1. Wilde Lake HS.
2. Centennial HS.
3. Harper's Choice MS.

Project Schedule

Summer 2015.

Operating Budget Impact

Annual Bond Redemption \$ \$3,391,470

Project: E0995-SITE ACQUISITION and CONSTRUCTION RESERVE

SCHOOL SYSTEM PROJECTS

Number: E0995

Description

This account is a contingency fund for site acquisition and school construction at various school sites. Recent emergent maintenance requirements have strained the school system's existing construction contingency accounts and additional funding is required to ensure that urgently needed repairs can be completed without delay.

Operating Budget Impact

Annual Bond Redemption \$ \$1,234,125

Justification

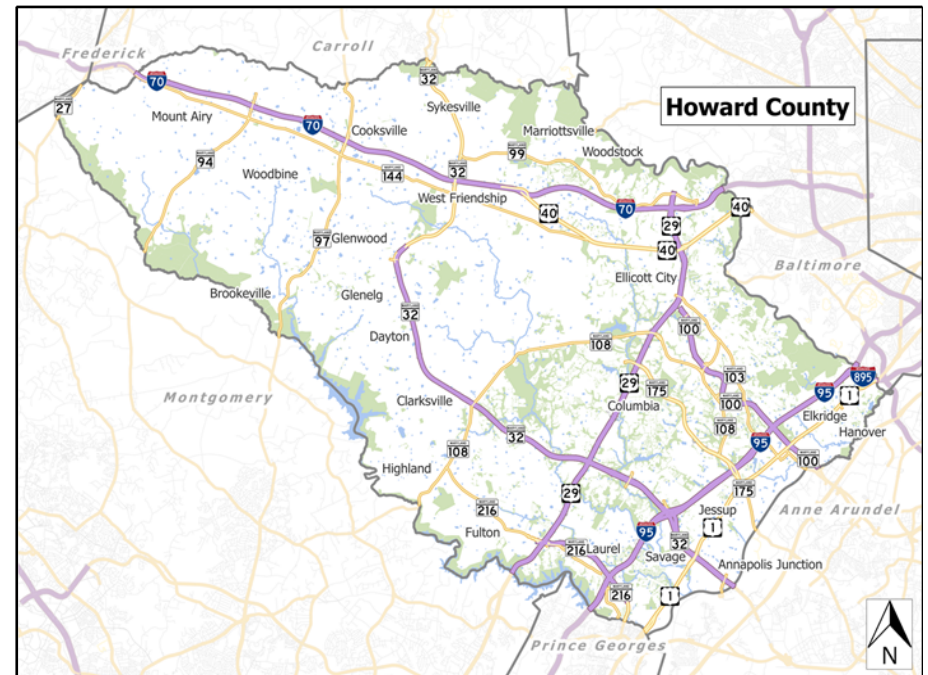

This fund is needed as a contingency reserve providing funds for use on an as-needed basis.

Remarks

1. Site funds are needed for future enrollment growth.

Project Schedule

Ongoing.

Description

A facility assessment survey was conducted for all schools. The remainder of the Annual Bond Redemption \$ \$288,000 funds are being utilized to fund planning for projects at Thunder Hill ES, Bollman Bridge ES, Stevens Forest ES and other future systemic renovations at school sites.

Operating Budget Impact

Justification

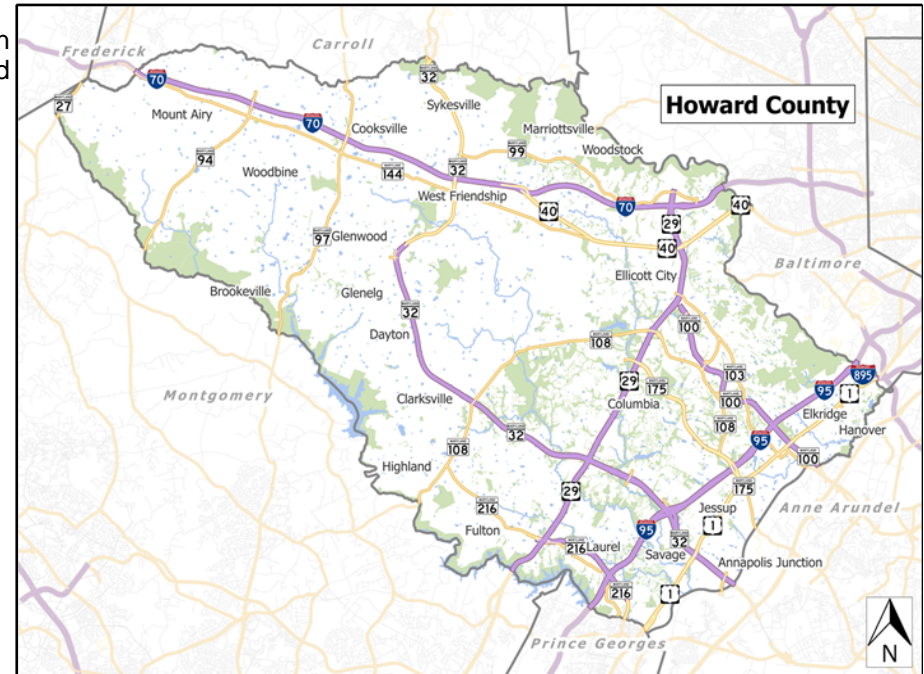

The results of the facility assessment were used to assist the Board of Education in the prioritization of near term planning of renovation requirements in FY10 and determination of fiscal needs over the long term.

Remarks

- Design Completion of:
1. Thunder Hill ES - Construction Complete.
 2. Bollman Bridge ES - Construction Complete.
 3. Stevens Forest ES - Construction complete.
 4. Hammond ES/MS - Construction complete.

Project Status :

\$6,344,942 spent and encumbered through February 2015

Design.

Description

A project to add an addition and to renovate the "OLD" Cedar Lane School for use as a Diagnostic Center and offices for staff. This project will be completed in two phases. Phase I will consist of a new office space and the renovation of existing space. Phase II will include the renovation of space in the existing building. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Operating Budget Impact

Annual Bond Redemption \$ \$59,400

Justification

Over 300 staff are located within space intended for academic use at ARL (Application and Research Lab), Old Cedar Lane, or within leased space currently located at the Ascend One Building. Space is needed due to the loss of administrative office space at the ARL and growth of the school system staff since the Central Office was built in 1980. This project would provide for the majority of these administrative space needs, modern conference space and provide a community resource for this area.

Remarks

1. Per FY2016 Capital Budget, this project has been deferred indefinitely.
2. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

Project Schedule

January 2016 - June 2017: Planning.
 July 2017 - August 2018: Phase I Construction/Renovation to Create the Diagnostic Center/Staff Center.
 July 2018 - August 2019: Phase II Construction/Renovation.

In planning.

Description

A project to expand educational program spaces and renovate the existing building of Mount Hebron High School. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Operating Budget Impact

Annual Bond Redemption \$ \$1,487,475

Justification

The original building was completed in 1965 and required updating to align with current education standards.

Remarks

1. Project contracts awarded in the Spring of 2009 and Phase I of the project was completed in August 2010.
2. \$5 million from this project's prior appropriations has been transferred by amendment to the Phelps Luck Elementary School Renovation project (E1026).

Project Schedule

- July 2007 - December 2008: Planning: Finalizing Construction Documents.
- October 2008 - December 2008: Installation of Two Temporary Modular Classrooms complete.
- March 2009 - August 2010: Phase I - New addition complete.
- June 2010 - August 2010: Phase II - 9th grade wing/cafe renovations complete.
- June 2010 - November 2010: Phase III - 2nd story science wing renovation.
- June 2010 - June 2011: Phase IV - Remainder of 2nd story renovation.
- January 2011 - June 2011: Phase V - Existing North side single story renovation.
- June 2011 - November 2011: Phase VI - Existing East side single story, main entrance, canopy, administration, parking, bus loop renovation, concession stand.
- Construction complete.

Project Status :

\$32,933,705 spent and encumbered through February 2015

Construction complete.

Description

A project to expand the existing Running Brook Elementary School to provide capacity which will serve enrollment growth in the Columbia West and Southeastern Regions. This project will provide 100 seats of additional classroom space and additional core infrastructure space necessary to operate effectively at the larger capacity. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Significant enrollment growth is projected in the Columbia and Southeastern Regions. Available capacity in this region, as well as adjacent regions, is not sufficient to absorb long-term projected enrollment growth. Without the addition, Running Brook ES was projected to exceed 110% capacity utilization in 2019.

Remarks

Project Schedule

August 2012 - April 2013: Planning.
June 2013 - August 2014: Construction.

Operating Budget Impact

Annual Bond Redemption \$ \$32,130

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project Status :

\$4,610,934 spent and encumbered through February 2015

Construction complete.

Description

A project to construct a new maintenance/warehouse facility which will be developed taking the county requirements into consideration. The existing maintenance facility will be used by the Harriett Tubman Foundation for a cultural and educational facility. The warehouse now occupies rental space. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Operating Budget Impact

Annual Bond Redemption \$ \$49,500

Justification

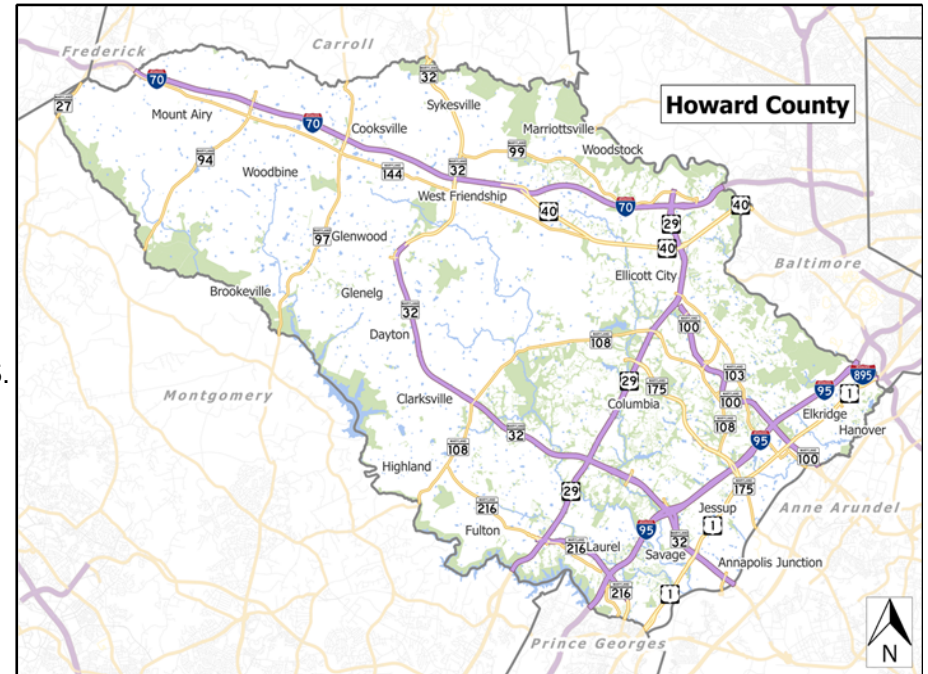

The existing maintenance and warehouse facilities are too small to handle the current maintenance staff and work load requirements. A permanent Howard County Public School System owned space where these functions can be housed together is more economically justified.

Remarks

1. Per FY2016 Capital Budget, this project has been deferred indefinitely.
2. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

Project Schedule

- January 2012 - April 2017: Site Selection and Acquisition.
- July 2017 - June 2018: Design.
- July 2018 - August 2019: Construction and Equipment Installation - Phase I.
- July 2019 - August 2020: Construction and Equipment Installation - Phase II.

Ongoing.

Description

A project to renovate the existing Northfield Elementary School and provide additional classroom and core infrastructure space. Interior spaces were reconfigured as needed. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

The original building was built in 1968. It required updating to align with current educational standards and accommodate future enrollment growth.

Remarks

1. \$618,000 was appropriated in FY2008 in Systemic Renovations for the partial design of this project.
2. This was executed as a year long project versus a nine-week summer renovation and the design goal is to achieve LEED (Leadership in Energy & Environmental Design) Silver certification. This is the school system's first LEED building and demonstrates our commitment to Green Certified building practices.

Project Schedule

- July 2007 - June 2009 - Planning.
- July 2009 - May 2011- Construction and Equipment Installation.
- March 2012 - Commissioning complete.

Description

A project for the replacement of two existing recirculating sand filter systems with one consolidated waste water treatment facility that will serve both Triadelphia Ridge Elementary and Folly Quarter Middle Schools. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Operating Budget Impact

Annual Bond Redemption \$ \$180,000

Justification

The Groundwater Discharge Permit covering both systems serving Triadelphia Ridge ES and Folly Quarter MS has been reissued effective 10/1/08 with an expiration date of 9/30/13. While the Total Nitrogen limit is set at 20 mg/L for the current permit (previously there was no nitrogen limit), Maryland Department of the Environment has advised that their intent will be to set limits at 8 mg/L for the subsequent renewal. This 8 mg/L limit requires a level of treatment that the recirculating sand filters at each of the two schools are not capable of achieving.

Remarks

- 1. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

Project Schedule

August 2010 - March 2011: Planning/Design.
 June 2011 - December 2012: Construction complete.

Construction complete.

Description

A project to expand educational program spaces and renovate Atholton High School. Interior spaces will be reconfigured as needed. The project will partially address deficiencies in educational program space which were identified in a recent facilities assessment survey. New spaces will be added as required. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

The recently completed high school facility needs assessment documented the necessity for this renovation.

Remarks

1. The original building was constructed in 1966. It requires updating to align with current educational standards.

Project Schedule

- July 2010 - March 2012: Planning.
- May 2012 - April 2013: Phase I - New addition.
- May 2013 - December 2013: Phase II & IIA - Auditorium/media center renovations.
- January 2014 - June 1014: Phase III - 2nd floor science & classroom renovation, cafeteria addition.
- June 2014 - December 2014: Phase IV - Art and athletic renovations.
- January 2015 - June 2015: Phase V - Gym and administrative area renovations.
- June 2015 - August 2015: Phase VA - Parking, main entrance, and main mechanical room renovations.

Operating Budget Impact

Annual Bond Redemption \$ \$1,925,235

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Under construction.

Description

Nine of twelve high schools needed renovation of existing spaces to meet Code of Maryland Regulations (COMAR) standards for technical education. Each high school was evaluated individually. Three classroom/lab spaces for technology education are required at each high school: One production lab, one computer lab with bench-top machines and activity space, and one lab with approximately 12 computers, activity space and bench-top machines. At least one existing Business & Computer Management Systems (BCMS) lab, in each high school, can be designated as a future Tech Ed lab.

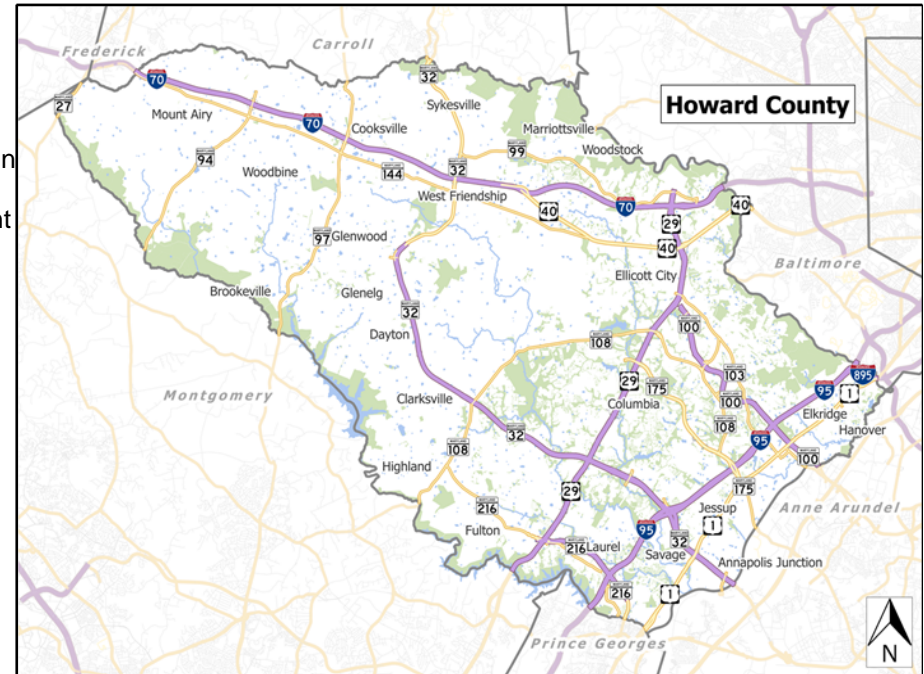

Justification

In October of 2005, the Maryland State Board of Education approved a change in COMAR requirements for high school Technology Education programs. Based upon COMAR revision, some of the existing HCPSS courses will no longer count toward a Technology Education credit after September of 2007 and a large number of students will transition from the BCMS courses to Technology Education courses during the next few years.

Remarks

Project Schedule

Complete August 2013.

Project: E1020-FY2011 NEW ELEMENTARY SCHOOL #41

SCHOOL SYSTEM PROJECTS

Number: E1020

Description

A project to construct a new elementary school to relieve the Northeastern and Northern regions. New Elementary School #41 was named Ducketts Lane Elementary School. The school was constructed in accordance with requirements set forth in the new elementary educational specifications and has a capacity of 600 students. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Without this project, the number of elementary students in the Northeastern region was expected to exceed capacity by 875 students in 2013. Capacity utilization in the Northeastern region is exceeding 100% through and beyond the long range planning period without this facility. Particularly acute concerns include Bellows Spring ES, Deep Run ES, and Elkridge ES, which will all be at 115% or more utilization in 2013. A school site on Ducketts Lane was acquired. The Board of Education approved redistricting for New ES #41 on November 15, 2012.

Remarks

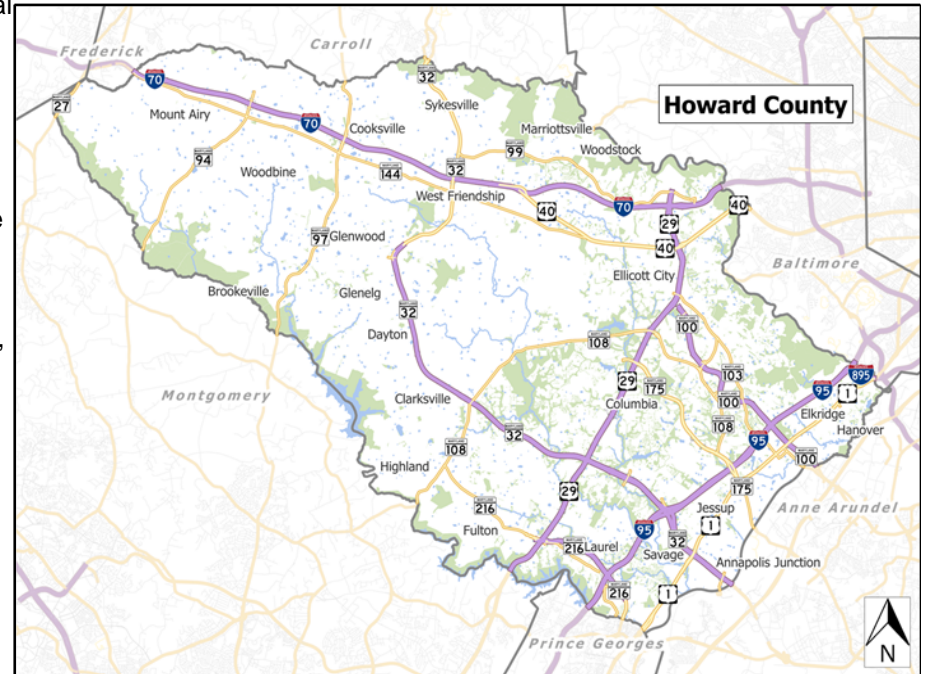

Project Schedule

Construction complete.

Description

A capital project to provide and sustain a viable technology infrastructure consistent with the HCPSS technology plan at various school sites.

Justification

Funds are required for continuous improvements and upgrades to the HCPSS network infrastructure and computer systems to ensure that instruction and business technology needs are met in a standard and equitable manner. Technology refresh programs, known as "Replacement Plans", have been established to ensure that all HCPSS students and school-based staff are equipped with the appropriate computing and network resources. The Replacement Plans are designed to ensure that these essential resources are kept at a standard for instruction and business operations.

Project Status :
\$25,498,643 spent and encumbered through February 2015
 Ongoing.

Description

A project to expand the existing Gorman Crossing Elementary School to provide capacity which served enrollment growth in the Southeastern Region. An existing design originally proposed in the FY04 Capital Budget was updated for this project. This project provided additional classroom space and additional core infrastructure space necessary to operate effectively at the larger capacity. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Operating Budget Impact

Annual Bond Redemption \$ \$152,415

Justification

Significant enrollment growth is projected in the Southeastern Region. Redistricting was approved for 2012, but available capacity in this region, as well as adjacent regions, is not sufficient to absorb long-term projected enrollment growth.

Remarks

- 1. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

Project Schedule

August 2011 - March 2012: Planning.
 July 2012 - August 2013: Construction Complete.

Fiscal 2016 Capital Budget

Project: E1023-FY2013 NEW MIDDLE SCHOOL #20

SCHOOL SYSTEM PROJECTS

Number: E1023

Description

A project to construct a new middle school to relieve the Northeastern and Southeastern regions in 2014. New Middle School #20 was named Thomas Viaduct Middle School. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Both Northeastern and Southeastern regions are oriented to the northern portion of Route 1 in Howard County where new residential growth has been planned. It is clear that existing capacity and redistricting alone cannot accommodate anticipated enrollment growth and a site has been secured within the proposed Oxford Square development. Since most of the need is focused in the Route 1 Corridor a single school may aid both regions.

Remarks

1. The Northeastern region includes Bonnie Branch MS, Elkridge Landing MS, and Ellicott Mills MS as well as Mayfield Woods MS.
2. The Southeastern region includes Hammond MS, Murray Hill MS, and Patuxent Valley MS.
3. Bellows Spring ES, Deep Run ES, Guilford ES, Ducketts Lane ES and Rockburn ES feed Thomas Viaduct Middle School.
4. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

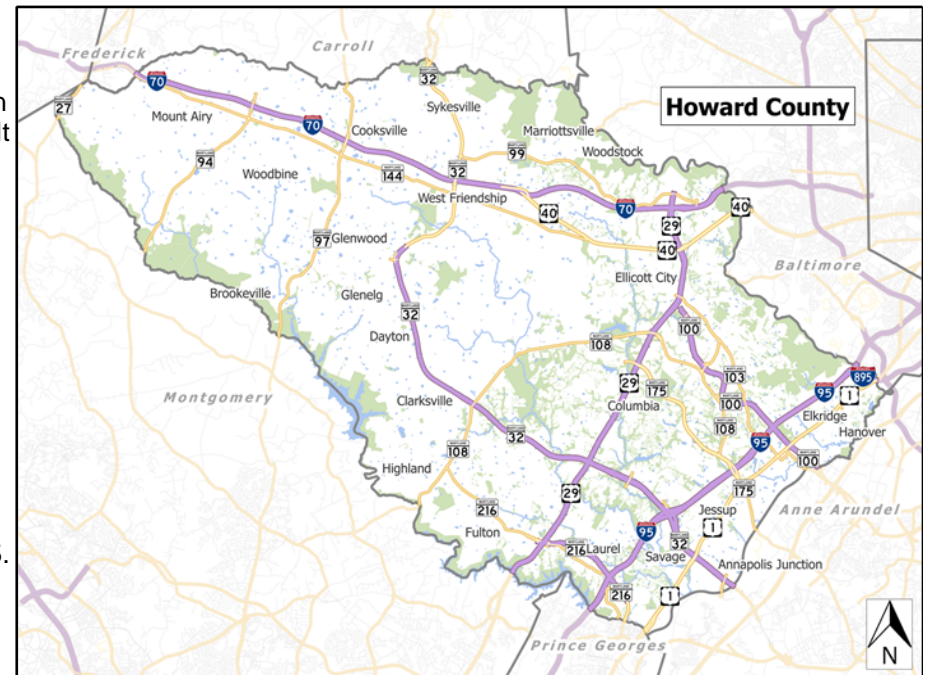

Project Schedule

August 2012 - January 2013: Construction Documents.
February 2013 - March 2013: Bid/Award Phase.
April 2013 - August 2014: Construction and Equipment Installation.

Operating Budget Impact

Annual Bond Redemption \$ \$801,225

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Project Status :

\$12,308,996 spent and encumbered through February 2015

Complete.

Description

A project to expand educational program spaces and renovate Longfellow Elementary School. Interior spaces will be reconfigured as needed. The project will partially address deficiencies in educational program space which were identified in a recent facilities assessment survey. New spaces will be added as required. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

The recently completed elementary school facility needs assessment documented the necessity for this renovation.

Remarks

1. The original building was constructed in 1970. It requires updating to align with current educational standards.

Project Schedule

July 2012 - September 2012: Updated Feasibility Study.
October 2012 - January 2014: Planning.
February 2014 - August 2015: Construction.
Work will be Completed in Phases.

Operating Budget Impact

Annual Bond Redemption \$ \$540,630

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Fiscal 2016 Capital Budget

Project: E1028-FY2016 NEW ELEMENTARY SCHOOL #42

SCHOOL SYSTEM PROJECTS

Number: E1028

Description

A project to construct a new elementary school to relieve the Northeastern and Southeastern regions. The school will be constructed in accordance with requirements set forth in the new elementary educational specifications and have a capacity of 600 students. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Without this project, the number of elementary students in the Northeastern and Southeastern regions is expected to exceed capacity by 1,643 students in 2019. Capacity utilization in the Northeastern and Southeastern regions is exceeding 100% through and beyond the long range planning period without this facility.

Description

A project to expand educational program spaces and renovate Deep Run Elementary School. Interior spaces will be reconfigured as needed. The project will partially address deficiencies in educational program space which were identified in a recent facilities assessment survey. This project will provide 100 seats of additional classroom space and additional core infrastructure space necessary to operate effectively at the larger capacity. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Significant enrollment growth is projected for the Northeastern Region. Deep Run ES and other schools in the region will be severely impacted by new development in the Corridor Activity Center zone along Route 1.

Remarks

- 1. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

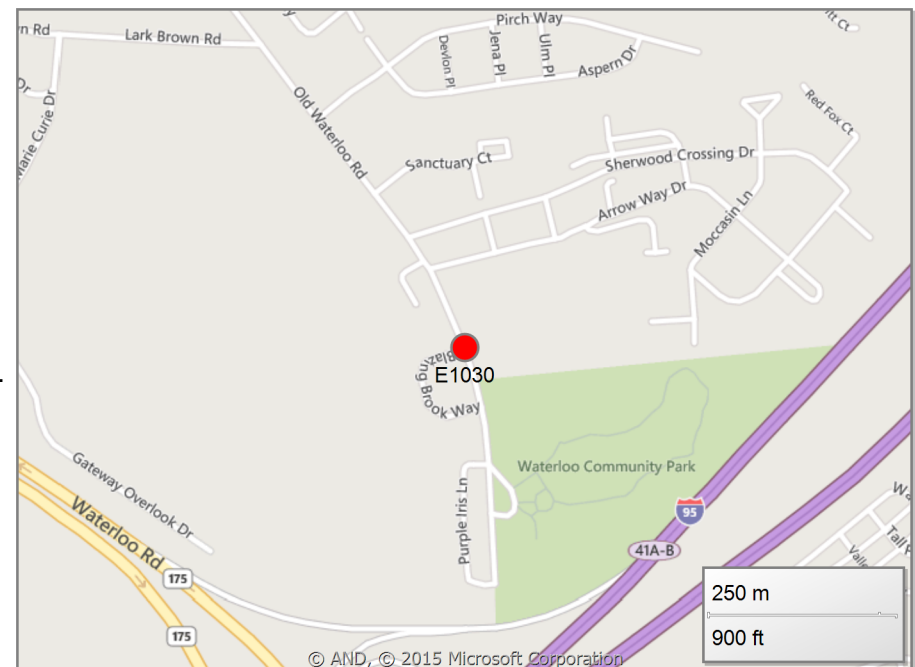

Project Schedule

September 2012 - April 2013: Feasibility Study.
May 2013 - June 2014: Planning.
September 2014 - November 2016: Construction.

Operating Budget Impact

Annual Bond Redemption \$ \$648,900

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Under construction.

Description

A project to replace Wilde Lake Middle School. The replacement school will provide capacity for 760 students. This building will be Net Zero and US Green Building Council (USGBC) LEED Certified. The building will be powered by solar voltaic cells on the roof. The architectural design is highly efficient considering building orientation, mass, and scale. The mechanical systems finely control electric lighting and HVAC and controls. These considerations position the new Wilde Lake Middle School to be the most energy conscious and efficient school in the state. Solar power will allow the net draw from the power grid over the course of a year to be zero. This kind of capital investment can defray operating expenses. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

The projected capacity utilization for the Columbia West region, as well as Wilde Lake MS, exceeds 110% 2014. This condition continues for the rest of the projection. A 2008 facility assessment concluded that the WLMS building had a net program area deficiency of 13.6 percent, the largest deficiency of educational program area of the 19 middle schools operating at that time. A subsequent feasibility study determined that the cost of an Americans with Disabilities Act (ADA) compliant renovation was comparable to a replacement.

Remarks

- 1. The original building was constructed in 1969.

Project Schedule

July 2014 - September 2014: Feasibility Study.
 October 2014 - October 2015: Planning.
 March 2016 - August 2017: Construction.

Operating Budget Impact

Annual Bond Redemption \$ \$1,392,930

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Description

A project to expand educational program spaces Laurel Woods Elementary School. This project will provide 100 seats of additional classroom space and additional core infrastructure space necessary to operate effectively at the larger capacity. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Future enrollment growth is projected. The approved 2012 redistricting plans acknowledged the need for additional capacity at Laurel Woods ES within the near term. Without the addition, Laurel Woods ES is projected to be above 110% capacity utilization in 2018.

Remarks

1. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

Project Schedule

July 2013 - May 2014: Planning.

Project Status :

\$2,500 spent and encumbered through February 2015 Planning.

Description

A project to construct a new high school to relieve the Northeast region. The school will be constructed in accordance with requirements set forth in the high school educational specifications and have a capacity of 1,615 students. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Without this project, the Northeastern and Southeastern regions are expected to exceed capacity by 2,671 students in 2024. Capacity utilization in the Northeastern region exceeds 110% capacity utilization and increases to 166% by 2024 without this facility. The Southeast region is projected to exceed 110% capacity utilization in 2017 and increases to 161% capacity utilization in 2024. A school site has not yet been acquired.

Planning.

Description

The Oakland Mills Middle School project will renovate the existing facility. The project calls for a limited renovation of the existing building in accord with recommendations of a future feasibility study or scope of work review. Renovation may include new electrical, mechanical, plumbing, technology, roofing, and life safety systems as applicable per the scope of work. Some interior spaces will be reconfigured, new finishes provided, accessibility improved, and new spaces added as required, bringing the facility into compliance with the Howard County Public School System Guidance Manual for Renovations and Modernizations of Existing Schools. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Oakland Mills Middle School opened in 1972 and was renovated in 1998. In August 2008, HCPSS engaged Gilbert Architects Inc. to conduct a facility assessment of middle schools. This project evaluated and scored each school according to the Council of Educational Facilities Planners, International (CEFP) appraisal guidelines. The assessment included reviewing each school's plan layouts and measurements of spaces to compare to the educational specifications developed by HCPSS for middle schools. The report concluded that Oakland Mills MS had 8.8 percent deficiency of educational program area. The FY 2016 capital budget introduces this project to the Capital Improvement Plan. In previous budgets, it was listed as a systemic renovation.

Remarks

\$0 spent and encumbered through February 2015

Planning.

Description

The Ellicott Mills Middle School project will add 156 seats of new capacity to the existing school. This project will include an addition and light renovation to ensure seamless operation of the expanded facility. The majority of existing walls will remain; therefore, most existing classrooms will remain as classrooms, though they will receive new finishes, cabinetry, doors, data, electrical and mechanical systems. The addition will be designed to retain use natural daylight. The cafeteria will be enlarged to meet educational program requirements. The mechanical system will likely utilize geothermal technology. The school should achieve USGBC LEED certification. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Ellicott Mills Middle School is the third iteration of the current middle school prototype and opened in 2001. The projections in the June 2014 Feasibility Study support the approved middle school capacity adjustments and the effort invested in redistricting. All middle schools in the Northeast were relieved of overcrowding by the opening of Thomas Viaduct MS, except Ellicott Mills MS. Redistricting scenarios using western capacity failed to resolve crowding and created unacceptable travel distances and unusually elongated attending areas. With these findings, planned expansion of Ellicott Mills MS was contemplated in the Feasibility Study. This project is a next logical step after study of middle school capacity and analysis of redistricting scenarios.

 Planning.

Description

The Planning and Design project has been established to provide funding for feasibility studies prior to the funding of individual projects. During the concept development stage, each project is summarized, supporting documentation is gathered, and necessary approvals are obtained before construction begins. A feasibility study provides the analysis to determine the scope and breadth of a project under consideration.

Justification

The value of these studies is having the flexibility to ask technical questions about projects before the formal design process. With these studies projects can be "right sized." Pricing for these studies is favorable because design consultants want to obtain the full design project. Through a feasibility study the Board of Education is able to examine the needs of an existing building as well as unexpected design circumstances. These studies ensure the selection of the most effective scope for each project. This process will reduce the costs associated with significant changes in scope which often occur in a compressed planning schedule. In the construction phase, the reduced number of change orders will lessen the impact on the construction schedule and decrease incremental costs.

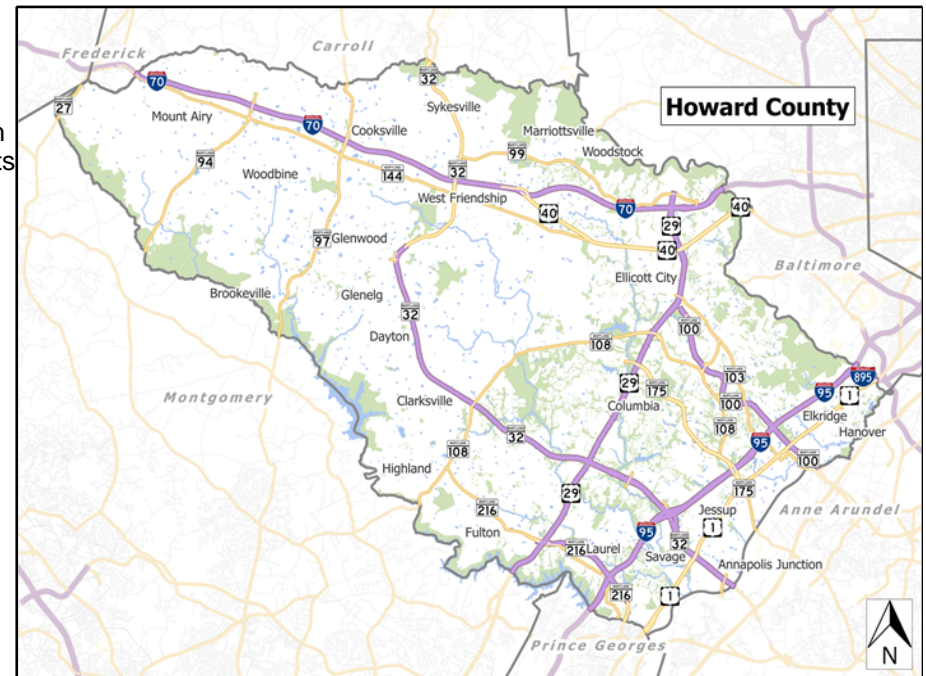

Remarks

Project Schedule

Proposed Feasibility Studies in FY2017:
 Hammond HS Renovation.
 Ellicott Mills MS Addition.
 Dunloggin MS Renovation/Addition.
 Talbott Springs ES Renovation.

Fiscal 2016 Capital Budget

Project: E1039-FY2020 NEW ELEM SCHOOL #43

SCHOOL SYSTEM PROJECTS

Number: E1039

Description

The New Elementary School #43 will be a new facility. The Southeast region is projected to be at 121% capacity utilization in 2023. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

The recently completed comprehensive zoning increased the entire housing projection this year by 996 units, most of which was in the East. New ES #42 will be built in the Northeast region at Oxford Square. The needs of the southeast region are evident in the projections of Bollman Bridge ES and Forest Ridge ES. The location of New ES #43 is to be determined. A location in close proximity to the planned Transit Oriented Development is desirable.

Fiscal 2016 Capital Budget

Project: E1040-FY2022 NEW ELEM SCHOOL #44

SCHOOL SYSTEM PROJECTS

Number: E1040

Description

The New Elementary School #44 will be a new facility. The Columbia West region is projected to be at 122% capacity utilization in 2025. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Running Brook ES (with expansion) is expected to exceed 110 percent utilization by 2016. A redistricting strategy alone, which uses nearby schools like Clarksville ES will not provide an adequate solution to accommodate the projected growth. Faulkner Ridge Center was closed on July 1, 2011. This site is a likely location for redevelopment as a future school.

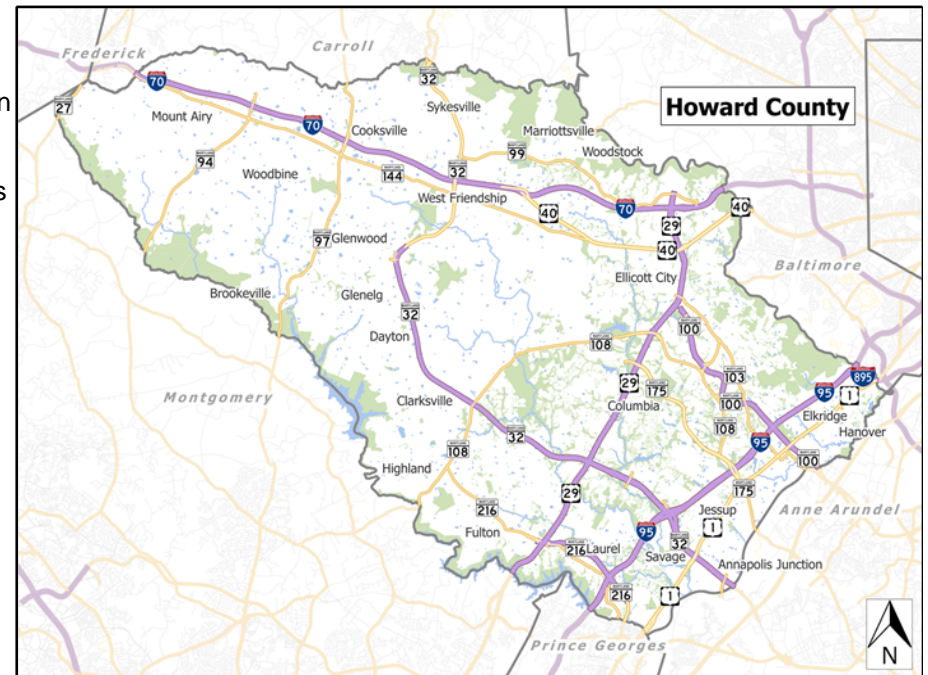

Remarks

Fiscal 2016 Capital Budget

Project: E1041-FY2023 NEW ELEM SCHOOL #45

SCHOOL SYSTEM PROJECTS

Number: E1041

Description

The New Elementary School #45 will be a new facility. The Northern region is projected to be at 132% capacity utilization in 2026. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

Projections continue to support the need for elementary redistricting to relieve overcrowding at Manor Woods ES associated with Turf Valley growth. The addition at Waverly ES can absorb some growth. Considering the limited potential for expanding schools outside of the sewer service area, a Turf Valley school is planned. Land is being acquired for this future school.

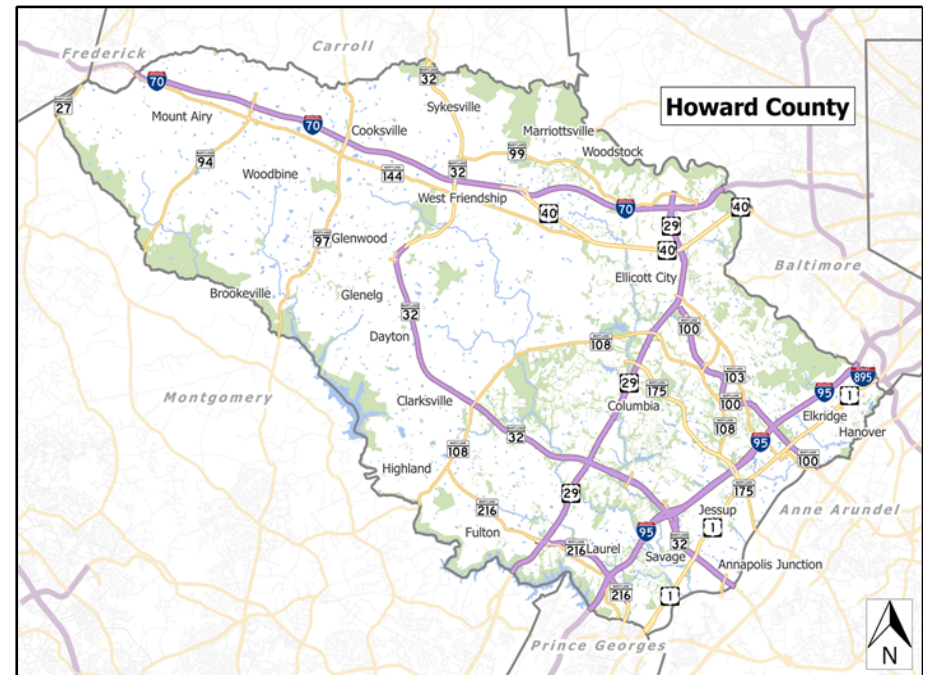

Remarks

Fiscal 2016 Capital Budget

Project: E1042-FY2025 NEW MIDDLE SCHOOL #21

SCHOOL SYSTEM PROJECTS

Number: E1042

Description

The New Middle School #21 will be a new facility. The Northeast region is projected to be at 128% capacity utilization in 2025. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

Justification

The opening of Thomas Viaduct MS in the 2014-2015 school year is a tangible reminder that growth is impacting middle school capacities as well. By 2025, three of five middle schools in Northeast region will have significant overcrowding. The same will be true for all three Southeastern region middle schools. Site acquisition efforts are underway.

Project: F5551-FY2004 BANNEKER FIRESTATION REDEVELOPMENT

FIRE PROJECTS and EQUIPMENT

Number: F5551

Description

A project for the design and construction of a new 30,000 SF fire station to replace the present obsolete Banneker Fire Station. This is considered a more cost-effective approach to meeting the present Banneker Fire Station requirements than to attempt to renovate, modify, and add to the existing facility.

Justification

The present fire/EMS station is more than 40 years old and is exceeding its useful life expectancy. The station is poorly laid out as a result of having numerous additions added over time, as the mission of the station changed, not necessarily in an efficient manner. Additionally, this station has the greatest demand on it of any station in the County, and thus should be placed in a location that enables the provision of service in an effective and efficient manner. Given that time is always critical in the mission of emergency services, equipment must be maintained at this location to be able to travel to the point of need in the shortest possible time.

Remarks

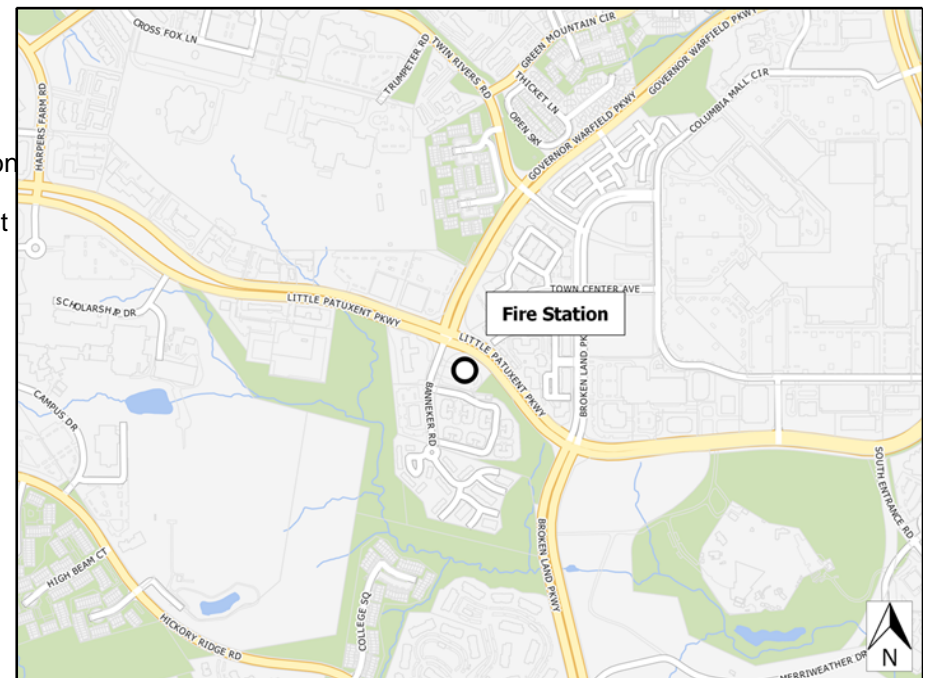

1. Based on recent Fire & Rescue Dept. analyses, this station needs to be increased in capacity to a six (6) bay (30,000 SF) station to meet present and future service requirements.
2. Prior Appropriation reflects TAO #3-2006.

Project Schedule

FY17 - A/E Selection; Design Initiated
FY18 - Design completed; Construction Initiated
FY18 - Construction Complete
FY20 - Project Close Out

FY01 - Selection of A/E commenced.

FY02 - A/E selected/design started.

FY03 - Phase I Design complete/Phase I construction underway.

FY04 - Phase I construction completed

FY05 - Phase II Design Completed

FY06 - Phase II bid/award, construction initiated; Phase III design/build initiated.

FY07 - FS#7 concrete apron & kitchen upgraded; FS#8 overhead door replacement, hose tower upgrade & emergency generator upgrade completed; FS#9 kitchen upgraded & canopy addition.

FY08 - FS#9 - Replaced roof-top HVAC unit; FS#7 renovated kitchen, bathroom & showers.

FY09/10 - Installed additional bathrooms/showers to the Banneker Fire Station, and replaced & re-piped the oil/grit separator for Fire Station #8

FY11/12/13 - Replaced existing 30 y/o HVAC system (#8); Repaired/replaced the bituminous paving aprons (#5); New data/tel wiring (#s 2 & 4); replaced roof (#8)

FY14 - Replaced the flooring in Fire Station #11; Replaced the Bay Doors on Fire Station#10 with state-of-the-art-bi-fold doors; Replaced the Bay heating system in Fire Station #10; Replaced the HVAC System in Fire Station #9; installed a Plymovent Exhaust System in the PSTC Fire Storage Bldg .

FY 15 and FY 16 planned work includes replacement of the bay doors at station 9, replacement of the floor finish at Station 5, the installation of CCTV at Stations 8 and 9, and the installation of electronic bulletin boards at several stations.

Fiscal 2016 Capital Budget

Project: F5962-FY2010 GLENWOOD FIRESTATION

FIRE PROJECTS and EQUIPMENT

Number: F5962

Description

A project to complete the community center service complex with a Fire/EMS station at Glenwood. The fire station will be economically co-located with the Library and Community Center in a County service complex and will provide for more timely emergency services to the area.

Justification

The Community Center, park, and fire station projects in addition to existing new library, are intended to provide western Howard County with consolidated government services in a "one-stop shop" area. This plan to consolidate locations meets the objectives of the General Plan.

Remarks

1. Land acquired through project N3100.
2. Library constructed by C0253.
3. Community Center constructed under C0291.
4. This project was recommended in the Fire and Rescue Facilities Study.
5. In the development of the Program of Requirement, it was determined that this project would require 9800gsf in lieu of the planned 7300gsf. Therefore, \$1M was added to this project and \$1M was deducted from F5973.
6. OTHER represents Pay as you Go generated from Fire Tax.

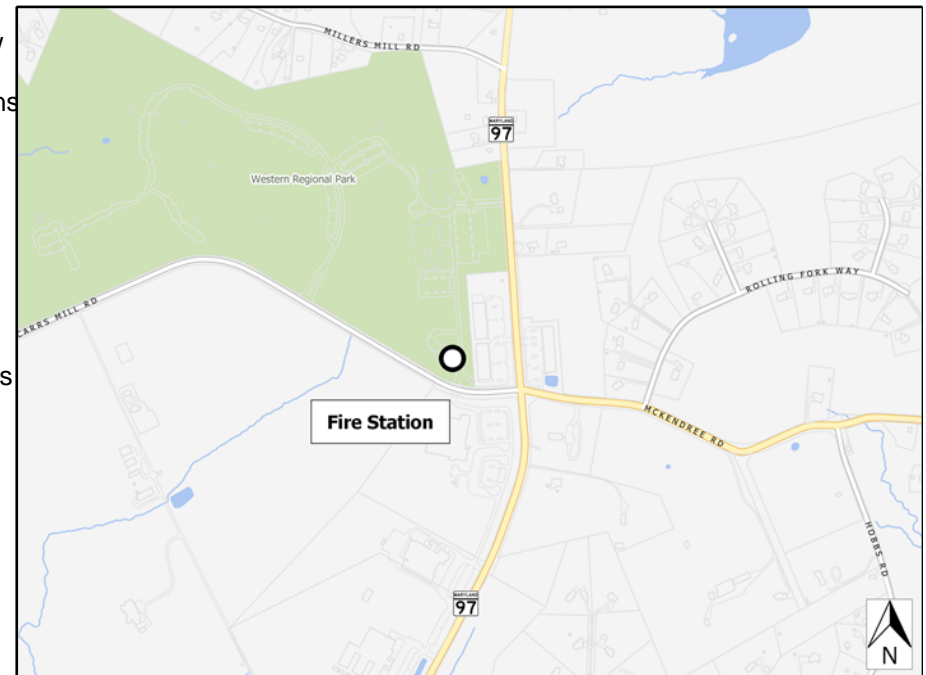

Project Schedule

FY16 - Begin construction waste water treatment plant with balance of funds.
FY17-open new project for waste water, and Project close out.

Operating Budget Impact

Annual Bond Redemption \$ \$103,725

Opening year Fire Department operation and maintenance costs will be \$ 1,495,000. Subsequent costs are projected to be \$628,000.

FY12/13/14 - Site & Building construction complete. Station fully operational. Still working on issue of MDE granting Groundwater Discharge Permit for entire Western Region Park/Fire Station/Community Center/Library

FY15 - Groundwater Discharge Permit was issued in July 15, with understanding that Howard County would take measures to reduce the amount of nitrates discharged into the ground. Study was performed to determine best means for reducing nitrates, which will require a local Waste Water Treatment Plant to be constructed in the park.

Total Funding	595	0	595	0	0	0	0	0	0	0	0	0	0	595

Project Status :

\$228,443 spent and encumbered through February 2015

Description

A project to move Fire Station #1 to a more optimal location in Elkridge, close to the existing fire station location, but without the present site restrictions. This project was recommended in the Fire and Rescue Facilities Study which was completed in FY04.

Justification

This project is required because the current fire station is old, deteriorating and inadequate to meet the growing demands of the local communities. The current site is insufficient to allow the necessary enlargement/improvement to the fire station. This project was recommended in the Fire and Rescue Facilities Study which was completed in FY04.

Remarks

- 1. A \$500k Grant from the State was awarded.
- 2. The project furnishings budget (\$150,000), within the Equipment and Furnishings budget line item (\$505,000), is to be executed under the control of the DFRS.

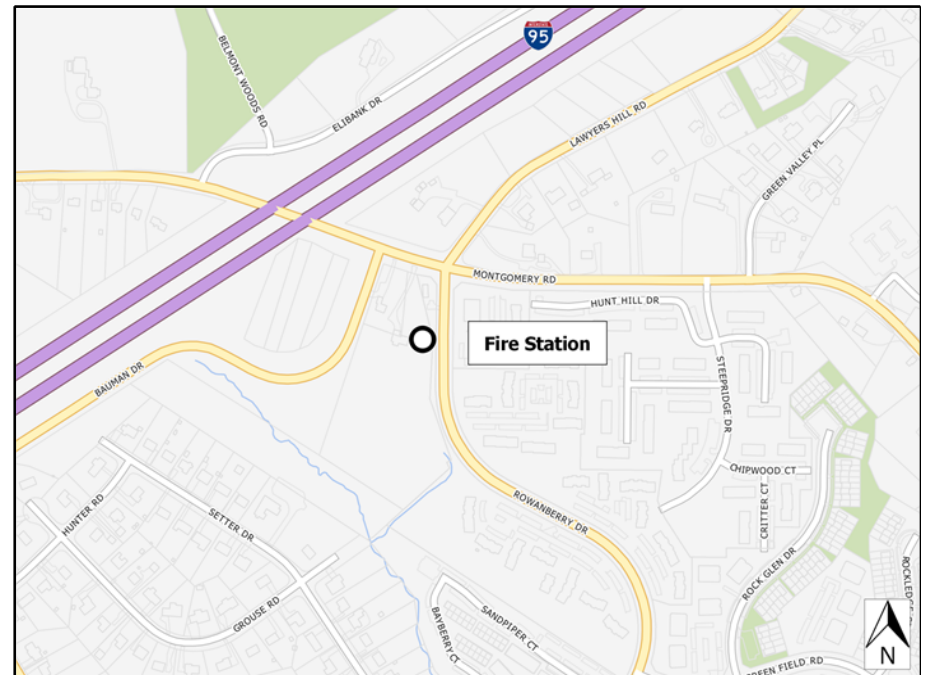

Project Schedule

FY16 - Construction completion and close out

Operating Budget Impact

Annual Bond Redemption \$ \$647,865

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~Station is cost neutral from the perspective of the operating budget since this is a relocation. There is no additional need at this time for new personnel or new apparatus to staff either station, though both facilities were built large enough for potential future growth should that be validated.

Fiscal 2016 Capital Budget

Project: F5968-FY2005 POND ACCESS PROGRAM

FIRE PROJECTS and EQUIPMENT

Number: F5968

Description

A project to develop new rural water source sites and perform maintenance of existing sites in the 5th District.

Justification

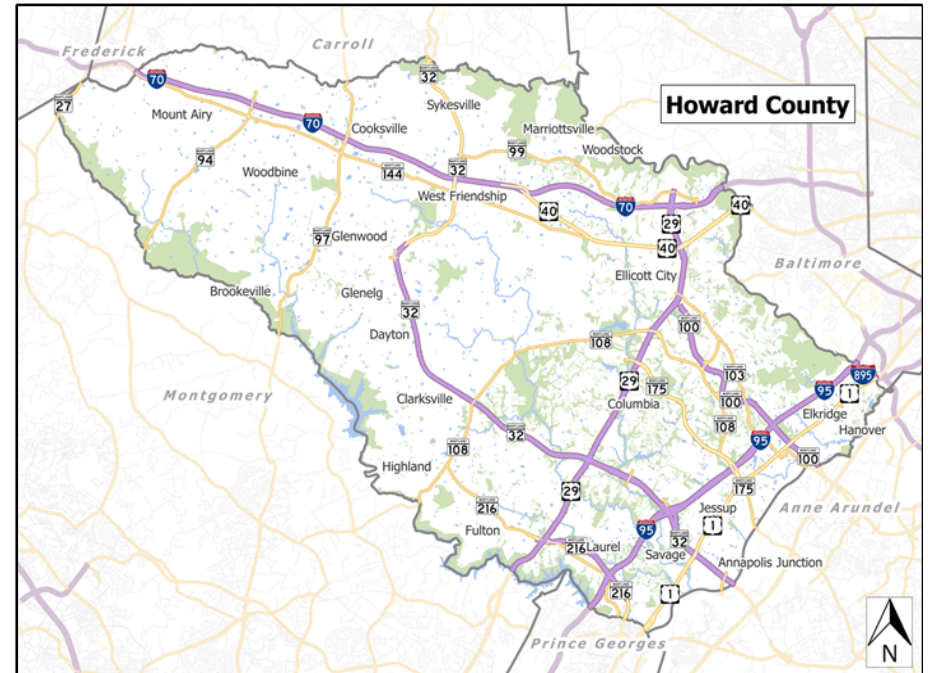

This project will provide standard water draw facilities (intake, piping, quick connections, etc.) on existing, strategically-located water ponds for fire fighting support in rural areas of the 5th District. Without such facilities, the time necessary to obtain and return firefighting water to the fire site is greatly increased.

Remarks

TAO #1 changes funding source of \$235,000 from Bond to Paygo, between project F5960.

Project Schedule

FY15 - Funds will be used for drought certification which will potentially lead to improved ISO rating. Maintenance continues.
FY16 - Project closeout.

Fiscal 2016 Capital Budget

Project: F5972-FY2008 RURAL FIRE PROTECTION PROGRAM

FIRE PROJECTS and EQUIPMENT

Number: F5972

Description

A project to provide and augment fire protection systems in rural areas within the County, outside of the Water and Sewer Planned Service Area.

Justification

Increased development in rural areas of the County has created a need for additional water tankers, upgrades to emergency response equipment and access to strategically located water sources. The results will help ensure that water supplies are in place to adequately respond to fire demands.

Remarks

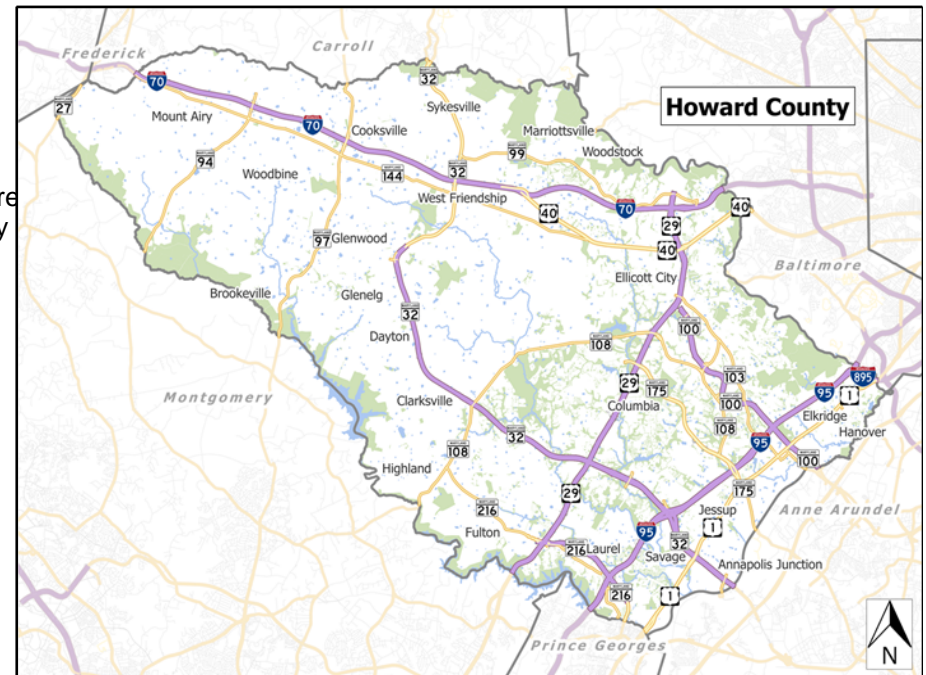

1. The project will install 5 to 10 emergency water supply systems per year for fire protection. It is anticipated that approximately 90 to 100 emergency water supply systems will be constructed under this capital project.
2. 24 cisterns have been installed and are operational.
3. The project will also upgrade or purchase new tankers and emergency equipment to ensure adequate response times to fire emergencies.
4. OTHER represents Pay as you Go generated from Fire Tax.
FY15 - Represents Financial revenue adjustment only requested by Finance/Budget Office.

Project Schedule

Ongoing project

Operating Budget Impact

\$5,000 per year represents the cost of operation and maintenance of the proposed emergency water supplies.

Fiscal 2016 Capital Budget

Project: F5973-FY2010 LOGISTICS FACILITY

FIRE PROJECTS and EQUIPMENT

Number: F5973

Description

Construction of a 17,000 SF facility to house the Department's Quartermaster, Breathing Apparatus Repair Shop, Equipment Repair Shop, Reserve Emergency Apparatus, Equipment Storage.

Justification

The Department of Fire and Rescue Services, Bureau of Logistics supports the delivery of emergency services by providing supplies, equipment and apparatus throughout the Department. This includes repair and maintenance of Self Contained Breathing Apparatus (SCBA) and the storage and readiness of reserve emergency vehicles. The Bureau currently delivers these services from four locations; Fire and Rescue Headquarters (Gateway Building), Dorsey Building, Public Safety Training Center and Fire Station 2. It is imperative that the four sites be consolidated into one centrally located location meeting the growing demands of both internal and external F&R customers.

Remarks

1. In FY11, \$1M was deleted from this project and moved to F5962.
 2. Based on an assessment by DFRS, a decision was made not to use this facility as a temporary Fire/EMS station, only a Logistics Facility.
- FY15 Working on access road agreement. Design Scheduled complete.
FY16 Construction Award
FY17 Construction complete and close out.

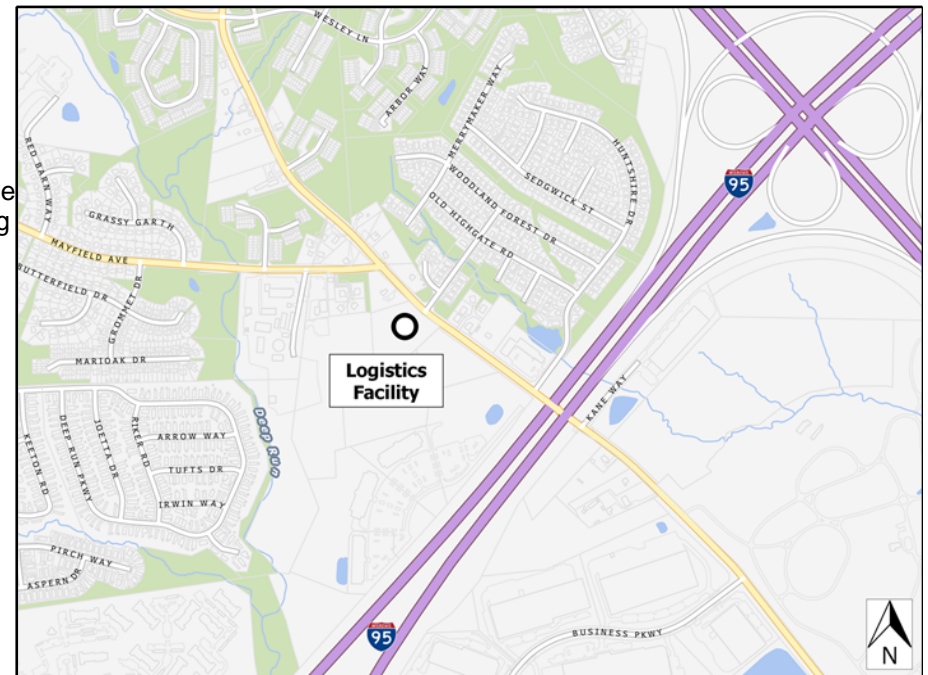

Project Schedule

- FY16 - project on hold for funding.
FY17 - Construction award.
FY18 - Construction Complete and Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$409,275

Cost neutral from the perspective of the operating budget. It will provide a central location for the key support services like the Quartermaster and BA Shop. Personnel will be relocated to operate and staff this facility from the Dorsey Building where they are currently located.

FY15 - Design Complete. Construction Cost updated to reflect rebound of construction market and some increases in project scope.

Fiscal 2016 Capital Budget

Project: F5975-FY2010 ROUTE ONE FIRE STATION

FIRE PROJECTS and EQUIPMENT

Number: F5975

Description

A project to construct a new 30,000 SF fire station at the intersection of RT1 & Port Capital Drive. Fire Station will be built on recently purchased County land and State-owned land that the County is presently in the process of acquiring.

Justification

This fire/EMS station is required to improve response times to a critically deficient geographic area of the County and prepare for additional demand along the Route 1 corridor and in association with BRAC.

Remarks

1. OTHER represents Pay as you Go generated from Fire Tax.

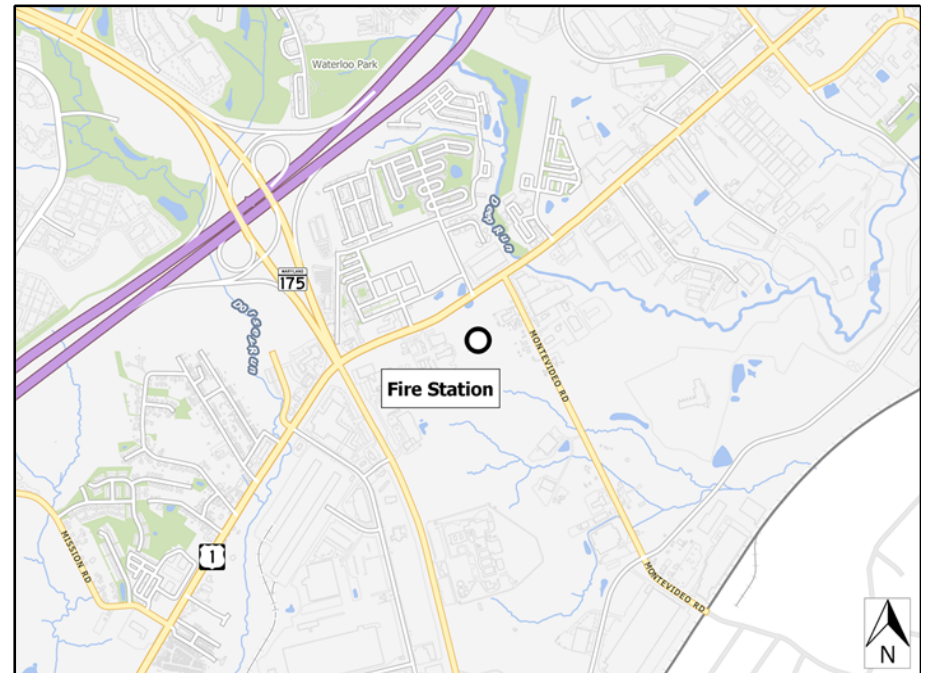

Project Schedule

FY16 - Project on hold for funding. FY17 - Bid/Award; Building Construction
FY18 - Construction completion; Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$563,625

The Department is in the process of reviewing data and deployment plans to make final decisions regarding the assignment of apparatus and staffing in the new station proposed. Minimally, the request will include be an engine staffed with four personnel 24/7 and a medical unit staffed with two personnel 24/7. Whether a second medic or a special service (a rescue squad, truck, etal) is needed will be determined following additional analysis. A complete overview of the anticipated operating impact information will be available next fall and provided with the Department's FY15 Capital Budget request.

FY12/13/14 - Design complete; ready for bid

Description

A project to accommodate replacement schedule of existing vehicles and the addition of new units.

Justification

Apparatus is replaced according to a vehicle replacement schedule, that considers age, condition, mileage and repair costs. Replaced units are normally moved to a reserve status, replacing older units which are either surplus or used for trade-in value. Reserve units are used to replace out-of-service units.

Remarks

- 1. OTHER represents Pay as you Go generated from Fire Tax.

Project Schedule

FY14 - Will now be funded from the Operating fund.

FY12 - 2 ambulances, 2 pumpers, 2 command vehicles, 3 OEM vehicles.

Description

A project to purchase essential equipment for use by emergency personnel. This includes new breathing apparatus (SCBA), cylinders and parts, continued upgrades to SCBA systems, firefighting equipment, computer upgrades, automatic vehicle locator systems (AVL), Hazardous Material detection equipment, collapse and water rescue equipment, training equipment, map books, etc.

Justification

SCBA parts and firefighting equipment require replacement and maintenance on a regular basis. Computer Aided Dispatch (CAD), GIS and other technology requires ongoing upgrades to existing systems. Special Operations equipment has a replacement program based on established guidelines.

Remarks

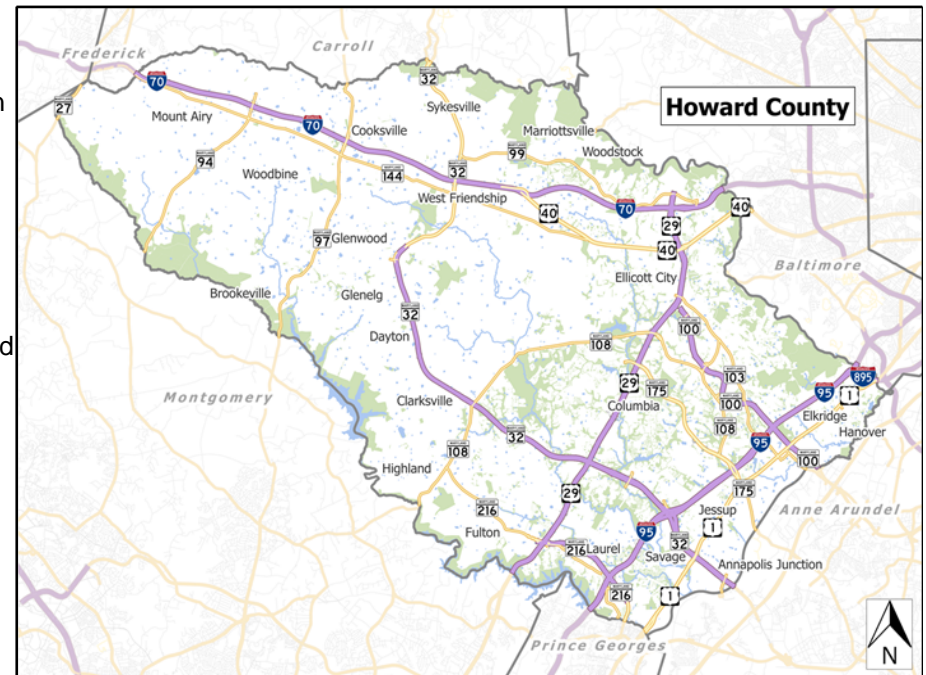

1. Prior year funding request represents SCBA upgrade to NFPA 1981, 2012 standard. SCBA for trainee class 27. New or replacement SCBA compressor and cascade fill-stations. SCBA FIT testing equipment replacement.
2. Replacement washer and dryer for stations 7 and 10 (commercial).
3. Replace vehicle map books (3 year cycle).
4. Install VOIP telephones (Stations 2,4,5,7, Logistics Facility).
5. Computer hardware and upgrades.
6. Class A/B foam replenishment.
7. Misc. furnishings and equipment for Station 13 and Logistics Facility

Project Schedule

FY14 - Will now be funded from the Operating fund.

Operating Budget Impact

There is no impact on the operating budget.

Project: G0163-AGRICULTURAL LAND PRESERVATION PROGRAM

AGRICULTURAL PRESERVATION

Number: G0163

Description

A voluntary program to preserve farmland by purchasing development rights from landowners via a perpetual easement. The objective is to support the agricultural community by keeping the land base available for farming by reducing residential development in agricultural areas. The program is funded by two main sources: County Real Estate Transfer Tax, 1/4 of the 1% transfer tax on all real estate sales are dedicated to the program and constitute the largest revenue source; and State Agriculture Transfer Tax, 33% of the 5% state tax on all farmland converted to non-farming uses retained by the County for purchase of development rights.

Justification

Gives farmers an alternative to selling land for residential development. Comprehensive zoning regulations adopted in September, 1992 include cluster development and ability to exchange density from one parcel to another (DEO). Preservation tools: purchase of development rights, dedication of easements on cluster remainders, DEO sending parcels. Development rights may be acquired by County's Agricultural Land Preservation Program or State's Maryland Agricultural Land Preservation Foundation (MALPF).

Remarks

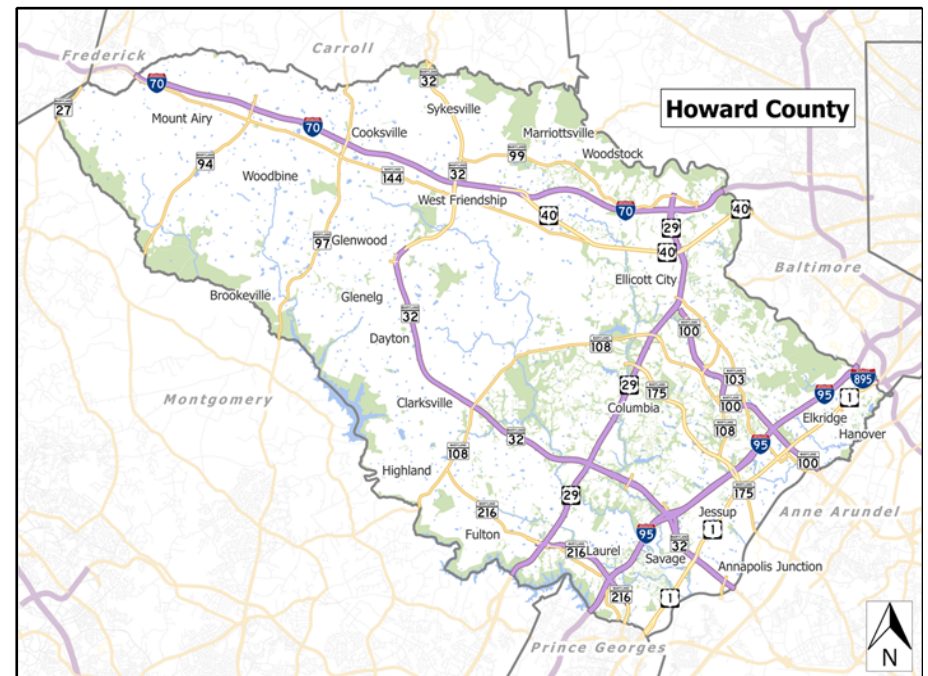

1. OTHER SOURCES represents authorization by the County Council to enter into installment purchase agreements to acquire development rights.
2. GRANT represents Federal Farmland Protection funds for MALPF easements.
3. All prior authorized funding was spent on Batch 14 acquisitions.
4. Additional spending authority was requested in the FY14 budget for the purchase of easements.

Project Schedule

FY 16 - New acquisitions anticipated.

Operating Budget Impact

Salaries/Benefits (3 employees), Contractual Services, Supplies & Materials, Business & Education Expenses, Other operating Expenses all = \$0.~One person serves as resource planner for program in Resource Conservation Division. No General Fund monies are used to fund.

Project Status :

\$119,931,556 spent and encumbered through February 2015

\$81,101,867 spent and encumbered through February 2013.

1. Project was first funded in FY91.

2. County Installment Purchase Agreement (IPA) Batches 1 - 9 spent initial allocation of \$55 million through 1997.

3. Allocation of \$15 million approved by County Council in FY01 budget.

4. County IPA Batch 10 - Purchased easements for \$2,475,090 on 400.5 acres in June 2002.

5. County IPA Batches 11 and 12 - Purchase of easements on approximately 465 acres approved by County Council, but no purchases were completed.

6. County IPA Batch 13 - Purchased two easements on approximately 218 acres in FY 08 for \$8,369,200. Purchased one easement on 35 acres in FY09 for \$893,000.

7. No FY 10 expenditures.

8. Remaining FY01 appropriation of \$3,262,710 was spent on first two Batch 14 properties which occurred in FY 11.

9. \$24,000,000 additional appropriation made available from FY 07 budget, and \$12,500,000 additional appropriation from FY 08 budget.

10. County IPA Batch 15 - \$8,153,290 of FY 07 and FY 08 appropriations was spent on the acquisition of 374 acres on 4 parcels in FY 11.

11. County IPA Batch 14 - 28,057,000 of FY 07 and FY 08 appropriations was spent on the acquisition of 793 acres on 3 parcels in FY 12.

12. Allocation of \$50 million approved by County Council for FY 14.

13. To date, \$4.1 million, in cash payments for 2 properties totaling 146 acres.

14. To date, \$5.34 million in IPA/Es for 3 properties totaling 182 acres.

15. To date, 6 other applicant properties in various stages of acquisition process for a total of \$13.7 million comprised of 425 acres.

Fiscal 2016 Capital Budget

Project: H2011-FY2013 MICRO SURFACING PROGRAM

HIGHWAY RESURFACING

Number: H2011

Description

A program of applying polymer asphalt emulsion or paving fabric over the existing surface of roads to provide an impervious new wearing surface. The coating contains high quality aggregate and mineral fillers that provide rut filling capability.

Operating Budget Impact

Reduce maintenance costs.

Justification

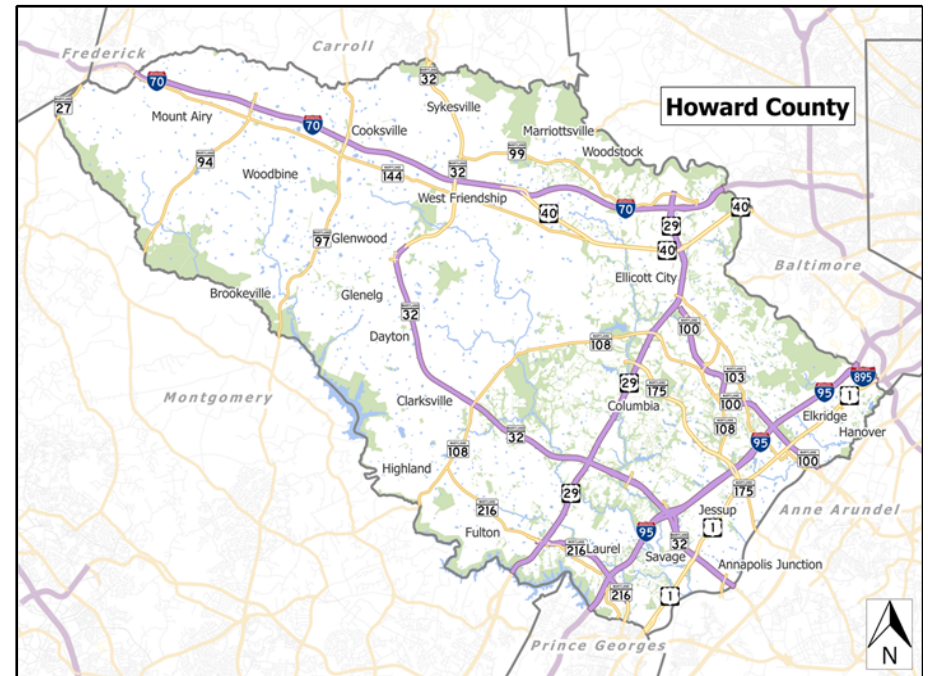

A surface endurance extension program to extend the useful life of the existing road, delaying the cost and need for complete resurfacing.

Remarks

1. Roads not completed this fiscal year will be completed in subsequent years.

Project Schedule

FY22 - Close at program completion.

Project Status :

\$3,496,117 spent and encumbered through February 2015

Description

A project to provide milling and repaving for various County facilities' parking.

Justification

To restore the load bearing structural integrity of the parking network which has failed. This project acts as a program to extend the useful life of the existing road and parking areas by complete resurfacing.

