TDD 410-313-2323

July 1, 2017

To the Residents and Businesses of Howard County,

We are pleased to present the approved Fiscal Year 2018 Capital Improvement Program (CIP) for Howard County. Building upon the last two years, this CIP budget continues to support our residents' priorities in the areas of education, public safety, transportation, infrastructure and community services. I would like to acknowledge the many residents and community leaders representing local nonprofits and agencies who provided their input during our town halls and public hearings. I also would like to thank the County Council and their staff for their thorough review and support of this budget.

This capital budget reflects my administration's approach to budgeting, focusing on our core needs, holding the line on debt service, ensuring that we invest in needed infrastructure improvements and supporting our goal to make government more responsive, efficient and accessible. This budget also helps push the "fast-forward" button on delayed projects and introduces critical new projects.

The FY 2018 capital budget totals \$377.7 million, including \$201.3 million from General Obligation (GO) bonds. This includes \$105 million estimated public financing for the courthouse project; remaining projects total \$96.3 million of GO bonds.

As you know, the Spending Affordability Advisory Committee (SAAC) recommended a GO bond authorization of \$85 million, excluding the one-time cost of a new Circuit Courthouse. This is the same level they recommended for FY 2017. The report suggested that the county maintain fiscal discipline to keep the county's overall debt burden at a reasonable level. While this year's CIP is slightly higher than the SAAC recommendations, we have also an obligation to support our infrastructure needs, of which there are many, that simply cannot be delayed. The budget balances those needs while keeping our debt service at affordable levels.

### Education

- **Completion of Wilde Lake Middle School Replacement (\$2 million), Patuxent Valley Middle School renovations (\$1.5 million)**
- **Renovations and additions at Swansfield and Waverly elementary schools (\$21.8 million)**
- **42<sup>nd</sup> elementary school building (\$18.7 million) and new school site acquisition (\$12.3 million)**
- **Design and renovation of Nursing and ST building at HCC (\$21 million; County funding \$11.4 million)**
- **Elkridge Library to open March 2018; East Columbia renovations complete in 2017**

Education continues to be our top priority, with approved funding to renovate aging school buildings, build new schools to meet enrollment growth, improve technology and support systemic renovations.

The FY 2018 school CIP totals \$65.3 million, including projected state funding of \$21.1 million. County funding consists of \$35 million GO bonds, \$7.2 million transfer taxes, and \$2 million school surcharge bonds. This funding will help complete the Wilde Lake Middle School Replacement and the Patuxent Valley Middle School Renovation projects. In addition, it supports renovations and additions at

Swansfield and Waverly elementary schools. Additional funds are included for the construction of the 42nd elementary school to accommodate the growing number of children in the northeastern and southeastern regions of the county. Also, funding is included for a feasibility study for replacing the Talbott Spring Elementary School.

Our commitment to education continues with projects for Howard Community College (HCC) and the Howard County Library System (HCLS). Nearly a quarter of all of our high school graduates move on to HCC, one of the premier two-year colleges in the state. Earlier this year, HCC opened a new parking garage and later this year, they will cut the ribbon on a much-needed Science, Engineering and Technology building, both built in part with county capital funds. In the FY 2018 capital budget, \$11.4 million in county funding is included for the design and renovation of the Nursing and ST buildings and other improvements on the campus. At the same time, it is an exciting year for the HCLS. In March, we will open the Elkridge Branch and 50+ Center and in the fall, the East Columbia Library will be completed.

### **Improving government services and strengthening our community**

- **Create Howard County Innovation Center**
- **Establish Howard County Community Resource Campus**
- **Preserve Harriet Tubman Building**
- **Replace 174-year old Circuit Courthouse**
- **Planning for addition to the East Columbia Senior Center**

One of the commitments I made when elected county executive was to make county government more efficient and make our human services comprehensive and effective. In addition, I have put a strong emphasis on embracing a culture of innovation across the county. This capital budget supports that goal by creating the Howard County Innovation Center and the Community Resources Campus.

Supporting our long-term vision of turning the Gateway complex into an Innovation District, the Howard County Innovation Center (HCIC) will consolidate the Economic Development Authority, the Maryland Center for Entrepreneurship and the Howard County Tech Council into one building, while providing additional room to create innovations labs, a new technology accelerator and space for additional incubator companies. This next step will be the catalyst to jump start the Innovation District by bringing in private investment to support our growing industries.

Last year, I prioritized the Nonprofit Center, which is coming to life right now as a home to nonprofit organizations which provide services for our residents. Expanding on our “No Wrong Door” approach, the Howard County Community Resources Campus (CRC) will be created in the same complex as the Nonprofit Center. This effort will bring together the county’s departments of Housing and Community Development and Community Resources and Services, the Office of Human Rights Commission and the nonprofit Community Action Council, along with the Nonprofit Center. For two decades, local nonprofits have longed for a place that could serve as a “one-stop shop” for those needed human services. By locating our departments that deliver human services near the Nonprofit Center, we will truly embody the “No Wrong Door” approach in the delivery of human services.

The budget also includes funding to replace the aging Circuit Courthouse. I am pleased that the County Council supports our public-private partnership (P3) approach to replacing this courthouse. After

consulting with the Spending Affordability Advisory Committee and financial experts, we determined this approach provides competitive advantages such as risk sharing, life-cycle investment and quality maintenance, efficiency gain, project delivery timeliness and long-term cost predictability. Public financing consists of \$105 million in GO bonds and the county will own the new facility when completed. A private consortium selected through competitive bidding in FY 2018 will design, construct, operate and maintain this new building under a 30-year contract.

Acquisition and remediation funding to preserve the Harriet Tubman Building as a local landmark are included in this capital budget. For nearly two decades, the community has fought to turn the Harriet Tubman School into an African-American culture and education center. As many of you know, the county school system has been using the building for critical maintenance operations which must be moved to a more commercial, permanent facility in order to facilitate this request.

For our seniors, we have continued to strengthen services and facilities. The new, expanded ElkrIDGE 50+ Center will provide additional programming opportunities and expanded services when it opens in March 2018. As our population continues to age-in-place, we must continue to improve services for aging adults. Included in the budget is \$200,000 to begin planning for an addition to support the growing senior activities at the East Columbia Senior Center.

#### **Ellicott City recovery and rebuilding**

- **Commitment to mitigating future Ellicott City flooding from causing significant damage**
- **Additional \$1.8 million in flood remediation earmarked for Ellicott City and Valley Mede for a combined \$9.65 million on flood mitigation efforts in Ellicott City since FY 2016**
- **Plan, design and implement parking improvements for Main Street area**

The July 30, 2016 flood caused extensive damage to Historic Ellicott City. Because of our disciplined approach to this year's budget, we were able to absorb the costs of recovery and emergency rebuilding without dipping into the Rainy Day fund or cutting services.

Building on the work we started two years ago by providing funding for the Ellicott City Flood Workgroup, we have appropriated \$7.85 million to date on flood remediation efforts in Ellicott City, including a recent mid-year addition of \$1.7 million for projects. This budget includes an additional \$1.8 million to continue the effort not only along Ellicott City's Main Street, but to address long-standing issues in the Valley Mede community as well.

I am pleased this year to introduce a new capital project to support parking improvements in Historic Ellicott City. This new project provides \$200,000 to plan, design and implement parking improvements in Ellicott City, identified in the Ellicott City Master Plan which is expected to be completed during this fiscal year. This project will accommodate the parking demands of the community and support the future economic development of the town.

#### **Public Safety and Health**

- **Detox and outpatient treatment center**
- **Replace public safety radio system**
- **Begin design of fire station for West Columbia, move forward with Waterloo fire station**
- **Work to begin on new Central District police station**

In 2016, there were 29 opioid-related deaths in Howard County. Every month, our EMS crews respond to an average of 27 opioid-related cases. The numbers continue to grow yet. I have introduced a new capital project to create a rehabilitation treatment center to address critical health challenges related to opioid overdoses with \$250,000 to support the site selection and design process to move forward quickly on this project.

Our capital budget also continues to address the needs of police, fire and emergency operations. The budget includes \$6.2 million in a multi-year approach to replace and enhance the public safety radio system. The vendor of the county's current system will stop manufacturing or supporting the radio system in mid-2018. Should the system fail, we would be putting our front-line public safety personnel at risk if we do not replace the radio system.

I am pleased that last year we funded the new Elkridge Fire Station which will be open in this fiscal year. The county is also in the process of finalizing the acquisition of state property to construct the Waterloo Fire Station. I fully funded this project in last year's budget and expect it to get underway this fiscal year.

In addition, in FY 2018 the County will start the design of a new 10,000-square-foot fire station in West Columbia and plan for a new Central District Police Station to improve response times and support community policing.

#### **New park facilities and indoor pool**

- **Playground for children of all abilities at Blandair Park**
- **Design of Phase 3 at Troy Regional Park**
- **Design of indoor pool at North Laurel Community Center**

We are fortunate in Howard County to have some of the best recreational facilities in the state. Our capital budget not only supports the opportunities we already have, but it expands upon them. This budget will provide \$1.7 million for the completion of a "Playground for All," a universally designed playground for children of all abilities, space for games, and a restroom and pavilion at Blandair Park. In late summer, I look forward to a formal grand opening of Phase 2 of Blandair Park, where we recently completed work on an entrance and exit on Route 175. In addition, we will begin the design of Phase 3 at Troy Regional Park in Elkridge.

This year's capital budget also includes \$500,000 for the design of an indoor pool at the North Laurel Community Center. The community has asked for this pool for many years, and I am pleased to be able to include funding to bring this project closer to reality.

#### **Transportation and Infrastructure**

- **Complete work on Rt. 29 pedestrian bridge**
- **Address road-resurfacing backlog**
- **Bike projects moving forward**

In FY 2018, we will complete improvements to the Route 29 pedestrian bridge, connecting Oakland Mills and Town Center. The improvements will include the addition of a spiraling, geodesic tube around the

structure, upgraded lighting and additional safety enhancements. The work is expected to be complete by Spring 2018.

Our PAYGO Capital Funds also include \$4.5 million to continue our efforts to address a \$56 million, 10-year backlog on road resurfacing as of FY 2016. In FY 2017, I allocated \$10 million for road resurfacing to catch up on these projects, leading to a combined total of \$17 million over three budget cycles.

The widening of Route 32 will get underway soon, and I am pleased that the County Council supported our innovative approach to funding this important project last year. We know that addressing our transportation challenges requires a comprehensive approach that doesn't just focus on automobile projects. So, this year we will be continuing to take important steps to make Howard County a more bicycle and pedestrian friendly community by funding infrastructure improvements and updating the county's design manual to reflect a Complete Streets approach to transportation. These positive strides were recognized last year with the passage of a Bicycle Master Plan and the designation of Columbia as a Bronze Bicycle Friendly Community by the League of American Bicyclists. The Complete Streets Policy will provide more transportation options to the community. In addition, I am including \$1.25 million for biking, walking and ADA improvement projects.

As you review the capital budget, I hope that you will appreciate the careful planning and attention to detail that we have given to the many existing and new projects. While holding the line on taxes and by keeping our debt service affordable, we have proposed projects that will support our shared goals of a county that endorses a live, work, play and learn approach.

Thank you for your continued support.

Sincerely,

A handwritten signature in blue ink, appearing to read "Allan H. Kittleman".

Allan H. Kittleman

County Executive

## 2018 New Capital Projects

Project	Description
<b>GENCO-GENERAL COUNTY PROJECTS (6)</b>	
C0290-COURTHOUSE RENOVATION/REPLACEMENT	A project to expand and renovate and replace the existing courthouse. The effort will be to construct a new Judicial Function Building/Parking Garage, to add a new building addition to the Courthouse, and to renovate/upgrade interior spaces of the existing courthouse. The Dorsey Building site on Route 108 will be used for the new facility.
C0353-FY2019 TRANSIT CENTER	A project for site selection, design and construction of a transit center. The center will serve as a hub for existing local and regional transit, including Regional Transit Agency (RTA) and Maryland Transit Administration (MTA) bus services, and bike share as well as future downtown circulator and bus rapid transit services. The center is envisioned as part of mixed-use development including affordable housing.
C0355-FY2018 NEW SCHOOL MAINTENANCE SITE RENOVATION	This project will provide space for the HCPSS Maintenance Shop. The project entails site design and construction to add additional parking, as well as design and renovation of the building interior to make it suitable for a variety of maintenance operations
C0357-FY2018 ELLICOTT CITY PARKING IMPROVEMENTS	A project to plan, design and implement parking improvements in Ellicott City. The Ellicott City Master Plan effort will identify strategies to address parking needs in downtown Ellicott City. Knowing that this is an immediate need, this project will be used to advance one or more strategies by supporting pre-development analyses and/or design immediately following the Master Plan effort.
C0356-FY2018 REHABILITATION TREATMENT CENTER	This project proposes to provide funding for a facility in Howard County to meet the critical need to assist with one of the greatest health challenges of opioid overdoses and death. It will provide a place where residential treatment and crisis services can be provided within this community.
C0354-FY2019 BUILDING ACCESS CONTROL AND SECURITY ENHANCEMENTS	This project includes design and implementation of new and improved existing electronic security systems at a number of county facilities. Minor building design and construction required to accommodate these systems would also be included.
<b>DRAIN-DRAINAGE PROJECTS (1)</b>	
D1175-FY-2018 VALLEY MEDE/CHATHAM FLOOD MITIGATION	This project is for the study, design and construction of flood mitigation and stormwater/waterway improvement efforts in the Valley Mede and Chatham subwatersheds. Projects may include drainage improvements, stormwater retrofits, flood control, stream improvements, and design of additional drainage facilities.

## 2018 New Capital Projects

Project	Description
<b>EDUC-SCHOOL SYSTEM PROJECTS (1)</b>	
E1043-FY2019 TALBOTT SPRINGS ELEM SCHOOL RENOVATION	A project to expand educational program spaces and renovate Talbott Springs Elementary School. The planned scope of work for the school includes programmatic, systemic, and physical upgrades as required to bring the facility into compliance with the HCPSS Guideline Manual for Renovations and Modernizations of Existing Schools. The programmatic changes include providing individual classrooms and corridors, creating a COMAR compliant health suite, and providing adjunct space to relocate existing portable classrooms inside of the building. The systemic upgrades consist of a complete renovation of the existing building including new electrical, mechanical, plumbing, technology, roofing, and life safety systems with an emphasis on energy efficiency. The physical upgrades include a refinished gymnasium floor, new doors and hardware, additional exterior windows, as well as new casework and finishes. Talbott Springs Elementary School will be another USGBC LEED Certified school facility for Howard County. Staff is currently conducting a feasibility study for state approval to possibly construct a replacement school. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.
<b>FIRE-FIRE PROJECTS and EQUIPMENT (1)</b>	
F5976-FY2018 NORTH COLUMBIA FIRE STATION	A project to construct a new 10,000 SF fire station to establish emergency services in a strategic position in the North Columbia area that will serve to relieve the demands associated with increased population density and call demands in the area.
<b>ROAD-ROAD CONSTRUCTION PROJECTS (3)</b>	
J4250-FY2019 HOWARD ROAD IMPROVEMENTS	A project to improve the safety of Howard Road north of Big Branch Drive. Howard Road is a scenic road.
J4251-FY2018 LIME KILN ROAD IMPROVEMENTS	A project to improve the roadway and drainage along Lime Kiln Road between MD 216 and Reservoir Road. Lime Kiln Road is a minor collector.
J4252-FY2018 SYSTEMIC INFRASTRUCTURE IMPROVEMENTS TO DNTN ELLICOTT CITY	A project to improve or upgrade road and drainage infrastructure systems as a result of the 2016 Ellicott City Flood. Work will include, but not be limited to: paving, curb and gutter, storm drainage conveyance systems, sidewalks, streetscape, crosswalks, ADA ramps, street lighting, and traffic signal adjustments in the historic Ellicott City perimeter area.
<b>LIBRA-LIBRARY PROJECTS (1)</b>	
L0020-FY2021 NEW HCLS CENTRAL BRANCH & RELOCATION	Relocation of HCLS Central Branch due to Downtown Columbia Redevelopment Plans.

## 2018 New Capital Projects

Project	Description
<b>PARKS-PARKS PROJECTS (1)</b>	
N3978-FY2018 PARKLAND ACQUISTION PROGRAM	This project establishes a fund for County-wide park land acquisition and related expenses. This project allows the County to move quickly to acquire land which becomes available, and satisfies one or more of the following objectives: addresses State and County Greenway objectives, protects sensitive natural resources threatened by development, acquire additional land adjacent to existing parks, and/or satisfies park and open space needs as identified in the Departments most recent Land Preservation, Parks and Recreation Plan (LPPRP).
<b>SEWER-SEWER PROJECTS (1)</b>	
S6298-FY2018 DORSEY RUN ROAD SEWER EXTENSION	A project for the design and construction of 475 LF of 8-inch sewer main along Dorsey Run Road to serve one property with a failing septic system.
<b>WATER-WATER PROJECTS (1)</b>	
W8332-FY2018 HERITAGE HEIGHTS WATER AND SEWER EXTENSIONS	A project for the design and construction of 700 LF of 8-inch water main within Thompson Drive, 700 LF of 8-inch sewer main within Thompson Drive and 700 LF of 8-inch sewer main within Tulane Road in the Heritage Heights community.
<b>16 Total New Projects for Budget Year 2018</b>

# HOW TO READ THE CAPITAL BUDGET

There is a Program Summary page in the beginning of the budget. It is organized to show where the money comes from and the level of effort given to major elements of the Plan Howard 2030 including the cumulative Capital Improvement Program

The budget book is organized in alpha-numeric order following the alpha codes shown in the Table of Contents. The projects in each alpha group are then presented in numeric order.

Each category of projects is summarized in the initial pages for that group. They represent a type of project. Projects with specific locations are shown on a detail map.

In the presentation of the budget detail for each capital project, the display of the project number and title appears on both parts of a two-part form with the following information:

## PART A

**DESCRIPTION** in general terms of what is to be ultimately funded

**JUSTIFICATION** of need, why, or the objective being met

**REMARKS** gives further details or statistics

**SCHEDULE** of major milestones by fiscal year timeframe

**OPERATING BUDGET IMPACT** estimates cost after project is completed

**MAP** depicts a specific site or a County-wide project

## PART B

A matrix which vertically adds elements of the project development and funding sources which match at the horizontal row Total Project Expenditures with columns to show:

**PRIOR APPROPRIATION** shows dollars funded in previous budget years

**FISCAL '200\_' BUDGET** shows dollars being acted-on in this >\_ = fiscal year

**APPROPRIATION TOTAL** is the sum of the Prior Appropriation and this Fiscal year

**FIVE YEAR CAPITAL PROGRAM** is a projection of needs 6 to 10 years into the future

**TOTAL PROJECT** combines prior, this fiscal year, and projected future dollars

**PROJECT STATUS** shows major milestones which have been accomplished and how much of the prior appropriation has been spent up to February of the current fiscal year.

**Capital Budget Revenues**  
**CAPITAL BUDGET REVENUE FUNDING TYPE CODES**

- A = Aid for Schools**  
State Inter Agency Committee contribution
- B = Bonds, general obligation or short term instruments**  
Part of affordability limit calculation
- C = Cash (Utility Enterprise Fund)**  
Ad valorem and associated interest income
- D = Developer Contribution**  
Either through Agreement or obligation
- E = Excise Tax**  
Dedicated annual tax collected and associated interest income
- G = Grant (defined in 'Remarks' on project sheets)**  
State or Federal monies; POS, FHWA, ISTEA, etc
- I = In - Aid of Construction (Utility Enterprise Fund)**  
Building permit fee to support infrastructure
- M = Metro District Bonds (Utility Enterprise Fund)**  
Not part of affordability % calculation
- L = Lease**  
Lease
- O = Other (defined in 'Remarks' on project sheets)**  
Race Track funds, Special interest group contribution, Fines, assessments, fees, reimbursement
- P = Pay as you go**  
General fund cash on a year by year basis
- R = Stormwater Utility (Watershed Protection and Restoration fund)**
- S = Storm Drain Fund & Storm Water Mgmt Fees**  
(defined in 'Remarks' on project sheets)  
Down stream off property improvement fund by drainage area or Fee paid in lieu of constructing a retention facility
- T = Transfer Tax**  
% of total collected annually dedicated to education, fire service, parks
- U = Utility Enterprise Fund (Summary Level)**  
'C', 'I', 'M'= from above combined
- W = Water Quality State Bond Loan**  
Bonds floated by State for better rate, we repay as if our own  
Not part of affordability % calculation
- X = Excise tax backed Bonds – 'Non GO Bonds'**  
Supported borrowing based on dedicated revenue stream  
Not part of General obligation Bond affordability limit calculation
- Z = Education Excise tax backed Bonds**  
Supported borrowing based on dedicated revenue stream
- CC = College revenue backed Bonds**  
Supported borrowing based on fee-based revenue stream

# Fiscal 2018 Capital Budget

## Project: B3831-FY2007 RIVER ROAD BRIDGE-ROCKBURN (H0-6)

# BRIDGE PROJECTS

Number: B3831

### Description

A project for the design and construction of a replacement structure for the River Road bridge over Rockburn Branch. River Road is classified as a local road in the Plan Howard 2030.

### Justification

The existing bridge is 26 feet long with 20 feet of pavement in a 30-foot right-of-way and is currently posted for 13 tons. The bridge is functionally obsolete due to its posted weight limit and narrow width.

### Remarks

1. This bridge is not eligible for Federal Bridge Rehabilitation/Replacement Funds.
2. Project to be designed under scenic road guidelines.
3. Land acquisition requires park property.

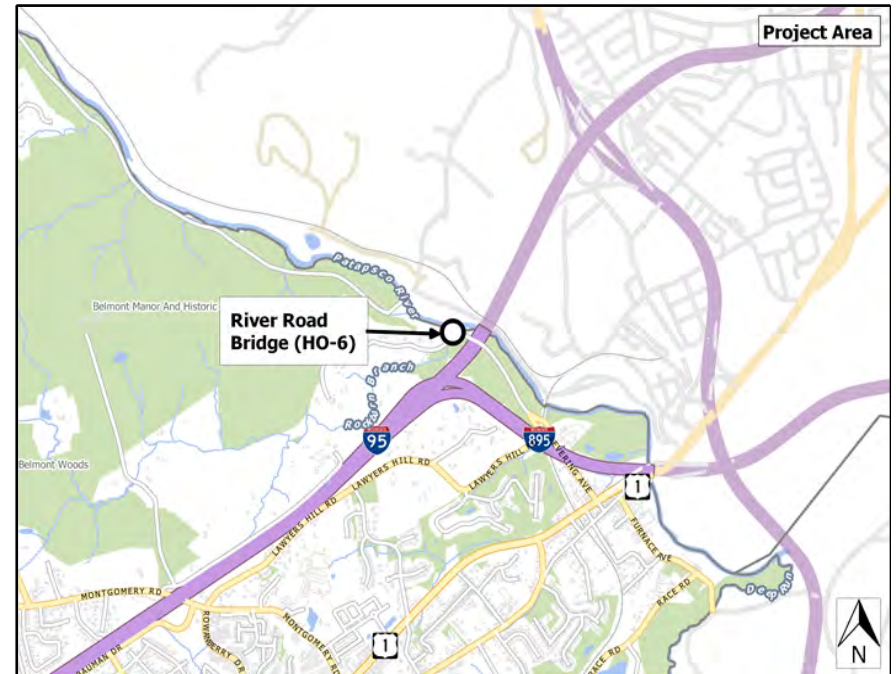

### Project Schedule

FY18 - Begin Construction  
FY19 - Construction  
FY20 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$64,125

Estimated annual maintenance costs upon completion: Decrease.

## Project: B3835-FY2006 HENRYTON ROAD BRIDGE (H0-105)

Number: B3835

### Description

A project for the design and construction of a replacement bridge for the Henryton Road bridge over a tributary to the Patapsco River. Henryton Road is classified as a local road in the Plan Howard 2030.

### Justification

The existing bridge is 40 feet long with 25 feet of pavement in a 30-foot right-of-way and is currently posted for 12 tons. The new structure will be wider to meet AASHTO and County Standards.

### Remarks

1. Grant represents Federal Bridge Rehabilitation/Replacement funds.
2. Scenic road characteristics will be preserved in the improvements.

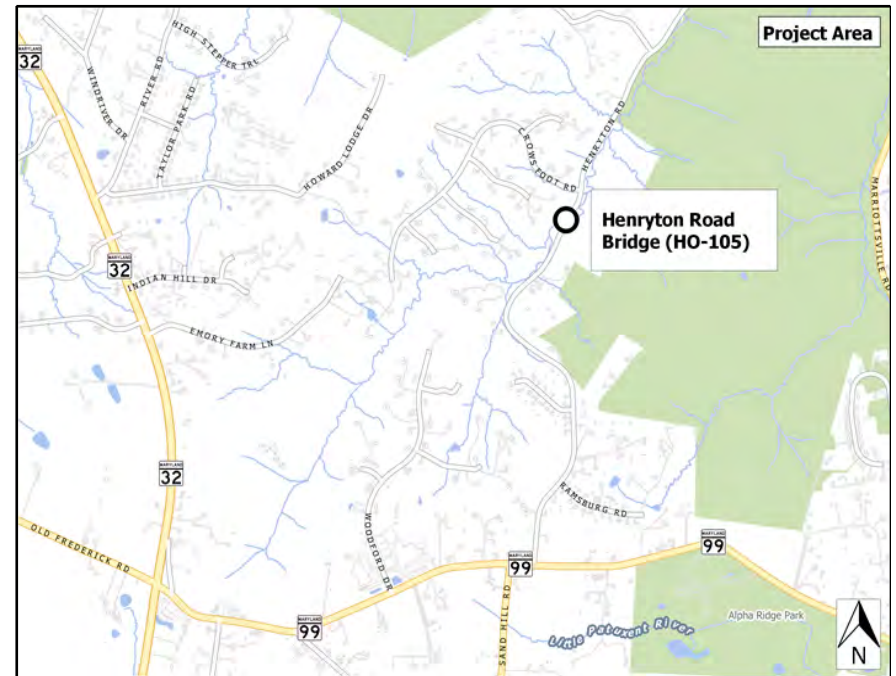

### Project Schedule

FY18 - Construction.  
FY19 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$33,975

Estimated annual maintenance costs upon completion: Decrease.

## Project: B3838-FY2006 PINDELL SCHOOL ROAD BRIDGE (H0-106)

# BRIDGE PROJECTS

Number: B3838

### Description

A project for the design and construction of a replacement structure for the Pindell School Road bridge over Hammond Branch. Pindell School Road is classified as a minor collector in the Plan Howard 2030.

### Justification

The existing bridge is 22 feet long with 23 feet of pavement in a 30-foot right-of-way and is currently posted for 16 tons. The new structure will be wider to meet AASHTO and County standards.

### Remarks

1. This bridge is not eligible for Federal Bridge Rehabilitation/Replacement Funds.
2. Request represents latest engineer's estimate.

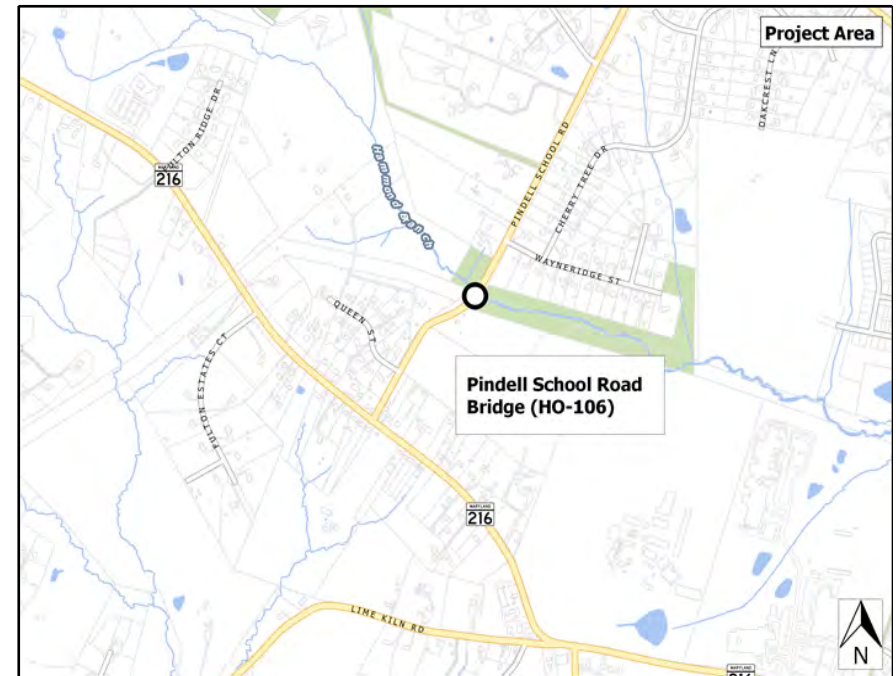

### Project Schedule

FY18 - Land acquisition and Construction.  
FY19 - Construction.  
FY20 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$69,075

# Fiscal 2018 Capital Budget

## Project: B3849-FY1996 DAISY ROAD BRIDGE (H0-38)

# BRIDGE PROJECTS

Number: B3849

### Description

A project for the design and construction of a replacement bridge and roadway tie-ins. The existing bridge is 32 feet long with a clear roadway of 23 feet and has a weight limit of 12 tons. Daisy Road is classified as a major collector in the Plan Howard 2030.

### Justification

This bridge is functionally obsolete due to its narrow width and weight limit. It is on a six-month inspection cycle due to a greater posted load capacity (verified by testing) than would normally be allowed for a bridge of this construction. The new structure will be wider to meet AASHTO and County Standards.

### Remarks

GRANT represents Federal Bridge Rehabilitation/Replacement funds.

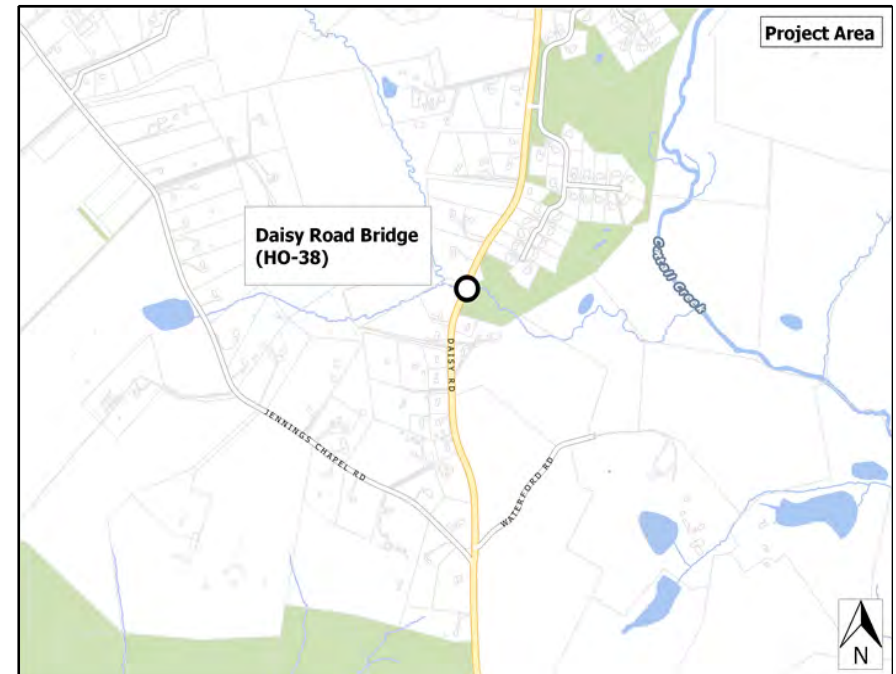

### Project Schedule

FY18 - Construction.  
FY19 - Construction Complete.  
FY20 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$34,515

Estimated annual maintenance costs upon completion: Decrease.

# Fiscal 2018 Capital Budget

## Project: B3850-FY2001 STRUCTURE INSPECTION PROGRAM

# BRIDGE PROJECTS

Number: B3850

### Description

A project to inspect Howard County bridges in accordance with the federally mandated National Bridge Inspection Standards. This work includes determining the structural condition and safe load carrying capacity of the structures. County owned retaining walls will also be inspected.

### Justification

Howard County bridges are inspected on a two-year cycle for the safety of the traveling public, to qualify for FHWA Grant funding for all jurisdictional bridges, and to protect Howard County's infrastructure investment.

### Remarks

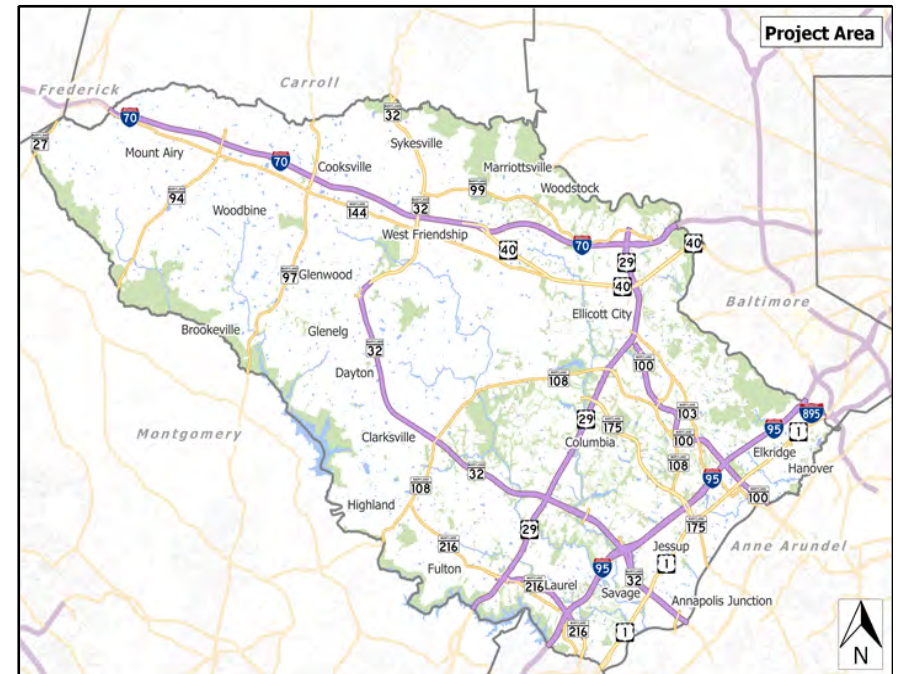

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$9,000

## Project: B3853-FY2000 EMERGENCY STRUCTURE RECONSTRUCTION

Number: B3853

### Description

A fund for Howard County to undertake construction and repair of bridges, culverts and retaining walls requiring prompt action. Structures may suffer damage as a result of heavy storms or fail due to progressive deterioration or disasters and thereby require immediate action with these design and construction funds.

### Justification

Without this fund a roadway may be closed for an extended period of time thus creating a major inconvenience to citizens.

### Remarks

Grant represents possible FEMA reimbursement.

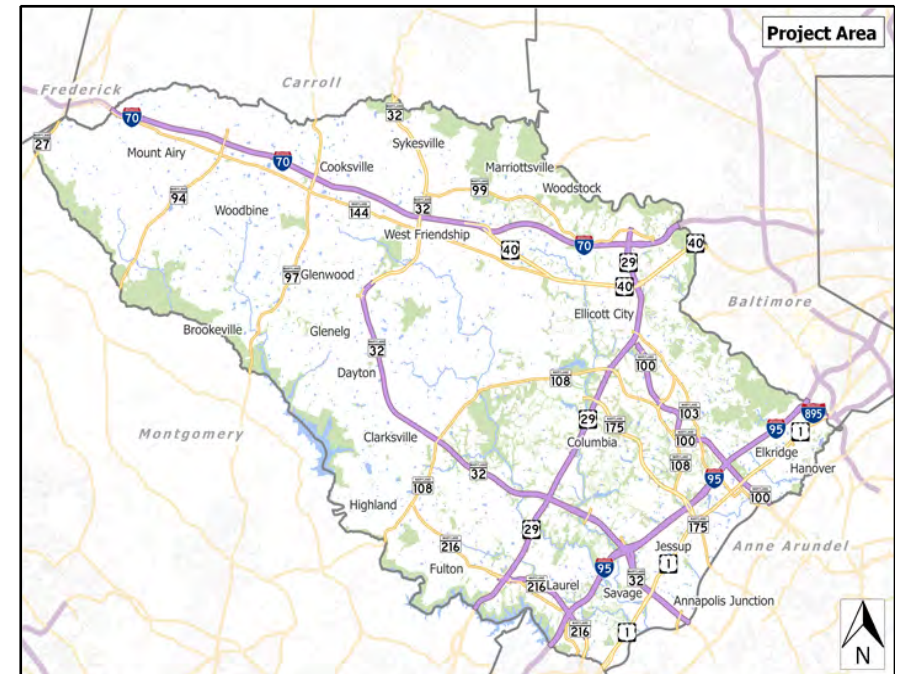

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$152,775

Estimated annual maintenance costs upon completion: Decrease.

# Fiscal 2018 Capital Budget

## Project: B3857-FY2001 SYSTEMIC STRUCTURE IMPROVEMENTS

# BRIDGE PROJECTS

Number: B3857

### Description

A project for specialized renovation items for bridges and retaining walls throughout the County.

### Justification

This effort will reduce the need for closing of bridges by addressing problem items in a timely manner. Some items of work will be cleaning and painting structural steel to extend the useful life of the bridges, placing Class 2 riprap (up to 2,000-pound stones) to counter scour at abutments, concrete repairs and slope failures.

### Remarks

1. This work is beyond the capabilities of the County Highway maintenance crews.
2. Request represents latest engineer's estimate.

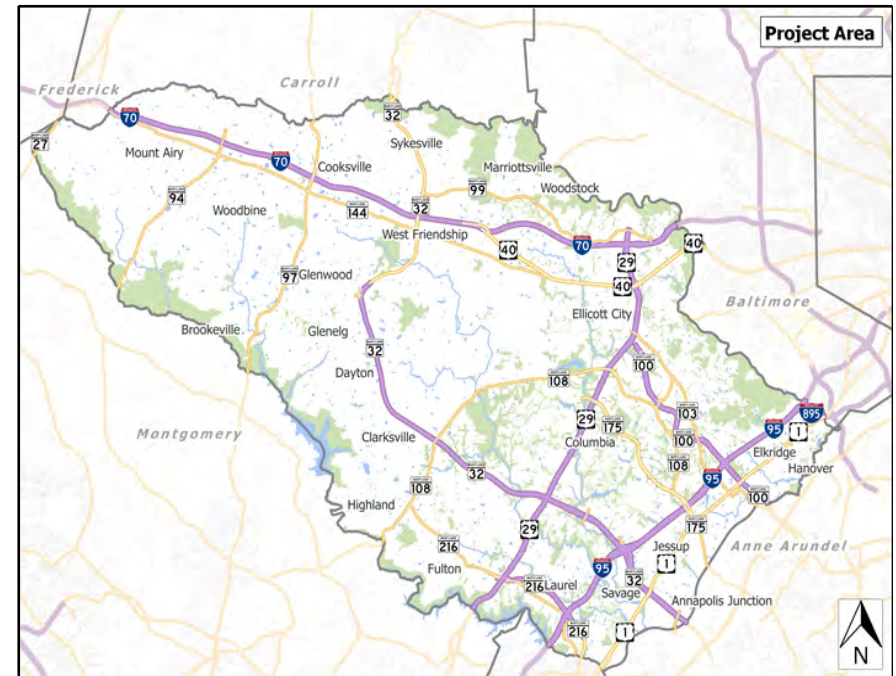

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$75,600

Estimated annual maintenance costs upon completion: Decrease.

# Fiscal 2018 Capital Budget

## Project: B3858-FY2019 PFEFFERKORN ROAD BRIDGE (HO-31)

# BRIDGE PROJECTS

Number: B3858

### Description

A project for the design and construction of a bridge replacement for Pfefferkorn Road over Middle Patuxent River. Pfefferkorn Road is classified as a local road in the Plan Howard 2030.

### Justification

The existing bridge is 36 feet long with 20 feet of pavement in a 30-foot right-of-way and is currently posted for 14 tons and 30 mph. The bridge is functionally obsolete due to its narrow width and posted weight limit.

### Remarks

1. The bridge is not eligible for Federal Bridge Rehabilitation/Reconstruction funds.
2. Scenic road characteristics will be preserved in the improvements.

### Project Schedule

- FY19 - Design.
- FY20 - Design and Land Acquisition.
- FY21 - Construction.
- FY22 - Complete and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$61,875

Estimated annual maintenance costs upon completion: Decrease.

## Project: B3860-FY2016 CARROLL MILL ROAD BRIDGE REPLACEMENT (H0-23)

Number: B3860

### Description

A project for the design and construction of a replacement structure for the Carroll Mill Road bridge over Benson Branch. Carroll Mill Road is classified as a minor collector road in the Plan Howard 2030.

### Justification

The deck beams and abutments are deteriorating making the bridge structurally deficient. It is expected that continued deterioration will require the bridge to be posted, decreasing its weight carrying capacity in the future. It is on an increased inspection schedule.

### Remarks

1. May be eligible for Federal Funds in the future.
2. Request represents latest engineer's estimate.

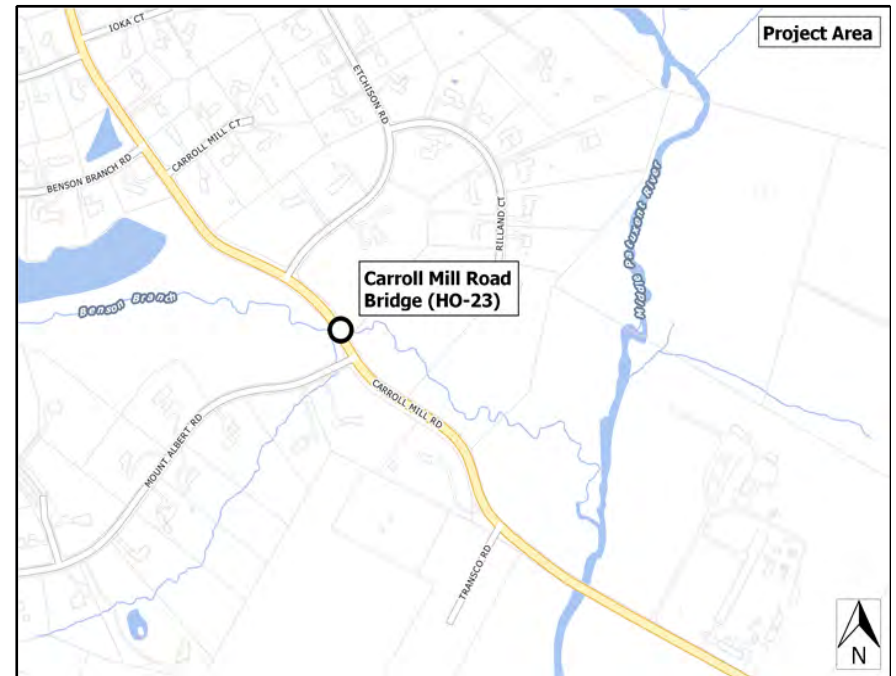

### Project Schedule

FY18 - Design and Land Acquisition.  
FY19 - Construction.  
FY20 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$58,500

Estimated annual maintenance costs upon completion: Decrease.

## Project: B3862-FY2013 RETAINING WALLS

# BRIDGE PROJECTS

Number: B3862

### Description

A Countywide project for the repair, re-conditioning and development of new retaining walls. It also includes slope stabilization when appropriate. The walls are at various locations both in and extending outside of the county right-of-way and vary in height and length.

### Justification

These retaining walls require extensive rehabilitation/replacement which is beyond the scope of normal highway maintenance. This project may also address areas of slope failure where no wall currently exists.

### Remarks

1. Request represents program advancement.
2. GRANT represents anticipated Federal Aid and State Aid funding for Woodstock Road reconstruction.

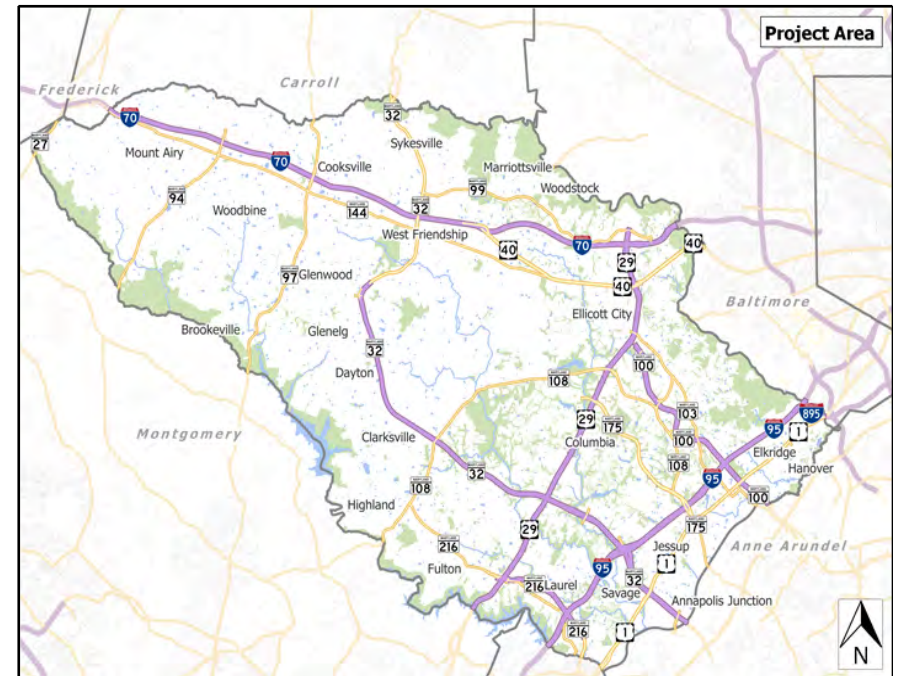

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$96,750

Estimated annual maintenance costs upon completion: Decrease.