Remarks

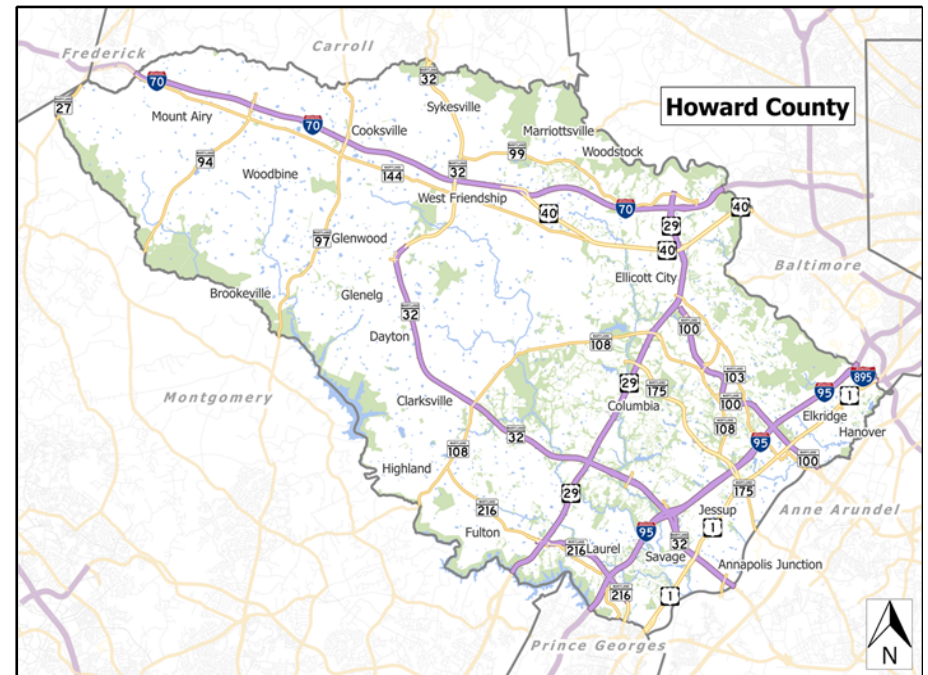

1. The select deteriorated areas must be deep milled/patched prior to the placement of the smooth travel surface materials.

Project Schedule

FY20 - Close at program completion.

Operating Budget Impact

Reduce maintenance costs

Fiscal 2016 Capital Budget

Project: H2014-FY2013 ROAD RESURFACING PROGRAM

HIGHWAY RESURFACING

Number: H2014

Description

A project to provide resurfacing to various County roads. The roads are selected and prioritized by the Road Surface Management (RSM) System. The RSM System rates roads based on the actual observed conditions of the road surface. Milling, patching, shoulder improvements, surface-seal, curbs, pavement assessment, and other road preparation work may be required. High visibility lane markers may be installed to improve driving conditions. Currently, County maintains approximately 1,060 miles of roads.

Justification

The roads are rated based on observation and maintenance history and are impartially recommended for a priority relative to the needs of all other roads in the County system.

Remarks

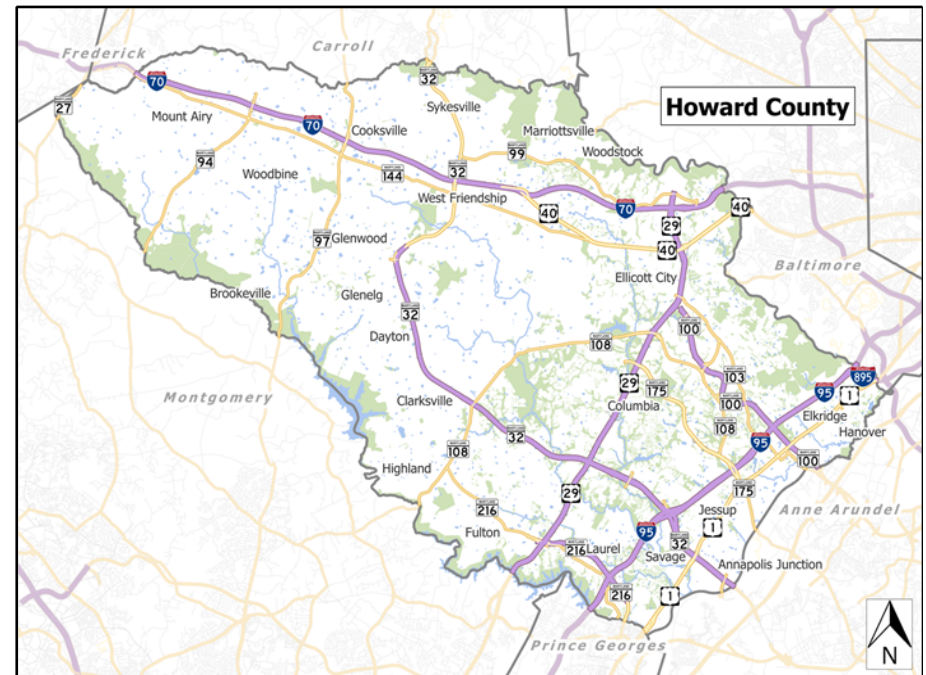

1. Roads not completed this fiscal year will be completed in subsequent fiscal years.
2. Recent cuts in the paving budget have led to increasing deterioration in the pavement and more costly rehabilitation is required.
3. TAO #2-2104.
4. FY15 - \$1.5M Paygo funding utilized for operating budget revenue shortfall.

Project Schedule

FY22 - Close at program completion.

Operating Budget Impact

Reduce maintenance costs

Project Status :

\$29,500,000 spent and encumbered through February 2015

Description

A program to provide roadway images and pavement data collection, perform pavement management repair assessment, consulting services for optimization of pavement repair recommendations, perform profile data International Roughness Index (IRI) and calculate Pavement Condition Index (PCI).

Justification

Current RSM System is 20 years old. A new pavement management system is needed due to the size of County network, and to make the best use of the limited paving budget

Remarks

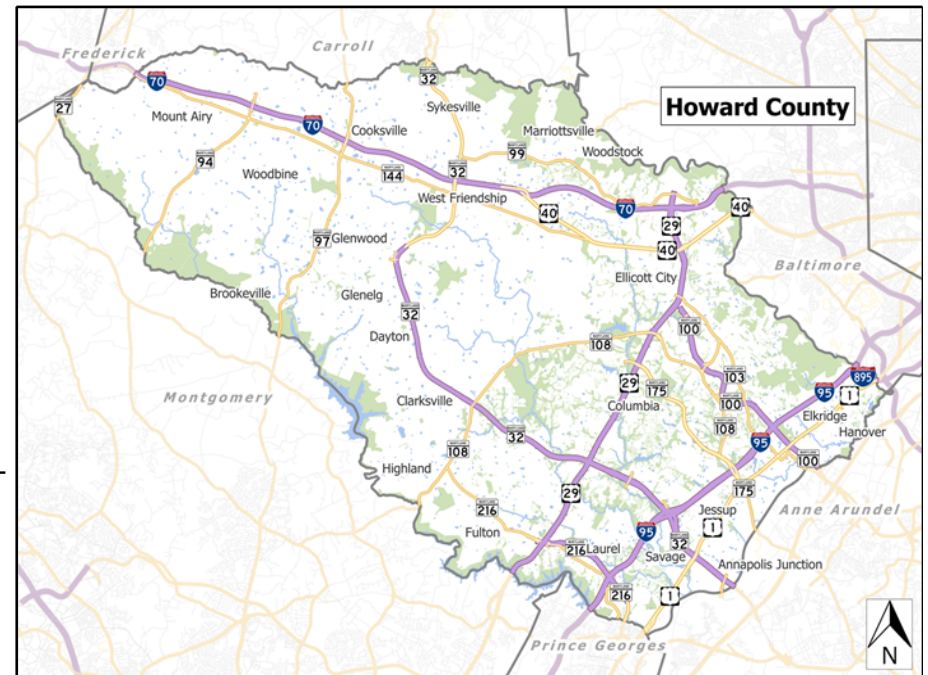

- 1. Roads conditions are worsening due to the lack of funding for pavement preservation.
- 2. The new system is expected to assist with fixed asset management.

Project Schedule

FY16-FY18 - 3D automated image data collections & processing. Pavement distresses assesment & validation. Hardware purchase & implementation. Right-of-way assets collections & processing.
FY20 - Program enhancements.

Operating Budget Impact

Reduce maintenance costs

Project Status :

\$386,200 spent and encumbered through February 2015

Description

A program to comprehensively address the removal and replacement of street trees.

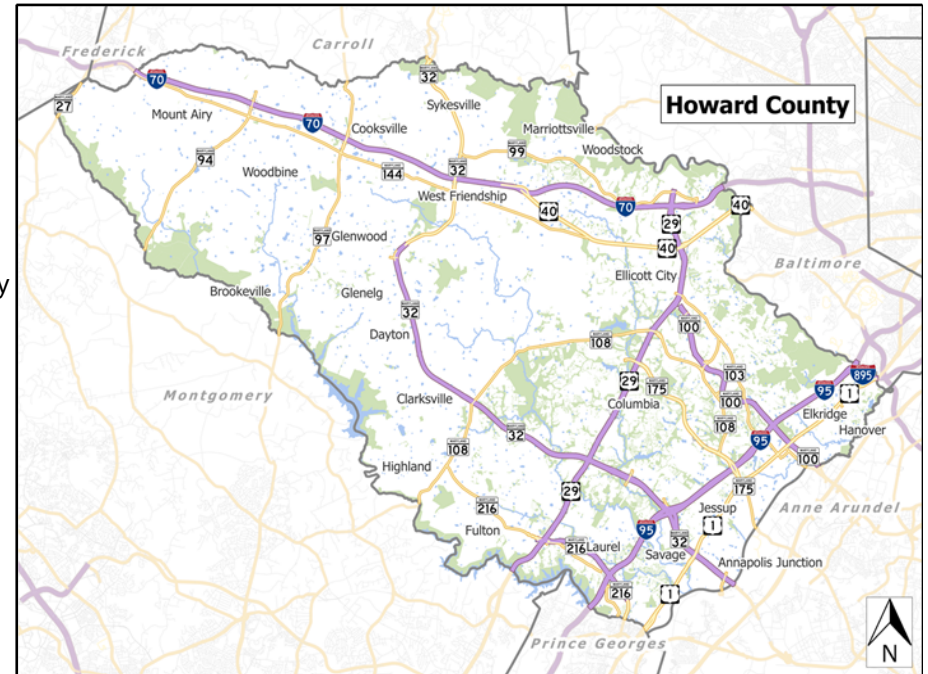

Justification

The County maintains approximately 230,000 street trees including approximately 20,000 Ash trees. The Emerald Ash Borer is in Howard County and the borer will kill every Ash tree in the County if nothing is done. The program will address Emerald Ash Borer by a combination of removal and replacement of infected trees and inoculation of high value trees. This program will also be used to remove and replace trees infected with other infestations.

Remarks

1. The Maryland Department of Agriculture issued a quarantine for Howard County on June 10, 2011 and expanded to all Maryland counties west of the Bay on July 11, 2011.
2. Administration costs in the first year will be used to update the Ash tree inventory.

Project Status :

\$0 spent and encumbered through February 2015

Description

A program to in-place reconstruct road base to various County roads. The roads are selected and prioritized by the Pavement Management System (PMS). The PMS rated roads based on American Society for Testing & Materials (ASTM) standard practices for pavement condition index (PCI) measurement.

Justification

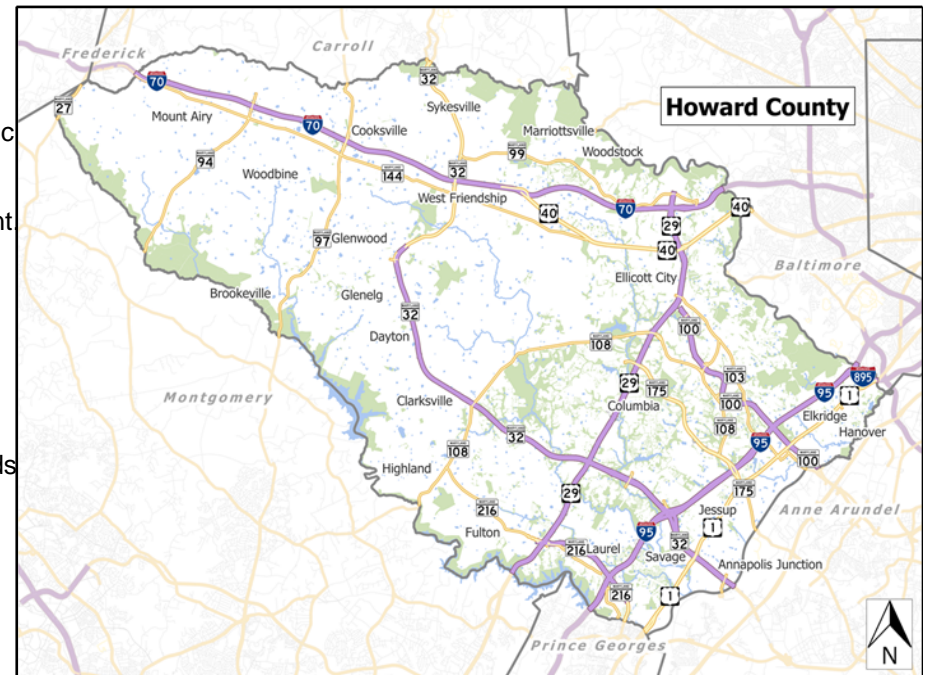

The selected and prioritized roads are based on observation and maintenance history from each maintenance shop. This program provides base course recycling through pulverization and rejuvenation processes. The roads constructed with less base course thickness could not undertake increased traffic road. Through base course recycling, the selected roads shall be reshaped for better road drainage and gain more strength with consistent depth in road bed. This program can be incorporated with resurfacing program for surface treatment. The treated road shall become more durable with longevity. This sustainable asphalt recycling reduces the costs for deep/patching, or/and road undercuts. Besides, this recycling process achieve the goals of carbon footprint reduction and reuse of valuable nature resources.

Remarks

The selected roads were beyond the ability of mill/patching. The road base needs to be restored prior to the road resurfacing. Coring of existing roads shall be performed before cold in-place process.

Project Schedule

Close at program completion.

Project Status :

\$0 spent and encumbered through February 2015

Description

A project to upgrade streets, curbs and sidewalks in established neighborhoods.

Justification

A program to resurface streets in conjunction with curbs and sidewalk replacement. Streets in this program will require less than total reconstruction and more than pavement preservation.

Remarks

1. Targeted streets will be chosen by the annual pavement inspection, by needed drainage improvements and by community request.

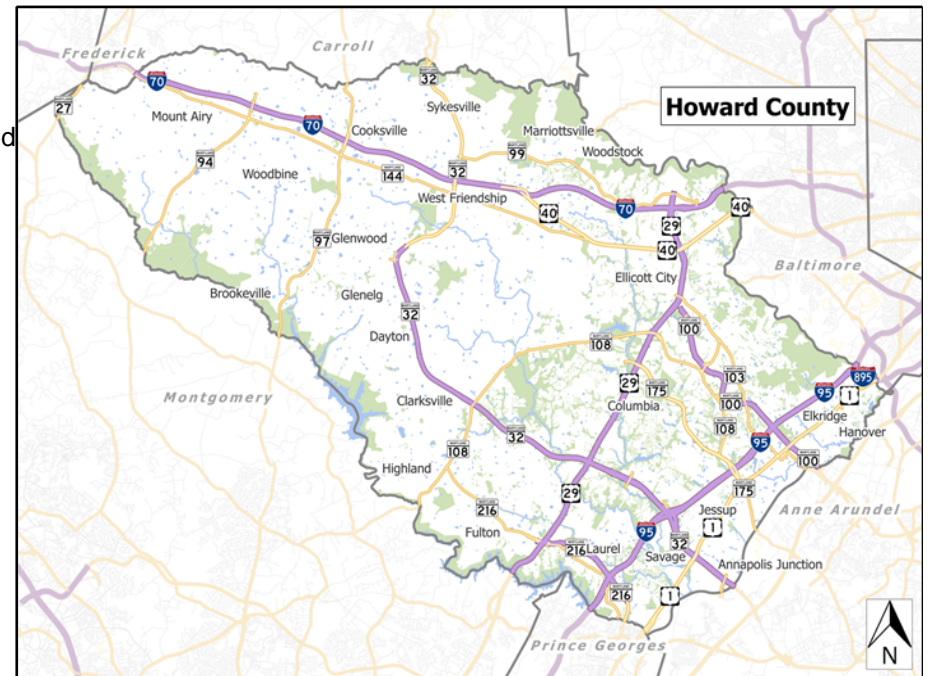

Project Schedule

Close at program completion.

Project: J4076-DEFAULTED DEVELOPER AGREEMENTS

ROAD CONSTRUCTION PROJECTS

Number: J4076

Description

An appropriation is requested under this project to construct roads, stormwater management, storm drains, street trees, or associated facilities where the developer has failed to build all facilities in accordance with the plans and Developer Agreement. Also included is the cost of administration and any additional engineering that may be required. This project is implemented as a revolving fund account. In the event that the collection of the cash or bond proceeds from the surety are delayed, expenditures from this project are authorized when the County determines that continuing delays in the completion of the public improvements will cause significant negative impacts to the residents and the subdivision and/or the environment.

Justification

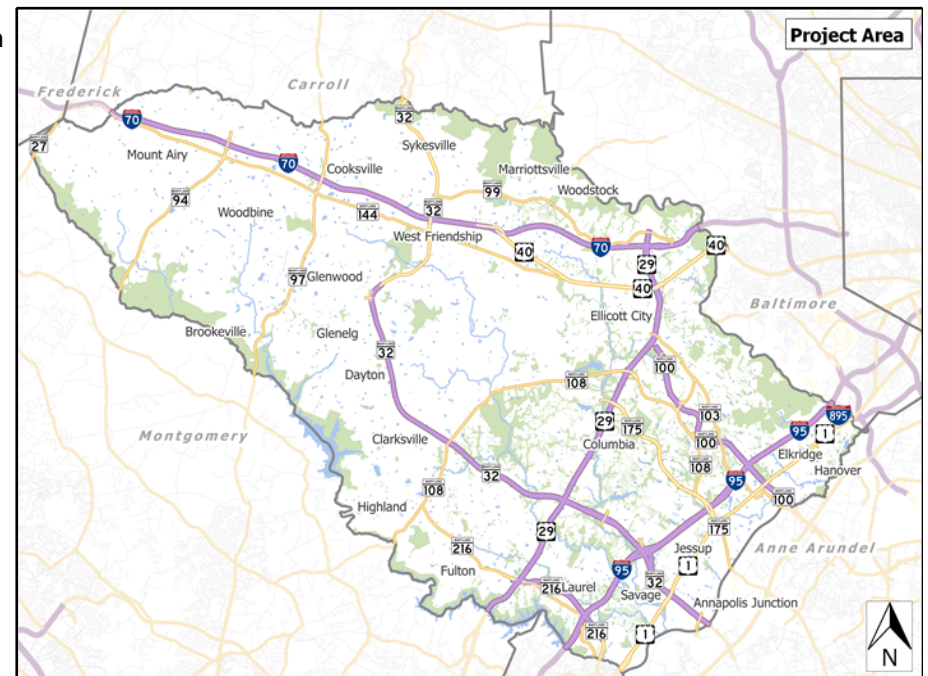

Upon developer's failure to complete construction, the surety of the developer is declared to be in default and the proceeds from the surety are placed in this account and used to finance construction.

Remarks

Construction as required. DEVELOPER CONTRIBUTION represent monies received from surety.

Project Schedule

Ongoing Program.

Fiscal 2016 Capital Budget

Project: J4099-CATEGORY CONTINGENCY FUND

ROAD CONSTRUCTION PROJECTS

Number: J4099

Description

The fund is designed for use as a revenue source for Transfers of Appropriation during a fiscal year. Fund is used when construction costs are higher than originally estimated, contributions from grants vary from projections, or an effort must be advanced from future years to the present fiscal year for critical program needs, or creating a new capital project; subject to Council approval.

Operating Budget Impact

Annual Bond Redemption \$ \$15,075

Justification

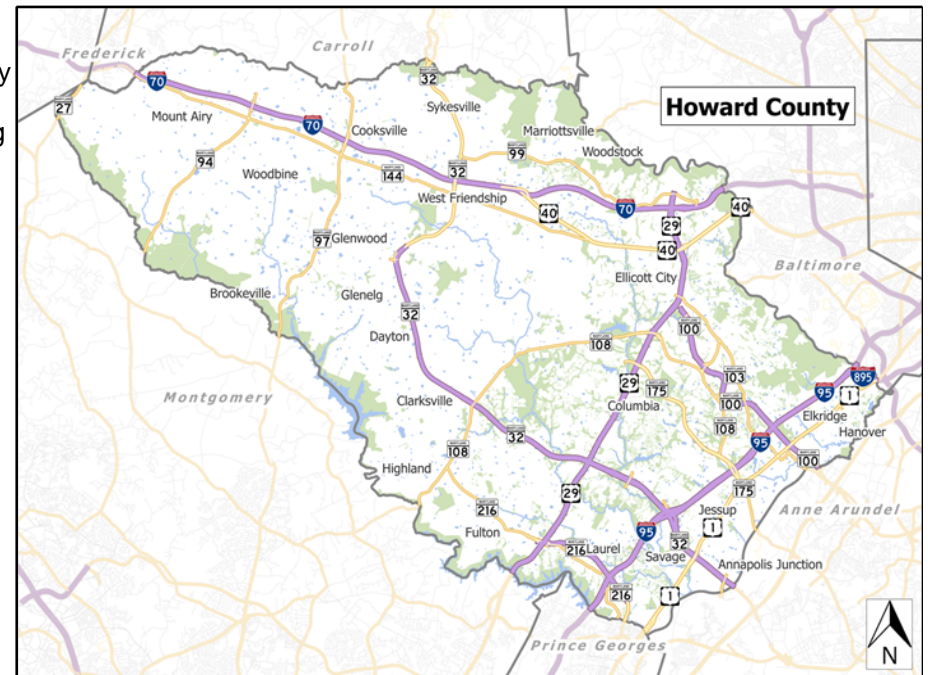

This fund will allow for the timely completion of approved projects by contingency funding as required with quick response to crucial situations. The fund is also needed to provide a buffer to the stringent bonding limits the County is operating under.

Remarks

The appropriation can only be drawn from for transfer purposes and does not represent the authority to spend.

Project Schedule

As Required.

Description

A project for design and construction of approximately 5,000 feet of Dorsey Run Road from Guilford Road north to the CSX railroad spur crossing. The 2000 General Plan classifies this section of Dorsey Run Road as a major collector. The improvements will be completed in two phases. Phase I from Guilford Road to Old Dorsey Run Road. Phase II from Old Dorsey Run Road to the CSX railroad spur crossing.

Operating Budget Impact

Annual Bond Redemption \$ \$218,745

Justification

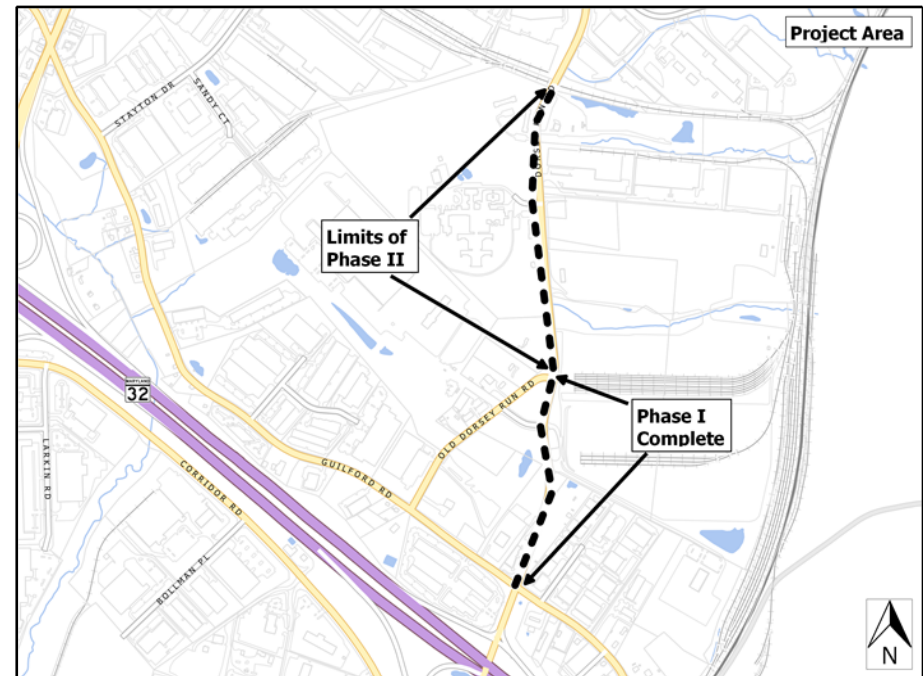

Provides improved access for all properties in the project area. Provides truck access to MD32 and sight distance improvements.

Remarks

1. GRANT represents State Secondary Aid Program.
2. OTHER represents Race Track funds.

Project Status :

\$4,617,142 spent and encumbered through February 2015

Phase I - Completed.

Phase II - Design and Land Acquisition completed. Utility relocation completed. Project advertised for construction bids.

Description

This project will provide for the reconstruction of private roads to bring them to a minimum standard for an all-weather roadway per Howard County Design Manual Volume III. The road being petitioned must: serve at least five houses per mile; be connected to an existing State or County road; and the signers of the petition must be owners of either 2/3 of the assessable frontage or be 2/3 of the owners of the property abutting the road. The road must be used for vehicular traffic prior to January 1, 1981 for eligibility for participation in this program, and cannot be merely a paper or a platted rights-of-way.

Justification

This project is necessary to implement Section 18.250 of the Howard County Code so as to provide citizens currently living along private roads an improved all-weather roadway. Project was first funded in FY92.

Remarks

1. Two-thirds of the cost of these roads will be shared equally by the property owners abutting the roadway.
2. The remaining one-third of the cost of this effort will be funded by this project.
3. OTHER funds represent residents contribution.

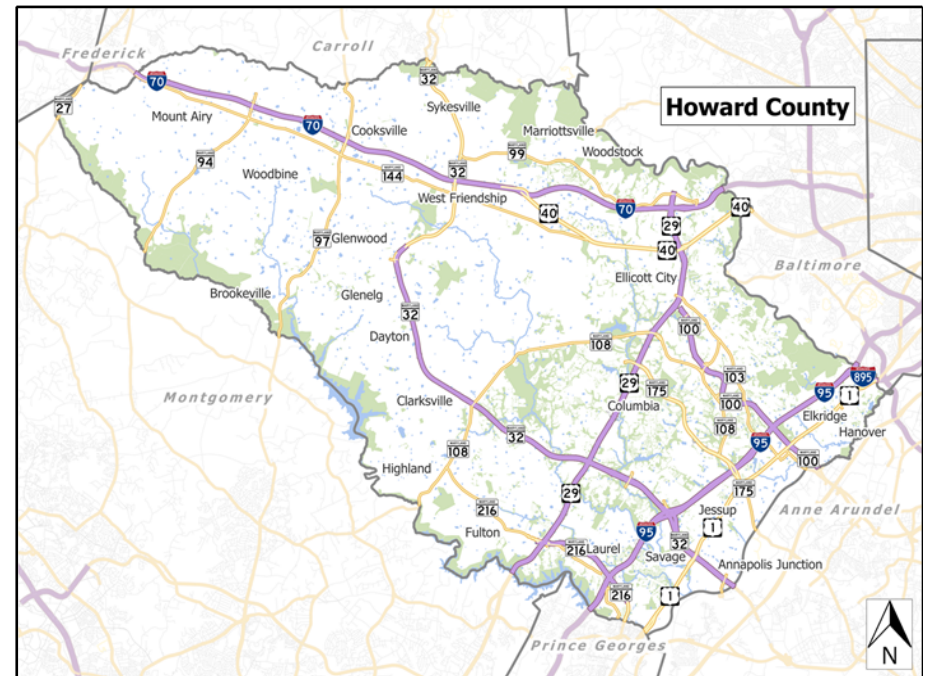

Project Schedule

Possible Annual Efforts:
 King's Gift Road Reconstruction (Inactive).
 Lisbon Farm Road Reconstruction (Inactive).
 Patapsco Ridge Road Reconstruction (Inactive).
 Unnamed Street Off Thompson Drive Reconstruction (Inactive).
 FY19 - Close.

Operating Budget Impact

Annual Bond Redemption \$ \$36,225

Adds \$ per mile to maintain on an annual basis.

Total Funding	828	0	828	0	0	0	0	0	0	0	0	0	0	828

Project Status :

\$234,853 spent and encumbered through February 2015

Description

Reconstruct Hall Shop Road (a major collector) at two locations to improve sight distance and eliminate a sharp curve.
 A. Guilford Road/Hall Shop Road intersection change to a 90-degree configuration.
 B. Curve south of Simpson Road (logmile 1.07) improve safety characteristics of road.

Operating Budget Impact

Annual Bond Redemption \$ \$100,890

Justification

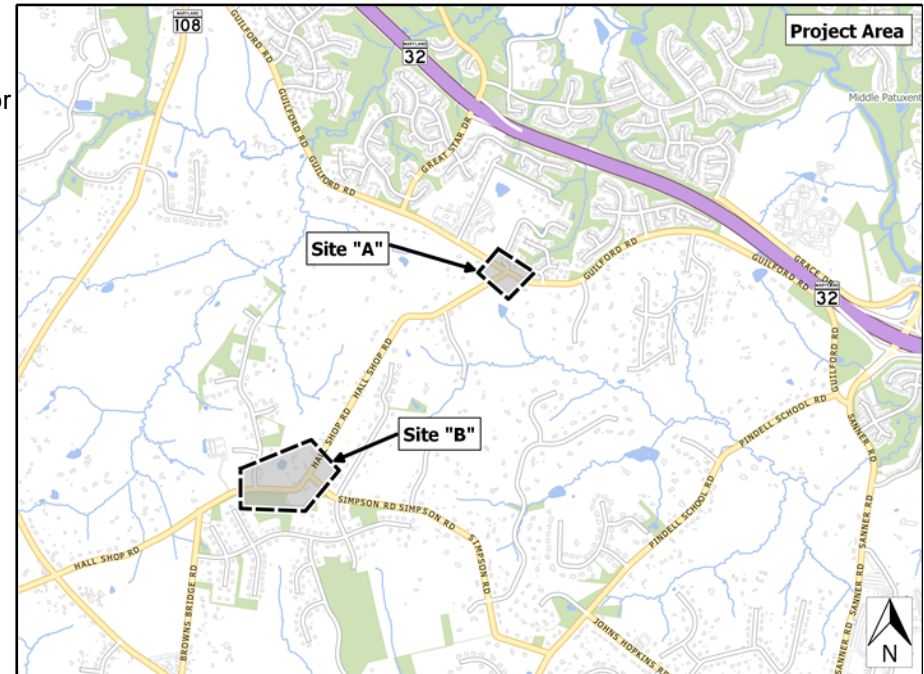

Correction is needed due to deficient horizontal curvature, poor sight distance for vehicles entering Guilford Road from Hall Shop Road, and poor sight distance along southbound Simpson Road, and poor sight distance for vehicles entering onto Hall Shop Road from Simpson Road.

Remarks

See also J4164 to improve intersection at Browns Bridge Road.

Project Schedule

FY16 - Land acquisition.
 FY17 - Construction.
 FY18 - Complete and close.

Fiscal 2016 Capital Budget

Project Status :

\$500,314 spent and encumbered through February 2015

Site A - Construction complete.

Site B - Re-evaluating scope of work due to land acquisition difficulties.

Description

This project is for the extension of Dorsey Run Road from MD103 to MD175, a total of approximately 3 miles. Dorsey Run Road is classified as a major collector in the Plan Howard 2030. Old Jessup Road will be partially closed at its intersection with the new Dorsey Run Road.

Operating Budget Impact

Annual Bond Redemption \$ \$1,218,960

Justification

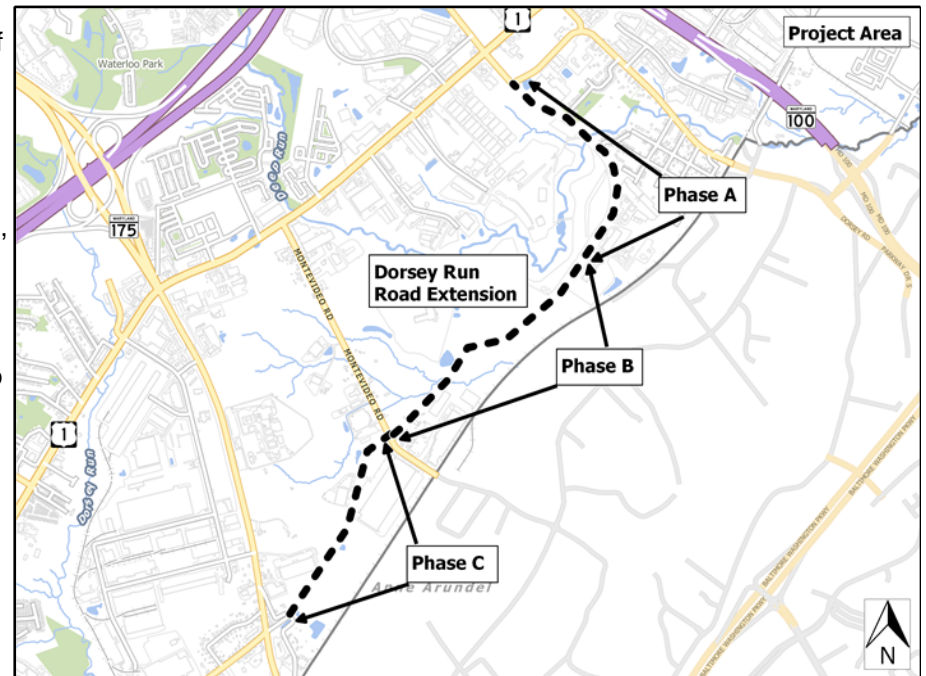

This project is the implementation of the Plan Howard 2030. The construction of the roadway will enable industrial properties to have access and develop their individual frontages in a coordinated manner.

Remarks

- 1. This project will be coordinated with J4182 (Dorsey Run Road Improvements), J4206 (Montevideo Road Improvements) and W8292 (Water Main and Sewer).
- 2. Construction will be phased.
- 3. GRANT represents Secondary State Aid Funds.
- 4. An agreement with adjacent property owner/developer coordinates construction of developer's improvements and requires developer contribution to the project for proportionate cost of the improvements.

Project Schedule

- FY16 - Continue construction of Phase B.
- FY17 - Complete construction.
- FY18 - Close.

Project: J4154-FY1998 RETAINING WALL REPLACEMENTS

ROAD CONSTRUCTION PROJECTS

Number: J4154

Description

A Countywide project for the design and construction of replacement or rehabilitated retaining walls. The walls are at various County locations in/out of the rights-of-way and vary in height and length.

Justification

These retaining walls require extensive rehabilitation/replacement which is beyond the scope of normal highway maintenance.

Remarks

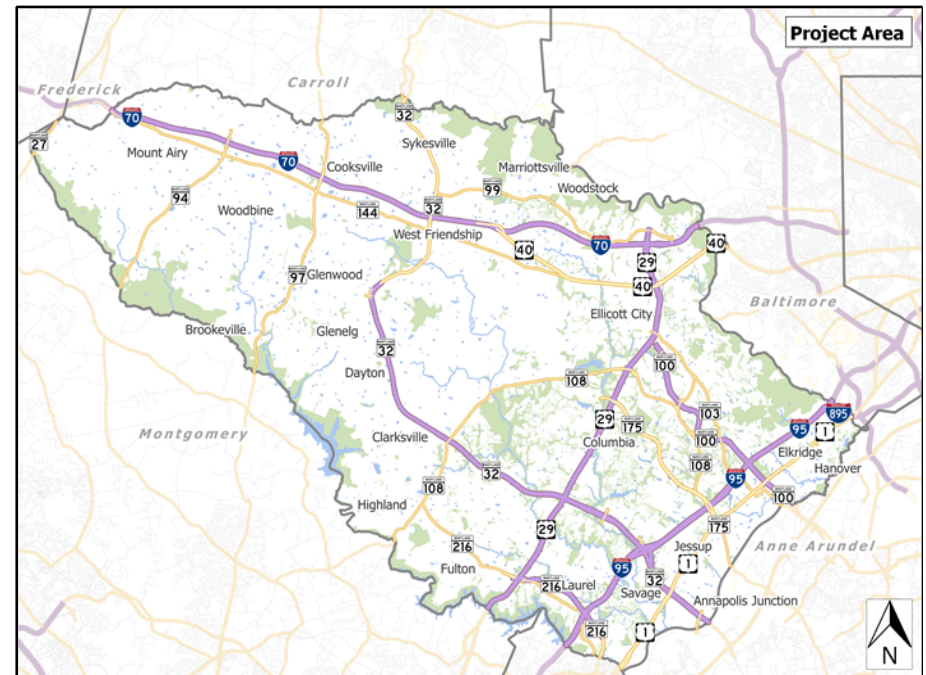

1. Project replaced by B3862.
2. Land acquisition requires park property.

Project Schedule

Program

Operating Budget Impact

Annual Bond Redemption \$ \$95,805

Project Status :

\$898,050 spent and encumbered through February 2015

Construction complete - Bonnie Branch retaining wall, College Ave at Ross Rd, Bonnie Branch Rd, St. Paul St, New Cut Rd (#1), and Old Columbia Pike.
 Land Acquisition in progress - Sylvan Ln.

Description

Reconstruct shoulders, replace guardrails and stabilize roadway embankment at numerous locations along 2.75 miles of Marriottsville Road between MD99 and the Carroll County Line (spot safety improvement).

Operating Budget Impact

Annual Bond Redemption \$ \$128,250

Justification

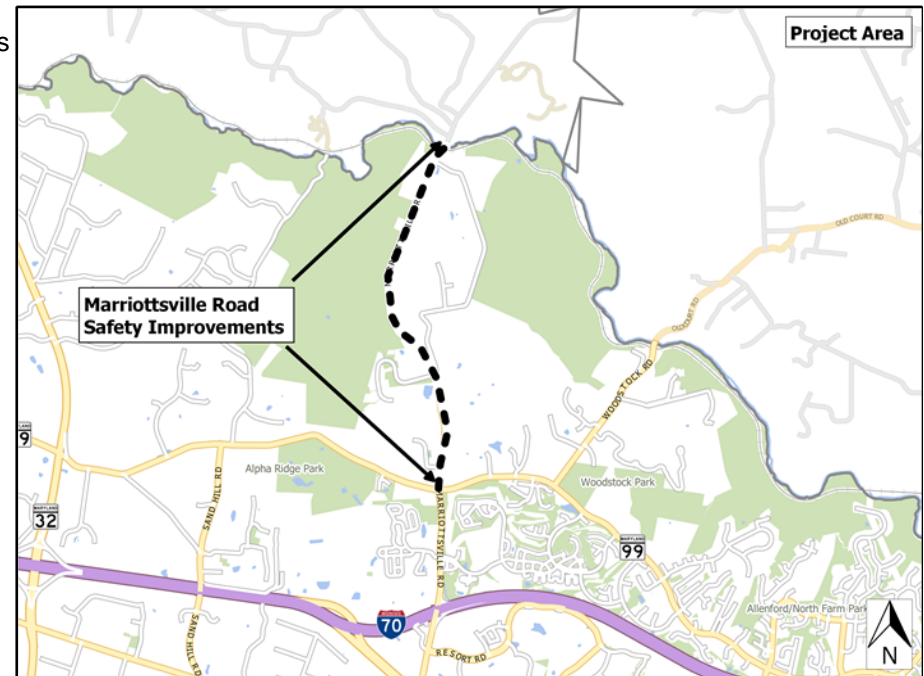

Requested by the Bureau of Highways. Marriottsville Road north of MD99 is classified as a minor arterial but is only a two-lane road. There are few shoulders and in areas the road embankment needs to be stabilized and the edge of paving reconstructed. The heavy traffic volume makes it difficult to maintain the road.

Remarks

1. This project will be coordinated with J4205.
2. Marriottsville Road north of MD99 is a Scenic Road .
3. The improvements will be in two phases. Phase 1 will be stabilizing the slope problem. Phase 2 will be the road improvements.

Project Schedule

- FY16 - Study & Design.
- FY17 - Slope Construction & Road Design
- FY18 - Road Design & Land Acquisition
- FY19 - Construction.
- FY20 - Complete & Close.

Project Status :

\$0 spent and encumbered through February 2015

Study in progress

Description

A project for the extension of Minstrel Way from Snowden River Parkway to Gerwig Lane. This will include approximately 600 feet of new roadway with associated drainage and landscape work.

Justification

The roadway connection is needed to improve access to the west end of Gerwig Lane and to relieve congestion at the Snowden River Parkway - Berger Road traffic signal.

Remarks

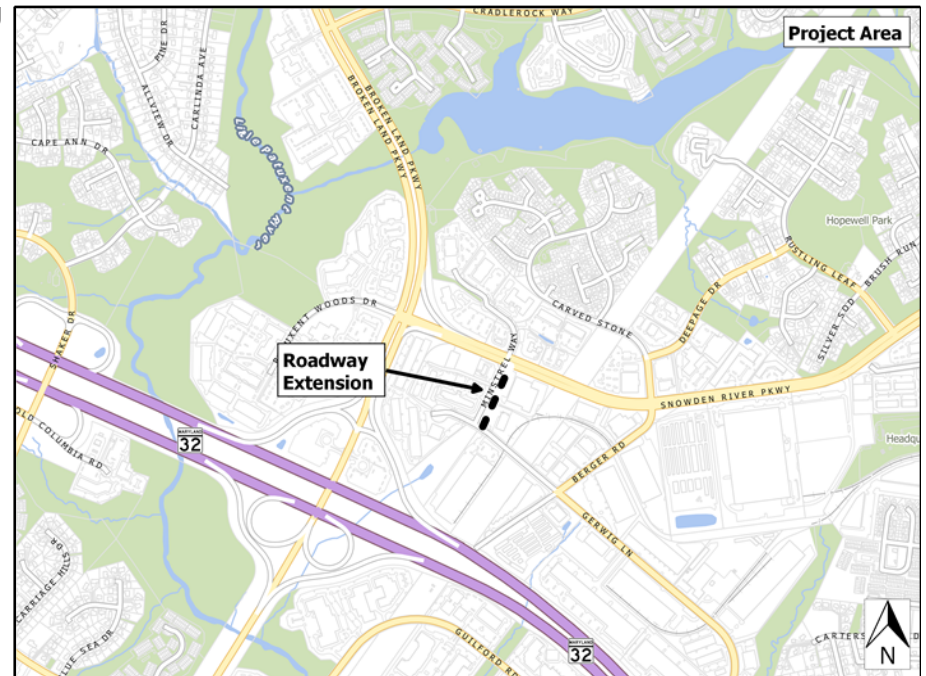

- 1. Recent commercial development approvals will provide for the developer to construct the road. The County will acquire the rights-of-way from the adjacent properties.
- 2. This project may be used as a funding source for public improvements constructed by others under an agreement approved by the County Council.

Project Schedule

FY16 - Close.

Land acquisition complete. One half of road constructed.

Description

A project to provide increased capacity and safety of various County roads and intersections.

Operating Budget Impact

Annual Bond Redemption \$ \$198,270

Justification

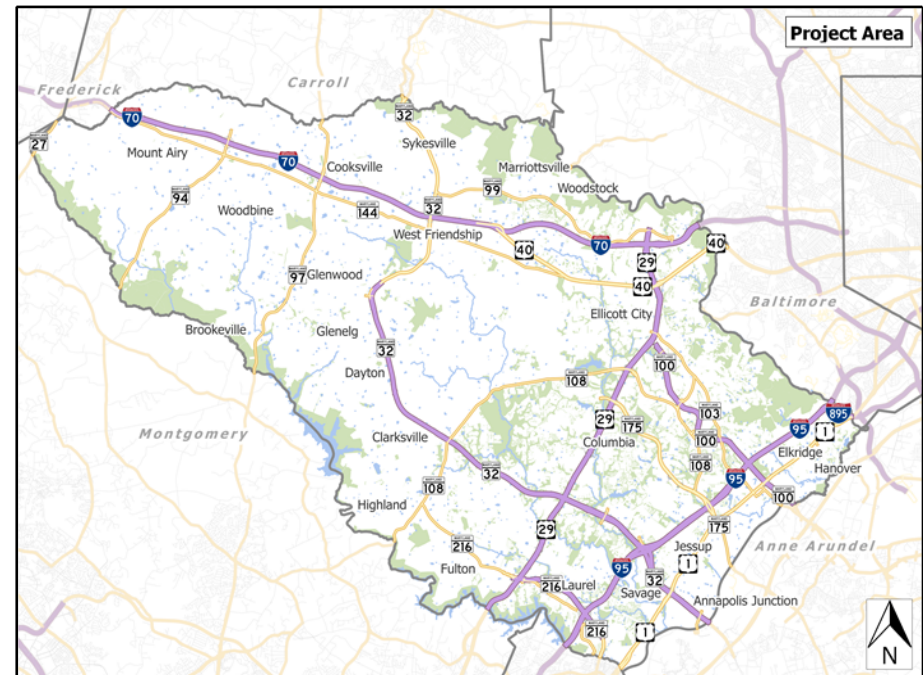

The project is consistent with recommendations provided in the Comprehensive Transportation Plan.

Remarks

1. Recommendations were compiled from the results of the existing and anticipated future traffic and roadways condition analysis as part of the County's master planning process for transportation projects.
2. Project to be replaced by J4211.
3. The County may enter into an agreement for the adjacent developer to construct the County improvements.

Projects under design - Browns Bridge Rd/Hall Shop Rd (land acquisition in progress).

Construction complete - Brighton Dam Rd at Ten Oaks Rd, Burntwoods Rd/Sharp Rd, McKenzie Rd, Harpers Farm Rd /Willow Bottom Dr, Highland/Ten Oaks Rd, Murray Hill Rd, Triadelphia Rd /Ten Oaks Rd, Long Corner Rd /Hardy Rd, Homewood Rd /Folly Quarter Rd, Triadelphia Mill Rd /Highland Rd, Tamar Dr and Roxbury Rd/Roxbury Mills Rd.

Project discontinued - Redberry, due to opposition from the impacted property owner.

Description

A project for design and reconstruction of the Snowden River Parkway/Broken Land Parkway/Patuxent Woods Drive intersection including westbound MD32 ramp to northbound Broken Land Parkway.

Justification

Traffic volumes have increased. In peak hours, the level of service of E-F is beyond capacity. Engineering review indicates that the intersection is at capacity and that an upgrade is required.

Remarks

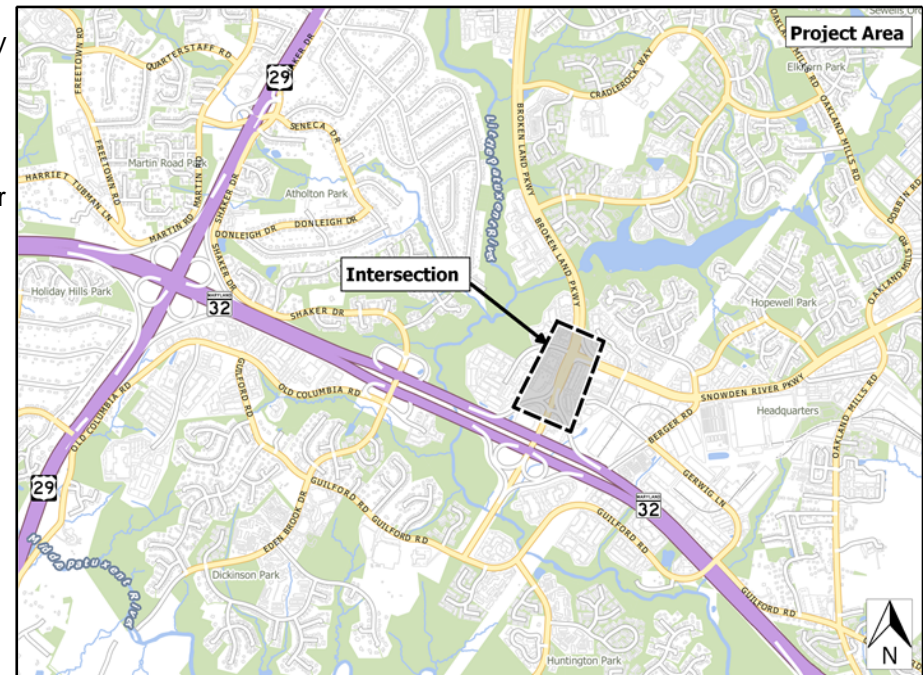

1. Project to be coordinated with the Traffic Division's analysis of Snowden River Parkway.
2. Future funding and schedule will be determined from the conclusions of the study phase.

Project Schedule

FY16 - Study.

Operating Budget Impact

Annual Bond Redemption \$ \$11,250

Project Status :

\$150,959 spent and encumbered through February 2015

Study in progress.

Description

A project to correct roadway failure/safety problems on existing roads at various intersections or along various roadway segments. Types of projects include intersection widening for needed turn lanes on large radius curb returns, improvements to roadway geometrics to correct deficient vertical and/or horizontal curves, elimination of roadside hazards and correct base failures and pavement deformation, and constructing, reconstructing and/or relocating roads, including openings and closings.

Justification

Project is needed to correct deficiencies in the County road system where many old farm to market roads need improvements to correct safety problems. Attention will be given to eliminate/relocate fixed roadside hazards such as utility poles and drainage structures which are causing accidents and relocation of deficient intersections.

Remarks

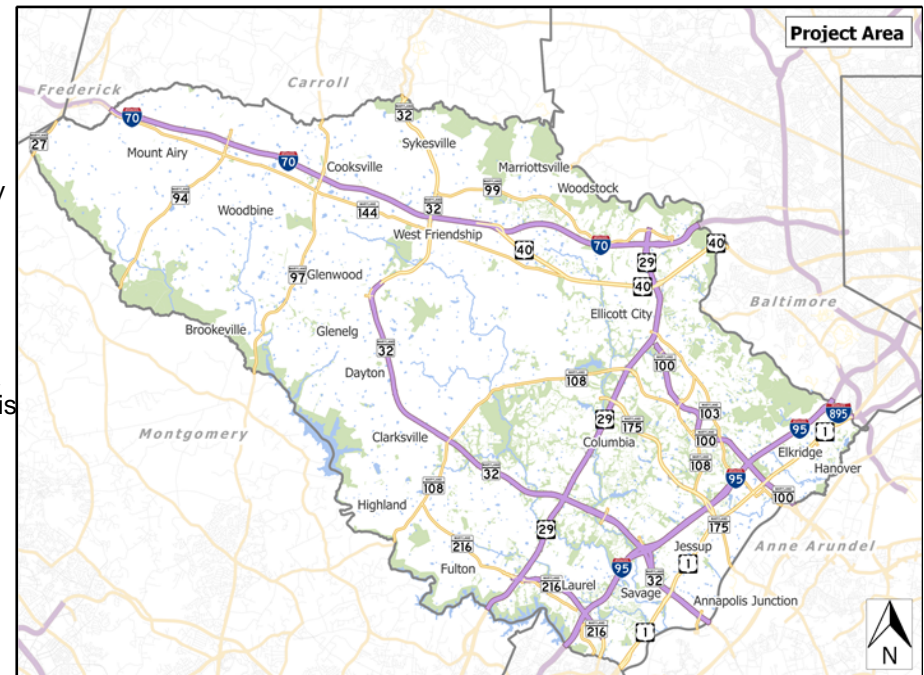

- 1. The existing road connection of New Cut Road with MD103 has been made a one-way-in road. The one-way-in connection will be closed when the fruit stand is permanently closed for business.
- 2. Project to be replaced in FY17 by J4240.

Construction complete - Harriet Tubman Ln, New Cut Rd, Highland Rd, Long Corner Rd/Penn Shop Rd.

Land acquisition complete - Burntwoods Rd.

Design in progress- Port Capital Dr/Harbour Dr/New Colony Blvd, Old Scaggsville Rd at All Saints Rd.

Description

A project for design and construction of approximately 1,500 LF of Rogers Avenue from existing improvements near US40 to Court House Drive. The Plan Howard 2030 lists Rogers Avenue as a minor arterial with a nominal 80 foot R/W. The proposed improvement will have a 50 feet width and center, left turn lane.

Operating Budget Impact

Annual Bond Redemption \$ \$159,075

Justification

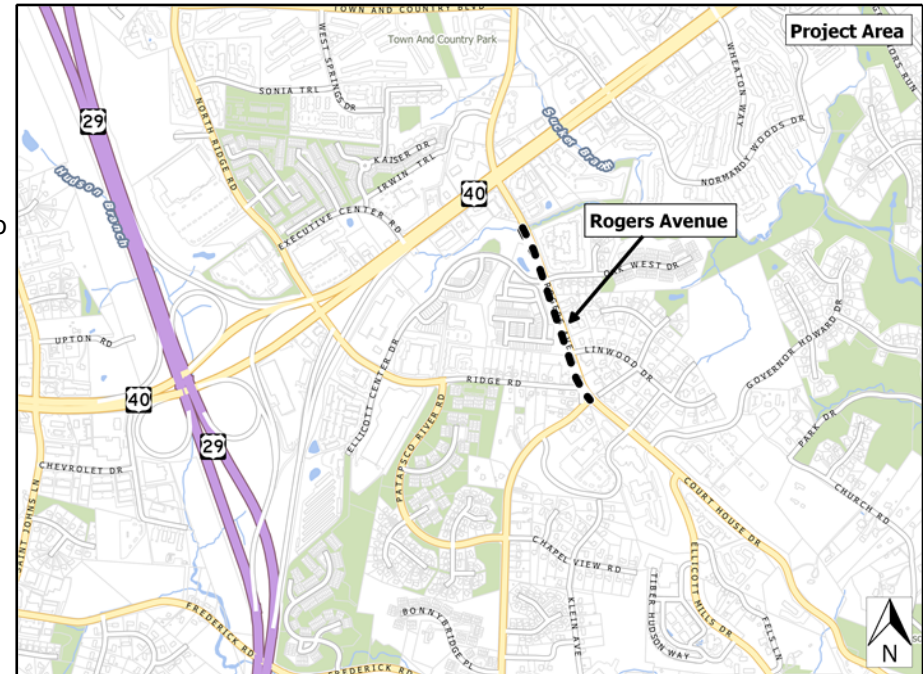

This portion of Rogers Avenue serves as a major link for commercial and residential activities to access the US40 and US29 corridor and Main Street Ellicott City.

Remarks

1. This project will be coordinated with J4225 (Ellicott Center Drive connection to Rogers Avenue), and the private development of Ellicott Mills Overlook.
2. Request represents latest Engineer's estimate.

Project Schedule

- FY16 - Construction.
- FY17 - Complete and close.

Project Status :

\$492,873 spent and encumbered through February 2015

Design and land acquisition in progress.

Description

A project for the study, design and reconstruction of the Hanover Road at Hi-Tech Road intersection. The project will realign the deficient horizontal and vertical curve to improve safety and capacity. Hanover Road and Hi-Tech Road are classified as minor collector roads.

Justification

This intersection provides access to Anne Arundel County from Hanover and Hi-Tech Roads. Hanover provides access to US1 and Hi-Tech provides access to MD100. The intersection has substandard horizontal and vertical geometry. Adjustments are also needed to coordinate with the State Highway Administration's future MD295 at Hanover Road interchange improvements.

Remarks

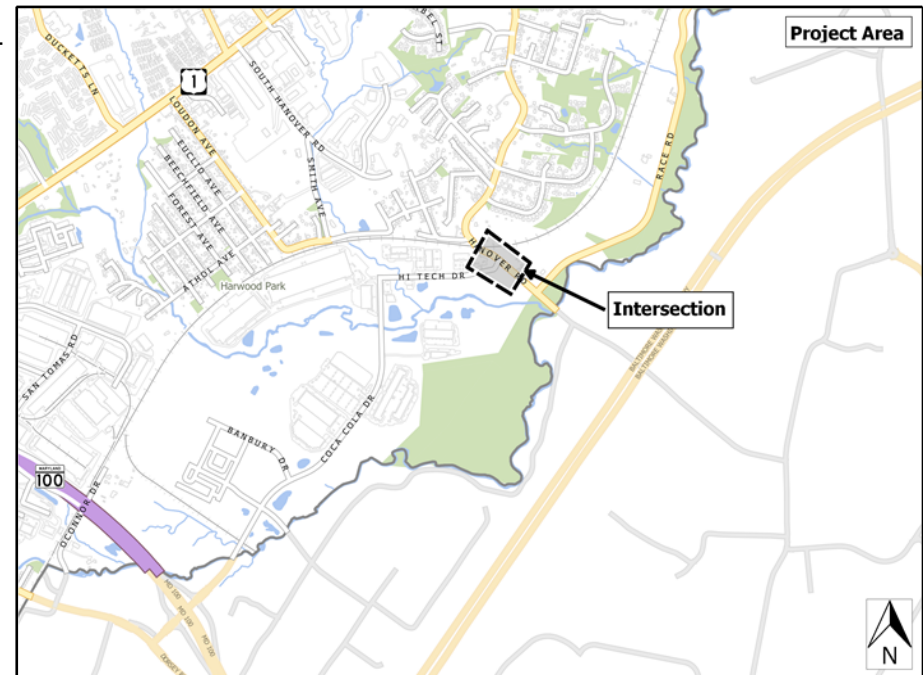

- 1. This project was identified in the Comprehensive Transportation Plan.
- 2. Project to be coordinated with SHA's MD295 at Hanover Road interchange improvements.

Project Schedule

FY16-17 - Design and land acquisition.
FY18 - Construction.
FY19 - Close.

Operating Budget Impact

Description

A project for cost sharing of new State roadway construction within Howard County that is consistent with the objectives of the Plan Howard 2030.

Justification

The State Highway Administration (SHA) cannot proceed with these projects in a timely manner without financial assistance. The local funding will accelerate the construction of State roadways in order to address capacity and safety problems in the County network.

Remarks

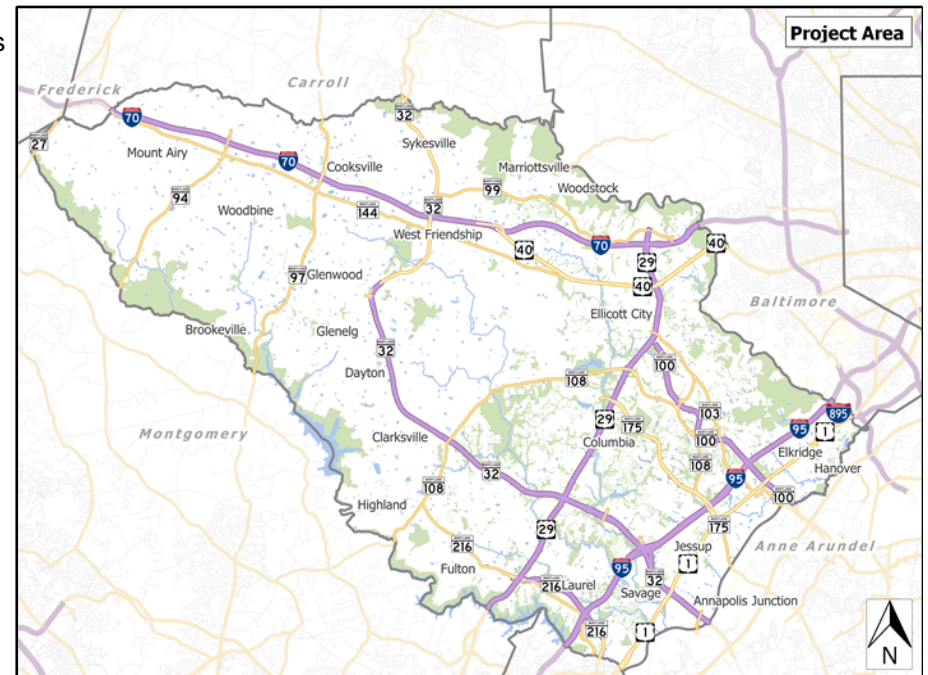

Project will include, but not be limited to: MD108 (Woodland Road thru Centennial Lane) and US40 at Rogers Avenue intersection.

Project Schedule

Program
Set by State Highway Administration.

Operating Budget Impact

Annual Bond Redemption \$ \$803,025

Fiscal 2016 Capital Budget

Projects in Progress: US40 at Rogers Ave, advertise for construction 2015.

MD108 - in design.

Projects Complete: I70/Marriottsville Rd Study, US29 (MD99 to MD100) , MD216, and MD99 (Liter & Tiller).

Description

A program with SHA for the construction of noise reduction sound walls to shield sections of residential communities.

Operating Budget Impact

Annual Bond Redemption \$ \$315,000

Justification

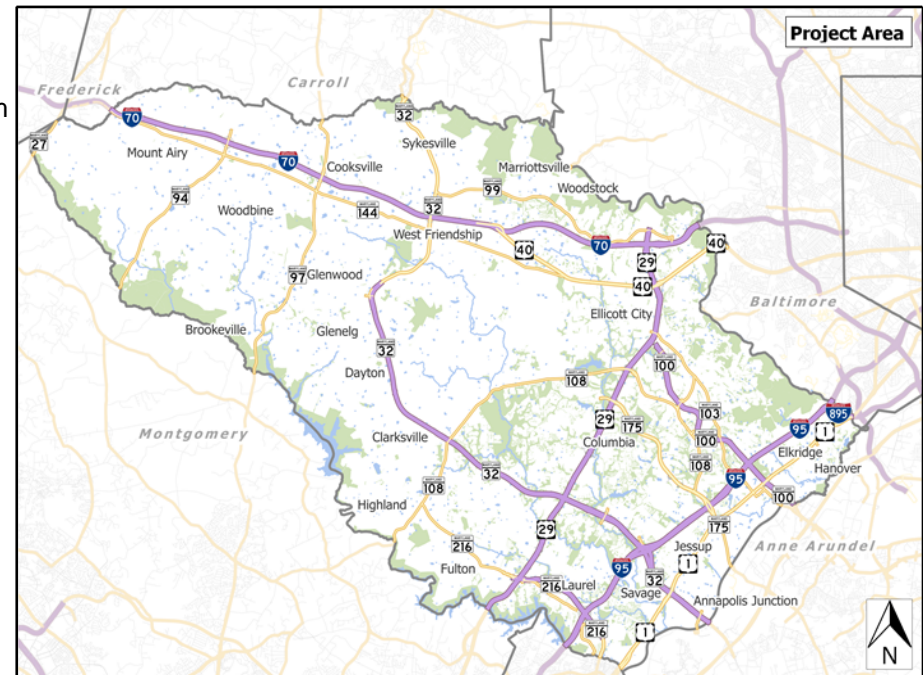

The residents have requested relief from the noise along State highways.

Remarks

1. Program meets the requirements of the SHA retrofit noise abatement program and is contingent on the availability of funds at 80% State and 20% local share.
2. Funding shown is for Howard County's share.
3. Program locations include the following areas:
Lawyers Hill (FY15)
4. Schedule set by SHA

Project Schedule

FY16 - Lawyers Hill construction.

Fiscal 2016 Capital Budget

Project: J4181-FY2003 GUILFORD RD (US1 to DORSEY RUN RD)

ROAD CONSTRUCTION PROJECTS

Number: J4181

Description

This project is to study, design, and reconstruct Guilford Road to three lanes from Annual Bond Redemption \$ \$717,975 US1 to Old Dorsey Run Road; a distance of 5,800 LF.

Operating Budget Impact

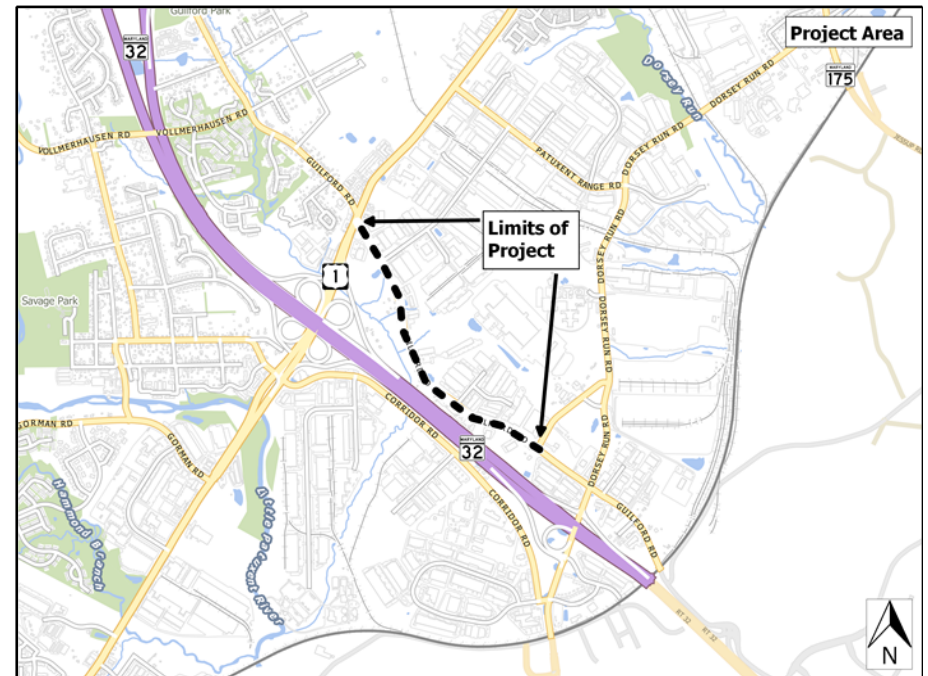

Justification

The existing road is sub-standard with varying width and limited capacity. Guilford Road is classified as a major collector in the Plan Howard 2030 and three lanes are needed to accommodate the increasing volume of commercial traffic.

Remarks

Project Schedule

- FY16 - Design and Land acquisition.
- FY17 - Design and Land acquisition.
- FY18 - Construction.

Design in progress.

Description

This project is to study, design and reconstruct Dorsey Run Road to four lanes from MD175 south to the CSX railroad spur crossing; a distance of 6,000 LF.

Operating Budget Impact

Annual Bond Redemption \$ \$707,400

Justification

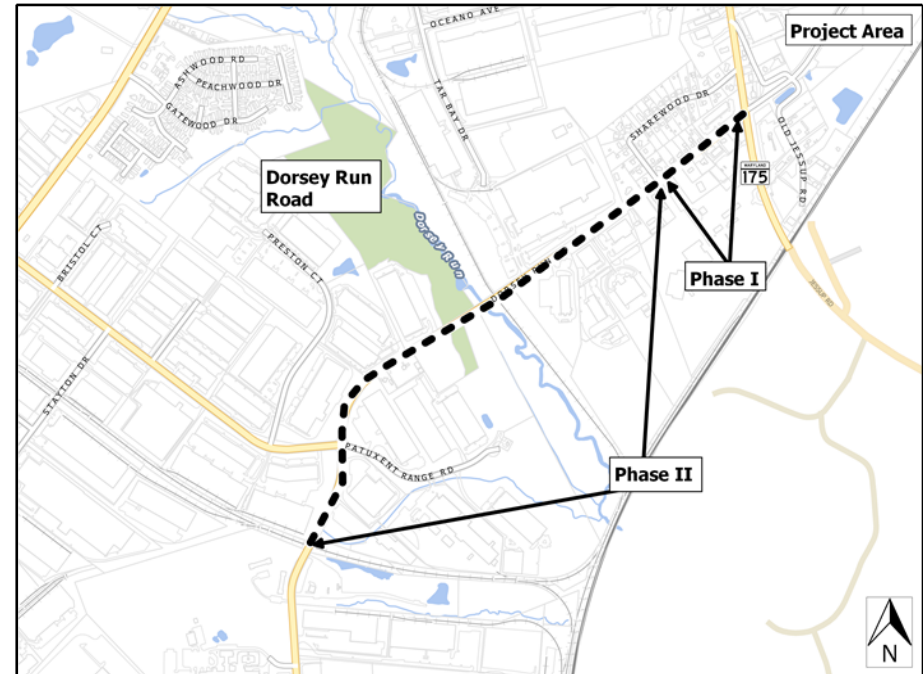

The existing road is sub-standard with varying width and limited capacity. Dorsey Run Road is classified in the Plan Howard 2030 as a major collector and four lanes are needed to accommodate the increasing volumes of traffic.

Remarks

This project will be coordinated with J4110 and J4148. This project will be constructed in (2) two phases. Phase 1 will be to complete the intersection improvements at MD175.

Project Schedule

- FY16 - Phase 1 design and land acquisition.
- FY17 - Phase 1 land acquisition and construction, Phase 2 design.
- FY18 - Phase 1 construction completion, Phase 2 design and land acquisition.
- FY19 - Phase 2 land acquisition and construction.
- FY20 - Phase 2 construction continues.
- FY21 - Phase 2 complete and close.

Land acquisition in progress.

Description

A project to widen Marriottsville Road from MD99 to US40, including the Marriottsville Road bridge over I-70. Marriottsville Road is classified as an intermediate arterial.

Justification

Increased traffic and new development will necessitate the improvement of the road.

Remarks

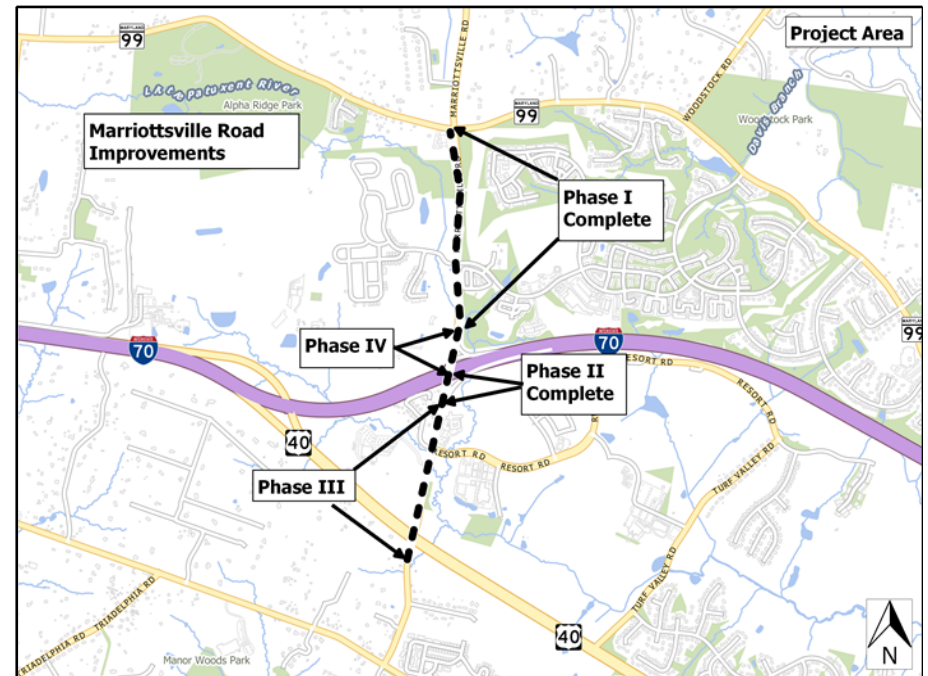

1. The County may enter into agreements with the developers to construct the County improvements.
2. The County will coordinate with the State Highway Administration regarding design requirements.
3. Developers will be directly responsible for some of the construction and associated costs of the Marriottsville Road improvements.
4. Project to be coordinated with J4215 at US40 intersection.
5. The improvements will be constructed in four phases.
 - Phase one will be from I-70 to MD99 intersection.
 - Phase two will be the improvements to the ramp for I-70 eastbound.
 - Phase three will be the roadway portion south of the I-70 bridge.
 - Phase four will be the construction of the I-70 bridge.

Phase 1 construction - complete.

Phase 2 construction - complete.

Marriottsville Road south of I-70 in design.

I-70 bridge in design.

Description

A project to improve Montevideo Road as detailed in the Montevideo Road Study. These improvements include adjustments to vertical and horizontal alignment and will be made in two phases. Phase one will relocate the connection to US1 to be directly across from Port Capital Drive. Phase two will improve the section of the road from Dorsey Run Road to the end of the relocation. Montevideo Road is classified as a major collector roadway.

Justification

Montevideo Road is expected to have a significant increase in traffic in the coming years and these improvements will help accommodate that traffic.

Remarks

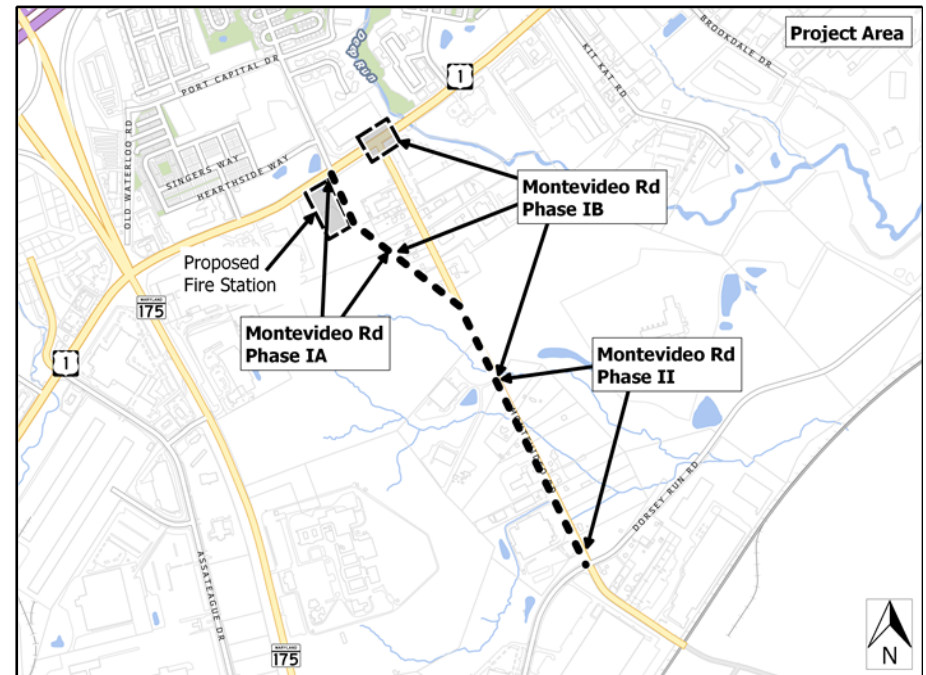

1. Project to be coordinated with J4148 (Dorsey Run Road Extended), J4241 (US1 - MD175 to Montevideo Road) and F5975 (Route One Fire Station).
2. This project may be used as a funding source for public improvements constructed by others under an agreement approved by the County Council.

Project Schedule

- FY16 - Phase 1A - Land acquisition and construction, Phase 1B - Design and land acquisition.
FY17 - Phase 1B - Construction, Phase 2 - Design and land acquisition.
FY18 - Phase 2 - Land acquisition and construction.
FY19 - Phase 2 - Construction.
FY20 - Phase 2 - Complete and close.

Operating Budget Impact

Annual Bond Redemption \$ \$611,325

Project Status :

\$1,602,792 spent and encumbered through February 2015

Phase 1A - Design and land acquisition in progress.

Description

A project to improve Oakland Mills Road from Guilford Road northward to Carters Lane. The improvements would include road widening, sidewalk, curb and gutter and bicycle compatibility. At present this section of road is two lanes with no sidewalks and poor drainage. A traffic signal will be installed at the Oakland Mills/Guilford Road intersection.

Operating Budget Impact

Annual Bond Redemption \$ \$273,825

Justification

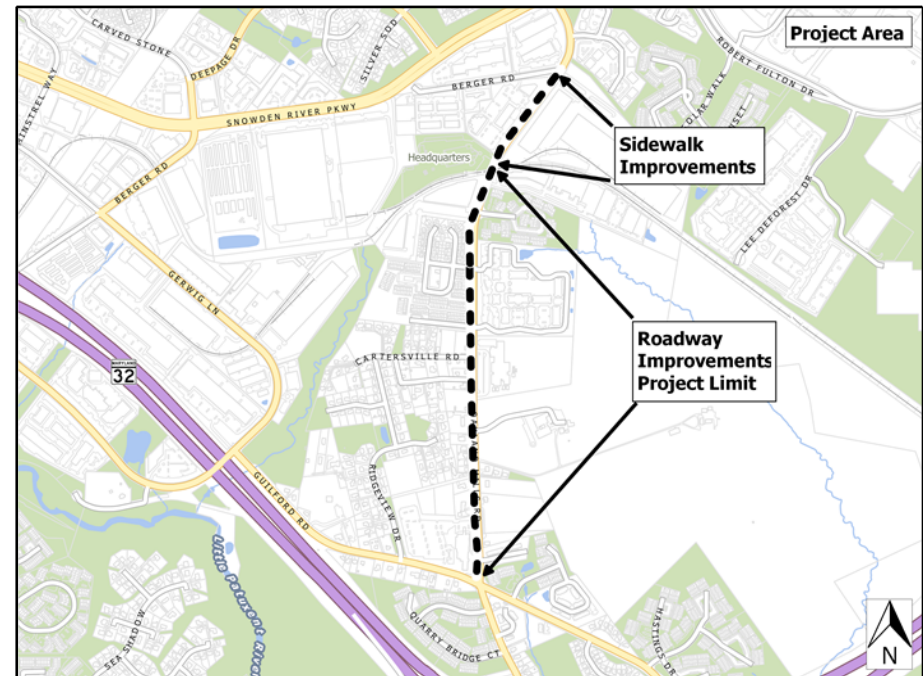

Requested by the Bureau of Highways.

Remarks

1. This work will be coordinated with the church development at the corner of Guilford Road and Oakland Mills Road.
2. Project to incorporate former K5041 sidewalks.

Project Schedule

- FY16 - Land acquisition and construction.
- FY17 - Complete and close.

Land acquisition in progress.

Description

A project to stabilize/reconstruct the slope that supports the roadbed of Watersville Road. The slope is squeezed between the road and railroad and is too steep to remain stable.

Justification

Requested by the Bureau of Highways. The Bureau's staff has done temporary repairs. The extent of permanent repair work needed is beyond their capabilities.