## Project: B3863-FY2013 DOWNTOWN COLUMBIA-OAKLAND MILLS CONNECTION IMPROVEMENTS

Number: B3863

### Description

A project to provide a feasibility study, design and construction of enhancements to existing and potential future connections over US29.

### Operating Budget Impact

Annual Bond Redemption \$ \$42,750

### Justification

Given the redevelopment plans for Downtown Columbia and planned multimodal path linking Howard County General Hospital and Howard Community College through Downtown over US29 to Blandair Park, this project is necessary to develop an effective crossing over US29.

### Remarks

OTHER - Sources represents developer contribution.

### Project Schedule

Existing Bridge Structure

FY17 - Design and engineering of selected alternate for safety, lighting and aesthetic improvements.

FY18 - Construction of selected alternate.

Future Bridge

FY17 - Transitway Study

FY18 - NEPA Study

# Fiscal 2018 Capital Budget

## Project: C0182-FY1985 PUBLIC SAFETY EDUCATION CENTER

# GENERAL COUNTY PROJECTS

Number: C0182

### Description

A project for design and construction of a group of facilities for training of public safety employees. Facilities are intended to include a burn building and drill tower, offices, classrooms, laboratories, weapons training facilities, crime scene simulation facilities, ancillary buildings, and library/study for emergency service education programs.

### Justification

This project is intended to meet combined training missions of both Police and Fire and Rescue. Critical training will be compromised if progress is not made in establishing both hands-on and classroom training facilities that are co-located close to the existing outdoor pistol range.

### Remarks

The project has been revised to include an indoor firing range, renovations to the Tactical Training Facility, (Hogans Alley) to allow training year round and an addition to the main training building to accommodate two additional classrooms and a new impound vehicle storage facility.

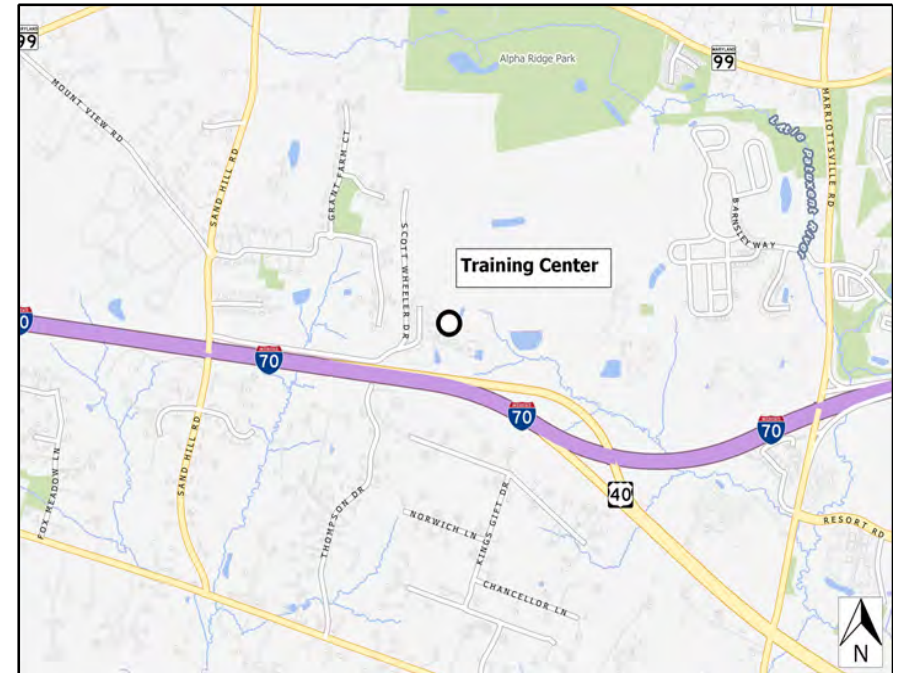

### Project Schedule

- FY19 - Design and Construction of Tactical Training Facility.
- FY20 - Design of Enclosed Firing Range.
- FY21 - Construction of Indoor Firing Range.
- FY22 - Construction of Indoor Firing Range Complete. Design of Impound Lot.
- FY23 - Construction of Impound Lot.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,635,300

Estimated annual utility/custodial/operating costs upon construction completion for the planned renovations: \$26,000

## Project: C0214-FY199- CATEGORY CONTINGENCY FUND

# GENERAL COUNTY PROJECTS

Number: C0214

### Description

The fund is designed for use as a revenue source for Transfers of Appropriation when either construction costs are higher than originally estimated, contributions from grants vary from projections, or engineering must be advanced from future years to the present fiscal year for critical program needs; all subject to Council approval.

### Justification

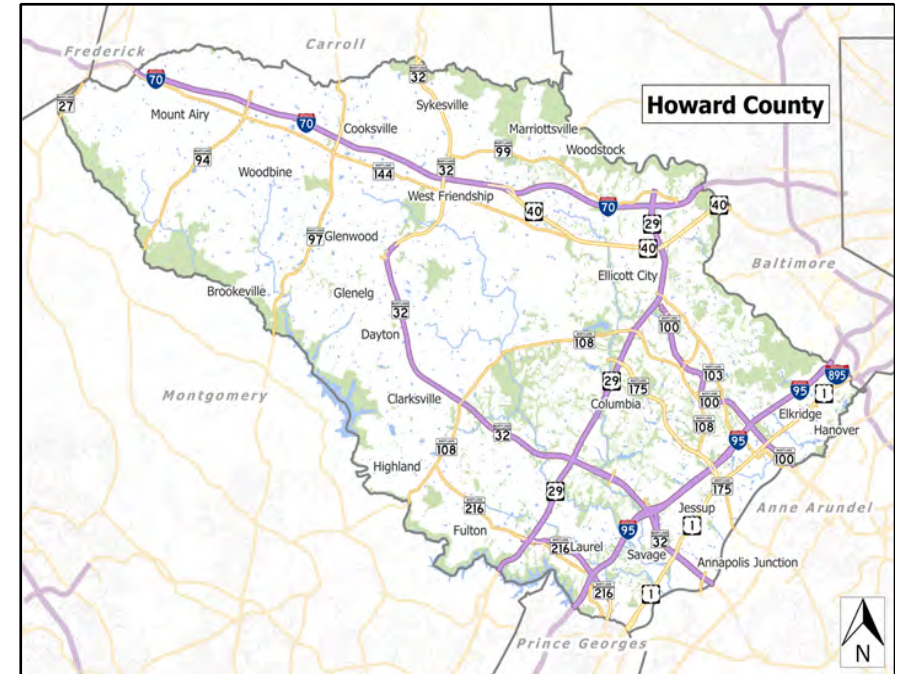

This fund will allow for the timely completion of approved projects by contingency funding as-required.

### Remarks

1. GRANT & OTHER funds represent only an appropriation that can be drawn from when an appropriation is needed by a recipient project that is under-appropriated.
2. TAO #1 and #3-2009.
3. TAO#1 and TAO#2-2011.
4. TAO #1, #2 &#3-2014

### Project Schedule

As Required

**Original Project Budget** No change

## Project: C0256-ENVIRONMENTAL ASSESSMNT CONTINGENCY FUND

Number: C0256

### Description

Evaluation of environmental conditions of property and buildings which become available for purchase or use prior to a specific capital project being established or which are part of an existing project. This also applies to purchases under the Acquisition Contingency Fund. Phase I, II and/or III environmental assessments would be completed as necessary to evaluate the properties or buildings and may include various remediation measures under Phase III.

### Justification

Acquisition of property can result in liability for environmental cleanups. Environmental assessments prior to property acquisition will assist the County in determining fair market value. Environmental assessments and remediation may also be required if problems are identified after acquisition.

### Remarks

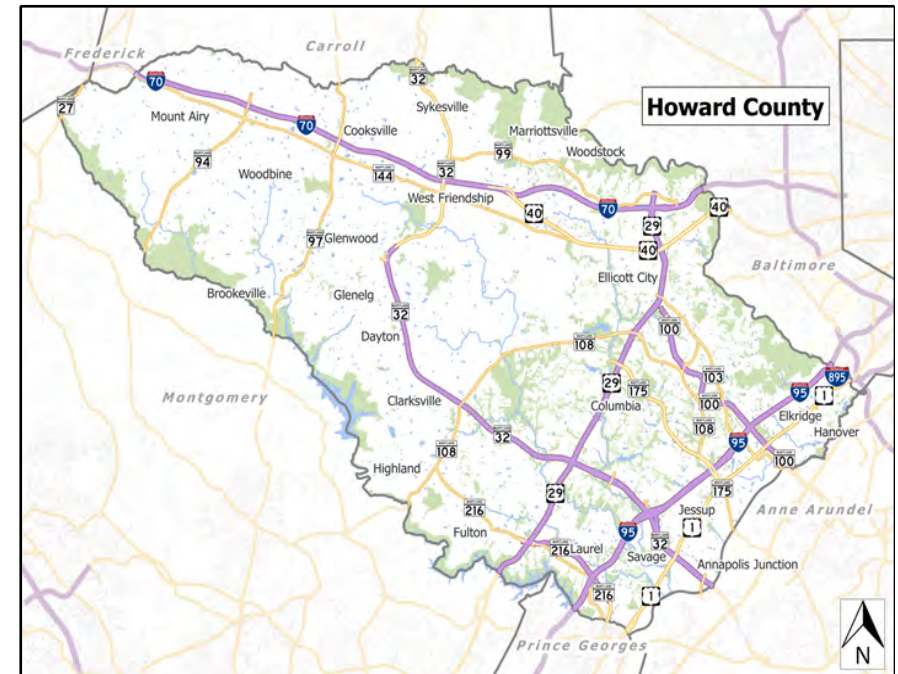

1. Assessments may be performed which determine that the site is not suitable and no purchase is made.

### Project Schedule

Program

### Operating Budget Impact

There is no operating cost impact.

# Fiscal 2018 Capital Budget

## Project: C0285-FY2002 US1 CORRIDOR REVITALIZATION

# GENERAL COUNTY PROJECTS

Number: C0285

### Description

A project to plan, design and implement a series of streetscape, pedestrian, bicycle, transportation and public green space improvements on public property in the US1 Corridor. Acquisition for these improvements may be needed. Funding includes developer contributions. The County will either construct the improvements or have the developers construct the improvements for the County.

### Justification

Revitalization of the US1 Corridor continues to be a priority area under PlanHoward 2030. The purpose is to invest public funds in community enhancement projects that will support and spur revitalization by the private sector, promote economic development and public safety and enhance the quality of life in existing, older neighborhoods in the Corridor. The project implements changes and improvements planned along the entire 11 mile corridor. Larger projects will implement improvements for the public benefit.

### Remarks

1. Future funding for this project determined by the Department of Planning and Zoning based on the outcomes of the Washington Boulevard Study. In 2011, Howard County commissioned a market analysis of US1. The study identified market issues and suggested that future redevelopment focus on commercial nodes. This study will evaluate conditions to identify market-based development concepts that refine and clarify the CorridorÆs vision. Once complete, the study will guide implementation efforts and direct future funding for this project.
2. Pedestrian and bicycle improvements to be coordinated with, and promote access to State and Howard County public transportation services and MARC rail.
3. OTHER: Developer Contribution relating to CB2-2016.

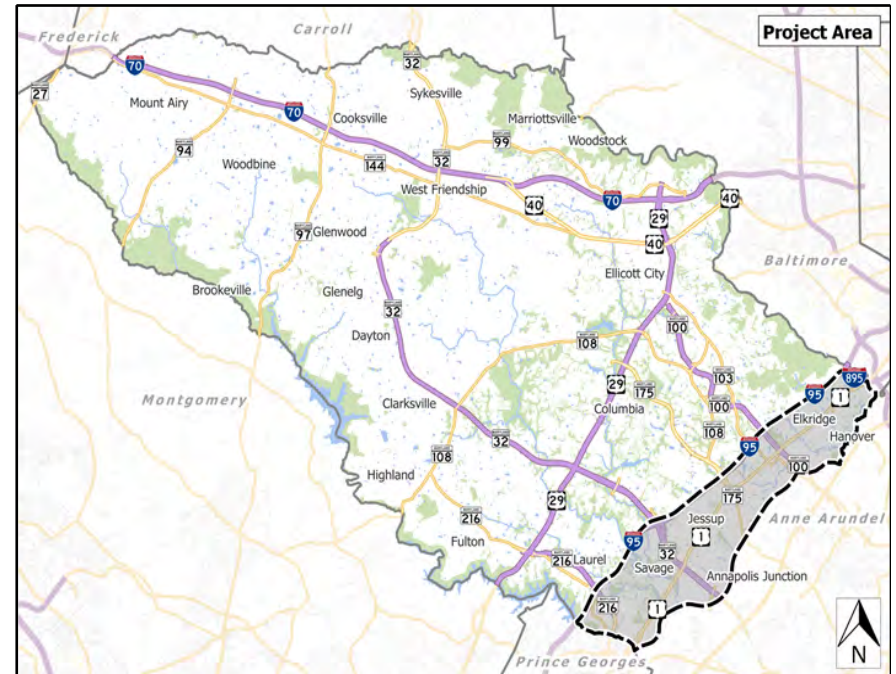

### Project Schedule

FY17-FY18: Develop the Washington Boulevard Study.

### Operating Budget Impact

Annual Bond Redemption \$ \$78,750

Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

# Fiscal 2018 Capital Budget

## Project: C0286-FY2002 BUS STOP IMPROVEMENTS

# GENERAL COUNTY PROJECTS

Number: C0286

### Description

A project to implement a series of systemic improvements to Howard Transit bus stops. These improvements would include the installation of approach sidewalks, curb cuts (consistent with ADA requirements), bus shelters, concrete pads, bus stop signs, cross walks, route map holders and other improvements. Planning and Zoning, in conjunction with the Office of Transportation, will determine the location of these improvements.

### Justification

A field survey of Howard Transit bus stops indicates that these improvements are needed for the safety, comfort and access of passengers, as well as to conform with ADA guidelines. The proposed improvements also reflect the County's desire to increase ridership on the local system by making stops more accessible and convenient.

### Remarks

1. Installation of these improvements will comply with the Americans with Disabilities Act (ADA) regulations.
2. GRANT funds represent Federal American Recovery and Reinvestment Act (ARRA) funds of \$100,000. Additionally, New Freedom grant funds of \$320,000 with \$80,000 in local matching funds are being used for the construction of shelters and bus stop improvements.
3. OTHER funds represent potential BWI Airport Noise Zone Grants to communities that will be passed through to County. Potential fee-in-lieu from developer also included.

### Project Schedule

- FY11 - Two (2) replacement bus shelters installed
- FY12 - Eight (8) replacement and new bus shelters installed
- FY13 - Continued bus shelter installation and ADA compliant access improvements
- FY17 - Reconstruction of Harpers Choice Bus Shelter and other ADA compliant access improvements
- FY18 Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$14,400

No Operating Budget Impact

### Explanation of Changes

Grant budget reduced to reflect actual grants received in project

# Fiscal 2018 Capital Budget

## Project: C0287-FY2002 COMMUNITY RENEWAL / ENHANCEMENTS

# GENERAL COUNTY PROJECTS

Number: C0287

### Description

A project to design and implement a series of pedestrian improvements, streetscape enhancements and repair or enhancement of public green spaces. Pedestrian improvements such as sidewalks, curb and gutter, ramps or curb cuts; streetscape enhancements include signs, street trees or landscaping, benches, trash receptacles; and public green spaces such as paths, landscaping, signs and site furniture.

### Justification

PlanHoward 2030 establishes numerous policies pertaining to community sustainability and the implementation of enhancement projects within existing communities.

### Remarks

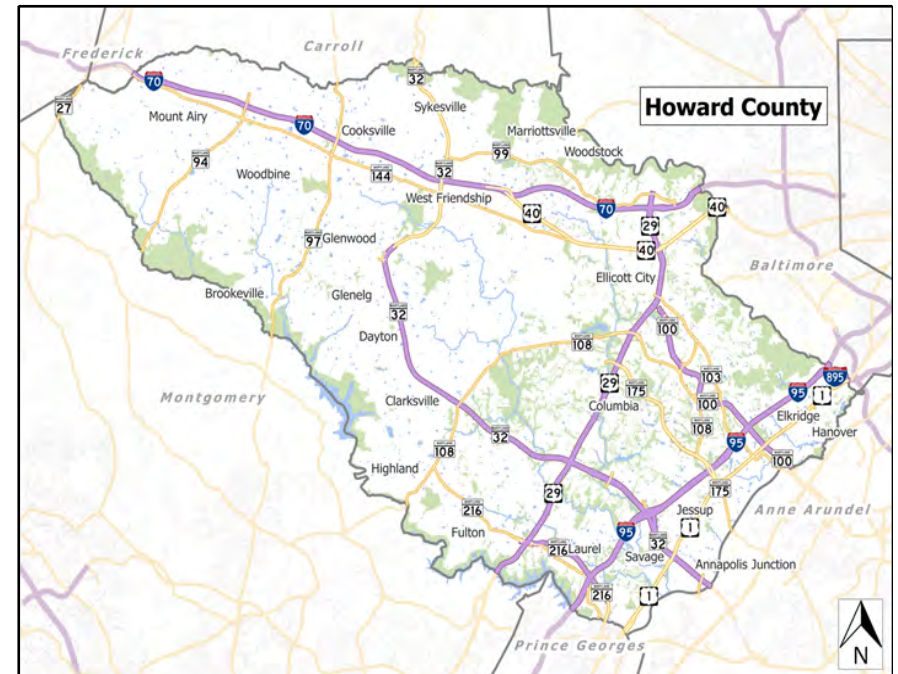

1. Project funding will target public property in neighborhoods with community enhancement committees or community associations that request and support the improvements.
2. Pedestrian improvements will comply with the Americans with Disabilities Act (ADA) and will be coordinated with and promote access to State and County public transportation services.
3. OTHER funding will allow projects that receive community contributions to be constructed on county property.

### Project Schedule

FY18 - Planning, Design and Construction Continued.

### Operating Budget Impact

Annual Bond Redemption \$ \$40,275

# Fiscal 2018 Capital Budget

## Project: C0289-FY2002 TRANSIT OPERATION REPAIR FACILITY

# GENERAL COUNTY PROJECTS

Number: C0289

### Description

A project for site selection, acquisition, design and construction of a multi-jurisdictional transit facility. The facility will support the County's fixed route and paratransit services including such functions as dispatch, vehicle maintenance, parts storage, revenue collection and handling, vehicle storage, management and administrative office space, and similar functions.

### Justification

MTA will provide at least 80% of the funding. Development of the facility allows Howard County to respond to future transportation requirements engendered by redevelopment of US 1, BRAC and Downtown Columbia.

### Remarks

1. Facility funding is predicated on Federal/State GRANTS. MTA has designated project as eligible to receive transit facility funding. Prior Approp OTHER includes Federal funding through MTA and Anne Arundel County. Requested FY14 OTHER funding will be sought from project partners for wash bays.
2. Land acquisition of approximately 6 usable acres allowing total fleet capacity of 100 vehicles and attendant services.
3. County has entered into joint agreements with MTA and Anne Arundel County (Total Contribution \$1,921,000) to establish leasing and/or cost-sharing arrangements.
4. Facility to open on July 1, 2014.
5. Additional funds programed for equipment acquisition in FY 2014.
6. Additional funds programed for LEED Silver certification and projected final costs of construction.

### Project Schedule

FY17/FY18 Closeout is in process

### Operating Budget Impact

Annual Bond Redemption \$ \$174,870

County is estimated to recover its local share of the investment in the facility within eight years. The facility is expected to have a useful life of at least 30 years.

# Fiscal 2018 Capital Budget

## Project: C0290-COURTHOUSE RENOVATION/REPLACEMENT

# GENERAL COUNTY PROJECTS

Number: C0290

### Description

A project to expand and renovate and replace the existing courthouse. The effort will be to construct a new Judicial Function Building/Parking Garage, to add a new building addition to the Courthouse, and to renovate/upgrade interior spaces of the existing courthouse. The Dorsey Building site on Route 108 will be used for the new facility.

### Justification

The project will provide:

1. New Judicial Function Building/Parking Garage which provides additional Court facilities short term & intermediate term requirements;
2. Single Entry Security Checkpoint with a sky bridge connection to existing Courthouse;
3. Two new Civil Courtrooms, with Judges Chambers;
4. Secure parking for Judges and Masters;
5. Greater functionality for Lobby, Jury Assembly Areas, Waiting Areas, and Circulation Atrium space;
6. Renovated existing functional space for Court expanding requirements;
7. Site work revisions for Judicial Building/Parking Garage.

### Remarks

1. Initial programming phase of this project determination made that original proposed solution of two additional courtrooms and a sky bridge from existing parking lot would not meet long term needs of Circuit Court.
2. All stakeholders of Circuit Court were interviewed and a complete set of program of requirements were developed which identified current and future needs. Current funds to be used to maintain the existing Circuit Court Courthouse and for the P3 development process. Program of Requirements is for new Courthouse.
3. FY18 funding request represents public funding only.
4. Title changed FY2018. Previous Title: Courthouse Renovation.
5. The County's financial system will allow tracking spending related to renovation and proposed new building separately within the same project.
6. This project is planned to be separated into two projects in FY19.

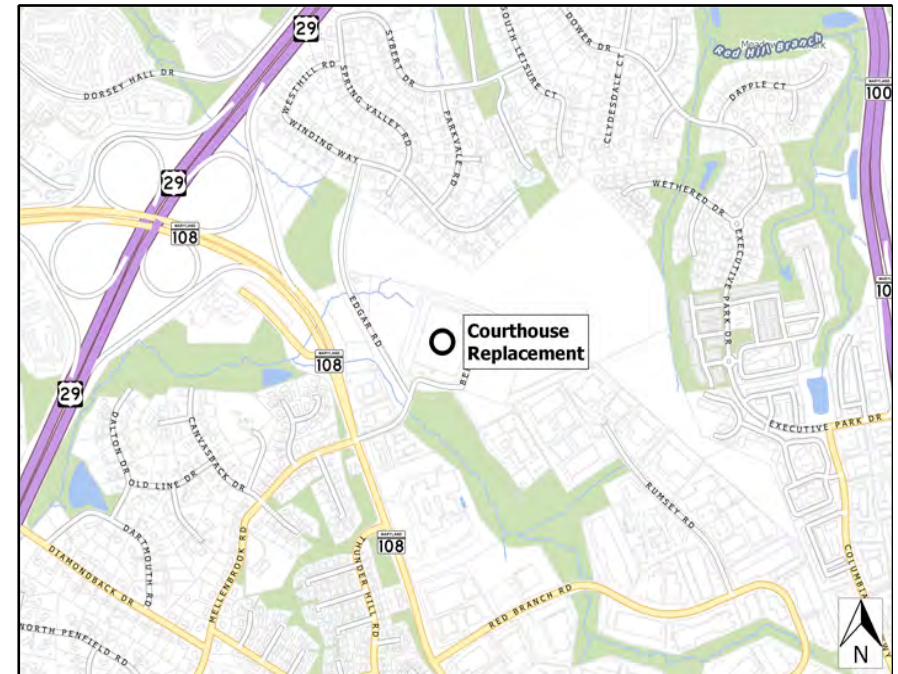

### Project Schedule

FY18 - Complete RFQ, RFP and Award P3 (Public Private Partnership) contract.

### Operating Budget Impact

Annual Bond Redemption \$ \$5,080,275

Private financing through annual availability payment in multi-year contracts will be shown in operating budget.

# Fiscal 2018 Capital Budget

## Project: C0298-FY2005 US 40 CORRIDOR ENHANCEMENT

# GENERAL COUNTY PROJECTS

Number: C0298

### Description

A project to plan, design and implement improvements, including sidewalks, landscaping, street trees, median and gateway enhancements within public right-of-way and to develop a corridor design manual to guide site design on adjacent properties.

### Justification

Enhancement of the US40 Corridor is a priority under PlanHoward 2030. The purpose is to invest public funds in community enhancement

### Remarks

1. Projects that will promote economic development, encourage revitalization, guide redevelopment, improve public safety and enhance the quality of life along the corridor. The project area and specific enhancement strategies are identified in the US40 Design Manual and the US40 Streetscape Master Plan.
2. The county's collaboration with SHA on plan implementation is recognized in a Letter of Agreement (LOA) to improve the aesthetic character and certain operational aspects of the US40 corridor.

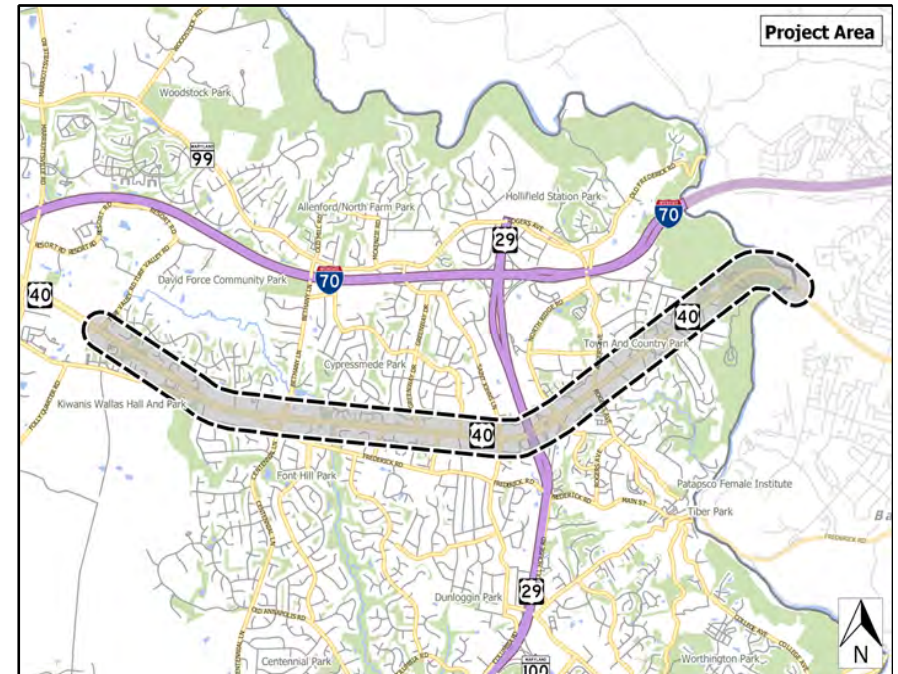

### Project Schedule

FY17-FY19 - Continuation of enhancement projects.

### Operating Budget Impact

Annual Bond Redemption \$ \$31,500

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

# Fiscal 2018 Capital Budget

## Project: C0299-FY2005 WASTE MANAGEMENT IMPROVEMENTS

# GENERAL COUNTY PROJECTS

Number: C0299

### Description

A project for the design and construction of capital improvements at the Alpha Ridge Solid Waste Facility, New Cut and Carrs Mill Landfills. Scheduled improvements are detailed in the "Project Schedule" section. Unscheduled improvements may be under taken based on monitoring results or systems failures.

### Justification

Improvements required to comply with State/Federal regulations, and to provide facilities adequate to serve long term waste management needs.

### Remarks

1. Schedule for construction of new cell and capping of existing cell at landfill dependent on rate at which existing cell reaches capacity.
2. Improvements are for Alpha Ridge Solid Waste Facility except as noted.
3. OTHER funding represents Bonds financed by the Environmental Service Fund.

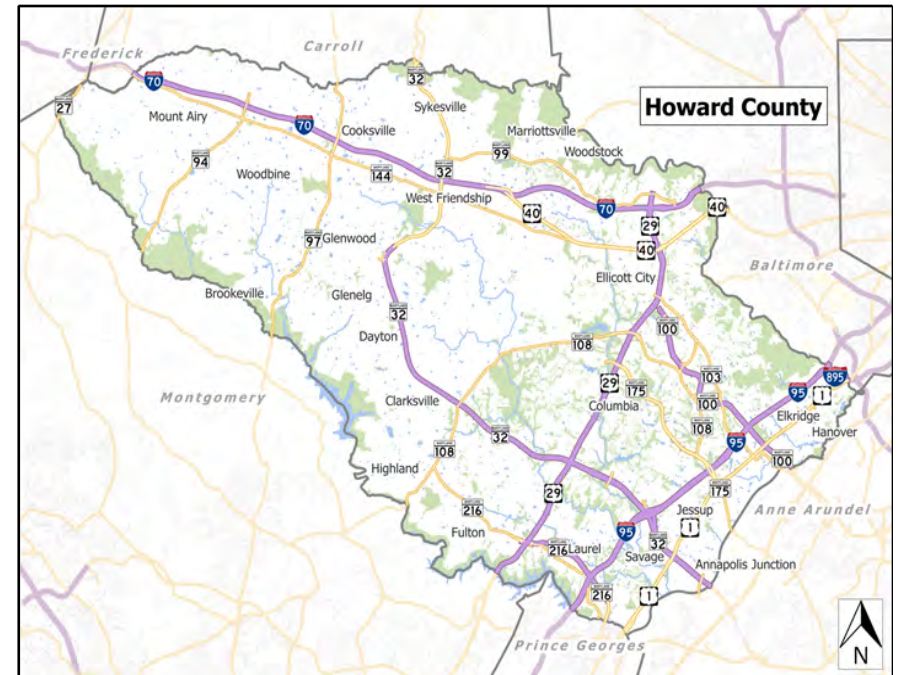

### Project Schedule

FY17 û Construct gas capture improvement. Delayed due to funding constraints: construct next portion of expanded compost facility, upgrade waste oil storage.  
FY18-FY22 û Design and Construct Cell 1 regrading, Materials Recovery Facility, satellite recycling drop-off. Repair/replace pumping stations, scale, and TS floor.  
As required design and construct groundwater treatment upgrades and cell 2A.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,567,170

A project for the design and construction of capital improvements at the Alpha Ridge Solid Waste Facility, New Cut and Carrs Mill Landfills. Scheduled improvements are detailed in the "Project Schedule" section. Unscheduled improvements may be under taken.

# Fiscal 2018 Capital Budget

# GENERAL COUNTY PROJECTS

## Project: C0301-FY2005 TECHNOLOGY INFRASTRUCTURE UPGRADES

Number: C0301

### Description

A project to upgrade infrastructure of the County's Local Area Networks and Wide Area Networks. This includes engineering assessment/analysis to define upgrades necessary to overcome existing and projected deficiencies, and meet longer term objectives. Installation of optical fiber plant, replacement of network infrastructure hardware (switches, routers, etc.) as necessary to provide a Gigabit Backbone Network.

### Justification

The County is currently in process of migrating to more client/server based processing with more robust applications, which are requiring higher bandwidth for adequate response time, particularly in the areas of Public Safety Systems (Intergraph 911/Records Management) which spans several campuses. Upgrades will enable the speed and response time of technology devices to remain within acceptable levels of performance. Proactive improvement of the infrastructure will enable the County to move forward with its application development without constraining the end product because of bandwidth issue.

### Remarks

Rebuilding and refreshing to include cable modernization, hardware infrastructure upgrades, installation of WiFi and VOIP in those areas where it previously did not exist. Additionally this project will be used for the planning and development of new County intranet and internet websites.

### Project Schedule

FY 18 - Continuation of refresh, refurbish and upgrade projects that will ensure a robust network and protect the County's network infrastructure. Continue to make Cyber Security enhancements to decrease County's vulnerability and continue phased approach of installing VOIP and WiFi to those County facilities where it currently does not exist.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,487,295

The Bond funding listed for this project includes both long term bond funding .

## Project: C0309-FY2007 LAND ACQUISITION CONTINGENCY RESERVE

Number: C0309

### Description

A fund for acquisition of land that comes available on the market that meets the future needs of the County to serve the public interest and no funded Capital Project exists. The project will also serve as a transfer source and to resolve other acquisition issues on projects that were closed or on those not funded by the Enterprise Fund. This shall include title and appraisal reports, surveys, environmental assessments, etc. required for the acquisition of property.

### Justification

Allows the County to move quickly on parcels that come on the market. Land resources are becoming rare and it is essential that the County have the ability to move quickly to take advantage of unique opportunities for unique locations and possibly prevent the future need for condemnation.

### Remarks

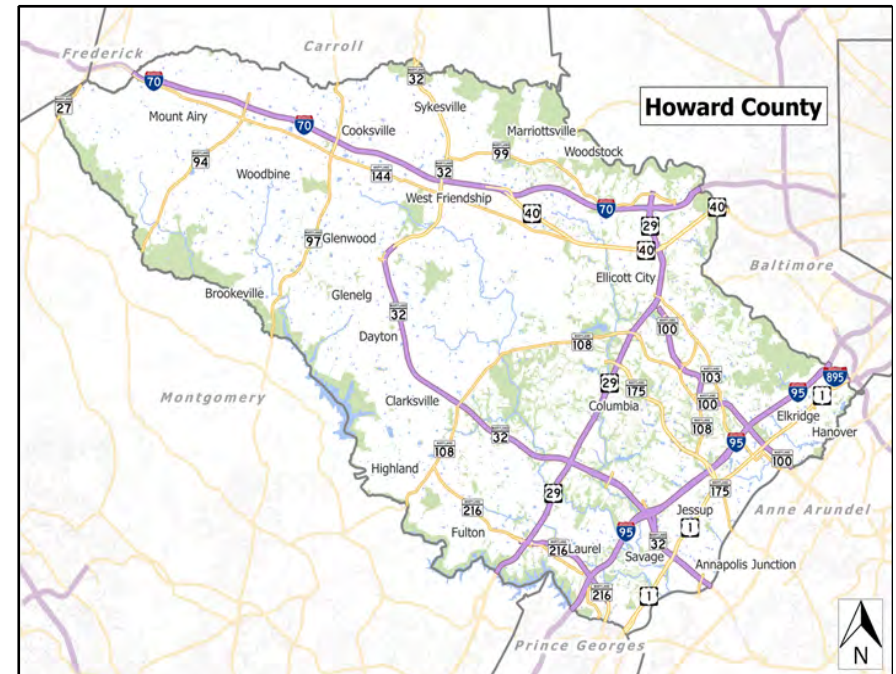

1. FY17 - purchase of a BOE Maintenance site, moving from current Harriet Tubman site.
2. Project has been used for site's building improvements for the Board of Education Maintenance Facility.

### Project Schedule

FY18 - No Activity.

### Operating Budget Impact

Annual Bond Redemption \$ \$985,275

# GENERAL COUNTY PROJECTS

## Project: C0311-FY2007 PUBLIC SAFETY RADIO SYSTEM ENHANCEMENTS

Number: C0311

### Description

Enhancements to 800 MHz Motorola Astro trunking radio system for Public Safety. This first phase will replace all site radios including mobile radios on Fire and Police vehicles, along with FCC-mandated Narrowbanding for Howard County Fire Alert and Interoperability.

### Justification

Howard County's 800 MHz Radio system is aging out of serviceability and by mid 2018 will no longer be manufactured nor supported by the vendor, creating vulnerabilities for functionality and interoperability. We are taking a phased approach, first upgrading the Radio Core and 911 radio consoles to P25 standards, replacement of all portable radios due to end-of-life cycle, and the addition of radio frequencies system and replacement of site infrastructure. This will allow us to stay in communications with Federal, State and other local area governments and public safety officers.

### Remarks

1. Replace radio core equipment/software and 911 consoles.
2. Replace tower light systems and GPS timing systems at all sites
3. Replace all portable radios
4. Replace site controller, UPS, generators, antennas, and lines.
5. Building improvement at Howard High.
6. Prior Year OTHER revenue represents paygo generated from Fire Tax revenues.

### Project Schedule

FY17/18 - Replace end-of-life radios which by mid 2018 will not be manufactured nor supported by the vendor with APX series radios to allow for interoperability . Replace all site infrastructure such as base station radios, antennas, lines, UPS and generators for reliability and interoperability with Federal, State and local governments. FY18 - Complete replacement and upgrade to portable radios.

### Operating Budget Impact

Annual Bond Redemption \$ \$927,000

**\$17,958,554 spent and encumbered through February 2017**

**\$8,588,567 spent and encumbered through February 2016**

**Project Status :** FY08 - Ongoing delivery of Site Ten materials and installation. Microwave material received. Continued negotiation and purchase of upgrade equipment and systems. FY09 - On target. FY10 - Mobile Tower Unit (MTU) to be outfitted with equipment; wireless AP Site for WEBEOC, 800MHZ single site Conventional Channel, 100 handheld low grade radios base site; Motorbridge CMARC to Southern Backup 911; Timbers of Troy shelter replacement. FY11 - CMARC Motorbridge has been completed. Timbers of Troy shelter replacement completed. FY12 - Start first phase of Project 25 radio system by upgrading all radio sites with GTR radios. Upgrade of Police and Fire vehicles radios to new Motorola APX 6500, 700/800 MHz radio Project 25. This will enhance public safety with interoperability with Prince George County, Baltimore County, Baltimore City and State of Maryland Project 25 state wide radio system. This will also enhance Howard County 800 MHz public safety radio capabilities to expand the operations of Fire and Police with more talk groups and flexibly to manage radios inside of vehicles. Future funding from Technology fund. FY13 - Narrowbanding of radio frequencies completed. FY16 - Achieved reliability enhancement to radioÆs main core by moving the radio core form Astro 3.0 core (which is no longer supported by manufacturer) to P25 Standard Core Platform. This is the first step to allow us to stay current with reliability and feature enhancements for our radio core and 911 consoles. Additionally, enhanced the interface between the new P25 radio core and 911 CAD server which is a vital link providing communications from radio system to CAD server. FY17 ù Began phased approach to replacement of end of life radios along with site infrastructure such as base station radios, antennas, lines, UPS and generators for reliability and interoperability with Federal, State, and local governments.

# Fiscal 2018 Capital Budget

# GENERAL COUNTY PROJECTS

## Project: C0312-FY2007 ENTERPRISE RESOURCE PLANNING SYSTEM

Number: C0312

### Description

The County currently is utilizing SAP ERP software solution as the system of Financial Accounting, Purchasing and Utility Water and Sewer billing.

### Justification

The first three phases of SAP implementation, including Financial Accounting and Purchasing, Utility billing, and SAP Business Intelligence for Management for reporting and planning have been implemented by the County in prior fiscal years. The County continues to implement SAP functionalities to enhance the performance, efficiency and financial reporting internally. The new functionalities being implemented and planned to be implemented will require augmenting County resources with SAP consultants to provide quick resolution of issues and timely implementations.. In parallel County's SAP team is constantly engaged in fixing and continuous process improvement activities that require enhancing, modifying, and developing functionalities to meet changing business and legal accounting needs.

### Remarks

Current request is to able to support, enhance modify and develop the current and new functionalities in SAP as well as support the new Fleet Management , Inventory, and Human Capital Management initiatives.

### Project Schedule

FY18 - Human Capital Management Process design is expected to be completed. Additionally, the RFP and award for the implementation is expected to be completed.

### Operating Budget Impact

Annual Bond Redemption \$ \$790,200

## Fiscal 2018 Capital Budget

### Project: C0313-FY2008 ENVIRONMENTAL COMPLIANCE CONSTRUCTION

## GENERAL COUNTY PROJECTS

Number: C0313

#### Description

A project to support environmental compliance activities for County Facilities. Work may include the study, planning, design and construction of environmental protection and remediation measures.

#### Justification

Plans and improvements to comply with Federal/State regulations.

#### Remarks

Other money represents escrowed remediation expenses.

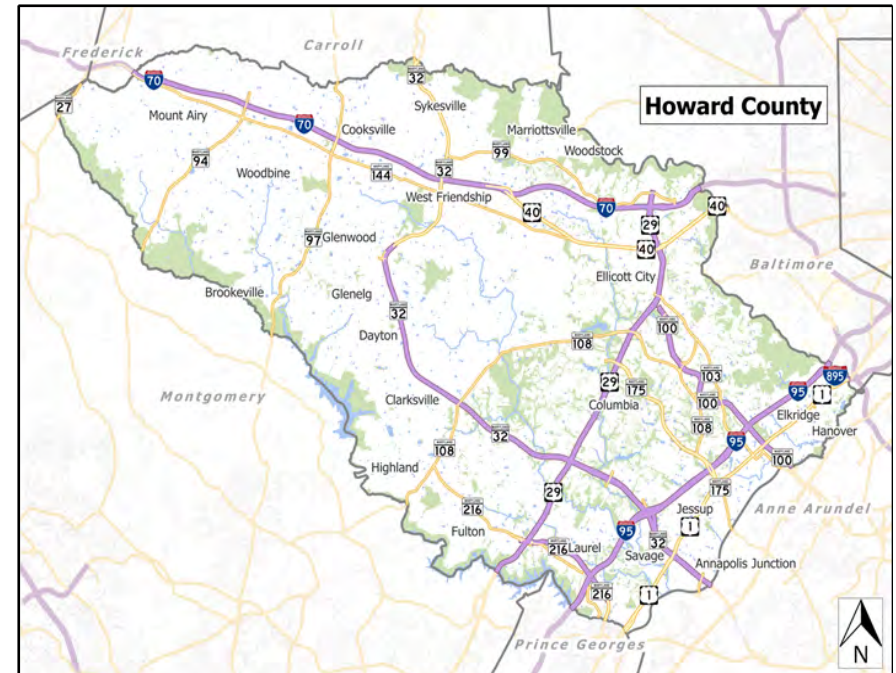

#### Project Schedule

FY18 û Complete vehicle wash pad installations at seven fire stations. Install vehicle wash pads at two park maintenance shops. Install stormwater treatment systems at Dayton and Mayfield vehicle maintenance shops. Remove USTS and ASTS and remove contamination as necessary.

#### Operating Budget Impact

Annual Bond Redemption \$ \$619,155

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. Vehicle wash pads require semi-annual service which costs \$10,000 per site, which is \$70,000 per year for the seven sites. Inspections and training costs are included in C0349-Environmental Compliance Operations.

\$9,108,111 spent and encumbered through February 2017

\$10,147,624 spent and encumbered through February 2016

**Project Status :** Design:

Completed Regulatory Compliance Guide.

Prepared SPCC plans for all required facilities.

Prepared and updated SWPPPs at required facilities.

Conducted environmental compliance assessments of twelve facilities.

Trained staff on SPCC plans, SWPPPs, and handling hazardous wastes.

Prepared County-wide Hazard Communication Policy.

GIS inventory and database ongoing.

Set up hazardous waste collection program for Howard County sites.

Monitored stormwater.

Updated SPCC Plan and SWPPPs for all required facilities.

**Construction:**

Design and installation of vehicle wash pads and rainwater harvesting systems at fire stations and four park shops ongoing.

24 USTs removed.

Removal of leaking underground hydraulic lifts and contaminated soil completed at six sites.

Oil/water separator replacement completed at 7 sites and ongoing at one site.

Underground waste water storage tanks for truck wash pads and oil/water separators designed and installed at two sites.

Truck wash pad and trench drain replacement ongoing at Alpha Ridge Maintenance Shop.

Stormwater protection system installed at Cooksville fueling site.

# Fiscal 2018 Capital Budget

## Project: C0315-FY2009 PUBLIC SAFETY SYSTEM ENHANCEMENTS

# GENERAL COUNTY PROJECTS

Number: C0315

### Description

This project will provide a variety of functionality enhancements for the County's existing Public Safety System. Enhancements will include replacing the paper-based Fire emergency medical reporting system, upgrading the 911 system to the latest technology, and enabling Police field reporting.

### Justification

The project builds on the existing Public Safety System, which is made up of software supporting 911, Police and Fire records, Detention Center management and Police, Fire and Sheriff mobile data computers. The system has been in use since 2001. The enhancements will provide electronic reporting for the Police and Fire Departments. The upgrade is needed to keep the existing systems up to speed with new technology advances.

### Remarks

1. Electronic Fire EMS system complete.
2. Field reporting pilot complete. Decisions pending on future direction.
3. 911 upgrade scheduled for FY14.
4. Legacy incident report conversion to searchable format underway.
5. OTHER represents Pay as you Go generated by Fire Tax.