Remarks

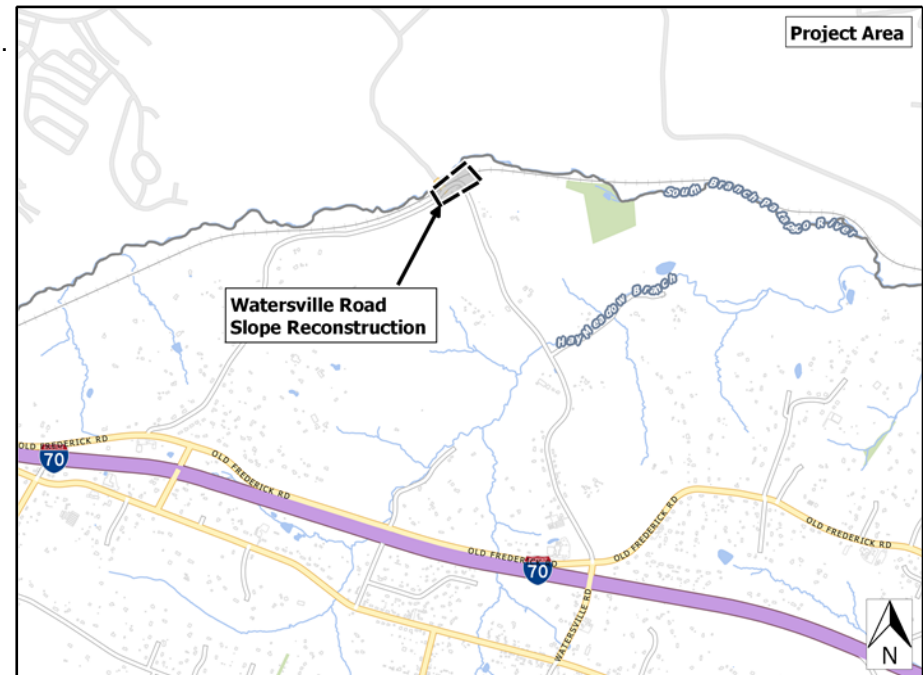

- 1. Work to be coordinated with CSX Railroad.
- 2. Watersville Road is a scenic road.
- 3. Request represents latest engineer's estimate.

Projects complete: Dobbin Rd at Dobbin Center Way, Long Gate Pkwy, Snowden River Pkwy near MD108, Snowden River Pkwy at Snowden Square Dr.

Description

A project for cost sharing of new State roadway construction within Howard County that is consistent with the objectives of the Plan Howard 2030.

Operating Budget Impact

Annual Bond Redemption \$ \$1,046,250

Justification

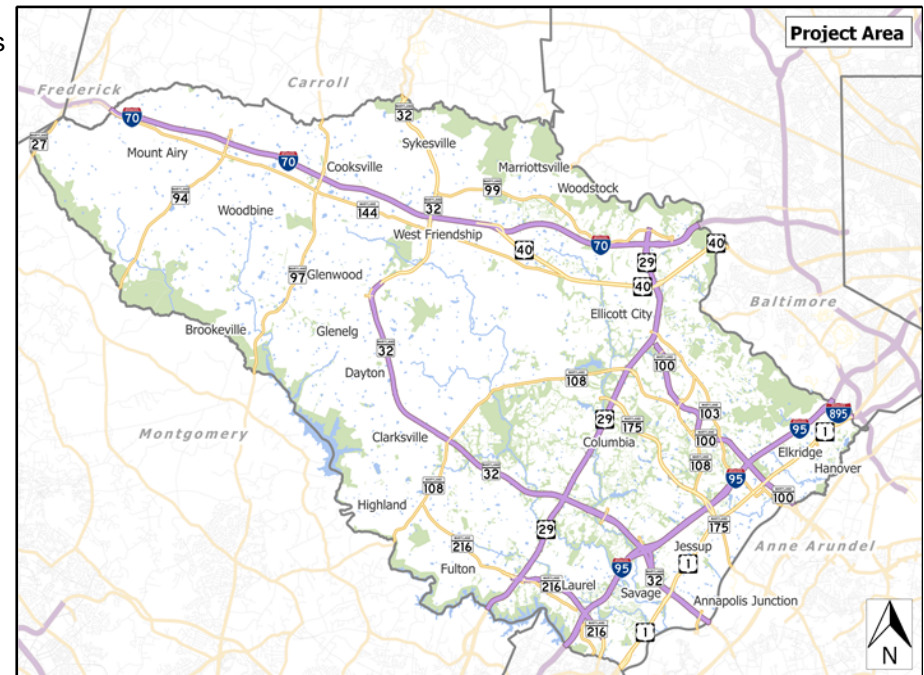

The State Highway Administration (SHA) cannot proceed with these projects in a timely manner without financial assistance. The local funding will accelerate the construction of State roadways in order to address capacity and safety problems in the County network.

Remarks

1. This project replaces J4177
2. Projects will be mutually identified by the State and County and prioritized by need.
3. Projects include: US1 at Kit Kat Road, MD32 at Linden Church, MD97 at Burntwoods Road and MD103 at Old Columbia Pike.
4. Grant represents State Aid Funds.
5. Request represents latest engineer's estimate.

In design: MD97 at Burntwoods; MD103 at Old Columbia Pike.

Completed: MD32 at Linden Church.

Description

A project to stabilize/reconstruct the slope that supports the roadbed in the vicinity of 3961 College Avenue. The slope is steep and the drainage down the slope is affecting the road.

Justification

Requested by the Bureau of Highways. There are cracks appearing in the road. Highways requests restoration of the supporting bank, return the road back to its full section, provide drainage infrastructure including a curb (from Weaver Court to the white fence) and an adequate outfall.

Remarks

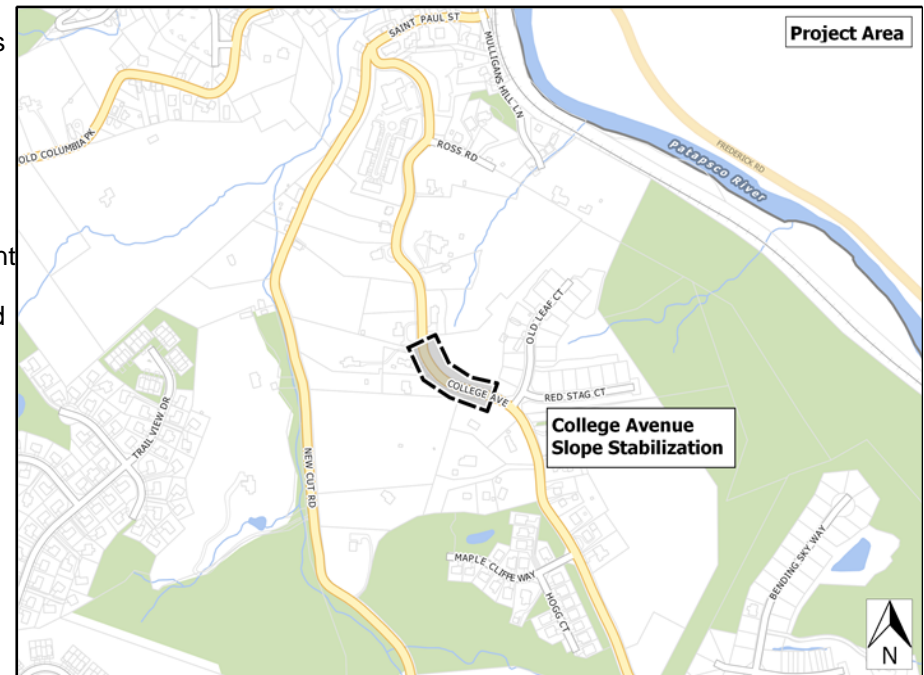

- 1. College Avenue is a Scenic Road.
- 2. The County may enter into an agreement for the County to include an adjacent developer's road improvement requirements into the County's work, or, for the developer to construct the County improvements, under an agreement approved by the County Council.

Project Schedule

FY16 - Close.

Operating Budget Impact

Annual Bond Redemption \$ \$36,450

Developer to complete construction of County work in Spring of 2015.

Description

A project to design and construct improvements to the intersection of Guilford Road at Vollmerhausen Road and along Guilford Road to the west towards Carroll Heights Ave.

Justification

The vertical curve on Guilford Road creates problems for the traffic at the intersection with Vollmerhausen. Project was requested by the Traffic Division and the Community.

Remarks

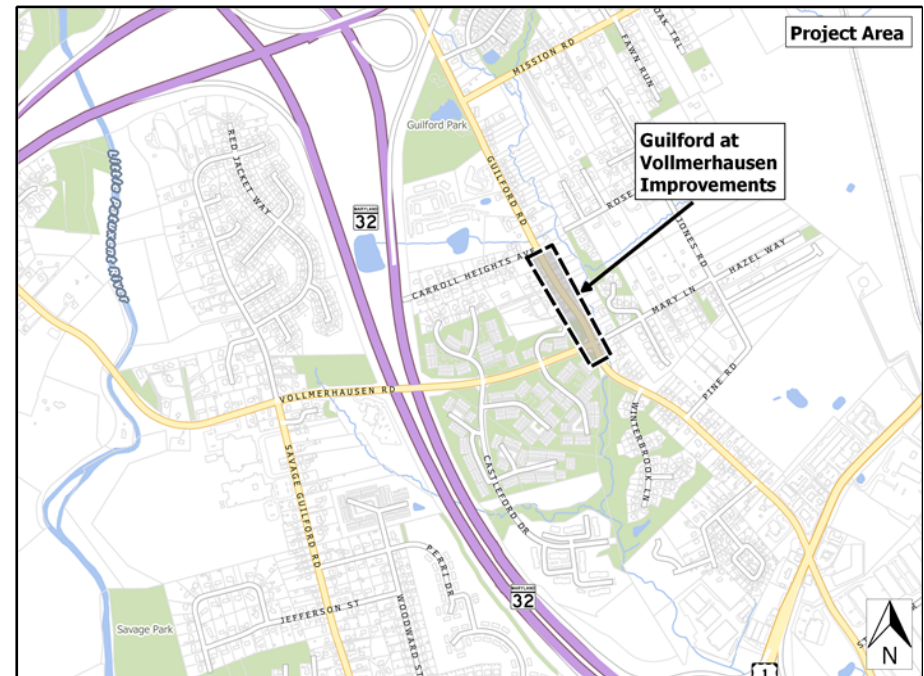

- 1. A study determined the most feasible improvements include reducing a crest vertical curve, widening lanes, signalization at the intersection and pedestrian improvements.
- 2. Project will be coordinated with K5040.
- 3. Project will be phased.
Phase 1: Install signal. Phase 2: Lower crest.

Project Schedule

FY16 - Land acquisition and construction of Phase 2.
FY17 - Complete and close.

Project: J4215-FY2007 MARRIOTTSVILLE ROAD from US40 to MD144

ROAD CONSTRUCTION PROJECTS

Number: J4215

Description

Realignment and shoulder improvements to Marriottsville Road from US40 to MD144. Marriottsville Road is classified as a Major Collector.

Operating Budget Impact

Annual Bond Redemption \$ \$400,050

Justification

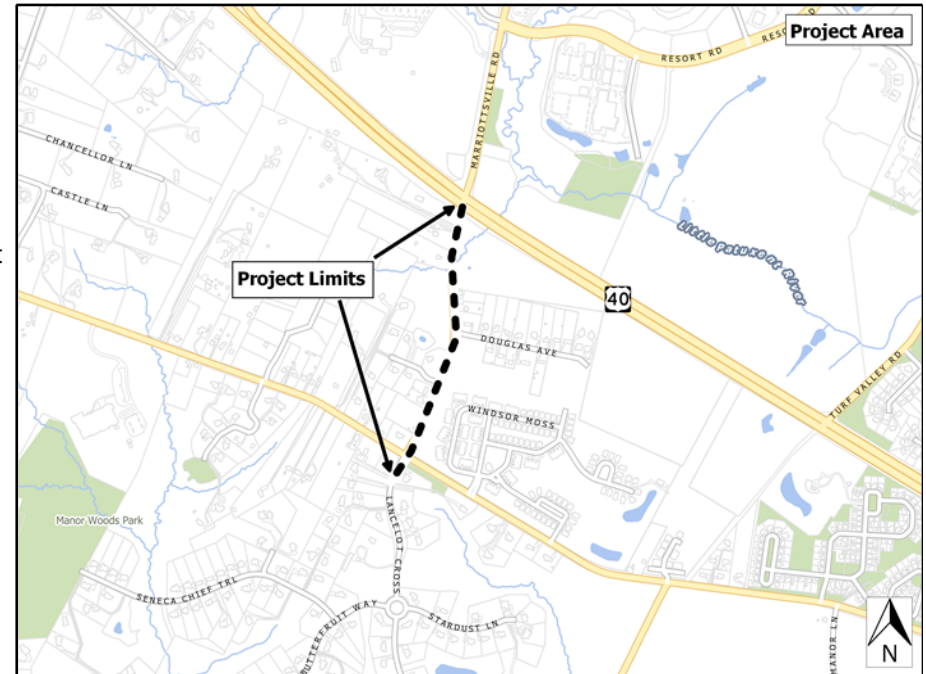

Increased traffic will necessitate the improvements to the road. Project requested by the Traffic Division.

Remarks

1. The County is coordinating with the State Highway Administration regarding the improvements at US40 and MD144.
2. Project to be coordinated with J4205 at US40.
3. The improvements will be constructed in phases. Phase one will be the US40 intersection and the road for approximately 850 feet to the south.
4. The County may enter into an agreement with the developer to construct the County improvements.
5. Request represents phase one construction.

Project Schedule

- FY16-17 - Design and Land Acquisition and Construction (Phase one).
- FY18 - Construction (Phase two).
- FY19 - Construction.
- FY20 - Complete and close.

Design and land acquisition in progress.

Description

A project for engineering roads to conform with the Plan Howard 2030 Highways Map to evaluate realignment schemes to support the transportation and safety needs of the County. This effort will also address those roads identified by Department of Planning and Zoning as a result of traffic impact studies.

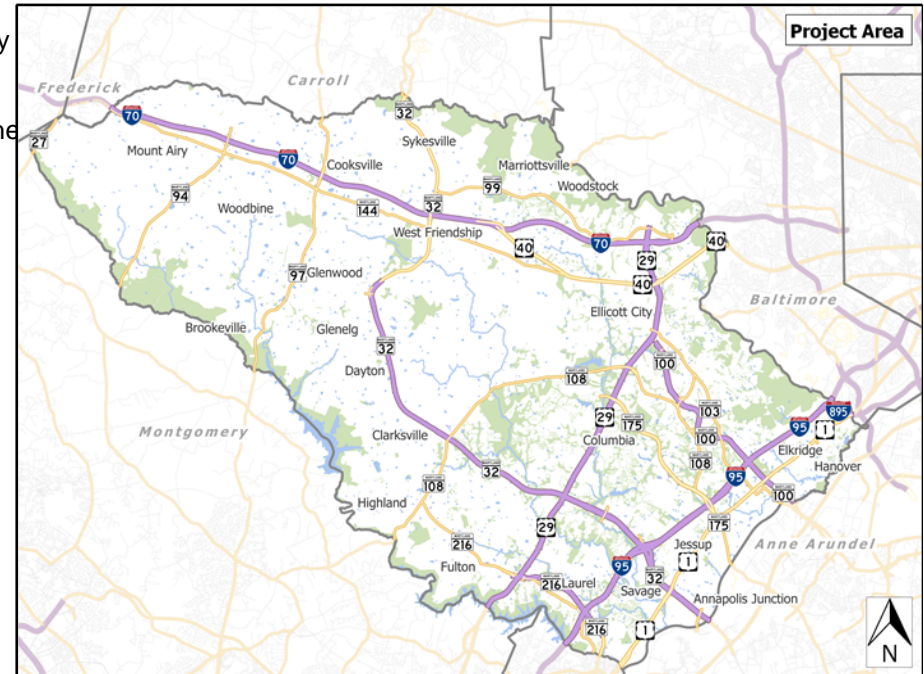

Justification

Preliminary engineering studies must be conducted to determine the right-of-way needs and alignments of future developer roads and existing roads impacted by the General Plan so that the resultant network is functional and safe. Studies, including parking, done under this program are considered as a refinement to the General Plan.

Clarksville Parking Study in progress.

Description

A project to facilitate the design, land acquisition and construction of roadway modifications and their appurtenances at various intersections or roadway segments. This occurs when the development of land is conducive to future comprehensive roadway development to which the current developer should contribute or when the roadway structural capacity, width transitions, bypass lanes, horizontal and vertical geometric changes for safety or to compliment developer improvements are anticipated in the near future. All improvements will be compatible with the General Plan and its engineering study refinements.

Operating Budget Impact

Annual Bond Redemption \$ \$32,625

Justification

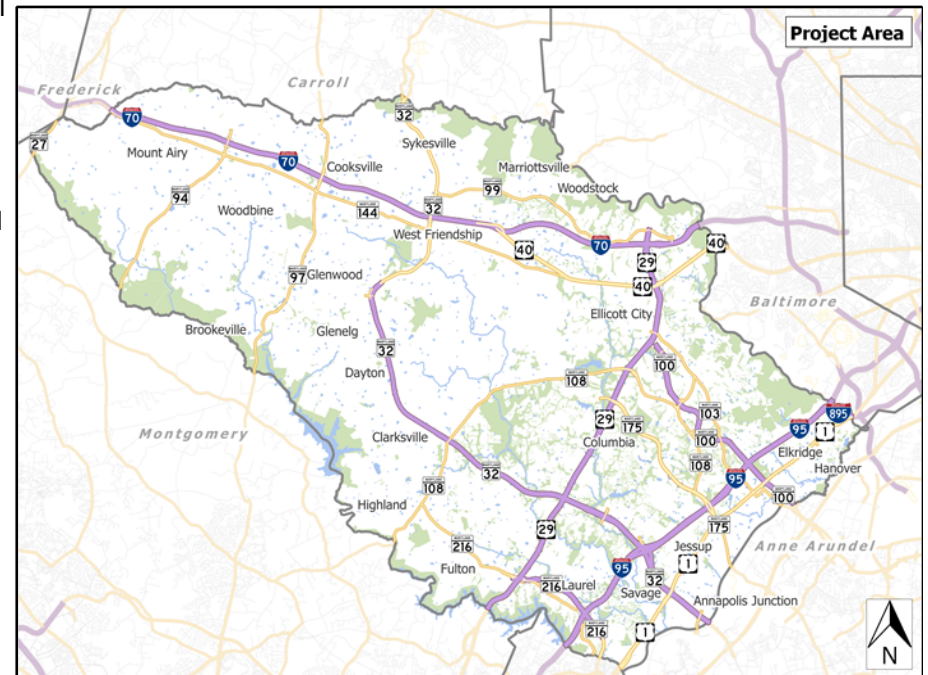

This project will serve as a receiving project to accumulate developer contributions for a future comprehensive capital project or for the immediate construction of improvements to improve traffic flow or safety along substandard segments.

Remarks

1. Replaces Capital Project J4134
2. The County may enter into an agreement for the developer to construct the County's improvements.

ROAD CONSTRUCTION PROJECTS

Project: J4222-FY2008 SNOWDEN RIVER PARKWAY WIDENING BROKENLAND TO OAKLAND MILLS

Number: J4222

Description

A project to design and construct a widening of Snowden River Parkway (intermediate arterial) by adding a third lane and sidewalks from Broken Land Parkway to Oakland Mills Road.

Justification

This project will develop the third lane on each side between these two intersections, will increase the capacity of the roadway and provide an improved level of service. Project requested by the Traffic Division.

Remarks

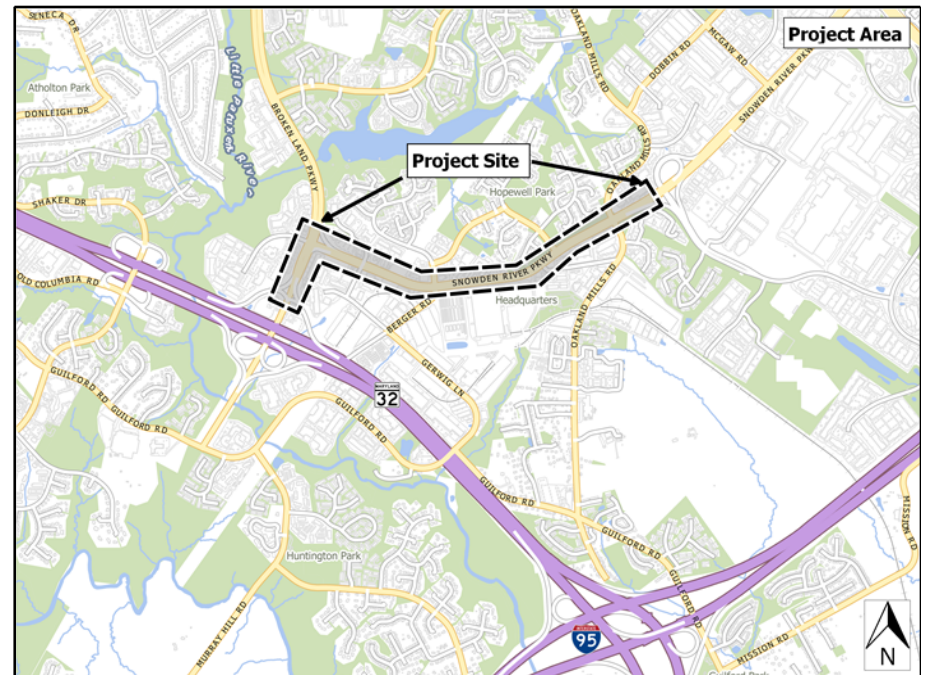

1. Project will be phased.
2. The County may enter into an agreement(s) for adjacent developers to construct the County improvements.
3. Developer Contribution funds represent payment in-lieu-of construction.

Project Schedule

- FY16 - Design and land acquisition.
- FY17 - Construction.
- FY18-20 - Future construction phases.

Operating Budget Impact

Annual Bond Redemption \$ \$546,525

Project Status :

\$1,551,725 spent and encumbered through February 2015

Construction substantially completed.

Description

A project to provide funds for unanticipated needs related to bridges and roadways. This can include design, land acquisition and construction related to the bridge, storm drainage, roadway and pedestrian programs.

Operating Budget Impact

Annual Bond Redemption \$ \$108,000

Justification

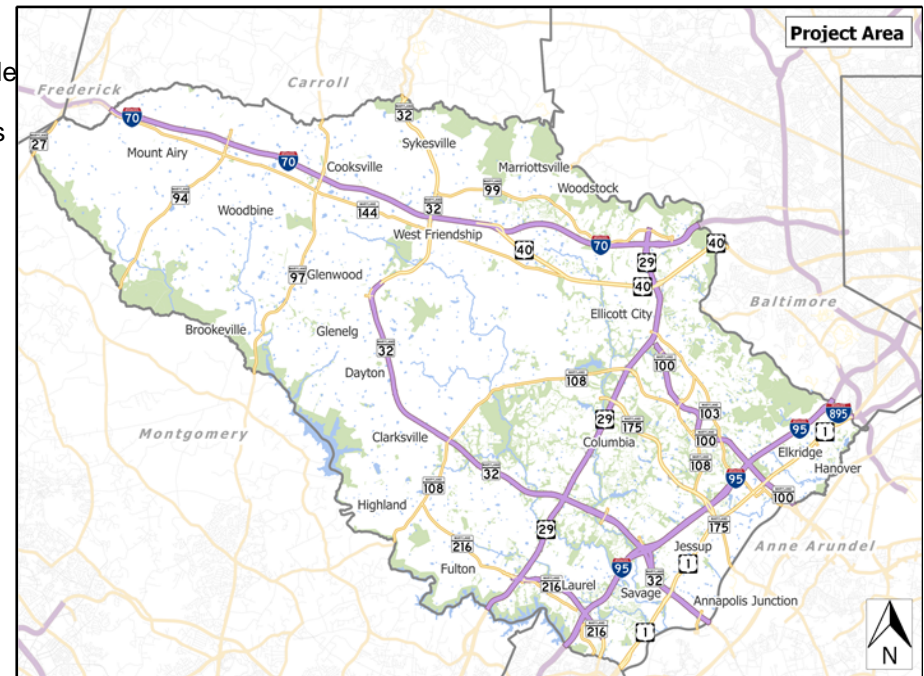

This fund would allow the County to act on situations where funding is needed before a formal capital project can be developed, or when additional funds are needed in existing capital projects. Examples include: when land comes available that meets the future needs of the County to serve the public interest and no funded Capital Project exists; for roadway improvements when project funding is needed sooner than anticipated; or, when a project's costs are higher than projected and delaying the project is not in the best public interest.

Remarks

Request represents program advancement.

Fiscal 2016 Capital Budget

ROAD CONSTRUCTION PROJECTS

Project: J4228-FY2008 ILCHESTER and LANDING ROAD INTERSECT

Number: J4228

Description

A project to realign the intersection of Landing Road with Ilchester Road so that Landing Road intersects Ilchester Road directly across from Ilchester Point Court.

Operating Budget Impact

Annual Bond Redemption \$ \$48,825

Justification

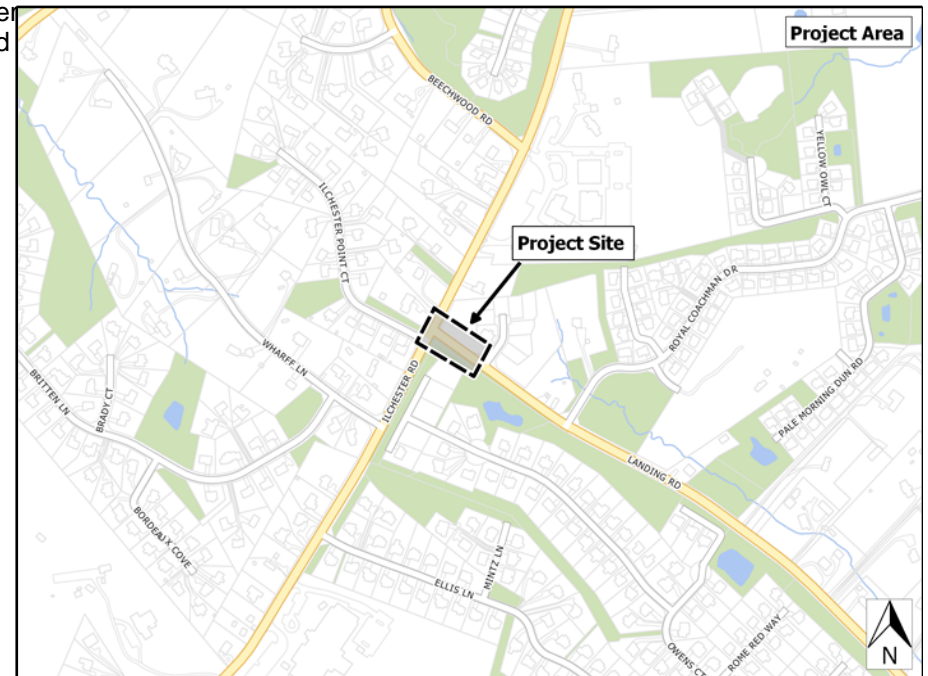

The current intersections of Landing Road and Ilchester Point Court with Ilchester Road are offset. A new development at the corner of Landing Road has provided the land for the realignment of the road. The Traffic Division supports the realignment of the intersection.

Remarks

1. Both Ilchester and Landing are Scenic Roads.
2. The County has entered into an agreement for the developer to construct the County improvements.
3. Request represents latest engineer's estimate.

Project Schedule

FY16 - Design, Land Acquisition and Construction.
FY17 - Close.

Project Status :

\$781,262 spent and encumbered through February 2015

Construction of intersection improvements complete.

The project requires additional work to address drainage and pathways.

Description

A project to design and construct improvements to Whiskey Bottom Road from US1 to the Anne Arundel County Line. Work will include the US1 / Whiskey Bottom Road intersection. Anticipated improvements include through lanes, turn lanes, intersection controls and pedestrian improvements.

Justification

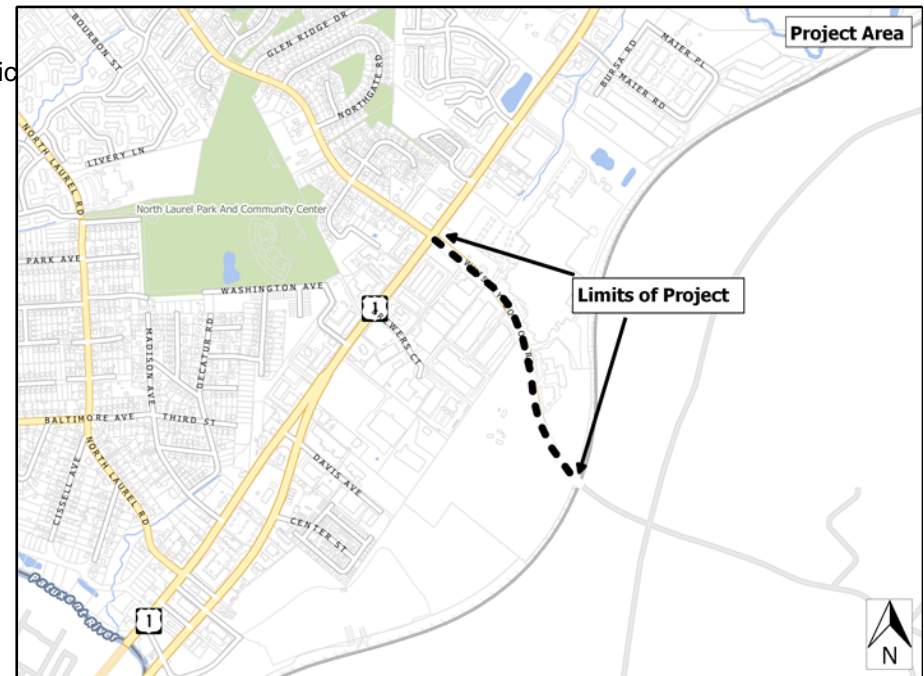

Anticipated new development in the immediate area and increases in traffic associated with BRAC and its accompanying development will increase the traffic along Whiskey Bottom Road. The improvements will help to mitigate the expected increases in traffic.

Remarks

1. The project is supported by the Traffic Division.
2. A study will be conducted to develop the full scope of the project.
3. Developer contributions are expected to help fund the project.
4. This project may be used as a funding source for public improvements constructed by others under an agreement approved by the County Council.
5. Other funds are from County share of Race Track funds allocation.

Project Schedule

FY16 - Study.

Project Status :

\$0 spent and encumbered through February 2015

Study in progress.

Description

A project to provide bicycle compatibility by widening the existing 10-foot lanes to 12 feet and filling in the missing shoulders along both sides of the road. This work will include acquisition of the necessary land for the widening and the accompanying storm water management.

Operating Budget Impact

Annual Bond Redemption \$ \$41,850

Justification

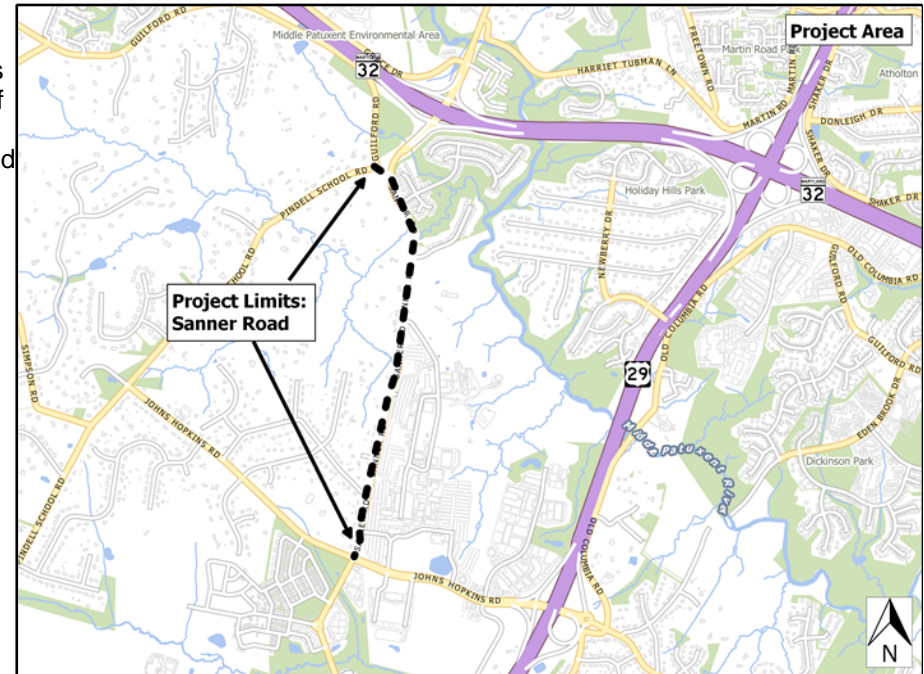

The current lanes are not a full 12 feet wide and should be upgraded for the current standard. The County has completed bicycle compatibility improvements on Guilford Road which connects to Sanner Road. There is a large contingent of bicyclists at the Johns Hopkins Applied Physics Laboratory that could make use of the shoulders. The shoulders will also provide for less maintenance of the road because the car and truck traffic will not be driving so close to the edge of the road upon completion of these improvements.

Remarks

1. Project is part of the County's Bicycle Master Plan.
2. Project to be coordinated with W8306.

Project Schedule

- FY17 - Design.
- FY18 - Land Acquisition.

Project Status :

\$0 spent and encumbered through February 2015

Design in progress.

Description

A project to design and construct a new MD175/Oakland Mills Road interchange and the re-alignment of Oakland Mills Road through the proposed Blandair Park.

Operating Budget Impact

Annual Bond Redemption \$ \$1,125,000

Justification

This project will provide access to the proposed Blandair Park as shown on the approved master plan for the park. The improvements will also provide vicinity roadway network connectivity and capacity for the area bordering the south side of the park.

Remarks

1. This project will be coordinated with Capital Project N3102.
2. Design will be consistent with the Blandair Park Master Plan.
3. This project will require approval by the State Highway Administration to establish a break in the MD175 right-of-way.
4. The improvements will be in two phases. One will be the southern portion. Phase two will be the northern roadway and bridge construction.

Project Schedule

- FY16 - Construction of phase 1 continues, design of phase 2.
- FY17 - Construction of phase 2 complete.
- FY18 - Phase 2 starts.
- FY19 - Complete.
- FY20 - Close.

Project: J4239-FY2014 OLD ROXBURY ROAD

ROAD CONSTRUCTION PROJECTS

Number: J4239

Description

A project to design and construct improvements to Old Roxbury Road. Old Roxbury Road is classified as a local road.

Operating Budget Impact

Annual Bond Redemption \$ \$40,950

Justification

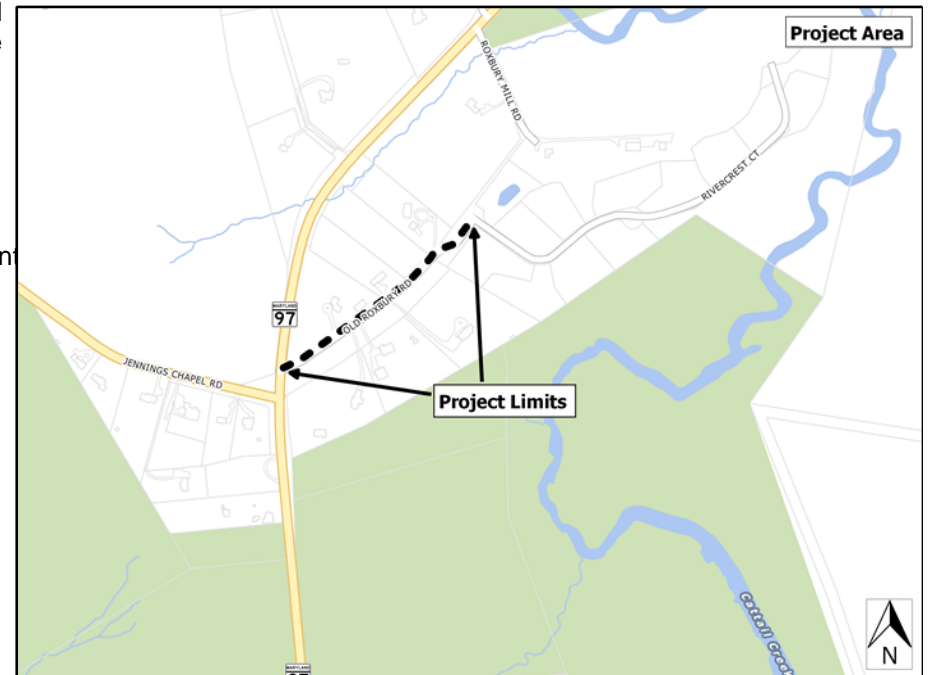

Old Roxbury Road is a public road but it does not meet current standards. Recent development will increase the traffic on the road. The Community has requested the improvements and the request is supported by the Bureau of Highways. The improvements are beyond the capability of the Bureau of Highways.

Remarks

1. SHA approval will be needed for the improvements at the intersection with MD97 Roxbury Mills Road.
2. Construction may depend on donation of necessary easements and/or resident cost share participation.

Project Schedule

FY16 - Design.
FY17 - Land Acquisition and Construction.

Project: J4240-ROADWAY REHABILITATION/SAFETY PROGRAM

ROAD CONSTRUCTION PROJECTS

Number: J4240

Description

A project to correct safety or structural problems on existing roads. Projects include but are not limited to improvements to roadway geometrics, elimination of roadside hazards, pavement and/or base failures.

Operating Budget Impact

Annual Bond Redemption \$ \$76,500

Justification

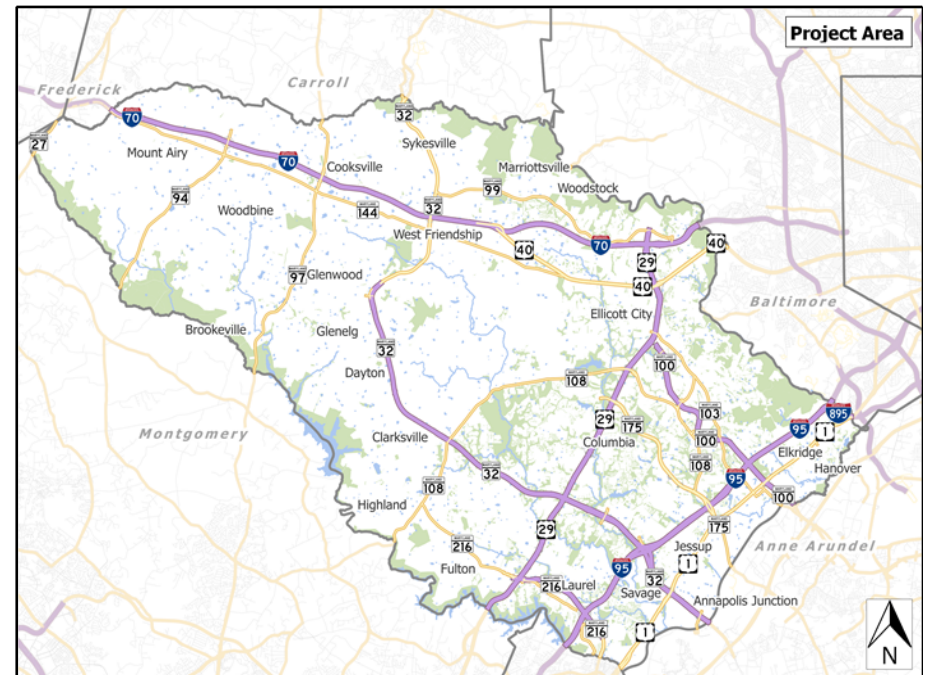

This project is intended to correct deficiencies in the County road system that have been identified in studies or recommended by the Bureau of Highways' Maintenance or Traffic Divisions.

Remarks

This project will replace J4168 in FY17.

Project: J4241-FY2011 US RT 1 RT 175 to MONTEVIDEO ROAD

ROAD CONSTRUCTION PROJECTS

Number: J4241

Description

A project for the design and reconstruction of approximately 2,500 feet of US1 from MD175 to Montevideo Road.

Operating Budget Impact

Annual Bond Redemption \$ \$792,000

Justification

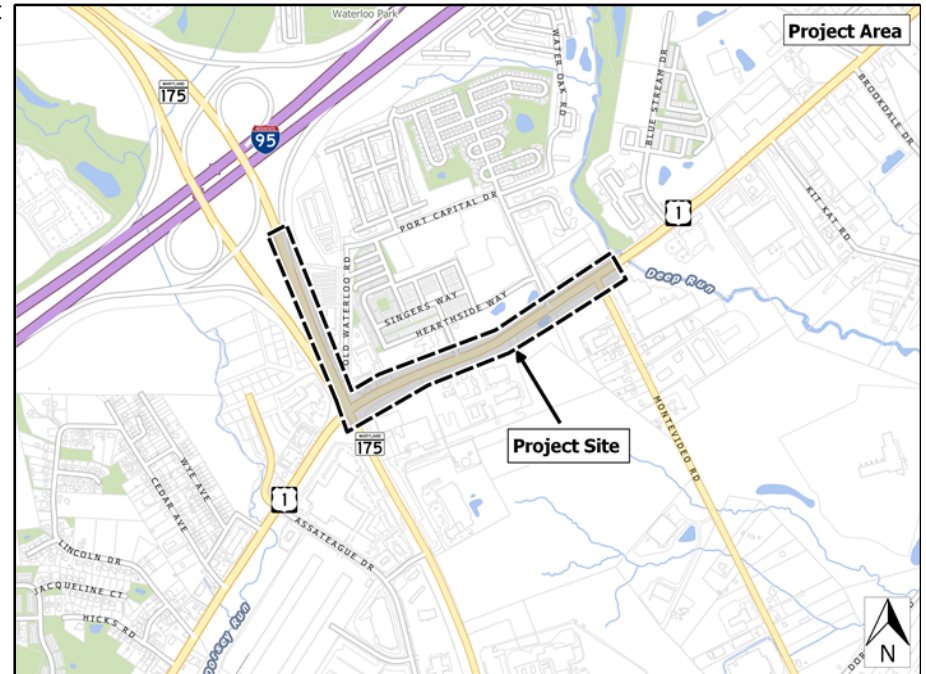

These improvements will be the first County capital project to implement the RT1 Corridor Improvement Strategy which includes a new roadway typical section. It is located proximate to two large mixed use developments and is a complement to developer installed improvements.

Remarks

1. Project to be designed and constructed by Howard County.
2. Project to be coordinated with J4206, Montevideo Road.

Project Schedule

- FY16 - Land acquisition and utility construction.
- FY17 - Construction.
- FY18 - Close.

ROAD CONSTRUCTION PROJECTS

Project: J4242-FY2014 BRIGHTON DAM ROAD at HIGHLAND ROAD ROUNDABOUT

Number: J4242

Description

A project to design and construct a roundabout at the intersection of Brighton Dam Road and Highland Road. The current intersection is a four way stop.

Operating Budget Impact

Annual Bond Redemption \$ \$67,050

Justification

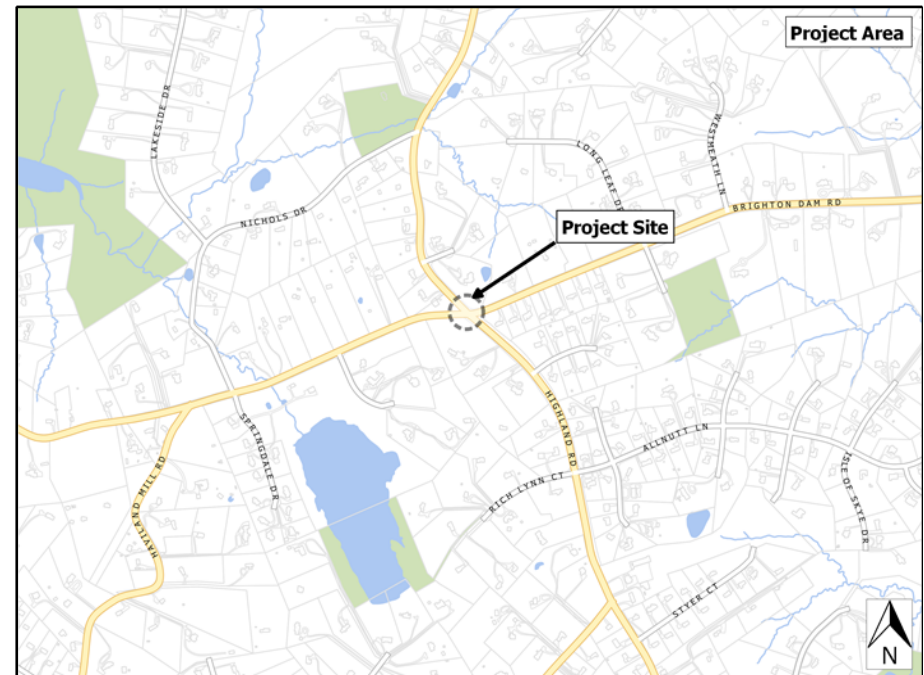

Requested by the Traffic Division to reduce vehicular stops, delays and queues experienced at the four ways, stop controlled intersection.

Remarks

Project to be coordinated with F5972 for the installation of a water storage tank.

Project Schedule

- FY16 - Design.
- FY17 - Design and Land Acquisition.
- FY18 - Construction.
- FY19 - Close.

Project Status :
 \$0 spent and encumbered through February 2015

Description

A project to design and construct a connection between Business Parkway and Bluestream Drive to act as an emergency access or exit. This connection will be approximately 500 feet in length.

Operating Budget Impact

Annual Bond Redemption \$ \$7,875

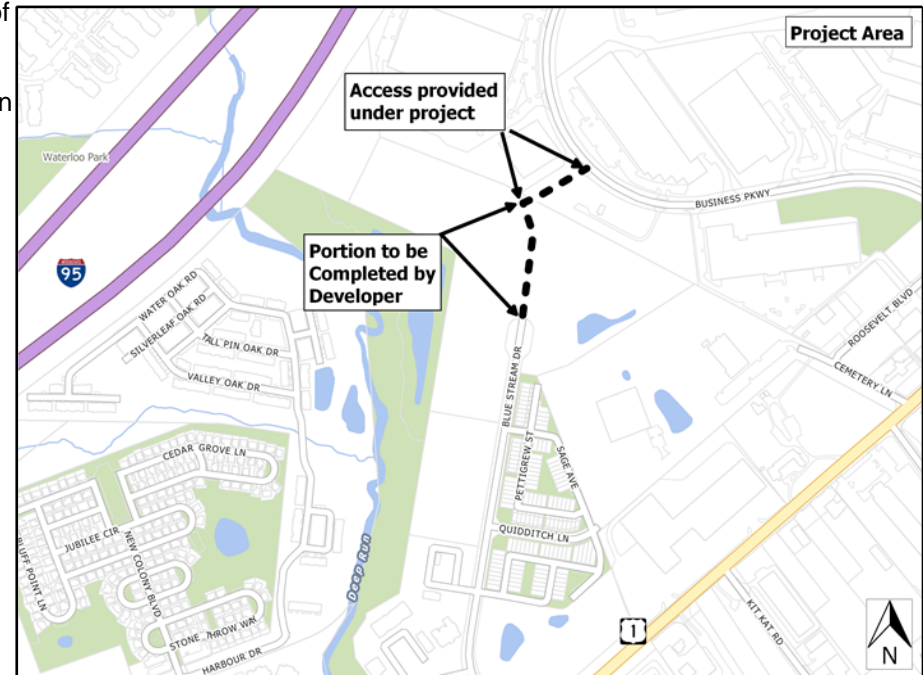

Justification

The Fire and Police Departments prefer to have more than one way in and out of the Bluestream Development and a connection between Business Parkway and Bluestream will be provided for emergency access/egress only. This connection will also provide a place for the Trinity Episcopal Church to unload their hearse in a location that provides easier access to the adjacent cemetery.

Remarks

Project Schedule

FY16 - Design & Land acquisition.
 FY17 - Construction and Close.

Project Status :

\$0 spent and encumbered through February 2015

Design in progress.

Description

A project to plan, design, and install enhancements at certain historic or high visibility locations along the National Scenic Byway or County scenic roads. Projects will preserve and enhance the intrinsic historic and scenic qualities of the roads and byways.

Justification

The Scenic Roads Act of 1994 established protections for features of designated roadways that contribute to the scenic character of the roadway. Certain historic features (e.g. mile markers, monuments) are often central to a roadway's designation and therefore, may be eligible for enhancements.

Remarks

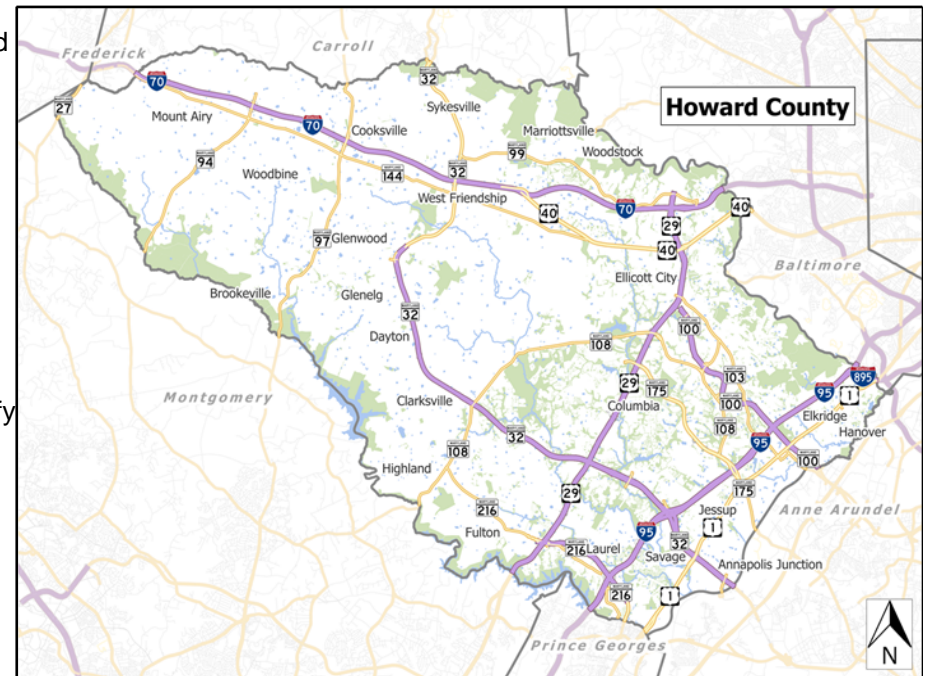

1. Funds may be used to acquire easements or ROW adjacent to the roadway/byway to accommodate the improvements.

Project Schedule

FY17 - Inventory potential sites for improvements; establish design goals; identify and design pilot, and construction.

Operating Budget Impact

Annual Bond Redemption \$ \$4,500

Fiscal 2016 Capital Budget

ROAD CONSTRUCTION PROJECTS

Project: J4246-FY2017 OLD MONTGOMERY ROAD AT BRIGHTFIELD ROAD INTERSECTION IMPROVEMENTS

Number: J4246

Description

A project to reconfigure the intersection of Old Montgomery Road and Brightfield Road for safety and increased capacity. This project will determine the type of reconfiguration and then proceed to design, acquire the necessary land and construct the improvement.

Operating Budget Impact

Annual Bond Redemption \$ \$88,875

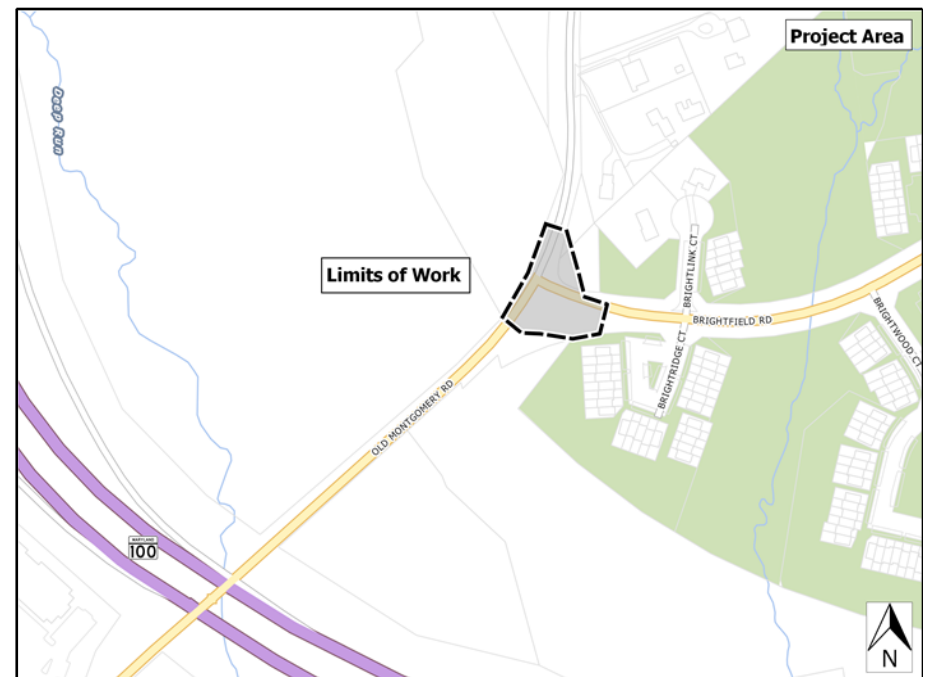

Justification

The present intersection is a remnant of the time when Old Montgomery Road was a through road connecting Old Waterloo Road (MD108) to Montgomery Road (MD103). Old Montgomery Road no longer allows northbound traffic to access Montgomery Road (MD103); there is only a southbound movement from Montgomery Road to Old Montgomery Road. This significantly decreases the traffic on Old Montgomery Road north of Brightfield Road. The main traffic movement today is to and from Brightfield Road to Old Montgomery Road heading to the south toward Old Waterloo Road (MD108).

\$0 spent and encumbered through February 2015

Description

A project to provide engineering and related services, computer management, asset management, inspection, testing, staff training, supplies, tools, equipment and vehicles necessary for site inspections for the implementation of developer projects that make additions to the public road and storm water management systems. All projects undertaken with this authority will be fully funded by private funds received from developers requesting such additions to the public system.

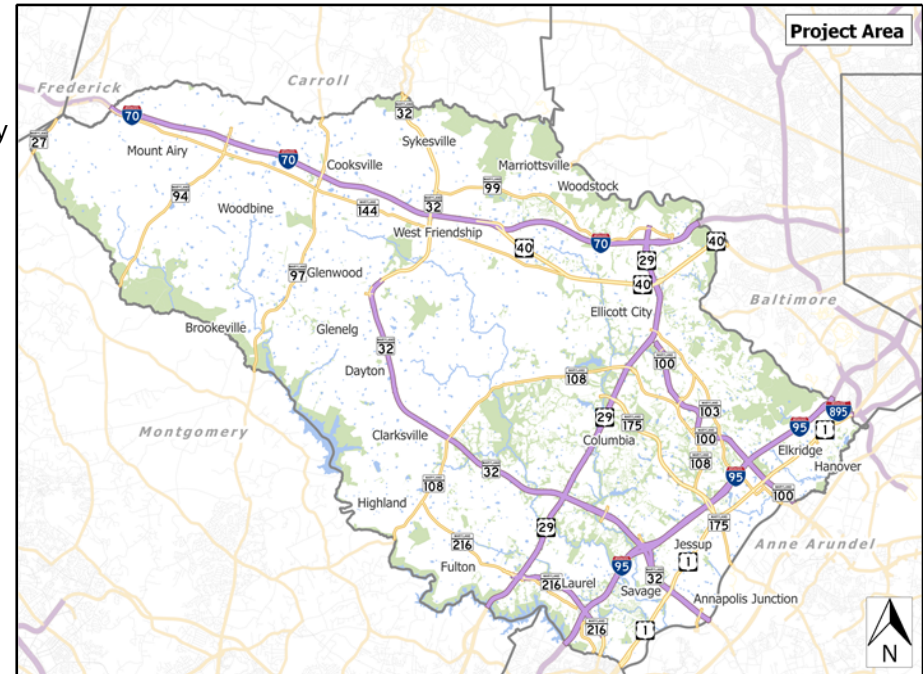

Justification

This project is necessary to provide an appropriation for engineering and inspection services. The services are necessary for determining the acceptability of developer work into the infrastructure of the County.

Project: K5034-FY2001 HUNT CLUB SIDEWALK

SIDEWALKS

Number: K5034

Description

A project to construct approximately 4,000 LF of sidewalk along Hunt Club Road from US1 to Bauman Drive.

Operating Budget Impact

Annual Bond Redemption \$ \$26,550

Justification

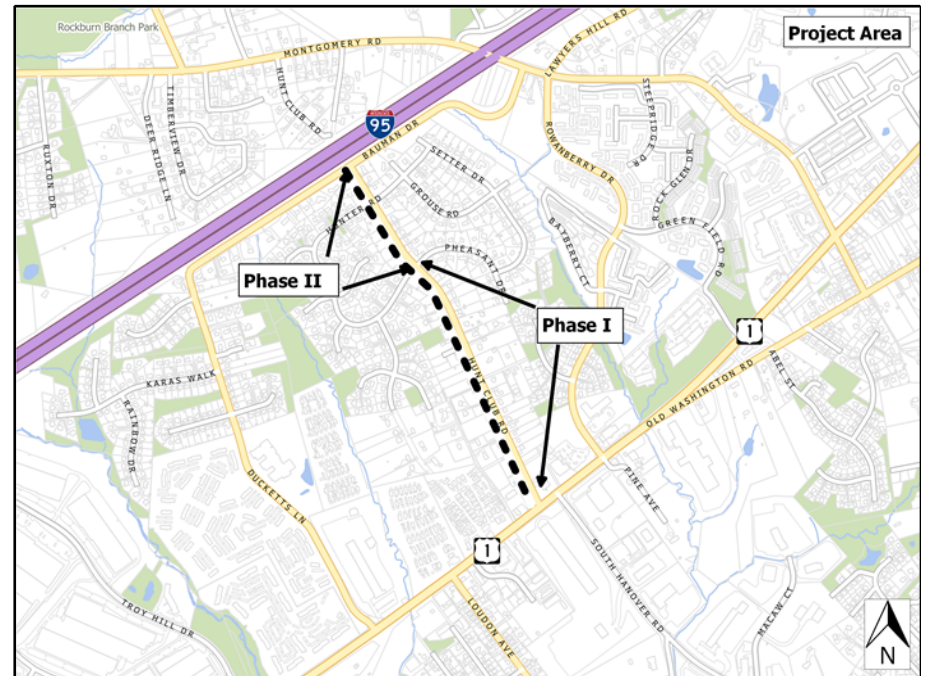

The library on Rowanberry Road is attracting pedestrians along Hunt Club Road. Sidewalks will enhance safety and provide access compatible with American Disabilities Act requirements.

Remarks

1. Construction project may be dependent on donation of necessary easements and/or resident cost share participation.
2. Grant funds represent Airport Noise Zone grant from Maryland Department of Transportation to community groups.
3. Request represents project advancement.

Project Schedule

- FY16 - Phase II - Design.
- FY17 - Phase II - Design.
- FY18 - Phase II - Land Acquisition.
- FY19 - Construction.

Design in progress for Phase II.

Fiscal 2016 Capital Budget

Project: K5035-FY1998 SCHOOL ROUTE PATHWAYS or SIDEWALKS

SIDEWALKS

Number: K5035

Description

This project is for the installation of sidewalks and/or pathways to provide for improved routes for school children.

Justification

The public school system requested the construction of sidewalks and pathways. Installation of these sidewalks and/or pathways are primarily for children walking to and from school. Other recreational and pedestrian transportation benefits can be gained by their installation.

Remarks

1. This project will be coordinated with the Public School System.
2. This project is compatible with the 1999 Sidewalk Policy for placing sidewalks in existing residential communities.
3. Sites next in priority to be evaluated are Old Frederick Road, Montgomery Road, and Crescent Road/Northfield Road.

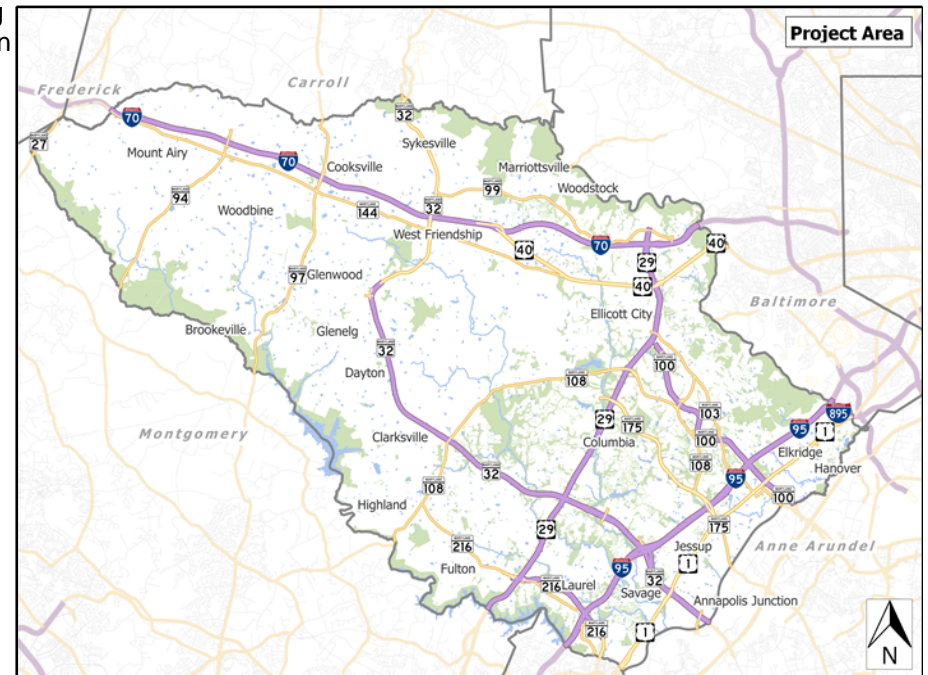

Project Schedule

Program

Operating Budget Impact

Annual Bond Redemption \$ \$71,235

Per previous cost-benefit studies, the reduction of busing costs will offset the construction cost.

Project Status :

\$269,570 spent and encumbered through February 2015

Projects completed - Crescent Pathway, Gorman Rd, Old Waterloo Rd, Aladdin Dr, Vollmerhausen Rd, Pathway to Mt. Hebron HS, Pathway between Furrow Ave and Mist Haven Ct, St. Johns Ln and Corporate Ct.

Description

A project to design and construct routine sidewalk and walkway extensions up to about 1,000 feet in length.

Operating Budget Impact

Annual Bond Redemption \$ \$60,750

Justification

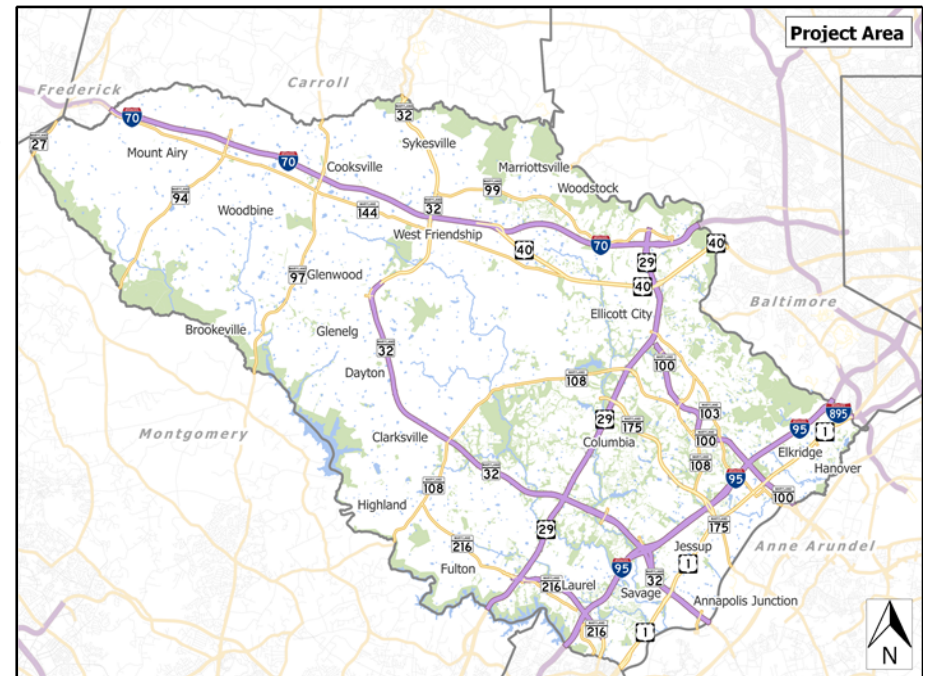

Projects will be initiated by public request or where a need is created by development or to connect existing walks.

Remarks

- 1. This project is compatible with the 1999 Sidewalk Policy for placing sidewalks in existing residential communities.
- 2. Construction of some projects may be dependent on donation of necessary easements.
- 3. Current project locations include: Mellenbrook Rd, Old Annapolis Rd, Burnside Dr, Widdup Ct, Montgomery Rd at Lynn Ct, and Elberta Dr at South Haven Dr.

Construction complete - Mayfield Ave, Stonecrest Dr, Freetown Rd at Quarterstaff Rd, Montgomery Rd, Ridge Rd, Harmony Ln/King's Grant Pathway, Madison Ave, Font Hill Dr, Rivendell Ln, Whitworth Way, Executive Park Dr, St.Johns Ln and Springfield Dr.

Description

A project to design and construct improved pedestrian access along State roads. Annual Bond Redemption \$ \$7,110

Operating Budget Impact

Justification

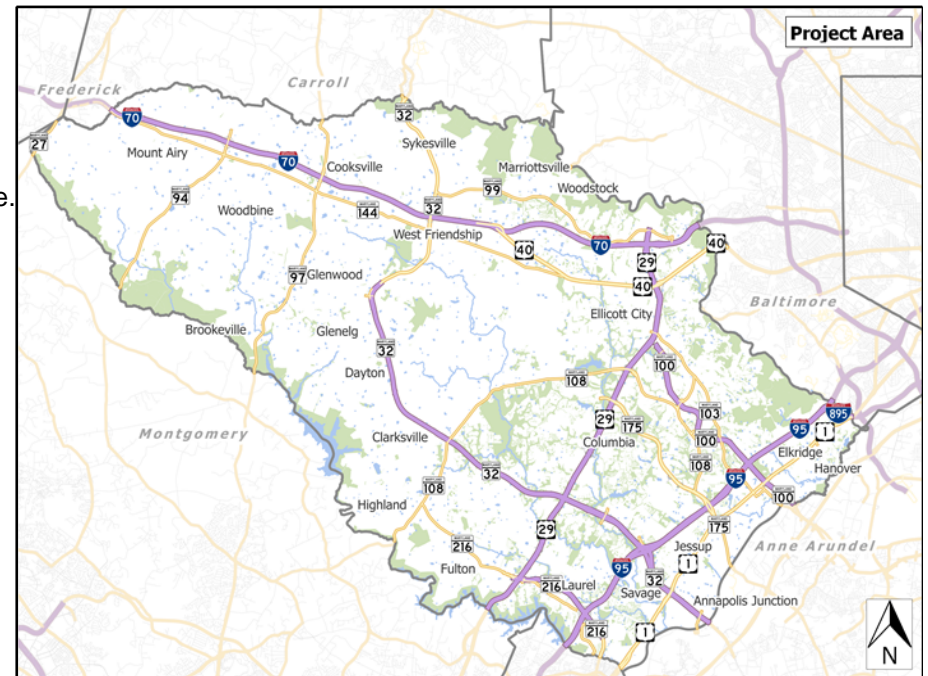

Many State roadways are without sidewalks or shoulders for walkers. Citizens have expressed interest in improving pedestrian access for residential areas and/or commercial/ industrial sites. The project will reduce pedestrian accident potential.

Remarks

- 1. GRANT funds are State Retrofit Sidewalk Program available to complement County funds. County must provide a minimum of 50% match funds for each site.
- 2. Sites include, but are not limited to: sidewalks on US1, US40, MD103 and MD108. US40 EB from Chatham to St. Johns proposed.
- 3. Construction of some projects may be dependent on donation of necessary easements.
- 4. Project to be replaced by K5062.

Project: K5040-FY2005 GUILFORD RD PEDESTRIAN/BIKE IMPROVE

SIDEWALKS

Number: K5040

Description

A project for the design and construction of sidewalk on one or both sides of Guilford Road between Oakland Mills Road and US1.

Operating Budget Impact

Annual Bond Redemption \$ \$106,425

Justification

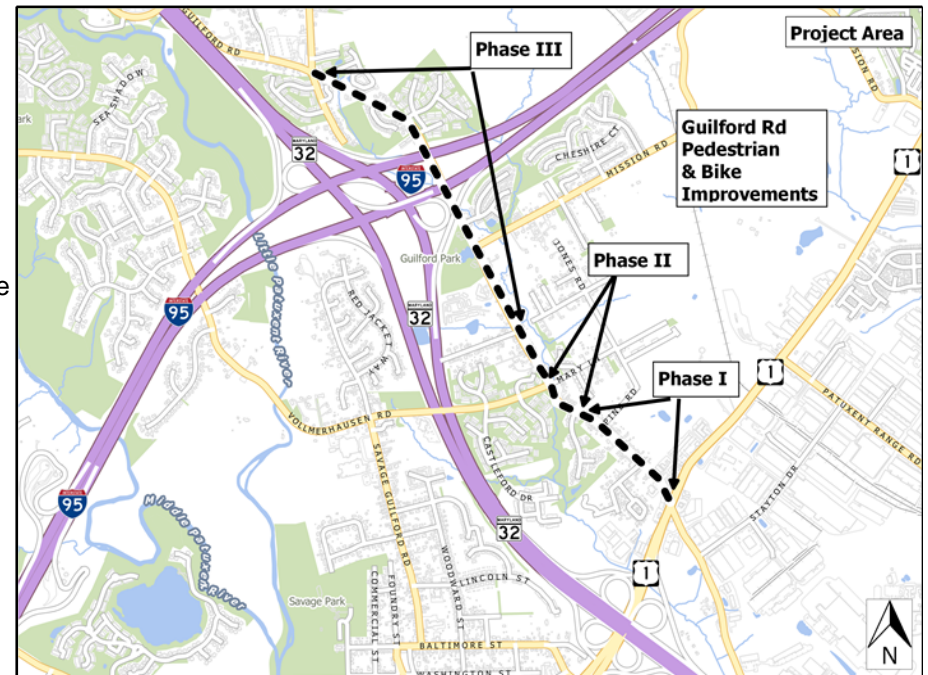

Significant pedestrian and bicycle activity has been observed on Guilford Road. Housing in the area generates a substantial number of trips. The need for improvements to Guilford Road is cited in the Howard County Comprehensive Transportation Plan.

Remarks

1. Department of Recreation and Parks requested extension of sidewalks from US1 and Oakland Mills Road to Guilford Park.
2. Project to be coordinated with D1140 and J4214.
3. Project to be completed in phases: Additional phasing to be determined in the future.
4. Construction of this project may be dependent upon donation of easements and/or resident cost share participation.

Project Schedule

- FY16 - Phase 1 Design and Land Acquisition.
- FY17 - Phase 1 Land Acquisition and Construction.
- FY18 - Phase 1 Construction.

Project: K5043-SIDEWALK REPAIR PROGRAM

SIDEWALKS

Number: K5043

Description

This project is for the repair of deteriorated sidewalks and driveway aprons that are in the public rights-of-way.

Operating Budget Impact

Annual Bond Redemption \$ \$35,550

Justification

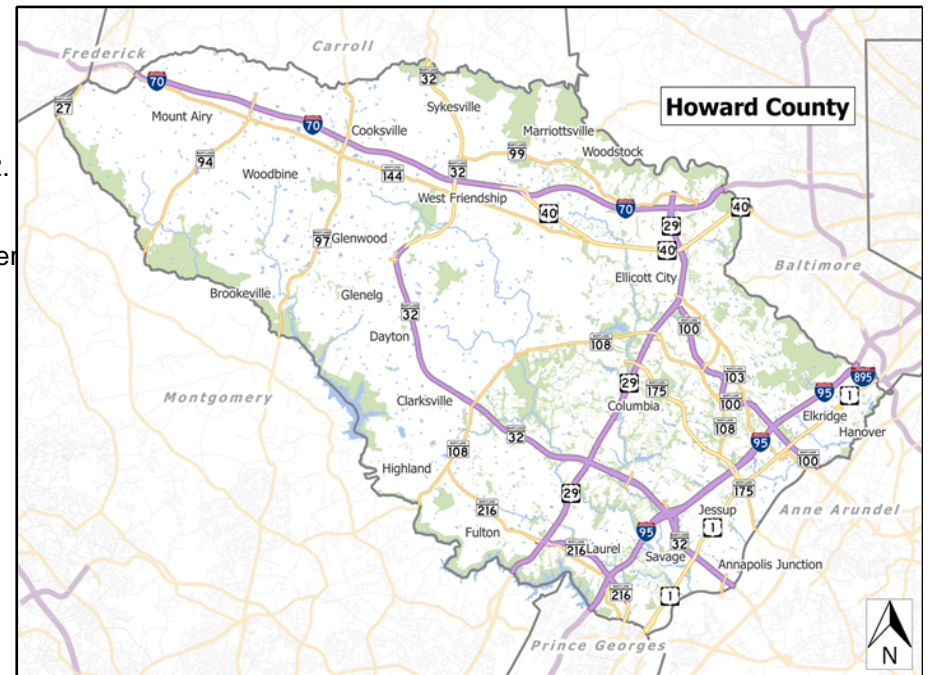

Program has been developed in response to Council Bill #63/1988 for sidewalk repair by County contract, with the provision that abutting property owners shall reimburse the County for expenses or identified repairs over a five-year period.

Remarks

1. This project was first funded in FY99 as a replacement for one begun in FY92.
2. The programmed monies will be used on a first-come first-served basis.
3. OTHER funds represent private homeowner reimbursements.
4. County will be responsible for walks damaged by tree root and/or County water and sewer connections or related causes.

Project Schedule

Close at program completion.

Project: K5054-FY2003 ROADSIDE IMPROVEMENT PROGRAM

SIDEWALKS

Number: K5054

Description

This project is to repair, replace or install sidewalks and ramps for disability areas, curbs, trees, and guardrails to comply with applicable Federal, State and County codes, and to reduce liabilities due to deteriorating appurtenances within County rights-of-way.

Justification

In accordance with Federal Americans with Disabilities Act and Council Resolution 195/1985 to provide disability ramps throughout the County, and to replace damaged curb, trees and guardrails that could pose other hazards.

Remarks

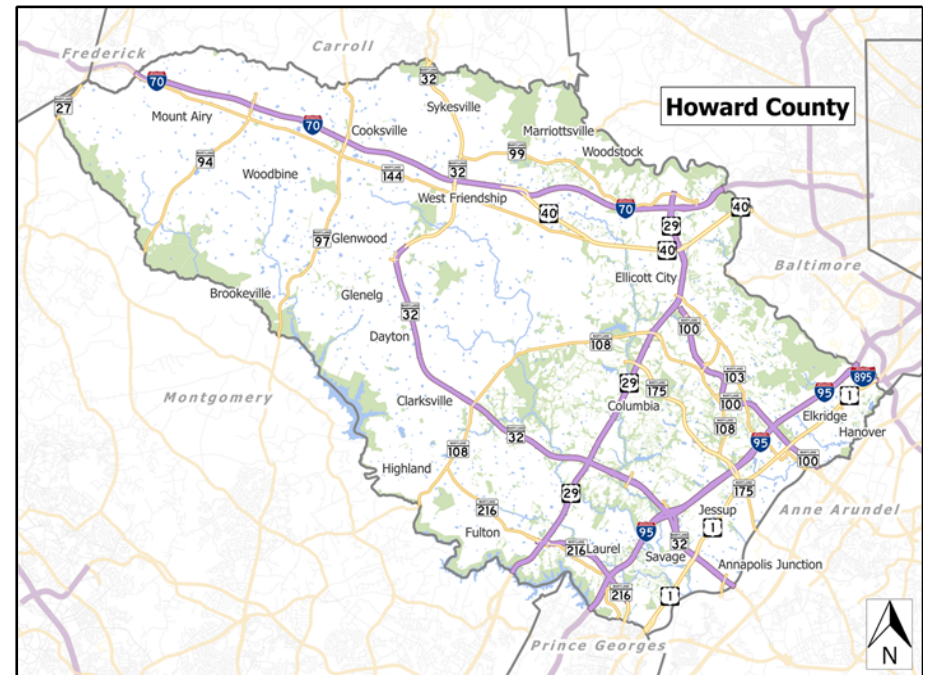

1. Locations to be determined on a requested or as needed basis.
2. Developer monies can be used in lieu of them making limited improvements.

Project Status :

\$3,400,236 spent and encumbered through February 2015

Description

A project for the ongoing evaluation, design and construction of pedestrian improvements listed in the Howard County Pedestrian Master Plan. The candidate project list is updated annually by the Department of Planning and Zoning in coordination with the Department of Public Works.

Justification

Pedestrian projects in Howard County, both private sector and State/County funded, need to be implemented in a consistent ongoing manner derived from a comprehensive, systemic planning process. The Howard County Pedestrian Master Plan provides a comprehensive plan and ongoing process for prioritizing the use of capital funds directed at improving pedestrian safety, mobility, and access to transit, schools, parks etc.

Remarks

- 1. Project addresses collector classification roads. Local roads are addressed under other programs.
- 2. Project is a cooperative effort of the Department of Public Works and the Department of Planning and Zoning.
- 3. Grant represents Transportation Enhancement Grant from SHA.
- 4. Construction of some projects may be dependent on donation of necessary easements.

Project: K5063-FY2017 NORTH LAUREL ROAD SIDEWALK

SIDEWALKS

Number: K5063

Description

A project for the design and construction of a sidewalk along the southwest side of North Laurel Road from Linville Ave to US1.

Operating Budget Impact

Annual Bond Redemption \$ \$9,900

Justification

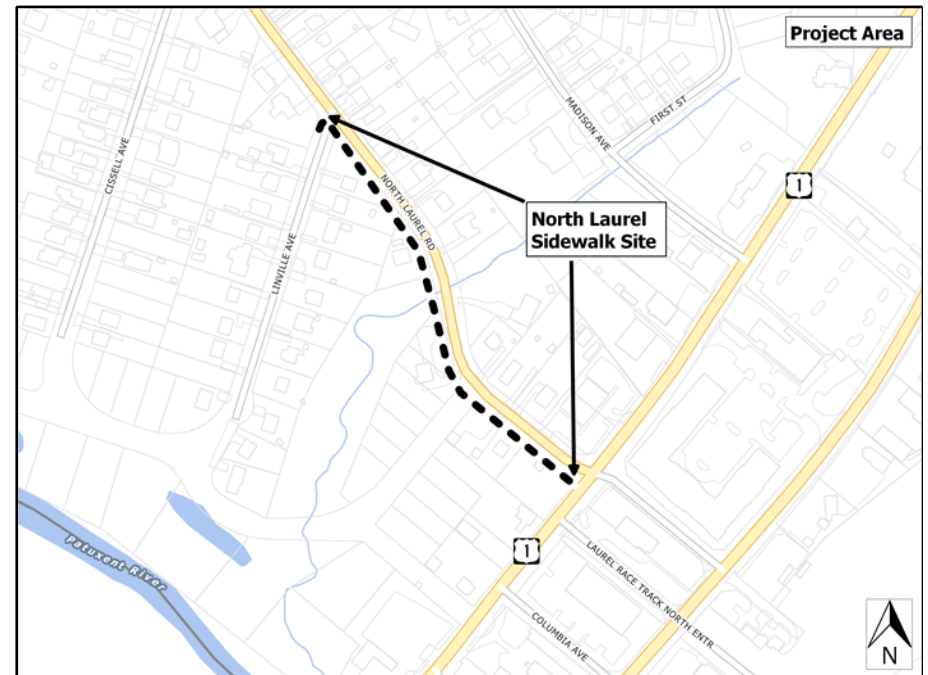

This project was requested by the community, will complement the work done to extend the sidewalk from Baltimore Ave to Linville Ave and will provide a pedestrian connection to US1.

Remarks

1. The sidewalk will be approximately 1,100 feet in length.
2. Curb & gutter may be included if necessary.

Project Schedule

Project: K5064-FY2017 MISSION ROAD SIDEWALK

SIDEWALKS

Number: K5064

Description

A project to install sidewalk along parts of Mission Road. Area 1 will install sidewalk from Pleasant Chase Road to the Ridgley's Run Community Center. This installation involves modification of the existing culvert in order to accommodate a sidewalk. Area 2 will address Mission Road from Guilford Road to Concord Drive.

Justification

Area 1 - There are a number of residents that could walk to the community center rather than drive if a sidewalk was installed. Area 2 - Some sidewalk already exists; this project will complete the system.

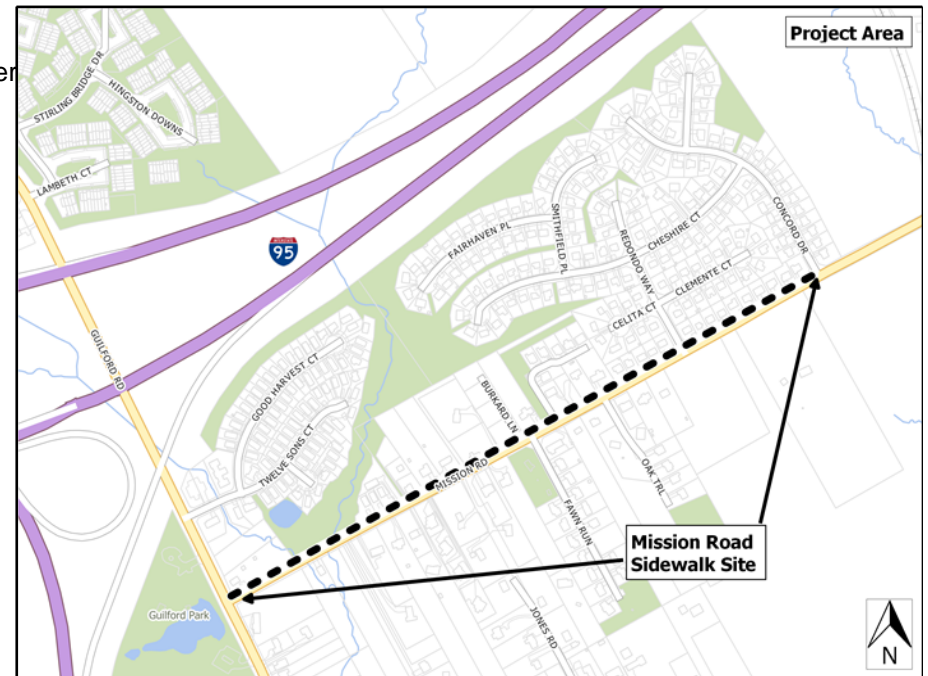

Remarks

Project Schedule

FY17 - Design.
FY18 - Land acquisition and construction.

Operating Budget Impact

Annual Bond Redemption \$ \$12,825

Project: K5066-FY2014 BICYCLE PLAN PROJECTS

SIDEWALKS

Number: K5066

Description

A project for the implementation of the comprehensive Howard County Bicycle Master Plan. The candidate project list will be updated annually by the Department of Planning and Zoning in coordination with the Department of Public Works and the Office of Transportation.

Operating Budget Impact

Annual Bond Redemption \$ \$130,500

Justification

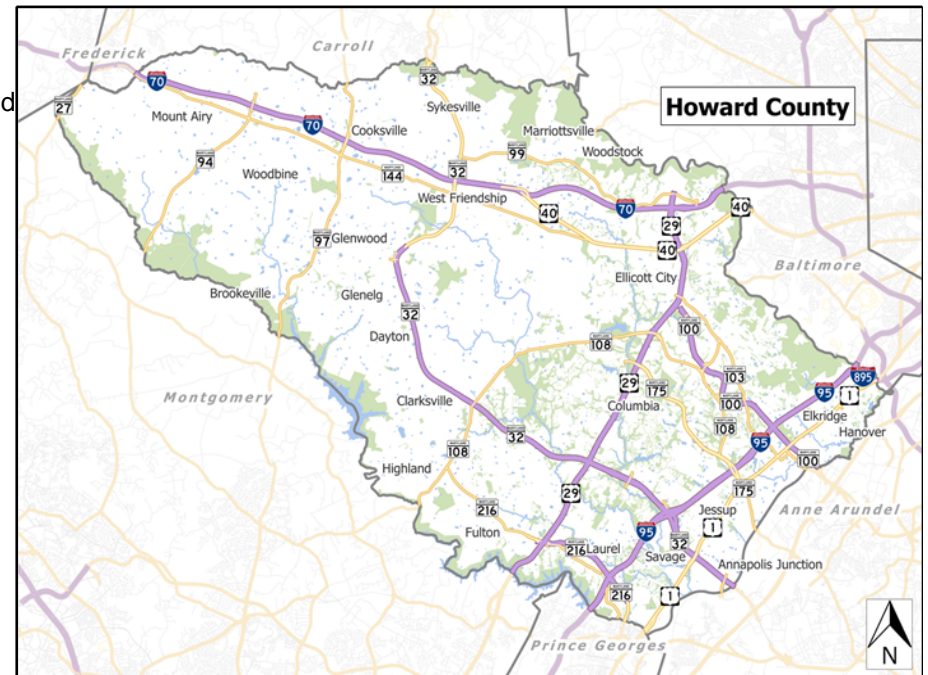

The FY2013 Howard County Bicycle Master Plan will provide a comprehensive plan and ongoing process for prioritizing the use of capital funds directed at improving bicycle safety, mobility, and access to transit, schools, parks, retail and employment centers, etc.

Remarks

1. Project addresses collector classification roads and local roads.
2. Grant funding will be sought.
3. Construction of some projects may be dependent on donation of necessary easements.

Projects completed: Guilford Road widening June 14(MD bikeway grant); MD108 Bicycle Improvement Concept Plans June 14;Pathway from Owen Brown Rd to Stevens Forest Rd October 14 (MD bikeway grant); Crosswalk at Eliots Oak Rd near Harpers Farm Road December 14 (tentatively) (MD bikeway grant); Sidewalk and ADA ramp upgrades at Eliots Oak Rd near Harpers Farm Rd December 14 (tentatively) (MD bikeway grant); Bike lanes along Knights Bridge Rd from Gorman Rd to Gorman Rd (Bike Howard Project #6);Pedestrian/Bicycle Improvements Cedar Ln and Dobbin Rd/McGaw Rd 30% Concept Plans January 15(tentatively).

Under construction: Bike lanes along Gorman Rd from I95 bridge to US 1 (Bike Howard Project #4); Sidewalk and ADA ramp upgrades at Shaker Dr near Cape Ann Dr (MD bikeway grant); Bike lanes along Freestate Dr from Gorman Rd to US1; Stevens Forest Rd from Broken Land Pkwy to Beechwood Dr (Bike Howard Mid Term Network recommendation).

Under design: Fort Meade/NSA Signed Bike Route (OOT as lead).

Proposed Projects: Bike lanes along Vollmerhausen Rd from Murray Hill Rd to Guilford Rd (Bike Howard Project #7); Bike lanes along North Chatham Rd from US40 to Ramblewood Rd (Bike Howard Project #27); Bike lanes along Shaker Dr from MD32 to Allview Dr (Bike Howard Project #3); Bike lanes along Freetown Rd from Cedar Ln to Martin Rd (Bike Howard Mid Term Network recommendation); Bike Lanes along Centennial Ln from Old Annapolis Rd to Frederick Rd. (Bike Howard Project #18); Pedestrian/Bicycle Improvements Cedar Ln and Dobbin Rd/McGaw Rd 100% Plans and land acquisition FY16,Construction in FY17.

Description

A program to self-evaluate Countywide ramps and curb cuts in compliance with American with Disabilities Act 1990 (ADA) requirements. The purpose of the self-evaluation is to evaluate County roadway network and facilities for accessibility.

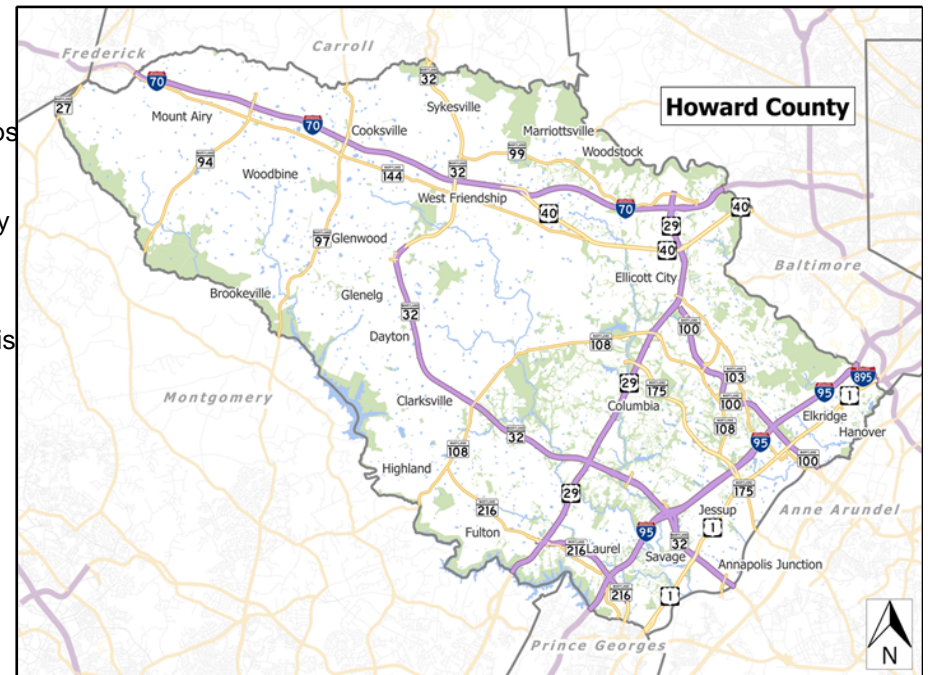

Justification

- A. Self-Evaluation Assessment - The sidewalk ramp upgrades are mandated by governmental laws. Field surveys are conducted for all sidewalks along County roadways include sidewalks, curb ramps, curb cuts, and detectable warning pads. Design elements include width, slope, gaps.
- B. Transition Plan - Develop a transition plan to identify deficiencies, outline steps to address, prioritize and plan for the improvements. The current plan is to provide ramps at all locations where the resurfacing will take place in various parts of the County. In the years 2013 and 2014, DPW has placed approximately 1000 ramps at a cost of approximately \$3.5 million. The County will continue upgrading the remaining ramps and curb cuts through road resurfacing construction to meet ADA requirements. The new element that needs to be provided for is to have an inspector inspect the work been done to make sure it is in compliance with the latest ADA requirements.

Remarks

Project Schedule

Close at program completion.

Project: K5069-FY2016 BITUMINOUS CURB REPLACEMENT PROGRAM

SIDEWALKS

Number: K5069

Description

A program to replace bituminous curbs with concrete ones.

Justification

Bituminous curbs replacement is based on the age and maintenance and drainage history. The bituminous curbs in older subdivisions become brittle due to losing asphalt content and strength. The curbs receive damage annually because of the combination of snow removal and roadway drainage activities. Each maintenance shop has spent tremendous efforts in repair, backfill, seed and mulch the affected areas. The homeowners have been constantly concerned that the new replaced bituminous curbs are not matching the color and shape of the old ones. The concrete curb will have a life of 50 years, which is three times more than bituminous curbs. In the long run, installing concrete curb in lieu of bituminous curb is very cost effective.

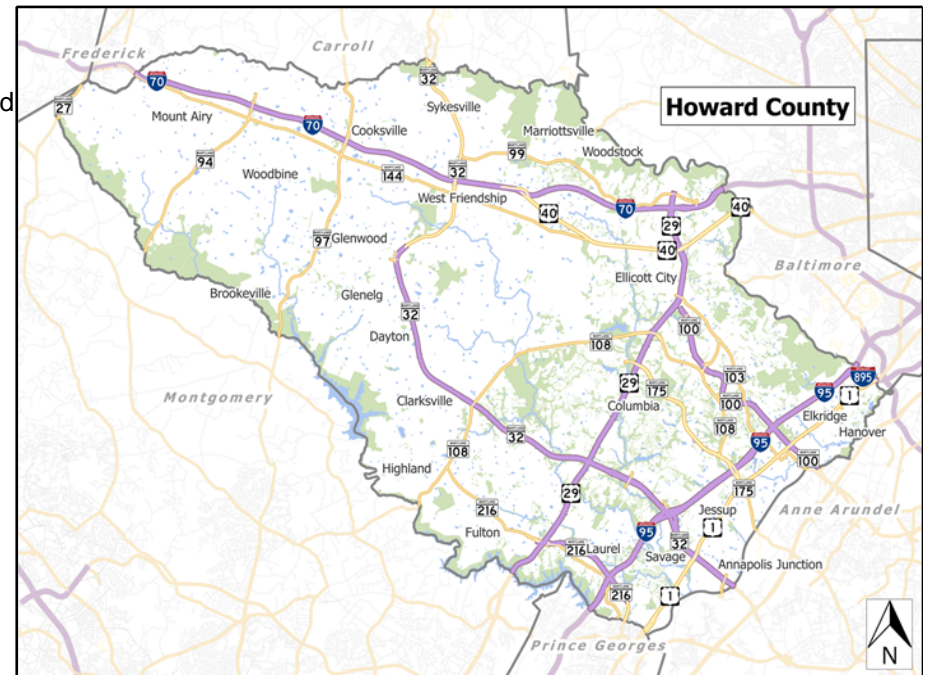

Remarks

Project Schedule

Close at program completion.

Project: L0012-FY2007 MILLER BRANCH/HISTORICAL CENTER

LIBRARY PROJECTS

Number: L0012

Description

A project to replace Howard County Library's (HCL) existing Miller Branch with a new, up-to-date facility on a separate parcel of land. The space and other functional requirements of the new facility are fully defined in the Howard County Library Facilities Assessment & Master Plan of December 2004.

Justification

Based on the Howard County Library Long-Range Facilities Report updated by the HCL Board of Trustees in 1992, 1994, and 1999, the Miller Branch required renovation by the year 2005. The Howard County Library Facilities Assessment & Master Plan of December 2004 determined that the current facility is undersized by a factor of three, and that a 63,000 SF building is required to meet current needs in the Ellicott City service area. The existing Miller Branch will be converted to HCL Business Office space under a separate project (L0014).

Remarks

1. The HCL Miller Branch was expanded in 1985 from 5,000 SF to 23,500 SF. Initial analysis indicated that renovations/expansion would result in an inadequate facility that would not meet the near term space requirements. The nature and cost of the new facility is outlined in the Howard County Library Facilities Assessment & Master Plan of December 2004. The new Charles E. Miller Branch & Historical Center will include a unique emphasis on history, health, and environmental education. This project has benefited significantly from the new State Capital Grants Program for Public Libraries through the Maryland State Department of Education.
2. FY11/12 - \$1.7M was added to the project for the initial book collection (\$1M), Teaching Garden (\$200K), and Radio Frequency Identification System (automated tracking, borrowing, and security system) (\$500K).

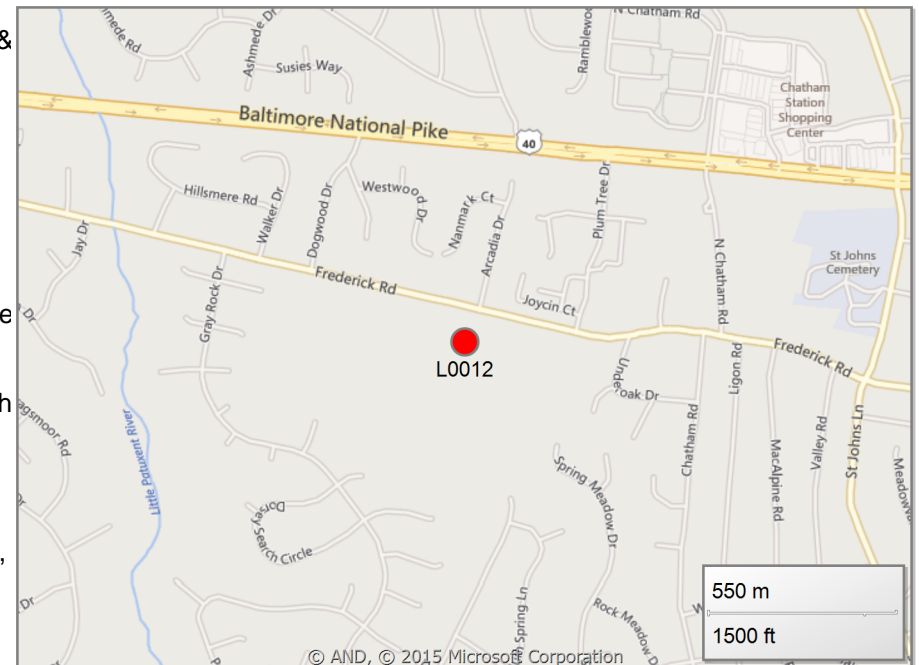

Project Schedule

FY16 - Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$1,180,575

The renovated HCL facility will begin operation in FY12. While Howard County Library Facilities Assessment & Master Plan estimates the facility will require an additional 21 FTEs, HCL's assessment of the implementation of RFID Technology along with the building's efficient design reduces this number to 12 FTEs. Estimated annual utility/custodial costs upon construction completion: \$325,000.00

Total Funding	27,945	0	27,945	0	0	0	0	0	0	0	0	0	0	27,945

Project Status :

\$26,957,820 spent and encumbered through February 2015

FY07/08 - The necessary parcel of land, adjacent to the existing Miller Branch, for this project, has been acquired and a Phase I Environmental Assessment completed.

FY09 - Design underway

FY10 Design completed; Site Work construction underway; Building construction contract awarded.

FY11/12/13/14 Site Work & Building construction complete; site & building contracts closed out; contract executed with the Civil Engineer doing the site design for Lutheran Village at Miller's Grant, for the inclusion of the design of the bridge interconnection; design is at the 75% level; finalization of the Lutheran Village SDP and interconnection is somewhat on hold due to the development's inability to reach the critical number of commitments to move forward.

FY15 design of the bridge is 90% complete. Construction will begin in FY15; construction close out in FY16.

Description

This project repurposes the obsolete Howard County Library, Miller Branch into consolidated HCL business offices (23,000sf). Once converted, HCL administrative staff members, currently working in two locations (HCL Central Branch in a 7,000 SF area, and East Columbia Branch in a 9,000 SF area), will relocate to this unified location, enhancing operating efficiencies and educational opportunities. The building will also provide space for the adjoining senior center activities and other community use.

Justification

Capital Project L0014 renovates the existing Miller Branch into consolidated offices, to include employee work areas, IT support services, meeting spaces, and instructional space for staff training requirements. This project will enhance administrative efficiencies called for in the HCL Facilities Assessment & Master Plan of December 2004.

Remarks

- 1. The former Miller Branch collection has been moved to the Miller Branch & Historical Center, the old facility will be renovated to provide consolidated HCL Business Office space and senior center wellness activities space.
- 2. GRANT represents state funding from Maryland State Department of Education. While HCL requested \$3,799,000 for FY12 & FY13, HCL was awarded a total of \$2,492,335 for the new Administrative Branch.

Project Schedule

FY16 - Complete/Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$271,305

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~The renovated HCL business offices will begin operation in FY2014. There will be no impact on ongoing operating costs for HCL. ~Estimated annual utility/custodial costs upon construction completion: No increase

Project Status :

\$6,814,428 spent and encumbered through February 2015

FY11/12/13/14 - Project design completed; project bid & awarded; demolition work complete; foundation, structure work, & roof completed; interior build out work underway
 FY15 - installation of interior finishes in process, construction completion is imminent

Description

A project to provide additional required public library & senior center space in the RT1 Corridor of Elkridge. This project will satisfy the existing and projected 19,300 SF public library space deficit in the Elkridge area, as well as increase the amount of Senior Center space available. The library space and other functional requirements of this project are fully defined in the Howard County Library Facilities Assessment & Master Plan of December 2004.

Operating Budget Impact

Annual Bond Redemption \$ \$1,447,740

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~Additional FTEs: 6 to 8 ~Estimated annual utility/custodial costs upon construction completion: \$100,000.00

Justification

The current Howard County Library Facilities Assessment & Master Plan, as approved by the HCL Board of Trustees, calls for 35,000 SF of library space for the Elkridge service area. The existing HCL Elkridge Branch is 15,700 SF. Furthermore, the size of the existing Senior Center will be increased to 10,000 SF. Additional space is needed to accommodate current and projected growth. This project will consider constraints and opportunities presented by land use, parking, and engineering; meet the goals and objectives of the RT1 Corridor Study; and be consistent with anticipated BRAC growth.

Remarks

1. OTHER represents funding from the liquidation of an HCLS liability to Howard County from a prior year.

Project Schedule

FY16 - Complete design.
 FY17 Begin construction,
 FY18 - Construction Complete and Project Close Out

Project Status :

\$2,278,054 spent and encumbered through February 2015

FY15 - Design on hold awaiting FY16 budget decision.

FY14 - Design consultants selected by QBS process; scope of work & fees negotiated.

Description

While this project does not expand total square feet for the buildings, it converts former administrative space into public service space, to the benefit of students of all ages. The project provides additional public space at both HCL's Central and East Columbia branches through the renovation of spaces vacated by HCL administrative and technical staff as specified in Capital Project L0014.

Operating Budget Impact

Annual Bond Redemption \$ \$187,650

The renovation of the space will have no impact on staffing or the operating budget. ~Estimated annual utility/custodial costs upon construction completion: No increase

Justification

The HCL Facilities Assessment & Master Plan of December 2004 outlines the need for 142,000 SF of additional library space to meet current and anticipated public service needs in the Planned Service Area. This project will add 16,000 SF of public space in the two Columbia branches by renovating existing administrative space gained through the relocation of HCL administrative and technical staff. It will alleviate current overcrowding and registration close-outs of high-demand educational initiatives for adults, children, and teens. Initiatives that will realize an immediate benefit from this project include Project Literacy, a highly successful adult basic education initiative that annually teaches 500 adult students math, reading and writing skills through free, one-on-one tutoring and class sessions; and Teen Time, an A+ Partners in Education after-school academic initiative for at-risk youth. The project triples the amount of space for both by creating classroom, private tutoring, and individual study spaces in current demand.

Remarks

1. The nature and cost of this renovation project was outlined in the Howard County Library Facilities Assessment & Master Plan of December 2004.
2. Grant represents state funding from Maryland State Department of Education. FY12/13, HCL was awarded a total of \$1,105,000 for the renovated spaces at East Columbia and Central Branches.

Project Schedule

- FY16 - Limited construction completion
- FY17 - Project close out

Project Status :

\$270,185 spent and encumbered through February 2015

FY13/14 Design completion

FY15 - Construction

Description

A project to provide additional required public library space in the RT1 Corridor of North Laurel. This project is designed to address the insufficient meeting, classroom, and public service space. Leveraging the vacated space at the former Senior Center & Health Center facilities, this project will renovate the three distinct spaces to create a unified building with common public spaces in accordance with current codes. The project will enable site modifications that are in alignment with the Chesapeake Watershed objectives for water and land conservation.

Operating Budget Impact

Annual Bond Redemption \$ \$273,375

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. ~Additional FTEs: 6 to 8 (35,000 SF Branch). ~Estimated annual utility/custodial costs upon construction completion: \$100,000.00

Justification

A leader and innovator among the nation's great library systems, HCLS has been recognized nationally for its unprecedented and innovative approach to deliver education, for all ages. The current HCLS Facilities Assessment & Master Plan calls for 35,000 SF of library space for Savage service area based on anticipate population growth rate. This project enables HCLS to become more closely aligned with the Master Plan and national standards for libraries based on population and use data.

Remarks

A feasibility study was conducted in FY2009 to determine whether a 35,000 SF branch could be constructed at same site. The study concluded that, while construction of a new 35,000 SF building is possible at current site, an accompanying parking garage would be required. Based on this study, further analysis is needed to determine the pace of growth, best location and schedule. The renovation completed for L0014 resolve some of the immediate spatial concerns. State Grant funds requested for FY14 were not approved.

Project Schedule

FY16 - Project Close out

FY13 - Renovation design completed

FY14 - Construction complete

Description

A project to renovate the Glenwood Branch to include much needed study rooms and classroom space for the benefit of students of all ages. Refurbishment of interior spaces for teen areas, child reading rooms and restrooms will also be completed.

Operating Budget Impact

Annual Bond Redemption \$ \$32,850

Justification

There is currently only one study room at the Glenwood library. Interior finishes need replacement or substantial repair, teen area needs sound insulating modifications and child reading areas need improvements to lighting.

Remarks

Project Schedule

FY17 - Design renovations and award construction contracts.

Project: M0532-FY2010 ALLIED HEALTH INSTRUCTIONAL BUILDING

HOWARD COMMUNITY COLLEGE

Number: M0532

Description

The design and construction of a health sciences building of approximately 112,692 GSF and 67,036 NASF. This new building will provide the needed facilities necessary to prepare a student for a career in health sciences and related fields. The Health Sciences Division offers programs that include nursing, cardiovascular technology, emergency medical services, exercise science, life fitness, health care, health education, human services, nutrition, radiologic technology, dental hygienist, physical therapist assistant, medical laboratory technician, medical diagnostic sonography, and public health. The proposed building is necessary to support health sciences, allied health, and medical careers disciplines.

Justification

Interest in the health sciences careers has increased significantly. Maryland projects the greatest job-growth in the nursing and allied health fields. Currently there is an unprecedented nursing crises. The college must expand its physical space and renovate its existing buildings and utility services in order to accommodate these new students and faculty. The new facility will include a large assembly hall, classrooms, general labs, specialized labs, skills labs, simulation suites, study and collaboration areas, and administrative and faculty offices.

Remarks

Split-funding for construction was received for this building in FY11 and FY12. The FY13 request was for the project completion phase and included funds for furniture and equipment. The new facility is scheduled to open spring semester 2013.

Project Schedule

FY14 - Complete project and prepare for project closeout.

Operating Budget Impact

Annual Bond Redemption \$ \$1,191,240

The operations of the building will increase the operating budget by approximately \$18.33 per square foot.

Total Funding	50,707	0	50,707	0	0	0	0	0	0	0	0	0	0	50,707

Project Status :

\$49,424,985 spent and encumbered through February 2015

FY13-FY14 - Final furniture and equipment installation.

FY15 - Prepare for project closeout.

Description

Renovate the Nursing Building and ST Building of approximately 107,000 GSF following the move of health sciences programs and science, engineering and technology programs into their new buildings. Once the space currently occupied by health sciences and science and technology is vacated, renovations will need to occur to provide classrooms, labs, collaborative study areas, teaching and learning services, as well as administrative areas.

Operating Budget Impact

Annual Bond Redemption \$ \$959,625

No operating budget impact.

Justification

The Nursing building was constructed in 1976 and is the second oldest building on campus. The building is connected to the ST building which was constructed in 1989. Currently, the buildings cannot support the demand for additional instructional spaces and is being used to its maximum capacity. This project is necessary following the move into the new buildings and will provide the necessary space for social sciences and teacher education divisions. It will also accommodate the center for service learning, teaching and learning services, honors center, faculty development center plus administrative offices. The college must expand its physical space and renovate its existing buildings in order to accommodate its students and staff.

Remarks

The construction phase of this renovation project is being proposed for split-funding.

Project Schedule

FY15-FY16 - Plan and design renovations to existing buildings.
 FY17-FY18 - Construction phase for renovations to existing buildings.
 FY19 - Furnish and equip renovated buildings.

Project Status :

\$0 spent and encumbered through February 2015

FY15 - First phase of design underway.

Description

The purpose of this project is to design and construct a new mathematics building of approximately 71,000 GSF. The math division currently shares the Hickory Ridge Building with continuing education. The construction of this new facility will accommodate the increased enrollment growth and future needs for math instructional space as well as support STEM initiatives.

Operating Budget Impact

Annual Bond Redemption \$ \$578,700

The operations of this building will increase the operating budget by approximately \$19.45 per square foot.

Justification

Over the past five years, the math division has grown by 39 percent. The projected enrollment growth is expected to increase by 32 percent by 2021 and with this continued growth, the current classrooms will no longer be able to accommodate the demand.

Remarks

Project Schedule

- FY18 - Plan and design new building.
- FY19 - Construct new building.
- FY20 - Furnish and equip new building.

Project Status :

\$0 spent and encumbered through February 2015

Description

This project will provide campuswide improvements and modifications to address safety, compliance, and facility renewals in accordance with accepted county and state codes.

Operating Budget Impact

Annual Bond Redemption \$ \$1,077,885

No operating budget impact.

Justification

This project was formerly known as Campuswide Systemic Renovations. This project has evolved and its purpose is to address a multitude of campus improvements, deferred maintenance, and facility renewals. Modifications and upgrades directly impact ADA requirements, life safety issues, code compliance, and address critical deferred maintenance and facility renewals.

Remarks

The college completed a facilities condition assessment in coordination with its 2010-2020 Facilities Master Plan. Funds listed as "other" are provided by the college. The source of these funds is provided through college fund balances, student fees, and the operating budget.

Project Schedule

FY16 - Project requests deferred until FY17.
FY17 - FY23 Installation of security systems, public restroom upgrades, deferred maintenance, major interior improvements, ADA renovations, IT/AV upgrades and modifications, signage package, phased landscaping plan, and necessary modifications to all college buildings, facilities, and campuses.

Project Status :

\$10,338,264 spent and encumbered through February 2015

FY13-FY14 - Campuswide Utilities Upgrade to be completed in FY15.

FY14 - Major interior improvements and upgrades completed.

FY16 - Project requests deferred until FY17.

Description

Provide required modifications to campus roadways and parking to accommodate necessary changes to vehicular and pedestrian traffic patterns. Upgrade the existing roadway infrastructure to accommodate the college's enrollment growth. Provide additional parking facilities to address the severe parking shortage on campus.

Operating Budget Impact

Annual Bond Redemption \$ \$1,353,735

No operating budget impact.

Justification

The college must upgrade its campus roadways to provide safe driving conditions and address state and local codes and compliance. The college strives to keep automobile traffic on the periphery of campus to promote safety and provide a vehicular-free learning environment. This project will address ongoing roadway improvements as well as parking requirements for the college.

Remarks

The college will propose split-funding of the construction phase of this project as eligible. Funds listed as "OTHER" are provided by the college. The source of these funds is through college fund balances, student fees, and the operating budget.

Project Schedule

- FY15-FY16 - Design and construct garage expansion of 750 spaces at East Garage.
- FY17 - Design southeast perimeter road entry.
- FY18 - Construct southeast perimeter road entry.
- FY19 - Design north garage of 750 spaces.
- FY20 - Construct north garage of 750 spaces.
- FY21 - Design south garage of 750 spaces.
- FY22 - Construct south garage of 750 spaces.
- FY23 - Design west garage expansion of 750 spaces.
- FY24 - Construct west garage expansion of 750 spaces.

Project Status :

\$467,081 spent and encumbered through February 2015

FY15 - Design for east garage expansion is underway. Construction manager is on board for preconstruction services.

Description

Design and construct a science, engineering, and technology building of approximately 145,300 GSF. The new facility will support the science and technology disciplines and prepare students for a career in science, technology, and engineering. This new facility will help address local and state workforce shortage areas and supports STEM initiatives.

Justification

This new facility will provide students with appropriate classrooms, labs, and study areas to promote collaborative learning environments needed for the science, engineering and technology disciplines. The disciplines to be housed in this facility include biology, chemistry, physics, astronomy, meteorology, horticulture, physical science, geology, engineering technology, telecommunications, computer forensics, cyber forensics, cyber security, biomedical engineering, and advanced computer systems. This building addresses local and state workforce shortage areas and STEM initiatives. The building will provide the necessary facilities to educate and train students for a career in these fields.

Remarks

With consideration to the debt capacity and funding limitations for both the county and state, the college has requested multi-year funding for the construction phase of this project. Funds listed under "other" are provided by the college. The source of these funds is through the college fund balance, student fees, and the operating budget.

Project Schedule

- FY14 - Complete design of new building.
- FY15-FY17 - Construct new building.
- FY17 - Furnish and equip new building.

Operating Budget Impact

Annual Bond Redemption \$ \$1,722,060

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~The operations of this building will increase the operating budget by approximately \$18.70 per square foot.

Project Status :

\$4,926,770 spent and encumbered through February 2015

FY14 - Design completed fall 2014.

FY15 - Construction commenced.

Description

The purpose of this project is to obtain a maintenance building to support plant operations and facilities. As the college continues to grow, the campus maintenance area must also expand. The college's utilities also need to be upgraded to support future buildings and load requirements. This project will help increase efficiency between the utility plant and the maintenance building. It will assist the college in developing cost-savings programs that will enhance building efficiency and ultimately decrease operating costs.

Justification

With the recent construction and renovations on campus, the college's total on-campus gross square feet is 774,368. In order to properly service the campus buildings, infrastructure, and college community, a maintenance building is needed. With the continued growth, the current area can no longer accommodate the demand. A proper maintenance and plant operations facility is required. Plant operations and maintenance also assure the cleanliness of all college facilities and grounds to sustain an environment conducive to learning. A new facility is required to provide responsive, reliable, and cost-effective services for a safe and comfortable environment for college students, faculty, and staff.

Remarks

Project Schedule

- FY19 - Design new facility.
- FY20 - Construct new facility.
- FY21 - Furnish and equip new facility.

Operating Budget Impact

Annual Bond Redemption \$ \$333,900

The operations of this building will increase the operating budget by approximately \$19.45 per square foot.

Project Status :

\$0 spent and encumbered through February 2015

Description

Construct a new athletic and fitness center of approximately 59,000 square feet to replace the existing facility constructed in 1969. Since the existing building requires significant repair beyond its structural life, the college must plan for a new facility to house athletics and fitness.

Justification

While the college has been maintaining the existing facility, it was determined that the cost of renovation exceeds the cost of new construction. The existing building consists of cast-in-place concrete walls and floor slab. The condition of the concrete has spalled and cracked at the walls, floors, and beams making it structurally unsound. In addition, the leaching of chemicals and mineral deposits has had an adverse affect on the overall life of the building. Because the building requires significant repair beyond its structural life, the college is proposing a new facility to house athletics and fitness. The new facility is proposed as a multi-level facility with design planned for FY18.

Remarks

The construction phase of this facility will be proposed for split-funding.

Project Schedule

- FY18 - Plan and design new facility.
- FY19-FY20 - Construct new facility.
- FY21- Furnish and equip new facility.

Operating Budget Impact

Annual Bond Redemption \$ \$1,120,500

The operations of this building will increase the operating budget by approximately \$20.24 per square foot.

Description

Construct a new continuing education and workforce development facility of approximately 60,000 GSF to support noncredit courses, contract credit courses, and professional services to individuals, county agencies, and employers throughout the State of Maryland.

Justification

Continuing education provides special services to the community as well as county and state agencies such as workforce development and contract training (credit and noncredit) in business management, healthcare, advanced technology, and other areas. Courses and programs are offered in a variety of formats and held at various sites throughout Howard County including the public schools, Ecker Business Training Center, Laurel College Center, and Mt. Airy College Center. A new building is required to ensure that the college continues to provide quality services to the community including online and web accessibility.

Remarks

Project Schedule

- FY20 - Plan and design new building.
- FY21 - Construct new building.
- FY22 - Furnish and equip new building.

Operating Budget Impact

Annual Bond Redemption \$ \$588,600

The operations of this building will increase the operating budget by approximately \$20.24 per square foot.

Description

Construct a new facility of approximately 60,000 GSF to accommodate the English and world languages division.

Justification

Once the business and computer systems division expands in Duncan Hall, the English and world languages division will need to move to a new facility. The new space will expand offerings that are currently in high demand. This facility is integral to campus development based on its importance to the community and the local economy as well as the need for additional space. The program goals of meeting enrollment growth and the consolidation of programs in one area can be accomplished effectively with the development of this new building.

Remarks

Project Schedule

- FY21 - Plan and design new building.
- FY22 - Construct new building.
- FY23 - Furnish and equip new building.

Operating Budget Impact

Annual Bond Redemption \$ \$568,800

The operations of this building will increase the operating budget by approximately \$20.24 per square foot.

Project Status :

\$0 spent and encumbered through February 2015

Description

Construct a new student life building of approximately 60,000 GSF to serve the student life and student club activities at the college.

Justification

The original intent of the RCF Student Services Hall was to include the functions of student life. In order to accommodate the needs of the other student services operations on campus in addition to regulating the building footprint, the student life areas were removed from the planning and design of the building. This new proposed facility will concentrate several functions into a consolidated area to meet new programmatic demands of student groups and activities. The new space will expand the existing student life and student club areas into one building. The building is proposed to be located on the south end of campus in close proximity to the new athletic and fitness facility as well as new academic buildings. It is proposed to house student life administrative spaces, student club space requirements, meeting space, lounge space, study space and food venues. The program goals of meeting enrollment growth, promoting student development and enrichment, and the consolidation of programs into one area can be accomplished most effectively with the development of this new building.

Remarks

Project Schedule

- FY22 - Plan and design new building.
- FY23 - Construct new building.
- FY24 - Furnish and equip new building.

Operating Budget Impact

Annual Bond Redemption \$ \$705,600

The operations of this building will increase the operating budget by approximately \$20.24 per square foot.

Project: N3102-FY2000 BLANDAIR REGIONAL PARK

PARKS PROJECTS

Number: N3102

Description

A project to master plan, design, and construct a 298 acre regional park, and restore the 19th century Blandair Mansion and out buildings located off MD175 in Columbia.

Justification

Project identified in the 2005 and 2012 Land Preservation and Recreation Plan and is endorsed by the Recreation and Parks Advisory Board, and the Blandair Planning Committee.

Remarks

1. Prior funds include \$1,475,000 in State Bond Bill and FY11-\$219,000, FY12-\$438,000, FY13-\$440,000 and FY14-\$1,443,000 in Program Open Space funds.

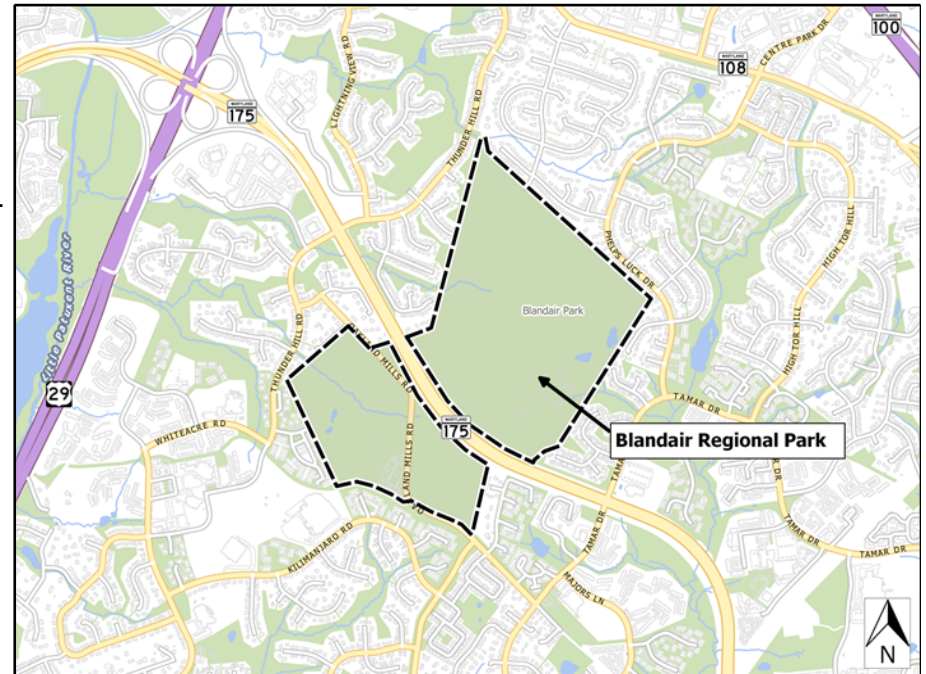

Project Schedule

FY17 - Continued restoration of mansion and outbuildings and start construction of Phase III and continue design of Phase VI.
FY18 - Start design of Phase IV.
FY19 - Start Construction of Phase VI and start design of Phase V.
FY20 - Start construction of Phase IV and start design of Phase VII.
FY21 - Start construction of Phase V.
FY22 - Start construction of Phase VII.

Operating Budget Impact

Annual Bond Redemption \$ \$2,341,260

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. The operational costs after construction for each phase is estimated: Phase II - \$182,000, Phase III - \$137,600, Phase IV - \$126,500, Phase V - \$250,000, Phase VI - \$400,000, Phase VII - \$100,000

Construction of Phase II. Started design of Phase III and VI.

Fiscal 2016 Capital Budget

Project: N3103-FY2000 PARKLAND ACQUISITION PROGRAM

PARKS PROJECTS

Number: N3103

Description

This project establishes a fund for County-wide park land acquisition and related expenses. This project allows the County to move quickly to acquire land which becomes available, and satisfies one or more of the following objectives: addresses State and County Greenway objectives, protects sensitive natural resources threatened by development, acquire additions to existing parks, and/or satisfies park and open space needs as identified in the 2005 and 2012 Land Preservation, Recreation and Recreation Plan.

Justification

This project has been endorsed by the Recreation and Parks Advisory Board and is supported by the 2005 and 2012 Land Preservation and Recreation Plan.

Remarks

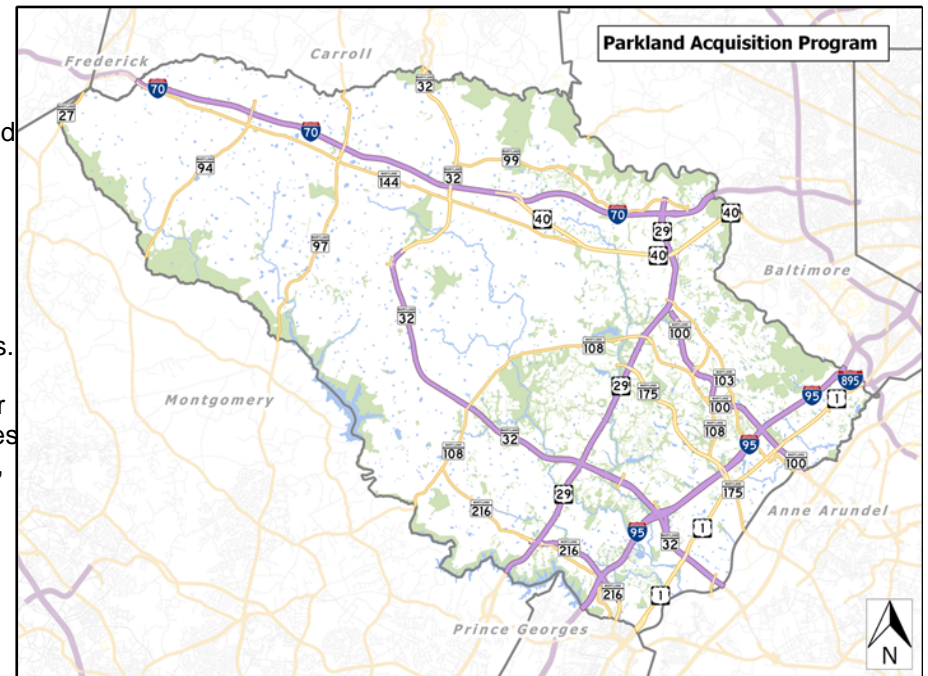

1. Additional community park sites are programmed for Fulton North, Fulton South, Harding Road, Clarksville, Brighton Dam Road, Homewood Road, and Cabin Branch. Also additional acquisitions on the County and State Greenways.
2. FY15 \$4,883,000 reduction in Program Open Space grants funds due to request versus award in prior open space funding. Request addresses funds for 2017 Land Preservation & Recreation Plan, appraisals and environmental studies
3. FY16 Request addresses additional funds for property acquisition, appraisals, title reports and environmental studies.

Project Schedule

FY16 - Land Acquisition Continues

Operating Budget Impact

Operating costs of woodland and natural areas are absorbed within current operational budgets. Developed park areas are maintained at an average cost of \$3,900 per acre per year.

Project: N3105-FY1995 MEADOWBROOK PARK

PARKS PROJECTS

Number: N3105

Description

A project to master plan, design, and develop an 84-acre park located southeast of MD100/US29. Facilities have been determined by the master plan and citizen input.

Operating Budget Impact

Annual Bond Redemption \$ \$53,145

The operating costs are absorbed within current operational budget.

Justification

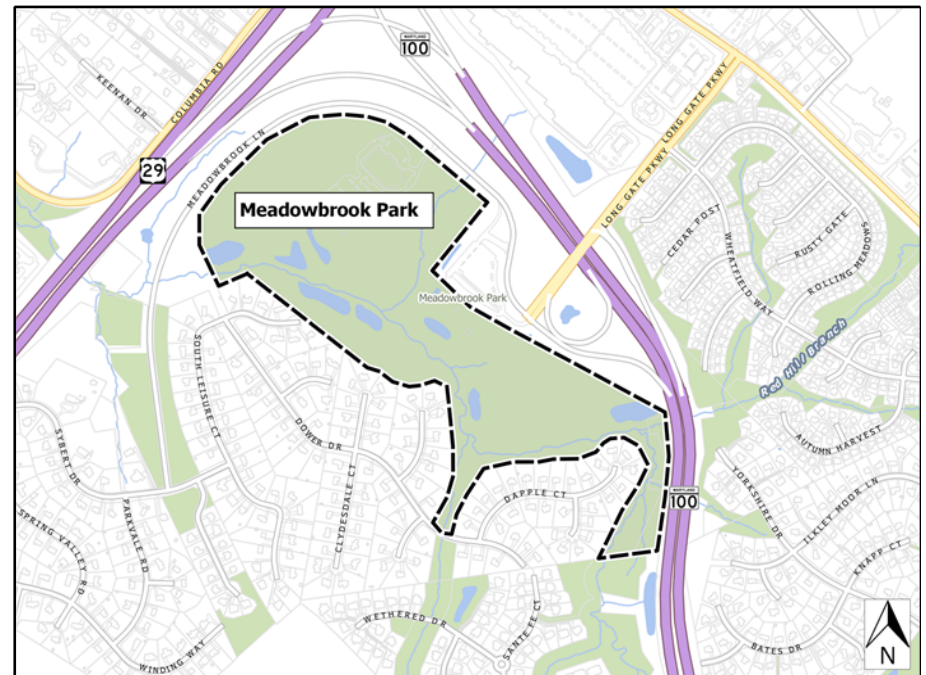

This project conforms to the goals and objectives of the 2005 and 2012 Land Preservation and Recreation Plan. It has been endorsed by the Recreation and Parks Advisory Board and the Meadowbrook Park Citizen Planning Committee.

Remarks

Prior funds include State Program Open Space and State Transportation Equity Act funds. Prior appropriation reflects TAO #2-FY2009 and TAO #1-FY2010.

Project Schedule

FY16 - Close

Project Status :

\$8,467,091 spent and encumbered through February 2015

Completed additional landscaping.

Description

A project to provide additional improvements at Rockburn Park to include the synthetic turf field, parking, a restroom and utility extensions. This park is located at Landing and Montgomery Roads.

Justification

This project is identified in the 1999, 2005 and 2012 Land Preservation and Recreation Plans, and is endorsed by the Recreation and Parks Advisory Board.

Remarks

Prior appropriation reflects TAO #2-FY2009

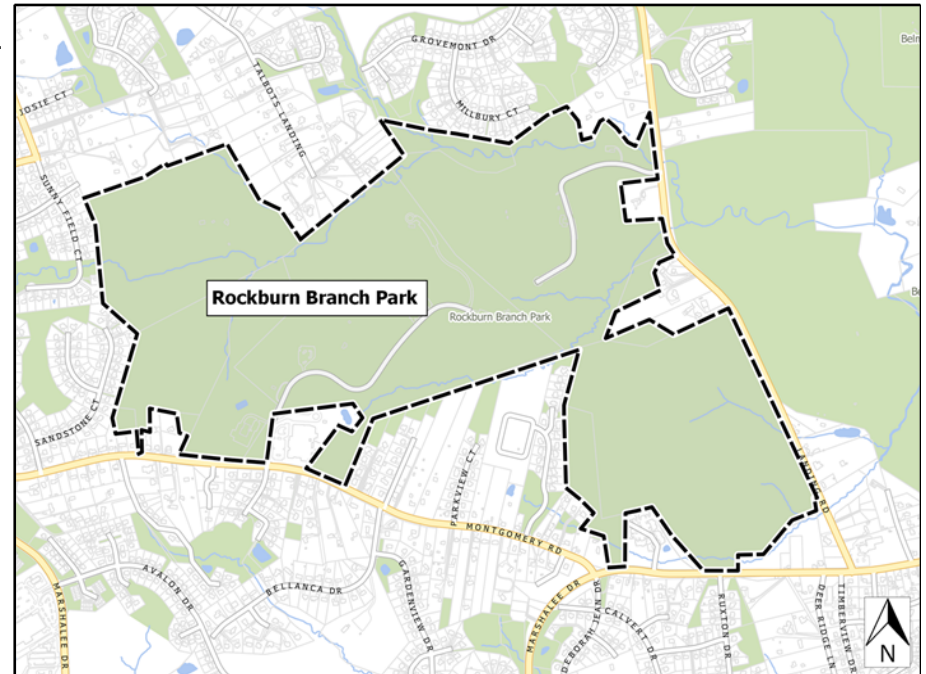

Project Schedule

FY18 - Phase III installation of light and synthetic field on field 15.
 FY19 - Design and construction of restroom and utilities.

Operating Budget Impact

Annual Bond Redemption \$ \$155,160

Utility and maintenance costs for the future restroom \$11,000 annually. The new ballfield lights proposed in FY18 and the new synthetic turf field proposed for FY18 will be replacing existing lights and a natural turf field which operating costs are absorbed within current operational budget.

Project Status :

\$5,769,569 spent and encumbered through February 2015

Description

This project will provide replacement of all types of park facilities and related engineering to include equipment, or building elements which have deteriorated beyond routine maintenance efforts. This project will also address small park upgrades.

Justification

Project endorsed by the Recreation and Parks Board and is consistent with 1999, 2005 and 2012 Land Preservation and Recreation Plan.

Remarks

FY16 - Ongoing park improvements. Funds also address replacement of synthetic turf fields at Western Regional Park and Cedar Lane Park.

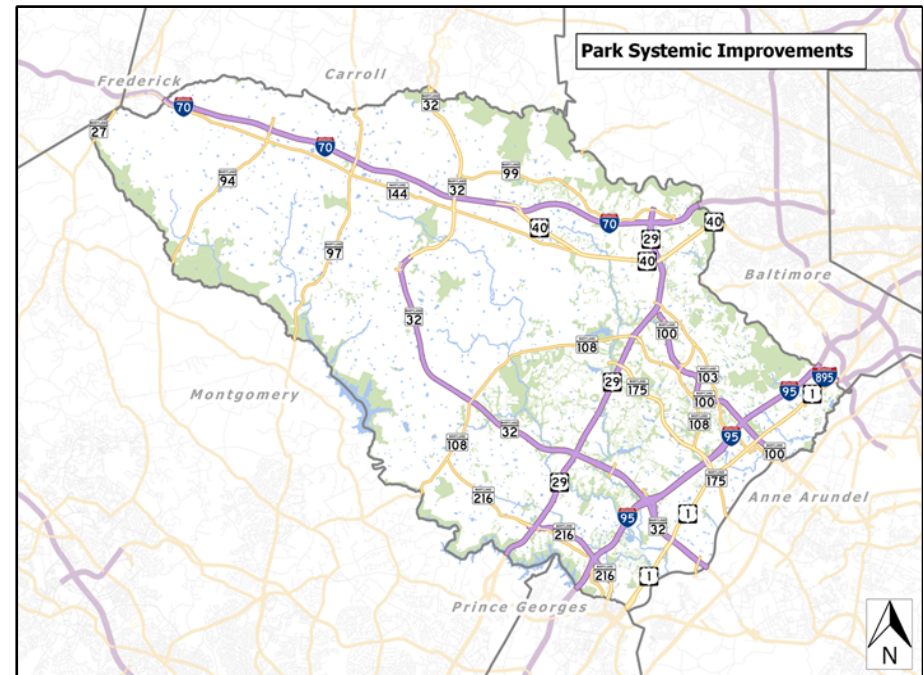

Project Schedule

FY16 - Planning and Construction Continues
FY16-21 - Construction Continues

Operating Budget Impact

Annual Bond Redemption \$ \$1,055,250

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. No additional operating funds required. Projects are upgrades of existing facilities or small improvements where the operating expenses are already addressed in the operating budget, or sites are maintained by community associations.

Resurfaced Centennial, Hammond, High Ridge, Holiday Hills, Dayton Parks and Warfield's Pond Park's tennis and basketball courts. Resurfaced pathways.

Fiscal 2016 Capital Budget

Project: N3932-FY2000 WESTERN REGIONAL PARK

PARKS PROJECTS

Number: N3932

Description

A project to design and construct a 160-acre regional park located northwest of the intersection of Carrs Mill Road and MD97. Included will be Concession, restroom, pavilion and all utilities.

Justification

This project is identified in the 1999, 2005 and 2012 Land Preservation and Recreation Plans. This project has been endorsed by the Recreation and Parks Advisory Board.

Remarks

Prior funds include Program Open Space funds.

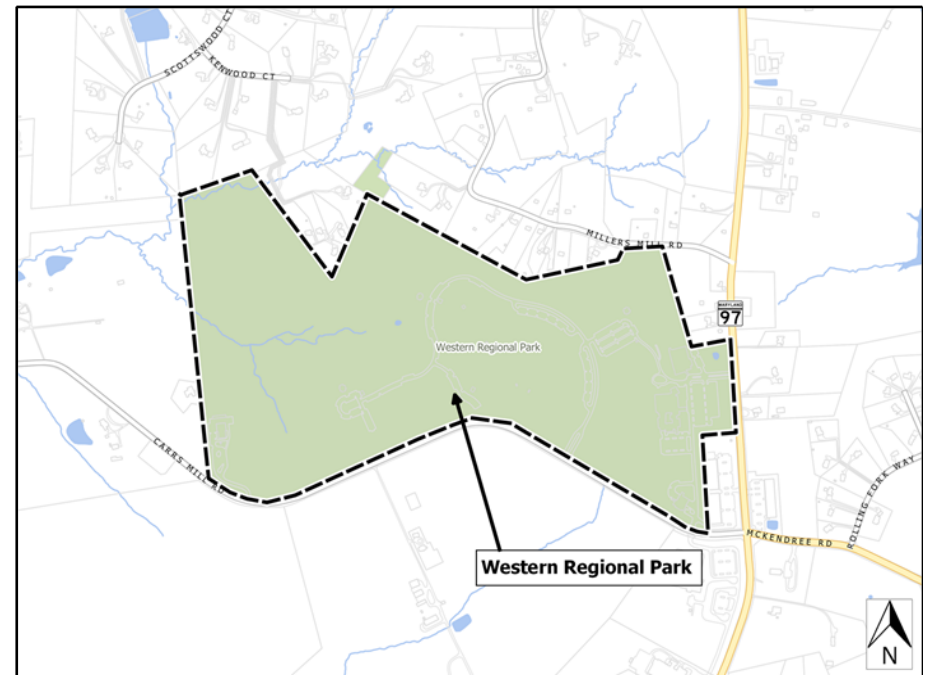

Project Schedule

FY17 - Design Phase V restroom/pavilion/concession building and parking.
FY18 - Construct Phase V
FY19 - Complete

Operating Budget Impact

Annual Bond Redemption \$ \$216,855

Estimated operating costs for Phase V restroom and concession building is estimated at \$20,000 annually.

Project: N3940-FY2000 NORTH LAUREL PARK

PARKS PROJECTS

Number: N3940

Description

A project to design and construct a 51-acre park and swimming pool lying northeast of North Laurel Road and Washington Avenue. Facilities are being determined by a citizen's advisory committee and a master plan effort.

Justification

This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan, and is endorsed by the North Laurel Planning Committee and the North Laurel Civic Association.

Remarks

1. Prior year funds available will address the construction of the park which consists of roads and parking, playground, pavilions, restrooms, skate park, basketball courts, tennis courts, baseball fields, and multi-purpose fields. Prior appropriation reflects a TAO FY13 of a reduction of \$700,000.
2. FY15 Request addresses design funds for outdoor swimming pool.

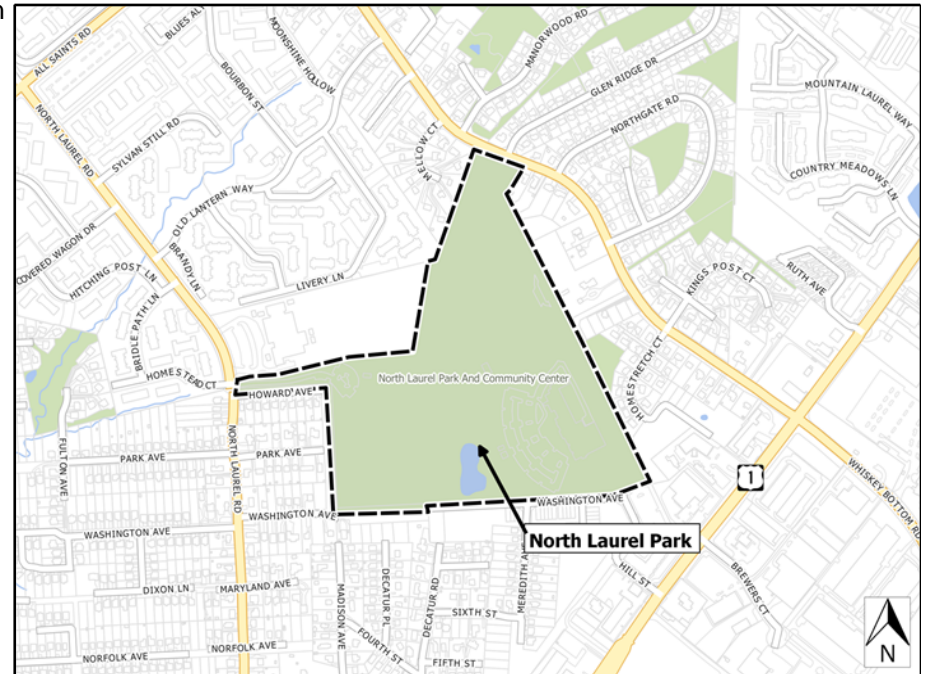

Project Schedule

FY19 - Construction of swimming pool

Operating Budget Impact

Annual Bond Redemption \$ \$403,245

Annual operating costs for the future community park are estimated to be \$95,000.

Project: N3947-FY1999 NEIGHBORHOOD PLAYGROUND PROGRAM

PARKS PROJECTS

Number: N3947

Description

This project will develop neighborhood playground facilities on County parkland or open space throughout the County where community need has been demonstrated.

Operating Budget Impact

Annual Bond Redemption \$ \$1,800

Annual Maintenance costs average \$3,000 per playground.

Justification

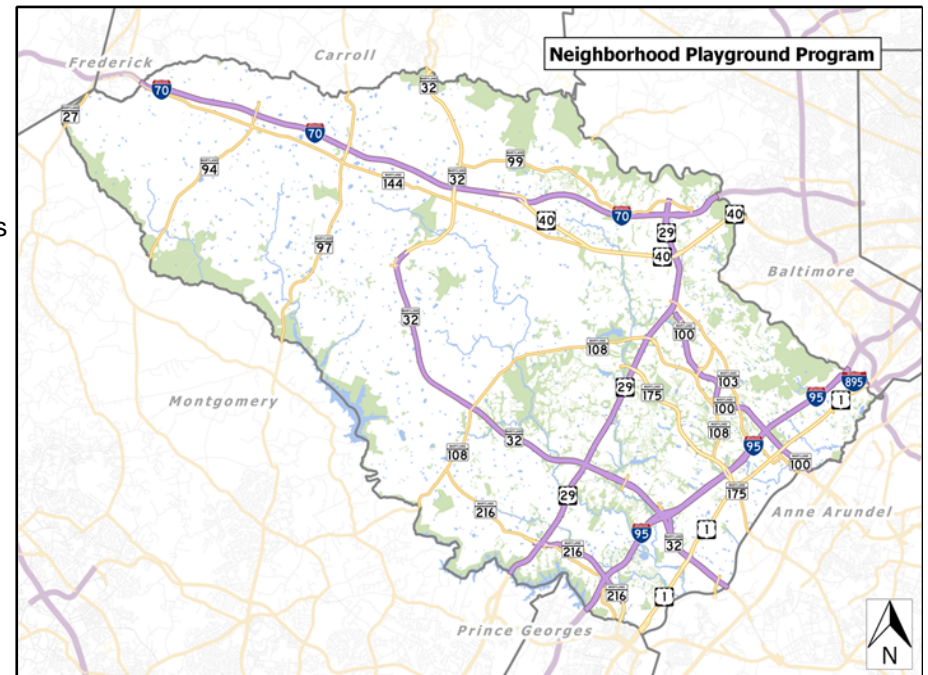

This project is endorsed by the Recreation and Parks Advisory Board and is consistent with the 2005 Land Preservation, Recreation and Parks Plan.

Remarks

1. To participate in this program the community must contribute 10% of the equipment cost not to exceed \$4,000.
2. Prior funds represent 10% contribution from the Governor's Run HOA towards playground replacement in the future.

Project Schedule

FY15 - Close

Project Status :

\$223,705 spent and encumbered through February 2015

Description

A project to design and construct improvements to Centennial Lake to include dredging, artificial aeration, and shoreline stabilization.

Justification

In 1995 a study was conducted by Coastal Environmental Services Inc. recommending that the above measures be taken to restore the health of the lake. This project is endorsed by the Recreation and Parks Advisory Board and is included in the 2005 and 2012 Land Preservation and Recreation Plan.

Remarks

1. Prior year funds will evaluate additional dredging options, and develop job specifications and plans.

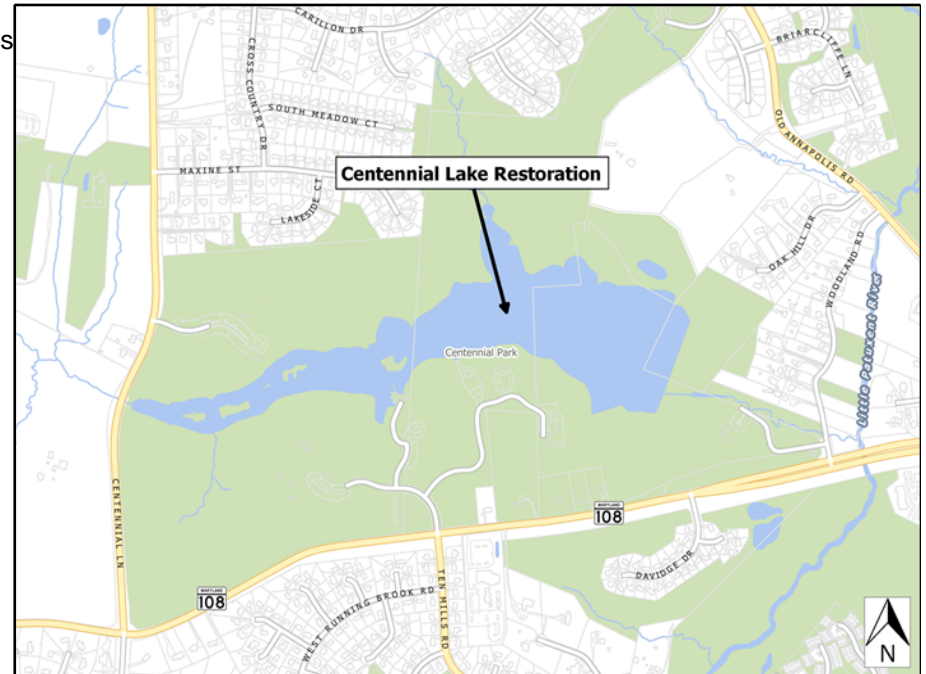

Project Schedule

FY17 -Complete design and construction to begin.
FY18 -Continue construction
FY19 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$315,945

No additional operating costs will be associated with this project other than the electricity required to operate the potential aeration pumps which is estimated at less than \$1000 per year.

Project Status :

\$59,738 spent and encumbered through February 2015

Lake bottom survey, sediment analysis, and dredging methods being evaluated in preparation for project design.

Description

A project to acquire an additional 5 acres, rehabilitate an 1820 historic house, and design and construct a 106 acre Regional Park at MD100 and US1.

Justification

This project conforms to the goals and objectives of the 1999, 2005 and 2012 Land Preservation and Recreation Plan. This park will provide needed recreation facilities for the Elkridge Planning Area. The rehabilitation of the Troy House is endorsed by Preservation Howard County. This project is a key component to the US1 Corridor Revitalization effort.

Remarks

1. Prior funds include FY11-\$219,000 in Program Open Space Funds and, FY09-\$150,000 and FY10-\$455,000 in State Bond Bills.

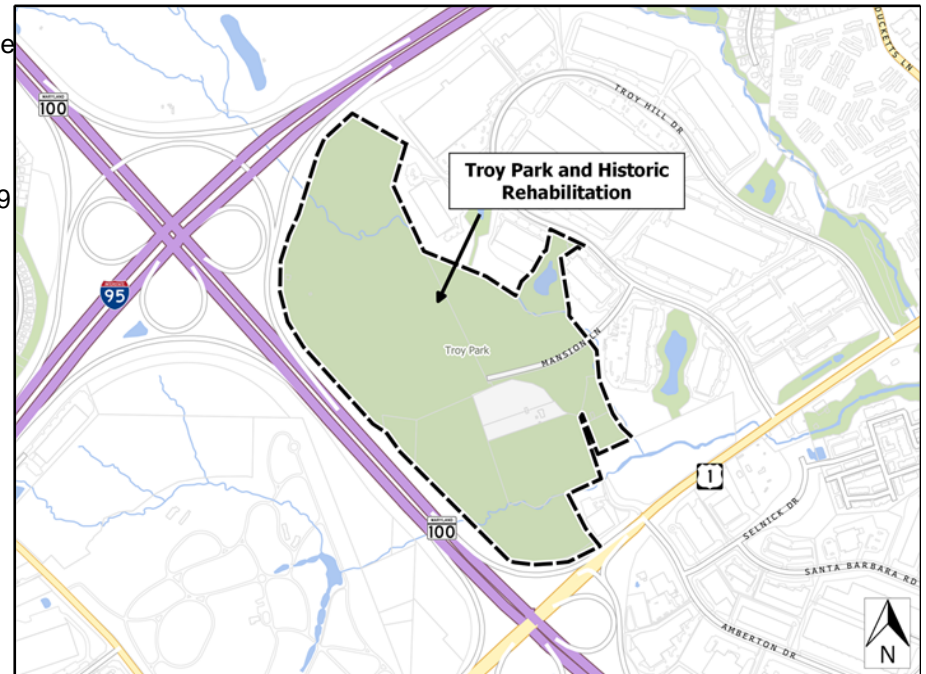

Project Schedule

- FY17 - Continue construction of Phase II, III. Start design of Phase IV.
- FY18 - Start construction of Phase IV and start design of Phase V.
- FY20 - Start construction of Phase V.

Operating Budget Impact

Annual Bond Redemption \$ \$2,199,825

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. Operational cost after construction for each phase is estimated: Phase I - \$20,000, Phase II - \$156,000, Phase III - \$132,000, Phase IV - \$500,000 and Phase V - \$130,000.

Project Status :

\$12,600,982 spent and encumbered through February 2015

Completed Phase I construction.

Description

This project creates a fund for the preservation and rehabilitation of historic properties under the management of the Department of Recreation and Parks. Work may include archeology studies, historical assessments, design and engineering related to historic buildings and site improvements.

Justification

This project is in compliance with the 2005 and 2012 Land Preservation and Recreation Plan, and it is endorsed by the Recreation and Parks Advisory Board and Preservation Howard County.

Remarks

1. Prior year OTHER funds represent insurance recovery on building loss at former Tisano property and revenue from the sale of property and development rights, grants and private contributions.
2. Prior Year OTHER sources may include revenue from the FY14 sale of the Dobbin property - \$780,000, FY13 - \$1,000,000 & FY 15 \$500,000 for the sale of property development rights for the Belmont property and other properties, private contributions and \$125,000 for FY14 State Bond Bill.
3. FY16 - Request addresses funds for ongoing renovations/improvements on park historic structures/sites. Other sources include \$1,740,000 revenue for the sale of property development rights for the Belmont property and a \$300,000 State Bond Bill request for Clover Hill Historic Farm House.

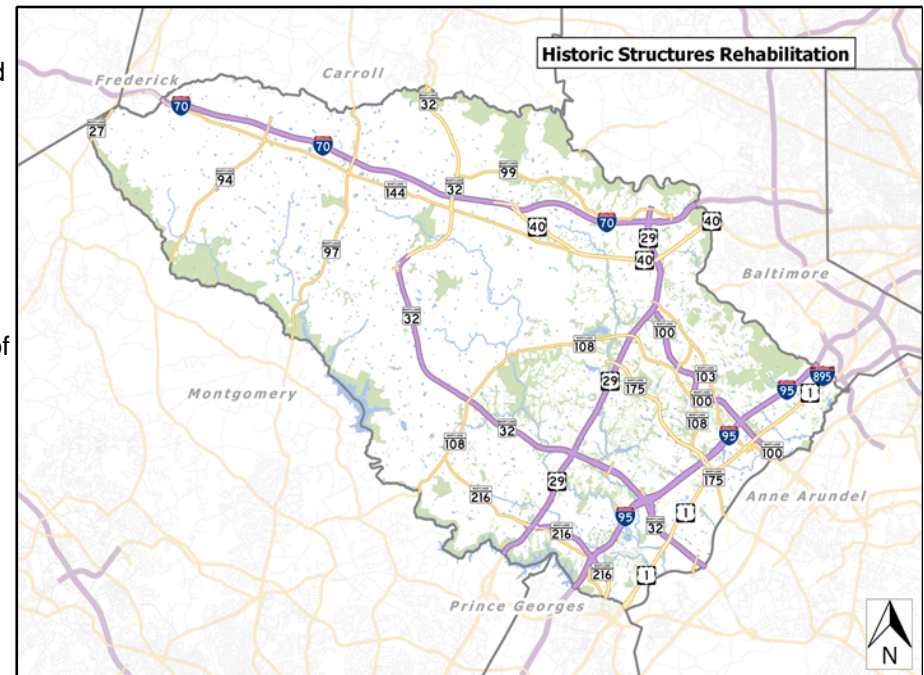

Project Schedule

FY16 - Construction
FY16 - 21 - Construction Continues

Operating Budget Impact

Annual Bond Redemption \$ \$40,500

All of these structures are operational and part of current operating budgets; no increase will result from these improvements.

Project Status :

\$4,174,183 spent and encumbered through February 2015

Description

A project to design and construct site improvements related to the historic Patapsco Female Institute located on Sarah's Lane in Ellicott City. The improvements will include: upgraded roads, parking, retaining wall reconstruction, walkway and stairway reconstruction, historic fencing, lighting, gazebos, restroom, storage space, caretaker's office, caterer's prep room and landscaping.

Operating Budget Impact

Annual Bond Redemption \$ \$96,750

This site is already operational at a cost of \$13,000 annually. The estimated maintenance and operating cost in after construction, will be \$75,000.

Justification

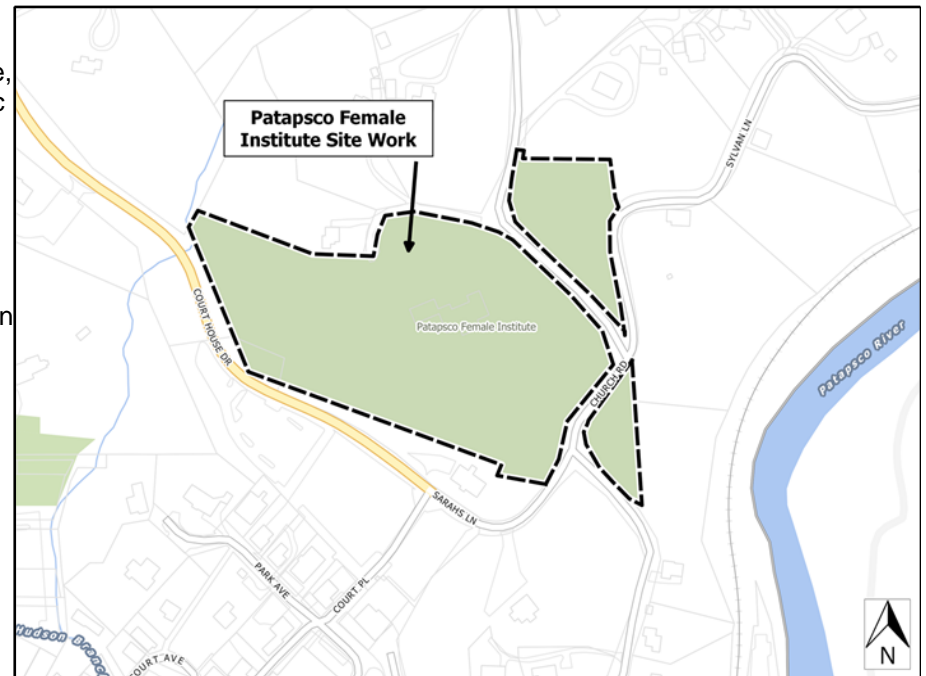

This project has been endorsed by the Friends of The Patapsco Female Institute, the Recreation and Parks Advisory Board, Preservation Howard County, Historic Ellicott City and the Ellicott City Restoration Foundation, and it meets the goals and objectives of the 2005 and 2012 Land Preservation and Recreation Plan related to park and historic site rehabilitation.

Remarks

- 1. Prior year funds addresses design fees for site improvements and construction of the out building on the site.

Project Schedule

FY17 - Continue Design and Construction will begin.

The Institute is currently operational as a viable historic attraction for the County. It is managed and operated by County staff in cooperation with the Friends of The Patapsco Female Institute. Repairs are being made on the retaining walls and stairs. The design consultant is preparing a site development plan and has submitted schematics for restrooms, multipurpose room, maintenance and storage space. After SDP approval and MHT approval, the consultant will proceed with plan development.

Description

A project to design and construct a nature center and related site improvements on the former Robinson property located at Cedar Lane and Harriet Tubman Lane.

Justification

This project provides a nature center along the Middle Patuxent River as recommended in the 2005 Land Preservation, Recreation and Parks Plan.

Remarks

Prior year OTHER funds indicates a \$700,000 donation received from the Middle Patuxent Nature Center Foundation, Inc., for future construction efforts. Also addresses \$800,000 in State Bond Bill Grants and the remaining \$400,000 donation including interest received from the Middle Patuxent Nature Center Foundation, Inc. Prior appropriation reflects TAO #2-FY2009 and TAO #1-FY2010 and a TAO FY2013 for a reduction of \$300,000.

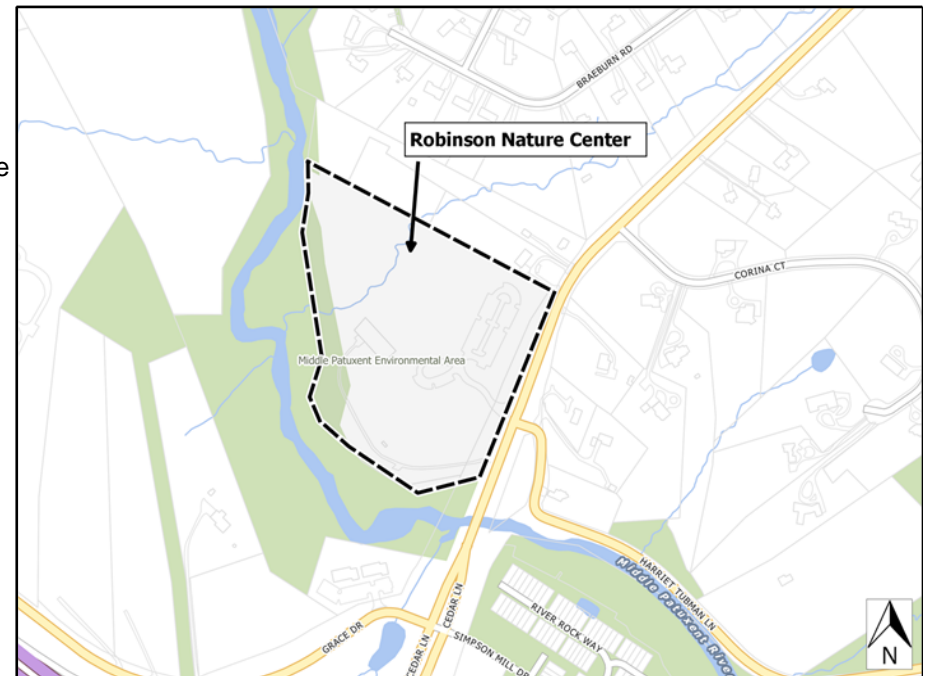

Project Schedule

FY16 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$555,975

The operating costs are absorbed within current operational budget.

Project Status :

\$17,194,656 spent and encumbered through February 2015

FY12 - Construction of the Nature Center building is complete.

FY13/14 - Construct additional structures such as a butterfly house, storage building, green house, pavilion, amphitheater, outdoor staircase, and a nature playground.

Description

This project consists of improvements to Centennial Park to include replacement of field lights, synthetic turf field, expanded parking, pond to stream retrofit, stream bank stabilization, pier and boat ramp upgrades, shop/office addition, boat rental expansion, pavilion and restroom upgrades, stage renovations, roadway/parking repairs and upgrades, court renovations, pathway and seating area renovation, and new signage.

Justification

This project is endorsed by the Recreation and Parks Advisory Board and is necessary to address the continued heavy usage of Centennial Park. This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan.

Remarks

Prior funds address the required park improvements and design and construction.

Project Schedule

FY18 - Design and Construct synthetic turf field, replacement of ballfield lights and parking.
FY19 - Construction continues

Operating Budget Impact

Annual Bond Redemption \$ \$112,500

These improvements will not increase operating expenses. There will be savings as a result of the synthetic turf and high efficiency lights.

Project Status :

\$584,538 spent and encumbered through February 2015

Design for pond to stream retrofit, stream bank stabilization.

Description

A project to rehabilitate and expand the existing Pathway and Trail System throughout the County. Rehabilitate and expand the existing pathway system which currently extends from Savage Park through Columbia to Dorsey's Search. Project includes an evaluation and possible improvements to the RT29 Pedestrian Bridge and its approaches and connections to the County's borders, and rehabilitation of existing pathway and trail systems.

Operating Budget Impact

At the current time the operating impacts cannot be determined until a feasibility study is done for the pathway expansion or Rt. 29 Bridge enhancements. Future rehabilitation of the existing pathway will reduce ongoing maintenance efforts.