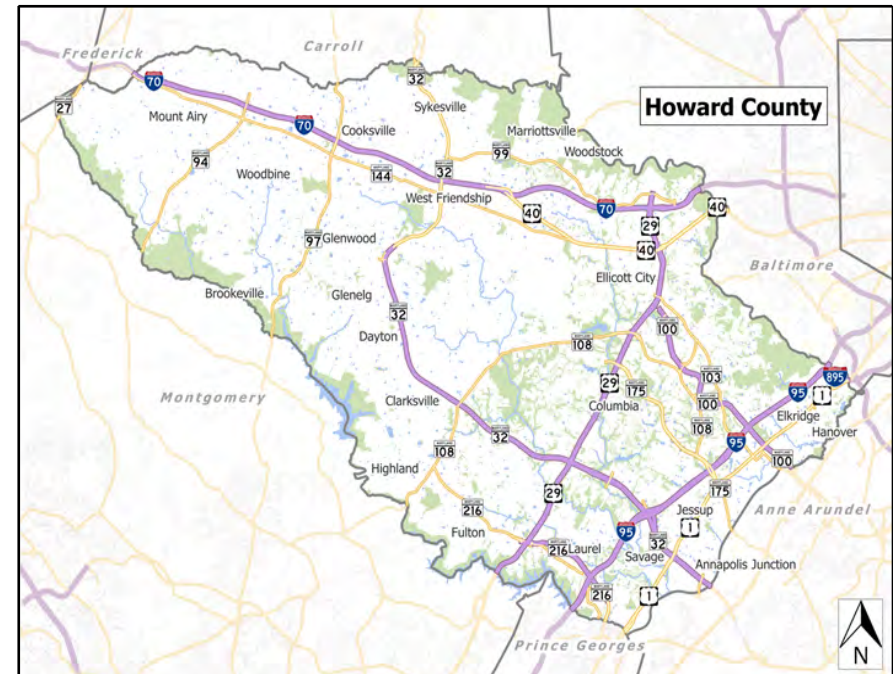

### Project Schedule

FY18 - replace hardware and software for Jail Management System (JMS), replace hardware and software for Fire Management System, upgrade Computer-Aided Dispatch (CAD) hardware, and create and fill a temporary position to assist with all implementations.

### Operating Budget Impact

Annual Bond Redemption \$ \$439,650

This project builds upon existing County computer systems. Any new hardware and software acquisitions will require ongoing maintenance and upgrades.

# Fiscal 2018 Capital Budget

## Project: C0317-FY2013 SYSTEMIC FACILITY IMPROVEMENTS

# GENERAL COUNTY PROJECTS

Number: C0317

### Description

A project to improve or upgrade the physical plant of public buildings, their equipment and systems, to replace plants/systems which have deteriorated beyond routine maintenance or provide for system management initiatives.

### Justification

Building systems that exceeded their useful life, are inefficient, or have deteriorated beyond maintenance standards. Upgrades, replacement, or renovations are necessary to allow Facilities to maintain its' support function.

### Remarks

1. Energy Performance Contract approved by Council Bill #52-2014.
2. Upgrade/improve building infrastructures to meet current facility standards/requirements; to meet changed/expanded/complex missions; to extend facility life expectancy; to improve efficiency, effectiveness and life safety: for roofing systems, window systems, HVAC systems, electrical systems, fire protection systems, energy management & control systems, and for environmental/safety corrections.
3. Prior appropriation restated with the creation of a new funding category of master lease (which used to be included in Other Income in this project).

### Project Schedule

FY18 - Design/Construction - Leased space renovations for Dorsey staff, Deferred Maintenance, Howard Bld. renovations, Leased Space Renovations for Gateway Staff, Leased Space Renovations for CAC and Board of Elections, and Unplanned Renovations and Relocations. Expenditures for New school Maintenance site renovation until new FY18 capital project is effective.  
FY19 - Design/Construction - Deferred Maintenance, Leased Space Renovations for Dorsey Staff, and Unplanned Renovations and Relocations, Annual Interior Painting and Carpet Replacement, Annual Roof Repairs, Annual Exterior Painting and Siding.  
FY20 - Design/Construction, Deferred Maintenance and Unplanned Renovations and Relocations, Annual Interior Painting and Carpet Replacement, Annual Roof Repairs, Annual Exterior Painting and Siding.

### Operating Budget Impact

Annual Bond Redemption \$ \$4,927,185

Will provide future savings as a result of reduced maintenance and energy costs.

## Fiscal 2018 Capital Budget

### Project: C0318-FY2010 MARC SAVAGE STATION GARAGE

## GENERAL COUNTY PROJECTS

Number: C0318

#### Description

A project to fund the construction of a public parking garage adjacent to the MARC Savage Commuter Rail Station located at 9009 Dorsey Run Road, Annapolis Junction.

#### Justification

The construction of a parking garage for commuter rail patrons will permit the transfer of approximately 10.5 acres of surface parking lots owned by the State of Maryland to private ownership and assessment of real property taxes on the multi-use development proposed for the site. The construction of the garage will be funded by the issuance of Tax Increment Financing Bonds. The debt service will be funded by the incremental real property taxes and special district taxes to be collected from the owners of the property and potential BRAC Revitalization and Incentive Zone funds from the State.

#### Remarks

Separate legislation to establish the tax increment financing development and special tax districts and an ordinance to authorize the issuance of the bonds are required for tax increment financing projects.

#### Project Schedule

FY18 - The bond proceeds included Capitalized Interest to fund interest on the debt through the development phase. Project closeout.

#### Operating Budget Impact

Tax Increment Financing Bonds are not a general obligation of the County.

## Project: C0319-FY2010 TAX INCREMENT FINANCING PROJECTS

# GENERAL COUNTY PROJECTS

Number: C0319

### Description

A project for funding of tax increment financing projects.

### Justification

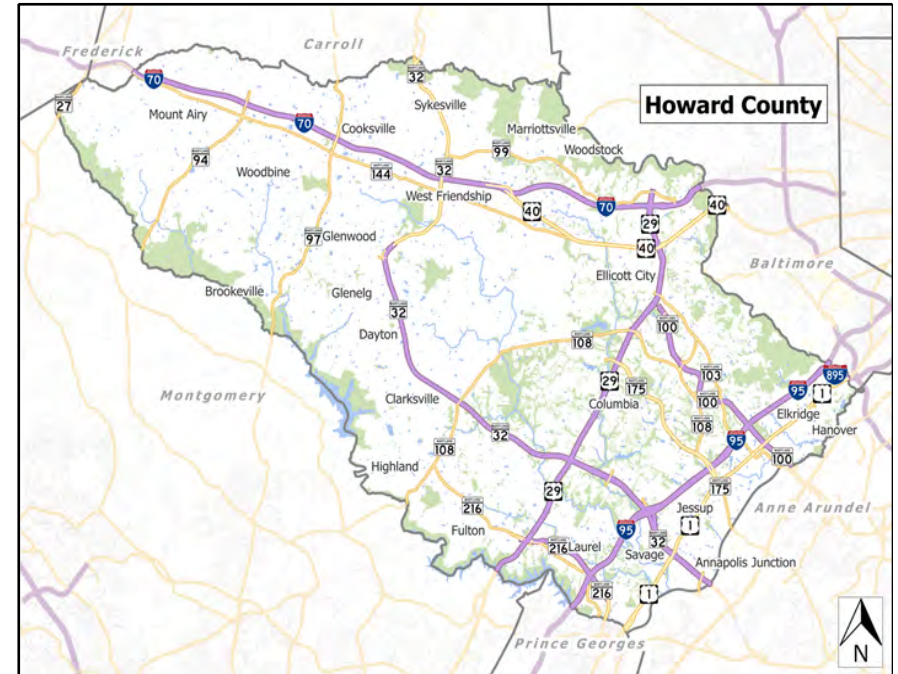

TIF Bonds of up to \$90 million will be sold to enable construction of a public parking garage and other public improvements in the Cresent Special Tax Districts. The project also covers potential public improvement needs in other TIF and Special Tax Districts, including possible TIF district in Laurel Park area, subject to developer application, County Executive approval and County Council approval.

### Remarks

1. TIF Bonds project as planned per CB56-2016.

### Project Schedule

2. Budget request represents estimates of:  
\$30,000,000 for Other financing TIF projects  
\$90,000,000 for Downtown Columbia TIF  
FY19-Potential future TIF project phases.

# Fiscal 2018 Capital Budget

# GENERAL COUNTY PROJECTS

## Project: C0322-FY2012 CENTRAL FLEET SYSTEMIC IMPROVEMENTS and FUEL SYSTEM

Number: C0322

### Description

This is a project to fund improvements to the County's fuel storage/dispensing/monitoring systems, and to improve or upgrade the physical plant of Fleet Equipment.

### Justification

These improvements to the County's fuel storage/dispensing/monitoring systems are needed to meet the Maryland Department of Environment (MDE) Code of Maryland Regulations (COMAR) 26.10.03.10A, including installing new above ground fuel storage systems to replace underground units, and technology upgrades to automate the collection and reporting of fuel data to increase the County's ability to manage fuel accountability.

### Remarks

1. Upgrade/replace/improve fuel storage/dispensing/monitoring systems and fleet equipment infrastructures to meet current laws, regulations and standards/requirements; to meet changed/expanded/complex missions; to extend equipment life expectancy; to improve efficiency, effectiveness and life safety; and for environmental/safety corrections.
2. OTHER revenue represents central fleet funding.

### Project Schedule

FY18/FY19 - Construction of Corridor Rd Shop and Safety Complex.

FY19 - Design Cookesville AST.

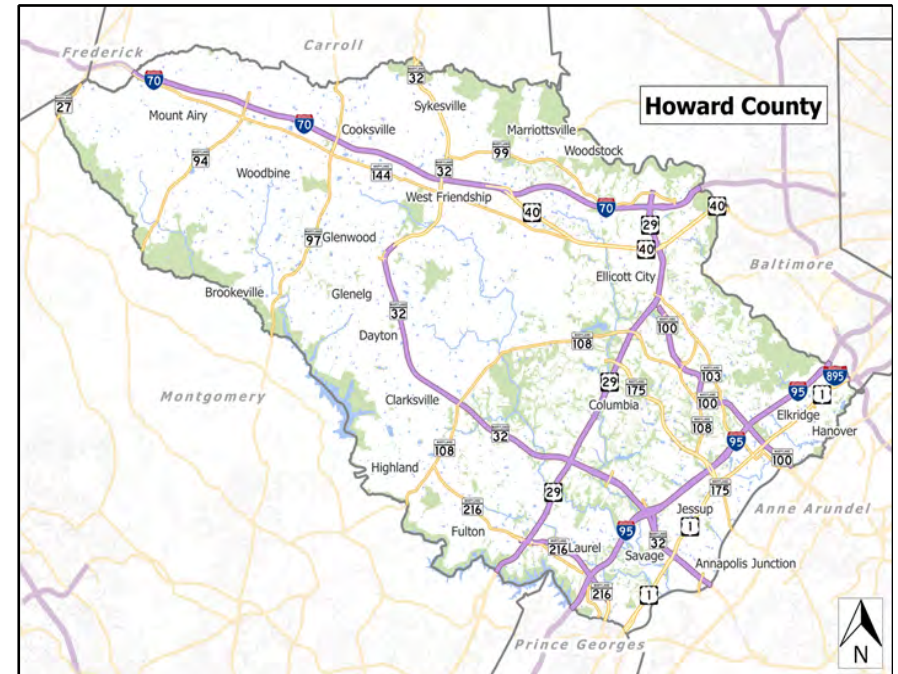

FY20 - Design Utilities Vault, Construct Ridge Rd TD, Construct Cookesville AST, Complete Safety Complex.

FY21 - Construct Banneker FS7 AST, Remove Banneker UST, Project Close Out.

### Operating Budget Impact

Annual Bond Redemption \$ \$198,945

Bureau of Facilities O&M and annual inspections and testing will increase by approx \$20,000.

## Project: C0323-FY2011 BUS/VEHICLE ACQUISITION

# GENERAL COUNTY PROJECTS

Number: C0323

### Description

A project for the purchase of fixed route and paratransit vehicles for the Howard Transit and HT Ride systems respectively. Project includes the purchase of necessary equipment for the operation of the fixed route and paratransit buses.

### Justification

The continued replacement of transit buses with diesel/electric hybrid buses enables the fixed route and paratransit systems to replace obsolete buses with reliable, energy efficient models. Federal and State grant funds support a portion of the cost of the vehicles.

### Remarks

The purchase of hybrid buses is based on need to replace equipment after its useful life has been achieved and to advance County goals for energy efficiency and environmental protection.

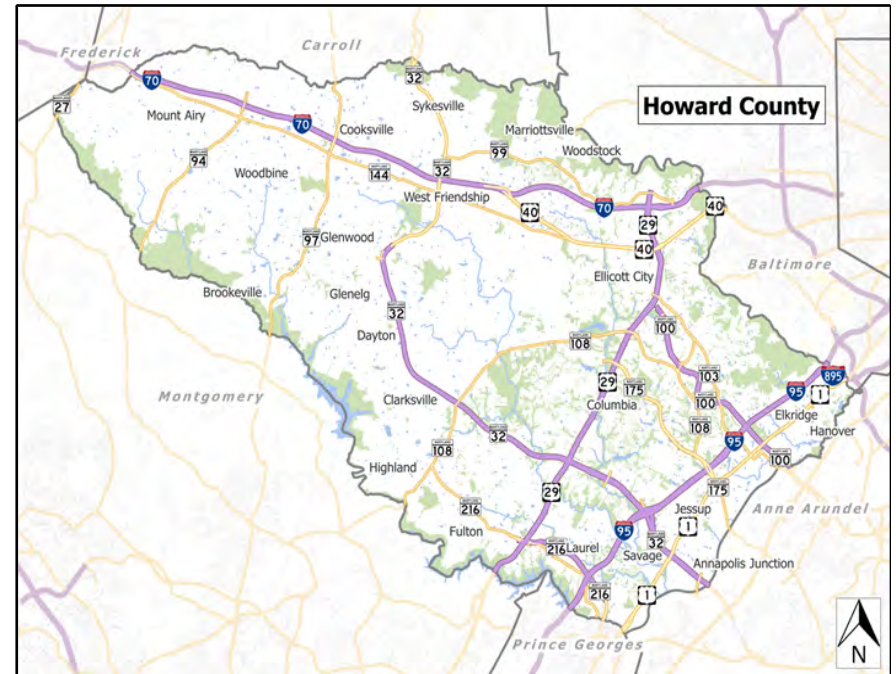

1. Federal American Recovery and Reinvestment Act (ARRA) funds cover all purchases scheduled for FY10.
2. FY11 thru FY15 requests are based on a five-year Transportation Development Plan. Federal/State grant funds are requested annually.

### Project Schedule

FY16 - Project to be completed and closed.

### Operating Budget Impact

This project continues the funding for transit vehicles to support the Howard Transit and HT Ride systems.

# Fiscal 2018 Capital Budget

# GENERAL COUNTY PROJECTS

## Project: C0324-FY2012 GEODETIC NETWORK AUTOMATION

Number: C0324

### Description

A project to purchase survey global positioning system (GPS) and digital survey equipment. To allow the County to take full advantage of the federal and international network of 120 satellites. To use existing County Geodetic Control Network for incident and small scale mapping.

### Justification

Existing County equipment is over 20 years old and cannot utilize the full GPS network of 120 satellites. The supporting software for the existing equipment is in a format that is not supported by the manufacturer and current Howard County computers. This equipment is used to maintain the Howard County Geodetic Network of 1200 monuments. This network loses 20% of its monumentation each year and this equipment is used to replace that lose. The equipment and this network are used in every water, sewer, storm drain, park, building, site related capital project County wide and mapping for any general or homeland defense incidents.

### Remarks

1. The County presently must maintain 1,200 Geodetic Control Network Monuments (Horizontal and Vertical). 20% must be re-established each year.
2. Upgrading the existing GPS and survey equipment will shorten field observation time by 50% enabling manpower to focus on additional projects.
3. Upgrading the existing GPS and survey equipment will allow the use of modern software that is compatible with current Howard County computers and communication network.
4. To purchase equipment to allow the Department of Public Works to be able to have incident and small scale mapping capabilities.
5. Upgrade computers and software to process point clouds.

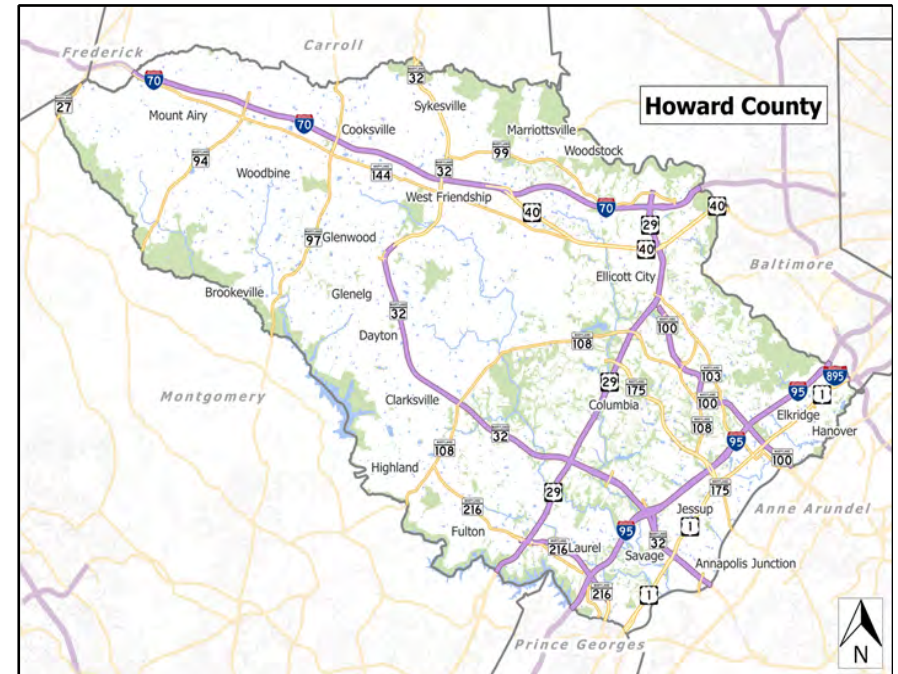

### Project Schedule

FY18 - Purchase mapping and point cloud software.

### Operating Budget Impact

Annual Bond Redemption \$ \$7,650

No impact for five (5) years as maintenance, software and training provided under initial purchase.

# Fiscal 2018 Capital Budget

## Project: C0325-FY2013 BUS/VEHICLE ACQUISITION

# GENERAL COUNTY PROJECTS

Number: C0325

### Description

A project for the purchase of fixed route and paratransit vehicles for the Howard Transit and HT Ride systems respectively. Project includes the purchase of necessary equipment for the operation of the fixed route and paratransit buses for FY 2013.

### Justification

The continued replacement of transit buses with diesel/electric hybrid buses enables the fixed route and paratransit systems to continue the replacement of buses that are beyond their useful life. It is anticipated that Federal and State grant funds will support a portion of the cost of the vehicles.

### Remarks

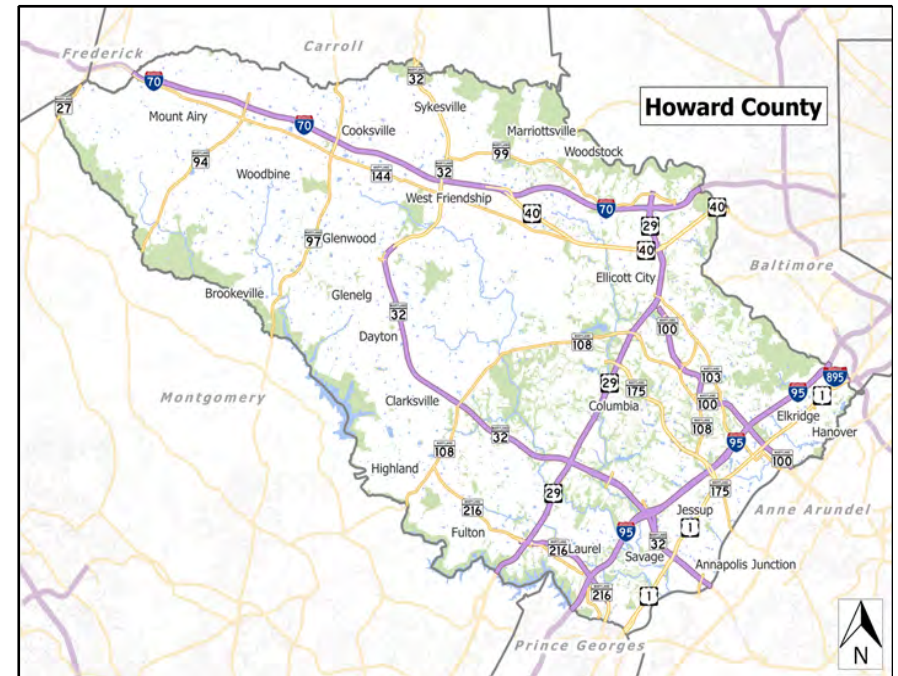

The purchase of hybrid buses is based on the need to replace equipment after its useful life has been achieved. The purchase of hybrid vehicles meets Howard County's goals for energy efficiency and environmental protection.

1. Congestion Mitigation Air Quality (CMAQ) grant to purchase four (4) hybrid sedans and one (1) paratransit bus. This grant covers the hybridization portion of the purchase of the vehicles. The base costs are covered through County funds.
2. Annual Preventive Maintenance (PM) grant of \$150,000 from the MTA for maintenance efforts on current Howard Transit fixed route and paratransit vehicles.

In FY 2014, grant funds have been reduced to the level that was actually received in the grant agreements from the MTA. Plans and Engineering appropriation for the study, design and development of the recharging station for the electric bus project have been added.

### Project Schedule

- FY17 - Financial adjustment.
- FY18 Reconcile and close project.

# Fiscal 2018 Capital Budget

# GENERAL COUNTY PROJECTS

## Project: C0327-FY2013 ENTERPRISE CONTENT MANAGEMENT (ECM)

Number: C0327

### Description

The ECM will remove critical strain from the existing email system and replace our outdated records management system. Improved functionality includes enterprise archive, search and legal discovery/hold. Records management and archive functionality will be extended to enterprise systems like email, file shares, SharePoint and CRM.

### Justification

The new system will solve a number of existing problems. The County's email system is severely strained. Without changes, it will fail. Unstructured data in other enterprise systems is largely unmanaged. Users spend large amounts of time searching for documents and County official records are easily lost. Existing eDiscovery processes are time intensive and subject to error. Once fully implemented in FY 2017, ECM will require a level of sustained system management and support in the outlying 5 years for the current 3 environments of Production, Training, and Development.

### Remarks

Most County departments are live in the ECM system as of the end of FY 2016. Email management functions are in place removing strain from the County's email system. Federated Search has streamlined legal discovery searching for electronic documents.

### Project Schedule

FY18 - Planned completion of migration of legacy documents and staff training; project will be completed and closed.

### Operating Budget Impact

Annual Bond Redemption \$ \$33,750

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~New hardware and software will require ongoing maintenance and upgrades.

Difference 2017 / 2018	0	0	<b>0</b>	0	0	0	0	0	<b>0</b>	0	0	0	0	<b>0</b>

### Description

A project for the purchase, upgrade, and maintenance of Automatic Vehicle Locator System and Automatic Passenger Counter System to be utilized on all buses servicing Howard County

### Justification

The purchase and replacement of Automatic Vehicle Locator (AVL) Bus Stop Annunciator provides for operating a real-time mapping and location system for its fixed-route system and ADA compliance by having prerecorded messages announcing bus stops on fixed route systems.

The purchase and replacement of Automatic Passenger Counters (APC) provides for separation of ADA/General Paratransit authorization cards with picture ID and ability to preload fare for trips and taxi voucher program.

### Remarks

The purchase of Automatic Vehicle Locator (AVL) and Automatic Passenger Counter (APC) is based on the need to purchase, upgrade, replace equipment after its useful life has been achieved.

Equipment brings Howard County buses into modern age of most transit systems as well as ADA compliance.

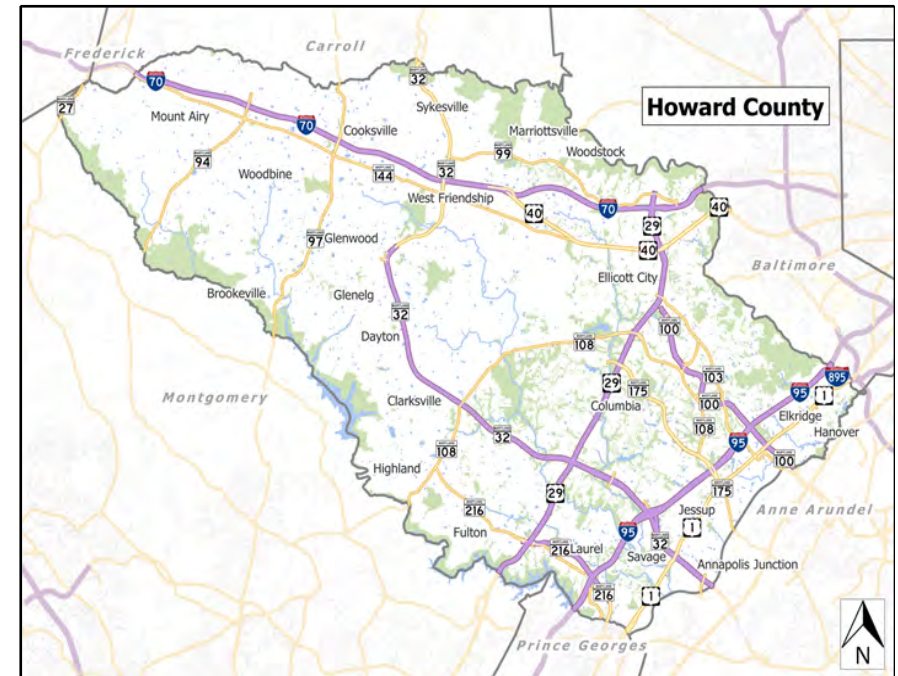

In order to have an effective system of predicting next arrivals for customers, allow dispatchers to effectively monitor the system, and collect accurate boarding and alighting data, the vast majority of the fleet must be outfitted with functional equipment.

In addition, such a system would support improvements for customers such as digital maps at large stations such as The Mall in Columbia, so that even customers without smart phones could see where arriving buses were located. These maps are currently in use in surrounding jurisdictions, and are seen as a great benefit by customers.

### Project Schedule

FY16 û Release Request for Proposals

FY17 û Purchase, upgrade AVL/APC systems

# Fiscal 2018 Capital Budget

## Project: C0329-FY2012 ENERGY MANAGEMENT/IMPROVEMENTS

# GENERAL COUNTY PROJECTS

Number: C0329

### Description

A project to develop a 5-10 year business plan for energy performance optimization. This project allows the county to inventory and assess its facilities for the feasibility of energy improvements, especially those improvements that can be supported by rebates and incentives. Both current and alternative energy solutions will be considered for life-cycle cost-effectiveness.

### Justification

This project supports the County's commitment to energy savings and environmental performance. It will allow the county to effectively pursue external energy-related rebates, incentives, demand response, and similar support as these become available. External support for energy improvements usually requires some matching commitment from recipients in the form of capital or analysis. This project will fund those potential matches. It will also support a program for scheduling of infrastructure replacement to minimize the future energy costs of all county operations.

### Remarks

1. The funding for this will provide direction for decision making as it applies to energy use for public buildings, utilities, transportation, County and public works operations.
2. Initiate studies will be: Assessments of HVAC systems for B & O Museum, Northern District, Cedar Lane Park West and Detention center Intake Area; Assessment of Detention Center for improvements of Facility Exterior Lighting.

### Project Schedule

FY18 - Implement study/analysis recommendations

### Operating Budget Impact

Annual Bond Redemption \$ \$11,250

### Description

A project to plan, design and implement a set of improvements to publicly owned land currently designated as Lot D in Ellicott City. Funding will be utilized to improve and expand storm water management, to alter the traffic flow and movement and to more fully expose the Tiber-Hudson River as an amenity and natural resource.

### Justification

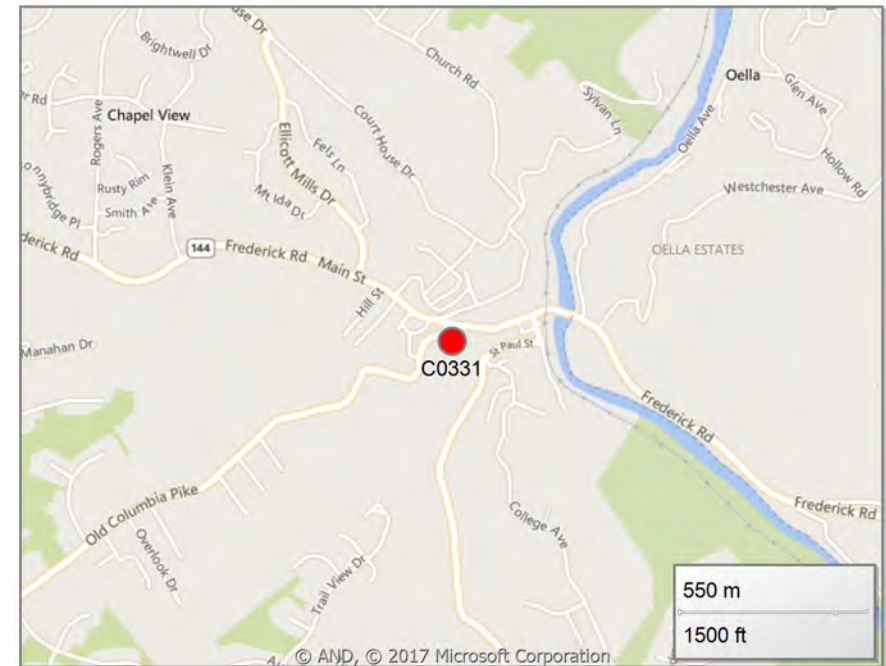

The County's Watershed Implementation Plan requires a substantial reduction in the pollutants that enter the Patapsco River and the Chesapeake Bay. The extensive impervious surface in Ellicott City requires greater stormwater management in order to control pollution runoff from its parking lots. The Tiber-Hudson is currently channelized through the lot, but has the potential to be improved as a natural and visual amenity and public gathering place. The parking lot is not efficient and egress to Main Street has limited sight distance. Public funds will be used to address and better control stormwater runoff, to create a public amenity space for the community and to improve the parking on the County-owned lot.

### Remarks

1. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.
2. Additional funding may be available through the State.

### Project Schedule

FY18 - Design for opening of the river and addition of water quality treatment.

# Fiscal 2018 Capital Budget

## Project: C0332-FY2014 BUS STOP IMPROVEMENTS

# GENERAL COUNTY PROJECTS

Number: C0332

### Description

A project to implement a series of systemic improvements to Howard Transit bus stops. These improvements may include the installation of bus shelters, concrete pads, bus stop signs, connecting sidewalks, curb cuts (consistent with ADA requirements), crosswalks, route map holders and other improvements. The Office of Transportation, in conjunction with the Department of Planning and Zoning, will determine the location and extent of these improvements.

### Justification

A field survey of the Regional Transportation Agency (RTA) bus stops indicates that these improvements are needed for passenger access, safety, and comfort as well as to conform with ADA guidelines. The proposed improvements also seek to increase ridership on the local system by making stops more accessible and convenient.

### Remarks

1. Installation of these improvements will comply with the Americans with Disabilities Act (ADA) regulations.
2. Grant funding through the Maryland Transit Administration for capital improvements is included in the budget.

### Project Schedule

- FY17 - Identification of locations and construction of bus stop improvements.  
FY18 - Construction and Rehabilitation of bus stops.

### Operating Budget Impact

Annual Bond Redemption \$ \$10,800

# Fiscal 2018 Capital Budget

## Project: C0333-FY2015 DETENTION CENTER RENOVATIONS

# GENERAL COUNTY PROJECTS

Number: C0333

### Description

The Department of Corrections currently is facing severe challenges and regulatory mandates that must be resolved through the renovation and expansion of the Detention Center.

### Justification

1. The current medical unit lacks sufficient space to meet its operational needs and comply with HIPPA and PREA statutes.
2. The Federal Prison Rape Elimination Act (PREA) requires housing for juveniles charged as adults to be housed separately by sight and sound from adults.
3. The current intake/discharge area was built in 1982 and way beyond capacity, creating significant security & staff efficiency problems.
4. The current maximum security housing area is at maximum capacity and needs to be in close proximity to the intake/discharge area.
5. The Center's disciplinary segregation unit is not of the size or construction to safely & securely provide the necessary isolation and separation.
6. The Center's existing Control Center components & locking systems are antiquated relative to today's security requirements, and are falling apart.
7. Additionally, the existing Administrative area does not provide the effective space for the Center.

### Remarks

1. A/E selection complete, master planning effort started in FY16.
2. Funding in prior fiscal years will allow completion of critical renovation work while identifying the long term requirements. A preliminary Draft Master Plan has been completed for the 20 year need of the Department of Corrections. Preliminary estimates are reflected in the budget. As the Master Plan is developed and adopted the Bureau of Facilities and the Department of Corrections may make adjustments to the funding requests in future years.

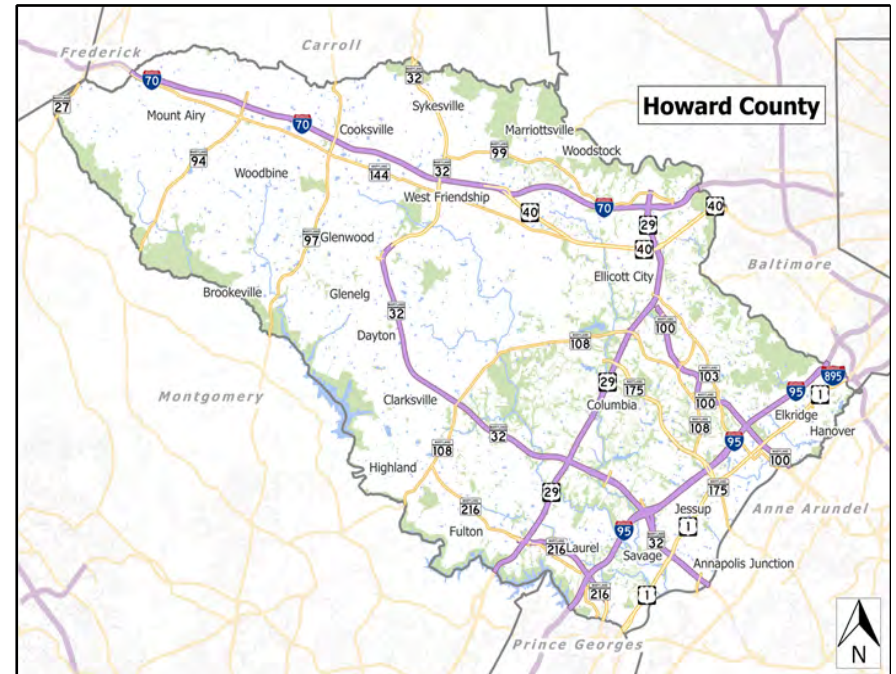

### Project Schedule

- FY18 - Design of new Detention Center.
- FY19 - Site work for new Detention Center.
- FY20 - Award Construction of Detention Center.
- FY21 - Complete Construction.
- FY22 - Install FFE and Complete Commissioning.

### Operating Budget Impact

Annual Bond Redemption \$ \$3,431,655

Bur of Fac sees no additional impact in FY17. Earliest operating impact will be FY18.

# Fiscal 2018 Capital Budget

## Project: C0334-FY2014 EMERGENCY ALTERNATIVE POWER

# GENERAL COUNTY PROJECTS

Number: C0334

### Description

Relative to County facilities, implement a program to ensure continuity of operations in County facilities for purposes relative to essential functions during various emergency scenarios and make the necessary hardware modifications. Project changes may be undertaken based on lessons learned in actual or exercise scenarios.

### Justification

Analyses of the County's ability to continue essential functions and deliver needed emergency services during major weather events has indicated the need for more emergency generation and/or emergency power generation connection capabilities for County facilities.

### Remarks

1. GRANT represents FEMA mitigation grant awarded July 2015 and federal and or state funding sought to maximize County funding.
2. Construction will be phased.
3. Request represents program advancement.

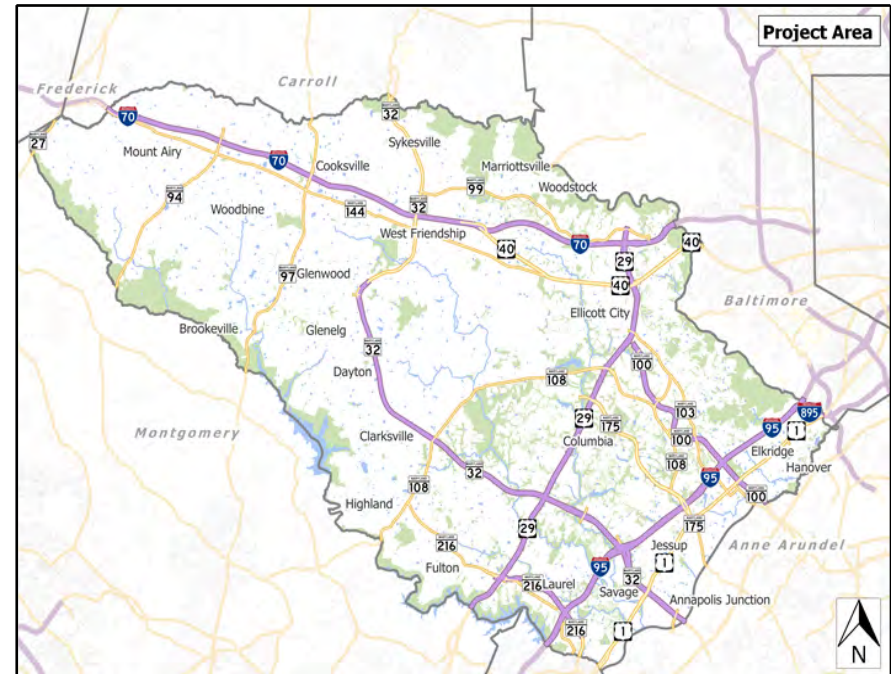

### Project Schedule

FY18 - Continue to implement upgrades until funds are fully utilized.

### Operating Budget Impact

Annual Bond Redemption \$ \$45,000

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

## Project: C0335-FY2014 COMMUNITY RESOURCES and SERVICES FACILITY/PROGRAM ENHANCEMENTS

Number: C0335

### Description

A project to determine the additional facility needs for the Department of Community Resources and Services (DCRS). This is to include Senior Centers, Senior Center Plus sites and space needs for other departmental programming.

### Justification

Existing Senior Centers/Senior+ Facilities are not adequate to support the tremendously increasing demand for such services/facilities, nor are the existing facilities necessarily located to effectively service all the expanding aging population. We need to develop a master plan to define how we can best serve this growing segment of the County population. In order to prepare for plan development, we will conduct a comprehensive needs assessment to determine community needs and identify gaps in existing services.

### Remarks

Master Plan is complete. Next step is the identification for a site for a new 50+ Center. Additional funds are requested in FY18 to make immediate repairs and improvements to the Florence Bain Senior Center, the most actively used senior center in the County. Those improvements include a small addition to house a fitness room, upgrades to building HVAC, installation of perimeter lighting and other minor interior improvements.

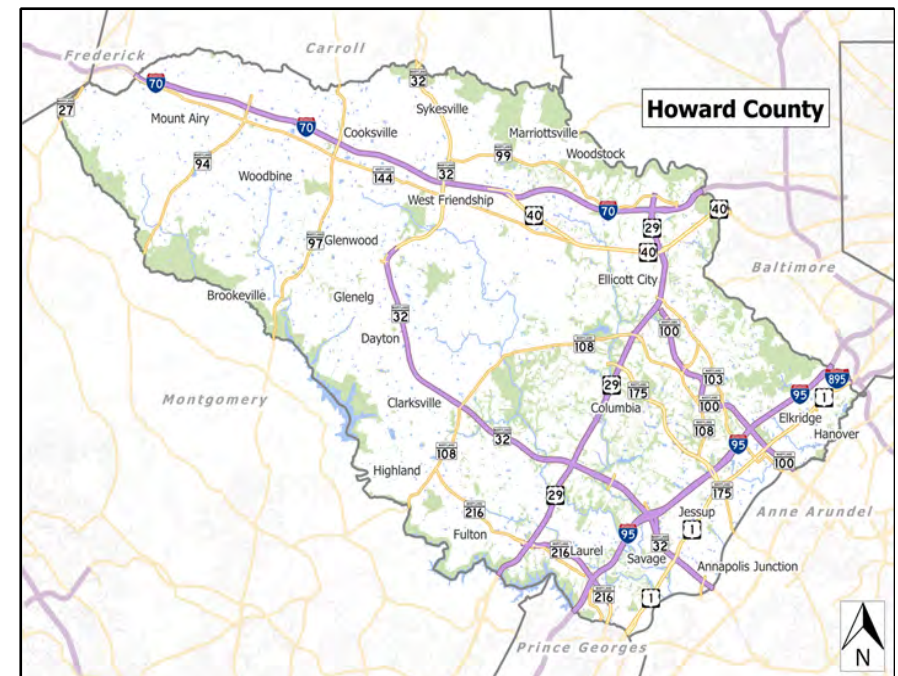

### Project Schedule

FY18- Request represents renovation of 50+ Center at East Columbia Library. Complete POR for New 50+ Center.  
FY19- Design and Renovation of Bain Center, Design of New 50+ Center.  
FY20 - Land Acquisition for New 50+ Center.  
FY21- Construct New 50+ Center.  
FY22 - Furniture, Fixtures and Equipment for New 50+ Center. Project Close Out.

### Operating Budget Impact

Annual Bond Redemption \$ \$729,000

Bureau of Facilities sees no impact to FY17 operating budget.

## Project: C0336-FY2014 LANDFILL RESOURCE MANAGEMENT

# GENERAL COUNTY PROJECTS

Number: C0336

### Description

A project for the design and construction of resource improvements at the Alpha Ridge Landfill and Resident's Recycling and Demonstration Center. The project will include implementing improvements to existing facilities within the landfill and Recycling Center using renewable and sustainable technologies; seek improvements at the Recycling Center in handling material recovery and reuse; and address storm water quality and watershed improvements in accordance with the latest National Pollutant Discharge Elimination System (NPDES) Industrial permit requirements.

### Justification

The project will aide in meeting the NPDES and Municipal Separate Storm Sewer System (MS4) requirements at Alpha Ridge Landfill, reduce operating costs, and increase public awareness of improved storm water quality techniques and renewable/sustainable technologies.

### Remarks

1. Projects directly related to municipal solid waste activities are funded under C-0299.

### Project Schedule

FY17 - Monitor wildlife projects.

### Operating Budget Impact

Annual Bond Redemption \$ \$18,000

## Project: C0337-FY2014 ELLICOTT CITY IMPROVEMENTS and ENHANCEMENTS

Number: C0337

### Description

This is a project to provide a variety of repairs and improvements to public infrastructure and address other community improvements and to make improvements to the downtown and historic district of the Howard County Seat. This project may include land acquisition for water quality and drainage needs and other public improvements.

### Justification

Community has requested improvements to the downtown Ellicott City area.

### Remarks

1. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.
2. Construction of some projects may be dependent upon donation of the necessary easements and/or resident cost share participation.
3. TAO #3 - 2014 current pending legislation will add \$100,000 grant funding for Ellicott City Streetscape program.
4. Construction of some projects may be dependent on the donation of the necessary easements and/or property owner cost share participation. OTHER revenue represents homeowner contribution.
4. GRANT represents anticipated FEMA funding for Ellicott City.

### Project Schedule

FY18 - Continue work to repair failing stream retaining walls and repair damage from July 2016 storm.

### Operating Budget Impact

Annual Bond Redemption \$ \$139,500

# Fiscal 2018 Capital Budget

## Project: C0338-FY2015 BROADBAND INSTALLATIONS

# GENERAL COUNTY PROJECTS

Number: C0338

### Description

The Broadband Installation project will improve the fiber installed through the ICBN grant and extend services to various organizations including adding additional county facilities to our fiber network. This will also be used for the equipment inside the building to light the fiber and provide services.

### Justification

This is to help reduce overall leased line costs as well as provide equipment refreshes to support higher network speeds that are being requested.

### Remarks

1. Build out and infrastructure upgrades continue through fiscal year.
2. Fiber build out of laterals and backbone will also continue throughout fiscal year.

### Project Schedule

Completion of infrastructure upgrades and continued expansion of fiber network .  
Project is to be ongoing as need and demand exists.

# Fiscal 2018 Capital Budget

## Project: C0341-FY2015 TOWER GENERATOR REPLACEMENTS

# GENERAL COUNTY PROJECTS

Number: C0341

### Description

This project will allow the County to design, build and operate diesel generators at all County Radio and Water Tower sites. A recent FCC ruling requires all cell phone carriers to have power backup for 8 hours for all cellular devices. This project will allow the County to provide the required generators and bill the carriers for this service. This will eliminate the need for each carrier to provide its own power backup. This capital project will reduce the number of generators located at each site, as well as the corresponding noise and environmental impacts. Moreover, security concerns can be better managed using this model.

### Justification

This project will allow the County to better manage its radio and tower sites subject to the new FCC ruling. It will also allow the County to be reimbursed for this service through billings to its vendors.