Justification

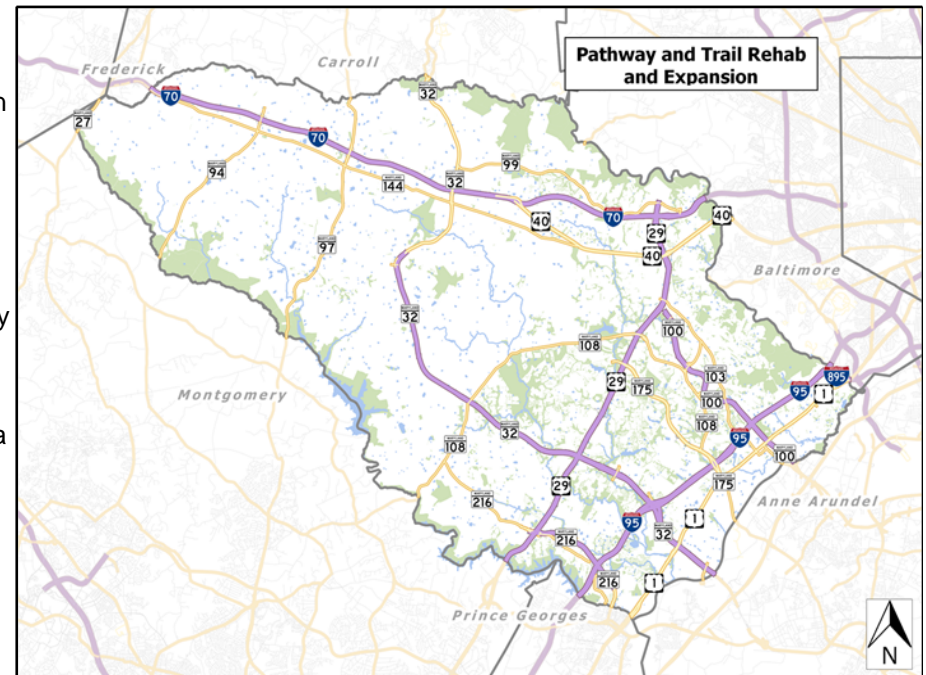

This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan and is endorsed by the Recreation and Parks Advisory Board and the Oakland Mills Master Plan Committee.

Remarks

1. Prior year funds address the evaluation and design of a pathway system from Savage Park to High Ridge Park and along the Little Patuxent River from Dorsey Search to Patapsco State Park. This project is meant to encompass three Counties.
2. Grant represents funding from the TEA-21 Transportation Equity Act.
3. Conduct a centerline survey of the existing Spinal Pathway System, perform a condition assessment, and evaluate the RT29 Bridge and its approaches for possible upgrades and \$100,000 reduction in Grant funds due to not receiving a Transportation Equity Act grant.
4. FY16 Continue trail and pathway assessments, and engineering on our County-wide trail/pathway system.

Project Schedule

- FY16 - Planning, and Engineering
- FY17 - Planning, Engineering and Construction
- FY18 - Planning, Engineering and Construction continues

Project Status :

\$337,893 spent and encumbered through February 2015

Description

A project to design and construct a restroom, a lighted pavilion over the existing roller hockey rink, parking expansion, a pathway and parking lot courtesy lights within Alpha Ridge Park located on RT99 just east of Sand Hill Road.

Justification

This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan and is endorsed by the Recreation and Parks Advisory Board.

Remarks

Prior funds include a FY10 \$75,000 State Bond Bill.

Project Schedule

FY16 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$19,125

This park is currently operational. Future restroom and hockey pavilion maintenance is estimated \$20,000 annually.

Construction of a restroom, additional parking and observatory foundation will start construction.

Description

A project to design and construct a restroom, storage building, parking improvements and bridges in the Middle Patuxent Environmental Area located southeast of the intersection of MD108 and Trotter Road.

Justification

This project is endorsed by the Recreation and Parks Advisory Board and will benefit school groups and trail users.

Remarks

- 1. Prior funds address funds for design and construction.
- 2. FY14 funds include a \$150,000 State Bond Bill. Prior year funds will be used for the Bond Bill match.

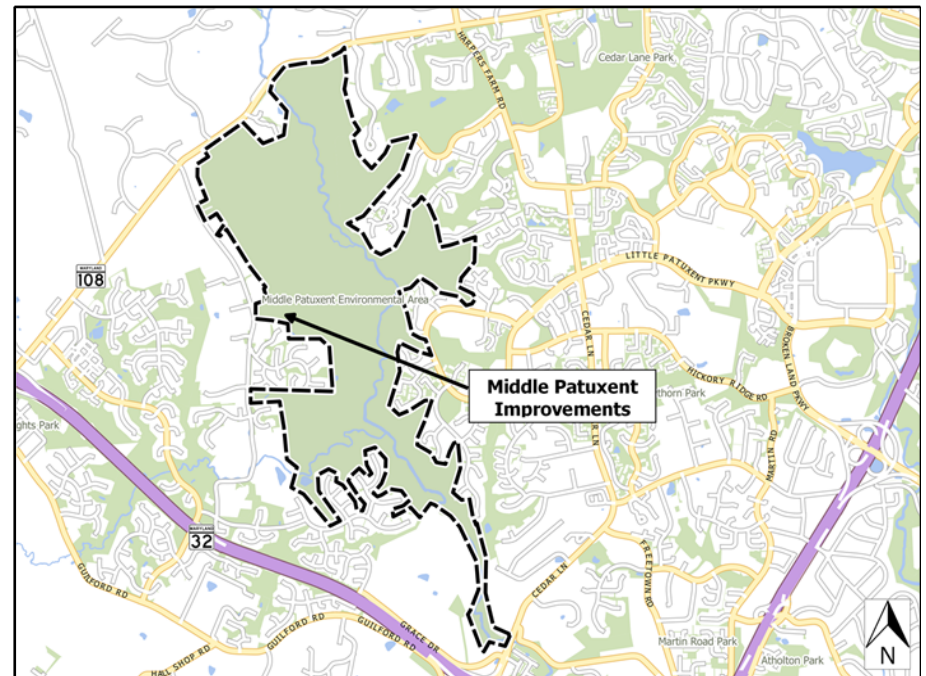

Project Schedule

FY17 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$42,750

The estimated annual operating cost for maintenance and utilities related to the restroom and storage shed is \$15,000 annually.

The design of the restroom, parking and storage building will be completed. Construction of the restroom, parking and storage building will begin.

Description

A project to design and construct a seven-acre park located at Old West Friendship Road and the Patapsco River just south of Sykesville. Improvements include utility connections, building renovations, court games, playground, pathways, and parking.

Justification

This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan and is endorsed by the Recreation and Parks Advisory Board.

Remarks

- 1. Prior year funds address the Town of Sykesville continued design and construction under lease agreement.
- 2. FY16 Requested addresses parking lot and skate park construction funds.

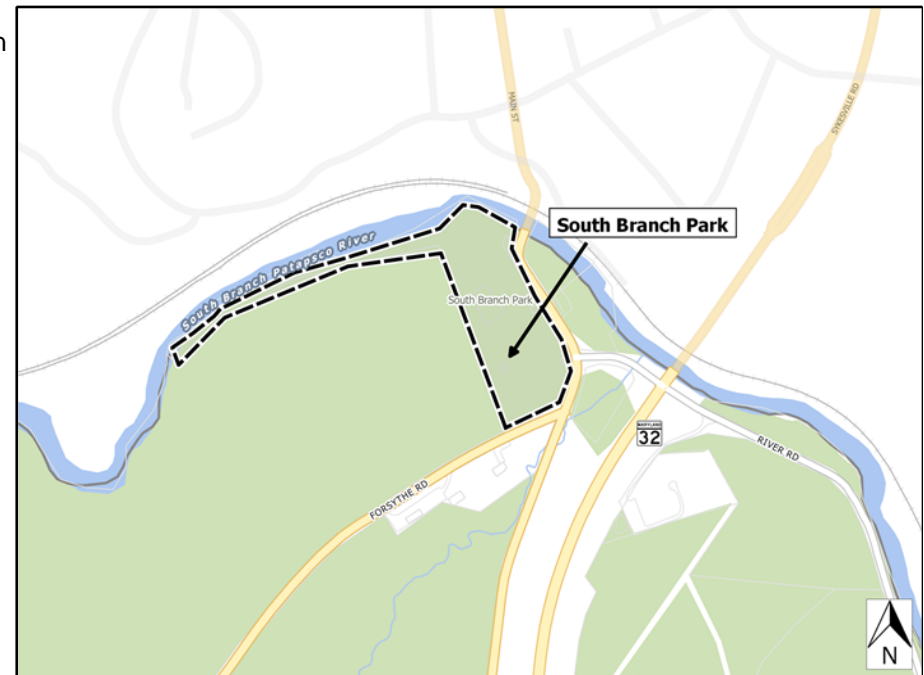

Project Schedule

- FY16 - Begin parking lot and skate park construction.
- FY19 - Begin building construction.

Operating Budget Impact

Annual Bond Redemption \$ \$103,500

The estimated annual operating cost will be paid by the Town of Sykesville.

Design in progress.

Description

A project to conserve or create forested areas within the County through the use of developer fees in accordance with local and State forest mitigation requirements. This project will fund the acquisition of non-County owned property to create forest conservation mitigation easements and to undertake planting on the sites acquired utilizing fees paid in lieu of mitigation on individual development sites. This project will also hire a contractual employee to manage the program.

Justification

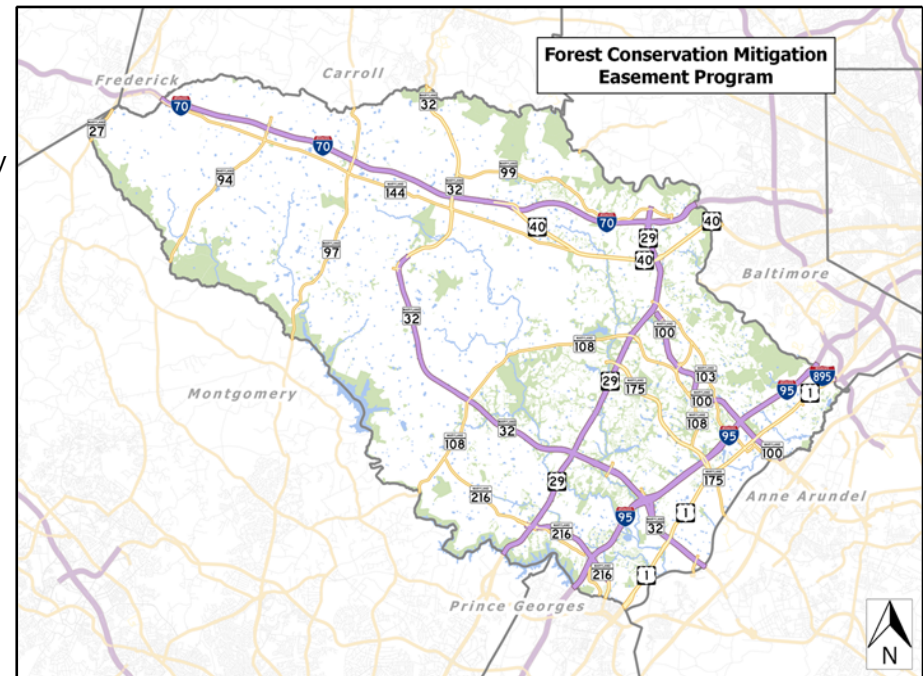

Forest areas are critical for air quality, water quality, erosion control and wildlife habitat. This program addresses the goals and objectives of the Howard County Forest Conservation Act of 1993.

Remarks

- 1. Prior year funds addresses developer fees collected by the Department of Planning and Zoning utilizing fees paid in lieu of mitigation on individual development sites in accordance with the Howard County Forest Conservation Act of 1993. Funding also consists of the Department of Public Works fee requirements for forest conservation.
- 2. FY15 Request addresses additional funds collected by the Department of Planning and Zoning utilizing fees paid in lieu of mitigation on individual development sites in accordance with the Howard County Forest Conservation Act of 1993.

Project Schedule

FY16 - Continue Land Acquisition and Planting

Project Status :

\$1,738,129 spent and encumbered through February 2015

Description

A project to provide for planting of shrubs, trees, as necessary in a subdivision or site where a developer failed to install the forest conservation improvements and landscape improvements in accordance with the approved forest conservation plan, landscape plan and developer agreement.

Justification

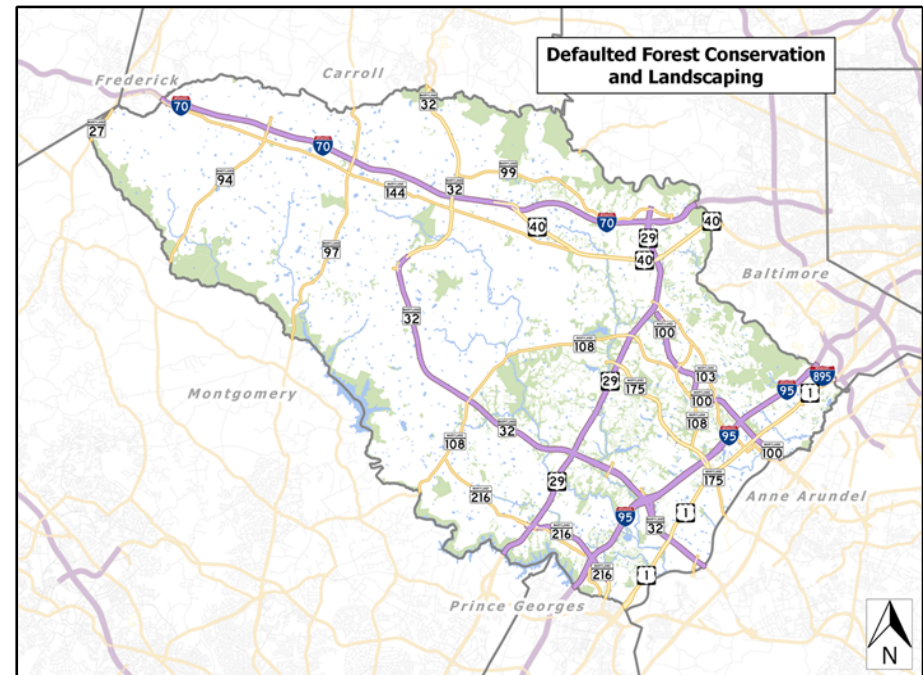

Upon developer's failure to complete construction, the surety of the developer is declared to be in default and the proceeds from the surety are placed in this account and used to finance construction.

Remarks

- 1. Developer funds indicate proceeds from the developer's defaulted surety.

Project: P4920-FY2001 MOBILE DATA POLICE COMPUTERS

POLICE PROJECTS

Number: P4920

Description

Project for the purchase, installation and support of mobile computers for police operations in the field.

Justification

Project has the goal of providing officers with computers in the field on which they could generate police reports, run queries, and more efficiently respond to routine calls for service. Purchase of hardware and software for e-citations.

Remarks

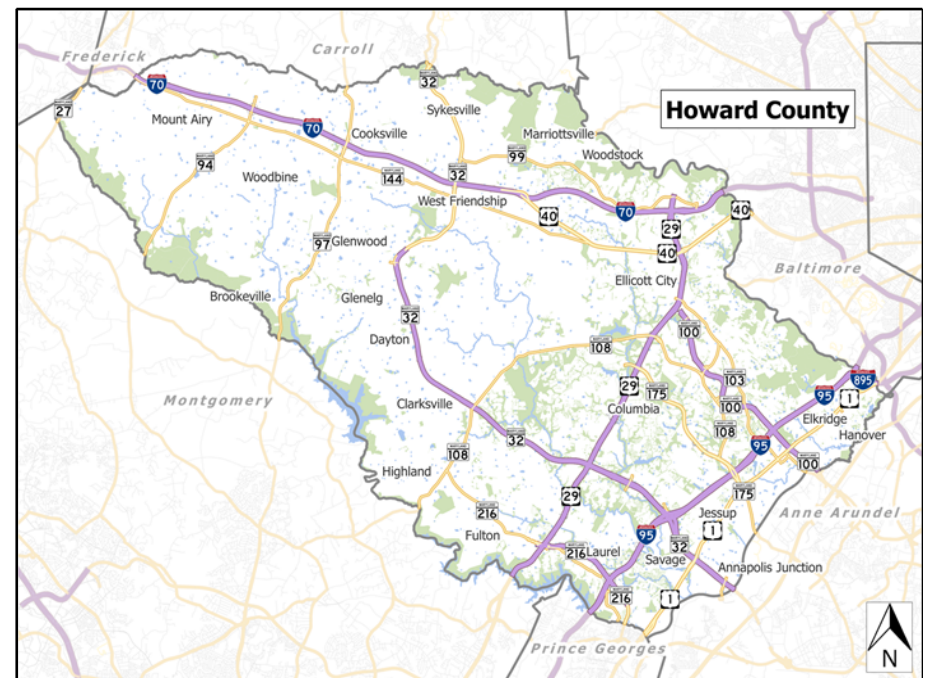

1. OTHER funds represent Federal Drug Forfeiture Dollars.
2. GRANT represents US Department of Justice funds.

Project Schedule

FY16/17 - Complete automated field reporting project.
FY18 - Complete and close.

Operating Budget Impact

Accounts funding installation and maintenance will have to be increased. Staff will have to expand to provide hardware and software technical support. Periodic upgrading and replacement of computer equipment and software will be needed on an annual basis once the system has been completed.

FY15 - Vendor selection in process.

Description

A project for the provision of a larger Child Advocacy Center, maintaining a "child friendly" environment, but meeting the expanding facilities requirements for the present and future policing demands.

Operating Budget Impact

Annual Bond Redemption \$ \$319,275

Estimated annual utility/custodial costs upon construction completion: \$ 17,500.00

Justification

The prior facility (Latona House, 3421 Rogers Avenue) is outdated, and greatly undersized to meet the current police functions associated with the investigation and prosecution of physical and sexual abuse of children. The facility does not provide the environment necessary for the sensitive interactions required with young children and their families. Nor for the effective operations of the police staff in performing this critical function. Additionally, the parking is wholly inadequate for both staff and clients. Therefore, the decision has been made to move the Center into rental space until the new facility can be funded, designed & constructed.

Remarks

1. This project will be accomplished by: (a) Developing a Family Justice Center which consolidates the multiple services of public governmental agencies and private non-governmental organizations under one roof in order to reduce the places victims of domestic violence, sexual abuse, child abuse and elderly abuse must go to receive needed services; or (b) by buying an existing residence in reasonable proximity to existing police facilities, and then converting it to meet the pertinent interior and parking requirements; or by buying an acceptable lot and constructing a new facility that provides a residential environment, but with all the required operational spacing. The 1st option is the preferred option.
2. Previously provided Study Funds will be used to do the analysis to determine which option will be optimum for this project.

Project Schedule

- FY17 - Location Analysis/Purchase
- FY18 - Design
- FY19 - Construction
- FY20 - Close Out

Project Status :

\$0 spent and encumbered through February 2015

Description

A project for the construction of new Criminal Investigations space & space for relocation of Police forces from the Gateway Bldg, as an addition to the present Northern District Police Station. The dedicated Criminal Investigations Bureau space will meet the tremendous demands which are being placed on the very limited space provided in the Northern & Southern District Police Stations.

Operating Budget Impact

Annual Bond Redemption \$ \$520,425

Estimated annual utility/custodial costs upon construction completion:á
\$135,000.00

Justification

The new facility will provide the professional space required for the effective operation of the Criminal Investigations Bureau, both for the present and future, as well as provide the necessary space for Police forces being relocated from the Gateway Bldg. The present spacing for the Bureau is wholly inadequate, disjointed, inefficient, and without the professional amenities necessary to allow effective operations.

Remarks

1. Study funds previously provided are being used to define the feasibility of expanding the Northern District Police Station, and how to best integrate space between District Police Stations.

Project Schedule

FY17 - A/E Selection; Design Initiation
 FY18 - Design Completion; Construction
 FY19 - Construction Completion

Fiscal 2016 Capital Budget

Project: P4928-FY2015 NEW/THIRD POLICE STATION

POLICE PROJECTS

Number: P4928

Description

Construct a third fully staffed 24-hour operation Police Station.

Justification

Continued County growth and an engrained philosophy of Community Oriented Policing requires officers and their work-site to be part of the Community which they serve. Policing services are operated from Ellicott City and Laurel, along with several neighborhood satellite offices. This affects response times. We have experienced a fifty percent (50%) increase in sworn staffing since such time. Both the Warfield and Southern District buildings are occupied to, or in excess of, capacity. This option could also assist with space needed for overall Department growth referenced above.

Remarks

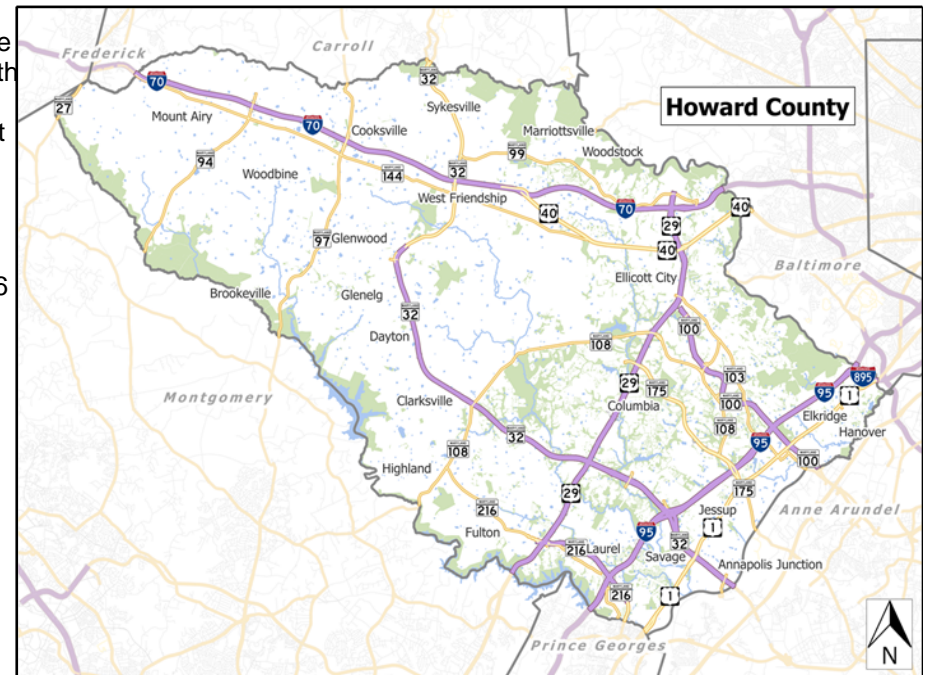

DPW and the Police Dept are evaluating site alternatives. Based upon the FY16 funding available, DPW and the Police Dept will begin the programing and planning phase of the project. Funds requested in FY16 should enable DPW to carry the project through schematic design.

Project Schedule

- FY16 - Manpower/Service/Distribution Analysis/Study. Begin Programming and Planning
- FY16/17 - Land Purchase, Design Complete
- FY18 Start Construction
- FY20 - Construction Complete
- FY21 - Project Close Out

Operating Budget Impact

Annual Bond Redemption \$ \$949,500

1. Phase I - Sewer monitoring and modeling completed.
2. Phase IIA- Evaluation of the alignment alternatives and the sewer system evaluation survey (SSES) report for infiltration/inflow completed.
3. Phase IIB- Evaluation of year 2035 population projection sewer flow completed.
4. Phase III- Design of twelve contracts completed.
5. Phase IIIB- Design of wetland enhancement and stream restoration completed.
6. Twelve contracts completed.
7. Two stream restoration contracts completed.
8. Wetland mitigation completed.
9. Wetland and stream mitigation Year 1 of 5 Year report completed.

Fiscal 2016 Capital Budget

Project: S6189-FY2001 N LAUREL PUMP STATION

SEWER PROJECTS

Number: S6189

Description

A project for the design and replacement of the North Laurel Wastewater Pump Station to increase the pumping capacity of the station to meet projected wastewater flows.

Justification

This project is needed to meet the increased demands as outlined in the Master Plan for Water and Sewerage.

Remarks

1. Improvements include interim replacement of existing variable speed drives with new variable frequency drives and the replacement of a pump control valves
2. The new station will be constructed above the 100-year floodplain.

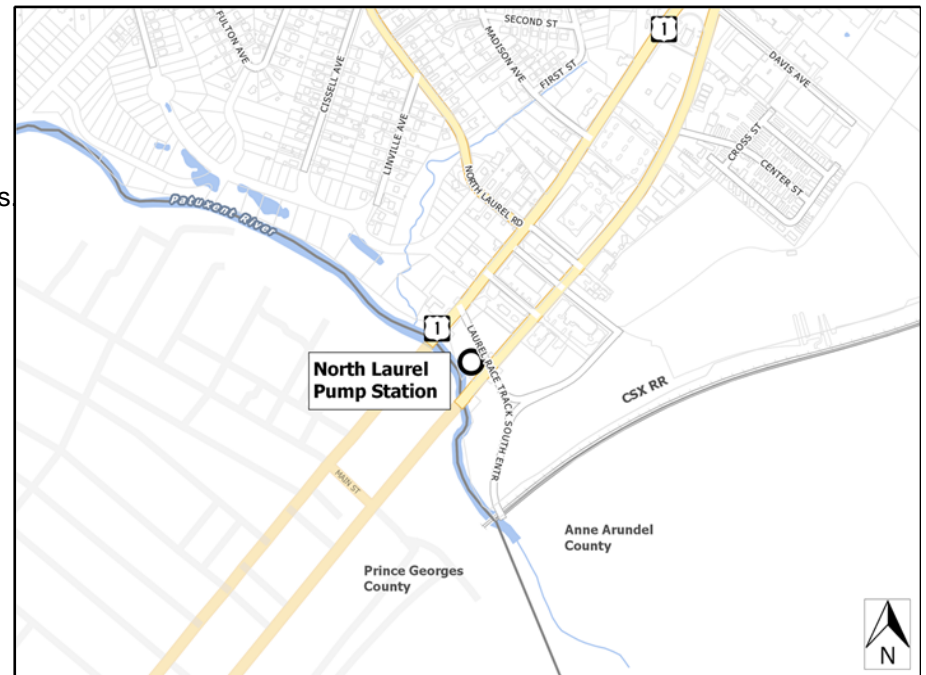

Project Schedule

FY16 - Complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$275,880

The annual cost of operation and maintenance of the pumping station is \$50,000.

Project Status :

\$8,360,264 spent and encumbered through February 2015

New station is under construction.

Description

The fund is designed for use as a revenue source for transfers of appropriations when either construction costs are higher than originally estimated or engineering must be advanced from future years to the present fiscal year for critical sewer needs. Additionally, this fund will be utilized for various costs such as advertising, printing, public hearing notices, enhanced nutrient removal, etc. to meet requirements when charges to individual projects are not feasible.

Justification

This fund will allow for the timely completion of approved projects by contingency funding as required and rapid response to critical situations.

Remarks

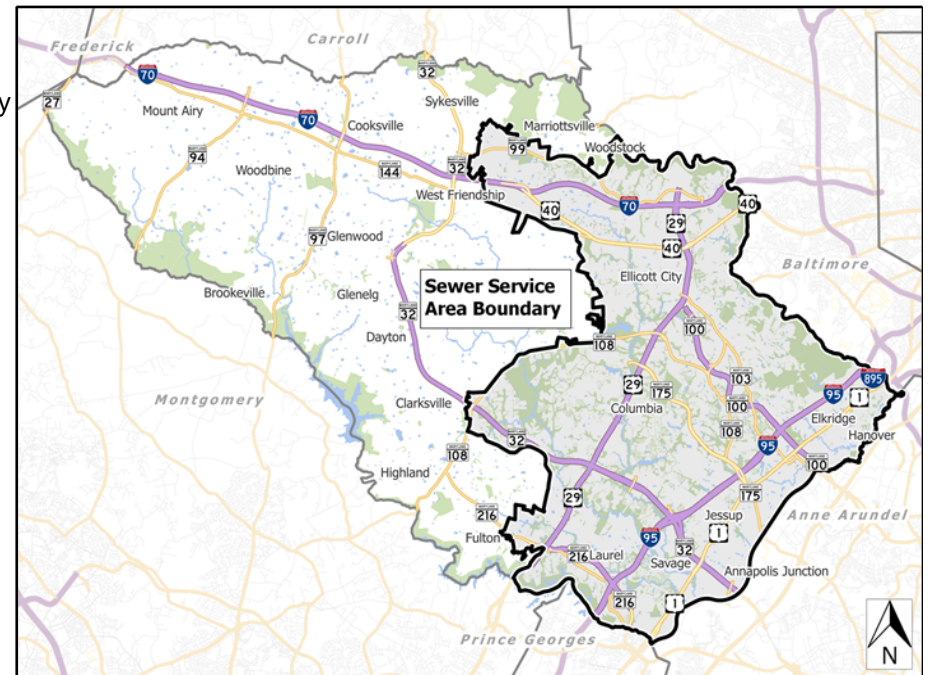

1. Prior appropriation reflects TAO #1-2008 in which Water Quality Bonds were transferred to S6251 as replacement for Metro Bonds.
2. Prior appropriation reflects TAO #2-2009 in which Water Quality Bonds were transferred to S6214 as replacement for Metro Bonds.
3. This project will receive State Water Quality Loan funds prior to transfer of those funds into designated projects.
4. Collection of revenues for enhanced nutrient removal.
5. Other Sources also include developer contributions and reimbursements.

Project Status :

\$549,673 spent and encumbered through February 2015

Expenditures represent advertising expenses for the Utility Capital Programs since project inception. This project was used as the source of transfers of appropriations for construction of S6224, Bonnie Branch at Ilchester Road Sewer; S6225, Orchard Avenue Sewer Upgrade; S6230, Mission Road Sewer Extension; and S6277, Old Frederick Road Sewer.

Description

A project to televise sewer pipes in the County's sanitary sewer system for evidence of corrosion. The project will effect repairs in the areas of imminent failures and prioritize and perform rehabilitation and replacement efforts in areas where corrosion has compromised the integrity of the system. This project will also analyze the chemical composition (waste stream strength) of sewage in the County's sewer system to determine need for pipeline or structure coating requirements and various treatment options. This project will also provide protection of existing sewers under excessive outside pressures via structural lining.

Justification

The collapse of a 35 year old sewer adjacent to US1 in 1999 required an expensive and disruptive repair effort lasting several weeks and involving assistance from the adjoining municipality. The sewer in question was damaged by sulfide-induced corrosion. This project will provide a preventive approach, identifying and rehabilitating problem areas prior to their structural failure.

Remarks

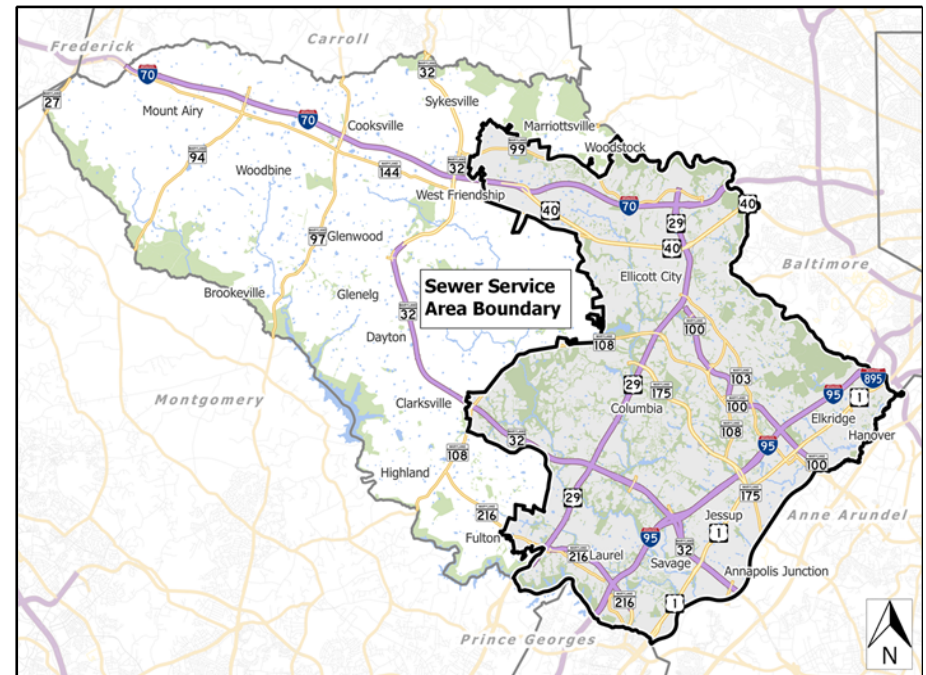

1. An ongoing program for inspection and repair of interceptor and collector sewers.
2. The project will inspect 20,000 LF of sewer and rehabilitate 15,000 LF sewer per year.
3. Request represents advancement of funds in the program.

Project Schedule

Ongoing program

Operating Budget Impact

None. The project will reduce overtime and system maintenance costs.

Project Status :

\$9,010,830 spent and encumbered through February 2015

Projects Complete:

1. The Wilde Lake and Bryant Woods.
2. Allenford, Mount Hebron, Chamberly, Patapsco Pumping station outfalls.
3. The Oaks, Chestnut Hills, Harwood Park, and Sections of North Laurel Park along North Laurel Road, Cissel Avenue, and Lynville Avenue
4. Savage Mill Sewer.
5. Sections of the Valley Meade Subdivision.
6. North Laurel Phase II .
7. Various other short sections throughout the Howard County Metro District.
8. Dreyers Outfall sewer.
9. Early April Subdivision.
10. Lake Kittamaqundi Sewer.
11. Murray Hill Subdivision
12. US Route 1
13. Oakland Mills - Steven's Forest

Description

A project for Howard County's participation in the cost sharing for the capital funding of the Patapsco Treatment Plant at Wagners Point and the related Patapsco Interceptor, Pump Station, and Force Main. The conveyance and treatment facilities will be expanded, paralleled or replaced.

Justification

The Patapsco Treatment Plant processes wastewater flows from the Howard County portion of Patapsco Drainage Area. Wastewater from the Elkridge and Ellicott City areas is conveyed to the Patapsco Plant by the Patapsco Interceptor, Pump Station and Force Main. Howard County along with Baltimore County and Anne Arundel County are required to participate in funding the cost of the improvements as a condition of use.

Remarks

- 1. This project is a continuation of capital projects S6076 and S6156.
- 2. The Patapsco Wastewater Treatment Plant is being expanded from 73 to 81 MGD. Howard County's share of Patapsco plant's ultimate 81 MGD capacity is 11.5 MGD.
- 3. The funds in the 5-year capital program represent an estimate of Howard County's agreement share of the Patapsco Treatment Plant's expansion costs.

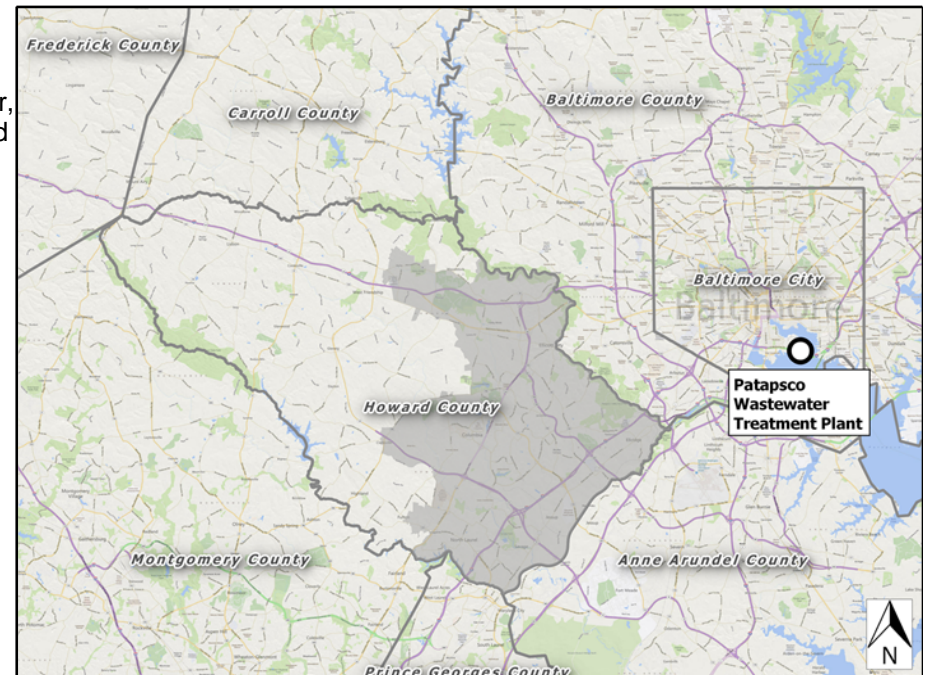

Project Schedule

Ongoing construction program

Operating Budget Impact

Annual Bond Redemption \$ \$2,164,924

No impact. The Patapsco facilities are operated by Baltimore County.

Defaulted property: Homeland, Parcel A & Parcel B, 44-4143D

Description

A project for the study and evaluation of the Patapsco sewer service area from the Daniels area to the Deep Run.

Justification

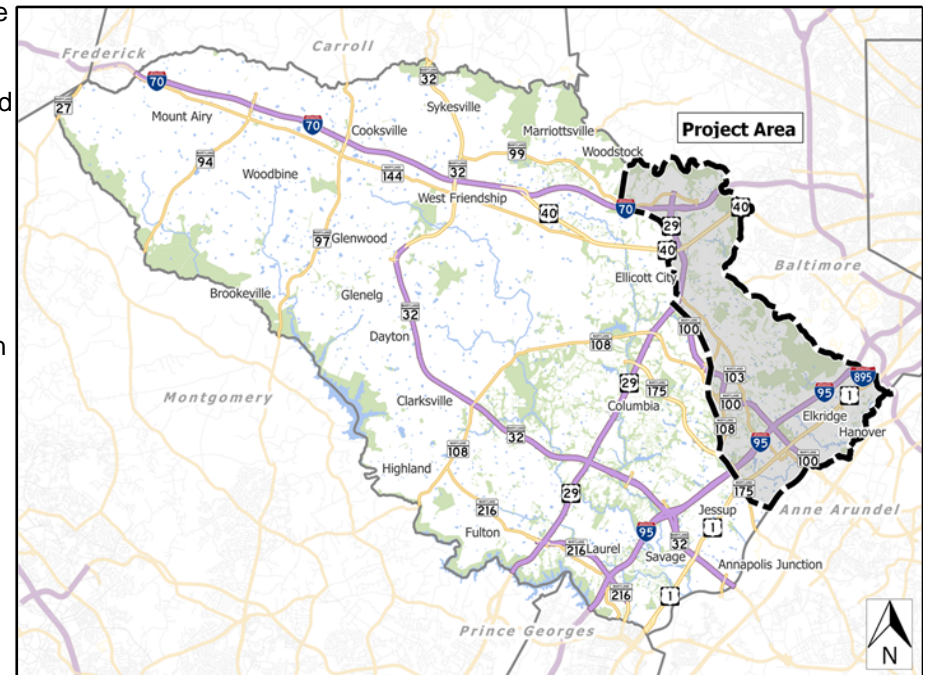

The project was initiated by the Department of Public Works. The Patapsco Interceptor Sewer is cost shared by Howard County, Baltimore County and Anne Arundel County. Howard County's capacity in the Patapsco Interceptor Sewer and the Patapsco Wastewater Treatment Plant is limited by agreement with the participating municipalities. The study will examine the capacity needs of Howard County in the Patapsco sewer service area.

Remarks

1. Public Works Board hearing on December 10, 2002.
2. The study will determine the sewage inflow and infiltration components contributing to the wastewater flows within the service areas.
3. The project will be used to perform sewer system evaluation survey (SSES) in areas of excessive infiltration and inflow and to make emergency repairs in sections of sewer found to be in imminent failure.
4. A sewer system evaluation is required for the Patapsco sewer service area under agreement with Maryland Department of the Environment, and will be performed under this capital project.
5. Project to remain open for additional sewer system modeling including the Patuxent sewerage area.

Project Schedule

FY16 - Close

1. Sewer metering and modeling completed
2. The SSES report completed.
3. MDE accepted the SSES report and schedule upgrades per consent agreement CO-10-1116.

Description

A project to provide sewer service to properties along Rockburn Hill Road.

Justification

The project is in response to requests received from 3 property owners on Rockburn Hill Road. The properties are within the Metropolitan District and are eligible for public sewer service. An additional 8 properties in the Metropolitan District may be served by the proposed sewer system. An additional 6 properties in the adjacent Planned Service Area may also be served by the proposed sewer system.

Remarks

- 1. The project was brought before the Public Works Board on December 13, 2005 and January 12, 2010.
- 2. The project will include a pumping station and force main in addition to a gravity collector sewer.
- 3. The construction schedule will be coordinated with the River Road bridge construction as needed.

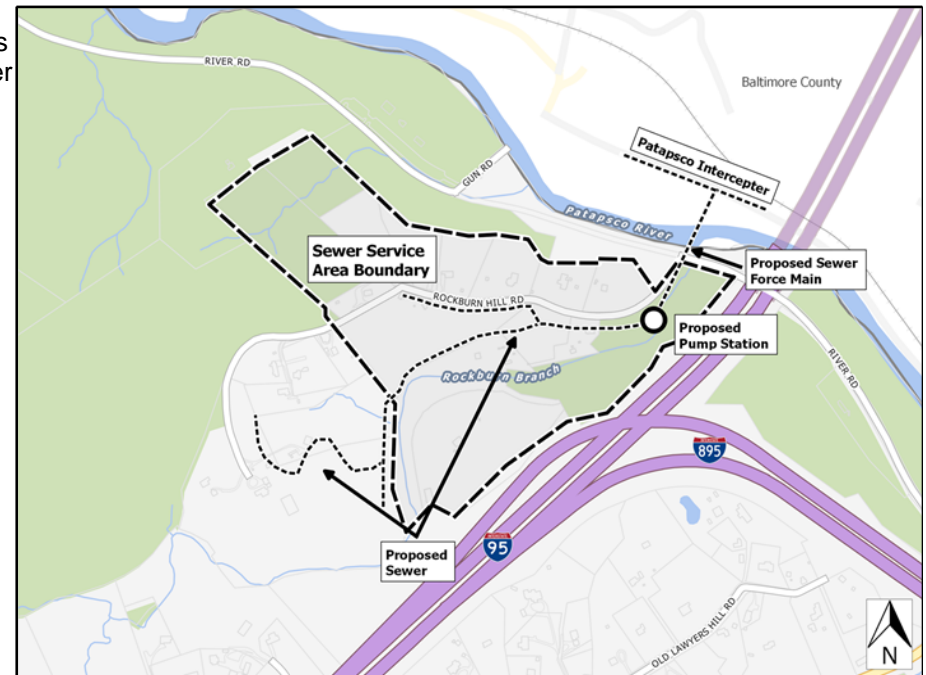

Project Schedule

FY16- Construction, Project complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$136,325

\$21,400 represents the annual maintenance cost for the proposed sewer utilities.

Project under construction

Fiscal 2016 Capital Budget

Project: S6264-FY2008 LPWRP CAPITAL REPAIRS

SEWER PROJECTS

Number: S6264

Description

A project to systematically repair, replace, or upgrade existing facilities at the Little Patuxent Water Reclamation Plant (LPWRP), and existing water distribution and wastewater collection system facilities.

Justification

Much of the infrastructure at the LPWRP and at Water/Wastewater Collection System Facilities is aging and is not currently scheduled for replacement by existing upgrades. These infrastructure facilities are beginning to experience age related failure, and systematic replacement and upgrade will extend their useful life.

Remarks

1. The project management will be performed by in-house LPWRP staff with possible professional services and requirements contract support.
2. This will be an ongoing project.

Project Schedule

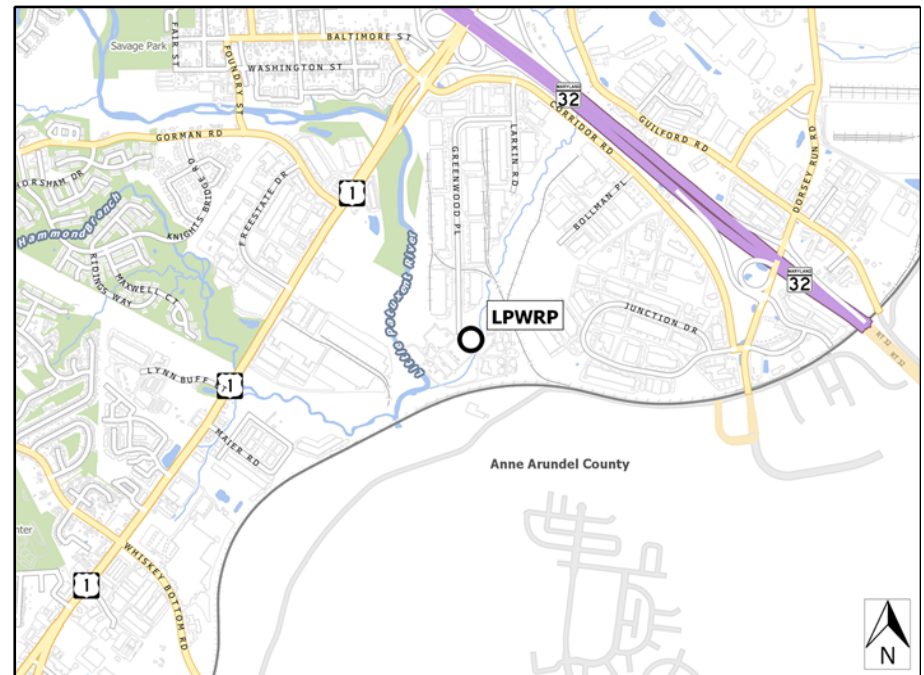

Ongoing project open through FY20, funded each year
FY16 Projects:

1. Feasibility study for RR Crossing to HC Land \$100,000
2. Lighting at FEB's & Grit Bldg \$30,000
3. Install new D.O. reducing Chutes to all final clarifiers \$100,000
4. Finish RAS to splitter box \$35,000
5. Trailer mounted sewer jetter \$30,000
6. Run water line under roadway at FC 12 \$45,000
7. Automate FC scum pits on North & East side, including installation check valves and float systems \$20,000
8. Cover chlorine contact tanks, just like Dechlorination/Reaeration tanks \$100,000
9. IDI filter rebuild 2 each \$220,000
10. Replace 2 influent pumps MSP \$500,000
11. All Saints WPS Generator \$100,000
12. Centrifuge VFD replace Phase I \$200,000
13. Unanticipated Projects \$500,000

Operating Budget Impact

Annual Bond Redemption \$ \$550,050

Reduction in the number and dollar amount of emergency repairs estimated to be in excess of \$50,000 annually.

15. PIU Upgrade for Grit \$50,000.00
16. Lab Dishwasher \$15,000.00
17. Upgrade to Foxboro system \$1,000,000 per SG.
18. Add \$500K in additional funding for FY15 for "unanticipated projects".

Description

A project to protect and stabilize sewers and water mains in areas where stream and soil erosion have compromised the integrity of the system.

Justification

Streams and waterways can meander depending on the geomorphic properties of the stream, and soil conditions. Gravity sewer systems often parallel streams and waterways due to the need to collect waste from low-lying properties. Stream meanders and soil erosion have undercut and exposed the sewer system in many of these areas within the County. Similarly, water mains often cross streams and can become exposed when a stream undercuts the pipe crossing. The capital project will rehabilitate and stabilize the sewer and water systems in these areas.

Remarks

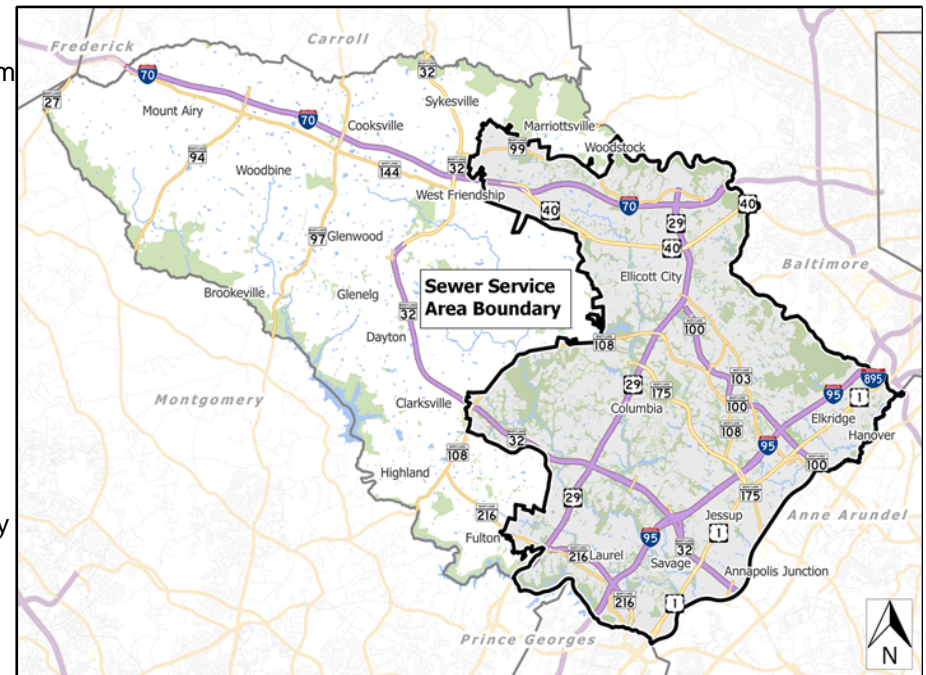

1. The project will prevent sewer system overflows and sewage spills reducing environmental impacts and costly remediation measures and fines.
2. The rehabilitation efforts may include stabilizing and armoring the stream or repair/relocation of the sewer or water main.
3. The project will prevent costly water main breaks resulting from damage to exposed pipes.
4. The project will include work in the following areas: Park Circle Drive at Coca Cola Drive (Deep Run), Hi Tech Drive at Coca Cola Drive (Shallow Run), Dorsey Run Road at Dorsey Road, Gatewood Drive, Mary Lane at Guilford Road, Promise Court, Seneca Farms Road, Swansfield Road, Tolling Bells Court, Old Willow Way, and the LPWRP Effluent Pipe, Mary Lane Water Main.

Project Schedule

On-going capital project

Operating Budget Impact

The project will reduce operating costs.

Fiscal 2016 Capital Budget

1. Relocation of Town & Country sewer is complete.
2. Rehabilitation of Lyndsey Way Sewer is complete.
3. Rehabilitation/Relocation of the Coca Cola Drive sewer mains (Deep and Shallow Run) is bidding for construction.
4. Shaker Drive sewer relocation is bidding for construction.

Fiscal 2016 Capital Budget

SEWER PROJECTS

Project: S6269-FY2009 ASHLEIGH KNOLLS SHARED SEWAGE DISP FAC UPGD

Number: S6269

Description

A project to design and install a wastewater treatment system for the Ashleigh Knolls Shared Septic Facility to meet new Maryland Department of the Environment (MDE) discharge permit limits.

Justification

The original and subsequent MDE Groundwater Discharge Permits did not have effluent concentration limits for various nutrient loadings. The Permit was modified on February 20, 2013. The modification requires the construction of a wastewater treatment system that is capable of reducing the total nitrogen concentration by a minimum of 50% prior to discharge. A wastewater treatment system designed to meet these limits must be installed by March 31, 2019.

Remarks

1. Plans for the construction of the wastewater treatment facility were completed in July 2013.
2. The Ashleigh Knolls Homeowners Association were unsuccessful in their pursuit of Nutrient Credit Trading in lieu of constructing the wastewater treatment plant in order to meet the required nutrient reductions specified in the Groundwater Discharge Permit.

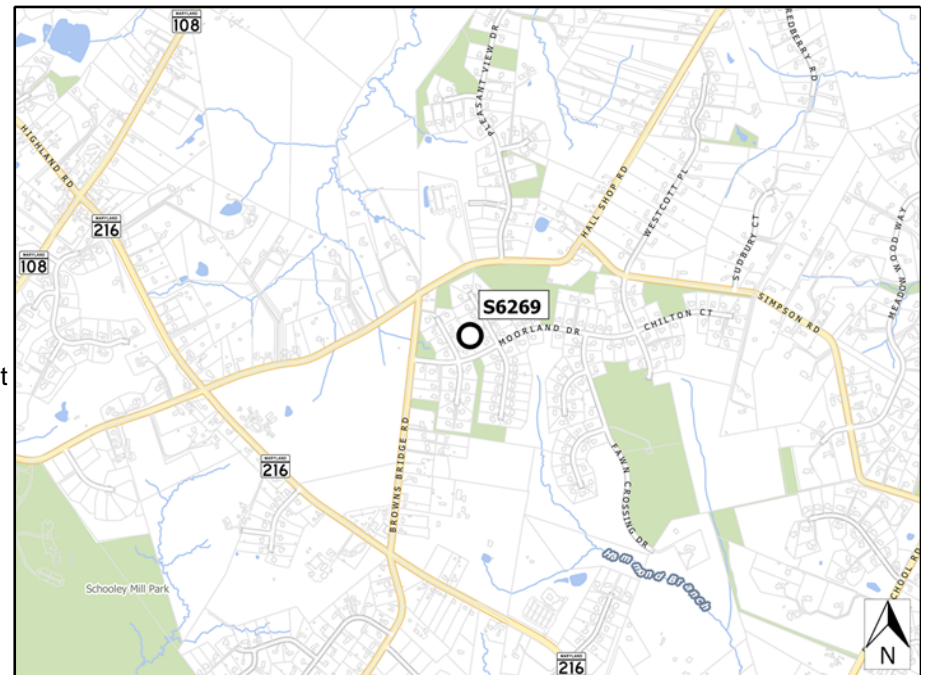

Project Schedule

FY16/FY17 - Wastewater treatment plant construction (if required) .
FY18 - Project Close

Operating Budget Impact

Annual Bond Redemption \$ \$75,330

The annual operation and maintenance of the new treatment system will be included in the Operating budget of the Bureau of Utilities, and is estimated initially to be approximately \$125,000. The cost of operation and maintenance is borne by the connected residential lots.

Project Status :

\$177,074 spent and encumbered through February 2015

1. FY09 - Consultant Design Report complete, awaiting MDE review.
2. FY10 - Design 90% complete; project funding from MDE withdrawn.
3. FY13 - Complete design, if required. Current Estimate of full plant construction is \$1,500,000 also anticipate an increase in engineering costs of \$25,000.
4. FY14 - Design is 100% complete. The Discharge Permit has been modified so that the new compliance date for reducing the nutrients is now March 31, 2019.
5. FY15 - Awaiting final MDE Decisions.
6. FY16 - If nutrient trading is not completed by March 2015, construction of the wastewater treatment system will begin. Start-up and construction of the plant is estimated at \$1,600,000 and anticipate an increase in engineering costs of \$30,000.
7. \$128,338.05 spent and encumbered through September 2014.

Description

A project for the design and construction of 1,400 LF of replacement sewer, a third 150-foot 18-inch siphon and junction chambers on the Deep Run Interceptor in the vicinity of the Patapsco River.

Operating Budget Impact

Annual Bond Redemption \$ \$65,313

\$500 per year represents the cost of operation and maintenance of the proposed parallel sewer and siphon.

Justification

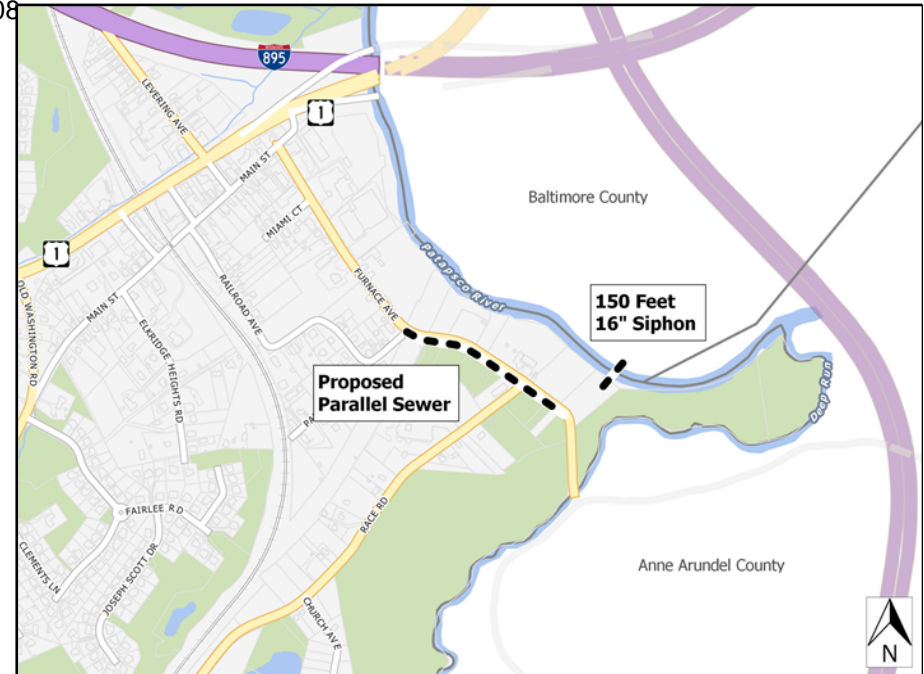

The project will provide the additional flow capacity required in the approved 2008 Howard County Master Plan for Water and Sewerage.

Remarks

1. The project was brought before the Public Works Board on December 10, 2008.

Project Schedule

FY16- Project complete, Close.

Fiscal 2016 Capital Budget

Total Funding	1,660	0	1,660	0	0	0	0	0	0	0	0	0	0	1,660

Project Status :

\$1,130,066 spent and encumbered through February 2015

The project is under construction.

Description

A project to reline and repair the 10 1/2 miles of the original Little Patuxent Interceptor from the Water Reclamation Plant to RT108.

Justification

The Little Patuxent Interceptor sewer was first constructed in 1966. Preliminary inspection and metering efforts have revealed that portions of the sewer are subject to stream erosion and groundwater infiltration. The capital project will reduce groundwater infiltration into the sewer and correct areas affected by stream erosion; thereby extending the useful life of the sewer and protecting the environment.

Remarks

1. The project was brought before the Public Works Board on December 10, 2008.
2. The flow capacity of the existing sewer is augmented by a paralleled sewer constructed under capital project S-6175. Following construction of the Little Patuxent Parallel Sewer, the flows will be diverted into the new sewer to allow an internal inspection and repair of the original interceptor sewer.
3. The project consists of several stages of inspection, design and construction as the new segments of parallel interceptor have been completed under Capital Project S-6175 and are now available to divert flow.

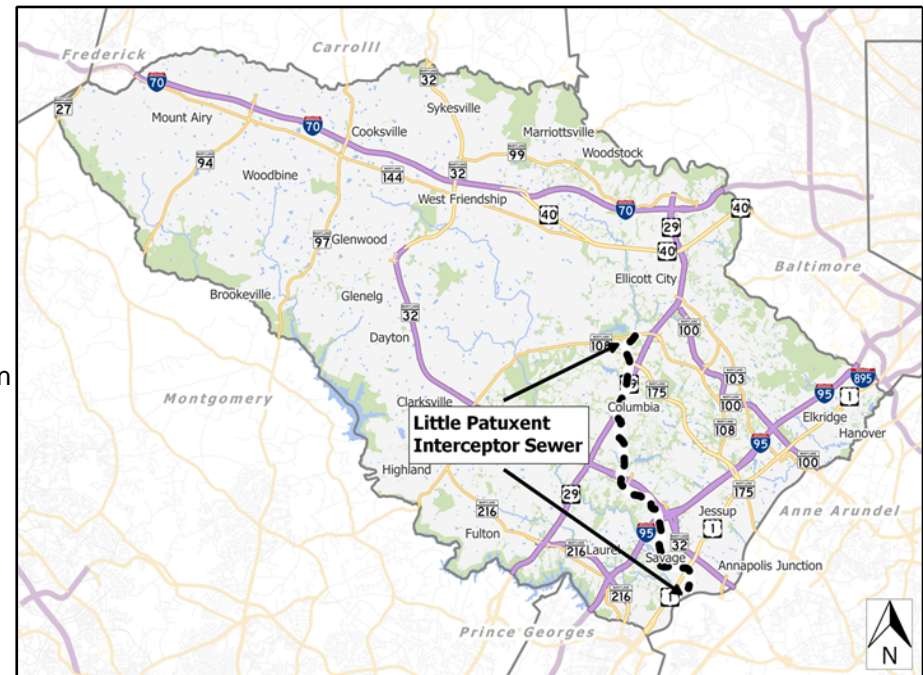

Project Schedule

FY16 - Construction, Project complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$475,000

The project will reduce the cost of operation and maintenance of the existing system.

Project Status :

\$4,609,593 spent and encumbered through February 2015

1. 60% of the project has been completed
2. 40% of the project is in design.

Description

A project for the design and construction of 2,500 LF of parallel sewer, adjacent to the Little Patuxent Interceptor Sewer, north of MD108.

Operating Budget Impact

Annual Bond Redemption \$ \$95,000

Justification

\$5,275 per year represents the cost of operation and maintenance of the sewer

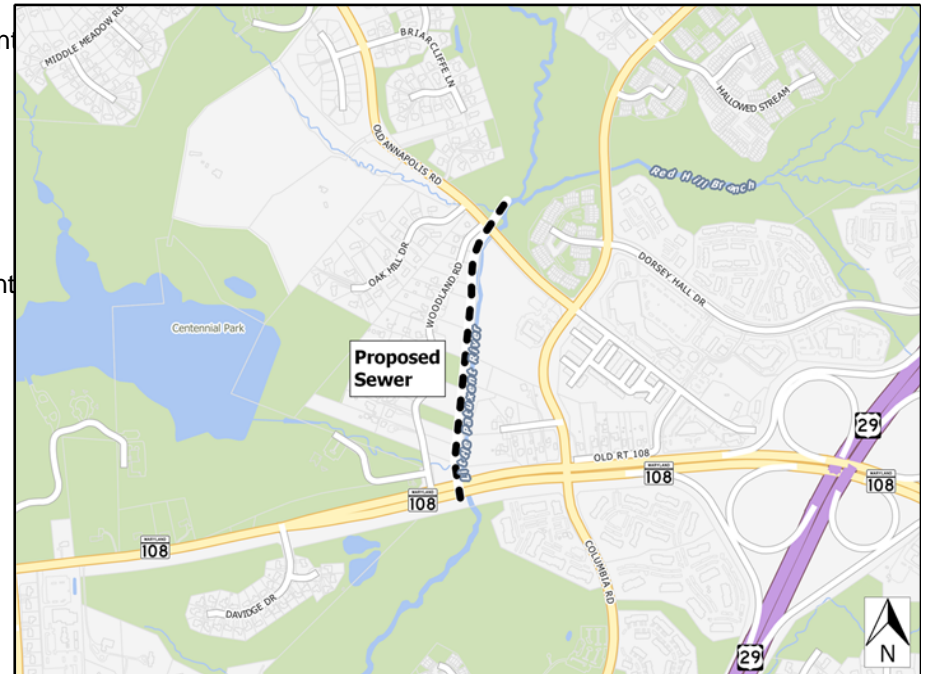

The project is required to provide for adequate sewer capacity in the Little Patuxent sewer between MD108 and the confluence with the Plum Tree Branch sewer. Computer modeling based on population projections from the Department of Planning and Zoning have indicated that 2,000 feet of the existing Little Patuxent Interceptor north of MD108 will flow surcharged by the year 2020.

Remarks

1. The project was brought before the Public Works Board on December 10, 2008.
2. The Little Patuxent Interceptor south of MD108 to the Water Reclamation Plant in Savage has been lined under capital project S-6273 and paralleled under capital project S-6175.
3. Request represents the advancement of funds in the capital program.

Project Schedule

FY16-Design, Land Acquisition
 FY17-Construction
 FY19-Project complete, Close

Project Status :

\$0 spent and encumbered through February 2015

Description

A project for the study, design and construction of a wastewater pumping station and force main to serve the Daniels Area east of Old Frederick Road and improvements/upgrades to the Old Frederick Road Pumping station.

Operating Budget Impact

Annual Bond Redemption \$ \$118,750

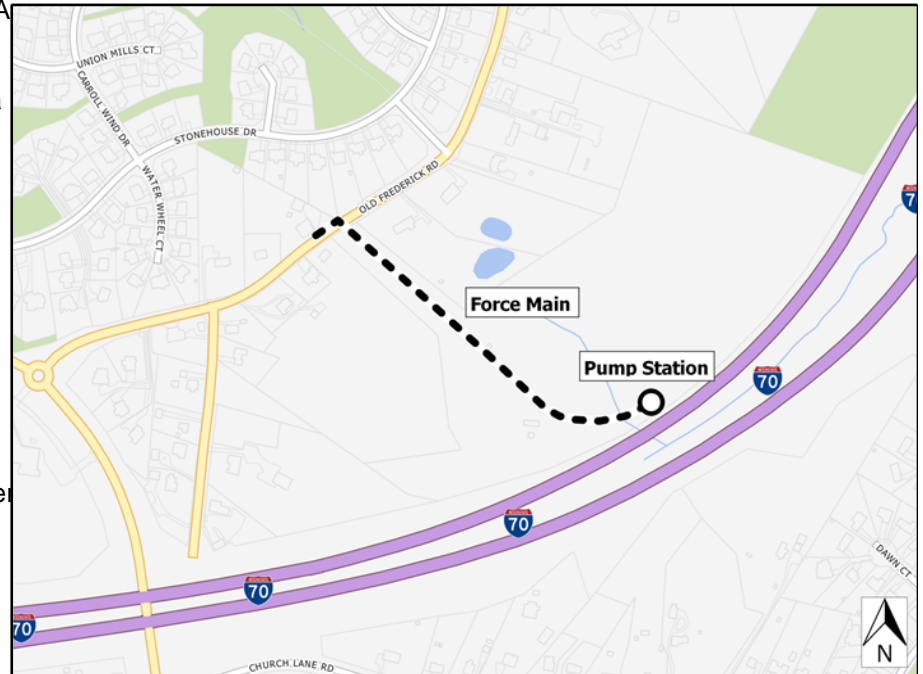

\$50,000 per year represents the cost of operation and maintenance of the pumping station.

Justification

It is Howard County policy to provide gravity sewer service whenever possible. A pumping station is required in order to provide gravity sewer service to the properties east of North Rogers Avenue between Old Frederick Road and I-70. The Master Plan for Water and Sewerage has identified the Sunell Property as a location for a future pumping station to provide gravity sewer service to this drainage area. In order to insure that the station is properly sited to meet the needs of the drainage area, the Department of Public Works will work with the property owner in constructing the pumping station and force main in return for the property owner providing the land and infrastructure (grading, roads, etc.) to access the site during the development of the property.

Remarks

1. The project was brought before the Public Works Board on January 12, 2010.
2. Land for the pumping station is required from a property owner abutting I-70. The property owner has agreed to reserve land for a pumping station during the development of his property at no cost to the County and provide adequate sewer easements to access the adjoining properties.
3. The property owner will construct the road and infrastructure to access the pumping station site.
4. Request represents the latest engineer's estimate to design and construct the associated interim upgrades to the Old Frederick Road Pumping station.

Project Schedule

FY16 - Design, Construction
 FY17 - Project Complete, Close

SEWER PROJECTS

Project: S6276-FY2011 SEWER CLEANING MAPPING AND TELEVISION INSPECTION MAINTENANCE

Number: S6276

Description

Develop a Sewer Manhole and Line Segment Inspection and Cleaning Program that will include all County owned water sewer lines within the collection system. During the cleaning process, sewer lines are to be inspected and power cleaned, and their operability and condition verified. Deficiencies found during the inspection/cleaning process will be prioritized for repairs using either in-house staff or outside requirements contracts, funded through this project. This project to include the services of a consultant to assist with the MDE Consent Agreement Compliance, which includes on-site consultant services to assist in compliance Monitoring, the development of a GIS mapping system for both Water and Sewer Mains as required by the Agreement, and GIS mapping of areas cleaned, inspected, and repaired.

Justification

Howard County has entered into a Consent Agreement with the Maryland Department of the Environment to reduce Sewer System Overflows (SSO's), and each of the activities included in this project are required by the Agreement.

Remarks

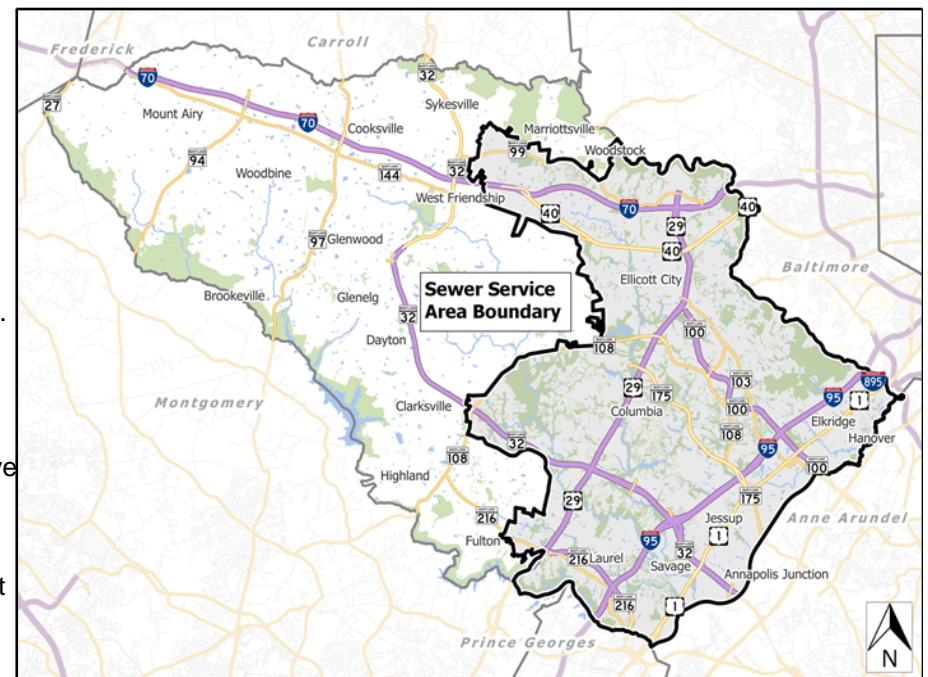

1. Sewer Cleaning and Inspections would commence by grids on an annual basis, including approximately one-fifth of all sewer lines in the system over a five year period.
2. There are approximately 1,000 Miles of Sewer Line.
3. Preparation of a Water/Sewer GIS Mapping Layer linked to the Bureau's Hansen maintenance/management software is being developed by a consultant as part of the Consent Agreement with MDE.

Project Schedule

FY16 - Ongoing yearly cleaning, approximately 1/5 (250) miles of pipe per year, televised sewer inspections, smoke testing, on-going repairs, and project management. Consultant prepared GIS layer for Water system
FY17-FY20 - Continued Sewer Maintenance program in accordance with the MDE Consent Agreement. Project to close at the end of FY 18.

Operating Budget Impact

Reduction in labor/administrative costs anticipated.

Project Status :

\$2,755,247 spent and encumbered through February 2015

County requirements contractors continuing to perform program cleaning in conformance with MDE Consent Order mandate. Cleaning efforts well in excess of mandated amounts.

For FY16, continued sewer cleaning, televised inspections, and smoke testing in upper and lower Little Patuxent basins. Repairs scheduled. Will continue to fund CMOM assistance consultant through this project. For FY16, hold annual funding to FY15 levels. As GIS efforts are completed, additional repairs and investigative efforts will move forward.

Description

A project for the design and construction of 750 LF sewer in Old Frederick Road north of Howard Run Drive to serve 9 properties on Old Frederick Road.

Justification

The project was requested by one property owner on Old Frederick Road. The property is within the Metropolitan District and is eligible for public sewer service. Six properties may be served by the sewer extension.

Remarks

- 1. The project was brought before the Public Works Board on December 14, 2010.
- 2. The construction will be funded under S6214

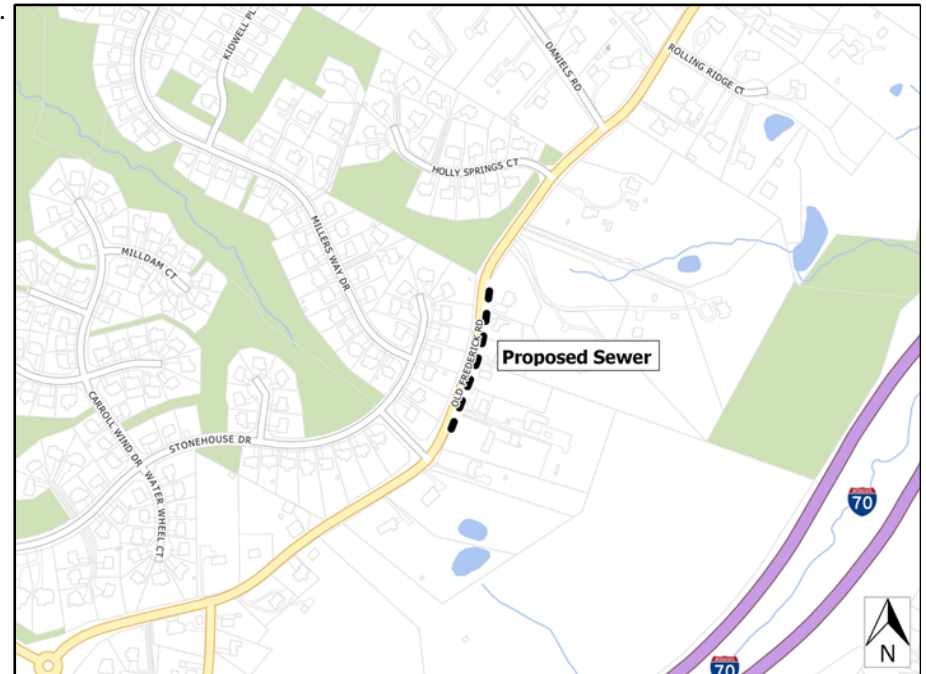

Project Schedule

FY16 - Project Complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$10,925

\$1500 per year represents the annual cost of operation and maintenance of the sewer extension.

Project: S6279-FY2013 MEADOWRIDGE FORCE MAIN REPLACEMENT

SEWER PROJECTS

Number: S6279

Description

A project for the design and construction of 2,500 LF of 8-inch replacement force main and improvements to the Meadowridge Wastewater Pumping Station.

Justification

The ductile iron force main has failed 3 times since 2010. A corrosion evaluation has revealed that the source of the failures is stray currents from two parallel gas mains in US1 coupled with low resistivity soils, causing corrosion pitting and failures of the iron pipe. Additionally, the original pumps are 33 years old and need to be replaced.

Remarks

1. The project was brought before the Public Works Board on December 13, 2011.
2. Request represents the latest Engineer's Estimate for construction.

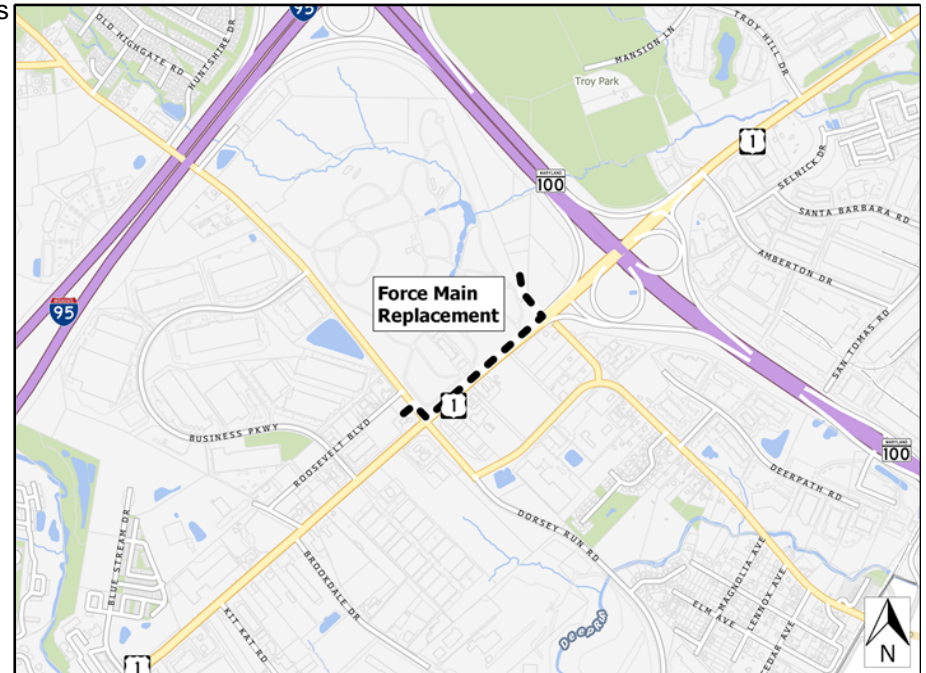

Project Schedule

FY16 - Construction, Project Complete
FY17 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$90,250

The cost of operation and maintenance of the will be reduced by the reduction of main breaks in this area.

Project Status :

\$268,181 spent and encumbered through February 2015

Phase I-Evaluation of the alignment alternatives and determination of environmental impacts studies completed. Design of sewer is in progress. Design of wetland enhancement and stream restoration mitigation is in progress.

Description

A project for the design and construction of 5,700 feet of parallel sewer in the Bonnie Branch sewer drainage area and the re-commissioning and upgrade of the Kerger Road Pumping Station and force main.

Justification

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

Remarks

1. Computer modeling under capital project S-6250 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. Phase I of the capital project will consist of the re-commissioning of the Kerger Road Pumping Station.
3. Phase II of the capital project will correct potential surcharged flow conditions within the sewer and will consist of 5,700 feet of parallel sewer.
4. The project was brought before the Public Works Board on January 10, 2012.
5. The project scope has been reduced due to the re-commissioning of the Kerger Road Pumping Station. The Kerger Road station will divert wastewater flows to the Shallow Run Interceptor reducing the improvements needed in the Bonnie Branch and Rockburn Interceptors.