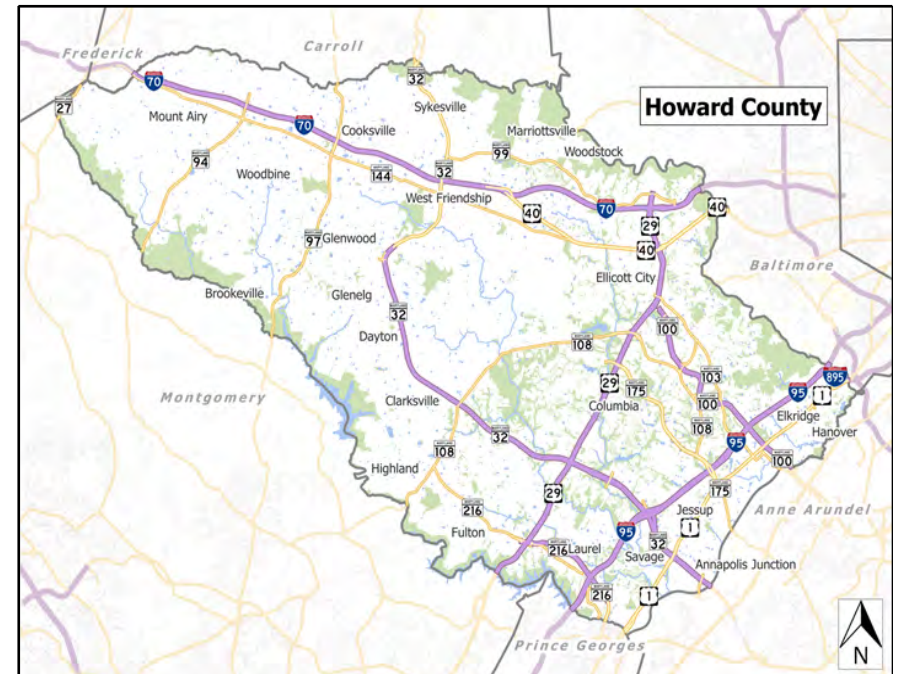

### Remarks

OTHER revenues are generated from incoming matching revenues.

### Project Schedule

FY15 - Construction

FY16 - Complete and Close

# Fiscal 2018 Capital Budget

## Project: C0342-FY2019 CLARKSVILLE PARKING GARAGE

# GENERAL COUNTY PROJECTS

Number: C0342

### Description

This project is for the design, construction and construction management of a parking garage on Clarksville Pike, Clarksville Maryland. The parking garage will be located on an existing surface parking lot on the corner of Route 108 and Signal Bell Lane adjacent to the Ten Oaks Ballroom and Fifth District Volunteer Fire Department. As part of this project, Signal Bell Lane will be widened and ADA access will be upgraded to current standards. The garage will be a precast concrete structure.

### Justification

The existing surface parking lot reaches capacity due to the use by commuters and people attending the Ten Oaks Ballroom. The existing parking patterns of the Ten Oaks Ballroom parking lot have reached capacity when commuter parking including bus passengers, individual park and ride carpools, and commercial vanpools are at the site during a moderate ballroom event.

### Remarks

A Study dated September 2015 documents existing and latent parking demand at the parking lot, identifies alternatives to provide additional parking accommodations, summarizes the projected traffic impacts associated with the proposed expansion of the parking facility, and evaluates roadway improvements to mitigate adverse traffic impacts.

### Project Schedule

- FY19 - Start design
- FY20 - Complete design/start construction
- FY21 - Complete construction

### Operating Budget Impact

Annual Bond Redemption \$ \$248,625

## Project: C0343-FY2016 SALT STORAGE FACILITY

# GENERAL COUNTY PROJECTS

Number: C0343

### Description

This project will provide for the storage of salt and liquid de-icing material for the winter season. A second salt storage facility is required to meet County needs.

### Justification

This project will provide additional needed storage capacity and will be centrally located to increase the efficiency of Highways snow removal operations.

### Remarks

Location of salt dome selected. Type of Dome Selected.

### Project Schedule

FY19 - Design Second Salt Storage Facility.

FY20 - Construction of Second Salt Storage Facility.

### Operating Budget Impact

Annual Bond Redemption \$ \$104,400

Bureau of Facilities estimates the annual impact in FY17 and beyond to O&M and utilities at \$10,000.

# Fiscal 2018 Capital Budget

# GENERAL COUNTY PROJECTS

## Project: C0344-FY2016 SOUTHEAST INFRASTRUCTURE IMPROVEMENTS

Number: C0344

### Description

A project to plan, design and construct a series of infrastructure improvements targeted within the southeast area of the US1 corridor. Projects will advance community, economic and environmental sustainability goals. Infrastructure includes storm water management, sidewalk and biking facilities, transit and community open space.

### Justification

PlanHoward 2030 calls for the enhancement of established communities through sustainability and strategic public infrastructure investments. The project will target public funds in locations where additional infrastructure has been identified by the community and which promotes efficient use through multi-benefit returns on investment. The southeast area consists of the North Laurel - Savage communities which received State Sustainable Community designation in 2013. The designation allows the County to leverage State funding for more efficient and effective delivery of resources.

### Remarks

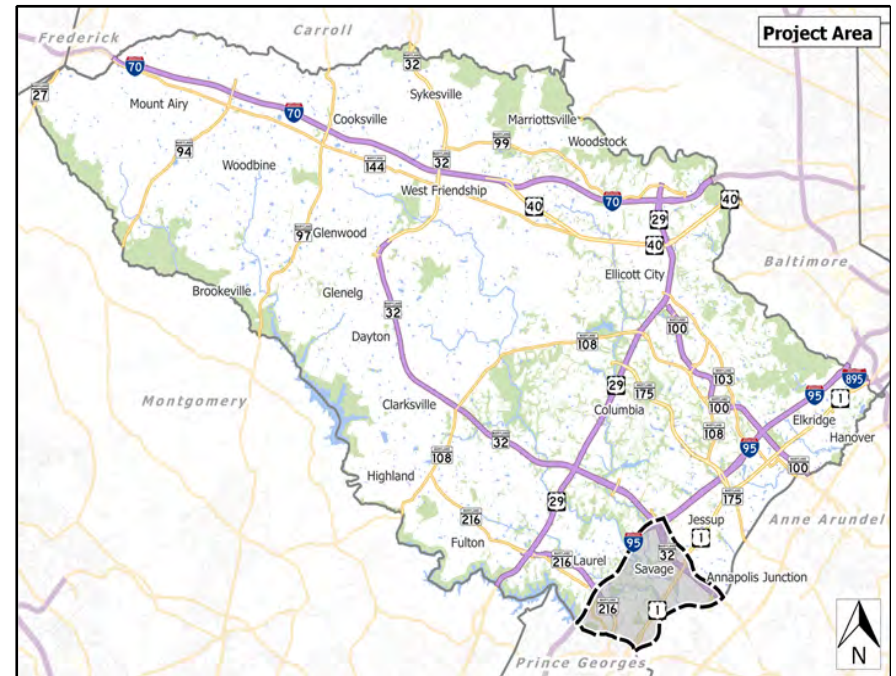

1. A sustainable community plan has been prepared for the North Laurel-Savage community which provides a basis for implementing infrastructure improvements.
2. Public easements on private property may be needed to advance improvements.
3. OTHER: Developer Contribution relating to CB2-2016.

### Project Schedule

FY18 - If funding is available; Planning, design and construction of identified improvements.

### Operating Budget Impact

Annual Bond Redemption \$ \$13,500

# Fiscal 2018 Capital Budget

## Project: C0346-FY2017 DAYTON ADMINISTRATION BUILDING

# GENERAL COUNTY PROJECTS

Number: C0346

### Description

This project will provide for the replacement of an aging trailer currently used for the Highways Administration functions. It houses eight full-time employees. It has no bathroom facility, no meeting or conference room and no room to expand.

### Justification

This program will address the need for a permanent Administration building for the Bureau. The existing trailer has reached its useful life. The trailer has constant issues with the HVAC, leaking roof/doors/windows. The new building will accommodate a sleeping quarter to be utilized in emergency situations, a conference room, a DOC room and a restroom with showers for the staff.

### Remarks

Project encompassed by C0348 Modernization of Fleet and Highway Shops.

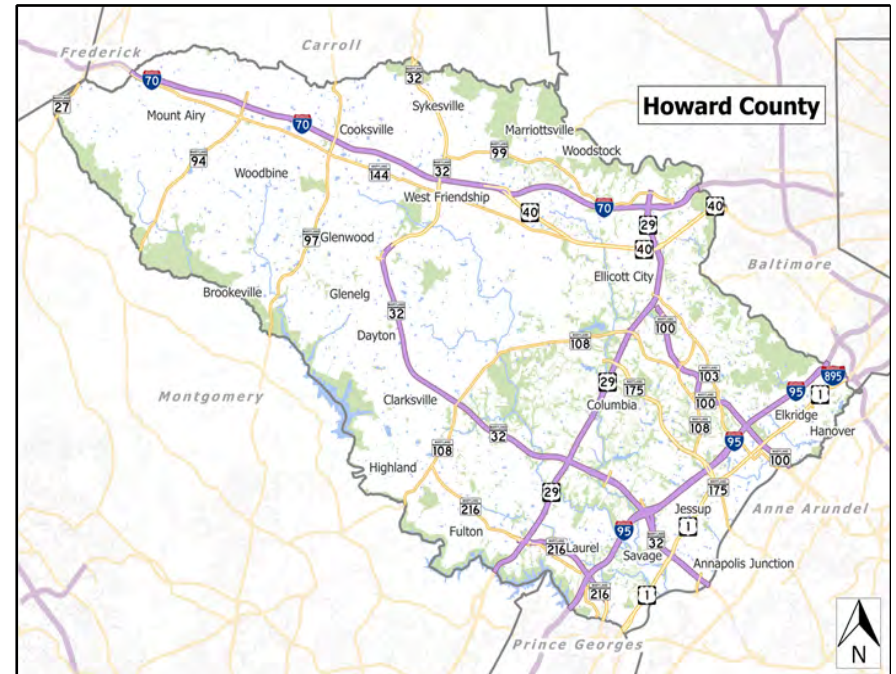

### Project Schedule

FY18 - Defund and close.

### Operating Budget Impact

Annual Bond Redemption \$ \$45,000

Bureau of Facilities sees no impact to budget in FY17, earliest impact to budget would be FY18.

## Project: C0348-FY2017 MODERNIZATION OF FLEET AND HIGHWAYS SHOPS

Number: C0348

### Description

A project for the master planning, design, construction of new facilities and renovation of existing County Fleet and Highways Facilities to modernize the facilities. This project will improve the efficiency of operations, improve the safety of the working conditions for employees and correct a number of site deficiencies.

### Justification

The existing Fleet and Highway facilities have outlived their life. The building systems are inefficient, the building envelopes do not provide adequate insulation, adding to high operating costs and the building envelopes are in need of repair or replacement. The shop buildings can no longer accommodate the staff working on the vehicles. The administration buildings are mostly portable trailers that were placed throughout the years with any type of site master plan gradually restricting access and maneuverability on the site making operations inefficient for the Highways staff. The disjointed administration facilities do not lend themselves to a collaborative work environment reducing operational and managerial efficiencies. Bunk rooms and adequate showers are not present on many of the sites, causing additional expense to the County for any weather related emergency.

### Remarks

1. Funding requested in FY17 for planning, design and emergency repairs.
2. Consolidate with C0346 funding.

### Project Schedule

- FY19 Design and construct new administration building including bunkroom and crew facilities at Mayfield Shop.
- FY20 Design and construct new administration building at Dayton Shop.
- FY22 Design new maintenance bays and ancillary facilities for Mayfield.
- FY23 Construct Mayfield, Plan Cookesville Maintenance.
- FY24 Construct Cookesville.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,876,275

Bur of Facilities estimates the annual impact in FY17 and beyond to O&M and utilities at \$16,000.

## Project: C0349-FY2017 ENVIRONMENTAL COMPLIANCE OPERATIONS

Number: C0349

### Description

A project to support environmental compliance activities for County Facilities. Work may include the study, planning, design and construction of environmental protection and remediation measures.

### Justification

Plans and improvements to comply with Federal/State regulations.

### Remarks

Other money represents escrowed remediation expenses.

### Project Schedule

FY18 - Design: Conduct environmental compliance assessments at multiple facilities. Complete environmental remediation as necessary at current and new properties and remove USTs as necessary. Train staff and conduct stormwater monitoring.

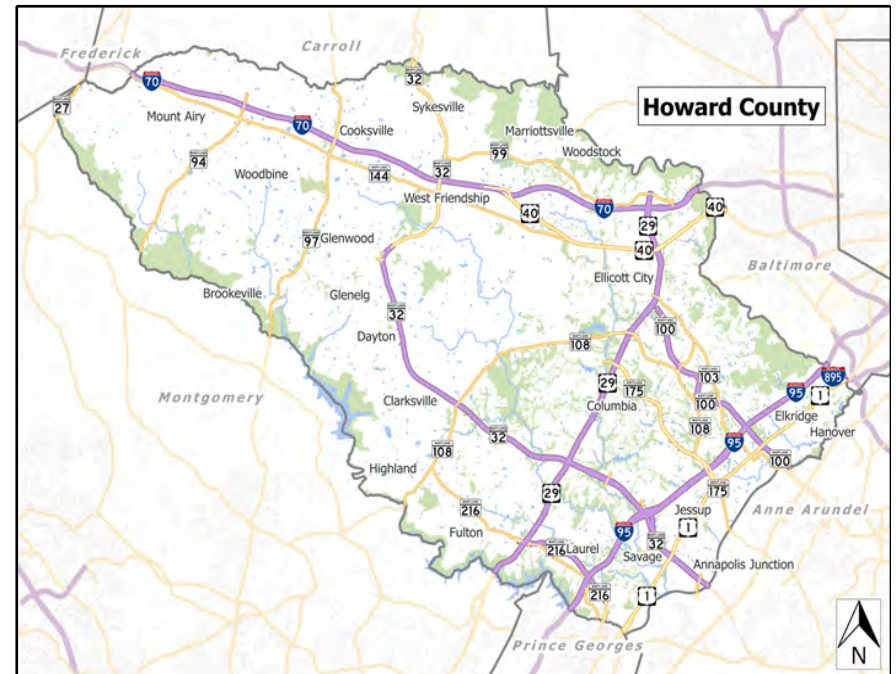

FY19-27 - Design: Conduct environmental compliance assessments of additional facilities. Update every five years. Update SPCC (Spill Prevention Control and Countermeasure) plans every five years.

Construction: Complete environmental remediation as necessary and remove USTs as necessary.

### Operating Budget Impact

Annual Bond Redemption \$ \$104,940

Annual Bond Redemption \$~The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

**Project Status :** Design:

Completed Regulatory Compliance Guide.

Prepared SPCC plans for all required facilities.

Prepared and updated SWPPPs at required facilities.

Conducted environmental compliance assessments of twelve facilities.

Trained staff on SPCC plans, SWPPPs, and handling hazardous wastes.

Prepared County-wide Hazard Communication Policy.

GIS inventory and database ongoing.

Set up hazardous waste collection program for Howard County sites.

Monitored stormwater.

Updated SPCC Plan and SWPPPs for all required facilities.

Construction:

Design and installation of vehicle wash pads and rainwater harvesting systems at fire stations and four park shops ongoing.

24 USTs removed.

Removal of leaking underground hydraulic lifts and contaminated soil completed at six sites.

Oil/water separator replacement completed at 7 sites and ongoing at one site.

Underground waste water storage tanks for truck wash pads and oil/water separators designed and installed at two sites.

Truck wash pad and trench drain replacement ongoing at Alpha Ridge Maintenance Shop.

Stormwater protection system installed at Cooksville fueling site.

# Fiscal 2018 Capital Budget

## Project: C0350-FY2017 NEW BUDGET SYSTEM

# GENERAL COUNTY PROJECTS

Number: C0350

### Description

The Budget Application project has been established to purchase and implement a new budget system for improved efficiencies, transparency and presentation. Phase 1 funding will focus on a feasibility study and provide needed insight into budgeting systems currently on the market that are capable of addressing present and future operating and capital budgeting needs.

### Justification

An enhanced budget application is needed to allow for additional analysis, forecasting, data-driven decision making, and integration with the ERP system. The passing of CB 54-2015 along with the integration of performance management added additional requirements to both the operating and capital budget processes. The incorporation of these changes over the next two fiscal years and the desire for additional transparency makes it even more important to consider the future directions of both the industry and the County. The study in the first stage of the project will enable the County to examine the current needs of its existing budget processes and presentations as well as understand the technologies and functionalities being utilized in other jurisdictions. This process will help control the costs associated with a potential project as it will allow for long-term planning.

### Remarks

1. Future budget will be determined upon completion of Feasibility Study.

### Project Schedule

FY18-Phase 2 - Procurement/Implementation

FY19-Phase 3 û Implementation

### Operating Budget Impact

Annual Bond Redemption \$ \$45,000

## Project: C0351-FY2017 HARRIET TUBMAN REMEDIATION

# GENERAL COUNTY PROJECTS

Number: C0351

### Description

This project will provide for Harriett Tubman High School remediation of hazardous containing material such as ACM, lead, PCB, fuel.

### Justification

Howard County will provide space for the HCPSS Maintenance Shop to relocate from the Harriet Tubman High School. Howard County will decommission the Harriet Tubman High School, remove any hazardous material, and complete renovations prior to transferring the property to the local nonprofit arrangement.

### Remarks

1. GRANT represents FY18 State Bond Bill.

### Project Schedule

FY18- Plans & Engineering.

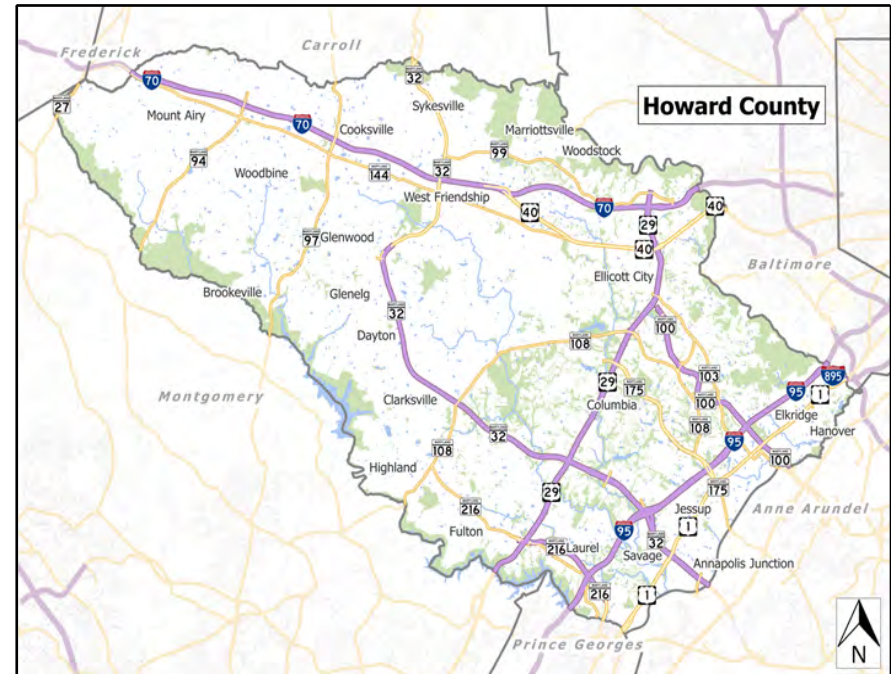

FY19- Remove Hazardous Material, Renovate.

FY20- FFE, Subdivide Property and transfer to nonprofit agency.

### Operating Budget Impact

Annual Bond Redemption \$ \$135,900

Bur of Facilities estimates the annual budget once completed and beyond impact to O&M and utilities at \$100,000.

## GENERAL COUNTY PROJECTS

### Project: C0352-FY2017 SITE ACQUISITION FOR SCHOOL SITES AND ELEVATED WATER STORAGE FACILITIES

Number: C0352

#### Description

This project establishes a fund for school site acquisition that comes available on the market that meets the future needs of the County specifically to serve the Public interest to add or enhance the school system sites for new schools. This shall include title and appraisal reports, surveys, environmental assessments, etc. required for the acquisition of property. The acquisition will be sized for at least two school facilities and compatible recreational facilities. The Project will also be used to acquire the necessary property to design and construct an elevated water storage facility, including site access and pipeline construction.

#### Justification

Allows the County to move quickly on behalf of the school system for parcels that come on the market. Land resources available for development are becoming rare and it is essential that the County have the ability to move quickly to take advantage of opportunities for unique locations that meet the needs of the school system.

#### Remarks

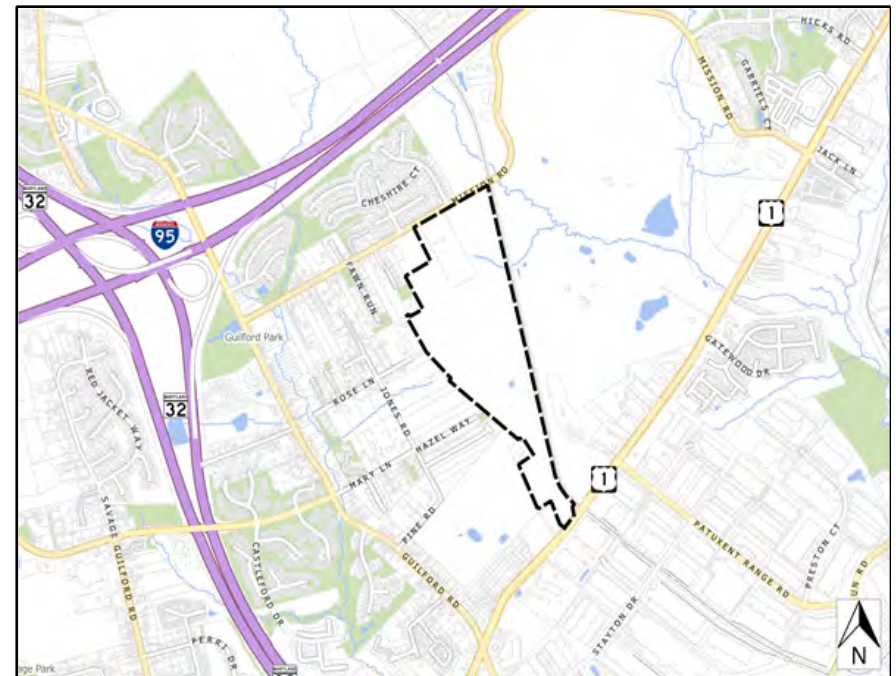

1. The project site is between Route 1 and Mission Road in the Southeast quadrant of the County.
2. The property to be purchased will be graded to its potential ultimate use configuration facilitates the construction of school facilities, the property will also be developed for public recreational purposes. The Board of Education and Recreation and Parks will develop a joint plan for the site that will accommodate school and recreational uses.
3. FY17 Project funds transferred to C0309.
4. OTHER represents property disposition proceeds reflected in CR 125-2014, and 67, 68 & 69-2015.
5. FY18 GRANT represents Program Open Space will be used for a \$2,500,000 portion of the property purchase.

#### Project Schedule

FY18 - Complete site acquisition contract. Rough grading of site underway.

#### Operating Budget Impact

Annual Bond Redemption \$ \$710,000

# Fiscal 2018 Capital Budget

## Project: C0353-FY2019 TRANSIT CENTER

# GENERAL COUNTY PROJECTS

Number: C0353

### Description

A project for site selection, design and construction of a transit center. The center will serve as a hub for existing local and regional transit, including Regional Transit Agency (RTA) and Maryland Transit Administration (MTA) bus services, and bike share as well as future downtown circulator and bus rapid transit services. The center is envisioned as part of mixed-use development including affordable housing.

### Justification

The 2010 Downtown Columbia Plan (pages 43-44) calls for a transit center as part of downtown transportation demand management where passengers could transfer between lines in a comfortable, attractive and interesting environment.

### Remarks

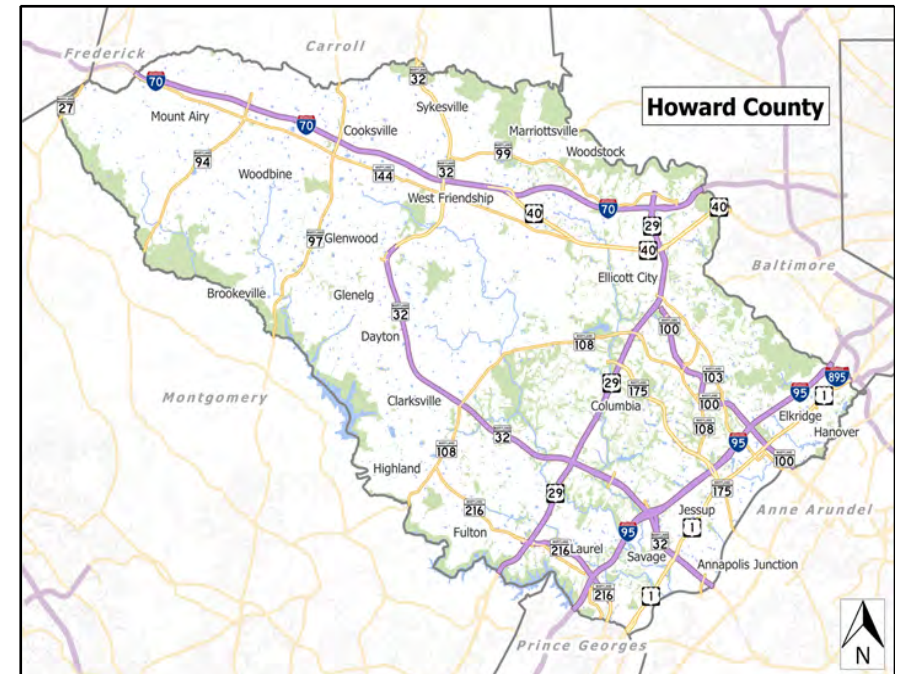

The Downtown Columbia plans Community Enhancements, Programs and Public Amenities (CEPPA) #14 requires the master developer to provide a location at no or nominal cost for a transit center prior to issuance of a building permit for the 1.3M SF of development (anticipated to occur in FY 2017). The Office of Transportation is conducting a feasibility and site selection study in FY 2017.

### Project Schedule

FY2017 Analysis and site selection  
FY 2018 Preliminary Engineering and Design  
FY 2019 Final Engineering and Design  
FY 2020-FY 2022 Construction

### Operating Budget Impact

Zero. Design and construction funding envisioned to come from additional; revenue generated from Tax Increment Financing investment in downtown Columbia.

## Project: C0354-FY2019 BUILDING ACCESS CONTROL AND SECURITY ENHANCEMENTS

Number: C0354

### Description

This project includes design and implementation of new and improved existing electronic security systems at a number of county facilities. Minor building design and construction required to accommodate these systems would also be included.

### Justification

This project will address concerns that security at some county facilities might not be adequate to address possible threats to these facilities.

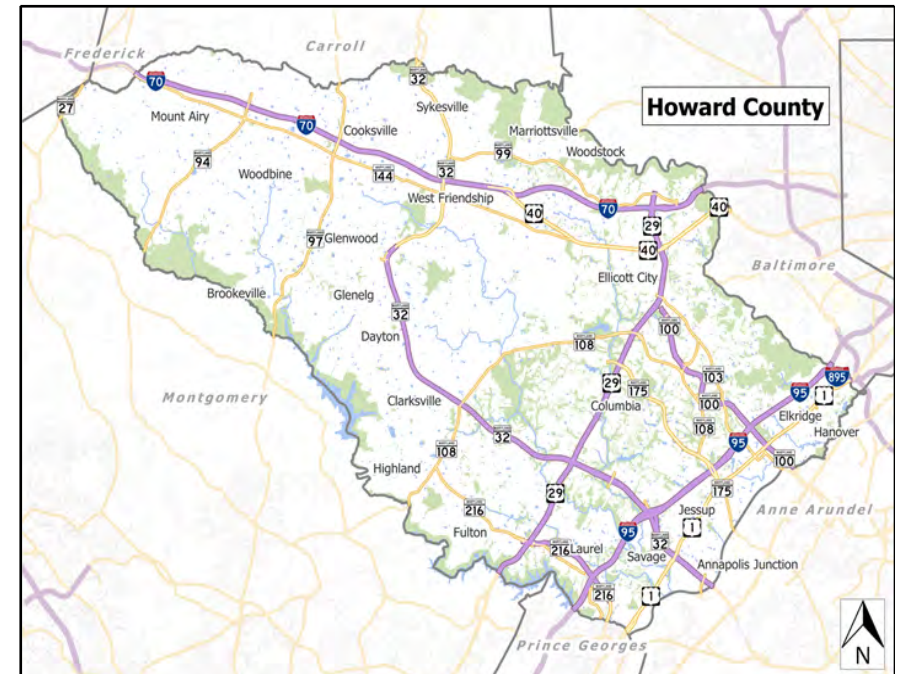

### Remarks

### Project Schedule

FY19 Complete Security Needs Assessments and Design.  
FY20 Installation.

### Operating Budget Impact

Annual Bond Redemption \$ \$45,000

# GENERAL COUNTY PROJECTS

## Project: C0355-FY2018 NEW SCHOOL MAINTENANCE SITE RENOVATION

Number: C0355

### Description

This project will provide space for the HCPSS Maintenance Shop. The project entails site design and construction to add additional parking, as well as design and renovation of the building interior to make it suitable for a variety of maintenance operations

### Justification

The Harriet Tubman building, current base of operations for the Maintenance Shop is being turned over to a local non-profit organization. This facility will replace that building.

### Remarks

### Project Schedule

FY 18- Obtain facility, begin and complete construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$350,910

# Fiscal 2018 Capital Budget

## Project: C0356-FY2018 REHABILITATION TREATMENT CENTER

# GENERAL COUNTY PROJECTS

Number: C0356

### Description

This project proposes to provide funding for a facility in Howard County to meet the critical need to assist with one of the greatest health challenges of opioid overdoses and death. It will provide a place where residential treatment and crisis services can be provided within this community.

### Justification

There is an immediate health need to have a residential treatment facility to provide programs that offer a comprehensive continuum of services for adults and adolescents who suffer from addiction and co-occurring mental health disorders. Services range from highly intensive residential treatment to low intensity services. The most intensive level of service includes medically monitored inpatient detoxification. This model allows treatment to be tailored to the individual needs of each client, especially those benefiting from a step down approach of decreasing intensity of services over time. The structured environment in combination with various levels of treatment and ancillary services, support and promote recovery. Residential treatment programs associated with a Crisis Stabilization Unit are able to divert appropriate patients from the hospital and jail in order to stabilize, detox, obtain history, notify significant others, and provide a referral to the appropriate level of substance use treatment, including residential and outpatient services.

### Remarks

1. A more complete assessment will be completed to further determine requirements and budget for FY19.
2. A site matching the requirements will be located.
3. Community health partners will be consulted for collaboration and contributions of joint efforts.

### Project Schedule

FY18 - Complete needs assessment and program of requirements.  
FY18/19 - Site/location search. Complete renovations as required and budget allows.

# Fiscal 2018 Capital Budget

## Project: C0357-FY2018 ELLICOTT CITY PARKING IMPROVEMENTS

# GENERAL COUNTY PROJECTS

Number: C0357

### Description

A project to plan, design and implement parking improvements in Ellicott City. The Ellicott City Master Plan effort will identify strategies to address parking needs in downtown Ellicott City. Knowing that this is an immediate need, this project will be used to advance one or more strategies by supporting pre-development analyses and/or design immediately following the Master Plan effort.

### Justification

As Ellicott City continues to rebuild from the tragic flood on July 30, 2016, one of the most frequent areas of improvement identified by the community has been with the current parking system. This project will be essential in developing strategies to accommodate the parking demands of the community, and support the economic development of the town. The project supports Planhoward 2030 policy by fostering a diverse economy and future job and business growth opportunities.

### Remarks

1. This project will rely on recommendations made through the master planning process starting in May 2017.
2. This project will refine and implement recommendations relating to parking from the master plan.

### Project Schedule

### Operating Budget Impact

Annual Bond Redemption \$ \$9,000

# Fiscal 2018 Capital Budget

## Project: D1112-FY1997 DAVIS AVE AREA DRAINAGE IMPROVEMENTS

# DRAINAGE PROJECTS

Number: D1112

### Description

This project is for the design and construction of storm drainage facilities in the area of Davis Avenue in North Laurel.

### Justification

The existing storm drainage system is inadequate. Parts of the area were developed prior to the requirements for adequate storm drains and stormwater management facilities.

### Remarks

1. A stormwater management pond has been built (Phase I). A storm drainage system and pond retrofit (Phase II) will be built.
2. OTHER funds are from County share of race track money.
3. The County may enter into an agreement for the developer to construct the County improvements.
4. Request represents project advancement.

### Project Schedule

FY18/19 - Design, Land Acquisition and Construction (Phase II).  
FY19 - Construction (Phase II) and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$28,125

Estimated annual maintenance costs upon completion: Decrease.

## Project: D1124-FY2007 DRAINAGE IMPROVEMENT PROGRAM

# DRAINAGE PROJECTS

Number: D1124

### Description

A project for the design and construction of small to medium-sized drainage improvements requested by County residents and the Bureau of Highways.

### Justification

Create improved drainage to safely convey surface runoff, to stop flow onto residential properties or to protect the traveled way.

### Remarks

1. SDFUND represents Storm Drainage developer contributions derived as a result of 16.133e of the County Code.
2. Construction of some projects may be dependent upon donation of the necessary easements and/or resident cost share participation.
3. After initial investigation, projects over \$250,000 in construction costs may be split out as a separate Capital Project.
4. OTHER funds are resident cost share.
5. Project includes assistance with debris removal and assessment of flood mitigation opportunities in the Allview area.
6. Request represents program advancement.

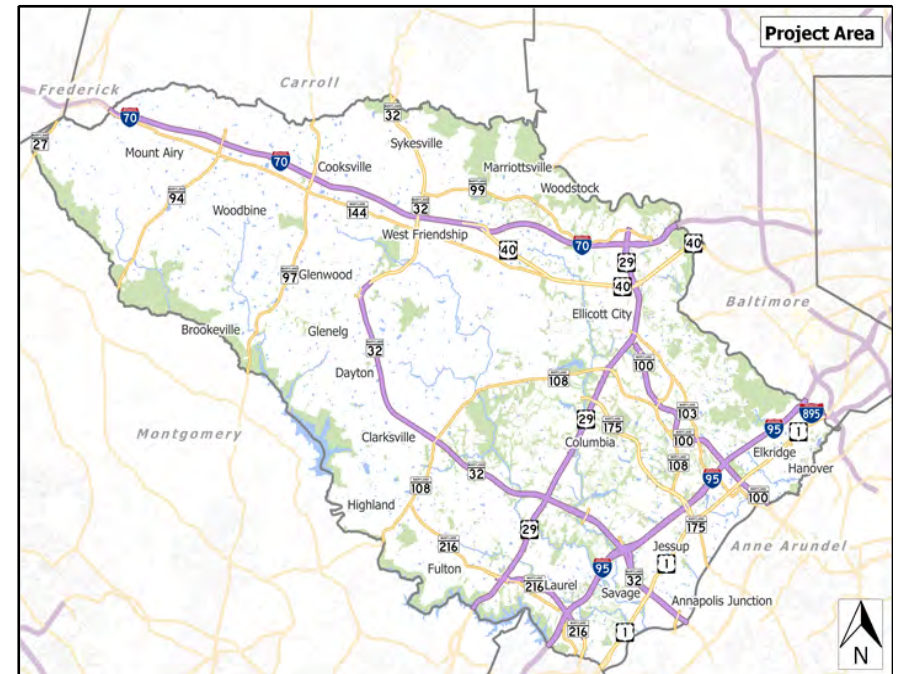

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$129,375

# DRAINAGE PROJECTS

## Project: D1125-FY2004 EMERGENCY STORM DRAIN RECONSTRUCTION

Number: D1125

### Description

A fund for Howard County to undertake construction or repairs to storm drainage facilities on an as-needed basis meeting the provisions of the County Code. This program is envisioned to provide rapid assistance in emergency situations.

### Justification

Howard County Code Subtitle 5, Section 18.500, which mandated extensive County involvement in storm drainage.

### Remarks

1. Construction of some projects may be dependent on donation of necessary easements and/or resident cost share participation.
2. SDFUND represents Storm Drainage developer contributions derived as a result of 16.133e of the County Code.
3. Request represents program advancement.
4. GRANT represents anticipated FEMA funding for Ellicott City.

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$72,000

Estimated annual maintenance costs upon completion: Decrease.

# DRAINAGE PROJECTS

## Project: D1140-FY2005 PINE TREE/GLEN COURT STORM DRAIN SYSTEM

Number: D1140

### Description

A project for the design and construction of a storm drain system along Pine Tree Road, Glen Court, and Guilford Road.

### Justification

Currently surface runoff is picked up by roadside ditches which have little grade and water stagnates in them. During heavy storms, the residents experience flooding. This work is requested by the residents and recommended by the Bureau of Highways.

### Remarks

1. Construction project may be dependent on donation of necessary easements and/or resident cost share participation.
2. Request represents Phase 4 project advancement.

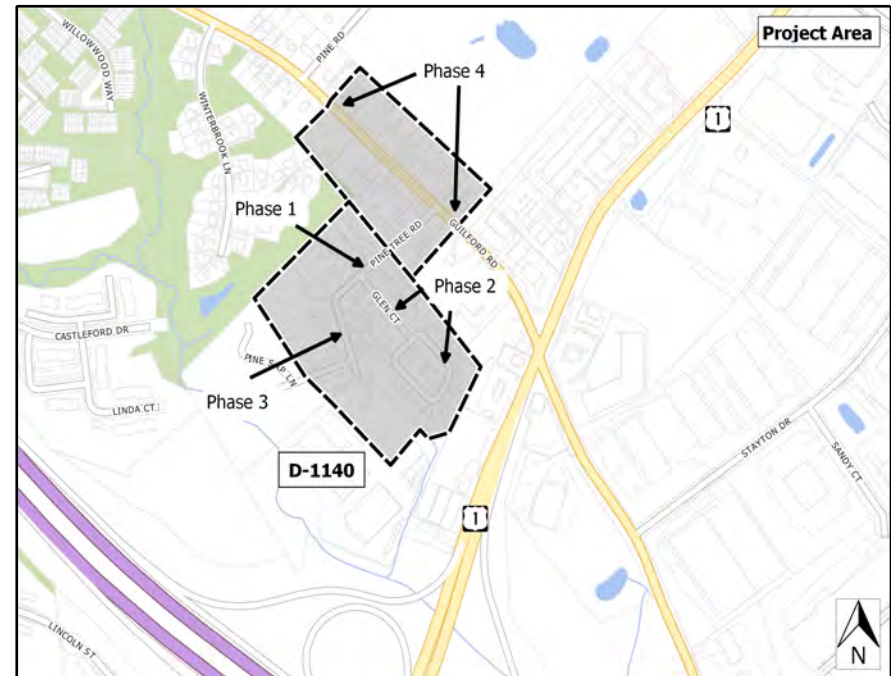

### Project Schedule

- FY18/19 - Design and Land acquisition of Phase 4.  
FY20/21 - Construction of Phase 4.

### Operating Budget Impact

Annual Bond Redemption \$ \$144,675

Estimated annual maintenance costs upon completion: Decrease.

# DRAINAGE PROJECTS

## Project: D1148-FY2007 NPDES WATERSHED MANAGEMENT PROGRAM

Number: D1148

### Description

A project for permitting and implementing the requirements of the National Pollutant Discharge Elimination System (NPDES) to detect and reduce pollutants in stormwater system discharges and to perform studies related to storm water utility financing.

### Justification

This project is necessary to comply with the Federal Government's Clean Water Act.

### Remarks

1. This project replaces Capital Project D1115.
2. A five year renewal NPDES permit was issued by MDE in June 2005.
3. The County was issued a new five-year permit on December 18, 2014.
4. A portion of funding generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.

### Project Schedule

FY18 - Perform work to assess and address Total Maximum Daily Loads (TMDL) and Watershed Implementation Plan (WIP) requirements to meet NPDES permit conditions.

Continue database development to comply with NPDES reporting requirements.

### Operating Budget Impact

Annual Bond Redemption \$ \$296,100

## Project: D1150-FY2005 HIGH RIDGE DRAINAGE

# DRAINAGE PROJECTS

Number: D1150

### Description

A project to design and construct storm drain improvements in the High Ridge area including, but not limited to: Old Scaggsville Road, Naylor Avenue, Hughes Avenue, Robinson Boulevard, Gross Avenue, Bryant Avenue, Grant Avenue, and Lyon Avenue

### Justification

The High Ridge Community was initially developed before the current day standards for streets and drainage accommodations. The community has requested drainage improvements to the area.

### Remarks

1. Construction project may be dependent on donation of necessary easements and/or resident cost share participation.
2. Request represents project advancement.

### Project Schedule

FY18/19 - Design and Land Acquisition (Robinson Blvd., Old Scaggsville, Hughes, Gross, All Saints and Lyon).

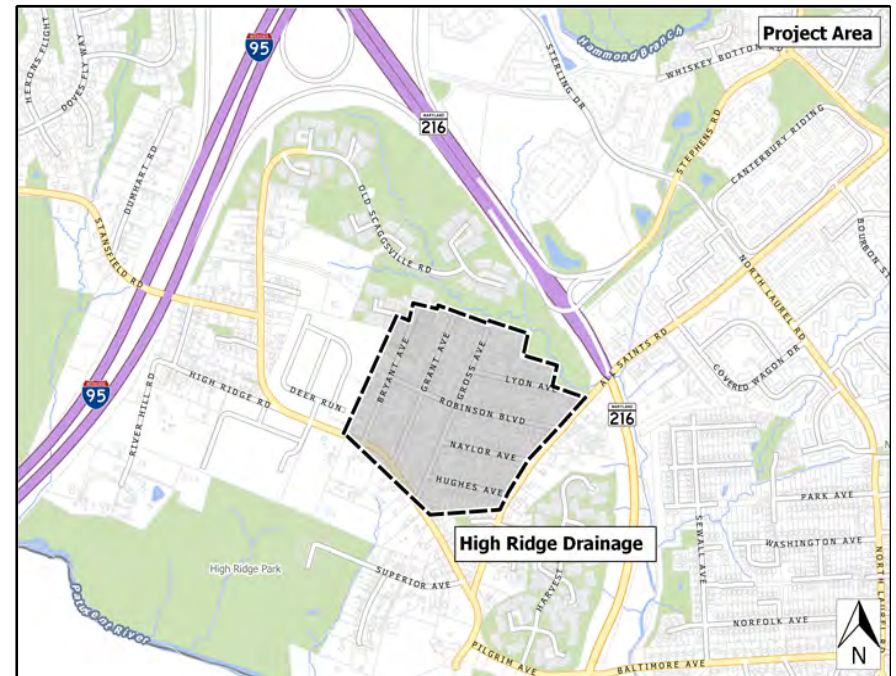

FY19/20 - Construction.

FY20 - Complete and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$168,075

Estimated annual maintenance costs upon completion: Decrease.

# DRAINAGE PROJECTS

## Project: D1155-FY2006 LINCOLN DRIVE at CEDAR VIL PARK DRAINAGE

Number: D1155

### Description

There is an inadequate drainage system to carry the runoff from the park side of the road to the outfall side of Lincoln Drive. Additional drainage facilities are needed along Cedar Avenue, Georgia Avenue and Wye Avenue.

### Justification

The Bureau of Highways requested this project to reduce annual maintenance costs.

### Remarks

Project has been split into two phases to move project due to right-of-way issues.

Phase 1 includes all work south of Georgia Avenue.

Phase 2 includes all other work, including work in vicinity of Wye Avenue.

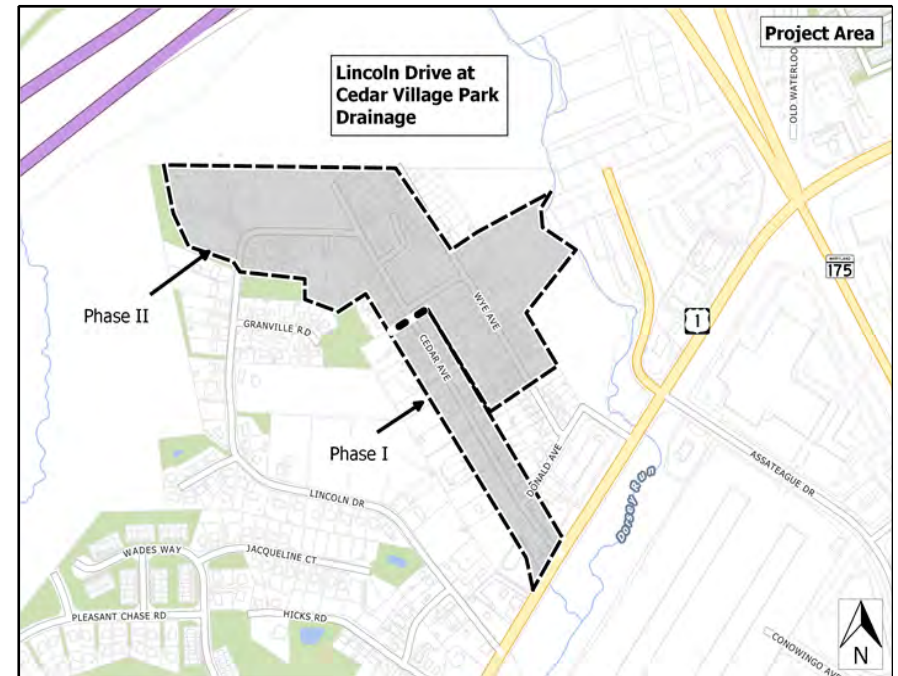

### Project Schedule

FY18 - Construction and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$73,575

Estimated annual maintenance costs upon completion: Decrease.

## Project: D1157-FY2006 ST JOHNS LANE VICINITY DRAINAGE

Number: D1157

### Description

A project for the construction of drainage improvements along St Johns Lane, Northfield Road, Southfield Road, Crescent Road, Hawthorne Road, Crestleigh Road, Club Court and the adjacent neighborhoods.

### Justification

The Traffic Division has requested that the drainage of St. Johns Lane be improved and adjacent property owners have requested that the runoff from the road and other drainage issues in the adjacent neighborhoods be addressed.

### Remarks

1. Construction of some projects may be dependent on donation of necessary easements and/or resident cost share participation.
2. Phase IV - Drainage Improvements along Northfield Road and Southfield Road.
3. Phase V - Drainage Improvements along Club Court. Dado Ct. added.

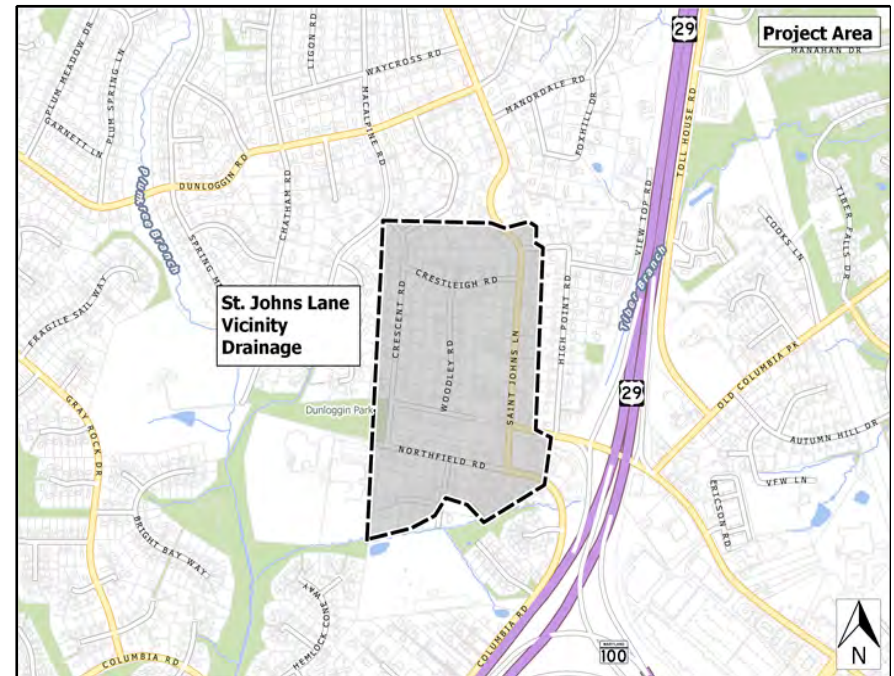

### Project Schedule

FY18 - Land Acquisition and Construction.  
FY19 - Complete, Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$63,675

Estimated annual maintenance costs upon completion: Decrease.

## Project: D1158-FY2008 WATERSHED MANAGEMENT CONSTRUCTION

Number: D1158

### Description

This project is for design and construction of stormwater facility improvements. The project will include NPDES stormwater management implementation requirements, floodplain studies, including retrofitting of stormwater management ponds, restoration and certification of detention basins, continued improvement of flood alert systems, streambank restoration including bio-engineering, water quality devices (such as wetlands), channel restoration and water quality monitoring studies.

### Justification

1. NPDES Program is required by EPA and MDE under the Clean Water Act.
2. Watershed management of floodplains is needed to provide additional protection for older communities.
3. Erosion of tributaries of Patapsco and Patuxent Rivers to be addressed.

### Remarks

1. SDFUND represents fee-in-lieu of SWM construction by developers for County use in design or construction of other SWM facilities.
2. GRANT funds include local implementation grant from Chesapeake and Atlantic Coastal Bays 2010 Trust Fund and ARRA.
3. WQ Loan represents State Revolving Loan funding.
4. OTHER represents Stormwater Bonds backed by Watershed Protection and Restoration fund.
5. Construction of some projects may be dependent upon donation of the necessary easements and/or property owner cost share participation.

### Project Schedule

FY18 Designs: Sunny Springs Drive, North Laurel Community Center, Brentwood Manor, Seneca Drive.

FY18 Constructions: Stonehouse Drive, Patrick Farm, Red Hill Road û Phase 2, Windy Knolls, Churchill Way, Little Patuxent River û Frederick Road, Mellen Court, Park Drive, Timbers of Troy.

FY18 Design/Build: Font Hill Tributary û Centennial Lane West.

Continue to perform post construction stream monitoring at approximately 20 completed stream restoration projects.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,432,575

## Project: D1159-FY2007 STORMWATER MANAGEMENT FACILITY RECONSTRUC

Number: D1159

### Description

A fund for Howard County to undertake construction or repairs to stormwater management on an as-needed basis meeting the provisions of the County Code. This program is envisioned to provide rapid assistance in emergency situations.

### Justification

Howard County Code Section 18.900, which requires inspection and maintenance of storm water management facilities. Metal pipe pond barrels are deteriorating as they reach the end of their expected life and need to be repaired or replaced.

### Remarks

1. GRANT funds include local implementation grant from the Chesapeake and Atlantic Coastal Bays 2010 Trust Fund.
2. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.
3. Construction of some projects may be dependent upon donation of the necessary easements and/or property owner cost share participation.

### Project Schedule

FY18 Designs - 43 barrel repairs/replacements

FY18 Construction - 7 barrel repairs/replacements

### Operating Budget Impact

Annual Bond Redemption \$ \$2,609,550

## Project: D1160-FY2010 STORMWATER MANAGEMENT RETROFITS

Number: D1160

### Description

A project for the retrofit of stormwater management facilities to include water quality management.

### Justification

Numerous facilities built in the early period of stormwater management provide only water quality management. Howard County's Stormwater Management NPDES permit requires the County to improve water quality, in part, through retrofitting existing facilities designed only for water quality management.

### Remarks

1. This project replaces D-1141.
2. Grant funds included from the American Recovery and Reinvestment Act and local implementation grant from Chesapeake and Atlantic Coastal Bays 2010 Trust Fund.
3. OTHER represents Stormwater Bonds backed by Watershed Protection and Restoration fund.
4. Construction of some projects may be dependent upon donation of the necessary easements and/or property owner cost share participation.

### Project Schedule

FY18 û Designs: Patapsco Park Estates, Woodcrest Drive; Brentwood Manor.  
FY18 û Construction: Garland Road, Quaker Mill Court, Twin Oaks, Beech Creek, Governor Martin Outfall, Waiting Springs.

### Operating Budget Impact

Annual Bond Redemption \$ \$566,550

Technical/administrative management support.

## Project: D1161-FY2018 SHAFFERSVILLE ROAD CULVERT REPLACEMENT

Number: D1161

### Description

A project to replace the existing culvert on Shaffersville Road (between Florence Road and Shaffers Mill Road).

### Justification

Requested by the Bureau of Highways. The existing culvert floods regularly necessitating the closure of the road. This is a maintenance problem for the Bureau of Highways and an inconvenience to the traveling public.

### Remarks

1. Shaffersville Road is a scenic road.
2. Request represents project advancement.

### Project Schedule

FY18 - Design.  
FY19 - Land Acquisition.  
FY20 - Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$23,625

Estimated annual maintenance costs upon completion: Decrease.

# Fiscal 2018 Capital Budget

## Project: D1163-FY2012 TROTTER ROAD SLOPE STABILIZATION

# DRAINAGE PROJECTS

Number: D1163

### Description

This project is for the design and construction of stabilization of the streambank of a tributary of the Middle Patuxent River and the adjacent roadway fill of Trotter Road.

### Justification

The roadway embankment is being eroded by the force of the stream adjacent to the roadway fill.

### Remarks

Trotter Road is a Scenic Road.

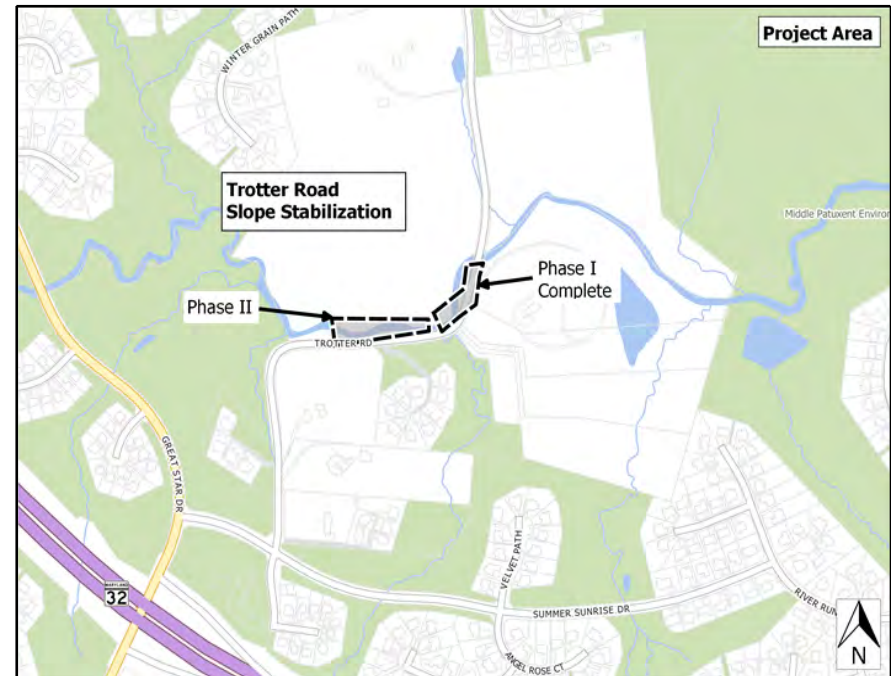

### Project Schedule

FY18 - Complete and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$33,975

Estimated annual maintenance costs upon completion: Decrease.

# DRAINAGE PROJECTS

## Project: D1164-FY2013 COMMUNITY ENVIRONMENTAL PARTNERSHIPS

Number: D1164

### Description

This project is for design and construction of Environmental Site Design (ESD) small scale storm water facilities. The project will include retrofit of County owned roads, as well as, incentives for property owners to install ESD facilities and non-turf landscape alternatives to provide treatment of storm water runoff from impervious surfaces on their property.

### Justification

Additional treatment of storm water runoff is needed to support efforts consistent with the Chesapeake Bay Total Maximum Daily Load for nitrogen and phosphorus established in 2010 by the US EPA. These requirements are further specified in Maryland's Phase II Watershed Implementation Plan, as well as, the Municipal Separate Storm Sewer discharge (MS4) permit issued to Howard County, both issued by the Maryland Department of the Environment in support of the TMDL.

### Remarks

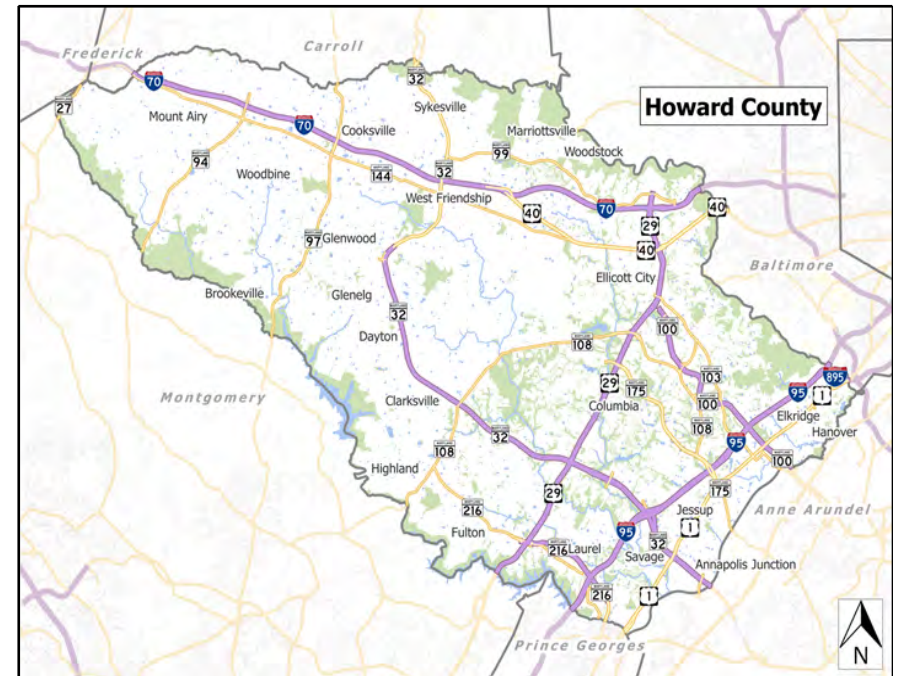

1. Participation by residents and landscape service companies will be encouraged by outreach and education efforts and by cost sharing ESD implementation and landscaping modifications with property owners.
2. A portion of current request represents funding to be generated from legislation CB-8 & CR21 for stormwater utility funding, known as Watershed Protection and Restoration fund.
3. Construction of some projects may be dependent upon donation of the necessary easements and/or property owner cost share participation.

### Project Schedule

FY18 - Provide additional funding for Alliance for the Chesapeake Bay (READY) grant.

### Operating Budget Impact

Annual Bond Redemption \$ \$2,250

# DRAINAGE PROJECTS

## Project: D1165-FY2013 FLOOD MITIGATION and STORMWATER/WATERWAY ENHANCEMENT

Number: D1165

### Description

This project is for the study, design, and construction of flood mitigation and stormwater/waterway enhancement efforts in downtown Ellicott City. Projects may include drainage improvements, stormwater retrofits, flood control, stream improvements, and design of additional drainage facilities.

### Justification

Ellicott City has the potential to suffer significant flood damage.

### Remarks

1. Future years once projects cost/benefits determined, apply for FEMA grants. FY18 GRANT represents anticipated FEMA funding for Ellicott City.
2. OTHER represents Stormwater Bonds backed by Watershed Protection and Restoration fund.
3. Construction of some projects may be dependent upon donation of the necessary easements and/or property owner cost share participation.
4. FY18 funding includes work to be completed for ongoing future flood mitigation projects and programs driven by the Historic Ellicott City Flood Workgroup and consultant modeling efforts.

### Project Schedule

FY18 - Begin design and implementation of flood mitigation projects.

### Operating Budget Impact

Annual Bond Redemption \$ \$490,500

1. TAO 1-2107 transferred \$550,000 Grant revenue to D1158. 2. CB3-2107 added \$1,700,000 in Pay as you Go funding for unanticipated expenses related to Ellicott City flood response and recovery efforts.

# Fiscal 2018 Capital Budget

# DRAINAGE PROJECTS

## Project: D1166-FY2015 CHESTNUT HILLS DRAINAGE IMPROVEMENTS

Number: D1166

### Description

A project to design and construct drainage improvements in the Chestnut Hills Community including but not limited to: Deerfield Drive, Family Way Springway Road and Ivy Lane.

### Justification

This community was built in the 1960s and 1970s with the drainage standards of the time (little or no storm drainage system and no stormwater management). Parts of the area suffer flooding during infrequent, large runoff events that would not be as damaging if the area were designed to today's drainage standards. This work is requested by residents of the area.

### Remarks

Construction project may be dependent on donation of necessary easements and/or resident cost share participation.

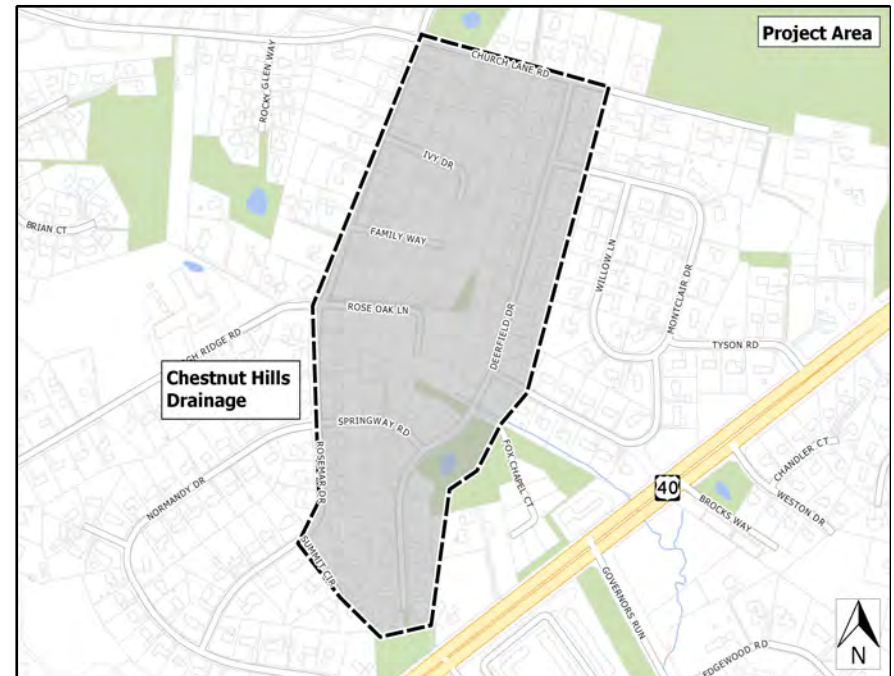

### Project Schedule

FY18 - Design and Land Acquisition.  
FY19 - Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$16,425

Estimated annual maintenance costs upon completion: Decrease.

# DRAINAGE PROJECTS

## Project: D1169-FY2016 STORM DRAIN CULVERT REPLACEMENT PROGRAM

Number: D1169

### Description

This program will provide for the replacement of failed storm drain pipes and culverts. The County's storm drain infrastructure is aging and many of the metal pipe culverts installed from 1960 through the 1990s have reached the end of their service life. Currently no asset inventory with condition assessment exists; therefore no funding is programmed to systematic replacement of these pipes and culverts. The program will provide for emergency culvert replacement and funding assist in the development of an asset inventory program to better forecast future replacement needs. The program includes: storm water pipe and culvert replacement of both metal and concrete in less than six (6) feet in roadway longitudinal length, headwalls, end sections, replacement, or extension of culverts to assure positive flow of storm water and channeling of storm water into existing ditch lines or structures. Repairs include roadside pipe and culvert end treatment safety improvements to eliminate safety hazards. This project will not change the location or size of existing storm drainage structures.

### Justification

Program addresses emergency pipe replacement of aging metal and concrete pipes that have reached the end of their service life. Pipe failures have resulted in unacceptable levels of deep depressions, sinkholes, sediment build up, open pipe joins and metal pipe inverts. Poor existing storm drain conditions. Needed repairs will improve safety and reduce the potential for hazards and associated public inconvenience. Failure of a storm drain pipe will require emergency repairs at much higher prices. This program will also provide some funding towards the development of an asset inventory of the storm drain system, including pipe and culvert conditions for future funding forecasting.

### Remarks

County owns and maintains approx. 3,543,100 linear feet (671 miles) of storm drains and approx. 13,000 each of storm drain inlet structures.

### Project Schedule

Approximately 0.3 mile of storm drains (depends on the depth of deteriorated storm drains) replaced per \$1M budgeted.  
Close at program completion

### Operating Budget Impact

Annual Bond Redemption \$ \$472,500

# DRAINAGE PROJECTS

## Project: D1170-FY2017 CARDINAL FOREST DRAINAGE IMPROVEMENTS

Number: D1170

### Description

A project to provide a drainage system to reduce the runoff from adjacent properties onto the properties at the north end of Dove's Fly Way.

### Justification

The improvements were requested by property owners at the north end of Dove's Fly Way. They are concerned that the existing drainage issues that they have will be compounded by additional proposed development behind their homes.

### Remarks

The project may be dependent on the donation of the necessary easements from the affected properties and/or cost share participation.

### Project Schedule

FY18 - Design

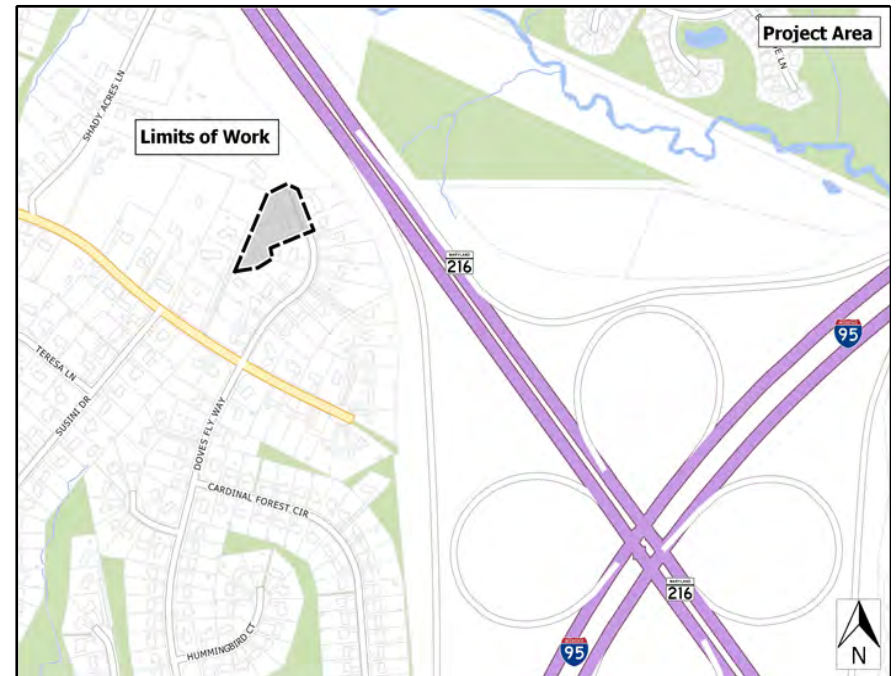

FY19 - Land Acquisition and Construction.

FY20 - Construction

### Operating Budget Impact

Annual Bond Redemption \$ \$29,250

Estimated annual maintenance costs upon completion: Decrease.

# DRAINAGE PROJECTS

## Project: D1171-FY2016 CISSELL AVENUE-HADDAWAY PLACE DRAINAGE IMPROVEMENTS

Number: D1171

### Description

A project to acquire the necessary easements of the drainage channel that travels behind the homes of Cissell Avenue and Haddaway Place. The County owns a storm drain system that travels about one-half of the way down this drainage channel. The storm drain outlets into a natural channel. The natural channel has become clogged with bamboo. This project will acquire easements along the channel area so that the Bureau of Highways is able to maintain the channel by removing the bamboo. Work may include providing a storm drain or clearing drainage impediments in the channel.

### Justification

This older neighborhood has had drainage issues in the past and the County has constructed storm drain systems to try and improve the situation. Since the construction of those systems, bamboo has invaded the privately owned property of the natural drainage channel. Bamboo is a known invasive plant. It has clogged the channel and the drainage water floods out into the back yards of the adjacent homes. The Bureau of Highways is willing to maintain the channel if the County is able to obtain the necessary easements. The improvements were requested by adjacent property owners and the Bureau of Highways.

### Remarks

1. The project may be dependent on the donation of the necessary easements from the adjacent properties.
2. Project is contingent on regulatory approval.

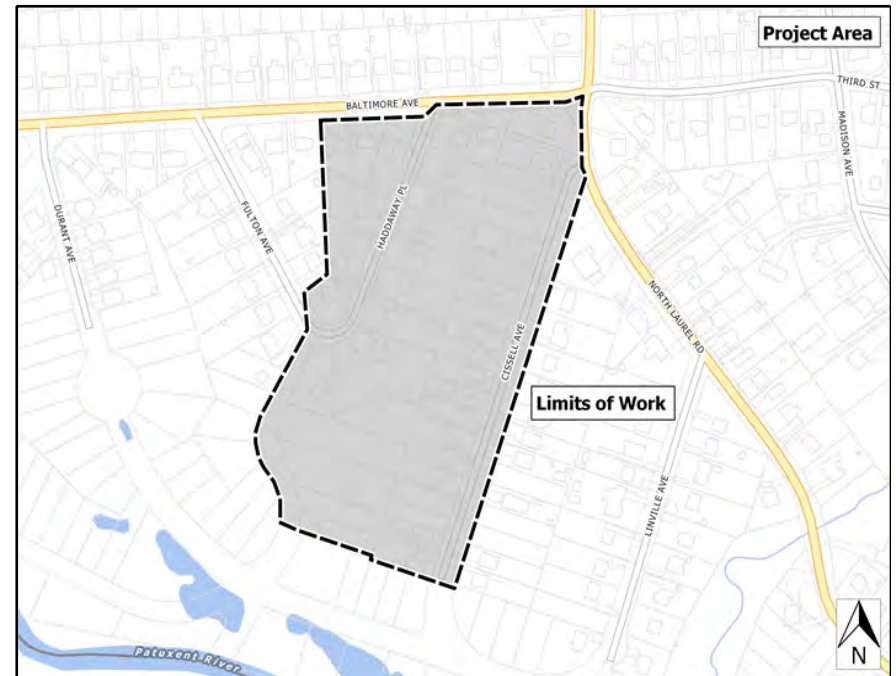

### Project Schedule

FY18 - Design and Land Acquisition.

### Operating Budget Impact

Annual Bond Redemption \$ \$13,500

Estimated annual maintenance costs upon completion: Increase.

# DRAINAGE PROJECTS

## Project: D1172-FY2016 DORSEY RUN TRIBUTARY STORM DRAIN REPAIR

Number: D1172

### Description

A project to repair the storm drain that carries drainage from the MD175 area just east of US1 through and from the Columbia East Marketplace to the outfall just south of Assateague Drive and adjacent to US1.

### Justification

The storm drain is a metal pipe that has rusted out along the bottom and is failing. Sink holes are developing over the pipe. Emergency repairs were made of one section and inspections will determine the extent of additional repairs that are needed for the remainder of the pipe.

### Remarks

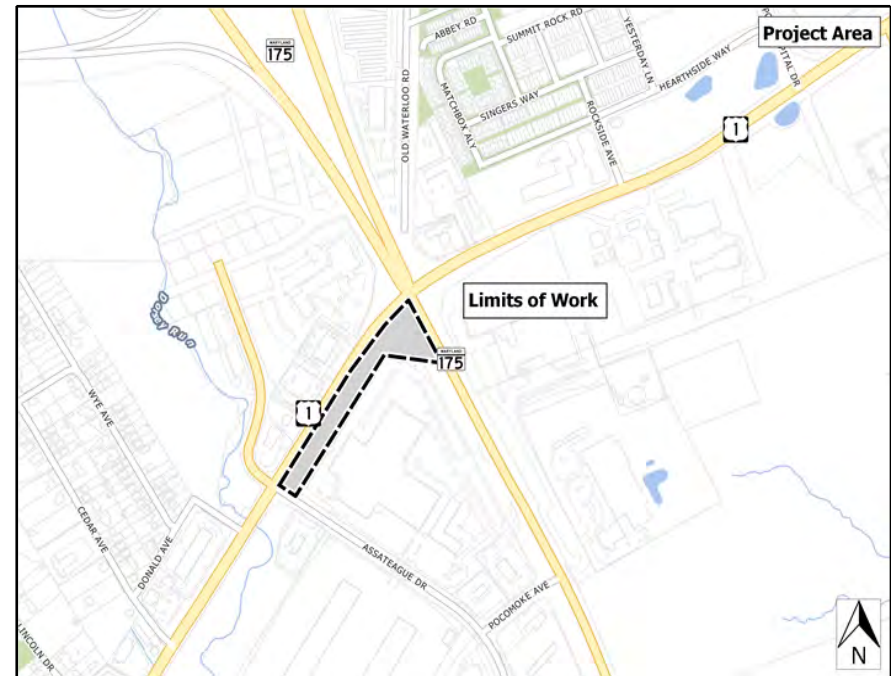

### Project Schedule

FY18 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$31,500

Estimated annual maintenance costs upon completion: Decrease.

# DRAINAGE PROJECTS

## Project: D1173-FY2016 HARRIET TUBMAN LANE DRAINAGE IMPROVEMENTS

Number: D1173

### Description

A project to design and construct drainage improvements along Harriet Tubman Lane in the 7900 and 8000 block area.

### Justification

While the roadway is old, the homes in the area are a mix of older and more recent construction. Because of the nature of the development -- individual lots -- there is not a well-designed drainage system to serve the area. This work would improve the drainage in the area. Improvements have been requested by the Bureau of Highways and residents of the area.

### Remarks

Construction may be dependent on donation of necessary easements and/or resident cost share participation.

### Project Schedule

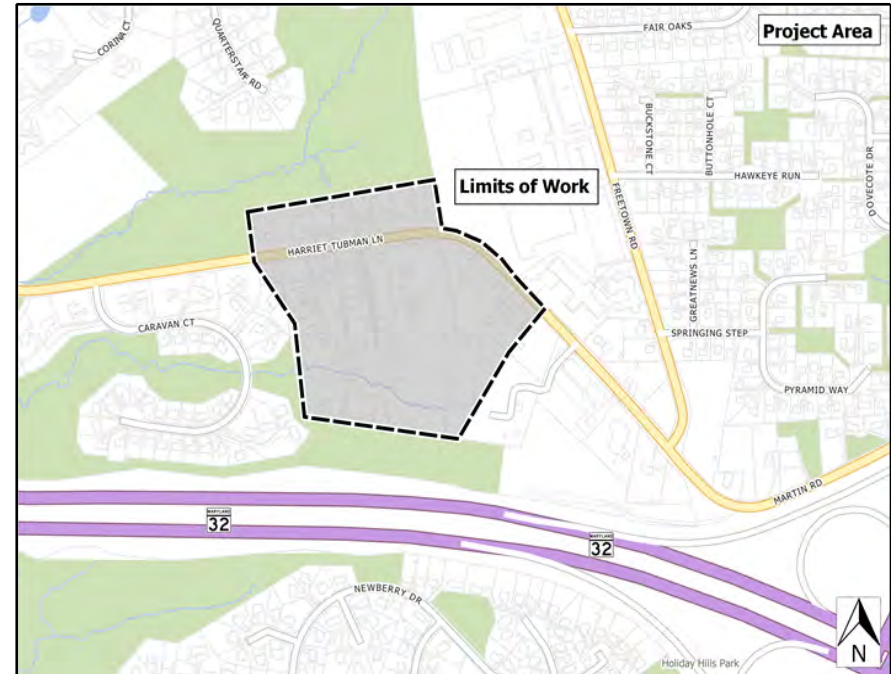

FY18 - Design and Land Acquisition.

FY19 - Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$21,375

Estimated annual maintenance costs upon completion: Decrease.

# Fiscal 2018 Capital Budget

## Project: D1174-FY2016 SPRING GLEN DRAINAGE IMPROVEMENTS

# DRAINAGE PROJECTS

Number: D1174

### Description

A project to design and construct drainage improvements in the Spring Glen Community including but not limited to: Ivy Spring Road and Cross Ivy Road. The improvements to be considered include adding curb & gutter with storm drains and filling in the swales.

### Justification

This community was built in the early 2000s using the new storm drainage design for subdivisions. The roads are narrow and open section (no curb & gutter). The plowing of snow tears up the adjacent grass areas. The yards have deep swales and are difficult to maintain.

The improvements were requested by the Homeowners Association and the Bureau of Highways.

### Remarks

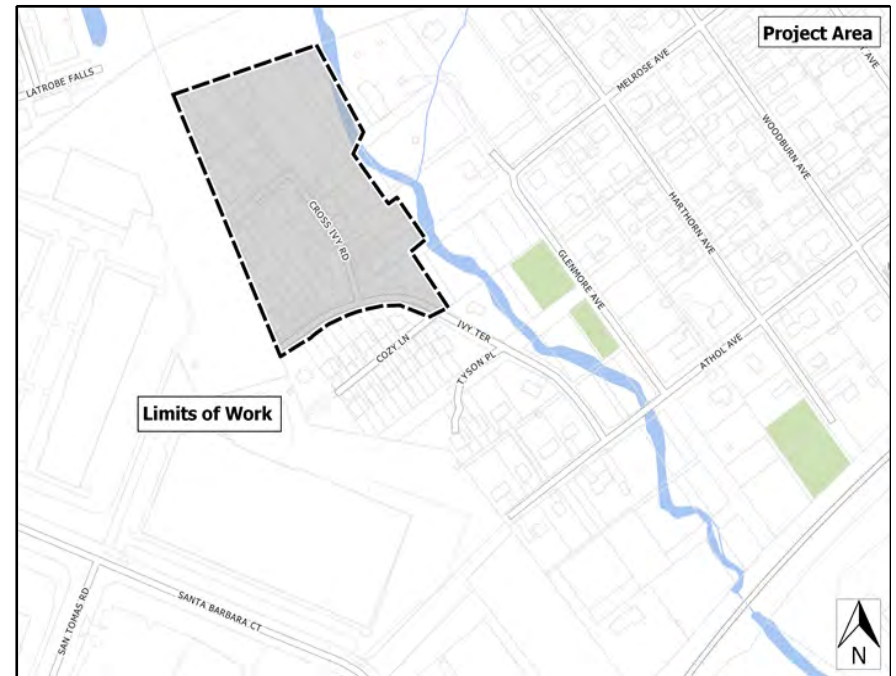

### Project Schedule

FY18 - Design.  
FY19 - Design and Land Acquisition.  
FY20 - Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$11,925

Estimated annual maintenance costs upon completion: Decrease.

# DRAINAGE PROJECTS

## Project: D1175-FY-2018 VALLEY MEDE/CHATHAM FLOOD MITIGATION

Number: D1175

### Description

This project is for the study, design and construction of flood mitigation and stormwater/waterway improvement efforts in the Valley Mede and Chatham subwatersheds. Projects may include drainage improvements, stormwater retrofits, flood control, stream improvements, and design of additional drainage facilities.

### Justification

Valley Mede and Chatham subwatersheds have the potential to suffer significant flood damage.

### Remarks

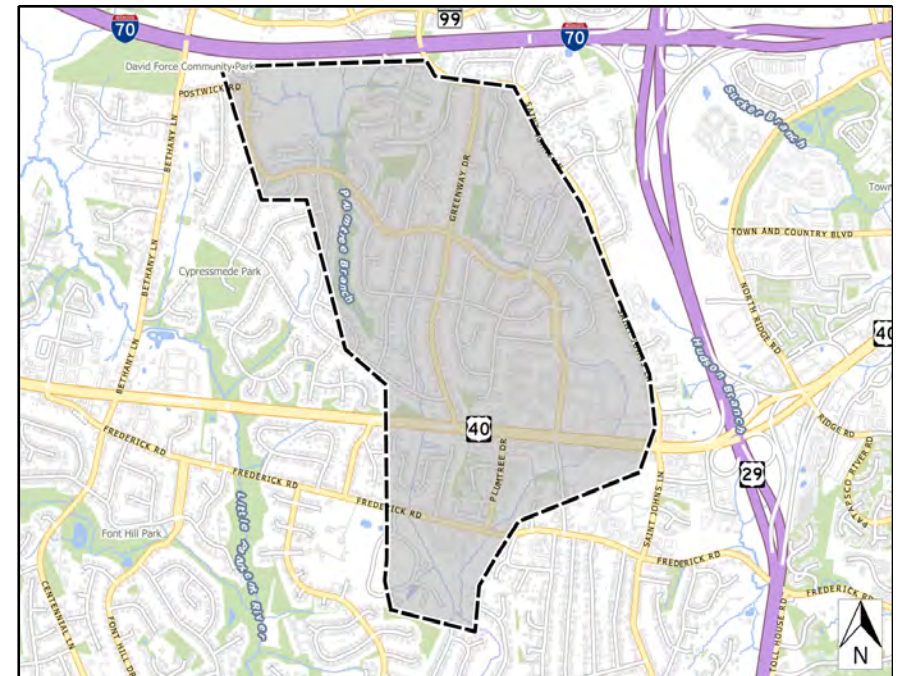

1. Future years once projects cost/benefits determined, apply for FEMA grants;
2. OTHER represents Stormwater Bonds backed by Watershed Protection and Restoration fund.
3. Construction of some projects may be dependent upon donation of the necessary easements and/or property owner cost share participation.

### Project Schedule

FY18 - Construction of Longview Stream project.

### Operating Budget Impact

Annual Bond Redemption \$ \$270,000

## Fiscal 2018 Capital Budget

## SCHOOL SYSTEM PROJECTS

Project: E0973-FY2003 WAVERLY ELEM RENOVATION/PHASE II ADDITION

Number: E0973

### Description

This project will be completed in two phases at Waverly Elementary School. Phase I was a project to construct additional space for 125 students (5 classrooms) above previous capacity (Grades 1-5), additional space for 22 kindergarten students (1 classroom) and a cafetorium expansion and was completed in August 2007. Phase II will be a project to construct additional classroom and additional core infrastructure space and renovate the existing building. The complete scope of this project is defined by the BOE approved construction document (CD) brochures (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochures.

### Justification

The addition is needed to support redistricting planned for 2018 from Manor Woods ES. Manor Woods cannot host additional capacity due to regulatory limitations on the operation of the on-site waste water treatment system.

### Remarks

The original building was constructed in 1990.

### Project Schedule

Phase I Complete.

Phase II will be accomplished concurrently with a renovation:

2015: Feasibility Study.

2015 - 2016 : Planning.

2016 - 2018: Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$982,170

Upon completion, the maintenance of this facility will be the responsibility of HCPSS Facilities Services. Operating cost impact is unknown at this time.

TAO2-2017 transferred \$1,700,000 in General Bond revenue to this project from several education projects, needed for higher than anticipated bid costs.

# Fiscal 2018 Capital Budget

## Project: E0980-FY2004 SYSTEMIC RENOVATIONS

# SCHOOL SYSTEM PROJECTS

Number: E0980

### Description

Improvements and installation of systemic renovations at various school sites, including projects of a critical nature such as sprinkler repair, HVAC repair, window replacement, and other projects in support of the local CIP outlined in the HCPSS Comprehensive Maintenance Plan, as well as emergent projects on school properties. For larger systemic renovation projects (see schools listed in the remarks section) the complete scope of these projects are defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

The systemic renovation program will include projects that are needed to bring older facilities up to current standards in lighting, electrical, HVAC systems, reconfiguring space, handicap accessible improvements, and provide for upgrades to other building systems.

### Remarks

1. The systemic renovations project also supports emergency and deferred systemic capital projects.
2. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

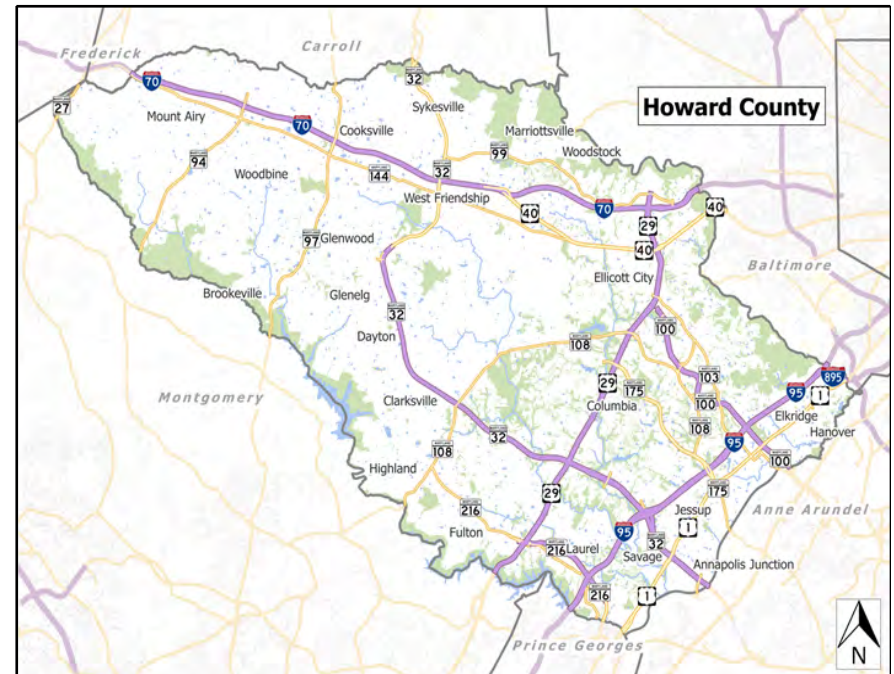

### Project Schedule

1. FY 2019/20 Capital Budget request represents renovation work or planning for future construction at the following school facilities, as funding is available:
2. Mount View MS HVAC: Summer 2019.
3. Pointers Run ES HVAC: Summer 2019.
4. Rockburn ES HVAC: Summer 2019.
5. Burleigh Manor MS HVAC: Summer 2019.
6. Manor Woods ES HVAC: Summer 2021.
7. Elkridge Landing MS HVAC: Summer 2021.
8. Bonnie Branch MS HVAC: Summer 2021.
9. Fulton ES HVAC: Summer 2021.
10. Hollifield Station ES HVAC: Summer 2021.
11. Kitchen Modernizations: Ongoing.
12. Safety and Accessibility Projects: Ongoing.

### Operating Budget Impact

Annual Bond Redemption \$ \$20,011,410

Upon completion, the maintenance of these facilities will be the responsibility of HCPSS Facilities Services. Operating cost impact is unknown at this time.

# Fiscal 2018 Capital Budget

## Project: E0989-FY1989 BARRIER-FREE PROJECTS

# SCHOOL SYSTEM PROJECTS

Number: E0989

### Description

Installation of ramps; alteration of restrooms, fixtures and drinking fountains; and various modifications to make all remaining spaces (school buildings and school sites) accessible to the public, students, teachers, and staff.

### Justification

Federal, state, and local regulations require that school facilities be made accessible to persons with disabilities by removing barriers to access.

### Remarks

1. Examples of projects include stadium bleacher ramps, play field access ramps, automatic door opening devices, and reconfiguration of bathroom fixtures and partitions to allow wheelchair access.
2. Other school specific projects that remove barriers as described in justification.

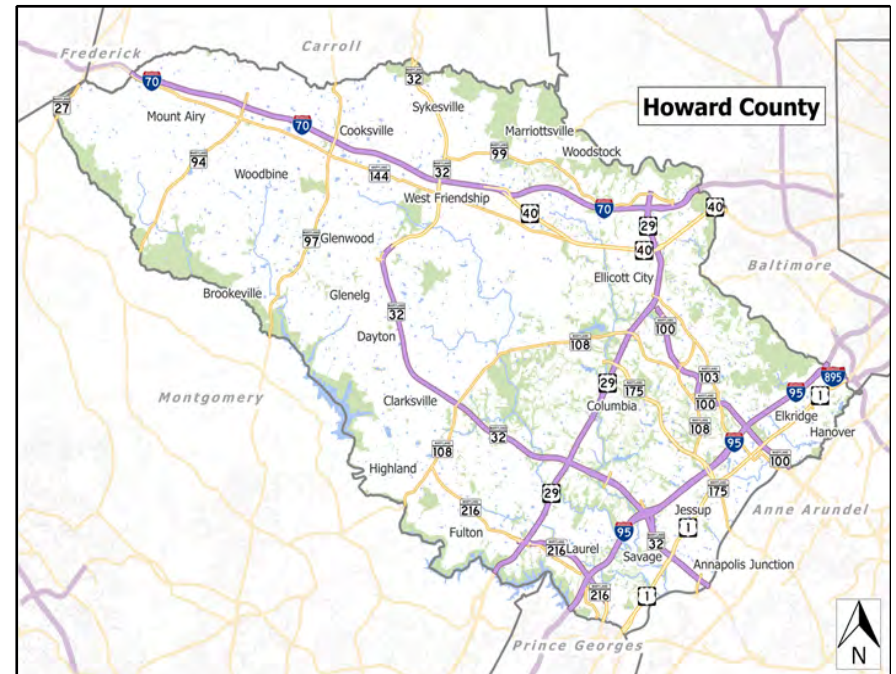

### Project Schedule

Barrier-Free Projects are directly related to students, staff, and public need for facility modifications as they occur on an ongoing basis.

### Operating Budget Impact

Annual Bond Redemption \$ \$173,250

Estimated operating cost impact upon completion: No increase

## Project: E0990-FY2002 PLAYGROUND EQUIPMENT

# SCHOOL SYSTEM PROJECTS

Number: E0990

### Description

Improvements and installation of playground equipment at various school sites.

### Justification

The program will include projects that are needed to bring older schools' playgrounds up to current standards.

### Remarks

Playgrounds at the following schools are under consideration for replacement:

1. Hollifield Station ES.
2. Manor Woods ES.
3. Talbott Springs ES.

### Project Schedule

April 2017: Final Site Specific Selection and Requisition.

July 2017 - August 2017: Equipment Installation.

### Operating Budget Impact

Annual Bond Redemption \$ \$227,250

Estimated operating cost impact upon completion: No increase

# SCHOOL SYSTEM PROJECTS

## Project: E0993-FY2004 RELOCATABLE CLASSROOMS PROGRAM

Number: E0993

### Description

This request will provide funds for the relocation of existing portable classrooms or purchase of new portable classrooms to be placed at schools in need of additional capacity in August 2017. Relocation includes moving the buildings as well as installation of support services that make the buildings functional classrooms.

### Justification

Additional classroom spaces are needed to help relieve overcapacity schools until such time as permanent classroom spaces are available.

### Remarks

1. In September 2016, there were 244 relocatable/modular classrooms in use (four are used for administrative purposes at the Central Office, all others are at school sites). The school system will continue to conduct an annual review of all relocatables which will include condition and usage. The potential to either remove relocatables out-of-service, transport them to other locations where needed, or place them in excess to dispose of in an appropriate manner will be decided upon annually.

### Project Schedule

Planned: Relocatable Classrooms Assessment Study.

Potential: Purchase of new relocatable classrooms for Elementary School, Middle School and High School locations.

### Operating Budget Impact

Annual Bond Redemption \$ \$697,950

Upon completion, the maintenance of these facilities will be the responsibility of HCPSS Facilities Services. Operating cost impact is unknown at this time.