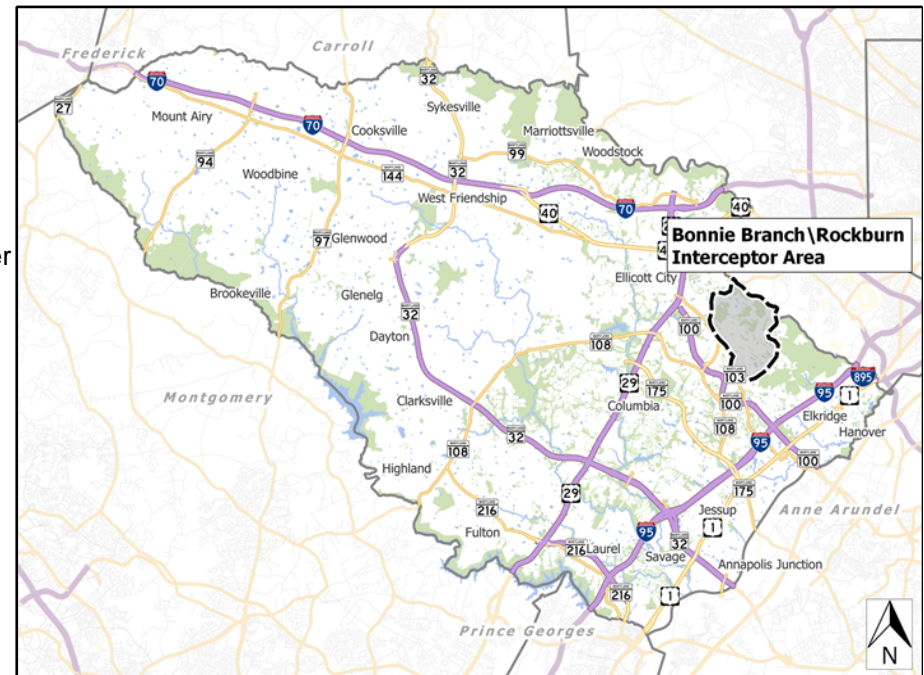

Project Schedule

- FY16 - Design, Permitting, Land Acquisition
- FY17-18 - Construction
- FY19 - Project complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$252,938

The annual cost of operation and maintenance of the sewer is \$12,000, and the annual cost of operation and maintenance of the sewage pumping station is \$50,000.

Project Status :

\$252,397 spent and encumbered through February 2015

Description

A project for the design and construction of 18,000 feet of parallel sewer in the Tiber Branch and Sucker Branch sewer drainage areas.

Justification

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

Remarks

1. Computer modeling under capital project S-6250 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. Phase I of the capital project will correct potential wastewater overflow conditions and will consist of replacement of a flow meter and 350 feet of parallel sewer on the Tiber Branch and 4,000 feet of parallel sewer on the Sucker Branch.
3. Phase II of the capital project will correct potential surcharged flow conditions within the sewer and will consist of replacement of 8,500 feet of parallel sewer on the Tiber Branch and 5,400 feet of parallel sewer on the Sucker Branch.
4. The project was brought before the Public Works Board on January 10, 2012.
5. Request represents the advancement of funds in the approved capital improvement program.

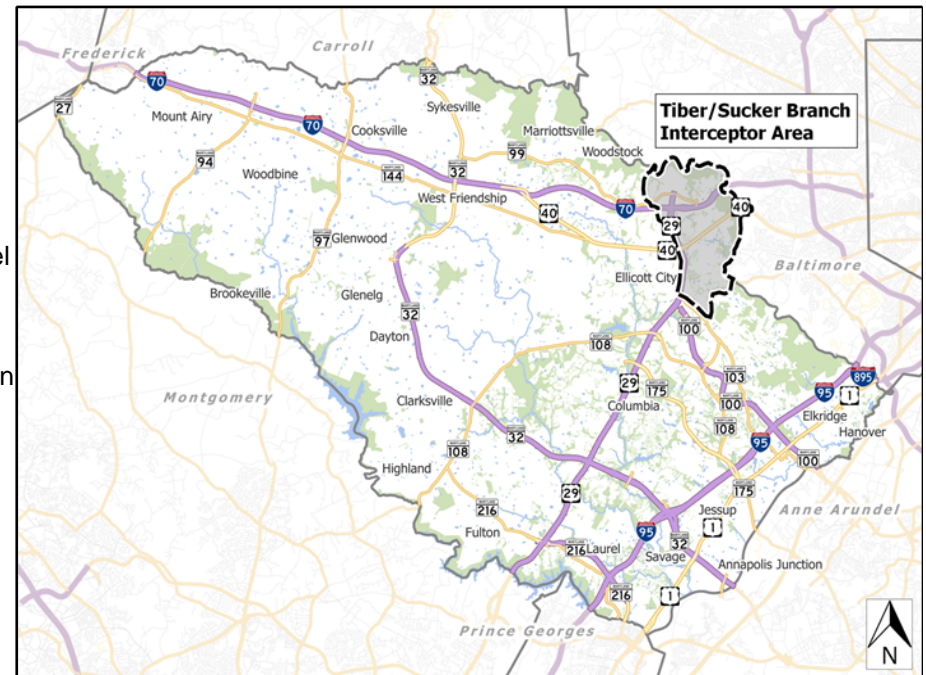

Project Schedule

- FY16 - Design, Permitting, Land Acquisition, Construction
- FY17-18 - Construction
- FY19 - Project complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$441,988

The annual cost of operation and maintenance of the sewer is \$38,000.

Project Status :

\$1,682,002 spent and encumbered through February 2015

Description

A project for the design and construction of 1,700 feet of parallel sewer in the Tiber Branch sewer drainage area and connection into the Patapsco Interceptor to support flows from the MD108 Pumping Station.

Operating Budget Impact

Annual Bond Redemption \$ \$61,750

The annual cost of operation and maintenance of the sewer is \$700.

Justification

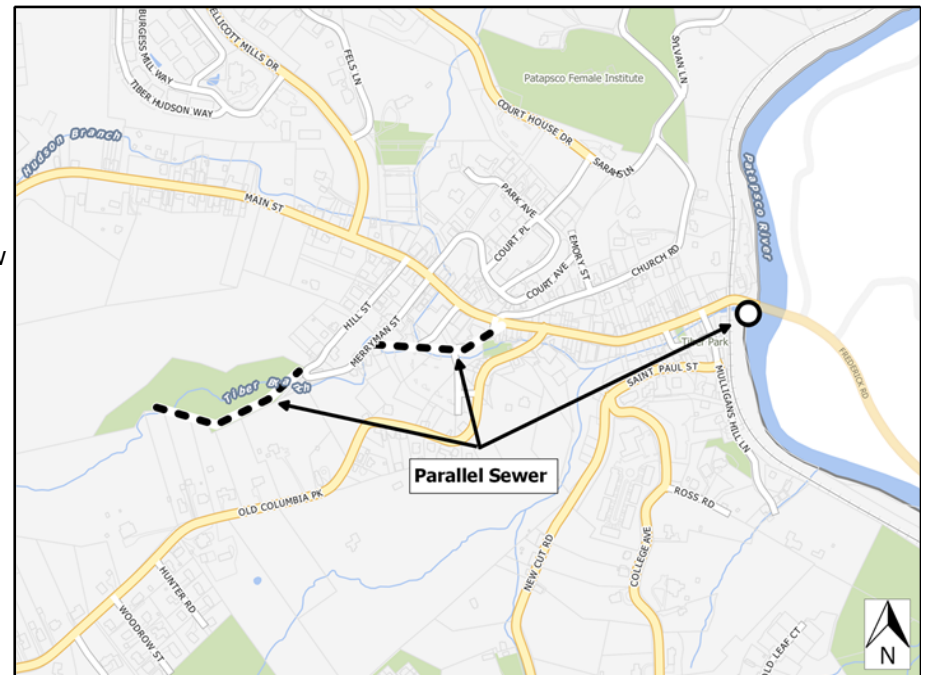

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

Remarks

1. Computer modeling under capital project S-6250 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. During emergency conditions, the MD Route 108 Pumping Station diverts flow from the Little Patuxent sewer service area to the Patapsco sewer service area by way of the Cat Rock Branch / Tiber Branch Interceptor sewer. The improvements are necessary to allow an emergency diversion of wastewater flows into the Patapsco Interceptor without resulting in potential overflow or surcharged conditions.
3. The project was brought before the Public Works Board on January 10, 2012.

Project: S6286-FY2013 DORSEY RUN PUMP STATION UPGRADE

SEWER PROJECTS

Number: S6286

Description

A project to upgrade and increase the pumping capacity of the Dorsey Run Pumping Station.

Justification

The pumping station is currently operating at full pumping capacity during rain events. The pumps, motors and drives are 25 years old and nearing the end of their useful life. Computer modeling under capital project S-6255 has identified the need to upgrade the capacity of the Dorsey Run Pumping Station to handle the ultimate projected flow conditions.

Remarks

1. The improvements are required under the master plan for water and sewerage
2. The project was brought before the Public Works Board on January 10, 2012.

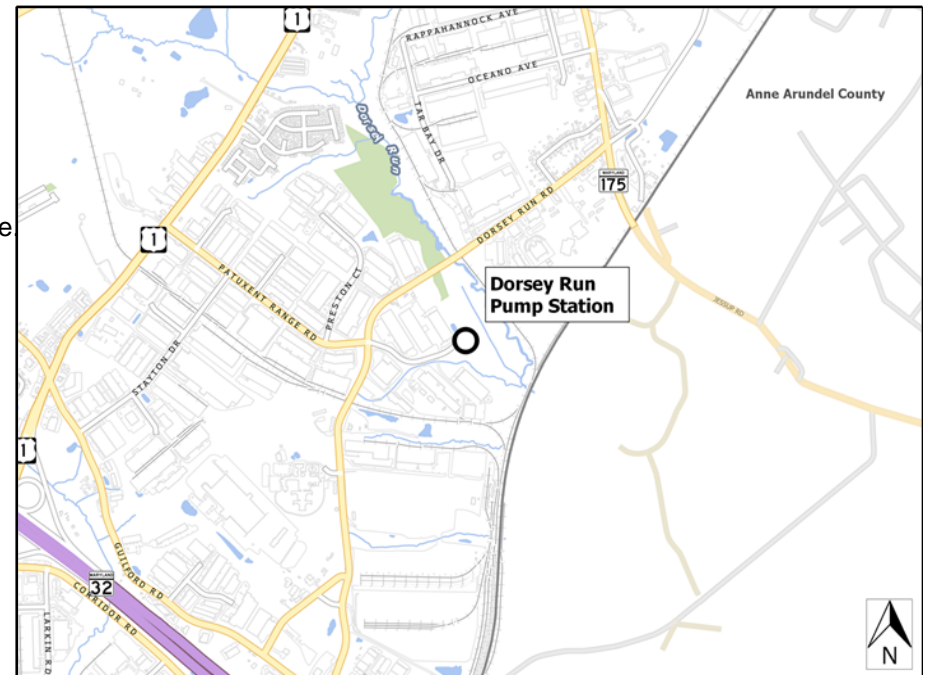

Project Schedule

FY16 - Design, Construction
FY17 - Construction
FY18 - Project complete, close

Operating Budget Impact

Annual Bond Redemption \$ \$216,933

The annual cost of operation and maintenance of the sewer is \$ 50,000.

SEWER PROJECTS

Project: S6287-FY2021 NORTH LAUREL PUMP STATION PARALLEL FORCE MAIN

Number: S6287

Description

A project for the design and construction of 4,600 feet of parallel force main to supplement the pumping capacity of the North Laurel Wastewater Pumping Station.

Justification

The parallel force main is required to allow for a greater pumping capacity with the existing pumps.

Remarks

1. Computer modeling under capital project S-6255 has identified the need to upgrade the capacity of the North Laurel Pumping Station to handle the ultimate projected flows.
2. The project was brought before the Public Works Board on January 10, 2012

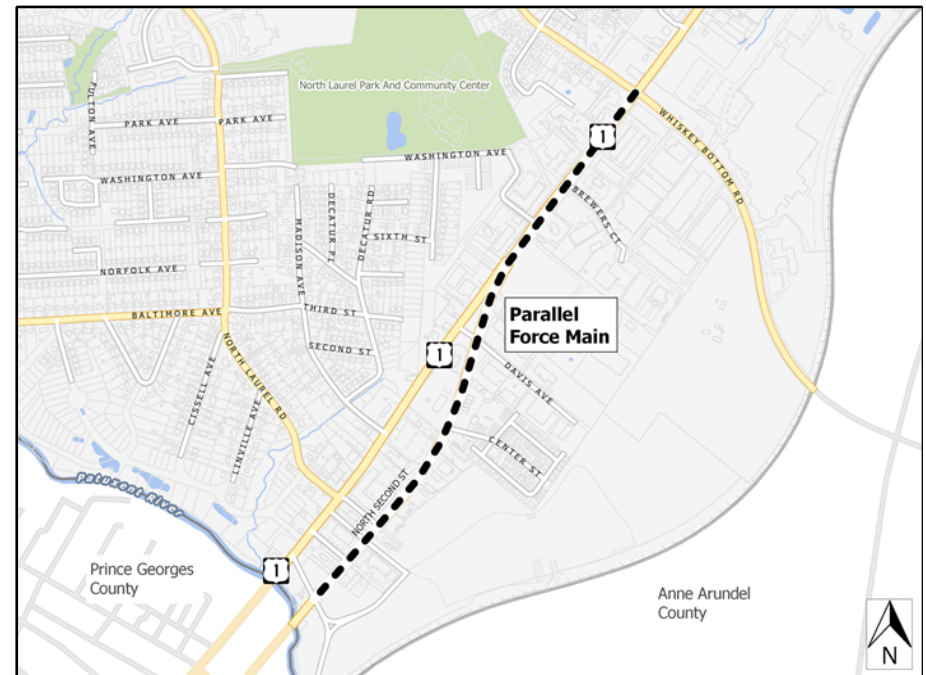

Project Schedule

- FY21 - Design
- FY22 - Construction
- FY23 - Project complete, Close

Fiscal 2016 Capital Budget

Project: S6289-FY2014 PARK AVENUE SEWER EXTENSION

SEWER PROJECTS

Number: S6289

Description

A project for the design and construction of 350 LF of 8-inch sewer to serve three properties on Park Avenue in Ellicott City.

Justification

The three properties are currently served by a private shared sewer house connection. The shared private sewer is located under one of the homes being served. Shared private sewer house connections serving multiple properties are not permitted under current County regulations.

Remarks

1. The capital project will replace the shared private sewer with a public sewer relocated out from under the private home.
2. All easements required for the construction of the sewer will be provided by the property owners being served at no cost to the County.
3. The project was brought before the Public Works Board on December 11, 2012.

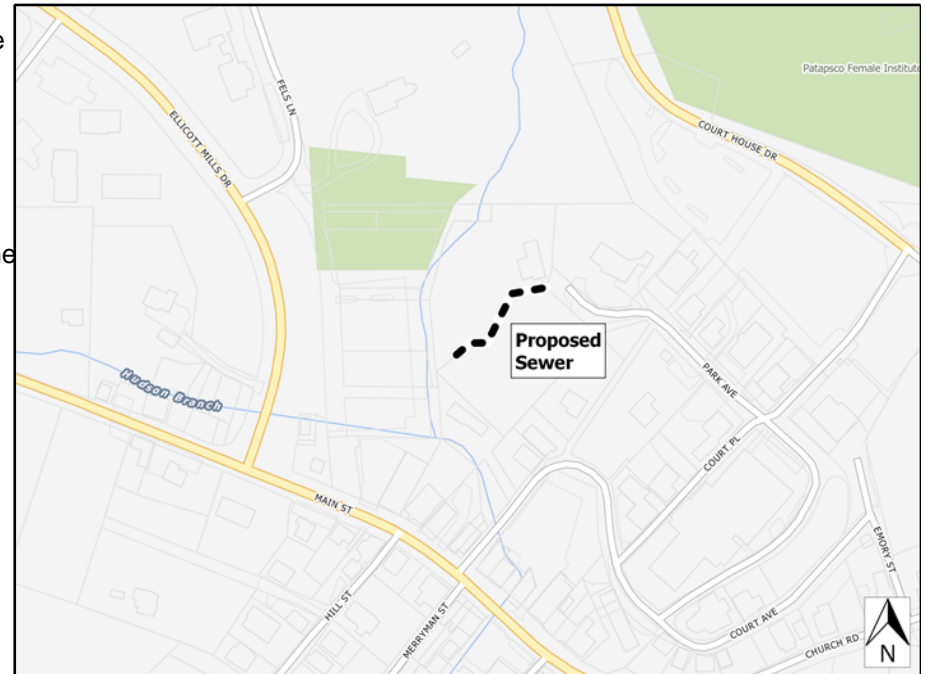

Project Schedule

FY16 - Construction, Project complete
FY17 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$10,688

The annual cost of operation and maintenance of the sewer is estimated at \$750.

Total Funding	225	0	225	0	0	0	0	0	0	0	0	0	0	225

Project Status :

\$64,887 spent and encumbered through February 2015

This project is currently under design.

Description

A project for the study and realignment of 3,500 linear feet of sewer in the area of Baltimore Street and Washington Street, west of William Street in Savage, Maryland.

Justification

The existing sanitary sewers in this area of Savage were constructed as part of the original Savage Mill factory housing and accepted into the County public sewer system in the 1960s. The sanitary sewers were constructed in back yards, abutting the foundations of buildings and private homes without recorded easements. The capital project will study the feasibility of relocating the sewers into public roadways or easements under the current standards and reconnecting the buildings and homes into the new public sewer.

Remarks

1. Relocation of the sewers will reduce or eliminate the need for the County to enter onto private property and excavating adjacent to existing building and homes to maintain the public sewer.
2. The project was brought before the Public Works Board on December 11, 2012.
3. Request represents the latest Engineer's Estimate for construction.

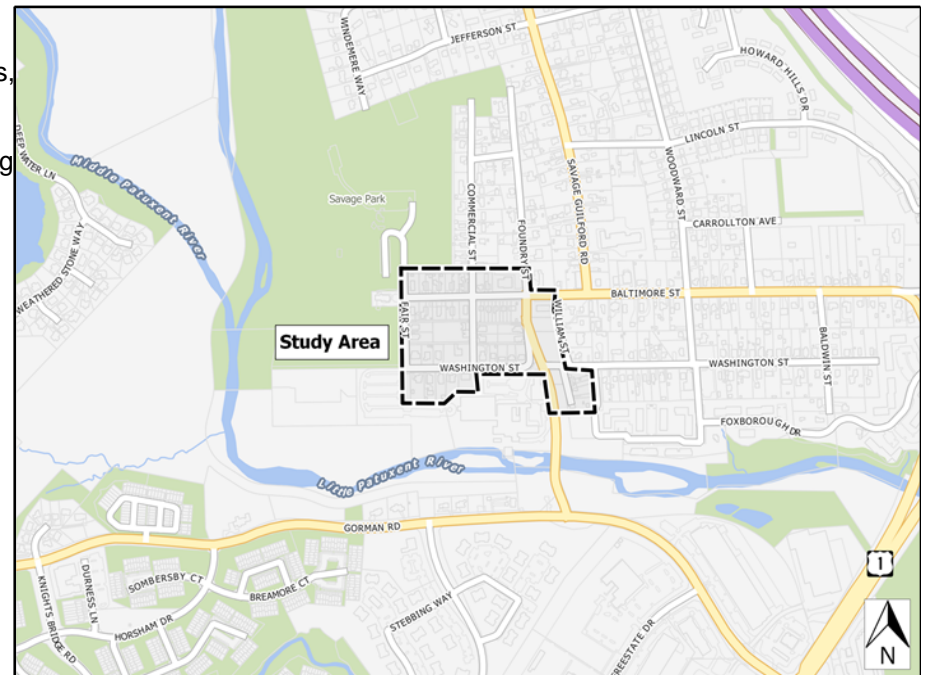

Project Schedule

FY16 - Land Acquisition, Design, Construction
FY17 - Construction, Project complete
FY18 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$154,375

The cost of operation and maintenance will be reduced by relocating the public sewers to more accessible locations within public rights-of-way or easements.

Description

A project for the design and construction of 2,000 LF of sewer to serve three properties located on US40.

Justification

The project was requested by the owners of two parcels on US40. The parcels are located within the Metropolitan District. The properties are assessed ad-valorem charges and are eligible for public water and sewer service.

Remarks

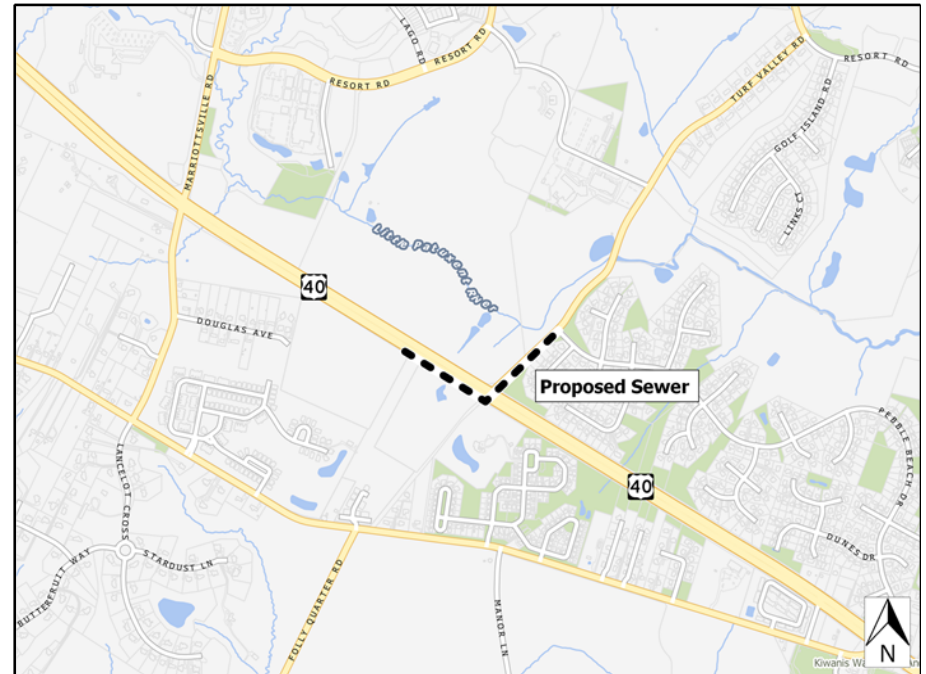

- 1. The project was brought before the Public Works Board on January 14, 2014.

Project Schedule

FY16 - Design, Construction
FY17 - Project complete, Close

Operating Budget Impact

The annual cost of operation and maintenance of the sewer is \$4,200.

Project Status :

\$37,163 spent and encumbered through February 2015

Description

A project for the renovation of the Annapolis Junction Pumping Station.

Justification

The County has been requested to make certain modifications to the existing Annapolis Junction Pumping Station to accommodate planned land use by the adjacent property owners. The modifications include fence relocations and installation of odor control facilities. The requested modifications will be paid for by adjacent land owners. Other desired station improvements will be cost shared between the County and the adjacent land owners.

Remarks

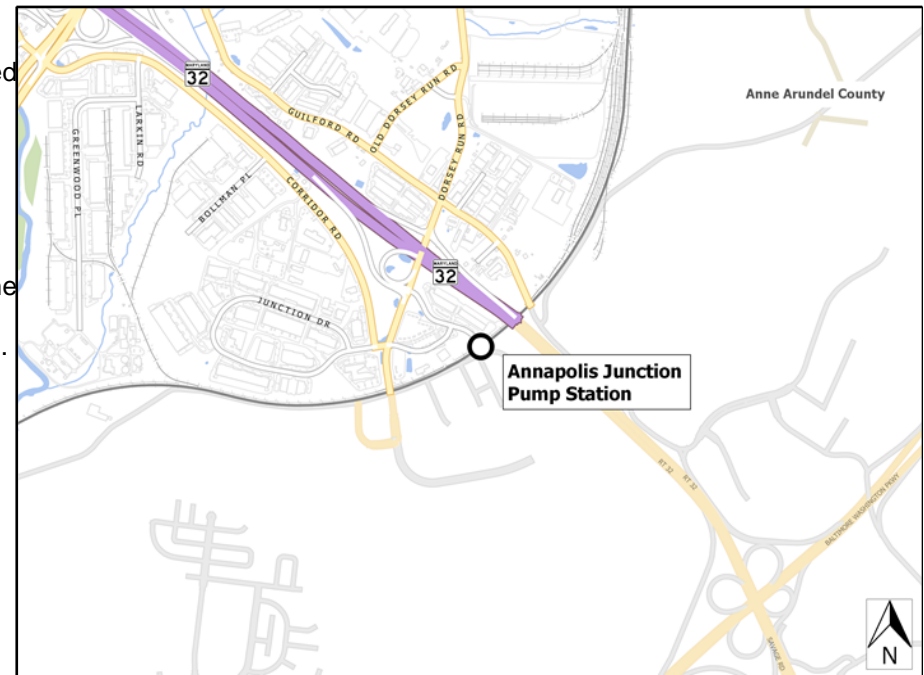

- 1. Requested modifications to the pumping station will be contingent on receipt of funds from those requesting the modifications.
- 2. Other sources represents developer contributions and funds received from the adjacent land owners.
- 3. The project was brought before the Public Works Board on January 14, 2014.

Project Schedule

FY16 - Design, Construction
FY17 - Project complete, close

Operating Budget Impact

The annual cost of operation and maintenance will be unchanged.

SEWER PROJECTS

Project: S6295-FY2016 LPWRP 8th ADDITION BIOSOLIDS PROCESSING FACILITIES

Number: S6295

Description

A project to design and construct new Biosolids Processing Facilities at the LPWRP for the purposes of meeting new Maryland Department of the Environment (MDE) biosolids storage and disposal regulations, achieve biosolids volume reduction, and enhance biosolids quality for end use purposes.

Justification

Biosolids from Howard County's Little Patuxent Water Reclamation Plant (LPWRP) are currently dewatered, treated using an advanced alkaline (lime) stabilization process, and applied in bulk as a fertilizer to agricultural fields within Maryland. Recent and emerging regulatory changes in Maryland that prohibit winter land application and could prohibit continued application of biosolids on a large number of farm fields in the state threaten the long-term viability and cost-effectiveness of the County's current biosolids management practices. Regulatory uncertainty coupled with the cost and increasing operational demands of lime stabilization has prompted the County to evaluate other long-term biosolids management alternatives.

Remarks

Howard County recently completed a Biosolids Master Plan for the Little Patuxent Water Reclamation Plant (LPWRP) that recommends replacing the existing RDP advanced lime stabilization process with anaerobic digestion and direct heat drying to produce a Class A, exceptional quality (EQ), dried biosolids product. A versatile product capable of being distributed to many outlets is desired by the County.

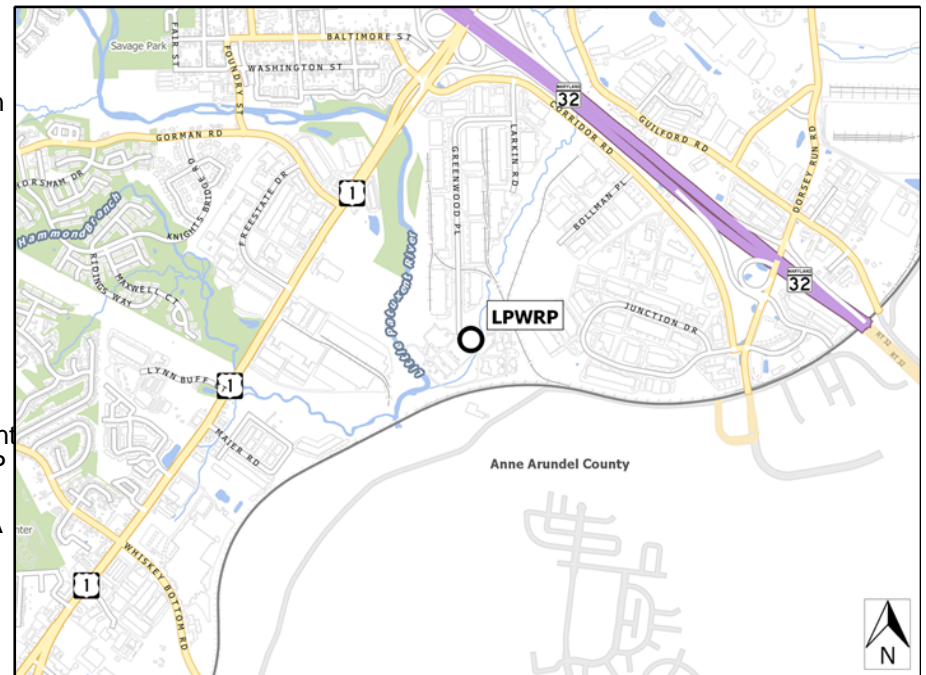

Project Schedule

FY16 - Project Design and Permitting
FY17-FY18 - Construction and startup phase of new facilities. Approximate 18 month construction, and six month startup up to achieve full operation.
FY19 - Project Complete and Close.

Operating Budget Impact

Annual Bond Redemption \$ \$3,990,000

The annual operation and maintenance of the new biosolids processing facilities will be included in the Operating budget of the Bureau of Utilities, and the cost of operation and maintenance is recovered through the User Rates.

Project: S6698-ROUTINE SEWER EXTENSION PROGRAM

SEWER PROJECTS

Number: S6698

Description

A project to design and construct routine sewer main extensions in the Metropolitan District requested by landowners.

1. To serve parcels with existing dwellings and existing dwellings in recorded residential subdivisions where sewer mains have not been constructed.
2. To serve existing dwellings or businesses on failing private systems as identified by the County Health Department.
3. These routine extensions must also meet the following criteria:
 - a. A written request has been made by a property owner who is without a sewer main fronting their property.
 - b. Properties to be served must abut a County or State road.
 - c. The extension is less than 1,000 feet.
 - d. The extension is a gravity sewer main and continues a gravity sewer system currently in service within the sewer shed.
 - e. Acquisition of utility easements are not required.
 - f. Capacity is available per section 18.122B of the County Code.
 - g. The extension is supported by at least 50% of the abutting property owners.

Justification

This project will provide service in a shorter time frame for small extensions.

Remarks

1. See Capital Project W8698 for Routine Water Main Extension program.
2. Request represents the advancement of funds in the capital program.

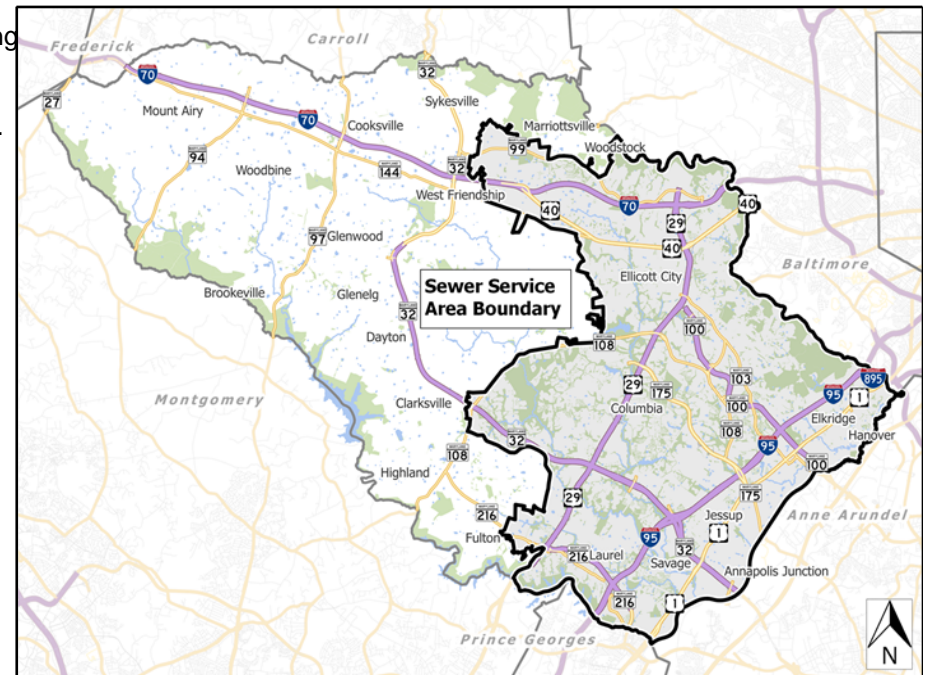

Project Schedule

Ongoing Program

Operating Budget Impact

Annual Bond Redemption \$ \$350,313

A total of \$1600 per year includes televising the sewer and maintaining the easements over the sewer alignments.

Fiscal 2016 Capital Budget

Project: S6699-ON SITE SEPTIC SYSTEM CONVERSION PROGRAM

SEWER PROJECTS

Number: S6699

Description

A project for the study, design and implementation of converting properties within the water and sewer Planned Service Area, that are currently on private on-site septic systems, to public sewer service.

Operating Budget Impact

Annual Bond Redemption \$ \$855,000

The annual cost of operation and maintenance is \$10,000.

Justification

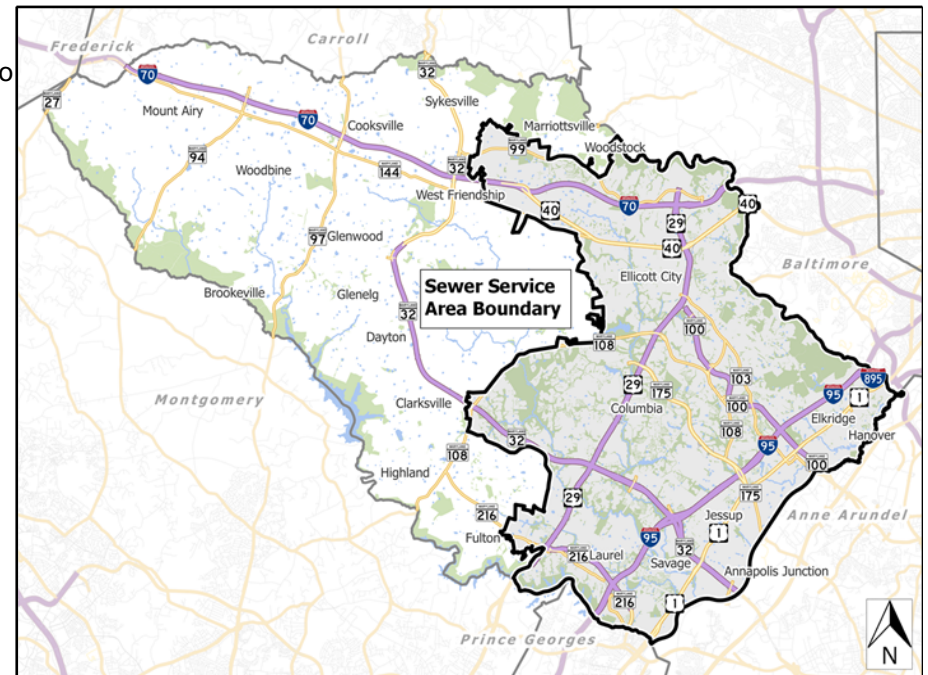

Properties within the planned service area on private septic systems often produce a greater nutrient loading on the environment than waste treated at the County's water reclamation facilities. By providing improved properties access to public sewerage facilities the County will be able to lower the overall nutrient impact on the County's watersheds.

Remarks

1. The project was brought before the Public Works Board on April 9, 2013.
2. The project will provide construction of the necessary infrastructure to allow properties to connect to the public sewer system.
3. Properties must be within the Planned Service Area and Metropolitan District prior to connection to the public sewer system.

Project Schedule

FY14 - Study and implementation
FY15 - On going program

Project Status :

\$0 spent and encumbered through February 2015

Description

A project to provide engineering or administrative services, computer management, asset management, inspection, testing, staff training, supplies, tools, equipment and vehicles necessary for site inspections for the implementation of developer projects to make additions to the public water and sewer systems. All projects undertaken with this authority are primarily funded by private funds received from developers requesting such additions to the public system.

Justification

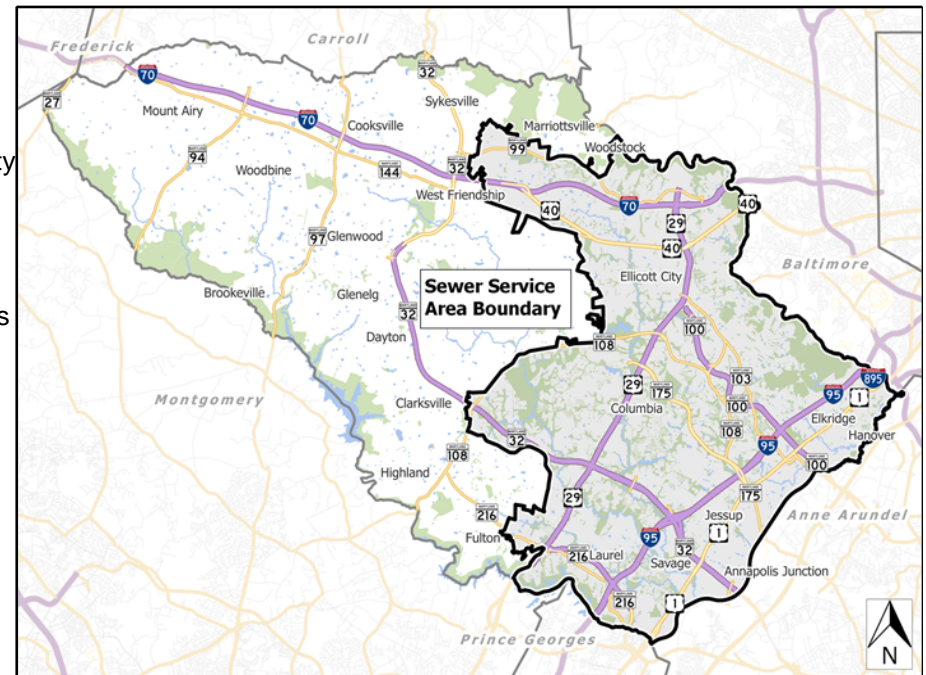

This project is necessary to provide an appropriation for engineering and inspection services. The services are necessary for determining the acceptability of developer work into the County system.

Remarks

- 1. Utility cash is requested as an additional revenue source to meet project goals during current economic conditions.
- 2. Request represents additional funds required for inspection services.

Total Funding	6,000	500	6,500	2,000	0	2,000	0	0	4,000	0	0	0	0	10,500

Project Status :

\$2,642,217 spent and encumbered through February 2015

Description

A project to provide for the construction and inspection services for sites that do not require formal developer agreements, but instead require Advanced Deposit Order (ADO) agreements for water services 8 inch and larger, short main extensions, or other appurtenances. Construction work limited to 200 feet (combined water/sewer). The following criteria must be met: 1. Extensions are necessary to provide frontage to existing lots or parcels within the Metropolitan District. 2. Developer responsible for all engineering, plans, and construction stakeout. 3. Parcel or lots not subdividable. 4. Acquisition of Utility easements not required. 5. Front foot benefit charge affects the ADO requester only.

Justification

The Howard County Code Section 20.308 establishes the requirements to charge for connections, and the requirement to receive payment prior to making the connection.

Remarks

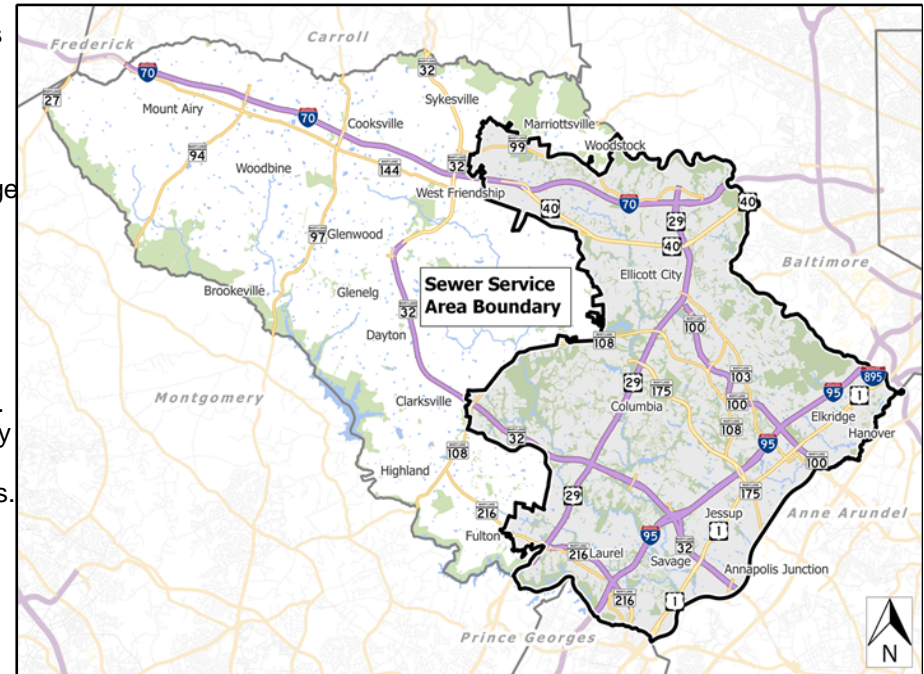

- 1. An ADO agreement provides for the contractual basis for the connection request. Each connection's cost is accounted for separately against this project.
- 2. After August 1,2007, developers will hire Howard County licensed on-site utility contractors, at their cost, to perform the work. The County will continue to construct these connections only at the discretion of the Director of Public Works.

Project Schedule

FY16 - Construction
Beginning in FY12, project to remain as an ongoing project

Operating Budget Impact

There is no Operating Budget impact associated with this project.

Fiscal 2016 Capital Budget

Project: S6862-FY2012 SEWER HOUSE CONNECTIONS

SEWER PROJECTS

Number: S6862

Description

A project to provide for the construction of sewer house connections by the Bureau of Utilities for residential sizes 4 and 6 inch. These connections are made when new connections are required for lots or homes where none exist. Connections installed by Developer Agreement, capital project, or by developer's utility contractor under County inspection (post August 1, 2007) are not included.

Operating Budget Impact

There is no Operating Budget Impact for this project.

Justification

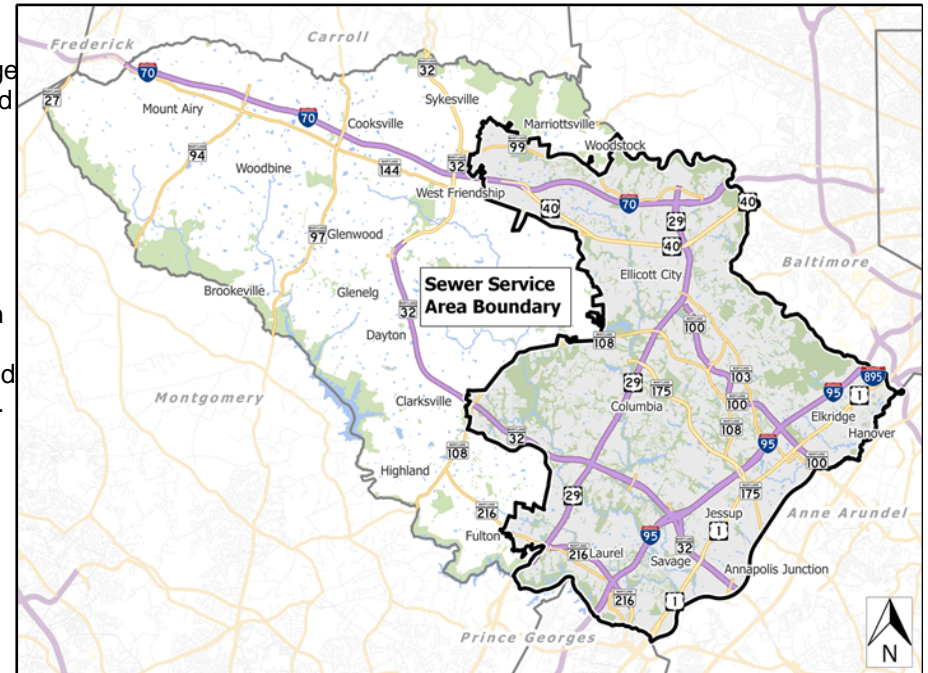

The Howard County Code Section 20.308 establishes the requirements to charge for connections. This capital project allows the installation costs to be capitalized and incorporated into the County's asset management system.

Remarks

1. Sewer house connection charges are collected when the property owner makes application to connect to the public system.
2. Funds collected from the connection charges are credited to this project when the connections are not existing.
3. House connections previously installed by the Bureau of Utilities to be installed by the developer's utility contractor under County inspection (post Aug. 1, 2007). Bureau of Utilities will install connections only at the discretion of the Director of Public Works.

Project Schedule

FY16 - Construction.

Project Status :

\$0 spent and encumbered through February 2015

FY16 - Ongoing Project, Renewed for FY16

Description

A program for the reimbursement to developers for construction of water and sewer house connections to existing lots outside of their subdivision.

Justification

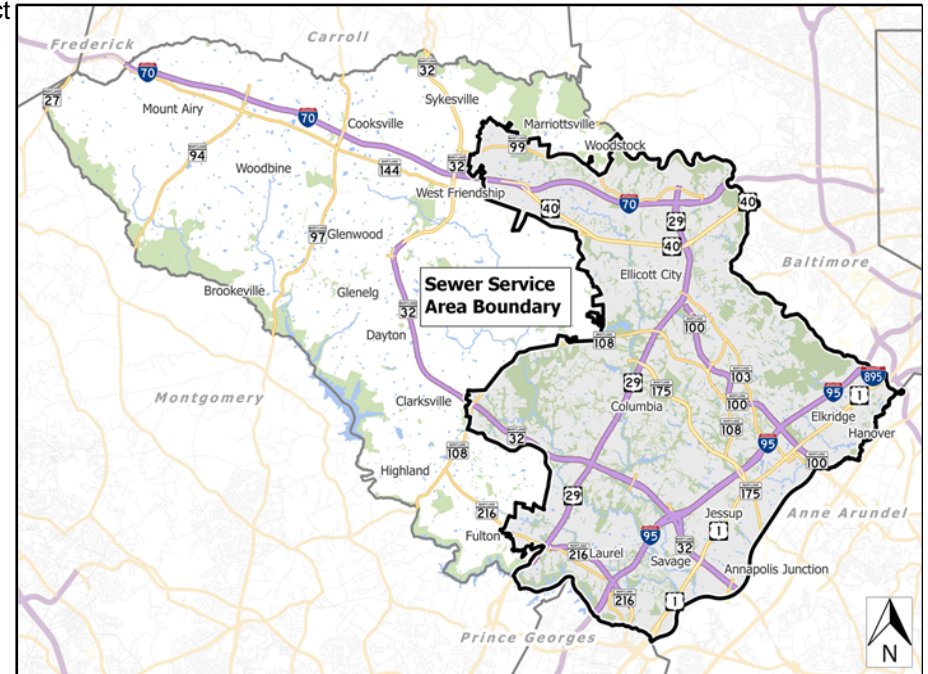

A developer may be asked to provide water and/or sewer house connections to existing lots which are not part of the developer's subdivision. This capital project will allow reimbursement to developers for installation of water and sewer house connections outside of their subdivision.

Remarks

The installation of water and/or sewer house connections during construction of the mains is more cost effective and will prevent future traffic disruption, excavation and road repair required if these connections were constructed at a later date.

Project Schedule

Project Status :

\$61,364 spent and encumbered through February 2015

House connections were installed in the following areas in conjunction with developer activities: 1. Wake Forest Road and Tulane Drive (Clarks Glen North Development). 2. Trotter Road (Trotter Crossing Development). 3. Linwood Center Sewer (SHC to Church Road Resident).

Description

A project to reimburse developers for construction of major water and sewer facilities as shown on the approved Howard County Master Plan for Water and Sewerage.

Justification

The Howard County Master Plan for Water and Sewerage allows for the systematic extension of the public water and sewer system to serve those properties within the water and sewer Planned Service Area and Metropolitan District. Existing and proposed major facilities such as transmission mains, pumping stations, elevated water storage facilities, major collector sewers and interceptor sewers are shown and noted in the master plan. Major facilities are intended to serve as the backbone of the public water and sewer system and to allow for the systematic extension of public water and sewer services. The construction of major facilities is normally undertaken by the County through capital projects. When a developer or land owner wishes to advance construction of a major facility that is required to serve an area of the County, the County will consider reimbursing the developer for the cost of construction of the major facility through this capital project.

Remarks

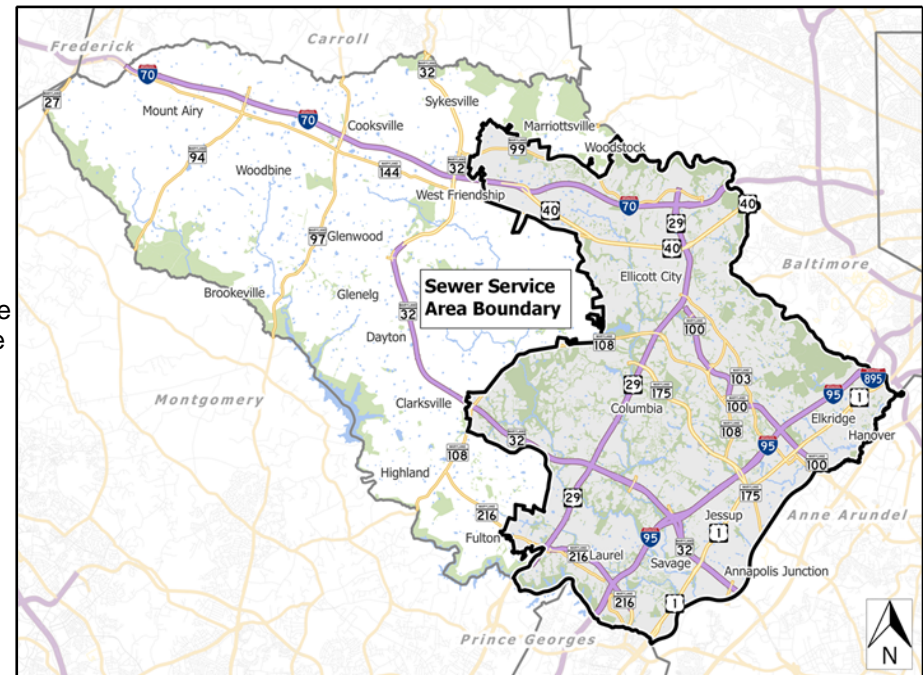

- 1. Reimbursements through this capital project will require the execution of a major facilities agreement between the developer and the County.
- 2. Reimbursement will include only the actual construction cost of the major facility.

Project Schedule

On-going

Operating Budget Impact

No impact on operating budget.

Project: T7087-FY1999 STREET LIGHT SETBACK SAFETY PROGRAM

TRAFFIC IMPROVEMENTS

Number: T7087

Description

A program to provide safety improvements along arterial roadways in Columbia by setting back and upgrading all existing street lights.

Justification

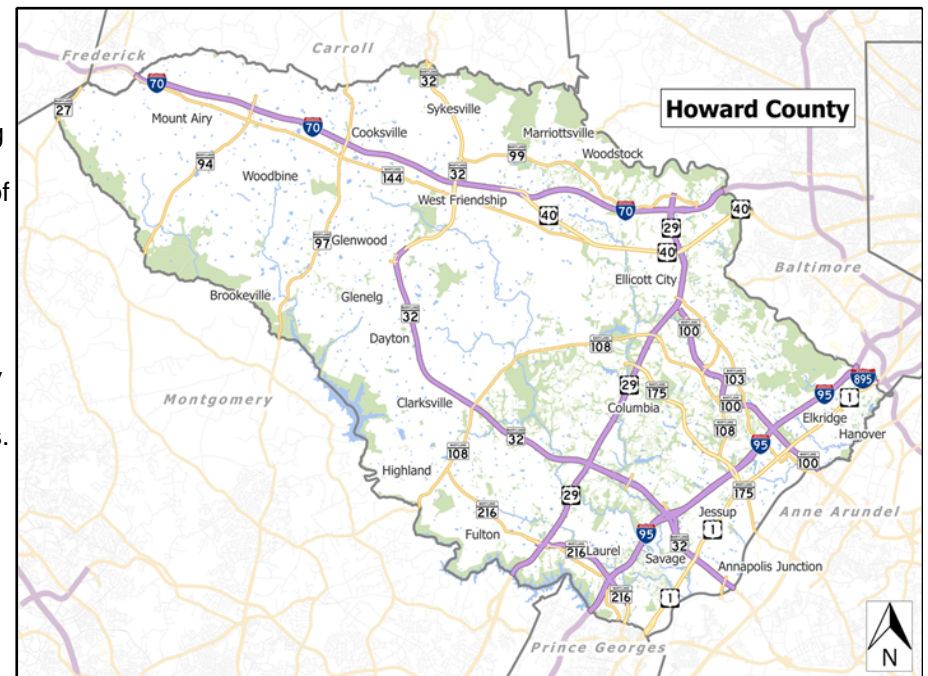

Most of the existing street light poles along arterial roadways in Columbia are located less than 2 feet behind the face of curb. There have been numerous accidents involving single vehicles running off the roadway and striking a street light pole. This project will relocate street light poles a minimum of 4 feet behind the face of curb and in some cases behind the sidewalk. In addition, each pole and arm will be upgraded to a 30 foot fiberglass pole with a 12 foot arm (existing poles use a 6 foot arm). The longer arm allows the pole to be setback and not reduce the existing level of illumination and in most cases the level and quality of illumination will be improved. This project will also address the number of damaged or peeling fixtures/poles as required.

Remarks

1. The new fixtures and poles that are being installed along Little Patuxent Pkwy (from Broken Land Pkwy to Columbia Rd) and along Governor Warfield Pkwy (from Little Patuxent Pkwy to Windstream Dr) will be installed using LED fixtures.
2. Request represents installing new poles and LED fixtures along Governor Warfield Pkwy (from Windstream Dr to the Little Patuxent Pkwy/Banneker Rd intersection).

Project Status :

\$586,211 spent and encumbered through February 2015

Projects Completed - Twin Rivers Rd (from Governor Warfield Pkwy to Harpers Farm Rd), Harpers Farm Rd (from Little Patuxent Pkwy to Rivendell Lane), Little Patuxent Pkwy (from Broken Land Pkwy to Cedar Lane) and Cedar Lane (from Hickory Ridge Rd to Little Patuxent Pkwy).

Projects in Construction - Little Patuxent Parkway (from Broken Land Pkwy to Columbia Rd) and Governor Warfield Pkwy (from Little Patuxent Pkwy to Windstream Dr).

Project Planned - Governor Warfield Pkwy (from Windstream Dr to the Little Patuxent Pkwy/Banneker Rd intersection).

Description

This project is for the installation or modification of crosswalks, raised crosswalks, chokers, sidewalks, raised shoulders, signs, signals and/or other roadway retrofits to provide for an enhanced walking route for school children.

Operating Budget Impact

Annual Bond Redemption \$ \$46,935

Justification

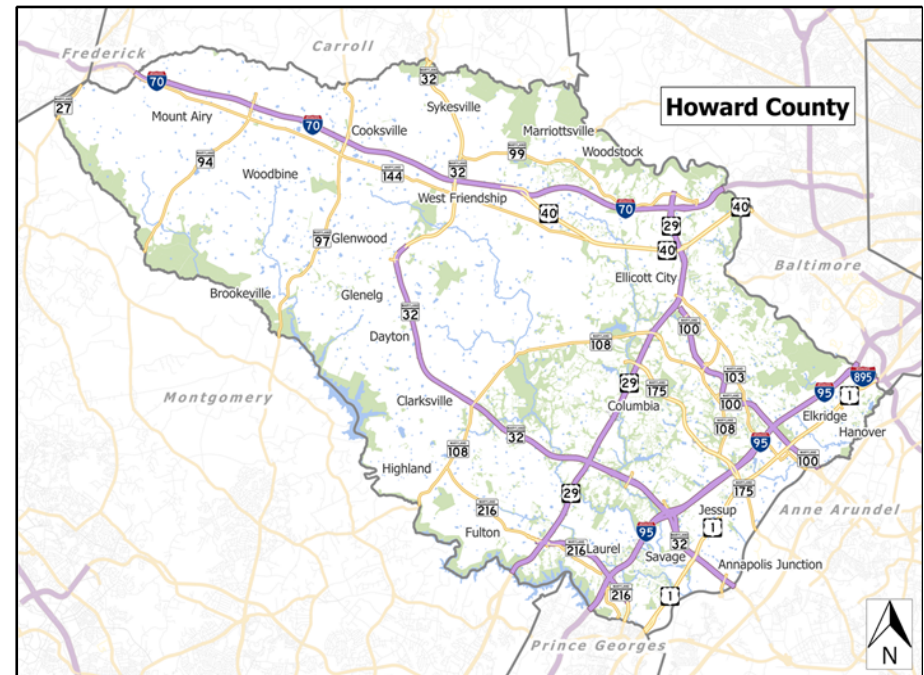

Installation of these devices improves safety for children walking to and from school. Other recreational and pedestrian transportation benefits can be gained by their installation.

Remarks

- 1. This project will not proceed until the School System endorses specific locations.
- 2. OTHER revenues are from speed automation enforcement.
- 3. Grant funding from Safe Routes To Schools (SRTS)

Project Status :

\$370,142 spent and encumbered through February 2015

Projects Completed: Oakland Mills Rd at Old Montgomery Rd, Seneca Dr, Mayfield Ave and Snowden River Pkwy (south), Old Waterloo Rd at Deep Run ES

Pedestrian refuge islands on: (1) Great Star Dr @ Fall Moon Dr. (2) Great Star Dr near Trumpet Sound Ct. (3) Great Star Dr near Daybreak Cir. (4) Linden Linthicum Ln near Little Bells Row.

400 feet of sidewalk on Great Star Dr near Eternal Oceans Pl.

ADA ramps, crosswalk and sidewalk on Linden Linthicum Ln.

ADA ramps at midblock crossings on Indian Summer Dr.

ADA ramps and sidewalks on Gorman Rd at Skylark Blvd, Summer Sky Path, Kilimanjaro Rd at Stevens Forest ES. Murray Hill Rd at Vollmerhausen Rd - pedestrian ramps and crosswalk; Freetown Rd at Fair Oaks Dr. - ADA ramps & crosswalk; ADA ramps and crosswalk on Stonehouse Dr. for Hollifield ES; pedestrian refuge island on Stevens Forest Rd for Stevens Forest ES

Projects Planned: Farewell Rd - bump outs and crosswalk.

Burntwoods Rd at Sharp Rd - sidewalk.

Sidewalk / ramp replacement at various school walking areas.

School flasher equipment upgrade to permit programming of school closure schedule. Green Mountain Cir at Windstream Dr - pedestrian refuge island, Ellis Ln - ADA ramps.

Description

A project to construct geometric roadway changes to reduce traffic speeding in residential areas.

Operating Budget Impact

Annual Bond Redemption \$ \$11,250

Justification

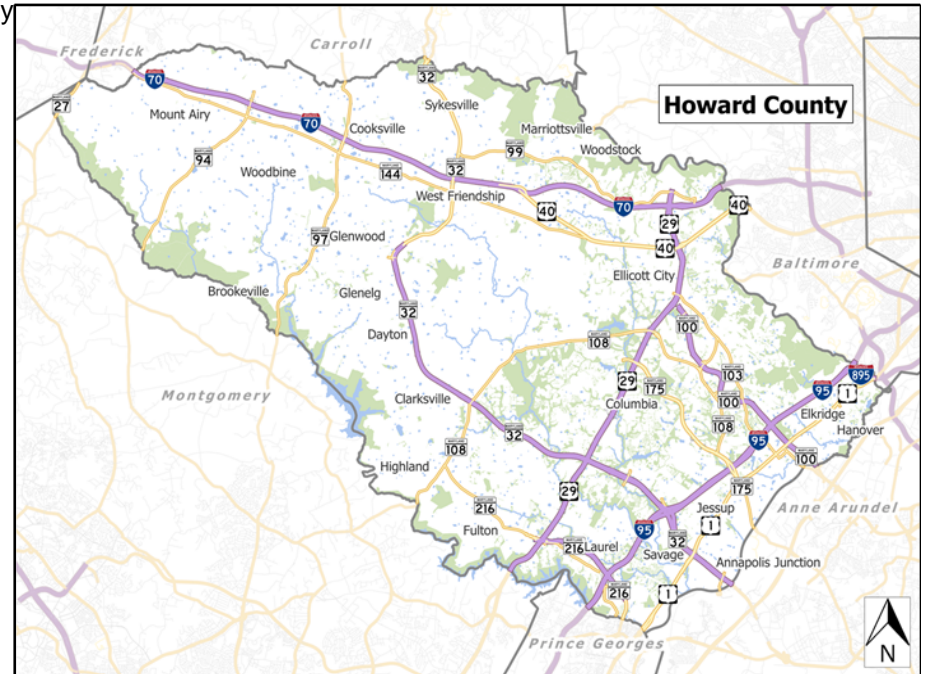

Speeding on residential local and collector roadways has generated many requests to slow traffic by geometric changes as police enforcement is only partly effective.

Remarks

1. The installation of traffic calming devices must meet the warrants.
2. Community concurrence shall be achieved on qualified roads per County policy prior to construction or installing calming or geometric changes.
3. Speed tables and other calming devices may require community cost share.
4. Replacement/repairs of existing speed humps.

Project Status :

\$827,061 spent and encumbered through February 2015

Completed Projects:

Gray Rock Dr - choker and driver feedback signs; Montgomery Meadows û chokers, humps; Valley Mead - hump reconstruction; Font Hill Dr - hump reconstruction; Carrigan Dr - hump reconstruction; Culverene Rd - hump reconstruction; St Johns Ln - humps - Complete 9/17/08; Chatham Rd - humps - complete 9/17/08; Hillsborough Rd - hump markings and signs - complete; Brittany Ln - remove median - complete 7/23/08; Mount View Rd - cancelled; Tamar Dr û humps complete 3/19/09; Patuxent Woods Dr - humps reconstruction 5/13/09; Breconshire Rd - hump reconstruction - complete 12/09; Hesperus Dr - hump reconstruction - complete 11/11; Rowanberry Dr - hump reconstruction 10/11; Furrow Ave 6/12; Rockburn Dr 11/13; Kerger Rd 10/13; Worthington Way 9/13; Thunder Hill Rd - N of MD175 11/13; Thunder Hill Rd - S of MD175 12/13

humps replaced: Doncaster Rd; Brittany Dr 11/13; Majors Ln 11/13; Tamar Dr (6000-6300s) 12/13;Wheatfield Way 8/14; N Chatham 11/14.

Stonehouse Dr: TAC Formed.

Tiller Dr: TAC Formed.

Farewell Dr: TAC Formed.

Potential Projects:

Font Hill Dr; Hunting Horn Dr; Roundhill Rd.

Scaggsville Rd - Crest Rd to Leishear Rd - Community vote failed to pass.

Description

This project is for the installation of new street lights in existing communities and commercial/industrial areas, and the conversion of existing street lights to high pressure sodium vapor (HPS) and/or LED fixtures.

Justification

New street lights will be provided at warranted locations based on existing guidelines and the need to increase safety along County roads. Additional targeted locations will include major intersections along minor arterial, major collector and minor collector roadways that have inadequate levels of street lighting. Conversion of existing street lights to high pressure sodium vapor (HPS) or LED fixtures provides improved lighting with less energy consumption.

Remarks

1. Request represents installation of warranted new street lights, conversion of existing mercury vapor fixtures to LED fixtures and to supplement developer funds for new lights in new developments for the added cost of LED fixtures.
2. OTHER represents community contributions and developer/contractor payments for pole relocations.

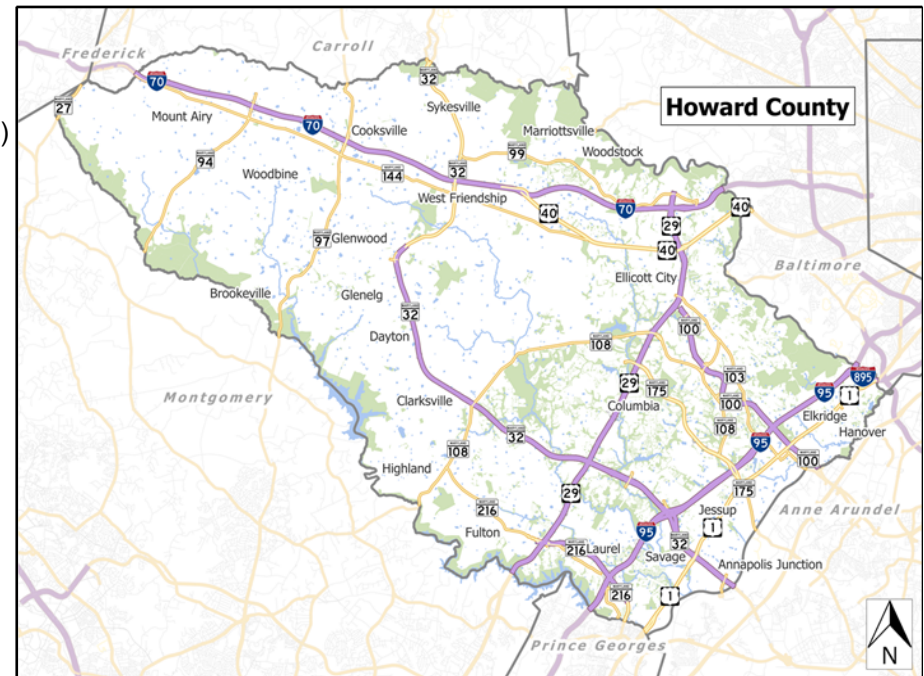

Project Schedule

PROGRAM

Operating Budget Impact

Annual Bond Redemption \$ \$38,925

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. Increased energy costs

\$1,289,474 spent and encumbered through February 2015

PROJECTS IN PLANNING STAGE for upgraded or new street lights:

Columbia Gateway Dr, Eden Brook Dr (south of Guilford Rd), Hunt Club Estates community, and Bolling Brook Farms community.

CONVERSION PROGRAM: The Villages listed will be converted directly to LED fixtures - Villages of Owen Brown, Dorsey Search, Kings Contrivance and Hickory Ridge.

Conversion Program Completed (HPS vapor) - Villages of Wilde Lake, Oakland Mills, Harpers Choice and Long Reach.

PROJECTS COMPLETED:

(2012) - Downs Ave, Glenmont community, Greentree Ct, Stone Hill Farm community, Tiller Dr at MD 99, McGaw Rd & Snowden River Pkwy (LED) and numerous single street light locations.

(2013) - Basket Ring Rd & Stevens Forest Rd, Foreland Garth, Hammond Dr & Hillcrest Dr, Ilchester Rd (near the State Park), Great Star Dr & Linden Linthicum Ln (installed LED fixtures at the crosswalk islands), Mendenhall Ct, North Ridge Rd @ Town & Country Blvd, Park Circle Dr (LED), Pindell Woods community, Service Road off US 40 near Frederick Rd, Southern Star Terr, Whithorn Way and numerous single street light locations.

(2014) The Birches (VWL) community, Port Capital Dr (along the west side of Howard Square), Fulton Ridge Dr, Gray Rock Dr, Preakness Circle Ln, Brampton Pkwy at Yorkshire Dr, Court House Dr (upgrade fixture to LED), Stevens Forest Rd at new pedestrian crossing, Timesweep Ln, Triadelphia Rd at Evergreen Way, and numerous single street light locations.

PROJECTS IN DESIGN:

Rusty Rim community, Emerson Hill community, Gate Sill, Live Oak Ct, Stabean Dr., Temora Manor Ln, and Fall River Row Ct.

Fiscal 2016 Capital Budget

Project: T7102-FY2008 STREET SIGN PROGRAM

TRAFFIC IMPROVEMENTS

Number: T7102

Description

A project to provide street sign services and related line striping that are included in the implementation of developer projects that expand the County road network of public roads and upgrade signing and striping projects along existing County roads. Developer projects undertaken with this appropriation authority will be fully funded by private funds received from developers who create new roads to serve their subdivisions.

Operating Budget Impact

Annual Bond Redemption \$ \$16,200

Justification

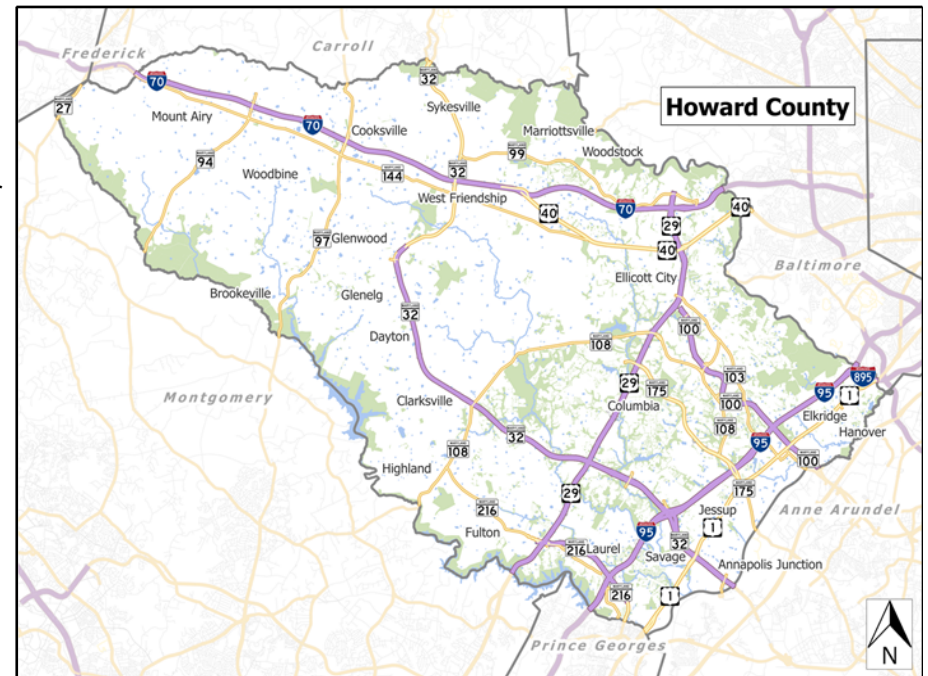

This project is necessary to provide an appropriation for materials, manufacturing, installation of street signs, and related striping for all new public roads. The County has assumed this responsibility to ensure that there are uniform standards of signage and materials employed throughout the County for ease of utilization and maintenance.

Remarks

Request represents up to an estimated 250 signs per year.

Project Status :

\$271,195 spent and encumbered through February 2015

Description

A project for design, review and construction funding of traffic control at various intersections of State and County roads.

Operating Budget Impact

Annual Bond Redemption \$ \$42,750

Justification

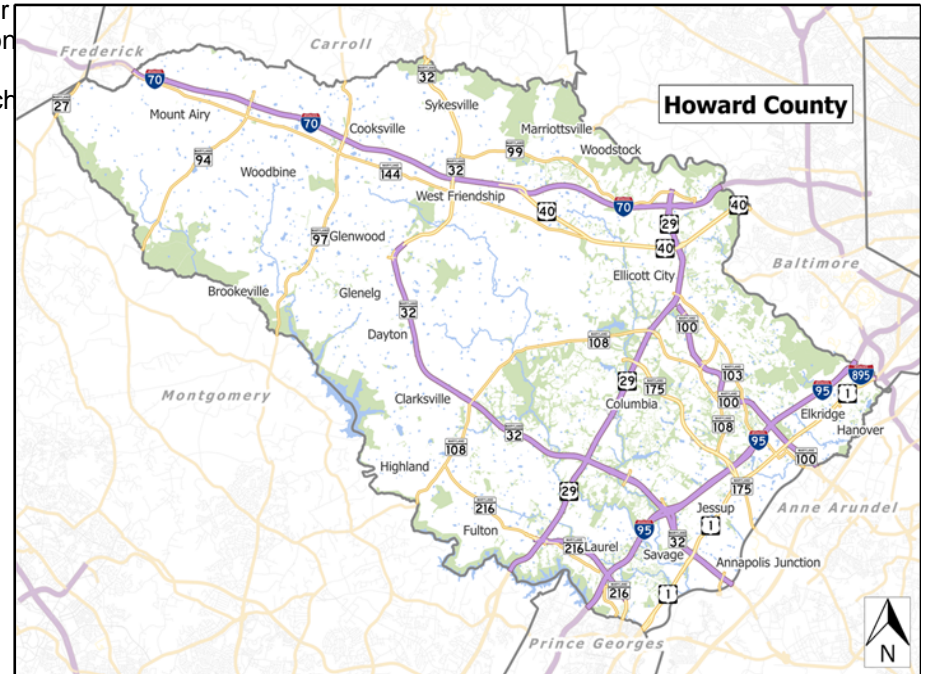

When State Highway Administration has analyzed the traffic volumes and determined that the signal warrants have been met, the County is responsible for its net share of the State expense based on the number of legs of the intersection under its ownership. Therefore, this project acts as a funding source when a critical intersection is at issue for signalization or other types of traffic control such as a roundabout, or the addition of geometric improvement to an existing signalized intersection.

Remarks

1. Design and construction will be by the State Highway Administration.
2. Cost of each new signal: \$45,000 per approach.
3. Project includes cost share for LED conversion on state maintained signals.

Fiscal 2016 Capital Budget

Project: T7105 FY2011-SIGNALIZATION PROGRAM

TRAFFIC IMPROVEMENTS

Number: T7105

Description

A project for the design and construction of various traffic signals when the MUTCD Warrants are met; also includes the modification and modernization of existing traffic signals.

Justification

An inventory of equipment needs to be developed for both new and existing traffic signals to include: poles, mast arms, signal heads, pedestrian signals, video detection cameras, controllers, and cabinet hardware. When a new signal is warranted, construction plans are designed to be utilized by the contractor. Once installed, the signal requires routine maintenance to maximize the benefits of a signal while minimizing overall intersection delay. Outdated or malfunctioning equipment needs replacement to provide a desired level of performance. Includes connecting to improved communications such as fiber-optics. Also includes the installation of weather information systems at traffic signals. Timing optimization studies need to be performed and implemented for existing signal systems that need to be updated to account for increases in traffic volumes.

Remarks

1. Cost of a new signal is \$40,000 per approach.
2. Project includes funds for emergency battery backup systems.
3. GRANT revenue represents the Baltimore Metropolitan Council (BMC) grant to upgrade our communications to traffic signals.

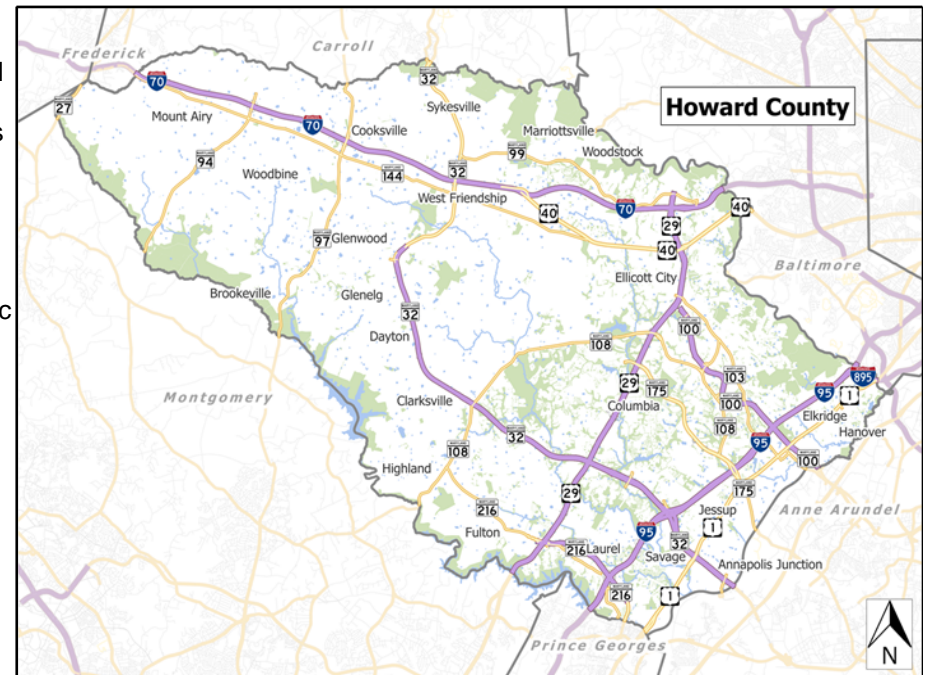

Project Schedule

Program

Operating Budget Impact

Annual Bond Redemption \$ \$189,000

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

Little Patuxent Pkwy from Columbia Rd to South Entrance Rd (timing study - in development), Columbia Gateway Dr from Columbia Gateway Dr to Alexander Bell Dr (timing study - in development), Snowden River Pkwy (timing study pending), Gorman Rd at Foundry St (new signal - in design), Little Patuxent Pkwy at Governor Warfield Pkwy (partial reconstruction - in design), Main St at Maryland Ave (signal equipment upgrade - in design), Main St at Old Columbia Pike (signal equipment upgrade - in design). Rebuild traffic signals (future), ADA improvements at traffic signals (future), Columbia Rd at Dorsey Hall Dr/Leyden Way (signal modification - under construction), Installation of video detection - Centennial Ln and Old Annapolis Rd/Breconshire, Great Star Dr at Summer Sunrise, Dobbin Rd at McGaw Rd, Marshalee Dr at Avalon Dr (new signal - completed Feb 2012), Centennial Ln at Centennial HS/Burleigh Manor MS parking lot (new signal - completed Aug 2011), Upgrade to fiber optic communication (future), Centre Park Dr at Columbia 100 Pkwy (future signal), Dorsey Run Rd at Junction Dr (Future signal - in construction), Little Patuxent Pkwy at Cedar Ln (signal modification - future).

Description

This project is for the study, design and construction of geometric and pedestrian modifications to improve the safety or increase capacity at various intersections. The project may include flattening of vertical curves, adjusting utilities, widening or adding turn lanes, adding traffic islands or signage, acceleration/deceleration lanes and center turn lanes.

Operating Budget Impact

Annual Bond Redemption \$ \$121,500

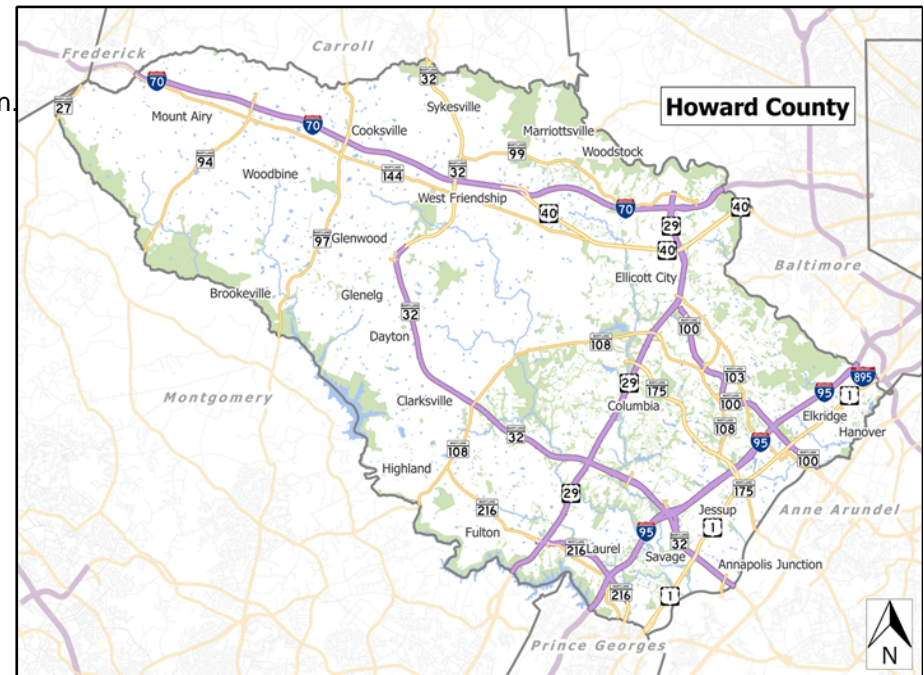

Justification

Modifications may reduce driver delays which will subsequently reduce driver error and accidents under the physical conditions encountered at the intersection. Capacity and level of service may be improved. Vehicular and pedestrian safety may be improved.