# Fiscal 2018 Capital Budget

## Project: E0994-FY2004 ROOFING PROGRAM

# SCHOOL SYSTEM PROJECTS

Number: E0994

### Description

Reroofing for various schools including design and construction of repairs to existing roofs, old roof removal, new flashing and drains, and installation of new roofing structure and material.

### Justification

The roof system is the largest single area of the building that must endure the most severe weather conditions. The roof protects the structural integrity of the building as well as equipment. Because of building age and environmental conditions, scheduled roof replacements must be completed to protect the investment that has been made in many facilities.

### Remarks

When feasible, roofing projects will be considered in conjunction with systemic renovations.

### Project Schedule

### Operating Budget Impact

Annual Bond Redemption \$ \$3,071,790

# SCHOOL SYSTEM PROJECTS

## Project: E0995-SITE ACQUISITION and CONSTRUCTION RESERVE

Number: E0995

### Description

This account is a contingency fund for site acquisition and school construction at various school sites. Recent emergent maintenance requirements have strained the school system's existing construction contingency accounts and additional funding is required to ensure that urgently needed repairs can be completed without delay.

### Justification

This fund is needed as a contingency reserve providing funds for use on an as-needed basis.

### Remarks

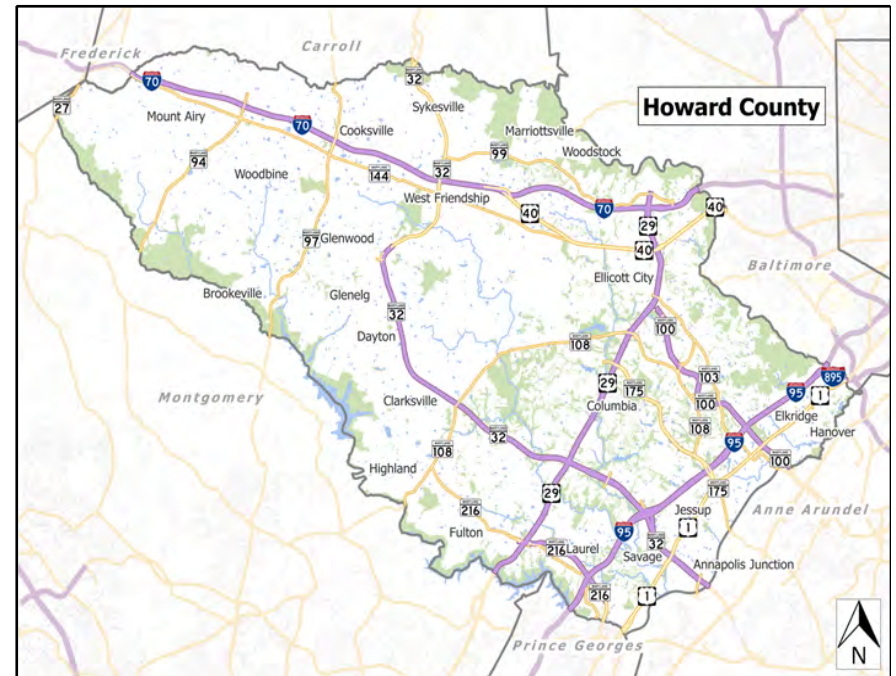

- 1. Site funds are needed for future enrollment growth.

### Project Schedule

Ongoing.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,234,125

## Project: E1012-FY2008 SCHOOL PARKING LOT EXPANSION

# SCHOOL SYSTEM PROJECTS

Number: E1012

### Description

A project to provide for the construction of additional parking spaces and modification of parking lots to improve traffic flow patterns at existing school sites.

### Operating Budget Impact

Annual Bond Redemption \$ \$368,055

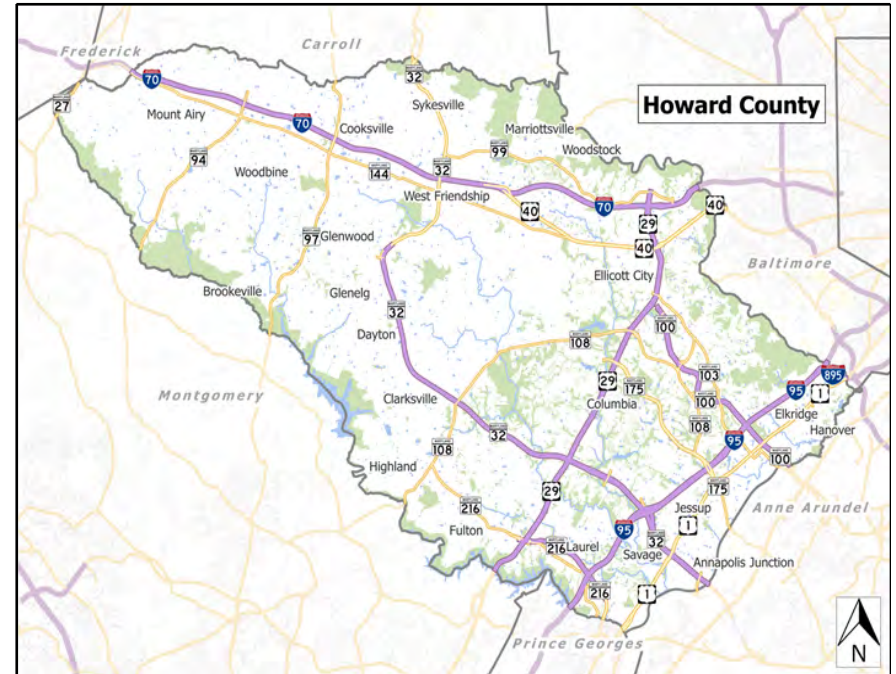

### Justification

Parking expansions are necessary due to the insufficient supply of spaces to meet existing demands. Funds are used for parking improvements on sites that are not slated for other construction projects.

### Remarks

- 1. Parking lot projects are to be determined.

## Project: E1015-FY2011 ATHOLTON HIGH RENOVATION

# SCHOOL SYSTEM PROJECTS

Number: E1015

### Description

A project to expand educational program spaces and renovate Atholton High School. Interior spaces will be reconfigured as needed. The project will partially address deficiencies in educational program space which were identified in a recent facilities assessment survey. New spaces will be added as required. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

The recently completed high school facility needs assessment documented the necessity for this renovation.

### Remarks

1. The original building was constructed in 1966. It requires updating to align with current educational standards.
2. Prior appropriation reflects TAO 1-2015.

### Project Schedule

July 2010 - March 2012: Planning.

May 2012 - April 2013: Phase I - New addition.

May 2013 - December 2013: Phase II & IIA - Auditorium/media center renovations.

January 2014 - June 2014: Phase III - 2nd floor science & classroom renovation, cafeteria addition.

June 2014 - December 2014: Phase IV - Art and athletic renovations.

January 2015 - June 2015: Phase V - Gym and administrative area renovations.

June 2015 - August 2015: Phase VA - Parking, main entrance, and main mechanical room renovations.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,868,985

# Fiscal 2018 Capital Budget

# SCHOOL SYSTEM PROJECTS

## Project: E1020-FY2011 NEW ELEMENTARY SCHOOL #41

Number: E1020

### Description

A project to construct a new elementary school to relieve the Northeastern and Northern regions. New Elementary School #41 was named Ducketts Lane Elementary School. The school was constructed in accordance with requirements set forth in the new elementary educational specifications and has a capacity of 600 students. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

Without this project, the number of elementary students in the Northeastern region was expected to exceed capacity by 875 students in 2013. Capacity utilization in the Northeastern region is exceeding 100% through and beyond the long range planning period without this facility. Particularly acute concerns include Bellows Spring ES, Deep Run ES, and Elkridge ES, which will all be at 115% or more utilization in 2013. A school site on Ducketts Lane was acquired. The Board of Education approved redistricting for New ES #41 on November 15, 2012.

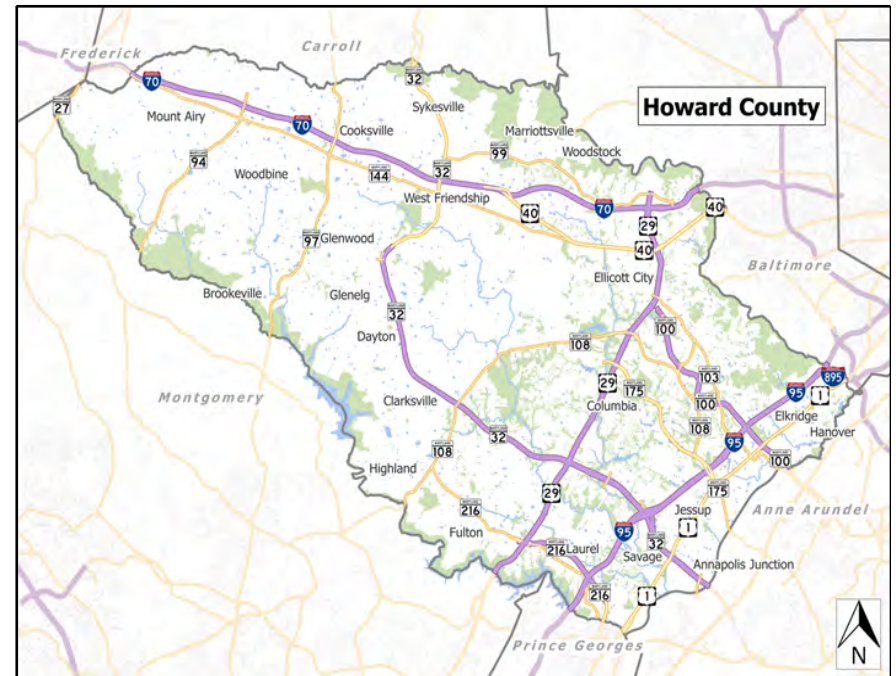

### Remarks

### Project Schedule

October 2011 - December 2011: Construction Documents.  
February 2012 - March 2012: Bid Process.  
April 2012 - August 2013: Construction Complete.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,094,715

## Project: E1021-FY2011 TECHNOLOGY

# SCHOOL SYSTEM PROJECTS

Number: E1021

### Description

A capital project to provide and sustain a viable technology infrastructure consistent with the HCPSS technology plan at various school sites.

### Justification

Funds are required for continuous improvements and upgrades to the HCPSS network infrastructure and computer systems to ensure that instruction and business technology needs are met in a standard and equitable manner. Technology refresh programs, known as "Replacement Plans," have been established to ensure that all HCPSS students and school-based staff are equipped with the appropriate computing and network resources. Replacement Plans are designed to ensure that these essential resources are kept current in order to meet instruction and business technology requirements.

### Remarks

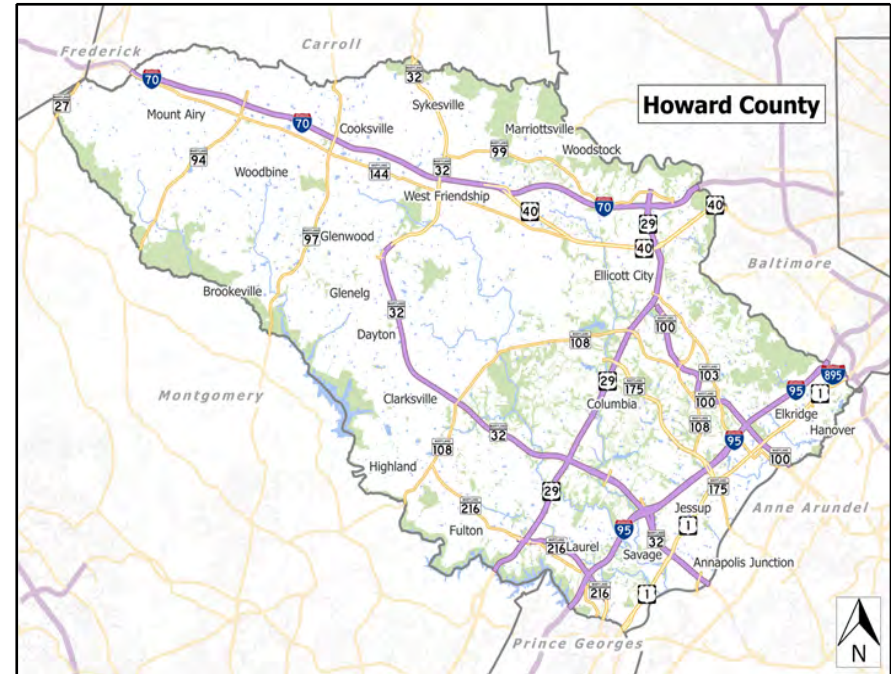

### Project Schedule

Technology Replacement Plan 2.0: school administrative positions/offices computers, printers, and MFDs at all levels.  
Partial Technology Replacement Plan 3.0: school curriculum programs printer and partial computer replacement at all levels.

### Operating Budget Impact

Annual Bond Redemption \$ \$224,370

Estimated operating cost impact upon completion: No increase

## Project: E1024-FY2018 HAMMOND HIGH SCHOOL RENOVATION

# SCHOOL SYSTEM PROJECTS

Number: E1024

### Description

A project to expand educational program spaces and renovate Hammond High School. Interior spaces will be reconfigured as needed. The project will partially address deficiencies in educational program space which were identified in a recent facilities assessment survey. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

The recently completed high school facility needs assessment documented the necessity for this renovation.

### Remarks

1. The original building was completed in 1976. It requires updating to align with current educational standards.

### Project Schedule

2023: Feasibility Study.

2023 - 2024: Planning.

2025 - 2028: Construction.

Work will be Completed in Phases.

### Operating Budget Impact

Annual Bond Redemption \$ \$3,233,025

## Project: E1028-FY2016 NEW ELEMENTARY SCHOOL #42

# SCHOOL SYSTEM PROJECTS

Number: E1028

### Description

A project to construct a new elementary school to relieve the Northeastern and Southeastern regions. The school will be constructed in accordance with requirements set forth in the June 2003 elementary educational specifications and have a capacity of 788 students. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

The region will exceed 115 percent utilization in 2023 and require approximately 1,000 additional seats.

### Remarks

### Project Schedule

2015: Feasibility Study.  
2015 - 2016 : Planning.  
2016 - 2018: Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,303,425

Upon completion, the maintenance of this facility will be the responsibility of HCPSS Facilities Services. Operating cost impact is unknown at this time.

## SCHOOL SYSTEM PROJECTS

Project: E1030-FY2014 DEEP RUN ELEM SCHOOL RENOVATION/ADDITION

Number: E1030

### Description

A project to expand educational program spaces and renovate Deep Run Elementary School. Interior spaces will be reconfigured as needed. The project will partially address deficiencies in educational program space which were identified in a recent facilities assessment survey. This project will provide 100 seats of additional classroom space and additional core infrastructure space necessary to operate effectively at the larger capacity. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

Significant enrollment growth is projected for the Northeastern Region. Deep Run ES and other schools in the region will be severely impacted by new development in the Corridor Activity Center zone along Route 1.

### Remarks

1. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

### Project Schedule

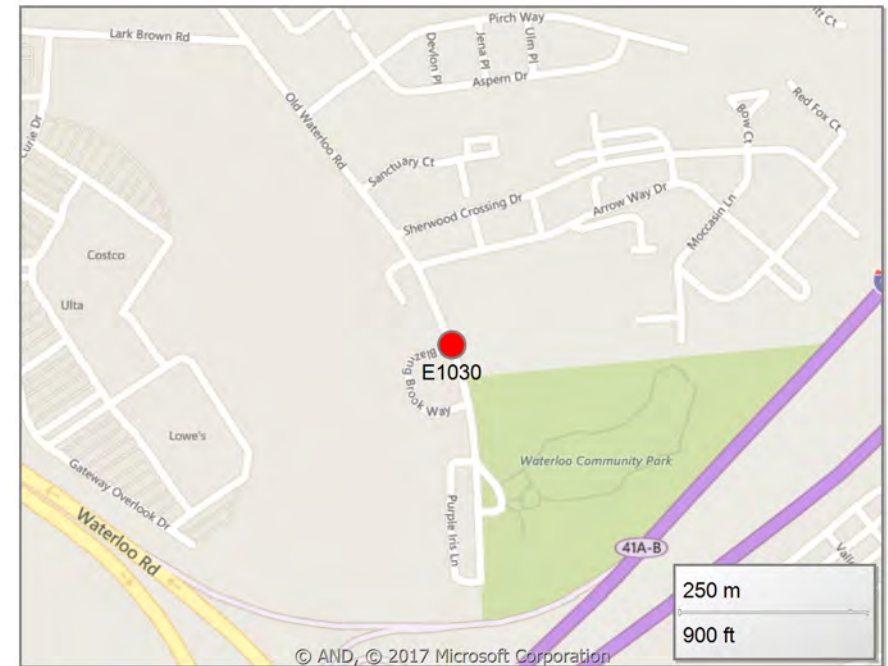

September 2012 - April 2013: Feasibility Study.

May 2013 - June 2014: Planning.

September 2014 - November 2016: Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$740,520

## Project: E1031-FY2014 WILDE LAKE MIDDLE SCHOOL REPLACEMENT

Number: E1031

### Description

A project to replace Wilde Lake Middle School. The replacement school will provide capacity for 760 students. This building will be Net Zero and US Green Building Council (USGBC) LEED Certified. The building will be powered by solar voltaic cells on the roof. The architectural design is highly efficient considering building orientation, mass, and scale. The mechanical systems finely control electric lighting and HVAC and controls. These considerations position the new Wilde Lake Middle School to be the most energy conscious and efficient school in the state. Solar power will allow the net draw from the power grid over the course of a year to be zero. This kind of capital investment can defray operating expenses. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

The projected capacity utilization for the Columbia West region, as well as Wilde Lake MS, exceeded 110% in 2015. This condition continues for the rest of the projection. A 2008 facility assessment concluded that the WLMS building had a net program area deficiency of 13.6 percent, the largest deficiency of educational program area of the 19 middle schools operating at that time. A subsequent feasibility study determined that the cost of an Americans with Disabilities Act (ADA) compliant renovation was comparable to a replacement.

### Remarks

1. The original building was constructed in 1969.

### Project Schedule

July 2013 - December 2013: Feasibility Study.

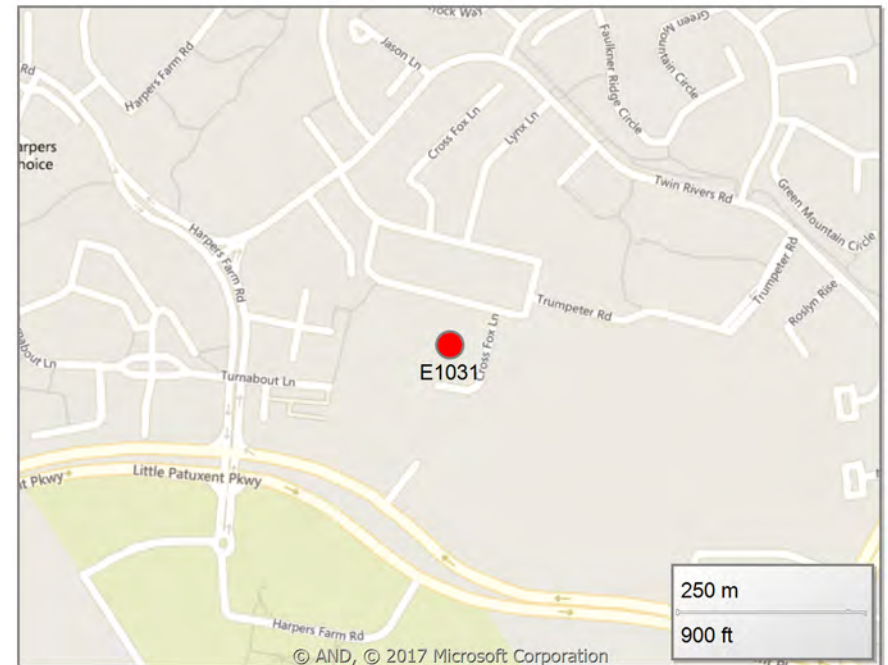

January 2014 - December 2014: Planning.

May 2015 - August 2017: Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,256,310

Upon completion, the maintenance of this facility will be the responsibility of HCPSS Facilities Services. Operating cost impact is unknown at this time.

# SCHOOL SYSTEM PROJECTS

## Project: E1032-FY2014 LAUREL WOODS ELEM SCHOOL ADDITION

Number: E1032

### Description

A project to expand educational program spaces at Laurel Woods Elementary School. This project will provide 100 seats of additional classroom space and additional core infrastructure space necessary to operate effectively at the larger capacity. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

Future enrollment growth is projected. The approved 2012 redistricting plans acknowledged the need for additional capacity at Laurel Woods ES within the near term. Without the addition, Laurel Woods ES was projected to be above 110% capacity utilization in 2018.

### Remarks

1. Prior Appropriation includes transfers legislated by Council Resolution 1-2015.

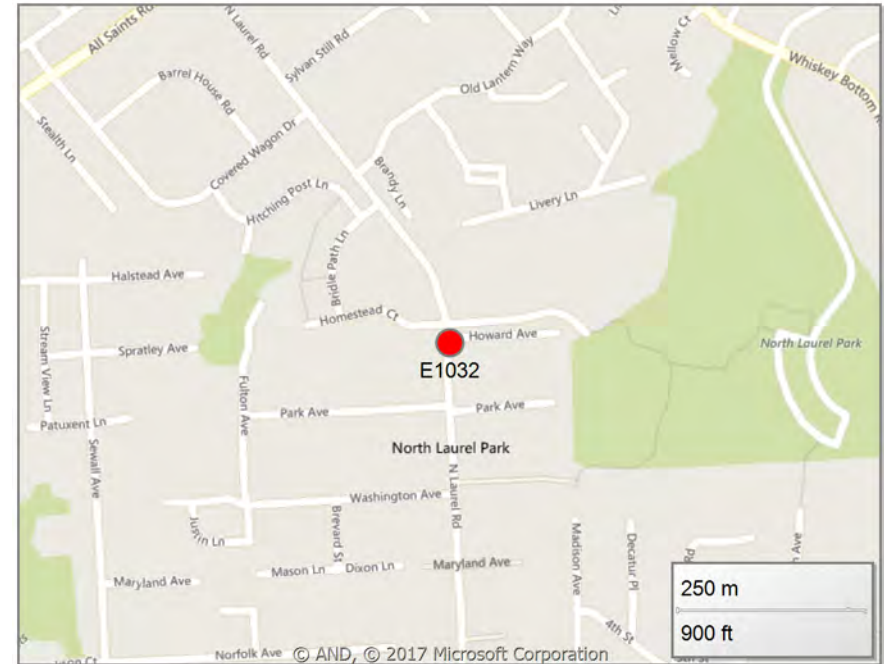

### Project Schedule

July 2013 - May 2014: Planning.

June 2014 - August 2015: Construction Complete.

### Operating Budget Impact

Annual Bond Redemption \$ \$284,220

## Project: E1033-FY2015 PATUXENT VALLEY MIDDLE SCHOOL RENOVATION

Number: E1033

### Description

A project to expand educational program spaces and renovate Patuxent Valley Middle School. Interior spaces will be reconfigured as needed. The project will partially address deficiencies in educational program space which were identified in a recent facilities assessment survey. New spaces will be added as required. The complete scope of this project is defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

The recently completed middle school facility needs assessment documented the necessity for this renovation.

### Remarks

1. The original building was constructed in 1989. It requires updating to align with current educational standards.

### Project Schedule

July 2013 - October 2013: Feasibility Study.  
November 2013 - September 2014: Planning.  
January 2015 - August 2017: Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$788,895

Estimated operating cost impact upon completion: No increase

## Project: E1035-FY2018 NEW HIGH SCHOOL #13

# SCHOOL SYSTEM PROJECTS

Number: E1035

### Description

A project to construct a new high school to provide the HCPSS with the opportunity to expand college and career readiness programs for high school students across the county. Given the significant cost to build new facilities, it is recommended that this new high school be built to a larger capacity, 1,600 -1,800 students. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 for complete description of process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

Based upon enrollment projections, at least one additional high school is needed to accommodate growth. Balanced capacity utilization in the northeast region alone would require 1,000 additional seats by 2019.

### Remarks

### Project Schedule

March 2016 - June 2017: Feasibility Study and Education Specifications.  
July 2019 - July 2021: Planning.  
January 2022 - August 2024: Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$3,818,745

Upon completion, the maintenance of this facility will be the responsibility of HCPSS Facilities Services. Operating cost impact is unknown at this time.

## SCHOOL SYSTEM PROJECTS

### Project: E1036-FY2019 OAKLAND MILLS MIDDLE SCHOOL RENOVATION

Number: E1036

#### Description

The Oakland Mills Middle School project will renovate the existing facility. The project calls for a renovation of the existing building in accord with recommendations of a future feasibility study or scope of work review. Renovation may include new electrical, mechanical, plumbing, technology, roofing, and life safety systems as applicable per the scope of work. Some interior spaces will be reconfigured, new finishes provided, accessibility improved, and new spaces added as required, bringing the facility into compliance with the Howard County Public School System Guidance Manual for Renovations and Modernizations of Existing Schools. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

#### Justification

Oakland Mills Middle School opened in 1972 and was renovated in 1998. In August 2008, HCPSS engaged Gilbert Architects Inc. to conduct a facility assessment of middle schools. This project evaluated and scored each school according to the Council of Educational Facilities Planners, International (CEFPI) appraisal guidelines. The assessment included reviewing each school's plan layouts and measurements of spaces to compare to the educational specifications developed by HCPSS for middle schools. The report concluded that Oakland Mills MS had 8.8 percent deficiency of educational program area. The FY 2016 capital budget introduced this project to the Capital Improvement Plan. In previous budgets, it was listed as a systemic renovation.

#### Remarks

#### Project Schedule

April 2016 - June 2016: Feasibility Study.  
July 2019 - July 2020: Planning.  
January 2021 - August 2021: Construction.

#### Operating Budget Impact

Annual Bond Redemption \$ \$632,340

Estimated operating cost impact upon completion: No increase

## Project: E1037-FY2023 ELLICOTT MILLS MIDDLE SCHOOL ADDITION

Number: E1037

### Description

The Ellicott Mills Middle School project will add 156 seats of new capacity to the existing school. This project will include an addition and light renovation to ensure seamless operation of the expanded facility. The majority of existing walls will remain; therefore, most existing classrooms will remain as classrooms. The addition will be designed to retain the use of natural daylight. The cafeteria will be enlarged to meet educational program requirements. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

Ellicott Mills Middle School is the third iteration of the current middle school prototype and opened in 2001. The projections in the June 2014 Feasibility Study support the approved middle school capacity adjustments and the effort invested in redistricting. All middle schools in the Northeast were relieved of overcrowding by the opening of Thomas Viaduct MS, except Ellicott Mills MS. Redistricting scenarios using western capacity failed to resolve crowding and created unacceptable travel distances and unusually elongated attending areas. With these findings, planned expansion of Ellicott Mills MS was contemplated in the Feasibility Study. This project is a next logical step after study of middle school capacity and analysis of redistricting scenarios.

### Remarks

### Project Schedule

October 2021 - December 2021: Feasibility Study.

January 2022 - January 2023: Planning.

August 2023 - August 2024: Construction.

# Fiscal 2018 Capital Budget

## Project: E1038-FY2017 PLANNING AND DESIGN

# SCHOOL SYSTEM PROJECTS

Number: E1038

### Description

The Planning and Design project has been established to provide funding for feasibility studies prior to the funding of individual projects. During the concept development stage, each project is summarized, supporting documentation is gathered, and necessary approvals are obtained before construction begins. A feasibility study provides the analysis to determine the scope and breadth of a project under consideration.

### Justification

The value of these studies is having the flexibility to ask technical questions about projects before the formal design process. With these studies projects can be "right sized." Pricing for these studies is favorable because design consultants want to obtain the full design project. Through a feasibility study the Board of Education is able to examine the needs of an existing building as well as unexpected design circumstances. These studies ensure the selection of the most effective scope for each project. This process will reduce the costs associated with significant changes in scope which often occur in a compressed planning schedule. In the construction phase, the reduced number of change orders will lessen the impact on the construction schedule and decrease incremental costs.

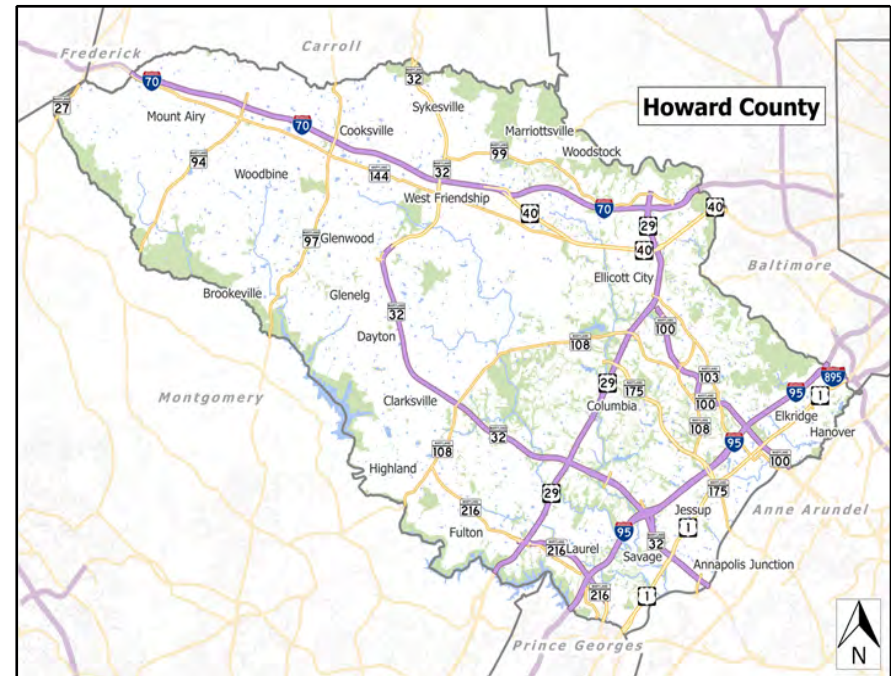

### Remarks

### Project Schedule

Proposed Feasibility Studies in FY2018:  
New HS #13.  
Talbott Springs ES Renovation.  
West Friendship ES MBR.

### Operating Budget Impact

Estimated operating cost impact upon completion: No increase

# Fiscal 2018 Capital Budget

## Project: E1039-FY2020 NEW ELEM SCHOOL #43

# SCHOOL SYSTEM PROJECTS

Number: E1039

### Description

The New Elementary School #43 will be a new facility. The Southeast region is projected to be at 116% capacity utilization in 2022. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

The recently completed comprehensive zoning increased the entire housing projection this year by 996 units, most of which was in the East. New ES #42 will be built in the Northeast region at Oxford Square. The needs of the southeast region are evident in the projections of Bollman Bridge ES and Forest Ridge ES. The location of New ES #43 is to be determined. A location in close proximity to the planned Transit Oriented Development is desirable.

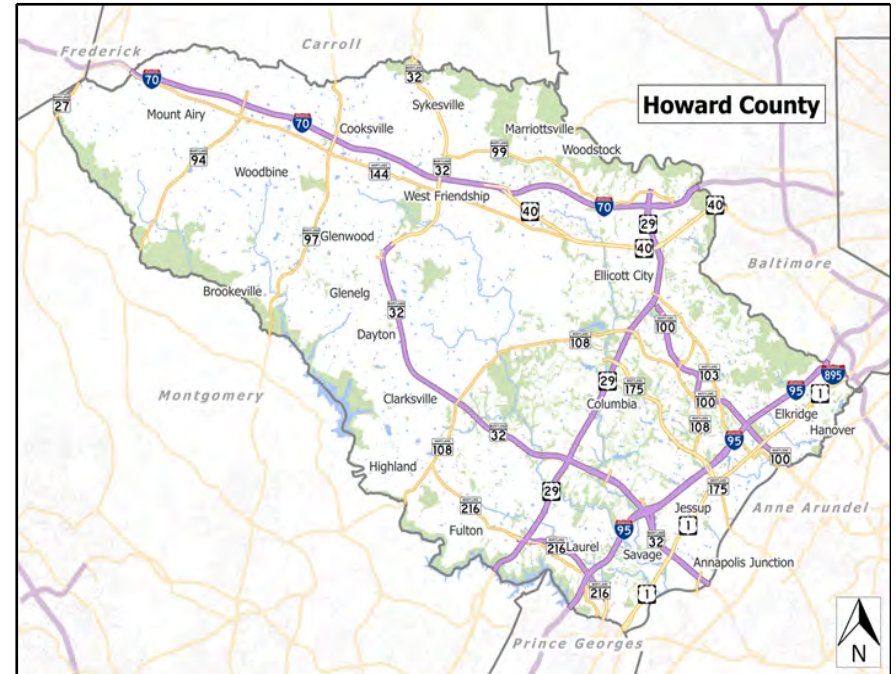

### Remarks

### Project Schedule

July 2020 - September 2020: Feasibility Study.  
October 2020 - September 2021: Planning.  
April 2022 - August 2023: Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,267,965

# Fiscal 2018 Capital Budget

## Project: E1040-FY2024 NEW ELEM SCHOOL #44

# SCHOOL SYSTEM PROJECTS

Number: E1040

### Description

The New Elementary School #44 will be a new facility. The Columbia West region is projected to be at 118% capacity utilization in 2023. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

Running Brook ES (with expansion) is expected to exceed 110 percent utilization by 2018. A redistricting strategy alone, which uses nearby schools like Clarksville ES will not provide an adequate solution to accommodate the projected growth. Faulkner Ridge Center was closed on July 1, 2011. This site is a likely location for redevelopment as a future school.

### Remarks

### Project Schedule

July 2024 - September 2024: Feasibility Study.  
October 2024 - September 2025: Planning.  
April 2026 - August 2027: Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$2,510,775

# Fiscal 2018 Capital Budget

## Project: E1041-FY2026 NEW ELEM SCHOOL #45

# SCHOOL SYSTEM PROJECTS

Number: E1041

### Description

The New Elementary School #45 will be a new facility. The Northern region is projected to be at 137% capacity utilization in 2026. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

Projections continue to support the need for elementary redistricting to relieve overcrowding at Manor Woods ES associated with Turf Valley growth. The addition at Waverly ES can absorb some growth. Considering the limited potential for expanding schools outside of the sewer service area, a Turf Valley school is planned. Land is being acquired for this future school.

### Remarks

# Fiscal 2018 Capital Budget

# SCHOOL SYSTEM PROJECTS

Project: E1042-FY2028 NEW MIDDLE SCHOOL #21

Number: E1042

## Description

The New Middle School #21 will be a new facility. The Northeast region is projected to be at 121% capacity utilization in 2025. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

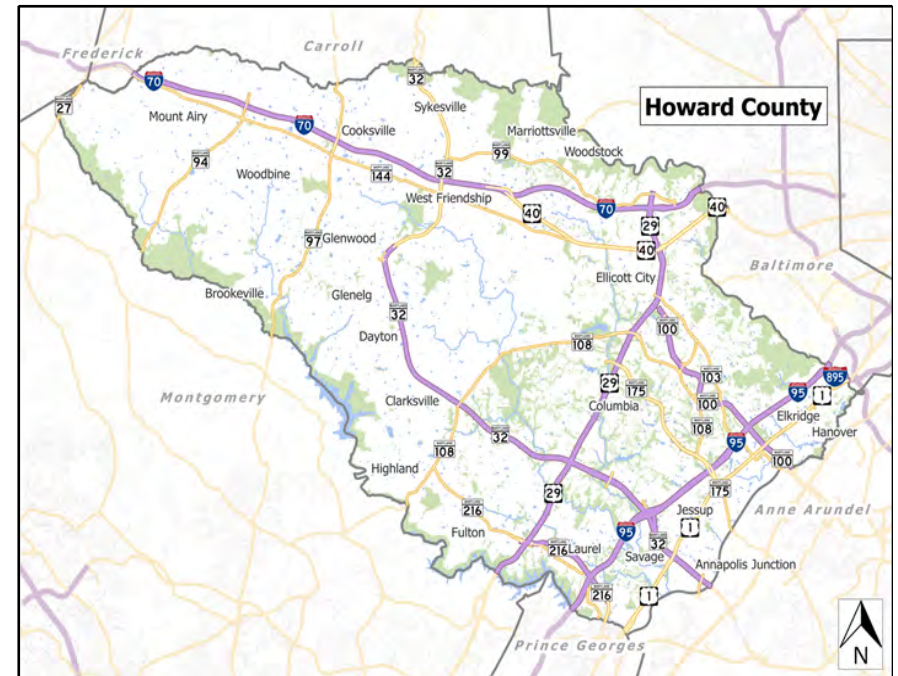

## Justification

The opening of Thomas Viaduct MS in the 2014-2015 school year is a tangible reminder that growth is impacting middle school capacities as well. By 2025, three of five middle schools in Northeast region will have significant overcrowding. The same will be true for all three Southeastern region middle schools. Site acquisition efforts are underway.

## Remarks

## Project Schedule

Schedule to be determined.

# SCHOOL SYSTEM PROJECTS

## Project: E1043-FY2019 TALBOTT SPRINGS ELEM SCHOOL RENOVATION

Number: E1043

### Description

A project to expand educational program spaces and renovate Talbott Springs Elementary School. The planned scope of work for the school includes programmatic, systemic, and physical upgrades as required to bring the facility into compliance with the HCPSS Guideline Manual for Renovations and Modernizations of Existing Schools. The programmatic changes include providing individual classrooms and corridors, creating a COMAR compliant health suite, and providing adjunct space to relocate existing portable classrooms inside of the building. The systemic upgrades consist of a complete renovation of the existing building including new electrical, mechanical, plumbing, technology, roofing, and life safety systems with an emphasis on energy efficiency. The physical upgrades include a refinished gymnasium floor, new doors and hardware, additional exterior windows, as well as new casework and finishes. Talbott Springs Elementary School will be another USGBC LEED Certified school facility for Howard County. Staff is currently conducting a feasibility study for state approval to possibly construct a replacement school. The complete scope of this project will be defined by the BOE approved construction documents (CD) brochure (see Policy 6020 in the Supporting Data Section for a complete description of the process) and any change orders approved subsequent to submittal of the CD brochure.

### Justification

Talbott Springs Elementary School opened in 1973 and was renovated in 2000. The school was expanded in 2000 (art room and gymnasium) and 2008 (all day kindergarten). In April 2009, HCPSS engaged Gilbert Architects Inc. to conduct a facility assessment of elementary schools. The report concluded that Talbott Springs Elementary School had 18.7 percent deficiency of educational program area of the 40 elementary schools operating at that time.

### Remarks

# Fiscal 2018 Capital Budget

## Project: F5960-FY2001 FIRESTATION SYSTEMIC IMPROVEMENTS

# FIRE PROJECTS and EQUIPMENT

Number: F5960

### Description

An ongoing project to replace or renovate major systems, fixtures, or structures in various existing fire stations/PSTC.

### Justification

Many components of these facilities have reached the end of their useful life and need replacement. Some facilities need upgraded capabilities in order to continue to operate efficiently.

### Remarks

Miscellaneous repairs, modifications and improvements to County Fire Department Facilities are required on an ongoing basis.

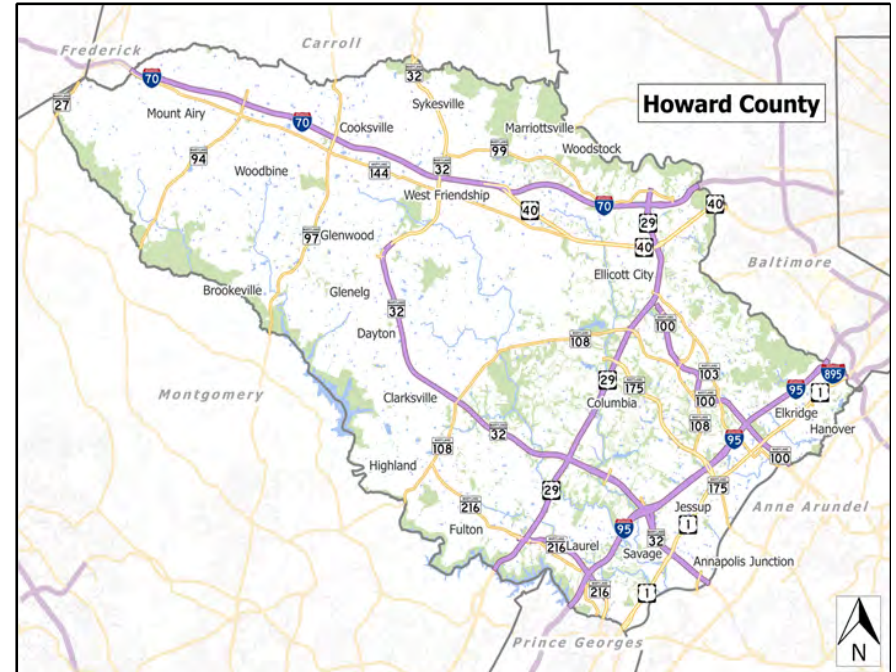

### Project Schedule

FY18-FY21 - Design and Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$266,535

O&M and Utility Impact in FY17 and beyond is estimated to be \$28,000 annually.

## Project: F5963-FY2004 EMERGENCY CONTROL SIGNAL SYSTEM

# FIRE PROJECTS and EQUIPMENT

Number: F5963

### Description

A project to install priority control systems in authorized emergency vehicles and at several strategic traffic signals to allow pre-emption of the signal when responding to emergency calls.

### Justification

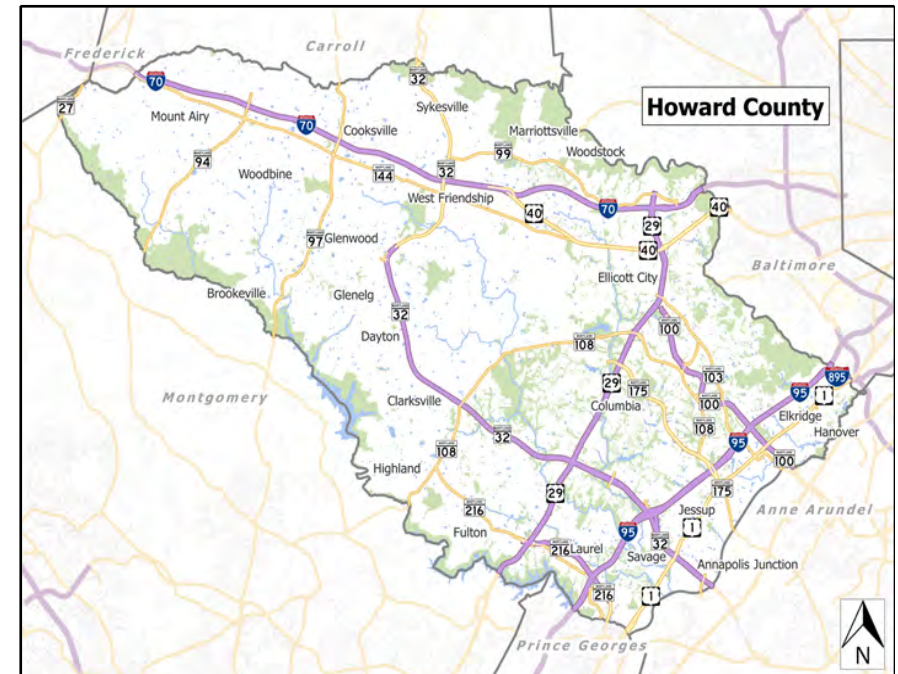

Congestion at red traffic signals impedes the response of emergency vehicles. Installation of priority control system equipment on strategic traffic signal approaches for the approaching emergency vehicle would help decrease response time and provide the safest driving condition.

### Remarks

1. 36 intersections have been completed as of November 22, 2013.

### Project Schedule

FY17 - Defund for other Fire priority project. Project will continue subject to approval of SHA and County approval process.

# Fiscal 2018 Capital Budget

## Project: F5964-FY2012 FIRESTATION ONE RELOCATION

# FIRE PROJECTS and EQUIPMENT

Number: F5964

### Description

A project to move Fire Station #1 to a more optimal location in Elkridge, close to the existing fire station location, but without the present site restrictions. This project was recommended in the Fire and Rescue Facilities Study which was completed in FY04.

### Justification

This project is required because the current fire station is old, deteriorating and inadequate to meet the growing demands of the local communities. The current site is insufficient to allow the necessary enlargement/improvement to the fire station. This project was recommended in the Fire and Rescue Facilities Study which was completed in FY04.

### Remarks

1. Construction Bids received Oct. 2015 \$3.6 mil over estimated budget. Working with Fire Department to reduce scope in order to bring project back into approved budget. 2. OTHER represents funding from EVFC.