Remarks

Completed:

- Mayfield Ave - Replace speed humps Oct 12.
- Marshalee Dr @ Maplecrest Rd - Right turn lane extension Nov 12.
- Grateful Heart Gate - Median islands 1/13.
- Homespun Dr - 2 Pedestrian chokers 6/13.
- Broken Land Pkwy @ Guilford Rd - StreetPrint islands 10/11
- Savage Guilford Rd @ Jefferson St, Lincoln St and Madison St - Ramps & crosswalk 4/12.
- Vollmerhausen Rd @ Wild Grass Ct & Indigo Ct - Pedestrian island and crosswalk 5/12.
- Charter Dr - roundabout 6/12.
- Great Star Dr - Pedestrian island/diverter - Bicycle retrofit 10/12.
- Grateful Heart Gate @ Quiet Night Ride and Ripe Apple - Median rebuild - 1/13.
- Montpelier Rd - Pedestrian islands - 11/13.
- Brampton Pkwy @ Yorkshire Dr /Red Hill Way û Mini roundabout 11/14.
- Thunder Hill Rd @ Lightning View Rd - Pedestrian refuge island 10/14.
- Old Montgomery Rd @ Tamar Dr (Jeffers Hill) - Roundabout feasibility study.

Proposed Projects:

- Governor Warfield Parkway @ Little Patuxent Parkway "T" - Roundabout feasibility study.
- Downtown - Cordon line study.
- Warwick Way/Birmingham Way/Enfield Dr/Star Chaser Cir - Mini roundabout .
- HiTech Rd at Coca-Cola Dr û Right turn island.
- Other Oakland Mills intersection and bicycle improvements.
- Marshalee Dr / Montgomery Road / Deborah Jean Dr û Roundabout.

Description

A project connecting Downtown Columbia at Lake Kittamaquidi and extending to the existing Patuxent Branch Trail. This project would provide a car-free connection from Downtown Columbia to Savage; including the existing portion of the trail, and will connect to the planned east-west Hospital to Blandair Park multi-use pathway.

Operating Budget Impact

Annual Bond Redemption \$ \$42,750

Justification

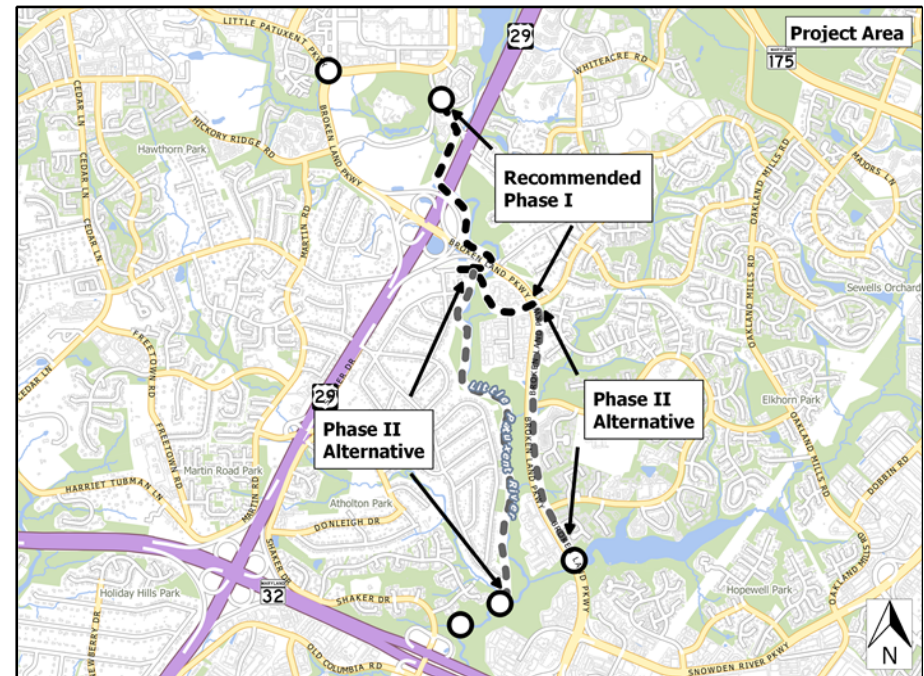

To complete the missing link in the off-road pathway between the existing Patuxent Branch Trail and the planned Downtown Columbia multi-use pathway. The project study will consider multiple alignments between Columbia and the existing Patuxent Branch Trail. The pathway could also serve as a primary path with potential future secondary connections to other nearby attractions.

Remarks

1. Project addresses the need for a major off-road pathway connection.
2. Grant funding has been approved for preliminary plans and engineering for Phase 1. Additional grant funding will be sought for construction
3. Project will be done in partnership with the Columbia Association.
4. DEVELOPER CONTRIBUTION represents funding from Columbia Association.
5. The feasibility study is complete and recommended the project to be completed in two phases. Phase 1 is for alignment from Columbia Town Center to Broken Land Parkway. Phase 2 is to connect to existing Patuxent Branch Trail.

Project Schedule

- FY17 - Design of Phase 1 and begin construction.
- FY17/18 - Completion of construction of Phase 1. Design of Phase 2 and begin construction.
- FY19 - Completion of construction for Phase 2.

FY14 - Feasibility study - complete.

Description

A project to plan, design and construct road and related improvements -- including streetscape, storm water management, pedestrian, bicycle, and public space enhancements -- in the Route 108 corridor.

Operating Budget Impact

Annual Bond Redemption \$ \$184,500

Justification

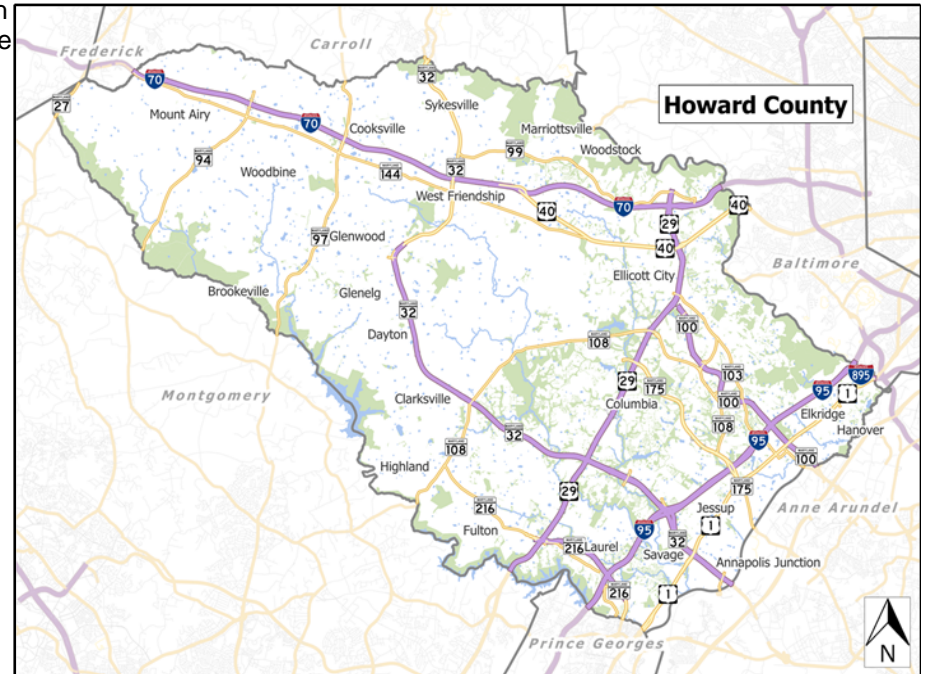

PlanHoward 2030 calls for the enhancement of established communities through strategic public infrastructure investments (Policy 10.1). Projects will improve the transportation system, increase safety, accessibility and mobility, improve treatment of storm water runoff and will implement the community-based vision for street, pedestrian and bike circulation and public open space design.

Remarks

- 1. The County is working with the community to implement road related improvements and design guidelines that address the public right-of-way along Route 108 and adjacent private property.
- 2. Public easements on private property will be needed to advance certain improvements.

Project Schedule

- FY16 - Community design guidelines and permit approval.
- FY17 - Project design and construction.

Draft design guidelines were prepared in FY15 and will be reviewed by the DAP. Upon completion and adoption by the Council as resolution, a State Highway Administration (SHA) design waiver process will be initiated. Design development will follow SHA's permitting process.

Description

A project to facilitate the design, installation and modification of street lights in new developments. New street lights are planned for most new residential developments and many site development plans based on DPZ and DPW guidelines.

Justification

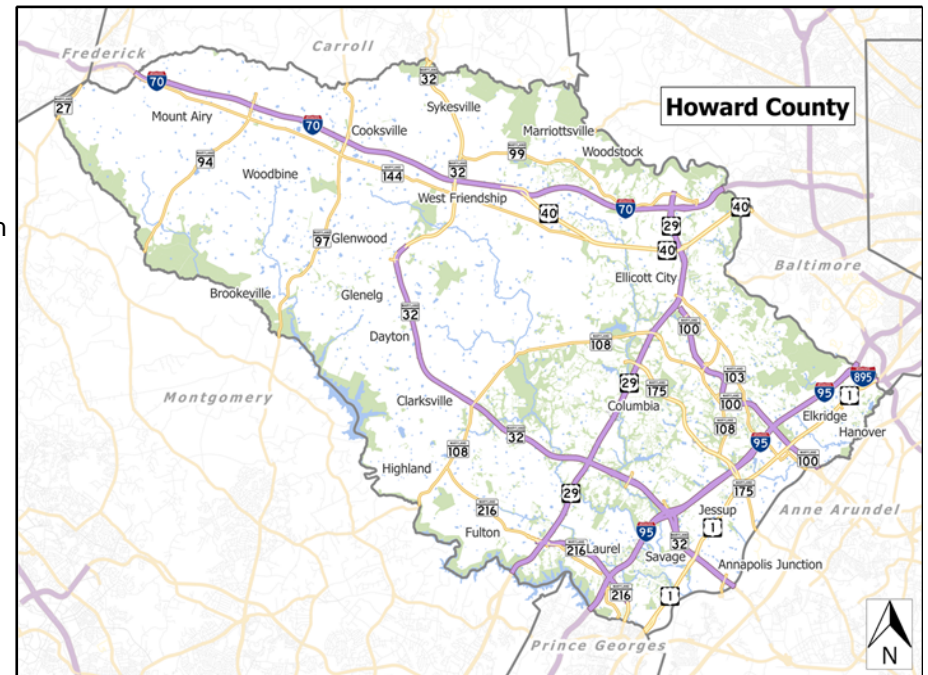

This project will provide a funding source to accumulate developer street light funds collected as part of the developer agreement process and to pay BGE for the installation of the street lights when the development is constructed.

Remarks

1. The capital cost of the construction and installation of the street lights for each development will be paid for by the funds collected for that development when the developer agreement was signed.
2. OTHER represents the existing developer street light funds that are being transferred from the developer street light balance sheet account to this project.
3. Request represents funding to allow the County to make minor improvements/upgrades to the developer street light plan.

Project: U7097-FY2012 NEW ROGER CARTER RECREATION CENTER

COMMUNITY RENEWAL

Number: U7097

Description

This project is for the design and construction of a community recreation center on Ellicott Mills Drive in Ellicott City.

Operating Budget Impact

Annual Bond Redemption \$ \$64,035

Annual Lease Payment of \$550,000 (approx.)

Justification

This project is part of a joint effort among the Department of Housing and Community Development, the Department of Recreation and Parks, and the Howard County Housing Commission to redevelop of the Hilltop Apartments, Ellicott Terrace Apartments, and Roger Carter Center properties as a 278-unit, mixed-income residential community and public recreational facility. The County Council approved the transfer of the property to the Housing Commission in Council Resolution 24-2011.

Remarks

The Commission will finance a portion of the design and construction costs of the recreation facility by issuing bonds. The lease will provide for annual lease payments in the amounts that will pay the annual debt service on the Commission's bonds. Additional funding will come from (a) approximately \$1.4 million of County general obligation bonds to be transferred from Capital Projects U-7095 and U-7096 and (b) approximately a \$4.5 million loan from the U.S. Department of Housing Urban Development (HUD) Community Development Block Grant (CDBG) Section 108 loan program.

Fiscal 2016 Capital Budget

Project: W8146-ACQUISITION CONTINGENCY FUND

WATER PROJECTS

Number: W8146

Description

Project funding will be used to resolve easement and rights-of-way issues on water and sewer projects which have been constructed or special quick response projects of a capital nature requiring title research, appraisals and acquisition.

Operating Budget Impact

None

Justification

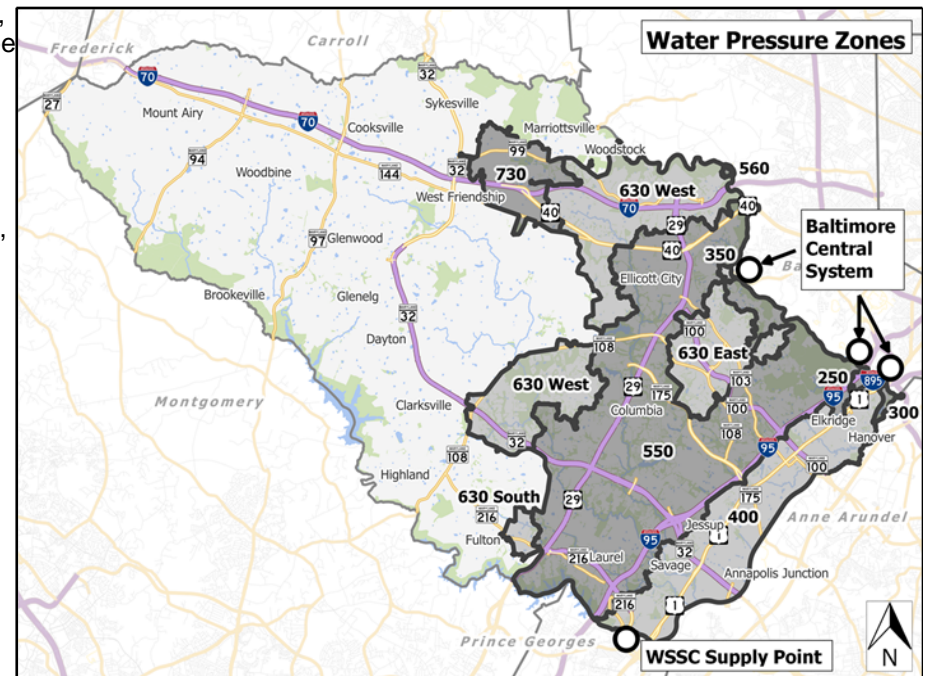

This project is provided as a contingency fund for plats, legal fees, title research, appraisal and acquisition on projects that do not have monies funded for this type of work.

Remarks

1. Land acquisition as required.
2. This project will close after FY2016 and be replaced by capital project W8601, Acquisition Contingency Fund.

Project Schedule

FY16 - Close

Project Status :

\$120,853 spent and encumbered through February 2015

Efforts completed under this capital project include easements for: 1. The Columbia Chinese Baptist Church (48 inch water main) 2. Hill Street, Ellicott City (6 inch water main) 3. Middle Patuxent Environmental Area sewer easements 4. Bauman Drive (8 inch sewer) 5. Millers Way Drive (water and sewer house connections) 6. Furrow Avenue (sewer house connection). 7. Star Chaser Circle.

Description

A project for the design and construction of improvements to the US29 water pumping station to increase pumping capacity of the station to meet projected demands.

Justification

This project is needed to meet the projected increase in demands as outlined in the Master Plan for Water and Sewage.

Remarks

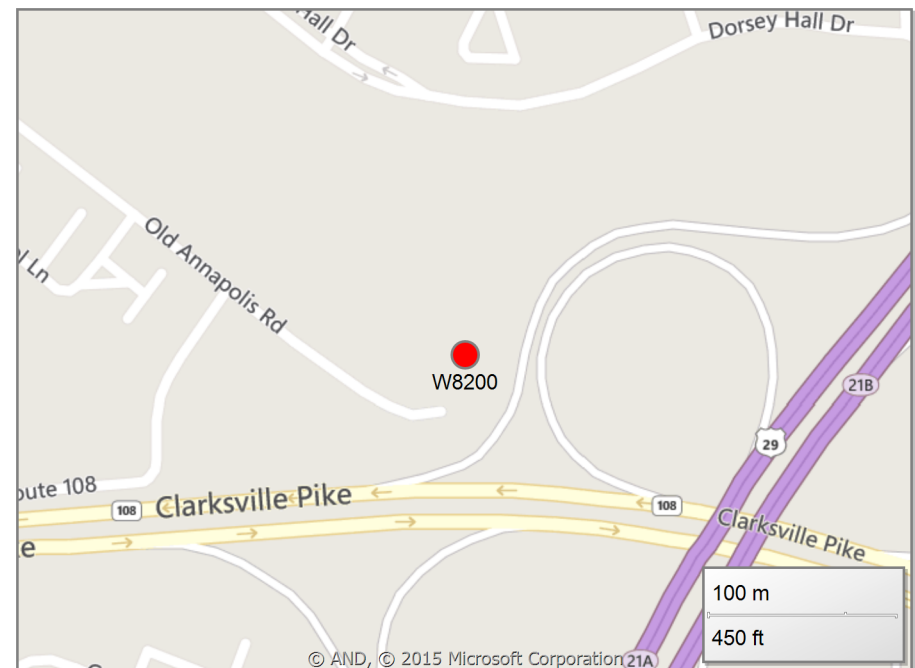

This project is complete and under maintenance

Project Schedule

FY16 - Complete

Operating Budget Impact

\$20,000 per year represents the increased power and maintenance costs due to the installation of additional pumping units.

Project Status :

\$1,582,587 spent and encumbered through February 2015

This project is complete and under maintenance.

Description

A project to fund the study, maintenance, and remediation of corrosion related failures at various locations throughout the County. Work will include testing soil for chlorides, sulfides, acidity, redox potential, soil voltage potential and electrical resistivity. The project also includes funding to install sacrificial anodes, monitor existing test stations, test coating thicknesses, maintain the computer corrosion database, purchase corrosion investigation equipment and replacement of water and sewer mains damaged as a result of corrosion. The project will also provide review and analysis of Developer generated corrosion reports.

Justification

Corrosion problems usually develop long after the capital project has been financially closed out. As problems arise and corrosion is suspected, corrosion testing and mitigation will be performed to extend the service life of the facility. This project will also support the County's Corrosion Control Program and monitoring of existing test stations.

Remarks

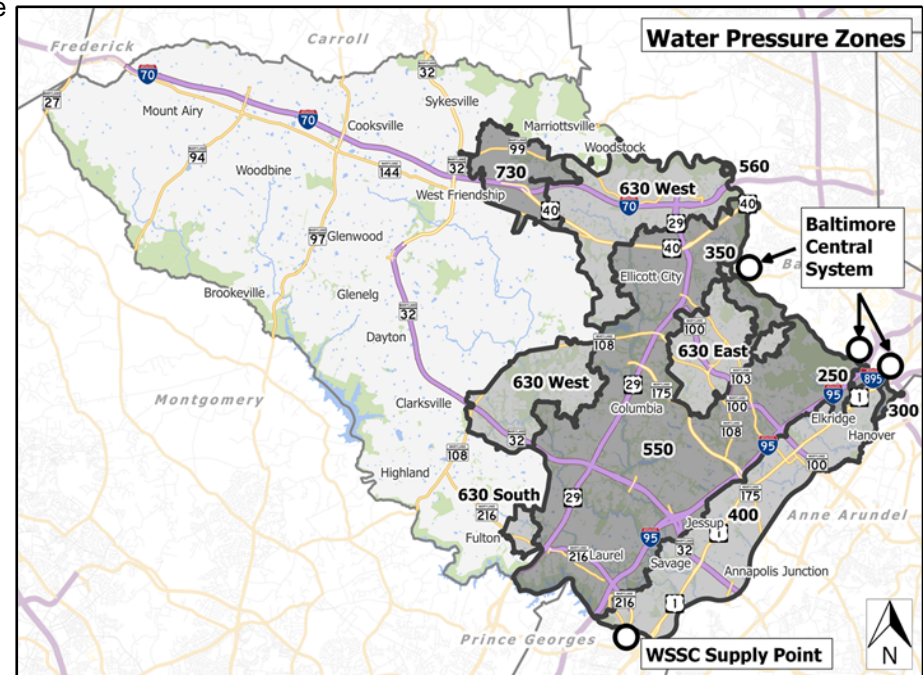

1. The project will reduce main failures thereby reduce operating cost.
2. "Hot Spot" protection program will be initiated under this Capital Project.
3. Set up and maintain the GIS corrosion database.
4. Request represents the advancement of funds in the Capital Project.

Project Schedule

Ongoing Program

Operating Budget Impact

The project will reduce operating cost.

Project Status :

\$3,276,368 spent and encumbered through February 2015

Project is an ongoing program to investigate water main failures due to corrosion. A program to incorporate corrosion studies into the County's GIS is ongoing.

Projects completed in FY15 include:

1. Corrosion study and evaluation - Elkridge Heights service saddles.
2. Corrosion study and evaluation - Route 1 Corridor.
3. GIS Database maintenance.

Fiscal 2016 Capital Budget

Project: W8207-FY1995 P.C.C.P. STUDY and FAILURE MITIGATION

WATER PROJECTS

Number: W8207

Description

A project to investigate and determine the condition of all prestressed concrete cylinder pipe (PCCP) transmission mains in the water distribution system. The project will include: internal and external inspections; design and construction of inspection facilitating structures; purchasing of repair pipe, parts, and equipment for inspection; and participation in acoustical monitoring and internal inspection of PCCP to maximize the service life.

Operating Budget Impact

No additional operating cost; reduction of current maintenance costs.

Justification

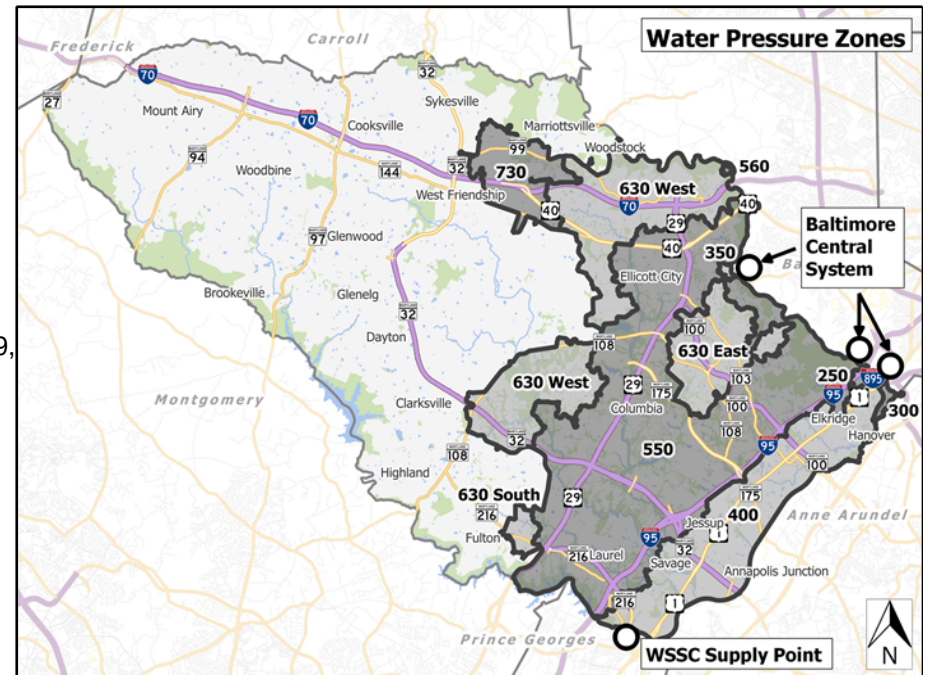

Howard County has experienced multiple failures in Prestressed Concrete Cylinder Pipe (PCCP) transmission mains. This project will allow the County to inspect the condition and structural integrity of the PCCP water mains and replace defective portions of the mains before failures occur.

Remarks

1. Project is an ongoing program to inspect PCCP.
2. This project will close after FY2015 and be replaced by Capital Project W8329, PCCP Study and Failure Mitigation.

Project Schedule

FY16 - Close

Project: W8218-WATER CONTINGENCY FUND

WATER PROJECTS

Number: W8218

Description

The fund is designed for use as a revenue source for the transfer of appropriations when either the construction costs are higher than originally estimated or engineering costs must be advanced from future years to the present fiscal year for critical water needs.

Operating Budget Impact

Annual Bond Redemption \$ \$14,250

None

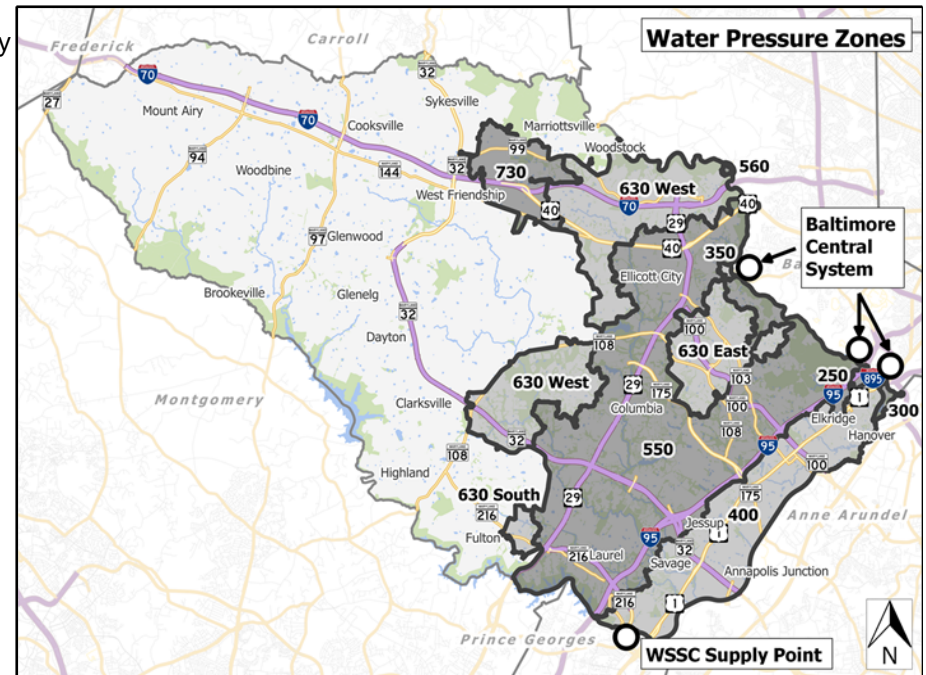

Justification

This fund will allow for the timely completion of approved projects by contingency funding as required and rapid response to critical situations.

Fiscal 2016 Capital Budget

Project: W8220-FY1998 SHARED WATER FACILITY IMPROVEMENTS

WATER PROJECTS

Number: W8220

Description

A project for the planning, design and construction of major water facilities, mains, pumping stations, reservoirs and treatment plants in the Baltimore City Central Water System. The improvements are required in order to insure reliability and dependability of the water supply to Howard County.

Justification

The project is a joint effort between Baltimore City, Baltimore County, Anne Arundel County and Howard County. The effort is necessary in order to meet the goals of the Howard County Master Plan for Water and Sewerage.

Remarks

1. Construction funding will be determined based on cost ratios from the planning estimates received from the various jurisdictions.
2. This project is a continuation of Capital Project W8082.
3. Projects to be completed under this effort are the Fullerton Reservoir, the Fullerton Pumping Station second zone modifications, and the Fullerton Filtration Plant, The Guilford Reservoir, the Druid Reservoir, and the Ashburton Reservoir.
4. Request represents the advancement of funds in the capital program.

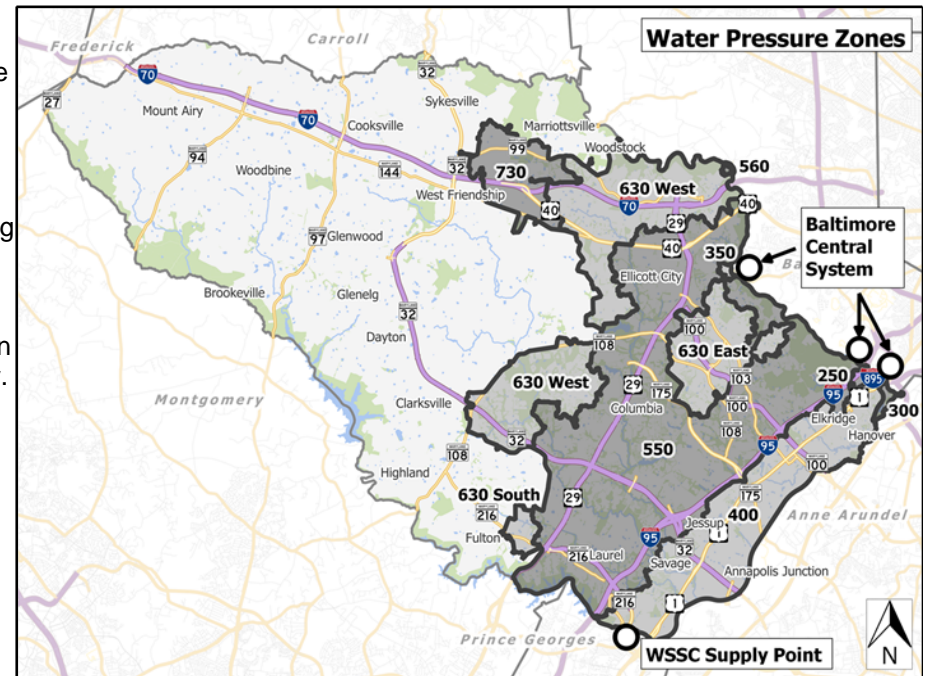

Project Schedule

Ongoing

Operating Budget Impact

Annual Bond Redemption \$ \$280,250

No impact on the Howard County operating budget. Construction is outside of Howard County. Reimbursement of operating cost will be made to Baltimore City through the Baltimore City water user rate charges.

Project: W8245-FY2003 RIGHT of WAY RESTORATION PROGRAM

WATER PROJECTS

Number: W8245

Description

The State and County roads, sidewalks and curbs which are damaged, primarily by water main breaks, require permanent restoration. This effort will provide the capability to repair these facilities to their original condition.

Operating Budget Impact

None

Justification

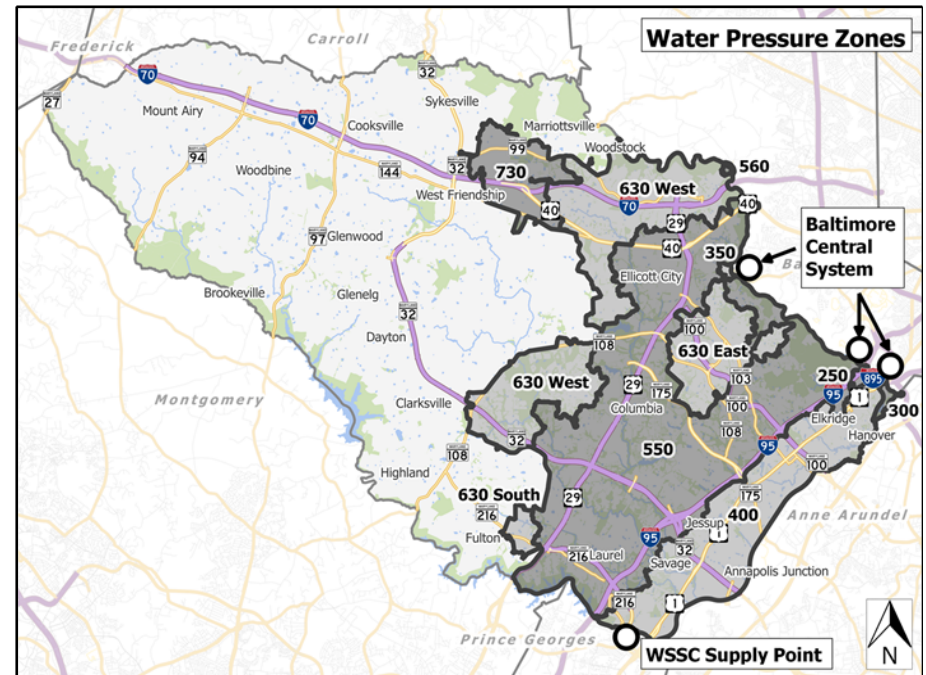

This project will restore road surfaces, sidewalks and curbs to State/County specifications.

Remarks

1. Project is replacement of Capital Project W-8183 first funded in FY92.
2. Contract services will be utilized to complete these efforts estimated at 80 incidences per year.

Project Schedule

FY16 - On-Going Project.

Project Status :

\$2,933,933 spent and encumbered through February 2015

Yearly On-Going project.

Description

A project for funding design and construction of sewer and water lines in conjunction with Maryland State Highway Administration (SHA) and Howard County projects prior to construction. This funding will be used to relocate the existing sewer and water mains in the SHA's rights-of-way as a result of road construction, or construct lines prior to capital project initiation in the Howard County construction program. The project will also provide funding for the addition of valves and fire hydrants on the existing system, inspection testing, supplies, and equipment for the implementation of the existing system.

Justification

These sleeves, mains, relocations, and appurtenances are required in conjunction with future Howard County and SHA projects. This early construction will reduce construction expenditures in the future.

Remarks

1. This project is a continuation of Capital Project W8212.
2. This project will close after FY2016 and be replaced by capital project W8602, Sleeves, Relocations & Appurtenances.

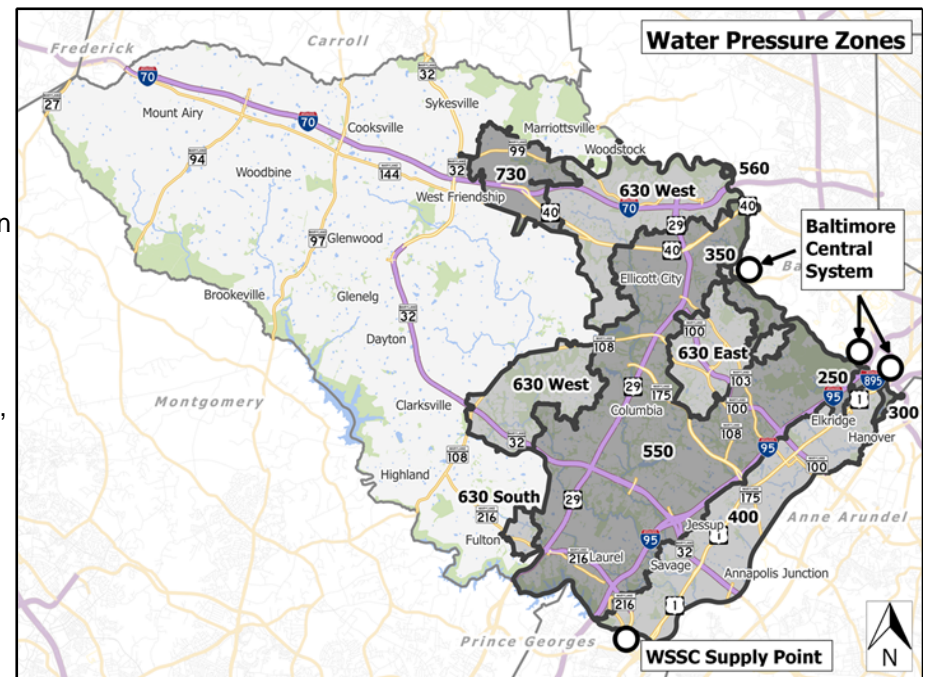

Project Schedule

1. MD216 Relocation construction completed.
2. Union Dam Demolition construction completed.
3. US1 from Brewers Court to Whiskey Bottom Road construction completed.
4. US29 South Entrance Road construction completed.
5. US40 Bridge over Patapsco River construction completed.
6. US29 NB Widening at Old Columbia Road under construction.
7. Upper Little Patuxent Stream under design.
8. Montevideo Road Water and Sewer Relocation design completed.
9. Gerwig Lane Water Main design completed.
10. FY16 - Close.

Operating Budget Impact

Annual Bond Redemption \$ \$142,500

None. This is a project to relocate existing utilities.

Project: W8262-FY2004 GUILFORD ELEVATED WATER TANK

WATER PROJECTS

Number: W8262

Description

A project for the design and construction of a 2.5 million gallon elevated water storage tank and related piping to serve the elevation 400 water service zone.

Justification

The project was initiated by the Department of Public Works in response to the needs of the County's approved Master Plan for Water and Sewerage. The elevated water tank is required in order to stabilize the pressures in the 400 water zone and meet the future water needs of the area.

Remarks

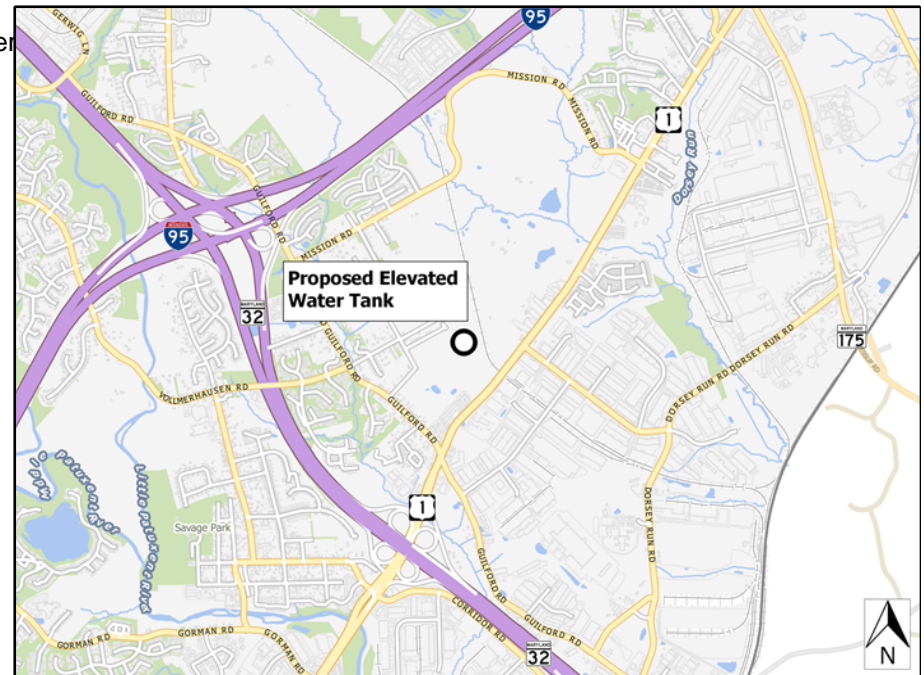

1. The project was brought before the Public Works Board on December 10, 2002.

Project Schedule

FY16 - Land Acquisition, Design
FY17 - Construction
FY18 - Construction, complete and close project

Operating Budget Impact

\$50,000 per year represents the cost of operation and maintenance of the tank.

Project: W8263-FY2004 MARRIOTTSVILLE RD ELEVATED TANK

WATER PROJECTS

Number: W8263

Description

A project for the design and construction of a 1.25 million gallon elevated water storage tank and a 1.5 MGD pumping station to serve the elevation 630 and 730 water service zones.

Justification

The project was initiated by the Department of Public Works in response to the needs of the County's approved Master Plan for Water and Sewerage. The elevated water tank is required to stabilize the pressures in the 630 water zone and meet the future water needs of the area. The pumping station will be located in the base of the elevated tank and will provide a second feed to the 730 water zone.

Remarks

1. The project was brought before the Public Works Board on December 8, 2009 and March 9, 2010.
2. The land for the elevated water tank has been provided to the County at no cost.
3. Reduction in funding reflects anticipated developer contributions not realized.

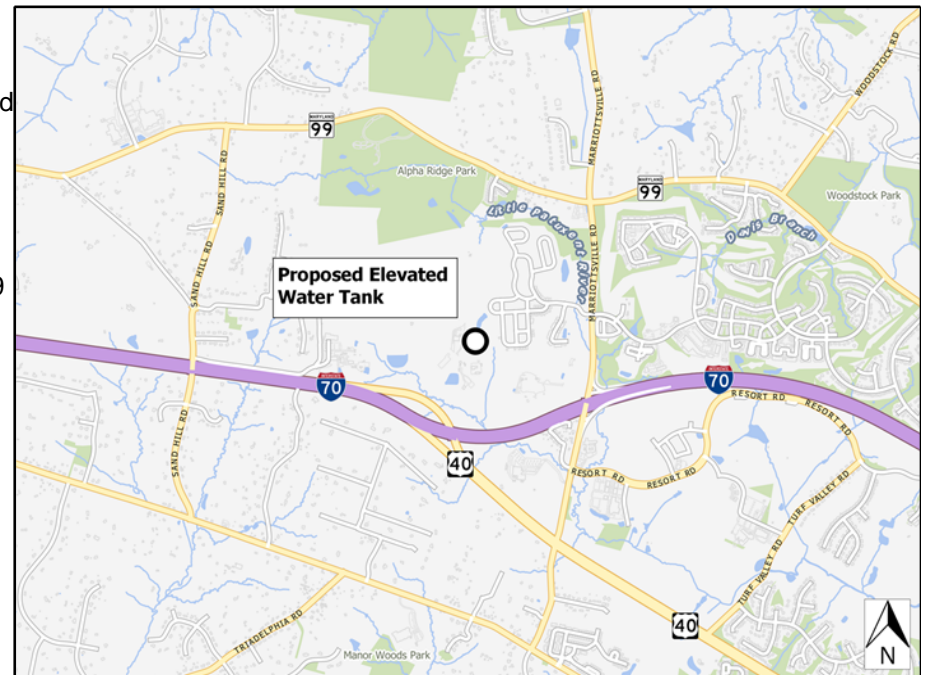

Project Schedule

FY15 - Construction, Project Complete
FY16 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$144,875

\$75,000 per year represents the cost of operation and maintenance of the elevated tank, pumping station and water main.

Project Status :

\$4,741,121 spent and encumbered through February 2015

1. Project complete and under warranty.
2. The developer has constructed the 12-inch water main to serve as the water supply source to the elevated tank and pumping station and to complete the loop of the water system in the Waverly area.

Description

A project for the rehabilitation of the water transmission main located in the vicinity of Broken Land Parkway and US29. Phase 1 - Design and construction of 2,400 LF of 36 Inch diameter water main to parallel the existing water transmission main. Phase 2 - Design and replacement of 1,000 LF of 30 Inch Diameter water transmission main.

Operating Budget Impact

\$3,500 per annum represents the cost of operation and maintenance of the proposed parallel water main.

Justification

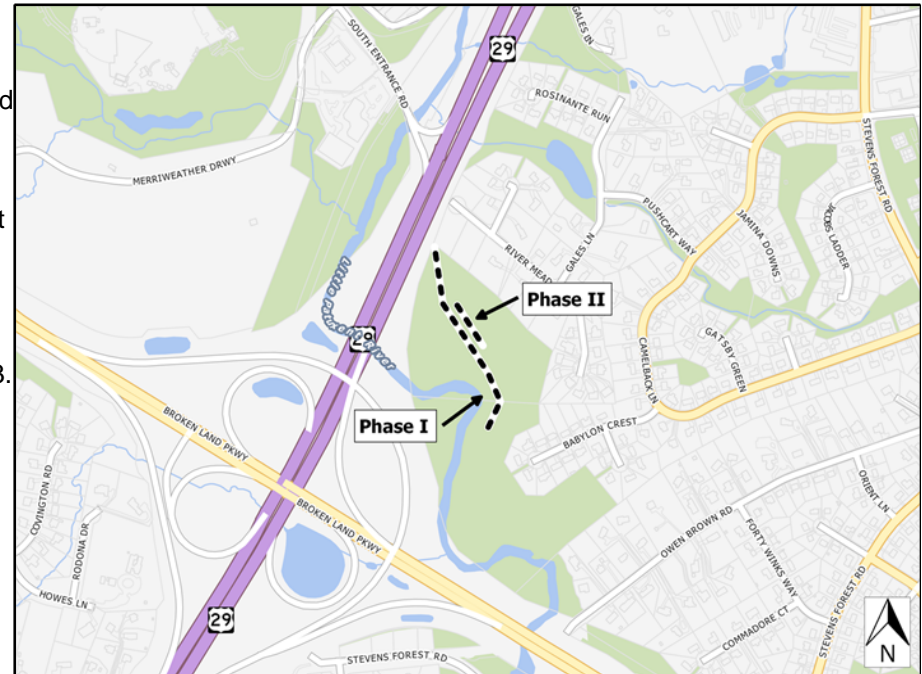

The 30 inch diameter transmission main is the major water supply serving this area of Howard County. A acoustic monitoring of the transmission main revealed premature failures of the prestressing wires in the reinforced concrete cylinder pipe. The failures are attributed to stray electrical currents in the area. The capital project will replace the affected portions of the pipeline and provide protective measures against future failures. The parallel main is needed to meet the increased demands as outlined in the Master Plan.

Remarks

- 1. The project was brought before the Public Works Board on December 9, 2003.

Project Schedule

FY16 - Phase 2 - Design, Construction
FY17 - Project complete, Close

Project Status :

\$2,988,997 spent and encumbered through February 2015

Phase 1 - Complete.

Phase 2 - Under Design.

Description

This project will develop a water valve information database which catalogs all County owned valves within the water distribution system. The database will store information such as size, year installed, number of turns to open, turn direction, and inspection records for use by the Utilities maintenance staff. In addition, each valve will be checked and exercised as part of the catalog process, and new valves added in areas where large gaps exist between existing valves, and repair/replace other existing valves.

Operating Budget Impact

\$20,000 per year reduction in labor/administrative costs.

Justification

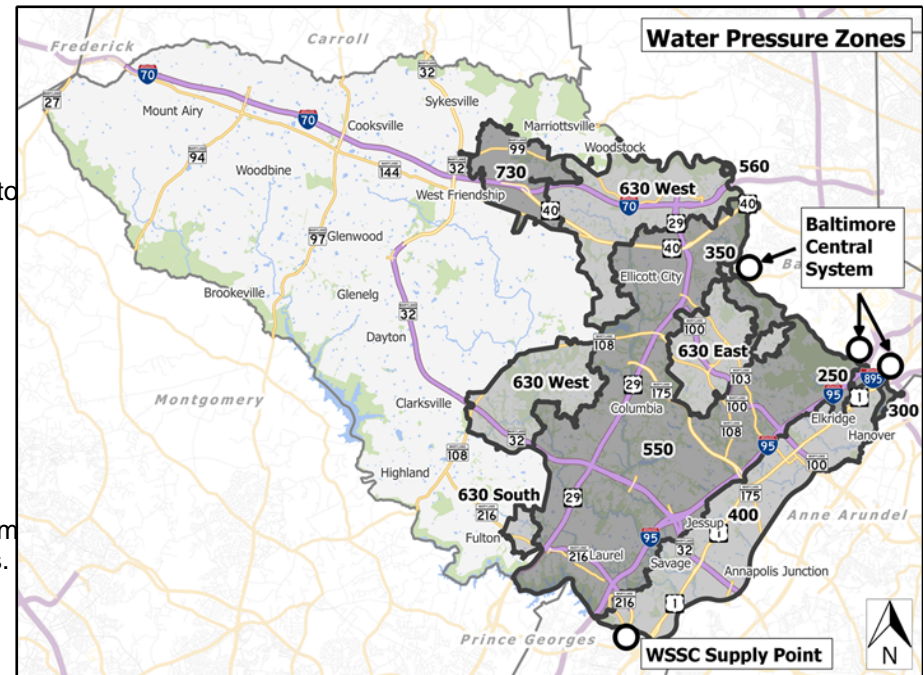

The existing water valve database is cataloged on individual cards with inaccurate information and unreliable data. The exercising program and subsequent database will help to insure that all valves are operational and able to be located when shutdowns are necessitated.

Remarks

- 1. The valve inspections would start with the largest valves, i.e. 12-inch through 48-inch on a biannual basis.
- 2. There are approximately 21,000 valves.

Project Schedule

FY16 - As of 11/2014, continuing locating and inspecting mainline water system valves using Wachs Utilities; priority to large diameter transmission main valves.
FY17-FY18 - On-Going Project, close end of FY18.

1. FY14 - 1220 valves have been inspected in FY14.
2. FY15-FY17 - On-Going Project, inspections continue.
3. FY18 - Project Close.

Description

A project for the construction of major water transmission and distribution mains to convey water from Baltimore City to Howard County. The project will fund a cost sharing agreement between Baltimore City, Baltimore County and Howard County on improvements to Baltimore City's Western Third Water Zone.

Justification

This project is necessary to achieve the objectives of the approved Master Plan for Water and Sewerage by providing sufficient water to meet the County's future needs.

Remarks

1. Projects to be included in this effort are:
 - a. Catonsville Reservoir - second bay.
 - b. Rolling Road 16-inch diam. Transmission Main.
 - c. Cleaning and lining of Melvin Avenue, Harlem Lane and Rolling Road water mains.

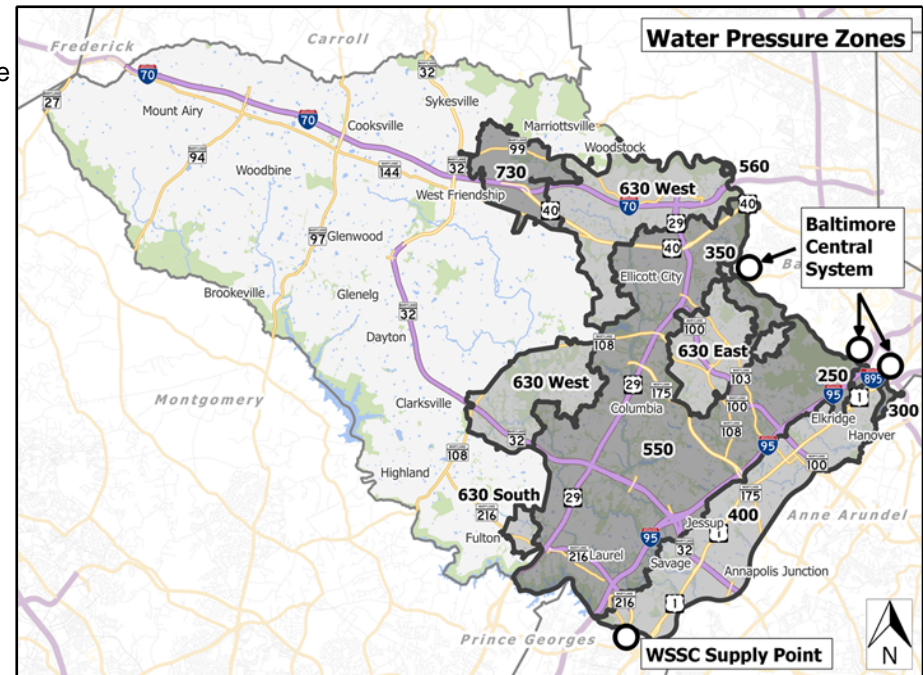

Project Schedule

Ongoing project

Operating Budget Impact

Annual Bond Redemption \$ \$1,615,000

Construction is outside of Howard County. No impact on Howard County operating budget. Reimbursement of operating costs will be made to Baltimore City through the Baltimore City water user rate changes.

3. The Rolling Road Transmission Main is under construction.

Description

A project to upgrade the Supervisory Control and Data Acquisition System (SCADA) at the Bureau of Utilities Operations building and all remote sites. The upgrade will transform the current fixed telephone based system into a multi user web based system that allows for enhanced system controls and operation from both the Utilities Operation Center and the LPWRP.

Justification

The existing SCADA system was originally installed in 1993, and upgraded in 1998. The present system allows for point to point communication and control over leased telephone lines. A web based system will allow for each remote terminal unit to have a high speed internet connection that can be accessed from individual desktop units for superior monitoring. In addition, there will be a reduction in the leased line telephone costs.

Remarks

This project will be managed by the Bureau of Utilities. Improvements include: 1) remote web access for better monitoring, control and maintenance of the SCADA system; 2) older RTUs that were not replaced under phase I of this project will be upgraded; 3) Phase III replacement /upgrade of buried telephone service lines from the property line to the water/sewer facility as part of a fiber optic upgrade to connect with the new County system.

Project Schedule

FY15 - Phase III Continuing; delivery of new Remote Terminal Unit equipment (RTU's) and ancillary equipment expected for end of CY 2014.
FY16-FY17 - Continued conversion of leased telephone lines (copper services) to cellular-based system.
FY18 - Project close.

Fiscal 2016 Capital Budget

Project: FY 2007 SCADA SYSTEM UPGRADE

Project Status :

\$1,174,857 spent and encumbered through February 2015

1. Phase I system installed. System startup done.
2. Phase II Design and installation complete; including replacement of the older RTU, MCC, and transfer switch at Montgomery WPS, new panel and RTU at Elkridge PRV, and numerous SCADA spare parts as well as additional software and controls.
3. Phase III Scheduled for 14. Phase III to include replacement of existing copper telephone circuits to cellular based system. Initial trial of five (5) sewer pumping stations. Dedicated Wireless Cell service was tested successfully at Meadowridge and will be installed at five sewer pumping stations (Patapsco, Mt. Hebron, Chanberlea, Allenford and Rockburn) all with failing land lines; currently, awaiting a price proposal from the County's integrator.
4. FY15 - Continued conversion of leased telephone lines (copper services) to cellular-based system.

Description

A project to assess the condition of 38,000 LF of 54-inch and 36-inch diameter water mains in Baltimore City, Baltimore County and Howard County and to relocate and/or replace defective or inadequate portions of pipeline.

Justification

The project was initiated by the Department of Public Works. The Southwest Transmission Main conveys potable water from Baltimore City through Baltimore County to serve Howard County and is the main water supply to the southern part of Howard County. The transmission main was constructed in 1975 with prestressed concrete cylinder pipe manufactured by the Interpace Corporation. The pipe has exhibited a history of failures in Howard County.

Remarks

1. The project was brought before the Public Works Board on December 13, 2005.
2. Much of the 38,000 LF of main has been found to be defective. Howard County will cost share in the repair/replacement of the main with surrounding jurisdictions.
3. Request represents latest engineer's estimate for construction, monitoring and emergency repairs on the Southwest Transmission Main.

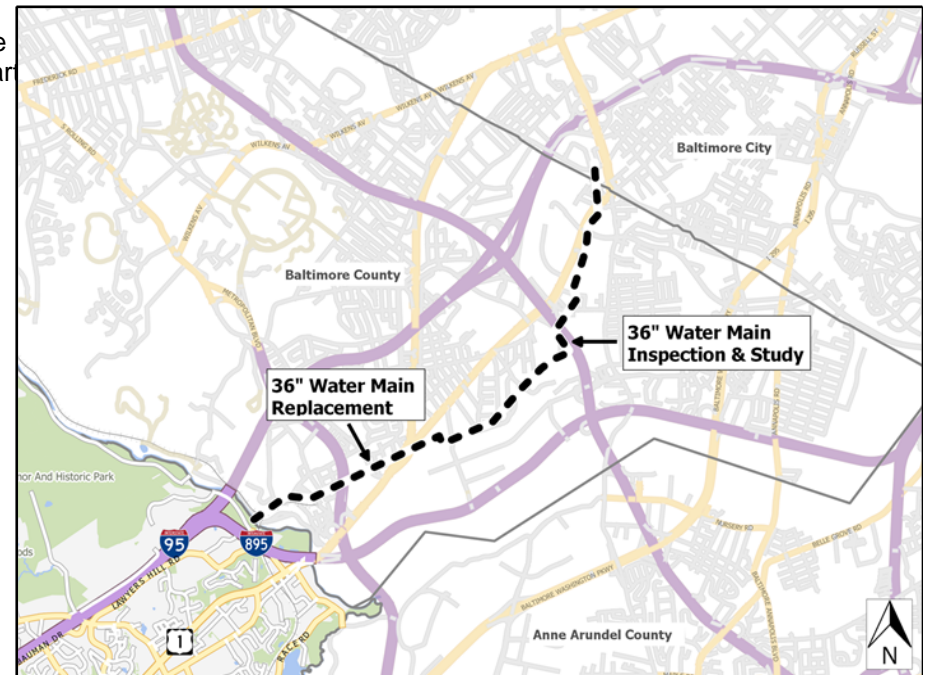

Project Schedule

FY16 - Construction. Project complete, close.

Operating Budget Impact

Annual Bond Redemption \$ \$973,750

The majority of the water main replacement will be within Baltimore County. Operation and maintenance costs will be included in the Baltimore City water rates.

Fiscal 2016 Capital Budget

Project Status :

\$23,335,109 spent and encumbered through February 2015

1. 7,800 LF of 36-inch main is under construction by Howard County.
2. 4,600 LF of 54-inch main has been constructed by Baltimore County and an additional 20 pipes were repaired using carbon fiber.
3. 80 sections of 36-inch main have been repaired or replaced.
4. This project is currently under construction.

Description

This project is to provide for the replacement of the battery systems in the County's existing residential and commercial radio read water metering system that have reached the end of their projected ten (10) year lives. As part of the battery replacement, the County will use new integral radio/battery technology more directly related to the meters.

Justification

The water meters (with radio read registers) installed beginning 9 years ago are reaching the end of their battery life. New battery technologies will enable the installation of systems with 20-year battery life and associated guarantees.

Remarks

1. Early and later installations with smaller numbers.
2. Changeouts insides by appointment.
3. Bureau of Utilities to utilize in-house staff to perform changeouts

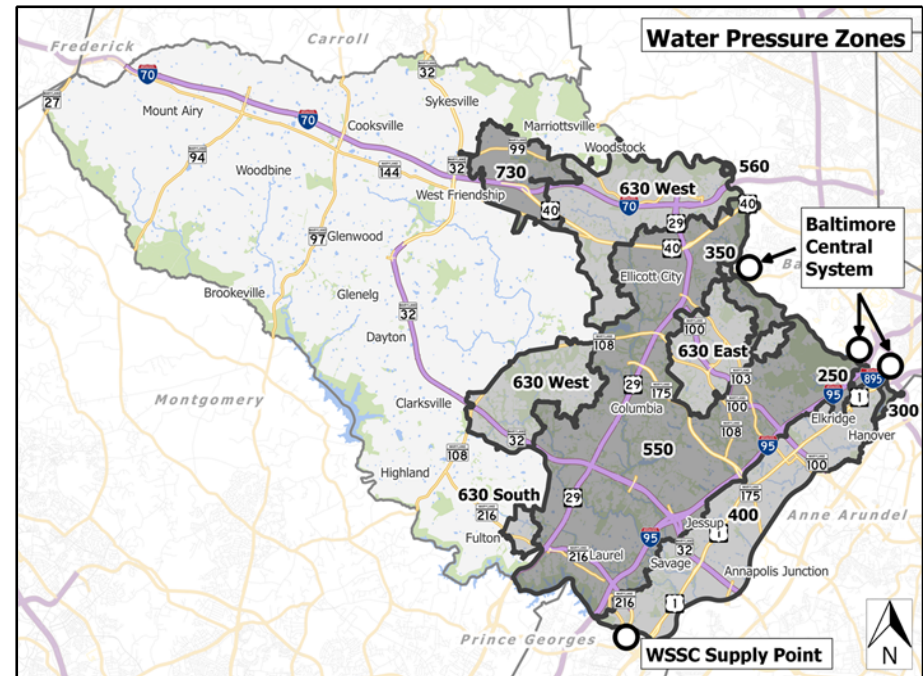

Project Schedule

- FY09 - Project initiated begin changeouts
- FY16-FY19 - Continued changeouts
- FY19 - Final year of changeouts, project close.

Operating Budget Impact

Annual Bond Redemption \$ \$97,850

Meter radio changeouts being performed by in-house Bureau of Utilities personnel; some overtime expended for inside appointments.

Project Status :

\$7,245,734 spent and encumbered through February 2015

As of September 2014 - 44,032 meter radio registers were changed out in this program. Approximately 26,807 radio registers remain to be changed, at approximately 8000 per year.

Fiscal 2016 Capital Budget

Project: W8290-FY2009 BUREAU of UTILITIES MAINT YARD UPGRADE

WATER PROJECTS

Number: W8290

Description

A project to study, design, and reconstruct the Bureau of Utilities maintenance yard. This will include improving stormwater management reorganized areas, yard enhancements, addition of truck washdown area and replacement of existing outbuildings.

Operating Budget Impact

0

Justification

The existing Bureau of Utilities yard was designed and constructed in 1975, with various structures added over time. The revamped yard will have better material and vehicle flow patterns as well as utility equipment storage.

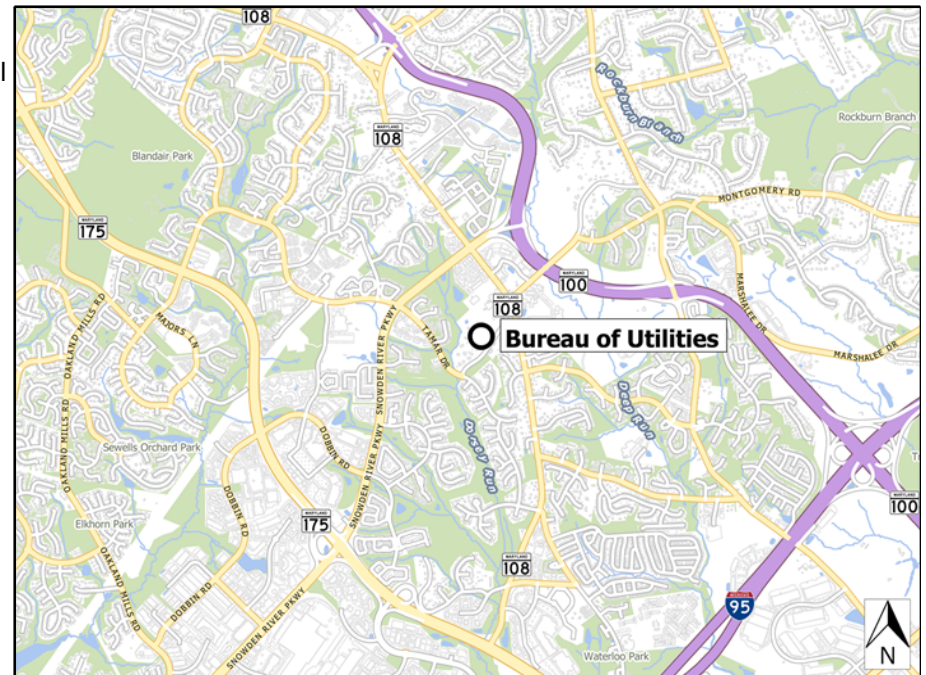

Remarks

1. Project will be managed by the Bureau of Utilities and Utilities Design Division with assistance from the Bureau of Facilities.

Project Schedule

FY16 - Construction, project complete.

FY17 - Close

Project: W8291-FY2009 ELEVATED WATER TANK RECOATING

WATER PROJECTS

Number: W8291

Description

A project to study, prioritize, and conduct repairs/recoating to the County water system's existing elevated water storage tanks.

Operating Budget Impact

0

Justification

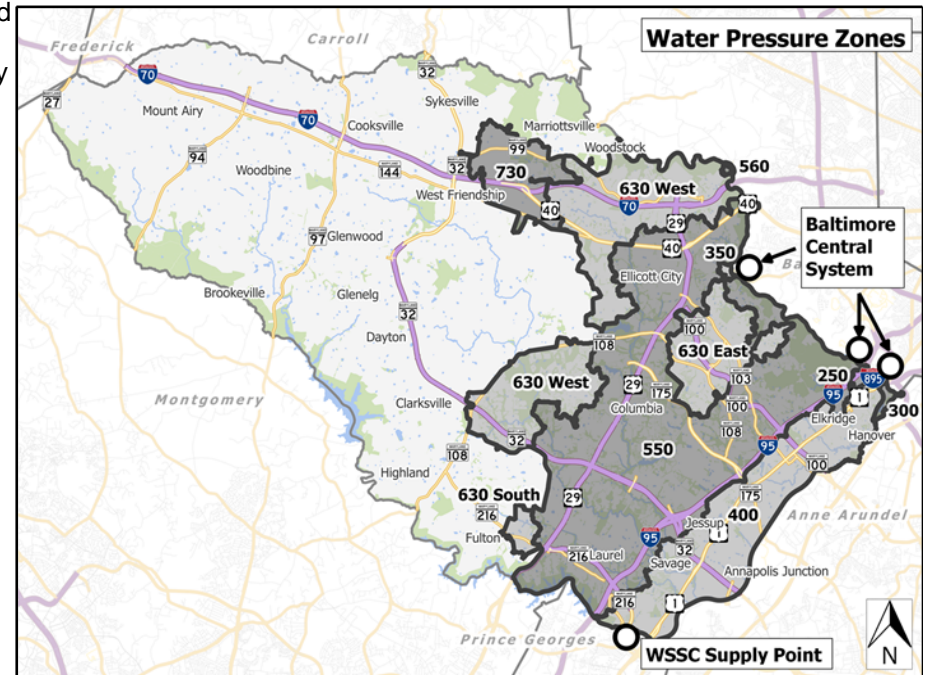

The County's water system has ten (11) existing elevated water tanks, with ranging in age from 2 to 45 years. One (1) tank is being converted to a reclaimed water tank, one (1) replacement tank for the converted reclaimed under is design, and a Fort Meade Reclaimed Tank is under construction. It is necessary to establish and maintain a rehabilitation program to insure continued reliable operation.

Remarks

This project will be managed by the Bureau of Utilities.

Project Schedule

FY15 - Power Wash the exterior of Scaggsville and Oakland spring of CY2015.
Interior/exterior of Snowden in spring of CY2015
FY16 - Interior/exterior of Oakland in spring of CY2016.
FY17 - TBD

Project Status :

\$914,143 spent and encumbered through February 2015

Description

A project for the design and construction of 5,500 LF of 12-inch water main and relocation of 1,500 LF of sewer within proposed Dorsey Run Road from existing Dorsey Run Road to Montevideo Road.

Justification

The project was initiated by the Department of Public Works in conjunction with capital project J-4148 for the construction of Dorsey Run Road from the existing Dorsey Run Road to Montevideo Road. The project will enable the installation and relocation of the utilities prior to the construction of the road.

Remarks

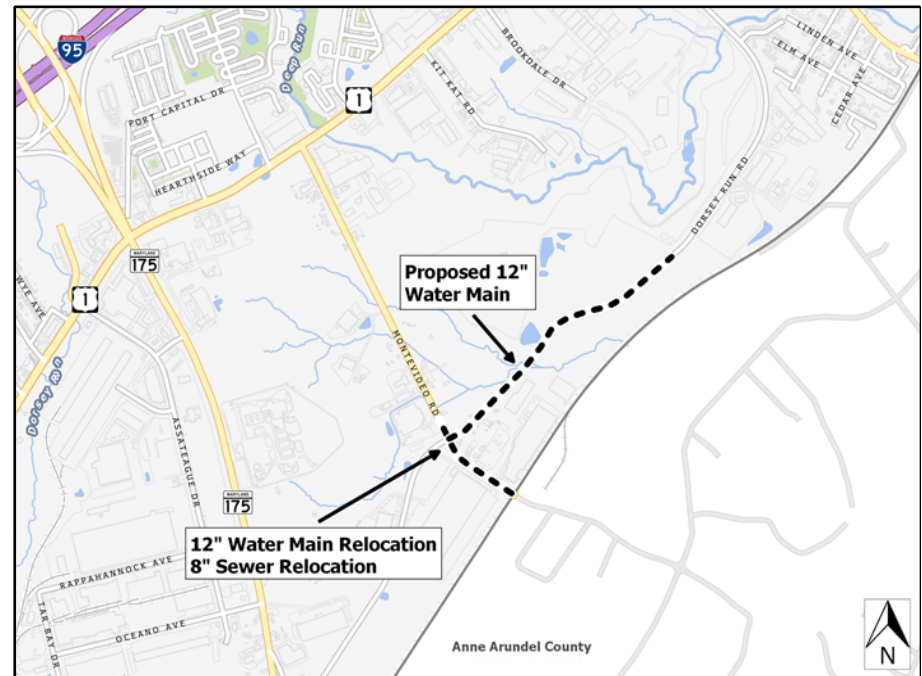

- 1. The project was brought before the Public Works Board on December 11, 2007.
- 2. The construction will be coordinated with capital project J-4148.

Project Schedule

FY16 - Construction, Complete project
FY17 - Close

Operating Budget Impact

\$12,000 per year represents the increased cost of operation and maintenance of the proposed water and sewer mains.

Project: W8296-FY2010 US29 WATER MAIN/MD108 TO BROKEN LAND PKWY

WATER PROJECTS

Number: W8296

Description

A project for the design and construction of 18,000 LF of 36-inch water main within the US29 corridor from MD108 to Broken Land Parkway.

Justification

The project will provide additional hydraulic capacity and increased water supply to the 3 million gallon Scaggsville Elevated Water Tank. The improvement is part of the Howard County central water system, providing water to the upper 630 and 730 zones as well as to the lower 400 zone. The improvement is required under the 2008 Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection for the County.

Remarks

1. The project was brought before the Public Works Board on December 10, 2008.

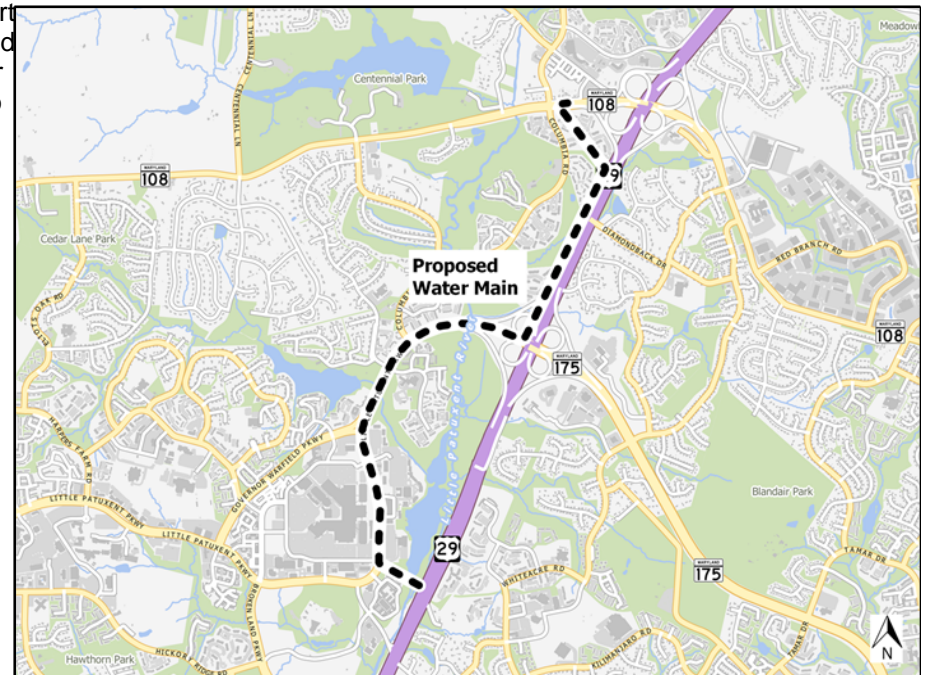

Project Schedule

FY16 - Construction
FY17 - Construction, Project Complete
FY18 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$1,306,250

\$27,000 per year represents the cost of operation and maintenance of the water main

Project: W8300-FY2011 LEVERING AVENUE WATER MAIN

WATER PROJECTS

Number: W8300

Description

A project for the design and construction of 6,350 LF of 16-inch water main from Gun Road in the Patapsco State Park in Baltimore County to Levering Avenue in Howard County to US1.

Operating Budget Impact

Annual Bond Redemption \$ \$129,960

\$9,500 represents the cost of operation and maintenance of the water main.

Justification

The anticipated water demands in the elevation 400 zone will produce excessive velocities and head losses in the existing 12-inch main. The proposed 16-inch transmission main will reduce the velocities in the system and increase the reliability of the water supply in the 400 zone. The improvement is required under the 2008 Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

Remarks

1. The project was brought before the Public Works Board on December 10, 2008 and January 12, 2010.
2. The water main within the Patapsco State Park was constructed in 1935 and is the feed to the Howard County Gun Road Water Supply from Baltimore County. The Department of Natural Resources (DNR) has informed Howard County that the water main within the park has had several failures and presents a hazard to the park. DNR is requiring that the water main through the Park be repaired or replaced.

Project Status :

\$0 spent and encumbered through February 2015

Description

A project to upgrade the Columbia Water Pumping Station.

Justification

The project will upgrade and increase the pumping capacity at the Columbia Water Pumping Station by upgrading pumps, motors and station controls. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection to meet the anticipated increased demands in the 630 water zone.

Remarks

- 1. The project was brought before the Public Works Board on January 13, 2009.

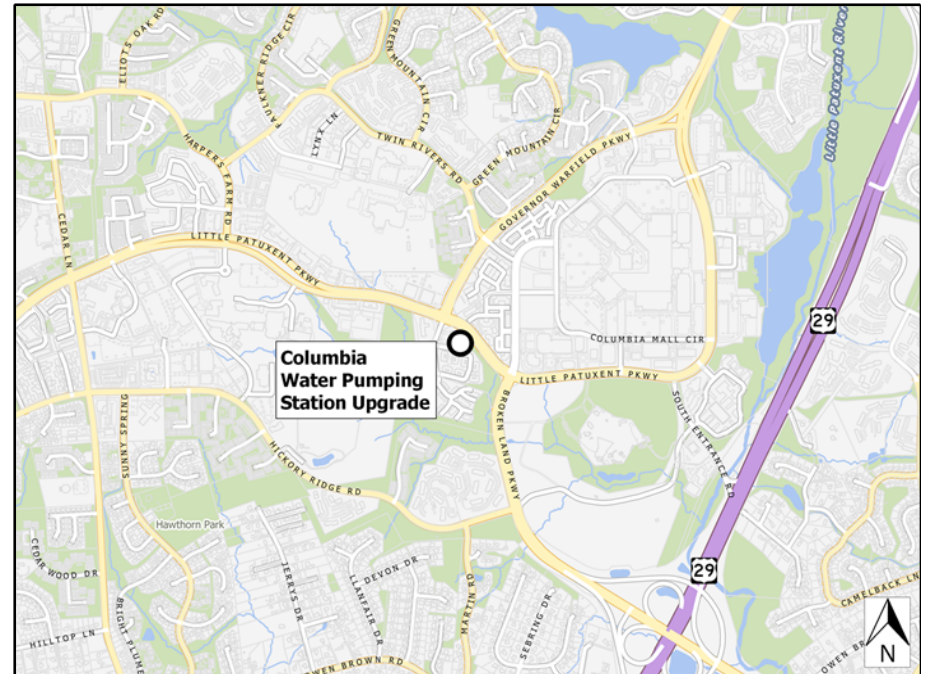

Project Schedule

- FY16 - Design
- FY17 - Construction
- FY18 - Project Complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$11,400

\$50,000 represents the additional cost of operation and maintenance of the station.

Fiscal 2016 Capital Budget

Description

A project for the design and construction of 4,300 LF of 12-inch water main along Landing Road to connect the water mains between Ilchester Road and Montgomery Road.

Operating Budget Impact

Annual Bond Redemption \$ \$71,250

\$6,400 represents the cost of operation and maintenance of the water main.

Justification

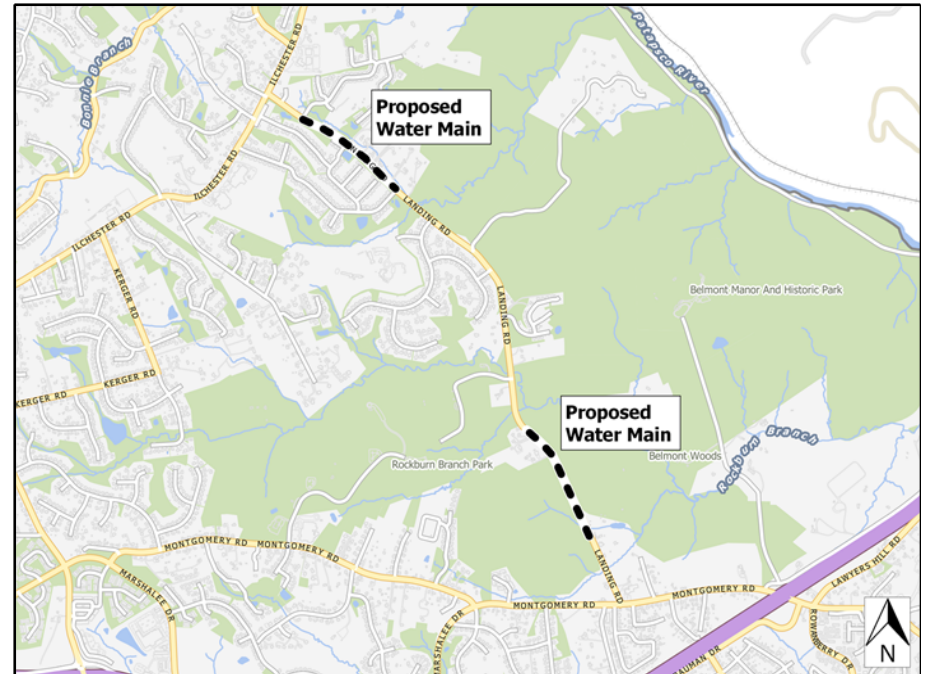

The project will complete the loop of the elevation 550 water system in Landing Road and provide for an emergency connection to the elevation 630 east water zone. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Project schedule revised from FY15 to FY18 to reflect Master Plan priority.

Project Schedule

- FY18 - Design
- FY19 - Construction
- FY20 - Project Complete, Close

Project: W8306-FY2013 SANNER ROAD WATER MAIN LOOP

WATER PROJECTS

Number: W8306

Description

A project for the design and construction of approximately 750 LF of 12-inch water main on Johns Hopkins Road east of Sanner Road.

Justification

The project will extend the 630 water zone east along Johns Hopkins Road and provide 630 zone water service to the Johns Hopkins Applied Physics Laboratory.

Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Subsequent computer modeling has revealed that the extension of the water main along Sanner Road will not provide the desired redundancy in the water supply to the Howard County General Hospital. The length of the water main extension has been reduced from 5,800 feet to 4,000 feet. The modified scope will allow 630 zone water service to the Johns Hopkins Applied Physics Lab Campuses for fire protection and water supply.
3. The Alignment Report prepared during the Preliminary Design phase revealed an alternative that will reduce the length of water main extension required from 4,000 feet to approximately 750 feet.