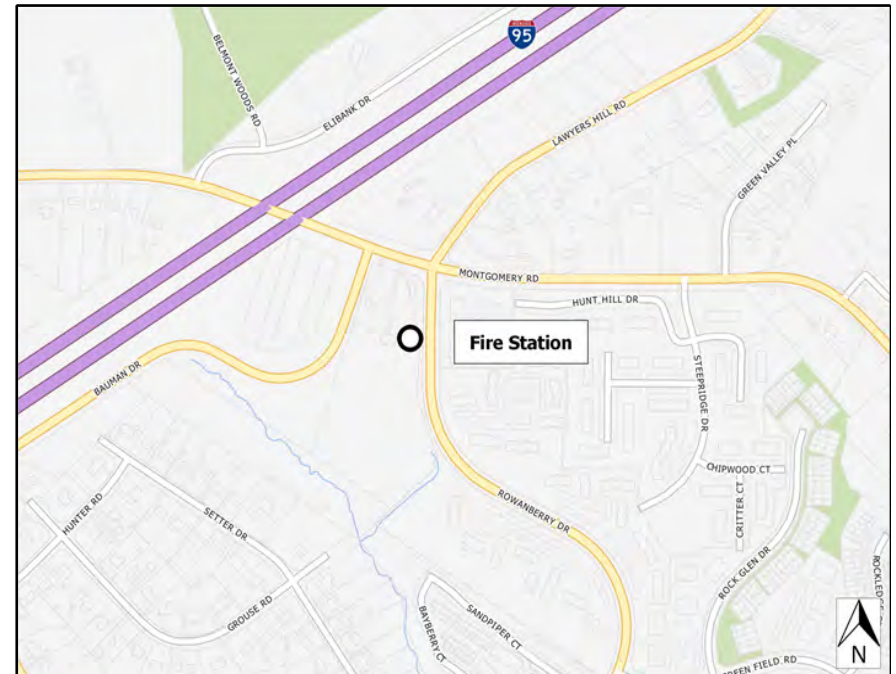

### Project Schedule

FY16- Redesign of Fire Station to accommodate available funds.  
FY17- Award Construction.  
FY18- Complete Construction.  
FY19- Project Closeout.

### Operating Budget Impact

Annual Bond Redemption \$ \$672,615

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~Station is cost neutral from the perspective of the operating budget since this is a relocation. There is no additional need at this time for new personnel or new apparatus to staff either station, though both facilities were built large enough for potential future growth should that be validated.

## Project: F5972-FY2008 RURAL FIRE PROTECTION PROGRAM

# FIRE PROJECTS and EQUIPMENT

Number: F5972

### Description

A project to provide and augment fire protection systems in rural areas within the County, outside of the Water and Sewer Planned Service Area.

### Justification

Increased development in rural areas of the County has created a need for additional water tankers, upgrades to emergency response equipment and access to strategically located water sources. The results will help ensure that water supplies are in place to adequately respond to fire demands.

### Remarks

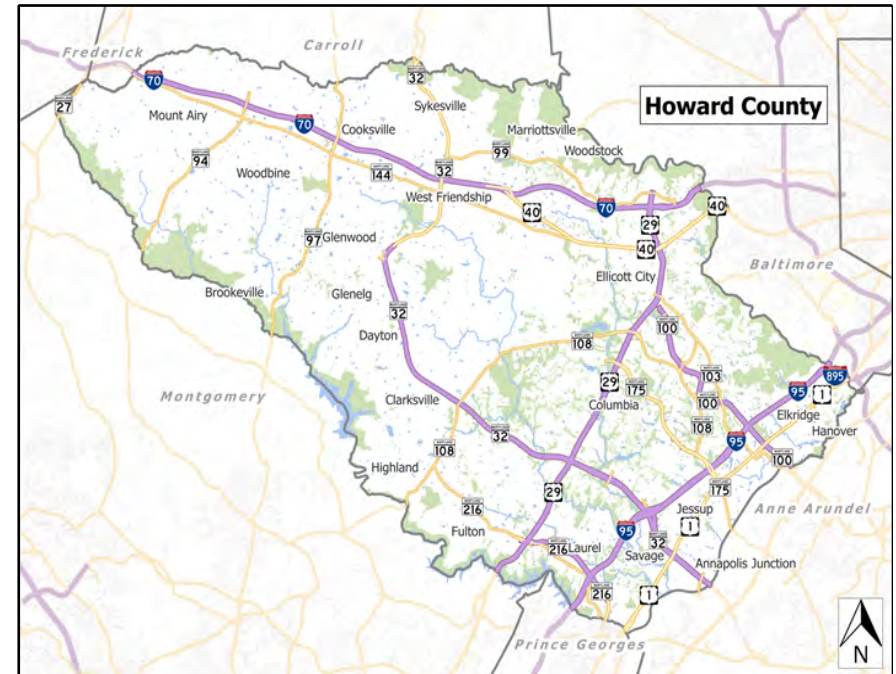

1. The project will install 5 to 10 emergency water supply systems per year for fire protection. It is anticipated that approximately 90 to 100 emergency water supply systems will be constructed under this capital project.
2. 40 cisterns have been installed and are operational.
3. The project will also upgrade or purchase new tankers and emergency equipment to ensure adequate response times to fire emergencies.
4. OTHER represents Pay as you Go generated from Fire Tax.
5. Request represents advancement of funds in the capital program.

### Project Schedule

Ongoing project

### Operating Budget Impact

\$5,000 per year represents the cost of operation and maintenance of the proposed emergency water supplies.

# Fiscal 2018 Capital Budget

## Project: F5973-FY2010 LOGISTICS FACILITY

# FIRE PROJECTS and EQUIPMENT

Number: F5973

### Description

Construction of a 17,000 SF facility to house the Department's Quartermaster, Breathing Apparatus Repair Shop, Equipment Repair Shop, Reserve Emergency Apparatus, Equipment Storage.

### Justification

The Department of Fire and Rescue Services, Bureau of Logistics supports the delivery of emergency services by providing supplies, equipment and apparatus throughout the Department. This includes repair and maintenance of Self Contained Breathing Apparatus (SCBA) and the storage and readiness of reserve emergency vehicles. The Bureau currently delivers these services from four locations; Fire and Rescue Headquarters (Gateway Building), Dorsey Building, Public Safety Training Center and Fire Station 2. It is imperative that the four sites be consolidated into one centrally located location meeting the growing demands of both internal and external F&R customers.

### Remarks

Based upon a reassessment of priorities DFRS has reallocated funds from this project for other higher priorities.

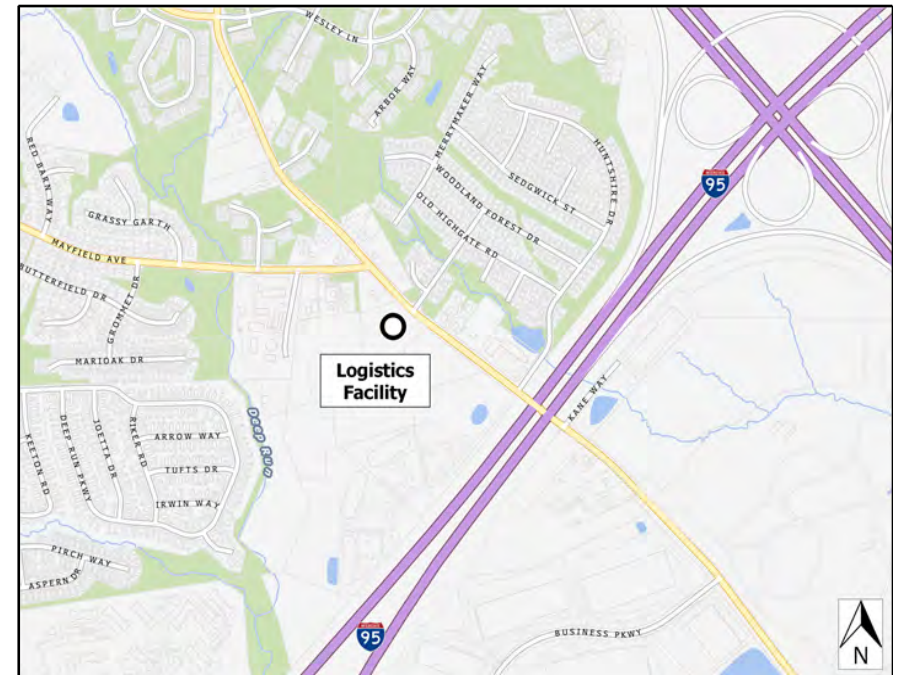

### Project Schedule

FY17/18 - Defund project available balance and use for priority projects.  
Complete shared access road construction to include storm water management.  
FY18 - Project on hold for funding pending DFRS priorities.

### Operating Budget Impact

Annual Bond Redemption \$ \$83,250

Cost neutral from the perspective of the operating budget. It will provide a central location for the key support services like the Quartermaster and BA Shop. Personnel will be relocated to operate and staff this facility from the Dorsey Building where they are currently located.

## Project: F5975-FY2010 ROUTE ONE FIRE STATION

Number: F5975

### Description

A project to construct a new 30,000 SF fire station at the intersection of RT1 & Port Capital Drive. Fire Station will be built on recently purchased County land and State-owned land that the County is presently in the process of acquiring.

### Justification

This fire/EMS station is required to improve response times to a critically deficient geographic area of the County and prepare for additional demand along the Route 1 corridor and in association with BRAC.

### Remarks

1. OTHER represents Pay as you Go generated from Fire Tax.

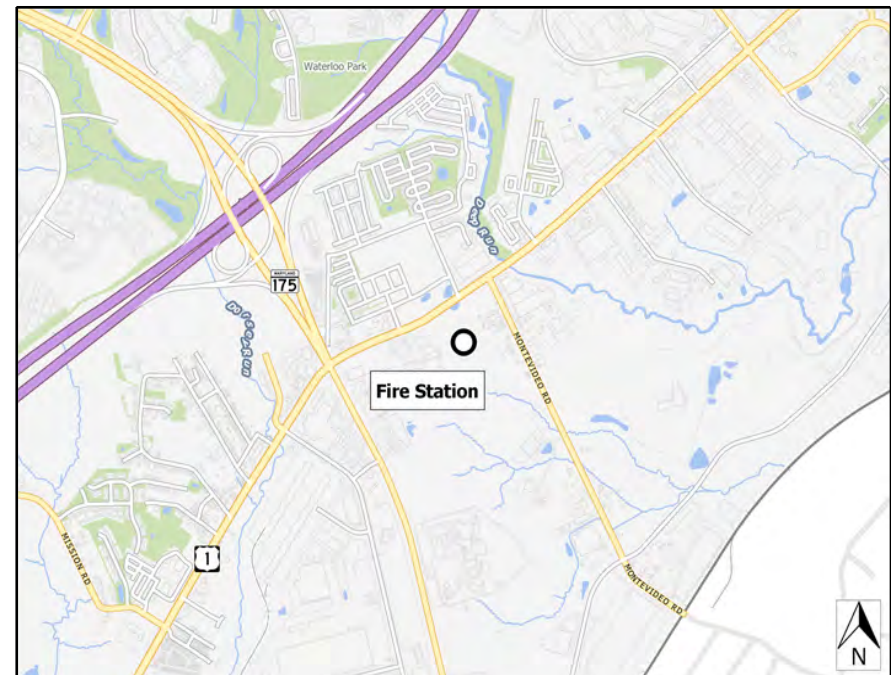

### Project Schedule

FY17- Land Acquisition, Bid, Start Construction  
FY18- Complete Site Design additional funds required for SDP and FFE.  
Construction will start.  
FY19- Complete Construction.  
FY20- Close Out.

### Operating Budget Impact

Annual Bond Redemption \$ \$493,875

The Department is in the process of reviewing data and deployment plans to make final decisions regarding the assignment of apparatus and staffing in the new station proposed. Minimally, the request will include be an engine staffed with four personnel 24/7 and a medical unit staffed with two personnel 24/7. Whether a second medic or a special service (a rescue squad, truck, etal) is needed will be determined following additional analysis.

# Fiscal 2018 Capital Budget

# FIRE PROJECTS and EQUIPMENT

## Project: F5976-FY2018 NORTH COLUMBIA FIRE STATION

Number: F5976

### Description

A project to construct a new 10,000 SF fire station to establish emergency services in a strategic position in the North Columbia area that will serve to relieve the demands associated with increased population density and call demands in the area.

### Justification

This fire station will provide Columbia and surrounding areas with a new fire station that is strategically located so as to provide improved services. Growth pattern changes coupled with increased projected demands on the sole downtown fire station has dictated the need for a new fire station. Recent analysis substantiates the need for equipment to maintained at this location

### Remarks

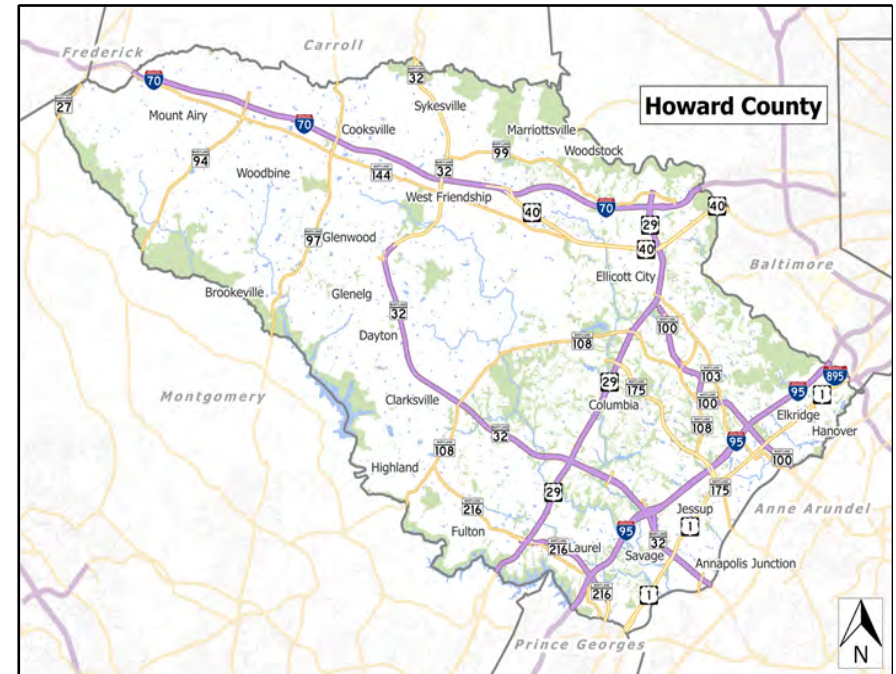

### Project Schedule

FY18- Start limited Design.  
FY19 - Land Acquisition.  
FY20 - Plans and Engineering, Construction, & FFE.

### Operating Budget Impact

Annual Bond Redemption \$ \$290,475

The opening year's operating and maintenance cost will be approximately 2M. Subsequent costs are projected at 750K

# Fiscal 2018 Capital Budget

## Project: G0163-AGRICULTURAL LAND PRESERVATION PROGRAM

# AGRICULTURAL PRESERVATION

Number: G0163

### Description

A voluntary program to preserve farmland by purchasing development rights from landowners via a perpetual easement. The objective is to support the agricultural community by keeping the land base available for farming by reducing residential development in agricultural areas. The program is funded by two main sources: County Real Estate Transfer Tax, 1/4 of the 1% transfer tax on all real estate sales are dedicated to the program and constitute the largest revenue source; and State Agriculture Transfer Tax, 33% of the 5% state tax on all farmland converted to non-farming uses retained by the County for purchase of development rights.

### Justification

Gives farmers an alternative to selling land for residential development. Comprehensive zoning regulations adopted in September, 1992 include cluster development and ability to exchange density from one parcel to another (DEO). Preservation tools: purchase of development rights, dedication of easements on cluster remainders, DEO sending parcels. Development rights may be acquired by County's Agricultural Land Preservation Program or State's Maryland Agricultural Land Preservation Foundation (MALPF).

### Remarks

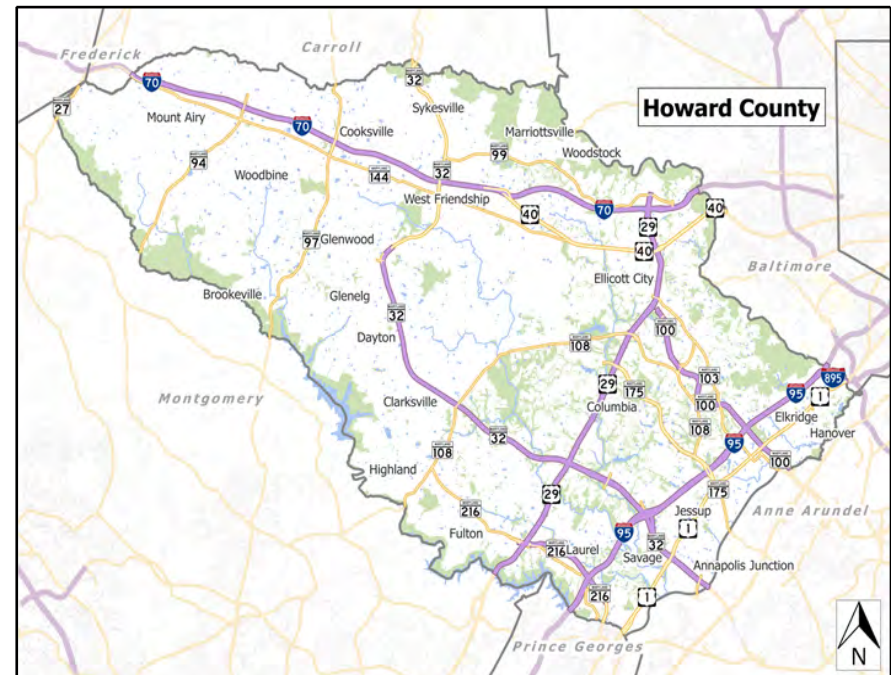

1. OTHER SOURCES represents authorization by the County Council to enter into installment purchase agreements to acquire development rights.
2. GRANT represents Federal Farmland Protection funds for MALPF easements.
3. All prior authorized funding was spent on Batch 14 acquisitions.
4. Additional spending authority of \$50 million was requested and approved in the FY14 budget for the purchase of easements.

### Project Schedule

FY 17 - New acquisitions anticipated.

### Operating Budget Impact

Salaries/Benefits (2 employees), Contractual Services, Supplies & Materials, Business & Education Expenses, Other Operating Expenses, all approximately = \$7 million.~One person serves as resource planner for program in Resource Conservation Division. No General Fund monies are used to fund.

**\$125,150,060 spent and encumbered through February 2017**

**\$123,517,701 spent and encumbered through February 2016**

**Project Status :** 1. Project was first funded in FY91.

2.County Installment Purchase Agreement (IPA) Batches 1 - 9 spent initial allocation of \$55 million through 1997.

3.Allocation of \$15 million approved by County Council in FY01 budget.

4.County IPA Batch 10 - Purchased easements for \$2,475,090 on 400.5 acres in June 2002.

5.County IPA Batches 11 and 12 - Purchase of easements on approximately 465 acres approved by County Council, but no purchases were completed.

6.County IPA Batch 13 - Purchased two easements on approximately 218 acres in FY 08 for \$8,369,200. Purchased one easement on 35 acres in FY09 for \$893,000.

7.No FY 10 expenditures.

8.Remaining FY01 appropriation of \$3,262,710 was spent on first two Batch 14 properties which occurred In FY 11.

9.\$24,000,000 additional appropriation made available from FY 07 budget, and \$12,500,000 additional appropriation from FY 08 budget.

10.County IPA Batch 14 - \$8,153,290 of FY 07 and FY 08 appropriations was spent on the acquisition of 374 acres on 4 parcels in FY 11.

11.County IPA Batch 14 - 28,057,000 of FY 07 and FY 08 appropriations was spent on the acquisition of 793 acres on 3 parcels in FY 12.

12.Allocation of \$50 million approved by County Council for FY 14.

13.To date, \$4.1 million, in cash payments for 2 properties totaling 146 acres.

14.To date, \$18.2 million in IPA/Es for 11 properties totaling 656 acres.

15.To date, 3 other applicants in various stages of acquisition process for a total of \$10.8 million comprised of 307 acres.

# Fiscal 2018 Capital Budget

## Project: H2011-FY2013 MICRO SURFACING PROGRAM

# HIGHWAY RESURFACING

Number: H2011

### Description

A program of applying polymer asphalt emulsion or paving fabric over the existing surface of roads to provide an impervious new wearing surface. The coating contains high quality aggregate and mineral fillers that provide rut filling capability.

### Justification

A surface endurance extension program to extend the useful life of the existing road, delaying the cost and need for complete resurfacing.

### Remarks

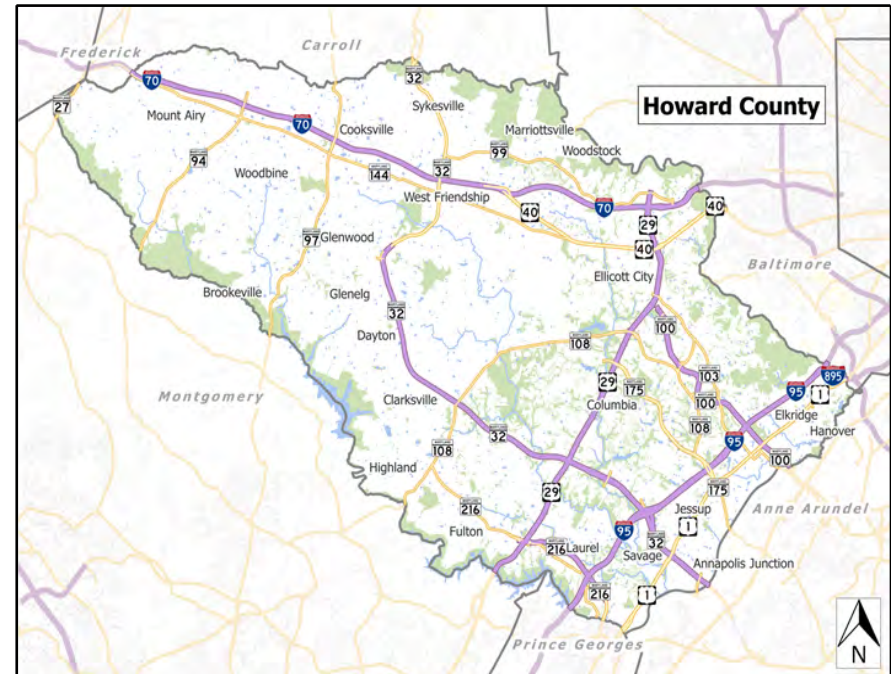

Roads not completed this fiscal year will be completed in subsequent years.

### Project Schedule

Approximately 20 miles of roads microsurfaced per \$1M budgeted.  
Close at program completion. Project work driven by available funding.

### Operating Budget Impact

Reduce maintenance costs.

Number: H2014

### Description

A project to provide resurfacing to various County roads. The roads are selected and prioritized by the Pavement Management System (PMS). The PMS rates roads based on the actual observed conditions of the road surface. Milling, patching, shoulder improvements, surface-seal, curbs, pavement assessment, and other road preparation work may be required. High visibility lane markers may be installed to improve driving conditions. Currently, County maintains approximately 1,060 miles of roads.

### Justification

The roads are rated based on observation and maintenance history and are impartially recommended for a priority relative to the needs of all other roads in the County system.

### Remarks

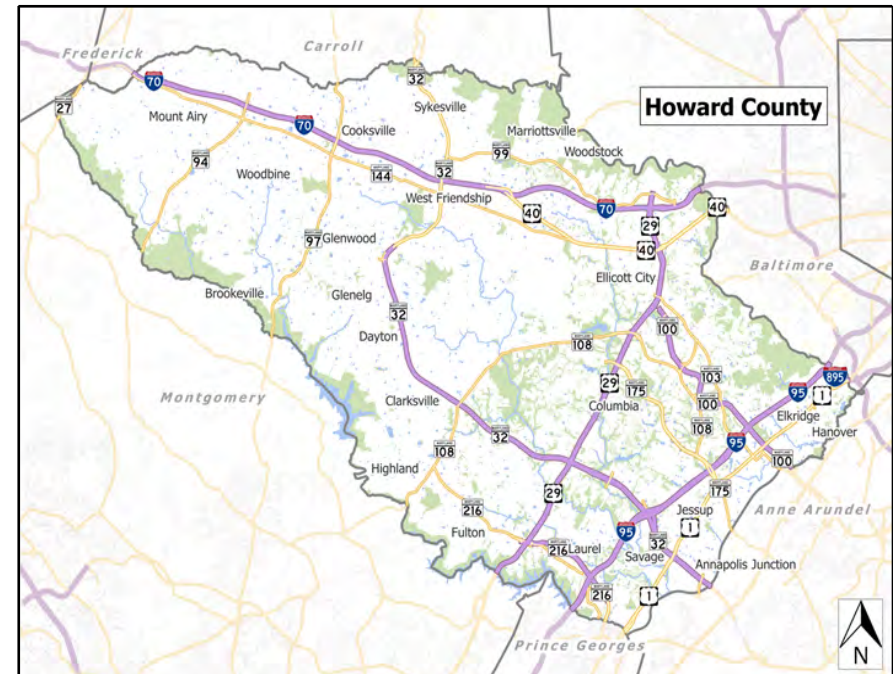

1. Roads not completed this fiscal year will be completed in subsequent fiscal years.
2. Recent cuts in the paving budget have led to increasing deterioration in the pavement and more costly rehabilitation is required.
3. TAO #2-2104.
4. FY15 - \$1.5M Paygo funding utilized for operating budget revenue shortfall.

### Project Schedule

Approximately 6 miles of roads paved per \$1M budgeted.  
Project completed as funding available.  
Close at program completion.

### Operating Budget Impact

Reduce maintenance costs

# Fiscal 2018 Capital Budget

## Project: H2015-FY2013 ROADWAY INFRASTRUCTURE INVENTORY AND ASSESSMENT

# HIGHWAY RESURFACING

Number: H2015

### Description

A program to provide roadway images and pavement data collection, perform pavement management repair assessment, consulting services for optimization of pavement repair recommendations, perform profile data International Roughness Index (IRI) and calculate Pavement Condition Index (PCI).

### Justification

A new pavement management system had replaced the old RMS System for the best use of the limited paving budget.

### Remarks

1. Roads conditions are worsening due to the lack of funding for pavement preservation.
2. The new system is expected to assist with fixed asset management.

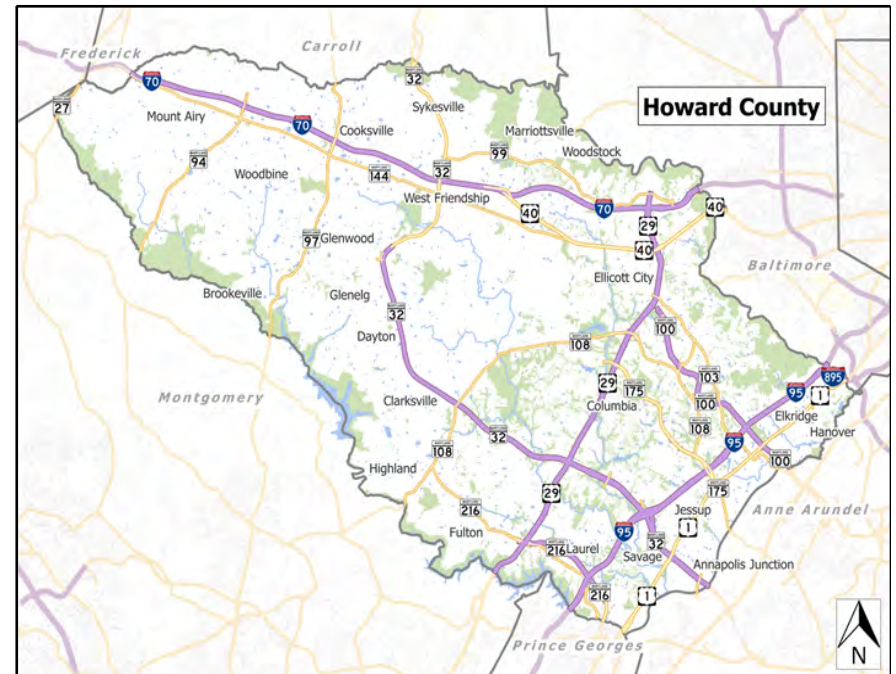

### Project Schedule

FY16-FY18 - 3D automated image data collections & processing. Pavement distresses assessment & validation. Hardware purchase & implementation. Right-of-way assets collections & processing.

Close at program completion. Project on hold for available funding.

### Operating Budget Impact

Reduce maintenance costs

# Fiscal 2018 Capital Budget

## Project: H2016-FY2013 STREET TREE PROGRAM

# HIGHWAY RESURFACING

Number: H2016

### Description

A program to comprehensively address the removal and replacement of street trees.

### Justification

The County maintains approximately 230,000 street trees including approximately 20,000 Ash trees. The Emerald Ash Borer is in Howard County and the borer will kill every Ash tree in the County if nothing is done. The program will address Emerald Ash Borer by a combination of removal and replacement of infected trees and inoculation of high value trees. This program will also be used to remove and replace trees infected with other infestations.

### Remarks

1. The Maryland Department of Agriculture issued a quarantine for Howard County on June 10, 2011 and expanded to all Maryland counties west of the Bay on July 11, 2011.
2. Administration costs in the first year will be used to update the Ash tree inventory.

### Project Schedule

# Fiscal 2018 Capital Budget

## Project: H2017 HOT IN-PLACE RECYCLING PROGRAM

# HIGHWAY RESURFACING

Number: H2017

### Description

A program to in-place re-profile roads surface to various County roads. The roads are selected and prioritized by the Pavement Management System (PMS). The PMS rated roads based on American Society for Testing & Materials (ASTM) standard practices for pavement condition index (PCI) measurement.

### Justification

The selected and prioritized roads are based on observation and maintenance history from each Highways maintenance shop. The County roads, especially in the west zone were undertaken several chip seal layers of treatment; many roads are out of crown for drainage. Without proper road crown restoration, the road becomes slippery during the winter season and hydroplaning in the wet weather. The selected roads will be milled down through surface recycling, remixing, repaving, or reheating processes to obtain the same pavement strength as traditional mill/wedge levelling/overlay processes with less cost. The hot in-place sustainable asphalt recycling shall achieve the goals of carbon footprint reduction and reuse of valuable nature resource. It also provides safer roads for motorists.

### Remarks

The selected roads shall have a sound base for hot in-place asphalt recycling. Additional surface treatment may be added for a smooth surface.

### Project Schedule

Project on hold for available funding.  
Close at program completion.

# Fiscal 2018 Capital Budget

## Project: H2018 COLD IN-PLACE RECYCLING PROGRAM

# HIGHWAY RESURFACING

Number: H2018

### Description

A program to in-place reconstruct road base to various County roads. The roads are selected and prioritized by the Pavement Management System (PMS). The PMS rated roads based on American Society for Testing & Materials (ASTM) standard practices for pavement condition index (PCI) measurement.

### Justification

The selected and prioritized roads are based on observation and maintenance history from each maintenance shop. This program provides base course recycling through pulverization and rejuvenation processes. The roads constructed with less base course thickness could not undertake increased traffic road. Through base course recycling, the selected roads shall be reshaped for better road drainage and gain more strength with consistent depth in road bed. This program can be incorporated with resurfacing program for surface treatment. The treated road shall become more durable with longevity. This sustainable asphalt recycling reduces the costs for deep/patching, or/and road undercuts. Besides, this recycling process achieve the goals of carbon footprint reduction and reuse of valuable nature resources.

### Remarks

The selected roads were beyond the ability of mill/patching. The road base needs to be restored prior to the road resurfacing. Coring of existing roads shall be performed before cold in-place process.

### Project Schedule

Close at program completion.

# Fiscal 2018 Capital Budget

## Project: J4076-DEFAULTED DEVELOPER AGREEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4076

### Description

An appropriation is requested under this project to construct roads, stormwater management, storm drains, street trees, or associated facilities where the developer has failed to build all facilities in accordance with the plans and Developer Agreement. Also included is the cost of administration and any additional engineering that may be required. This project is implemented as a revolving fund account. In the event that the collection of the cash or bond proceeds from the surety are delayed, expenditures from this project are authorized when the County determines that continuing delays in the completion of the public improvements will cause significant negative impacts to the residents and the subdivision and/or the environment.

### Justification

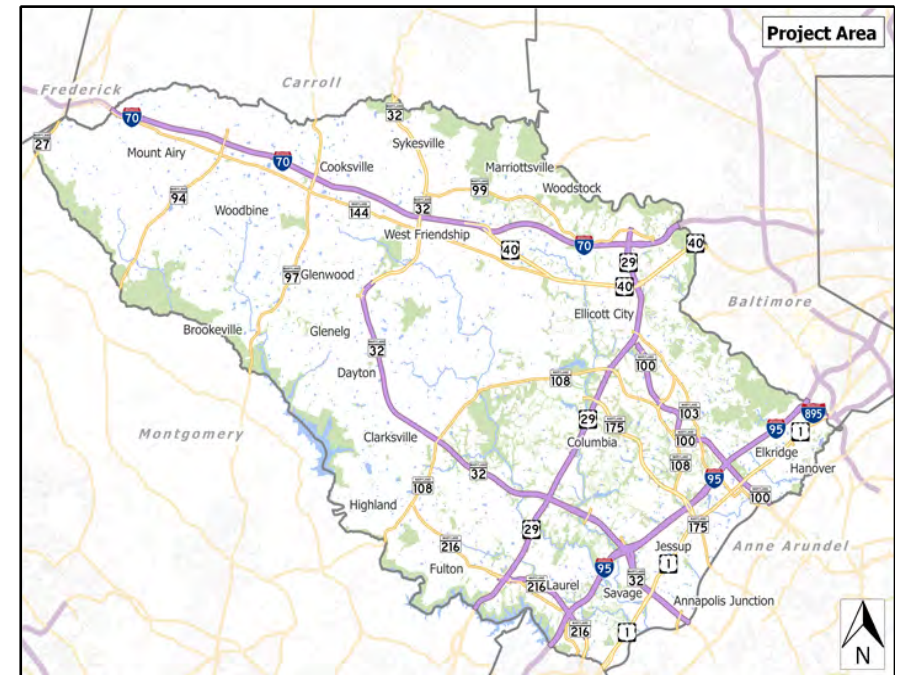

Upon developer's failure to complete construction, the surety of the developer is declared to be in default and the proceeds from the surety are placed in this account and used to finance construction.

### Remarks

Construction as required. DEVELOPER CONTRIBUTION represents monies received from surety.

### Project Schedule

Ongoing Program.

# Fiscal 2018 Capital Budget

## Project: J4099-CATEGORY CONTINGENCY FUND

# ROAD CONSTRUCTION PROJECTS

Number: J4099

### Description

The fund is designed for use as a revenue source for Transfers of Appropriation during a fiscal year. Fund is used when construction costs are higher than originally estimated, contributions from grants vary from projections, or an effort must be advanced from future years to the present fiscal year for critical program needs, or creating a new capital project; subject to Council approval.

### Justification

This fund will allow for the timely completion of approved projects by contingency funding as required with quick response to crucial situations. The fund is also needed to provide a buffer to the stringent bonding limits the County is operating under.

### Remarks

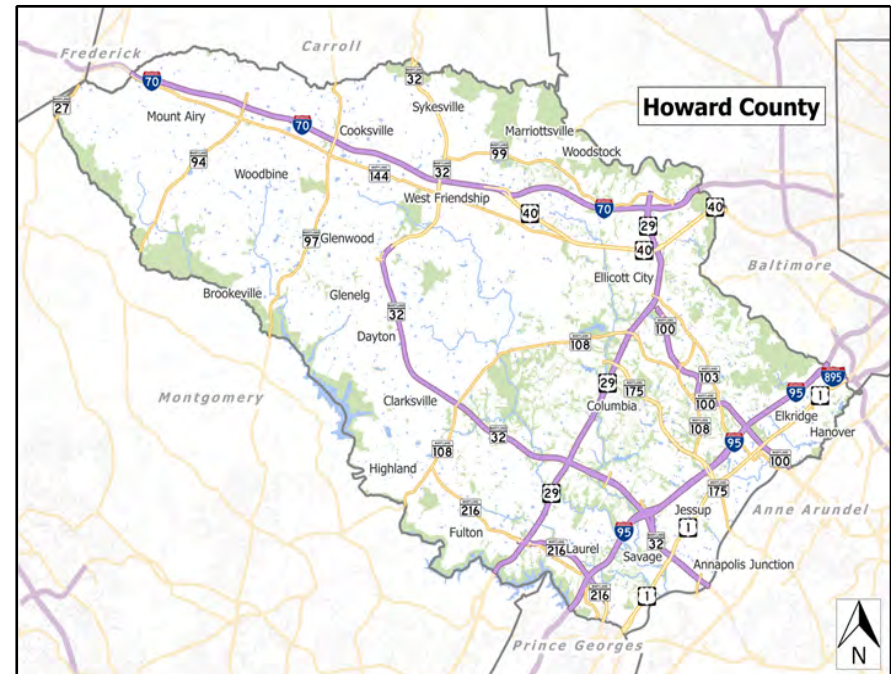

The appropriation can only be drawn from for transfer purposes and does not represent the authority to spend.

### Project Schedule

As Required.

### Operating Budget Impact

Annual Bond Redemption \$ \$15,075

## Project: J4110-FY1991 DORSEY RUN ROAD - SOUTH LINK

# ROAD CONSTRUCTION PROJECTS

Number: J4110

### Description

A project for design and construction of approximately 5,000 feet of Dorsey Run Road from Guilford Road north to the CSX railroad spur crossing. The 2000 General Plan classifies this section of Dorsey Run Road as a major collector. The improvements will be completed in two phases. Phase I from Guilford Road to Old Dorsey Run Road. Phase II from Old Dorsey Run Road to the CSX railroad spur crossing.

### Justification

Provides improved access for all properties in the project area. Provides truck access to MD32 and sight distance improvements.

### Remarks

1. GRANT represents State Secondary Aid Program.
2. OTHER represents Race Track funds.

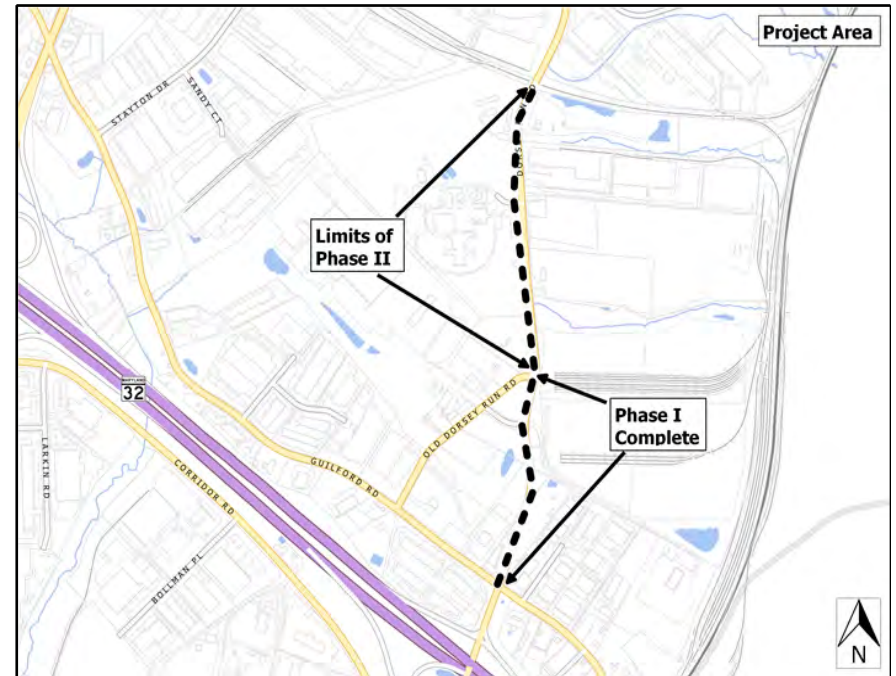

### Project Schedule

FY18 - Construction.  
FY19 - Complete.  
FY20 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$224,370

Estimated annual maintenance costs upon completion: \$19,000 per two lane mile of new roadway.

# Fiscal 2018 Capital Budget

## Project: J4121-PRIVATE ROAD RECONSTRUCTION PROGRAM

# ROAD CONSTRUCTION PROJECTS

Number: J4121

### Description

This project will provide for the reconstruction of private roads to bring them to a minimum standard for an all-weather roadway per Howard County Design Manual Volume III. The road being petitioned must: serve at least five houses per mile; be connected to an existing State or County road; and the signers of the petition must be owners of either 2/3 of the assessable frontage or be 2/3 of the owners of the property abutting the road. The road must be used for vehicular traffic prior to January 1, 1981 for eligibility for participation in this program, and cannot be merely a paper or a platted rights-of-way.

### Justification

This project is necessary to implement Section 18.250 of the Howard County Code so as to provide citizens currently living along private roads an improved all-weather roadway. Project was first funded in FY92.

### Remarks

1. Two-thirds of the cost of these roads will be shared equally by the property owners abutting the roadway.
2. The remaining one-third of the cost of this effort will be funded by this project.
3. OTHER funds represent residents contribution.

### Project Schedule

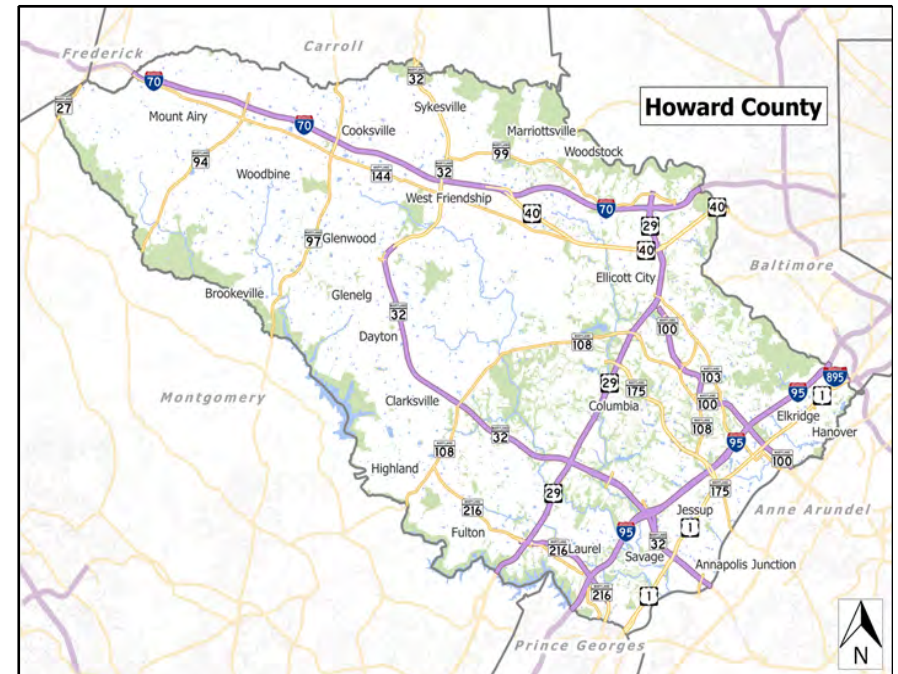

Possible Annual Efforts:

- King's Gift Road Reconstruction (Inactive).
- Lisbon Farm Road Reconstruction (Inactive).
- Patapsco Ridge Road Reconstruction (Inactive).
- Unnamed Street Off Thompson Drive Reconstruction (Inactive).
- FY19 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$36,225

Adds \$150,000 per mile to maintain on an annual basis.

## Project: J4142-FY1998 HALL SHOP ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4142

### Description

Reconstruct Hall Shop Road (a major collector) at two locations to improve sight distance and eliminate a sharp curve.

A. Guilford Road/Hall Shop Road intersection change to a 90-degree configuration.

B. Curve south of Simpson Road (logmile 1.07) improve safety characteristics of road.

### Justification

Correction is needed due to deficient horizontal curvature, poor sight distance for vehicles entering Guilford Road from Hall Shop Road, and poor sight distance along southbound Simpson Road, and poor sight distance for vehicles entering onto Hall Shop Road from Simpson Road.

### Remarks

See also J4164 to improve intersection at Browns Bridge Road.

### Project Schedule

FY18 - Land acquisition.

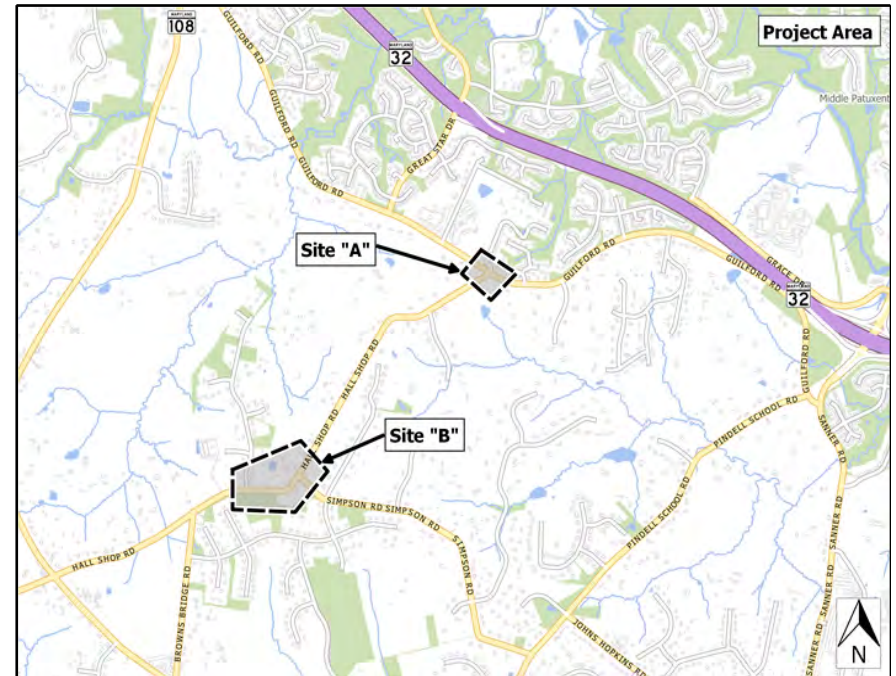

FY19 - Construction.