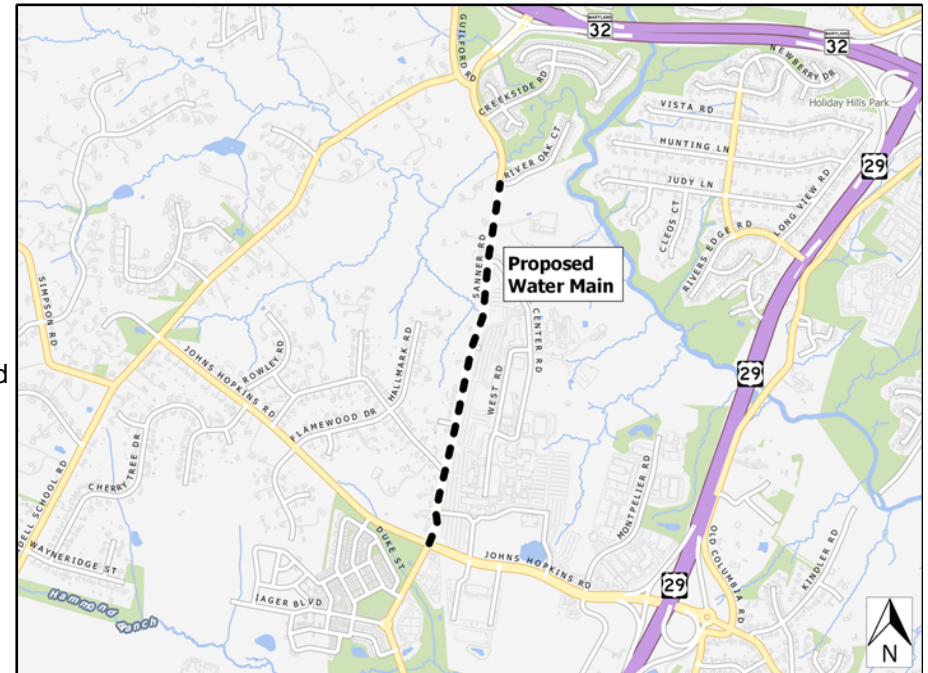

Project Schedule

- FY16 - Design, Construction
- FY17 - Construction, Project Complete
- FY18 - Close project

Operating Budget Impact

Annual Bond Redemption \$ \$95,000

\$6,500 represents the cost of operation and maintenance of the water main.

Project: W8307-FY2013 BROKEN LAND PKWY WATER MAIN

WATER PROJECTS

Number: W8307

Description

A project for the design and construction of 4,100 LF of 30-inch water main along Broken Land Parkway from Stevens Forest Road to Cradlerock Way.

Operating Budget Impact

Annual Bond Redemption \$ \$242,250

\$6,100 represents the cost of operation and maintenance of the water main.

Justification

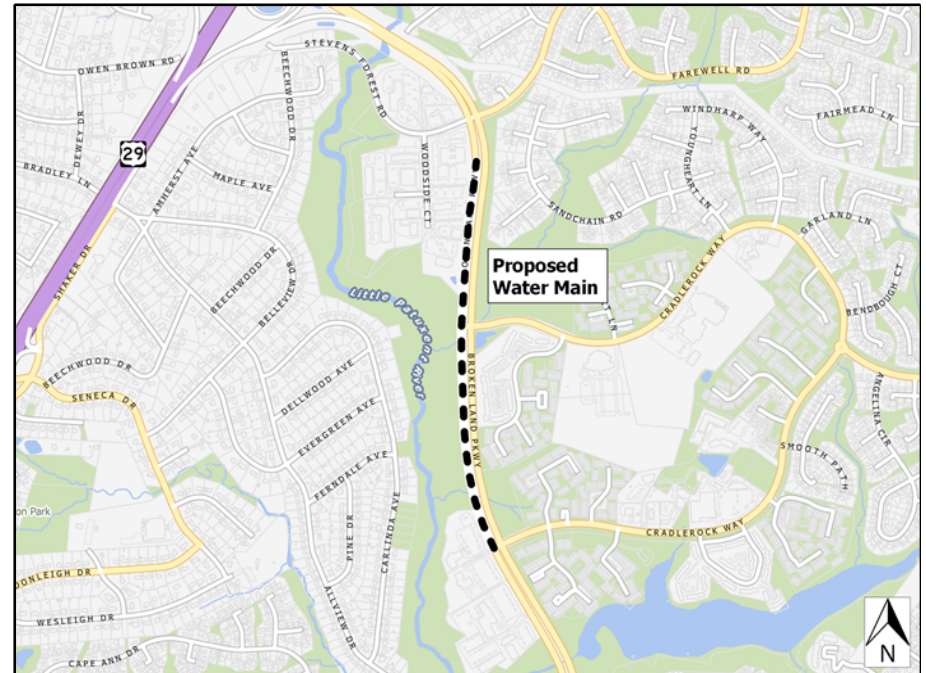

The project will provide a secondary loop for the water systems, improving integration of the major water supplies from US40 and the Elkrige area. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Request represents the engineer's estimate of funds required for design.

Project Schedule

- FY16 - Construction
- FY17 - Complete and close project.

Project: W8308-FY2013 US29 WATER MAIN/MD32 TO MD216

WATER PROJECTS

Number: W8308

Description

A project for the design and construction of 14,000 LF of 24-inch water main parallel to US29 from MD32 to MD216.

Justification

The project will provide additional hydraulic capacity and increase water supply to the 3 million gallon Scaggsville Elevated Water Tank. The improvement is part of the Howard County central water system, providing water to the upper 630 and 730 zones as well as to the lower 400 zone. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

Remarks

1. The project was brought before the Public Works Board on January 13, 2009.

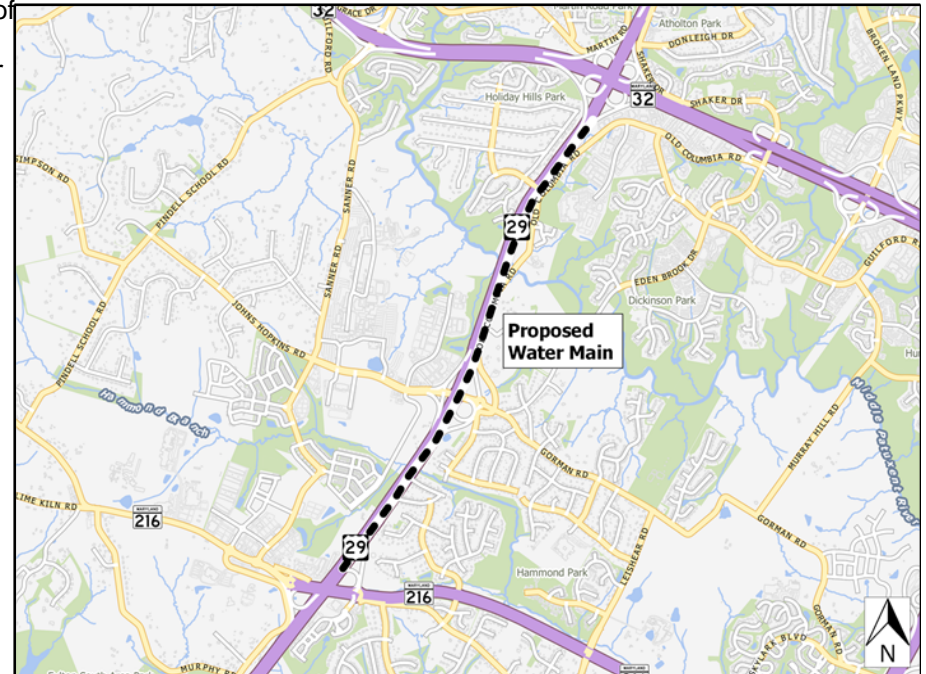

Project Schedule

- FY16 - Study, Design, and Land Acquisition
- FY17 - Design, Construction
- FY18 - Construction
- FY19 - Project Complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$498,750

\$20,860 represents the cost of operation and maintenance of the water main.

Project: W8309-FY2014 MISSION ROAD WATER MAIN LOOP

WATER PROJECTS

Number: W8309

Description

A project for the design and construction of 4,500 LF of 12-inch water main along Mission Road to Columbia Gateway Drive.

Operating Budget Impact

Annual Bond Redemption \$ \$112,100

\$6,705 represents the cost of operation and maintenance of the water main.

Justification

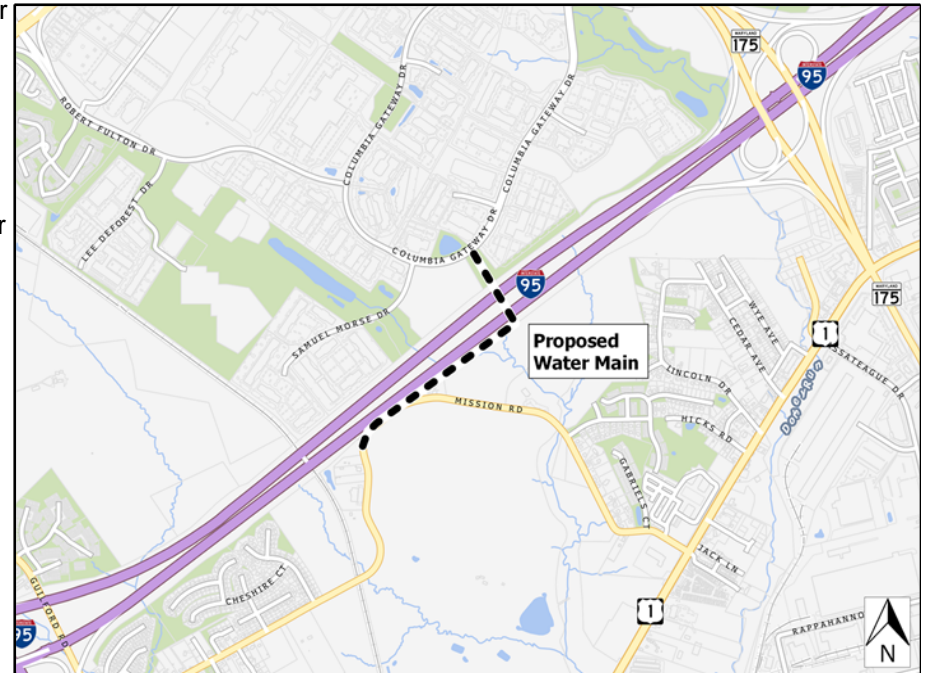

The project will complete the loop of the elevation 550 water zone along the I-95 corridor. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Project schedule revised from FY22 to FY14 due to the need to loop the water system to provide for adequate fire protection.
3. Request represents the latest engineer's estimate.

Project Schedule

FY16 - Construction
FY17 - Project Complete, Close

Project Status :

\$162,580 spent and encumbered through February 2015

Project is under design and land acquisition.

Description

A project for the design and construction of 6,200 LF of 8-inch replacement water main within US40 from US29 to Dogwood Drive.

Operating Budget Impact

Annual Bond Redemption \$ \$109,250

Replacement of water main will reduce operation and maintenance costs.

Justification

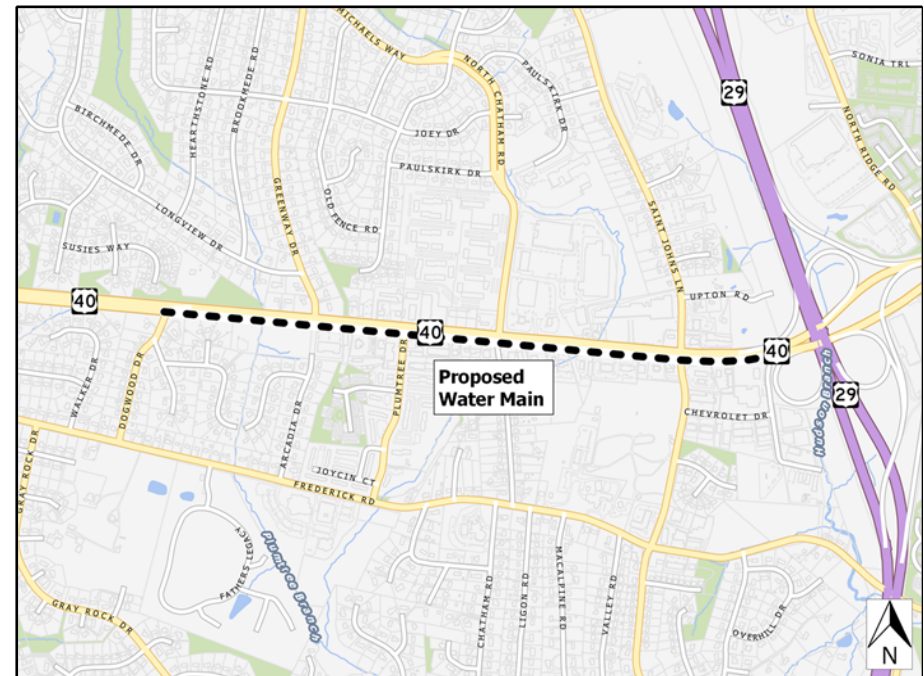

The existing water main was constructed in 1959 using cast iron pipe and has experienced numerous breaks. The project will replace the water main prior to the proposed streetscape improvements to the US40 corridor.

Remarks

The project was brought before the Public Works Board on January 12, 2010.

Project Schedule

FY16 - Close project.

Project Status :

\$691,454 spent and encumbered through February 2015

Project under construction.

Description

Develop a water Fire Hydrant Inspection Program that will include all County owned water Fire Hydrants within the distribution system. The data will be stored in our current database, cataloging specific Fire Hydrant information such as manufacturer, year installed, size, number of turns, turn direction, and cataloged inspection data for each scheduled inspection. During the inspection process, Fire Hydrants are to be exercised and their operability verified, and hydrant valves located and exercised. Fire Hydrants damaged during the inspection process or found damaged are to be repaired or replaced in this project. Simple lubrication and maintenance will be performed during the inspections.

Justification

Howard County Fire and Rescue has requested that the Bureau of Utilities perform annual inspections on each fire hydrant as part of their ISO program. This will include populating the existing Hansen Database with Fire Hydrant information for speedier reporting of Fire Hydrant status, creation of Fire Hydrant reports, and documentation of inspection information. Exercising the Fire Hydrants during inspection will verify that the Fire Hydrants are operational in the event of a fire, and ensure the Fire Department's Certification of the fire hydrant inspection requirement. The Bureau of Utilities owns and maintains approximately 10,000 fire hydrants. HCFR is requesting hydraulic modeling of various sites for fire flows from time to time.

Remarks

1. Fire Hydrant inspections are done by grids on an annual basis. It is the goal to do a thorough inspection of every Howard County owned fire hydrant once a year.
2. There are approximately 10,200 Fire Hydrants owned by Howard County.
3. HCFR Requirements for modeling and inspections followed throughout.
4. FY15 - A Regulation Inspector I position was approved for managing the in-house Capital projects.
5. FY16 - Continued hydrant inspections.

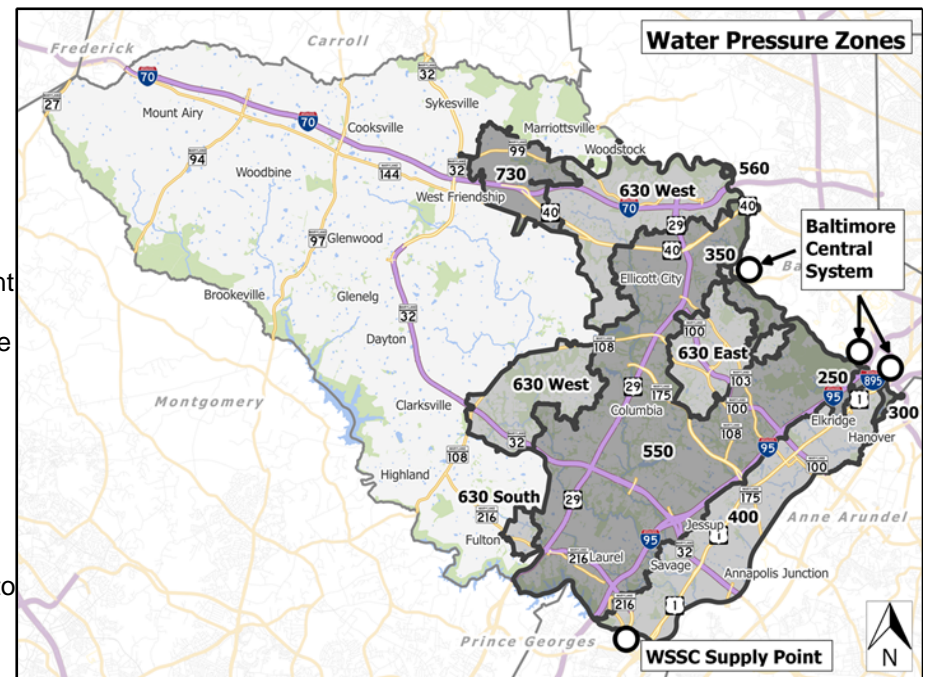

Project Schedule

Ongoing yearly inspections ; Project to close in FY18.

Operating Budget Impact

Annual Bond Redemption \$ \$82,935

This enhanced inspection schedule required by HCFR will increase the Bureau of Utilities' Operating budget by approximately \$35,000/year with the addition of one (1) contingent employee to monitor and inspect the progress of the contractor(s).

Project: W8316-FY2013 ILCHESTER ROAD WATER MAIN REHABILITATION

WATER PROJECTS

Number: W8316

Description

A project for the rehabilitation of 5,800 feet of 12-inch water main within Ilchester Road from Montgomery Road to Ellis Lane and reinforcement of the 630 zone.

Justification

The water mains were constructed in 1963 and 1967 and have ruptured numerous times. The project will determine the cause of the failures and repair or replace defective portions of the water main.

Remarks

1. The project was brought before the Public Works Board on December 13, 2011.
2. Request represents the advancement of funds in the Capital Program.

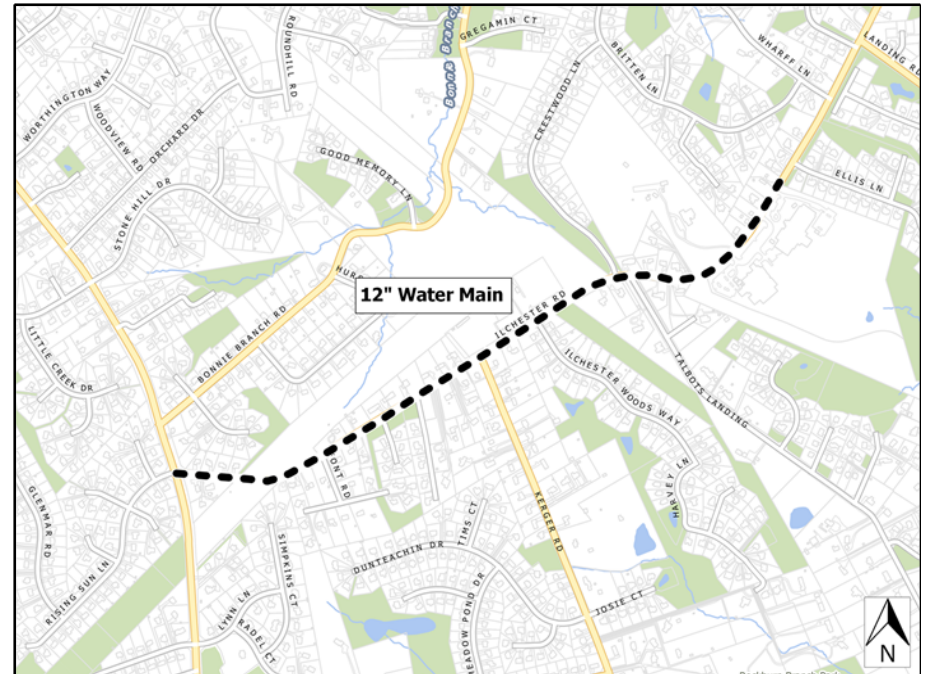

Project Schedule

FY16 - Construction & Project Complete
FY17 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$144,875

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

Project: W8317-FY2013 ELKRIDGE PUMP STATION IMPROVEMENTS

WATER PROJECTS

Number: W8317

Description

A project for the design and installation of a 1,250 kW emergency generator and electrical, mechanical, and structural improvements at the Elkridge Water Pumping Station.

Justification

The Elkridge pumping station provides for one third of the Howard County's summer water demands. During 2011 storm events, the station lost both the primary and secondary incoming electrical services. An emergency generator is necessary to insure an adequate water supply for domestic needs and fire protection. Electrical, mechanical, and structural upgrades are needed to replace failed equipment and provide reliability to the station.

Remarks

- 1.The project was brought before the Public Works Board on December 13, 2011.
- 2.Request represents additional required modifications to the station and the latest engineer's estimate for design and construction.

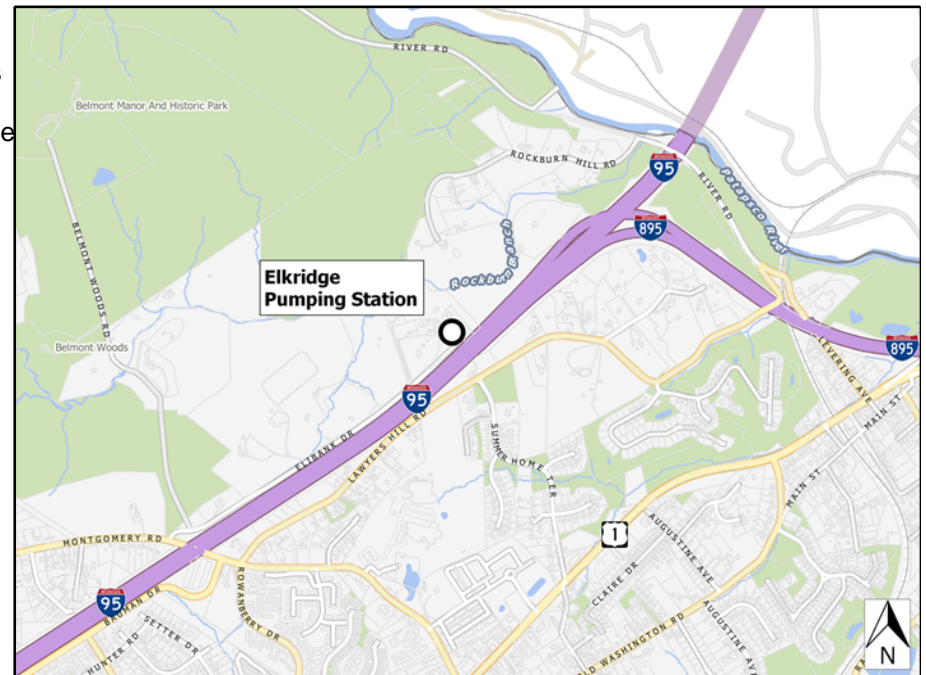

Project Schedule

FY16 - Construction, Project complete
FY17 - Project close

Operating Budget Impact

Annual Bond Redemption \$ \$147,250

The annual cost of operation and maintenance is estimated at \$50,000.

Project Status :

\$129,756 spent and encumbered through February 2015

Project is under construction.

Description

A project for the rehabilitation of 12,000 feet of 12-inch water main within Montgomery Road from Lawyers Hill Road to Rockburn Drive.

Justification

The water main was constructed in 1962 and has ruptured numerous times. The project will determine the cause of the failures and repair or replace defective portions of the water main.

Remarks

- 1. The project was brought before the Public Works Board on December 13, 2011.
- 2. Request represents Engineer's Estimate for construction of the Capital Project.

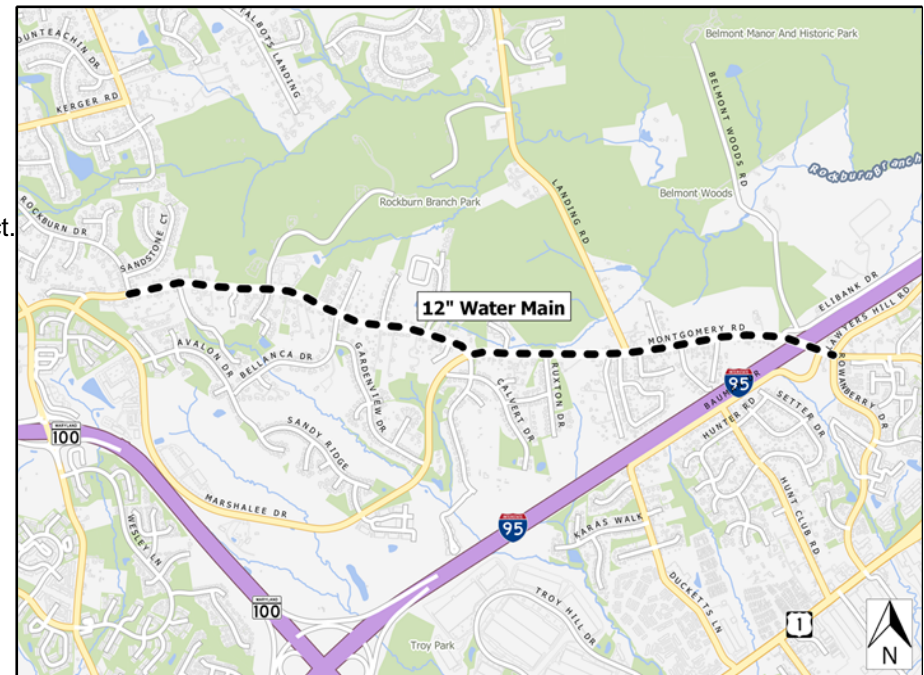

Project Schedule

FY16 - Construction, Project Complete
FY17 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$266,475

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

Project: W8319-FY2013 BLANDAIR PARK WATER and SEWER EXTENSION

WATER PROJECTS

Number: W8319

Description

A project for the design and construction of 2,200 LF of 8 - inch water main and 2,000 LF of 8 - inch sewer to serve Blandair Regional Park.

Justification

The extension of the utilities will provide public water and sewer service to the park and fire protection for the buildings located on the site.

Remarks

1. This project will be coordinated with Capital Project N-3102, Blandair Regional Park.
2. The project was brought before the Public Works Board on December 13, 2011.

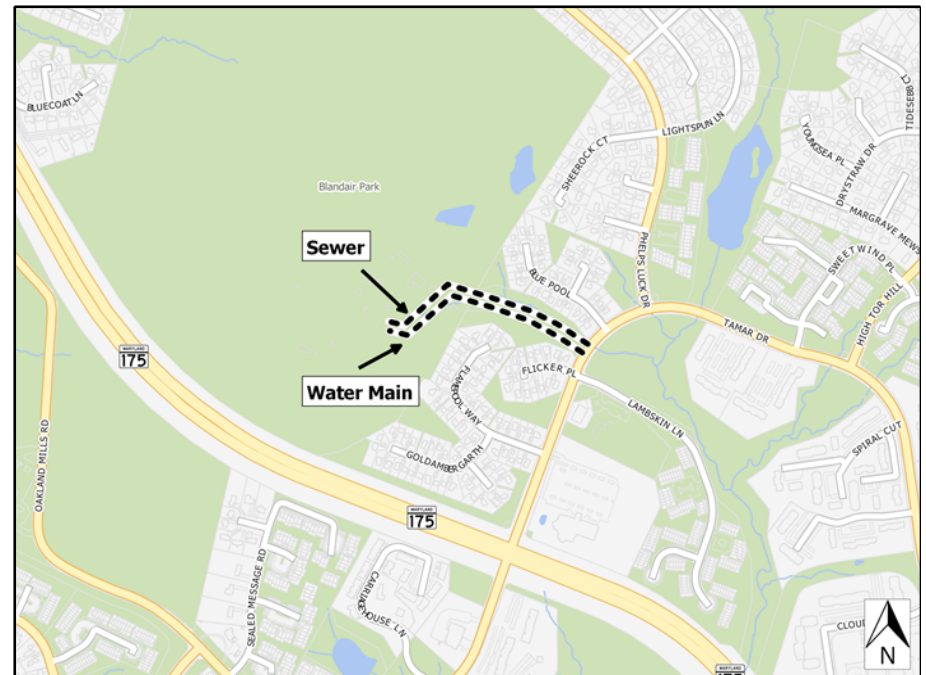

Project Schedule

FY16 - Project complete, Close

Operating Budget Impact

Annual Bond Redemption \$ \$24,463

\$7,500 per year represents the cost of operation and maintenance of the water and sewer extensions.

Fiscal 2016 Capital Budget

1. Project is complete.

Description

A project to relocate the Whiskey Bottom Road pumping station and related suction and discharge pipelines and to increase pumping capacity.

Justification

New agreements with the Washington Suburban Sanitary Commission (WSSC) will allow Howard County to increase the water supply from 5 MGD to 10 MGD. The improvements to the Whiskey Bottom Road pumping station and pipelines will allow Howard County to pump the additional water from WSSC from the elevation 400 water zone to the elevation 550 water zone.

Remarks

1. The project was brought before the Public Works Board on December 13, 2011.
2. Request represents the advancement of funds in the capital program.

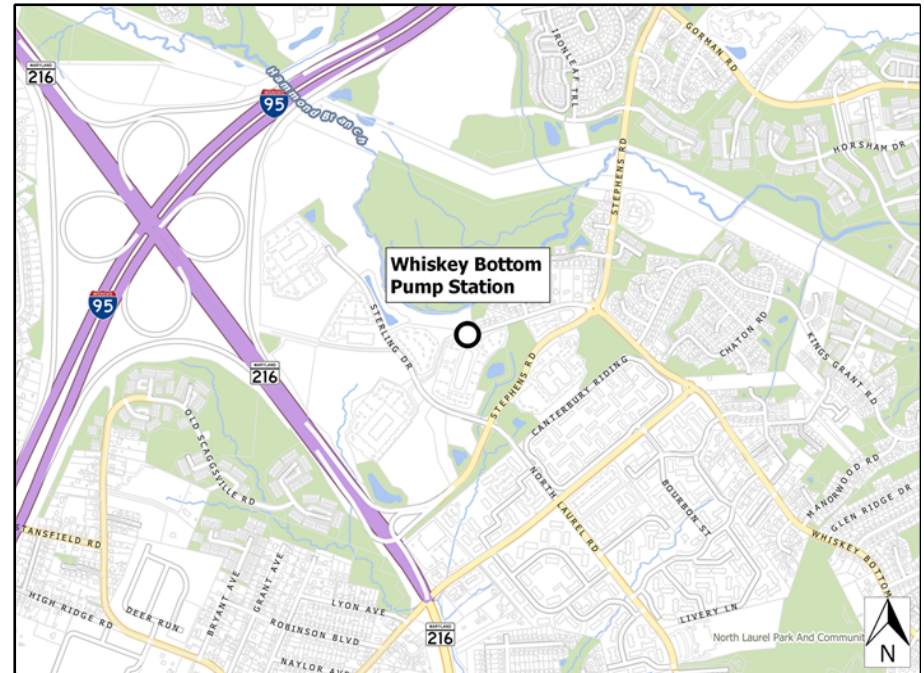

Project Schedule

FY16 - Construction
FY17 - Complete and close project

Operating Budget Impact

Annual Bond Redemption \$ \$237,500

The annual additional power cost and the cost of operation and maintenance of the pipelines is estimate at \$25,000.

Project: W8321-FY2013 PIRCH WAY/ASPERN DRIVE WATER REPLACEMENT

WATER PROJECTS

Number: W8321

Description

A project for the design and construction of 3,000 LF of 8-inch water main within the Pirch Way/Aspern Drive community.

Justification

The water main was constructed in 1980 and has had 13 water main breaks within the last 10 years, 8 water main breaks within the last 3 years. The water main breaks exhibited heavy pitting, which is evidence of corrosion failures, and has caused extensive road damage. The project will replace the water mains in this area.

Remarks

1. The project was brought before the Public Works Board on December 13, 2011.

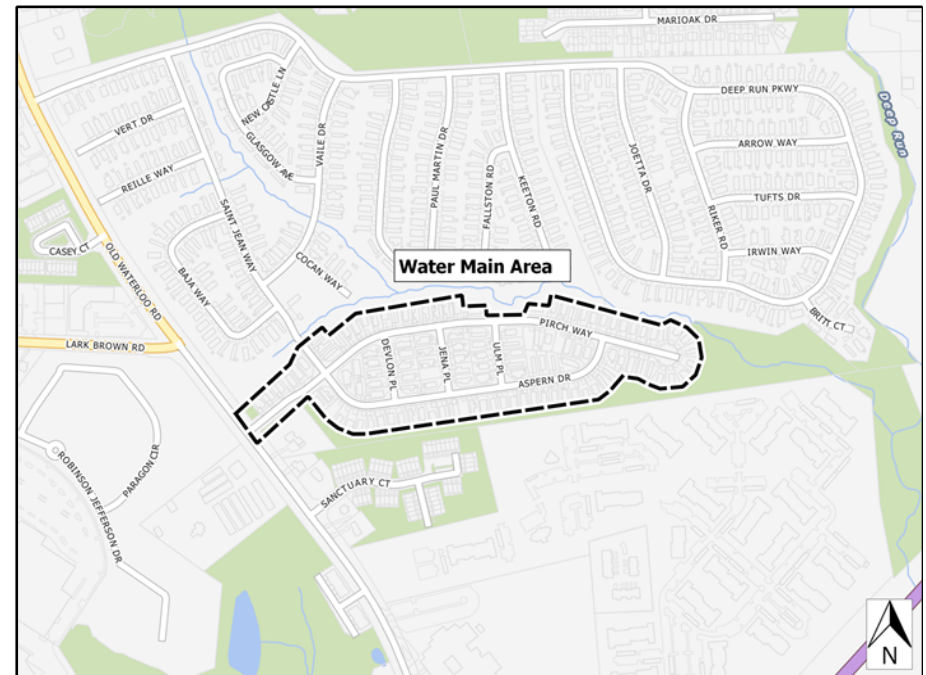

Project Schedule

FY16 - Construction. Project complete, close

Operating Budget Impact

Annual Bond Redemption \$ \$55,338

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

Project Status :

\$1,165,178 spent and encumbered through February 2015

1. This project is currently under construction.

Description

A project to determine the condition of 44,000 feet of water main in the Wilde Lake area and to perform necessary repairs or replacements.

Justification

There have been 35 water main breaks in the Wilde Lake area. A preliminary study of the water mains in the Wilde Lake area has determined that the ductile iron water mains may be subject to corrosion due to stray currents from gas mains and the low resistivity soils in the area, causing corrosion pitting and failure of the iron pipe.

Remarks

1. The project was brought before the Public Works Board on December 13, 2011.
2. Study is complete.

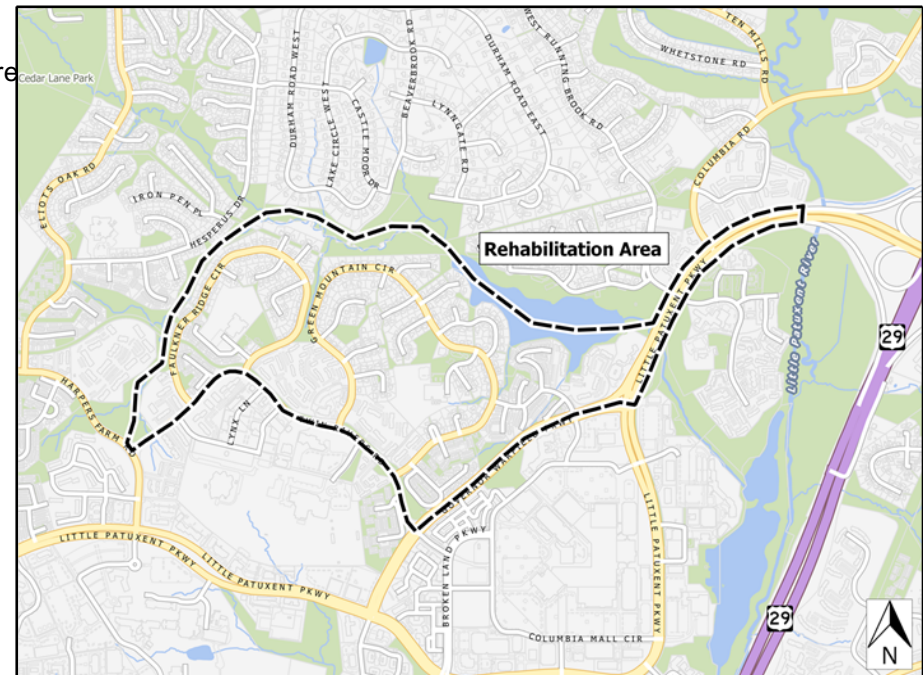

Project Schedule

FY16 - Design, Construction
 FY17 - Project complete, close

Operating Budget Impact

Annual Bond Redemption \$ \$80,750

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

1. This project is currently under design and construction.

Description

A project for the design and construction of a diversion structure, pumping station, elevated storage tank and reclaimed water lines to supply Fort Meade with reclaimed water to be used for non-potable purposes.

Justification

This project was requested by Fort Meade. Without the development of a reclaimed water supply to the Fort, wells would need to be drilled in an already stressed aquifer. Construction of this project will develop an efficient and cost-effective water conservation program that will lower existing and future water demands. This project will also provide Howard County with an additional income source.

Remarks

- 1. Work includes the design, construction and inspection of the reclaimed water system.
- 2. The construction of this project will be in Anne Arundel County.
- 3. Request represents the latest Engineer's estimate for construction.

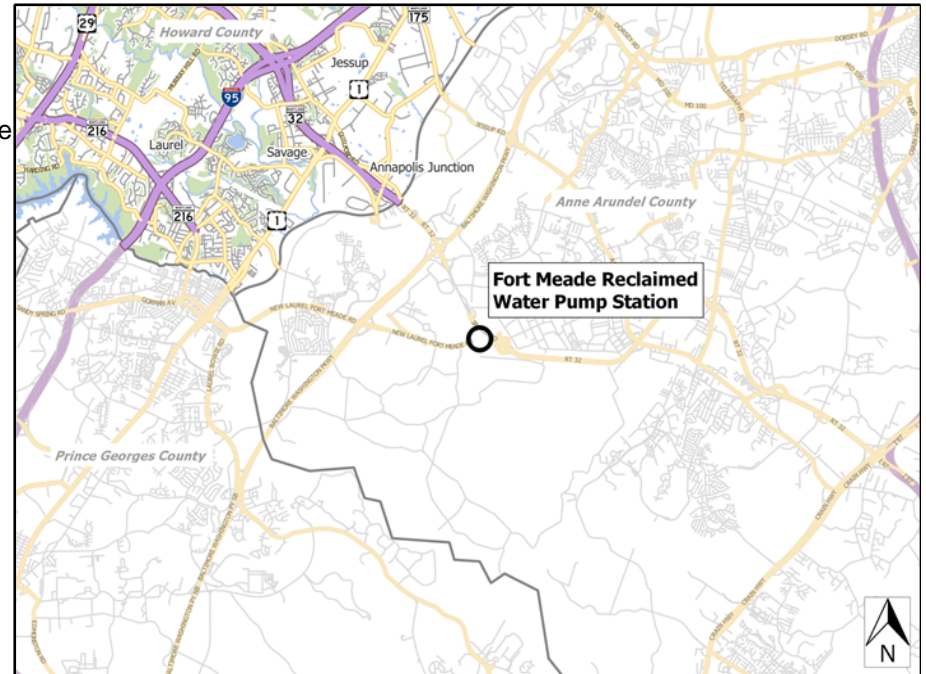

Project Schedule

FY16 - Construction
FY17 - Complete and Close Project

Operating Budget Impact

Annual Bond Redemption \$ \$2,707,500

This project, when operational, will have a cost associated with the operation and maintenance of specific County owned facilities which will be recovered through the reclaimed water rates.

Fiscal 2016 Capital Budget

Project: W8324-FY2014 WATER SYSTEM LOOPING/FIRE PROTECTION UPGRADE

WATER PROJECTS

Number: W8324

Description

A project for the design and construction of various water system upgrades and improvements to meet County standards for water system redundancy, pressure and flow rates required for fire protection.

Justification

Howard County standards require a 1,500 gallon per minute (gpm) fire flow rate with a 20 psi residual pressure for residential multifamily, commercial, industrial, educational and institutional areas. As development occurs and water use increases, certain areas within the County may require additional water supply loops to maintain the required pressure and flow rates to meet fire protection requirements. The project will provide for minor water main extensions to provide looping of the water system to meet water system redundancy, pressure and flow requirements for fire protection.

Remarks

1. Each new project for water system upgrades required for redundancy, pressure or flow will be brought before the Public Works Board for consideration and approval.
2. Water main extensions under this capital project include: Waters Edge Water Main Loop, Corridor Road Water Main Loop, and Swan Point Water Main Loop.
3. The project was brought before the Public Works Board on December 11, 2012.
4. Request represents funds to support an on-going program to provide water system redundancy and fire protection upgrades.

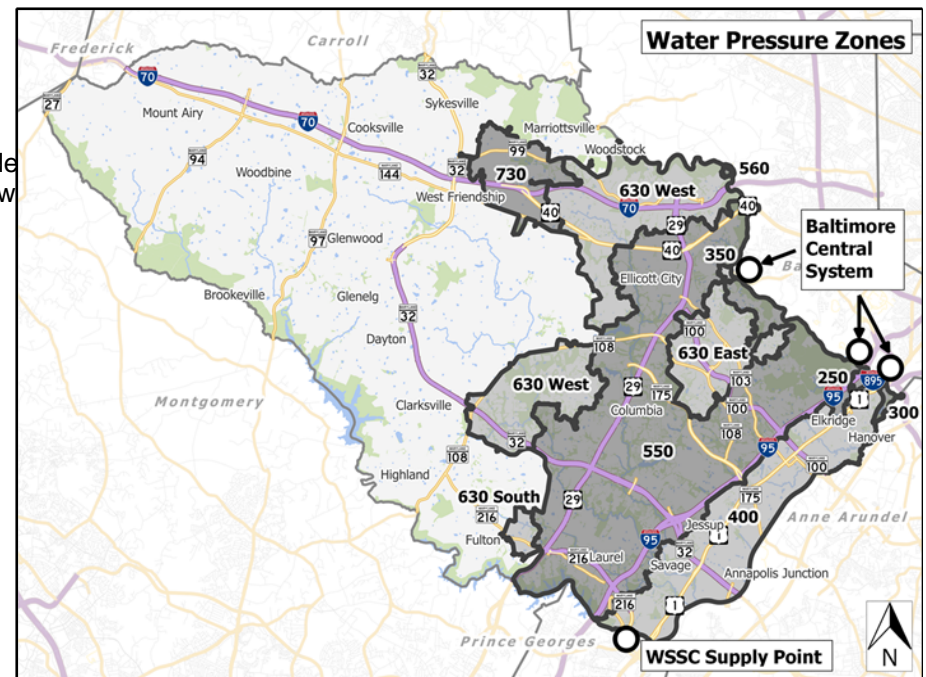

Project Schedule

On-going

Operating Budget Impact

Annual Bond Redemption \$ \$190,000

The annual cost of operation and maintenance of the water mains is \$1,200.

Project Status :

\$80,171 spent and encumbered through February 2015

1. Corridor Drive WM Loop is under construction.
2. Waters Edge and Swan Point WM Loops are under design.

Description

Develop, Design, and Construct a Reclaimed Water System to serve various parts of the County with reclaimed water from the Little Patuxent Water Reclamation Plant. This project is to complete and extend the system that was initially constructed under Capital Project S-6245, with expansion to other areas of the County's Metropolitan District as customers are identified.

Justification

The first phase of the County's reclaimed water system was constructed under capital project S-6245, a project that was initiated for the reduction of Nitrogen in the discharge of the Little Patuxent Water Reclamation Plant's effluent by the construction of the Enhanced Nutrient Removal Facilities (ENR) and the initial construction of the Reclaimed Water System. This construction has been completed, and as the Maryland Department of the Environment (MDE) is preparing to release its regulations for the use of Class IV Effluent (Reclaimed Water) in the summer of 2013, the County's reclaimed water system is ready for additional features to enhance its functionality and expand to meet customer demand.

Remarks

1. The existing Reclaimed Water System consists of a pumping station located at the LPWRP, and a reclaimed water pipeline that extends to the property line of the Dreyers Ice Cream facility in Laurel.
2. Initial design and construction funded under this project will be to extend a second reclaimed water pipeline from the pumping station to the existing 3 million gallon Guilford Water Storage Tank on US1, and to upgrade the Guilford Water Storage Tank to accept reclaimed water. Additional pipelines connecting the tank and other potential users in the vicinity are also expected to be constructed as continuing phases of this project.

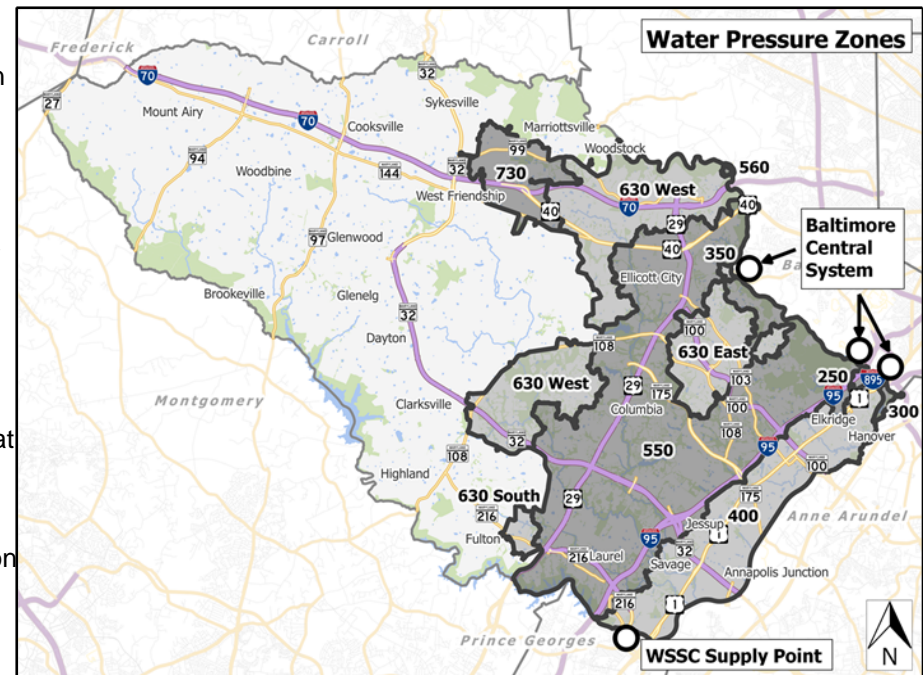

Project Schedule

- FY16 - Alignment study and design of reclaimed water pipeline from the LPWRP to the existing Guilford Water Storage Tank.
- FY17 - Construction.
- FY18-19 - Design and construction of System Extensions.

Operating Budget Impact

Annual Bond Redemption \$ \$355,870

The operating costs associated with the operation and maintenance of the Reclaimed Water System will be offset by a Reclaimed Water volumetric rate charge approved by the County Council as part of the annual User Fee charges. Revenues generated are anticipated to offset purchased water and sewage treatment cost increases.

Project Status :

\$0 spent and encumbered through February 2015

1. Project on hold for FY15 pending implementation of MDE Reclaimed Water Regulations and construction of new Guilford Water Tank.

Description

A project for the design and construction of 400 LF of 8-inch water main in Saint Paul Street in Ellicott City.

Justification

The existing water main was constructed within an easement on the Saint Paul Church property in 1964 on a 30 percent slope, and provided water service to multiple properties through a single water house connection. Subsequent site improvements made by the church have placed the water main between 2 buildings. The project will relocate the 6-inch water main on the church property to Saint Paul Street, completing the loop with College Avenue; thereby providing improved maintenance access and eliminating the shared water house connections.

Remarks

1. The project was brought before the Public Works Board on January 14, 2014.
2. The request represents the latest engineering estimate.

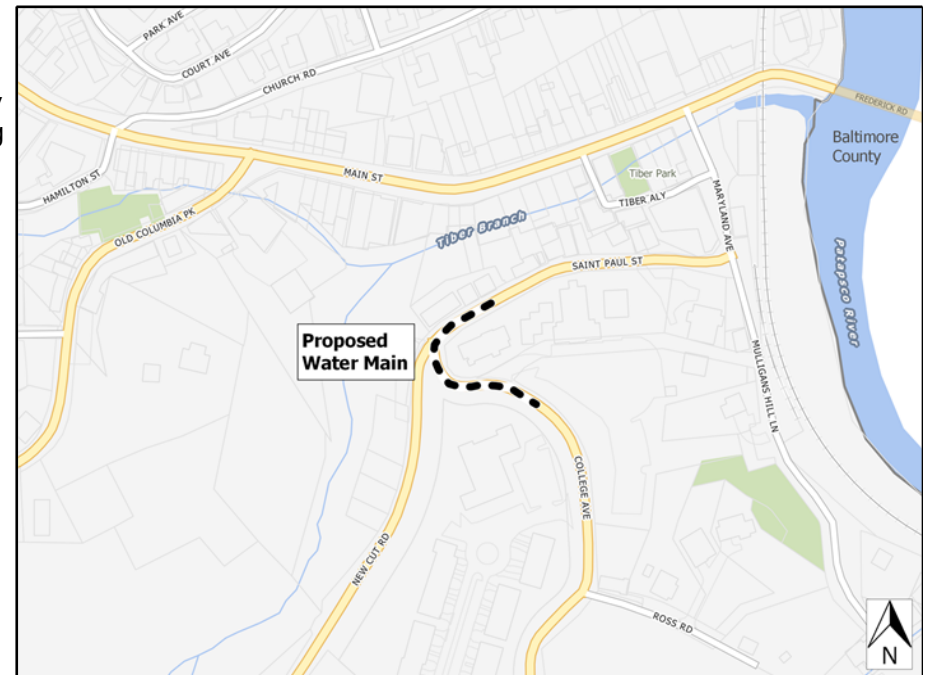

Project Schedule

FY16- Construction, Project Complete
FY17 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$19,000

The annual cost of operation and maintenance will be unchanged.

1. Project design completed.

Description

A project for the replacement of 2,300 LF of 8-inch water main in Old Lawyers Hill Annual Bond Redemption \$ \$45,125 Road.

Operating Budget Impact

The annual cost of operation and maintenance of the water main will be reduced.

Justification

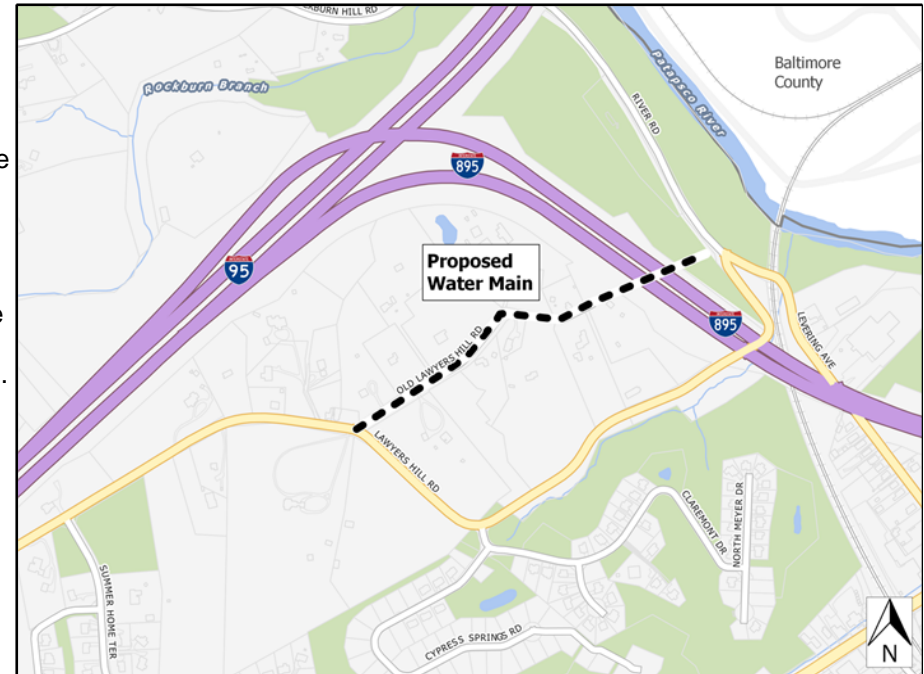

The existing water main was constructed in 1956 and is cast iron pipe. The water main is a supply source from the Baltimore City water system and operates between 130 and 150 psi, with pressures exceeding 200 psi at its connection to the water main in River Road. Test pits performed on the water main have shown significant corrosion. The replacement of the main is needed to ensure long term fire protection and domestic water supply for the residents along Old Lawyers Hill Road and to maintain a vital water supply source from the Baltimore City water system.

Remarks

1. The water mains on either end of the Old Lawyers Hill Road water main have been replaced or are in the process of being replaced.
2. The project was brought before the Public Works Board on January 14, 2014.

Project: W8328-FY2015 630 WEST ZONE WATER PUMPING STATION

WATER PROJECTS

Number: W8328

Description

A project for the design and construction of a pumping station to serve the Elevation 630 West water zone.

Justification

The Elevation 630 West water zone extends from Centennial Lane to Guilford Road and encompasses the Villages of Harper's Choice and River Hill and includes portions of Hickory Ridge and Wilde Lake. The zone is supplied primarily by one pumping station, located in the vicinity of Banneker Road in Columbia, and an elevated water storage tank located at Harper's Choice. Any failure of the Columbia Pumping Station will affect Howard County's ability to supply water to the residents and critical institutions located within the 630 West water zone, impacting schools and the Howard County General Hospital.

Remarks

1. The project was brought before the Public Works Board on January 14, 2014.

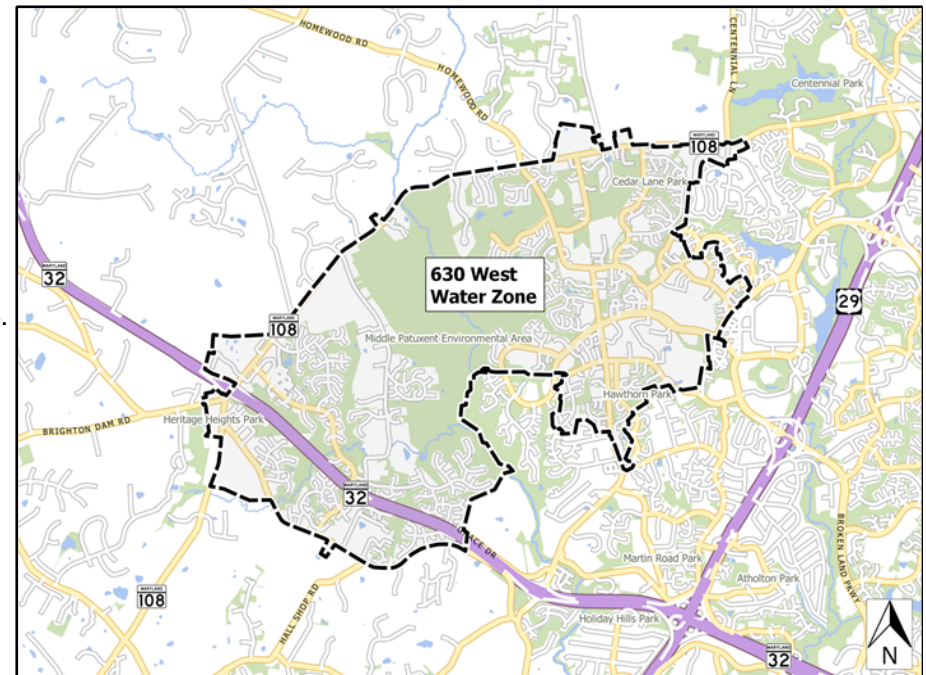

Project Schedule

FY16 - Study, Land Acquisition
FY17 - Design, Construction
FY18 - Construction, Project complete
FY19 - Close

Operating Budget Impact

Annual Bond Redemption \$ \$475,000

Project Status :

\$0 spent and encumbered through February 2015

Description

A project to investigate and determine the condition of all prestressed concrete cylinder pipe (PCCP) transmission mains in the water distribution system. The project will include: internal and external inspections; design and construction of inspection facilitating structures; purchasing of repair pipe, parts, and equipment for inspection; and participation in acoustical monitoring and internal inspection of PCCP to maximize the service life.

Operating Budget Impact

No impact on operating budget.

Justification

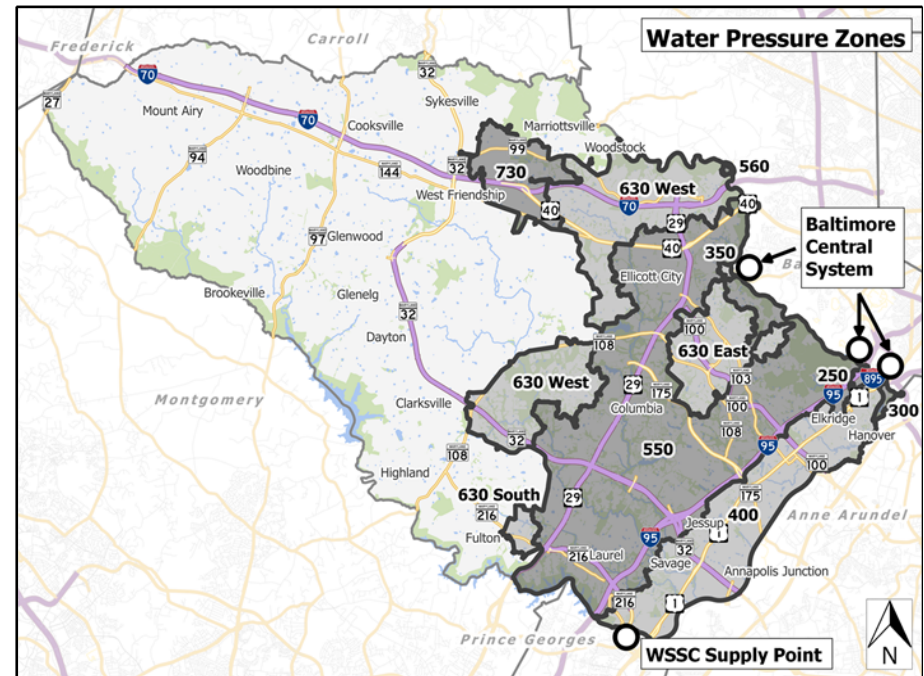

Howard County has experienced multiple failures of Prestressed Concrete Cylinder Pipe (PCCP) transmission mains. This project will allow the County to inspect the condition and structural integrity of the PCCP water mains and replace defective portions of the mains before failures occur.

Remarks

1. Project is an ongoing program to inspect PCCP.
2. This project will replace capital project W8207, FY1995 PCCP Study and Failure Mitigation, to allow the capitalization of funds spent under W8207. W8207 will close after FY2015.
3. Request represents advancement of funds in Capital Project.

Project Status :

\$0 spent and encumbered through February 2015

Description

A project for the design and construction of various additions and improvements to the water and sewer system or its associated infrastructure.

Operating Budget Impact

Annual Bond Redemption \$ \$380,000

None

Justification

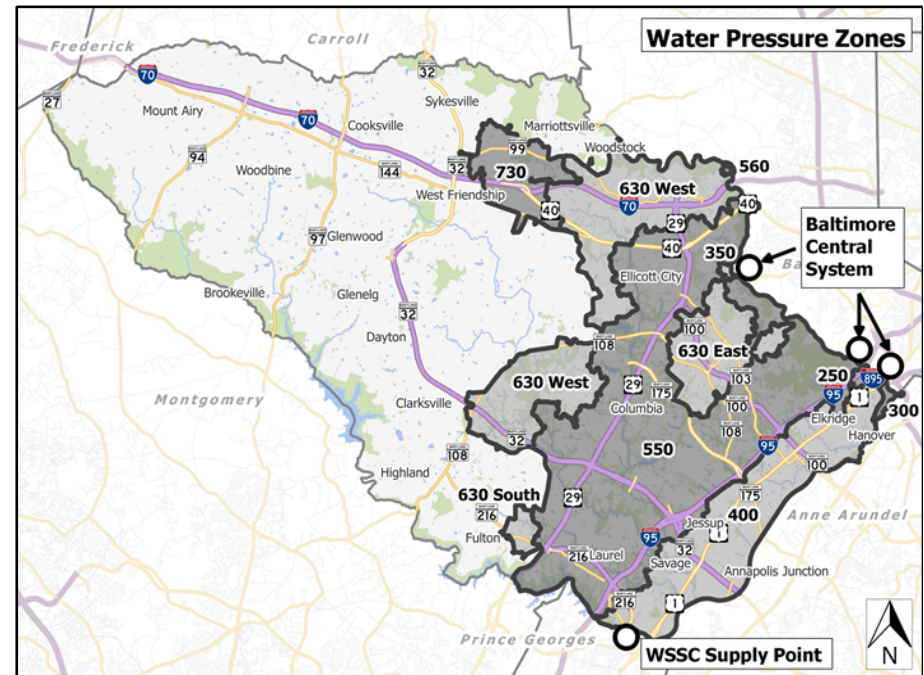

Water and Sewer or its related system components deteriorate or become outdated with use and time requiring major improvements or correction beyond routine maintenance.

Remarks

1. The County's operations require modern infrastructure to provide and sustain the level of service to meet the needs of the citizens of the Metropolitan District.
2. This project may be implemented in conjunction with other capital projects.

Project Status :

\$7,610,433 spent and encumbered through February 2015

Efforts under this capital project include:

1. Elevation 400 Water Zone Optimization Study.
2. Utility security assessment.
3. Old Landing Road Pumping Station replacement pumps.
4. Portable emergency pump.
5. Emergency generator sets at the following sewage pumping stations Pine Valley, Meadowridge Road, Mount Hebron and Patapsco.
6. Dorsey Run Sewage Pumping Station replacement pumps.
7. Safety and fall protection at various elevated water tanks.
8. Electronic archiving of as-built water and sewer plans.
9. Decommissioning of Nottingham Way Pumping Station.
10. GIS and Utility Management Support Services.

Description

Project funding will be used to resolve easement and rights-of-way issues on water and sewer projects which have been constructed or special quick response projects of a capital nature requiring title research, appraisals and acquisition.

Operating Budget Impact

None

Justification

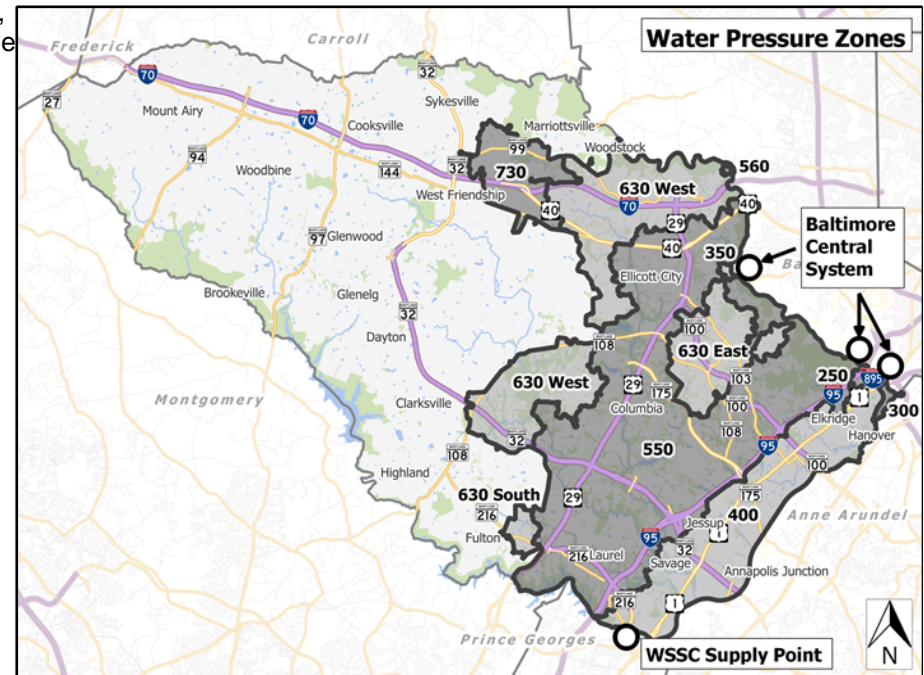

This project is provided as a contingency fund for plats, legal fees, title research, appraisal and acquisition on projects that do not have monies funded for this type of work.

Remarks

1. Land acquisition as required.
2. W8601 will replace capital project W8146, Acquisition Contingency Fund, to allow the capitalization of funds spent under W8146. W8146 will close after FY16.

Fiscal 2016 Capital Budget

Project: W8602-FY2016 SLEEVES, RELOCATIONS & APPURTENANCES

WATER PROJECTS

Number: W8602

Description

A project for funding design and construction of sewer and water lines in conjunction with Maryland State Highway Administration (SHA) and Howard County projects prior to construction. This funding will be used to relocate the existing sewer and water mains in the SHA's rights-of-way as a result of road construction, or construct lines prior to capital project initiation in the Howard County construction program. The project will also provide funding for the addition of valves and fire hydrants on the existing system, inspection testing, supplies, and equipment for the implementation of the existing system.

Justification

These sleeves, mains, relocations, and appurtenances are required in conjunction with future Howard County and SHA projects. This early construction will reduce construction expenditures in the future.

Remarks

1. W8602 will replace capital project W8248, FY2002 Sleeves Relocations & Appurtenances, to allow the capitalization of funds spent under W8248. W8248 will close after FY2016.

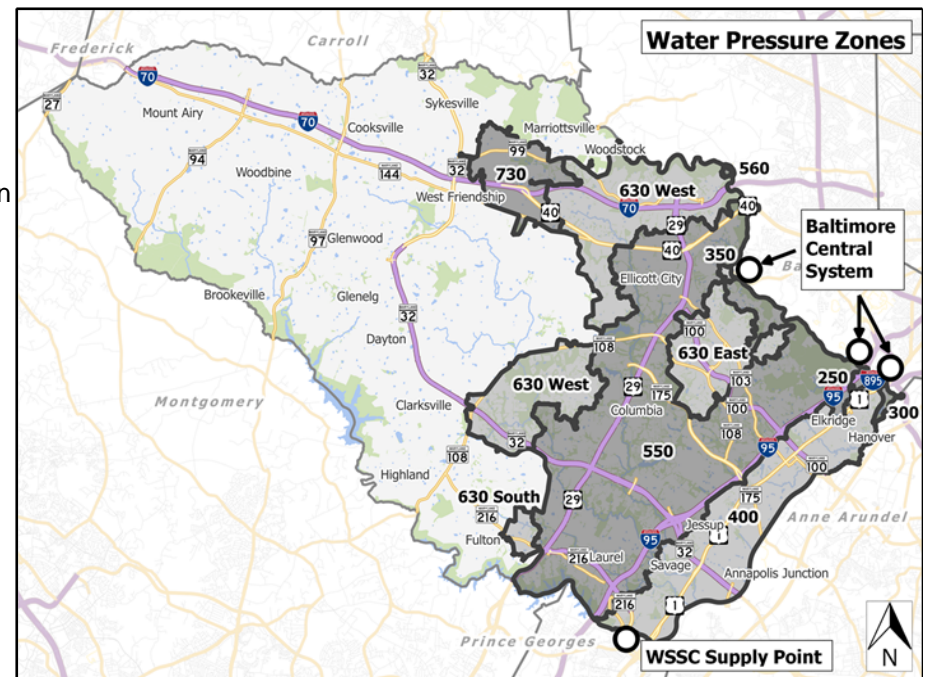

Project Schedule

Project Status :

\$0 spent and encumbered through February 2015

Description

A project to design and construct routine water main extensions in the Metropolitan District requested by landowners.

1. To serve parcels with existing dwellings or existing dwelling in recorded residential subdivisions where water mains have not been constructed.
2. To serve existing dwellings or businesses on failing private systems as identified by the County Health Department.
3. The routine extensions must also meet the following criteria: a. A written request has been made by a property owner who is without a water main fronting their property. b. Property to be served must abut a County or State road. c. The extension is less than 1,000 feet. d. The extension must be a continuation of a water main currently in service in the same pressure zone. e. Acquisition of utility easements are not required. f. Capacity is available per section 18.122B of the County Code. g. The extension is supported by at least 50% of the abutting property owners.

Justification

This project will provide service in a shorter time frame for small extensions.

Remarks

1. See capital project S6698 for Routine Sewer Extensions.
2. Request represents the advancement of funds in the capital program.

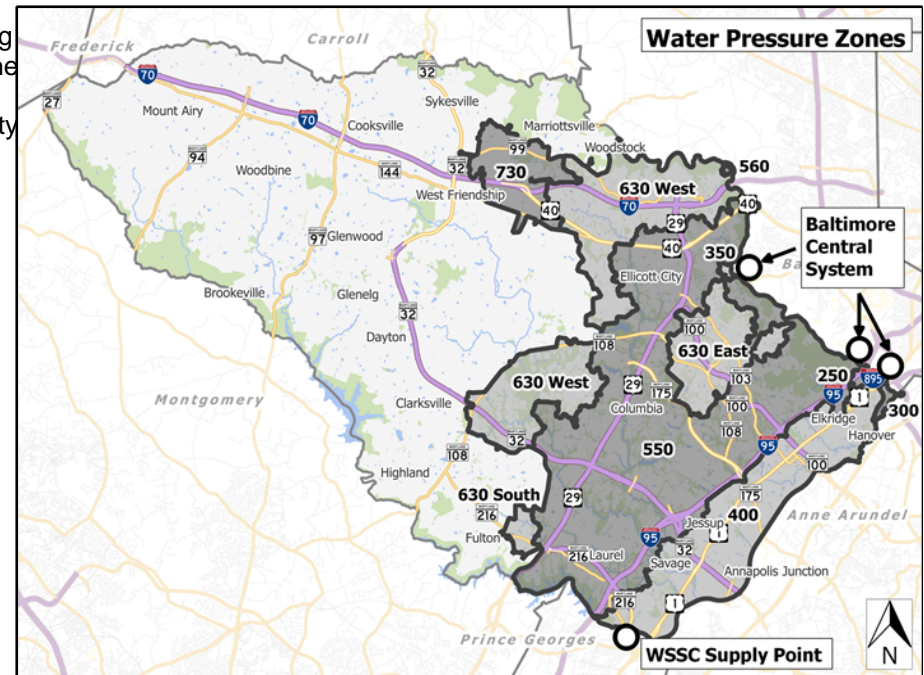

Project Schedule

Ongoing Program

Operating Budget Impact

Annual Bond Redemption \$ \$321,813

\$2,500 per year represents the cost of maintenance of the water main, valves and easement over the utility.

Project Status :

\$1,327,826 spent and encumbered through February 2015

Extensions completed under this capital project include:

1. Meadowridge Water Main Extension
2. O'Connor Lane Water Main Extension
3. Trotter Road Water Main Extension
4. Howes Lane Water Main Extension
5. Rodona Drive Water and Sewer Extension
6. Landing Road Water Main Extension
7. Hill Street Water Main Extension
8. US40 Water Main Extension
9. Mission Road Water Main Extension
10. Talbots Landing Water and Sewer Extension
11. Trotter Road Water and Sewer Extension.

Description

A project to provide for the construction, inspection services, and ordering of large water meters for sites that do not require formal developer agreements, but instead require Advanced Deposit Order (ADO) agreements for water services larger than 1 inch, fire hydrants, short main extensions, or other appurtenances. Construction work limited to 200 feet (combined water/sewer). The following criteria must be met: 1. Extensions are necessary to provide frontage to existing lots or parcels within the Metropolitan District. 2. Developer responsible for all engineering, plans, and construction stakeout. 3. Parcel or lots not subdividable. 4. Acquisition of Utility easements not required. 5. Front foot benefit charge affects the ADO requester only.

Justification

The Howard County Code Section 20.308 establishes the requirements to charge for connections, and the requirement to receive payment prior to making the connection.

Remarks

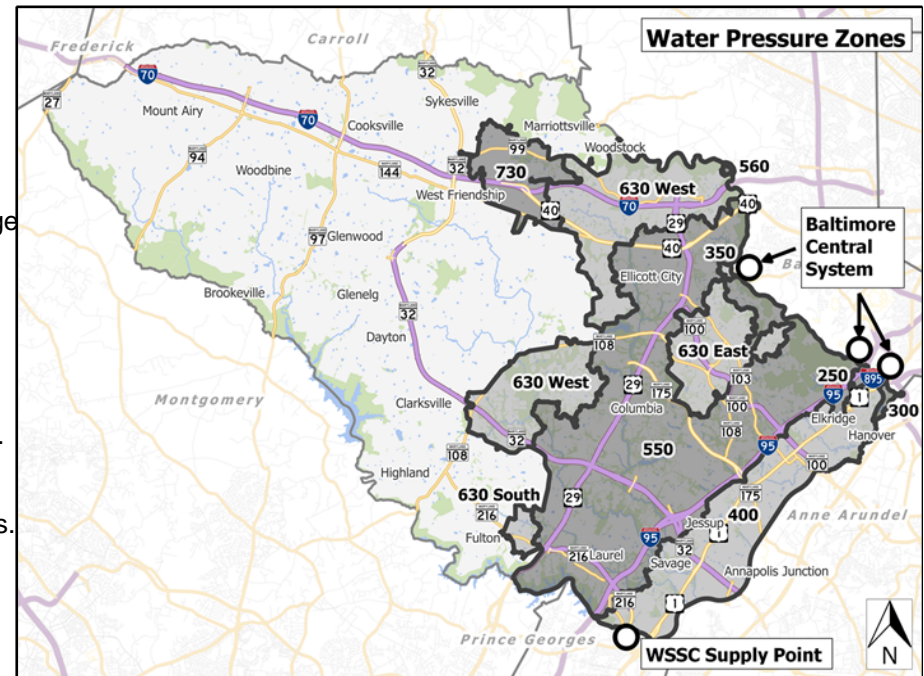

1. An ADO agreement provides for the contractual basis for the connection request. Each connection's cost is accounted for separately against this project.
2. After August 1, 2007, developers will hire Howard County licensed on-site utility contractors, at their cost, to perform the work. The County will continue to construct these connections only at the discretion of the Director of Public Works.

Project Schedule

FY16 - Construction

Total Funding	252	0	252	0	0	0	0	0	0	0	0	0	0	252

Project Status :

\$48,000 spent and encumbered through February 2015

Description

A project to provide for the construction of water house connections by the Bureau of Utilities for residential size up to 1 inch. These connections are made when new connections are required for lots or homes where none exist. Connections installed by Developer Agreement, capital project, or by developer's utility contractor under County inspection (post August 1, 2007) are not included. Also included are charges for water meters under DILP application process.

Operating Budget Impact

None.

Justification

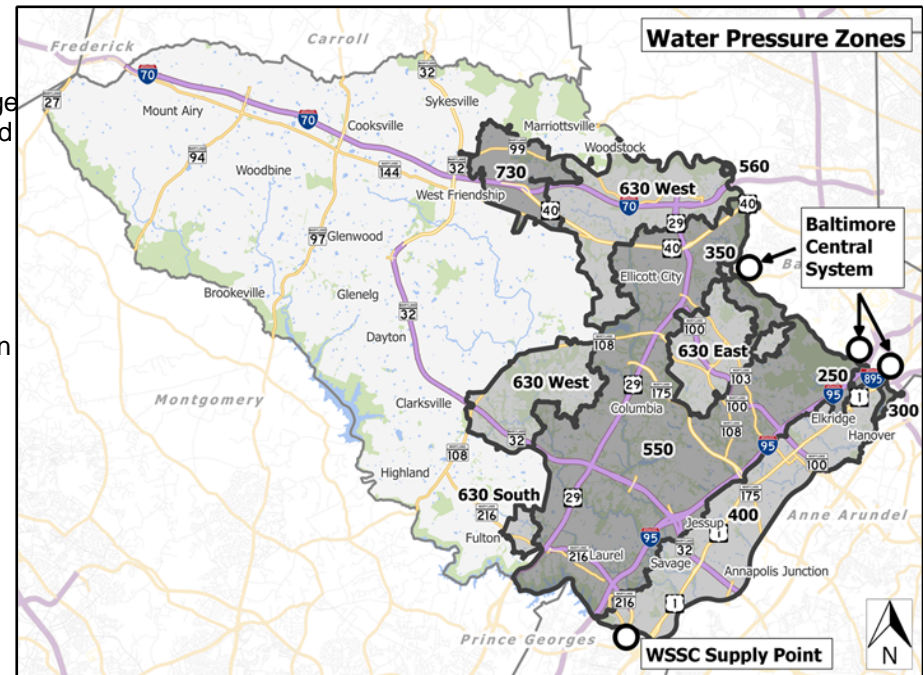

The Howard County Code Section 20.308 establishes the requirements to charge for connections. This capital project allows the installation costs to be capitalized and incorporated into the County's asset management system.

Remarks

1. Water house connection charges are collected when the property owner makes application to connect to the public system.
2. Funds collected from the connection charges are credited to this project when the connections are not existing.
3. House connections previously installed by the Bureau of Utilities to be installed by the developer's utility contractor under County inspection (post Aug. 1, 2007). Bureau of Utilities will install connections only at the discretion of the Director of Public Works.

Project Schedule

1. FY16 - Construction.
2. Ongoing project.

Total Funding	500	52	552	0	0	0	0	0	0	0	0	0	0	552

Project Status :

\$158,251 spent and encumbered through February 2015

Description

Land developers in Howard County desiring to provide public water and/or sewer services to a proposed development, request the County to permit them to extend the existing systems to serve their proposed developments through pre-financing of these extensions under terms of a developer's agreement. All such facilities when completed will be County owned and maintained.

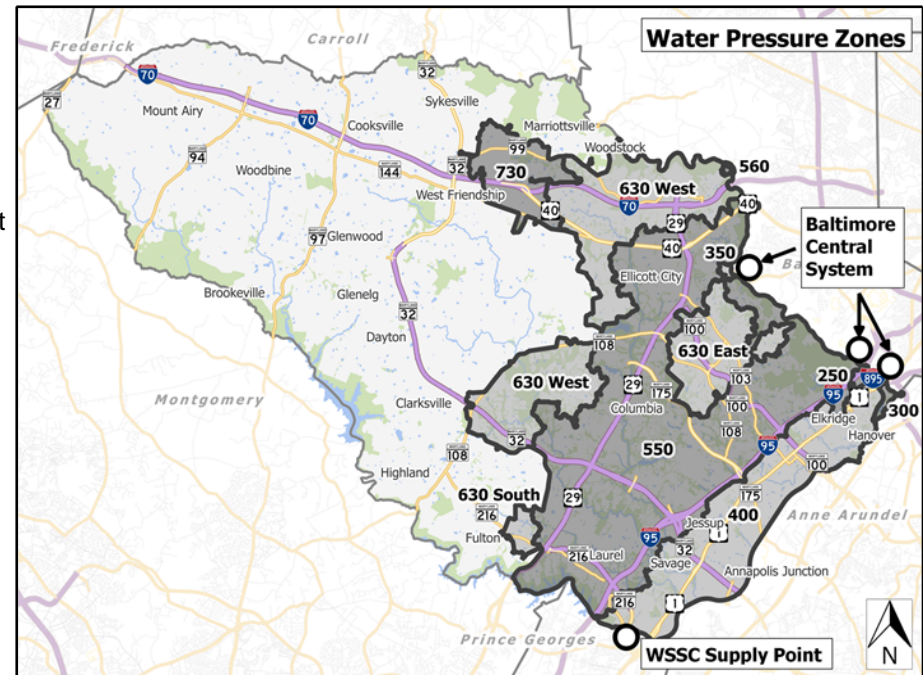

Justification

The Developer's Agreements establish a rebate policy providing for the reimbursement of certain monies when new accessible base and front foot benefit charges are created. The aggregate refund will not exceed 100% of the actual cost of the extensions excluding the construction cost of the house connections, rights-of-way, and engineering. The specific rebate amount is predicated upon the front foot assessments which provide the source of the debt service for the County's refinancing requirements.