FY20 - Complete and close.

### Operating Budget Impact

Annual Bond Redemption \$ \$105,390

Estimated annual maintenance costs upon construction completion: No Change.

# Fiscal 2018 Capital Budget

## Project: J4148-FY2000 DORSEY RUN ROAD EXTENSION

# ROAD CONSTRUCTION PROJECTS

Number: J4148

### Description

This project is for the extension of Dorsey Run Road from MD103 to MD175, a total of approximately 3 miles. Dorsey Run Road is classified as a major collector in the Plan Howard 2030. Old Jessup Road will be partially closed at its intersection with the new Dorsey Run Road.

### Justification

This project is the implementation of the Plan Howard 2030. The construction of the roadway will enable industrial properties to have access and develop their individual frontages in a coordinated manner.

### Remarks

1. This project will be coordinated with J4182 (Dorsey Run Road Improvements), J4206 (Montevideo Road Improvements) and W8292 (Water Main and Sewer).
2. Construction will be phased.
3. GRANT represents Secondary State Aid Funds.
4. An agreement with adjacent property owner/developer coordinates construction of developer's improvements and requires developer contribution to the project for proportionate cost of the improvements.

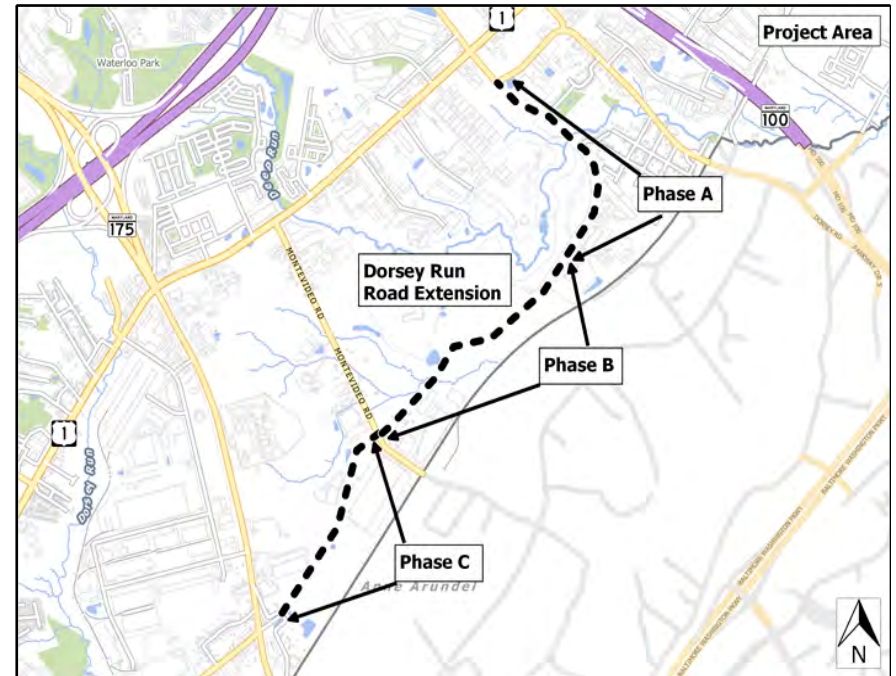

### Project Schedule

FY18 - Complete and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,182,960

Estimated annual maintenance costs upon completion: \$19,000 per two lane mile of new roadway.

# Fiscal 2018 Capital Budget

## Project: J4154-FY1998 RETAINING WALL REPLACEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4154

### Description

A Countywide project for the design and construction of replacement or rehabilitated retaining walls. The walls are at various County locations in/out of the rights-of-way and vary in height and length.

### Justification

These retaining walls require extensive rehabilitation/replacement which is beyond the scope of normal highway maintenance.

### Remarks

1. Project replaced by B3862.
2. Land acquisition requires park property.
3. Project coordinated with S6283.

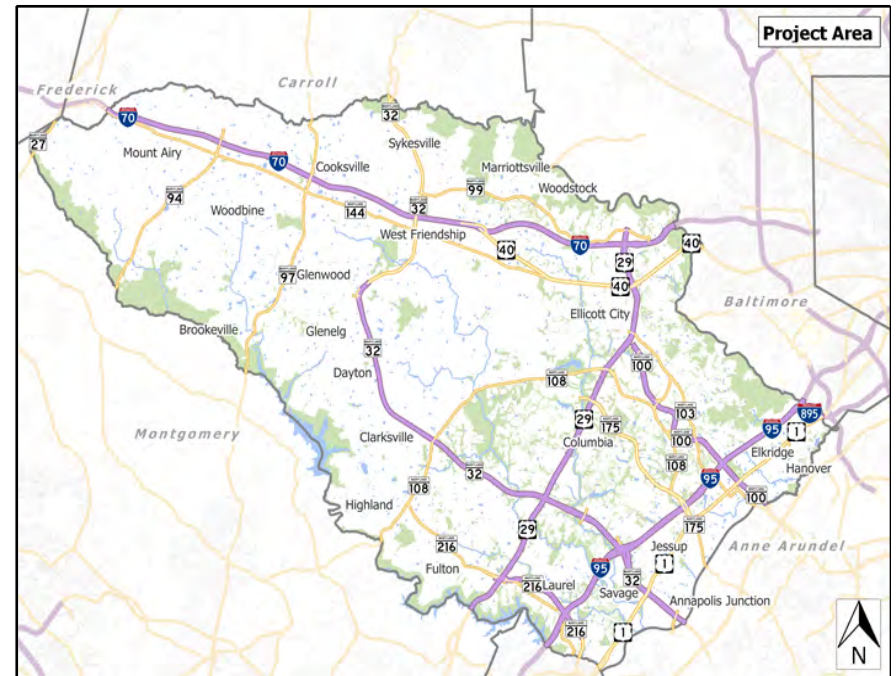

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$95,805

Estimated annual maintenance costs upon completion: Decrease.

# Fiscal 2018 Capital Budget

# ROAD CONSTRUCTION PROJECTS

## Project: J4155-FY2012 MARRIOTTSVILLE RD SAFETY IMPROVEMENTS

Number: J4155

### Description

Reconstruct shoulders, replace guardrails and stabilize roadway embankment at numerous locations along 2.75 miles of Marriottsville Road between MD99 and the Carroll County Line (spot safety improvement).

### Justification

Requested by the Bureau of Highways. Marriottsville Road north of MD99 is classified as a minor arterial but is only a two-lane road. There are few shoulders and in areas the road embankment needs to be stabilized and the edge of paving reconstructed. The heavy traffic volume makes it difficult to maintain the road.

### Remarks

1. This project will be coordinated with J4205.
2. Marriottsville Road north of MD99 is a Scenic Road .
3. The improvements will be in two phases. Phase 1 will be stabilizing the roadway embankment. Phase 2 will be the road improvements.

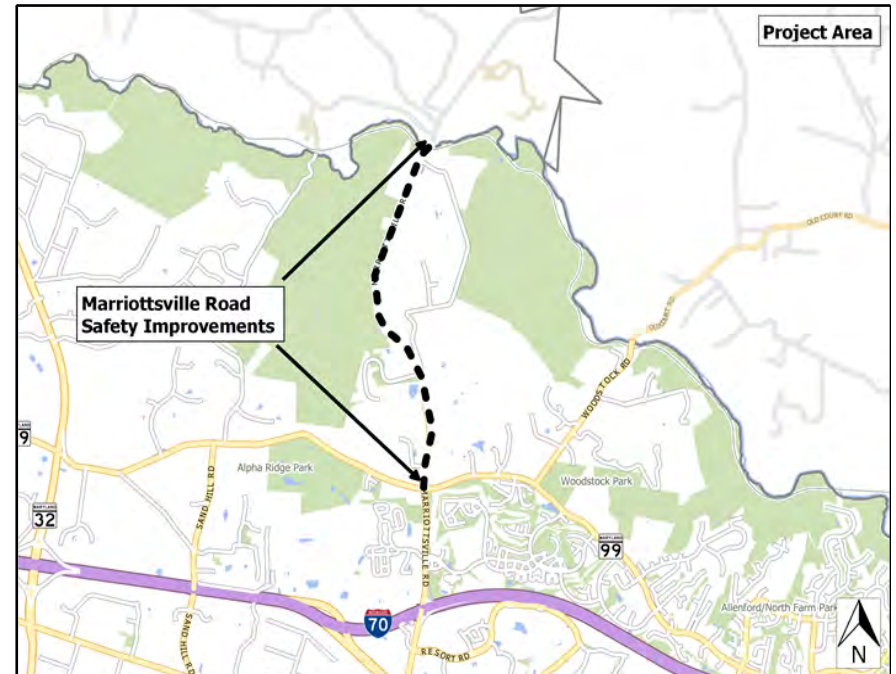

### Project Schedule

- FY18 - Slope design, land acquisition and construction (Phase 1)
- FY19 - Slope Construction & Road Design
- FY20 - Road Design & Land Acquisition (Phase 2)
- FY21 - Construction.
- FY22 - Complete & Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$146,925

Estimated annual maintenance costs upon construction completion: \$19,000 per two lane mile of new roadway.

## Project: J4164-FY1997 ROADWAY CAPACITY IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4164

### Description

A project to provide increased capacity and safety of various County roads and intersections.

### Justification

The project is consistent with recommendations provided in the Comprehensive Transportation Plan.

### Remarks

1. Recommendations were compiled from the results of the existing and anticipated future traffic and roadways condition analysis as part of the County's master planning process for transportation projects.
2. Project to be replaced by J4211.
3. The County may enter into an agreement for the adjacent developer to construct the County improvements.

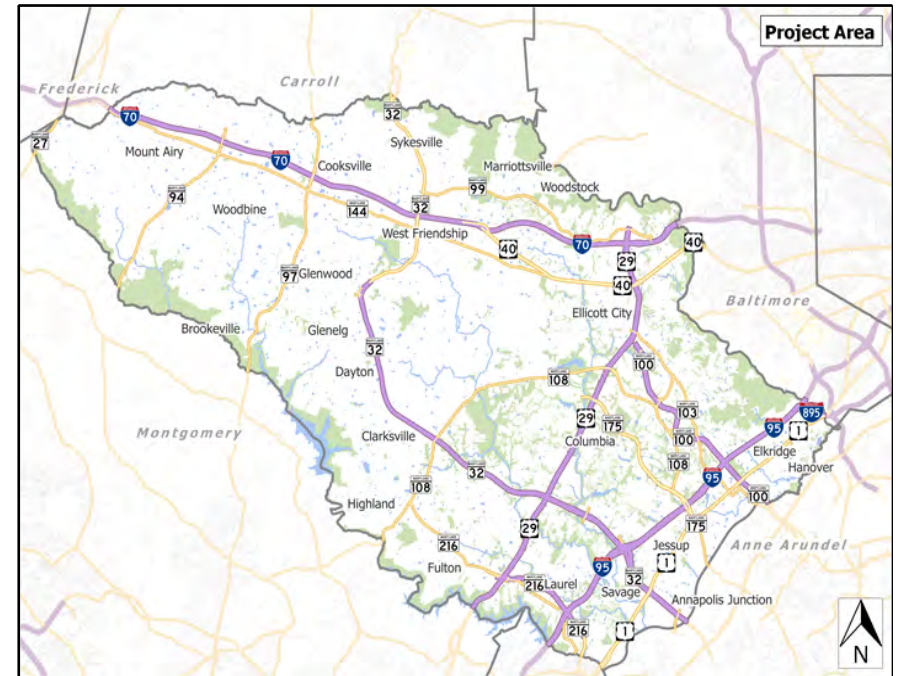

### Project Schedule

FY18 - Construction  
FY19 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$198,270

Estimated annual maintenance costs upon construction completion:  
Increase.

# ROAD CONSTRUCTION PROJECTS

**Project: J4167-FY2010 SNOWDEN RIVER/BROKEN LAND INTERSECT**

**Number: J4167**

## Description

A project for design and reconstruction of the Snowden River Parkway/Broken Land Parkway/Broken Land Parkway/Patuxent Woods Drive intersection including westbound MD32 ramp to northbound Broken Land Parkway.

## Justification

Traffic volumes have increased. In peak hours, the level of service of E-F is beyond capacity. Engineering review indicates that the intersection is at capacity and that an upgrade is required.

## Remarks

Funding is programmed for a short-term improvement based on the conclusion of the study phase.

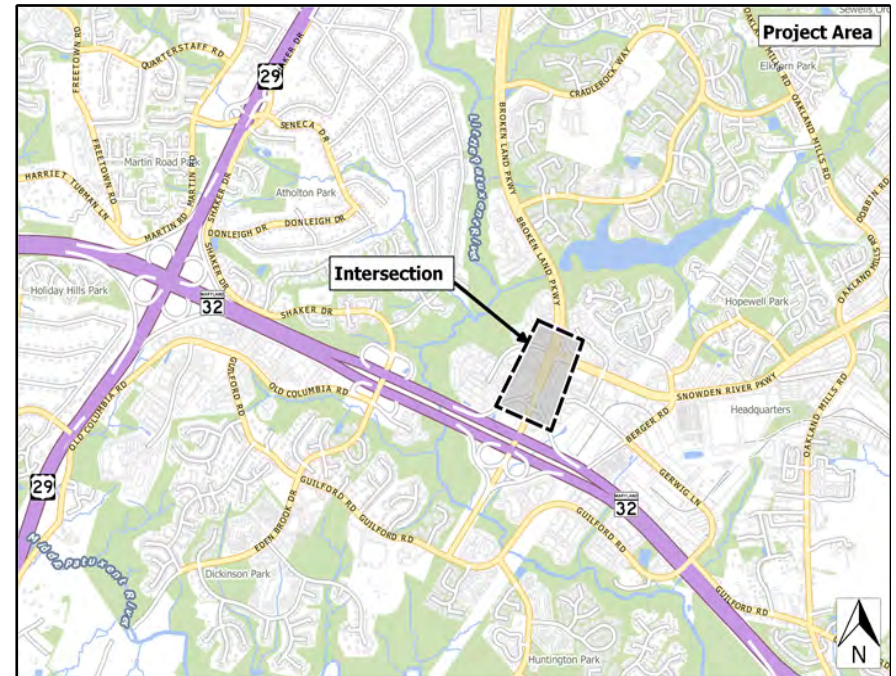

## Project Schedule

- FY18 - Complete study and design.
- FY19 - Land Acquisition.
- FY20 - Construction

## Operating Budget Impact

Annual Bond Redemption \$ \$83,475

Estimated annual maintenance costs upon construction completion: \$19,000 per two lane mile of new roadway.

# ROAD CONSTRUCTION PROJECTS

## Project: J4168-FY1998 ROADWAY REHABILITATION/SAFETY PROGRAM

Number: J4168

### Description

A project to correct roadway failure/safety problems on existing roads at various intersections or along various roadway segments. Types of projects include intersection widening for needed turn lanes on large radius curb returns, improvements to roadway geometrics to correct deficient vertical and/or horizontal curves, elimination of roadside hazards and correct base failures and pavement deformation, and constructing, reconstructing and/or relocating roads, including openings and closings.

### Justification

Project is needed to correct deficiencies in the County road system where many old farm to market roads need improvements to correct safety problems. Attention will be given to eliminate/relocate fixed roadside hazards such as utility poles and drainage structures which are causing accidents and relocation of deficient intersections.

### Remarks

1. The existing road connection of New Cut Road with MD103 has been made a one-way-in road. The one-way-in connection will be closed when the fruit stand is permanently closed for business.
2. Project to be replaced in FY18 by J4240.

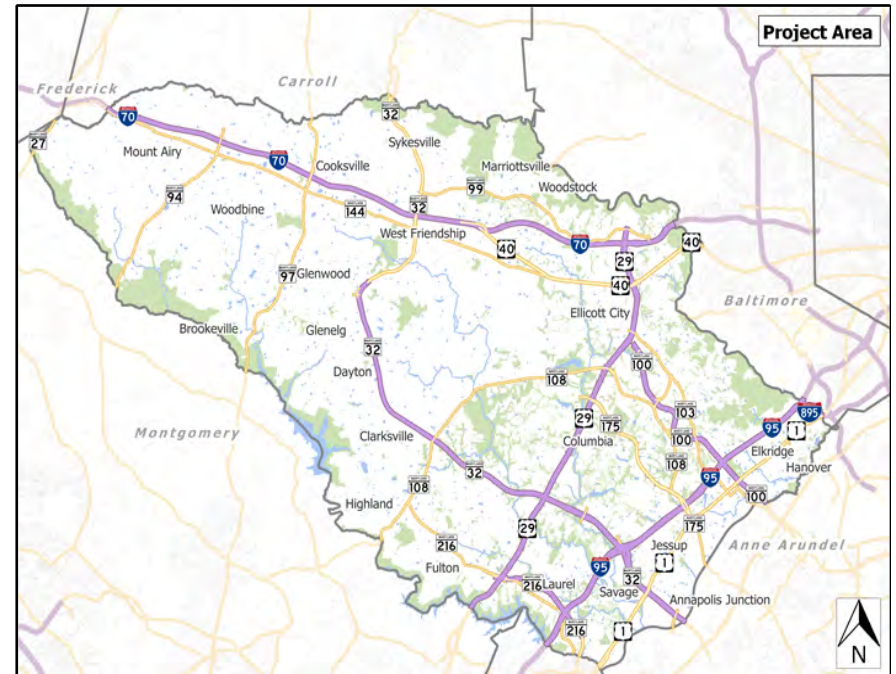

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$150,075

Estimated annual maintenance costs upon construction completion:  
Decrease.

## Project: J4170-FY2004 ROGER'S AVENUE IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4170

### Description

A project for design and construction of approximately 1,500 LF of Rogers Avenue from existing improvements near US40 to Court House Drive. The Plan Howard 2030 lists Rogers Avenue as a minor arterial with a nominal 80 foot R/W. The proposed improvement will have a 50 feet width and center, left turn lane.

### Justification

This portion of Rogers Avenue serves as a major link for commercial and residential activities to access the US40 and US29 corridor and Main Street Ellicott City.

### Remarks

Request represents latest Engineer's estimate.

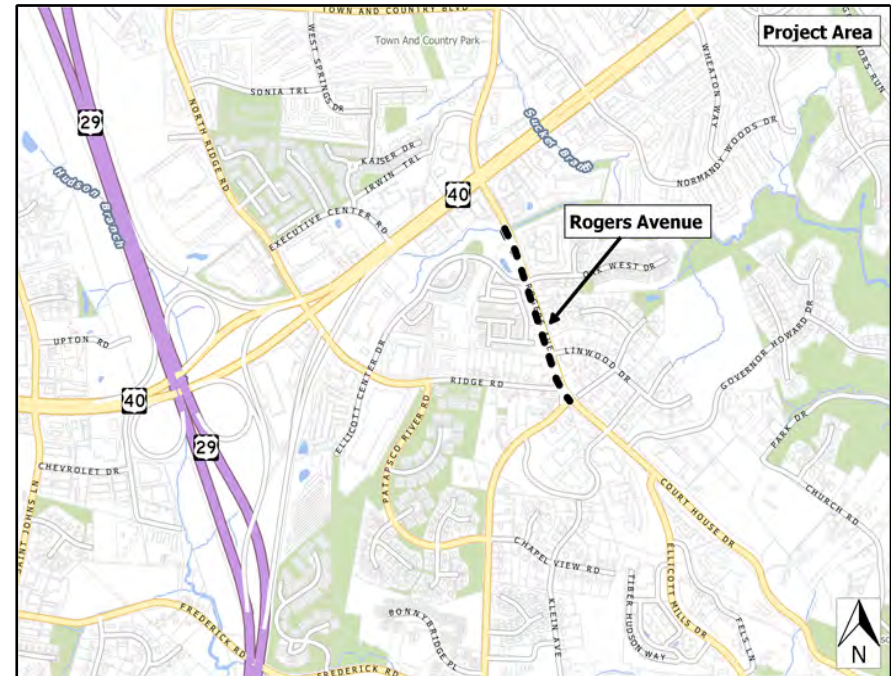

### Project Schedule

FY18 - Construction.  
FY19 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$184,950

Estimated annual maintenance costs upon completion: \$19,000 per two lane mile of new roadway.

## Project: J4173-FY2000 HANOVER ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4173

### Description

A project for the study, design and reconstruction of the Hanover Road at Hi-Tech Road intersection. The project will realign the deficient horizontal and vertical curve to improve safety and capacity. Hanover Road and Hi-Tech Road are classified as minor collector roads.

### Justification

This intersection provides access to Anne Arundel County from Hanover and Hi-Tech Roads. Hanover provides access to US1 and Hi-Tech provides access to MD100. The intersection has substandard horizontal and vertical geometry. Adjustments are also needed to coordinate with the State Highway Administration's future MD295 at Hanover Road interchange improvements.

### Remarks

1. This project was identified in the Comprehensive Transportation Plan.
2. Project to be coordinated with SHA's MD295 at Hanover Road interchange improvements.

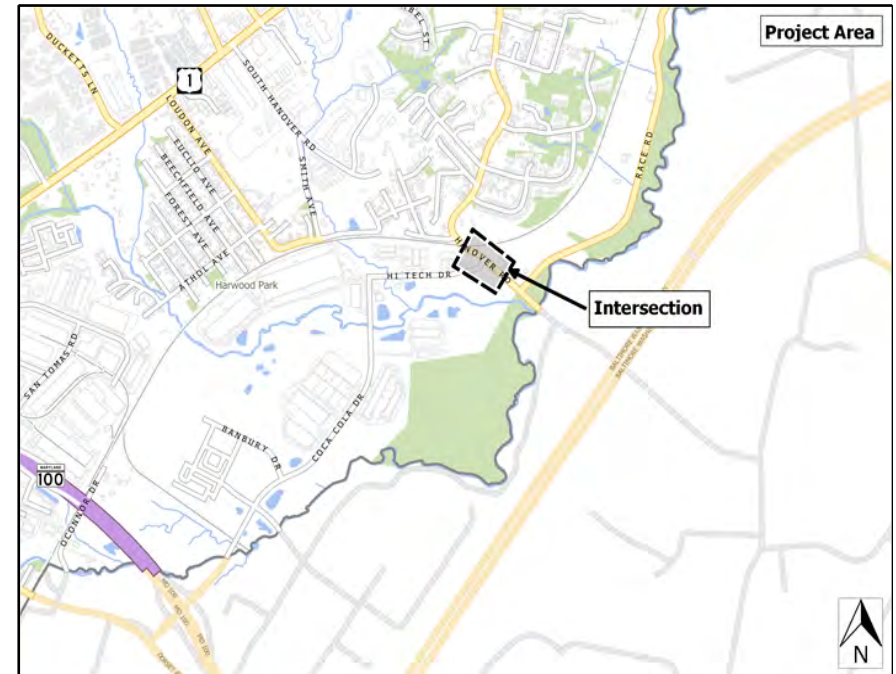

### Project Schedule

- FY18 - Design.
- FY19 - Design and Land Acquisition.
- FY20 - Construction.
- FY21 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$72,900

Estimated annual maintenance costs upon construction completion: No Change.

## Project: J4177-FY2001 STATE ROAD CONSTRUCTION

# ROAD CONSTRUCTION PROJECTS

Number: J4177

### Description

A project for cost sharing of new State roadway construction within Howard County that is consistent with the objectives of the Plan Howard 2030.

### Justification

The State Highway Administration (SHA) cannot proceed with these projects in a timely manner without financial assistance. The local funding will accelerate the construction of State roadways in order to address capacity and safety problems in the County network.

### Remarks

Project will include, but not be limited to: MD108 at Centennial Lane intersection and US40 at Rogers Avenue intersection.

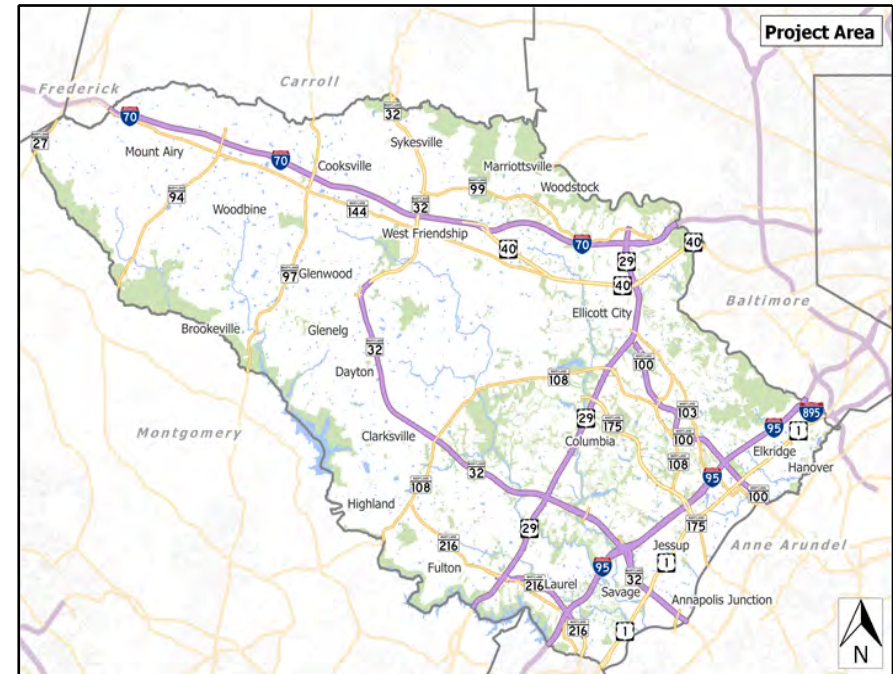

### Project Schedule

Program  
Set by State Highway Administration.

### Operating Budget Impact

Annual Bond Redemption \$ \$803,025

Estimated annual maintenance costs upon construction completion: No Change.

# Fiscal 2018 Capital Budget

## Project: J4178-FY2001 COUNTY / STATE NOISE ABATEMENT

# ROAD CONSTRUCTION PROJECTS

Number: J4178

### Description

A program with SHA for the construction of noise reduction sound walls to shield sections of residential communities.

### Justification

The residents have requested relief from the noise along State highways.

### Remarks

1. Program meets the requirements of the SHA retrofit noise abatement program and is contingent on the availability of funds at 80% State and 20% local share.
2. Funding shown is for Howard County's share.
3. Program locations include the following areas:  
Lawyers Hill (FY15)
4. Schedule set by SHA.

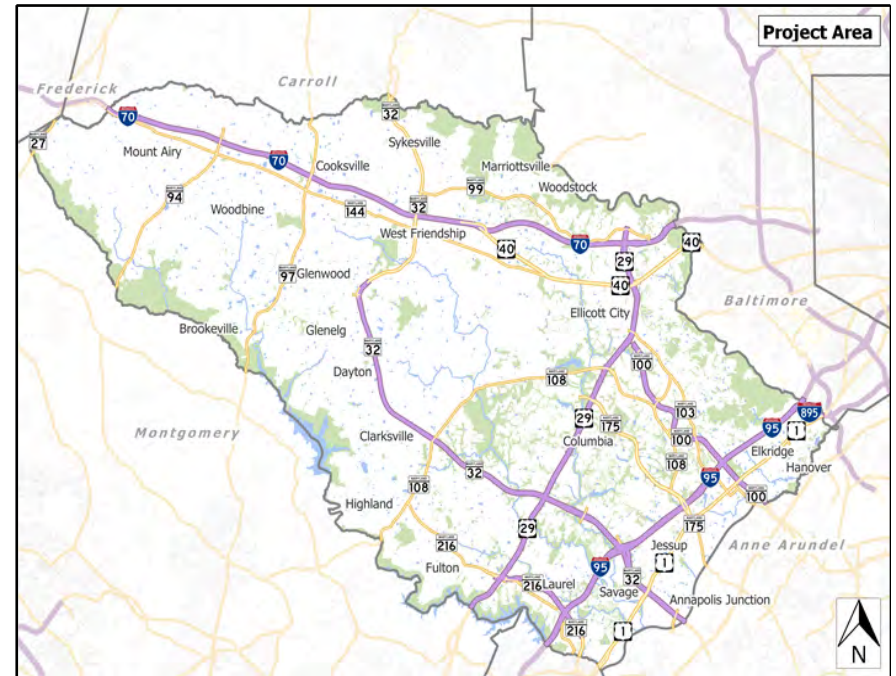

### Project Schedule

FY18 - Lawyers Hill construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$321,075

Estimated annual maintenance costs upon construction completion: No Change.

# Fiscal 2018 Capital Budget

## Project: J4181-FY2003 GUILFORD RD (US1 to DORSEY RUN RD)

# ROAD CONSTRUCTION PROJECTS

Number: J4181

### Description

This project is to study, design, and reconstruct Guilford Road to three lanes from US1 to Old Dorsey Run Road; a distance of 5,800 LF.

### Justification

The existing road is sub-standard with varying width and limited capacity. Guilford Road is classified as a major collector in the Plan Howard 2030 and three lanes are needed to accommodate the increasing volume of commercial traffic.

### Remarks

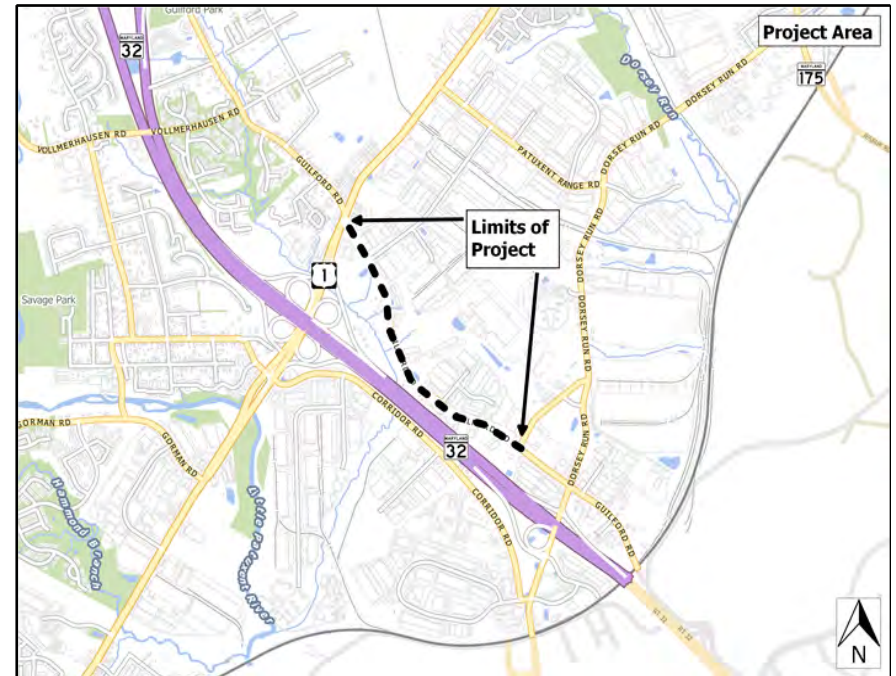

### Project Schedule

- FY18 - Design
- FY19 - Design and Land acquisition.
- FY20 - Construction.
- FY21 - Construction and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$722,475

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane miles of new roadway.

# Fiscal 2018 Capital Budget

## Project: J4182-FY2002 DORSEY RUN ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4182

### Description

This project is to study, design and reconstruct Dorsey Run Road to four lanes from MD175 south to the CSX railroad spur crossing; a distance of 6,000 LF.

### Justification

The existing road is sub-standard with varying width and limited capacity. Dorsey Run Road is classified in the Plan Howard 2030 as a major collector and four lanes are needed to accommodate the increasing volumes of traffic.

### Remarks

This project will be coordinated with J4110-2 and J4148-C. This project will be constructed in one phase because all the utilities must be relocated before construction can begin.

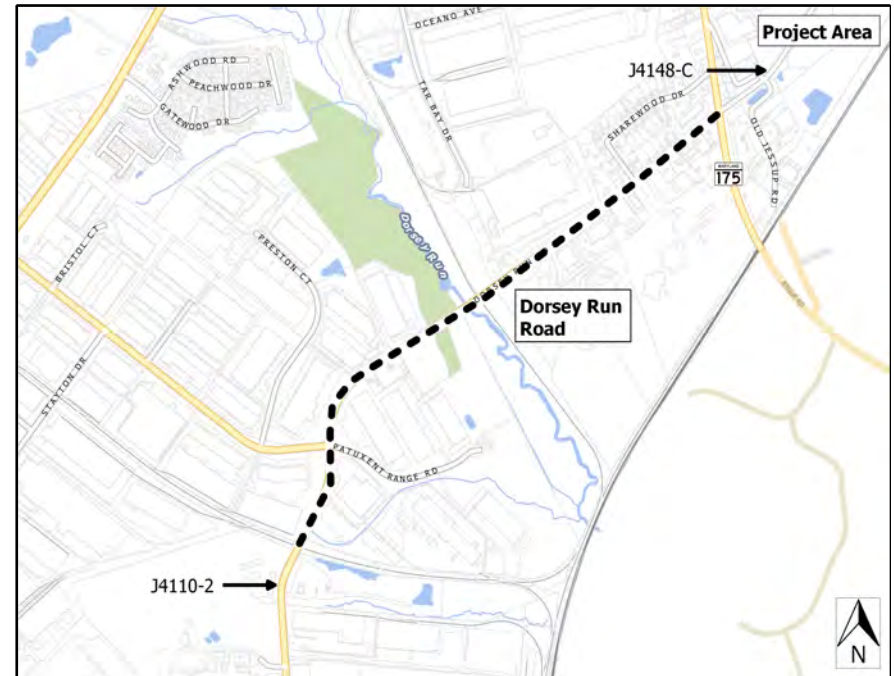

### Project Schedule

- FY18 - Design and land acquisition.
- FY19 - Land acquisition and Utility Relocation.
- FY20 - Construction.
- FY21 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$505,125

Estimated annual maintenance costs upon completion: \$19,000 per two lane mile of new roadway.

## Project: J4202-FY2004 STEPHENS ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4202

### Description

A project for the design and reconstruction of Stephens Road from Whiskey Bottom Road to Gorman Road.

### Justification

The road and bridge need to be widened and raised out of the floodplain to accommodate the increased traffic due to growth in the vicinity.

### Remarks

Developers have made improvements related to the adequate public facilities requirements.

### Project Schedule

FY18 - Land Acquisition and Construction.

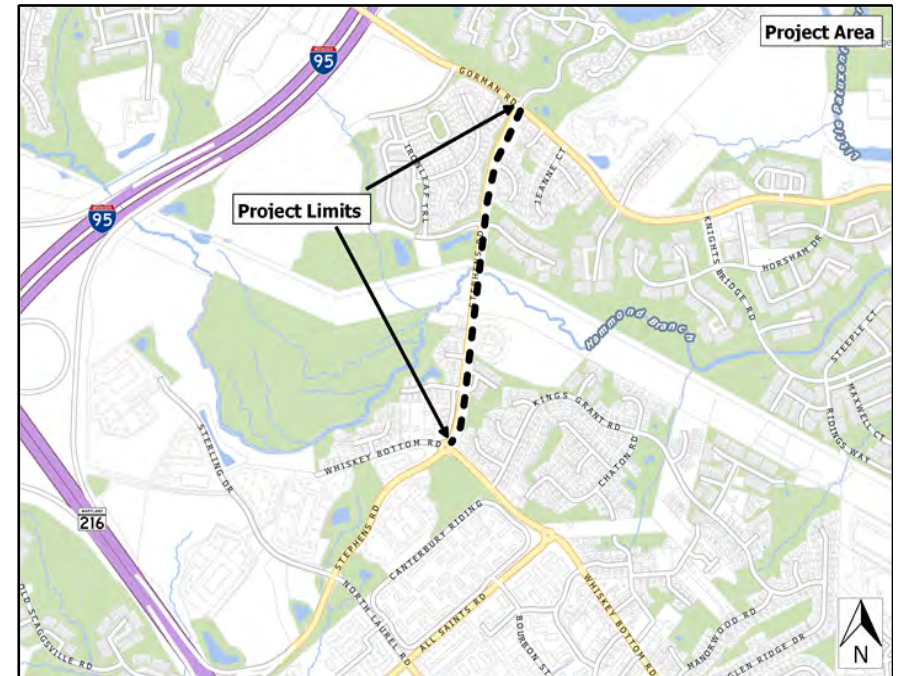

FY19 - Construction.

FY20 - Complete and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$411,075

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane mile of new roadway.

## Project: J4205-FY2006 MARRIOTTSVILLE ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4205

### Description

A project to widen Marriottsville Road from MD99 to US40, including the Marriottsville Road bridge over I-70. Marriottsville Road is classified as an intermediate arterial.

### Justification

Increased traffic and new development will necessitate the improvement of the road.

### Remarks

1. The County may enter into agreements with the developers to construct the County improvements.
2. The County will coordinate with the State Highway Administration regarding design requirements.
3. Developers will be directly responsible for some of the construction and associated costs of the Marriottsville Road improvements.
4. Project to be coordinated with J4215 at US40 intersection.
5. The improvements will be constructed in four phases.
  - Phase one will be from I-70 to MD99 intersection.
  - Phase two will be the improvements to the ramp for I-70 eastbound.
  - Phase three will be the roadway portion south of the I-70 bridge.
  - Phase four will be the construction of the I-70 bridge.

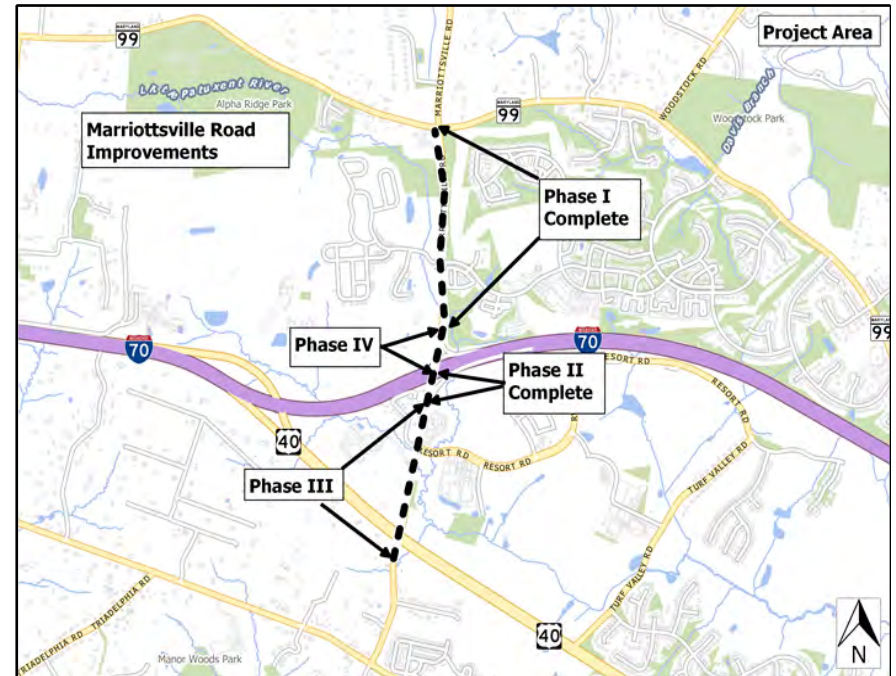

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$1,136,250

Estimated annual maintenance costs upon construction completion: \$19,000 per two lane mile of new roadway.

## Project: J4206-FY2007 MONTEVIDEO ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4206

### Description

A project to improve Montevideo Road as detailed in the Montevideo Road Study. These improvements include adjustments to vertical and horizontal alignment and will be made in two phases. Phase one will relocate the connection to US1 to be directly across from Port Capital Drive. Phase two will improve the section of the road from Dorsey Run Road to the end of the relocation. Montevideo Road is classified as a major collector roadway.

### Justification

Montevideo Road is expected to have a significant increase in traffic in the coming years and these improvements will help accommodate that traffic.

### Remarks

1. Project to be coordinated with J4148 (Dorsey Run Road Extended), J4241 (US1 - MD175 to Montevideo Road) and F5975 (Route One Fire Station).
2. This project may be used as a funding source for public improvements constructed by others under an agreement approved by the County Council.

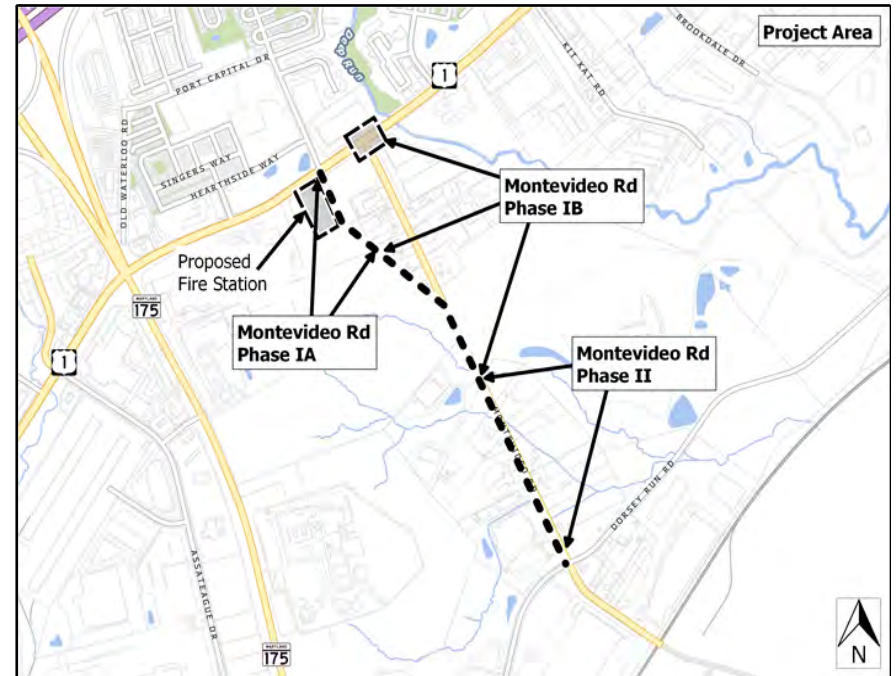

### Project Schedule

- FY18 - Phase 1A Construction Completed, Phase 1B Construction.
- FY19 - Phase 1B Construction Completed, Phase 2 Land Acquisition.
- FY20 - Phase 2 Construction.
- FY21 - Phase 2 Complete and Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$669,600

Estimated annual maintenance costs upon completion: \$19,000 per two lane mile of new roadway.

## Project: J4207-FY2009 OAKLAND MILLS ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4207

### Description

A project to improve Oakland Mills Road from Guilford Road northward to Carters Lane. The improvements would include road widening, sidewalk, curb and gutter and bicycle compatibility. At present this section of road is two lanes with no sidewalks and poor drainage. A traffic signal will be installed at the Oakland Mills/Guilford Road intersection.

### Justification

Requested by the Bureau of Highways.

### Remarks

1. This work will be coordinated with the church development at the corner of Guilford Road and Oakland Mills Road.
2. Project to incorporate former K5041 sidewalks.

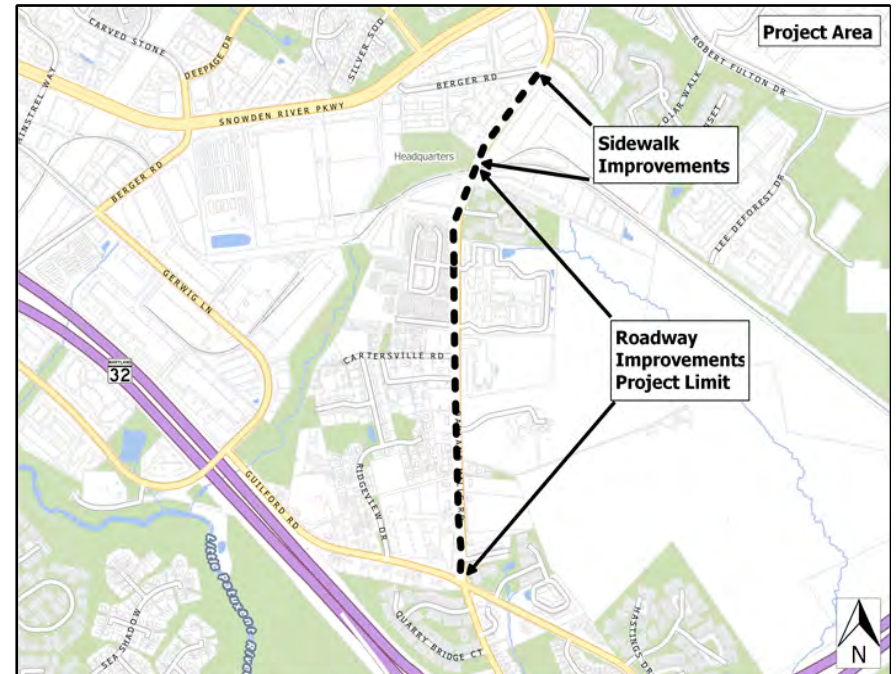

### Project Schedule

- FY18 - Land acquisition and construction.  
FY19 - Complete and close.

### Operating Budget Impact

Annual Bond Redemption \$ \$273,825

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane mile of new roadway.

## Project: J4208-FY2006 WATERSVILLE ROAD SLOPE RECONSTRUCTION

Number: J4208

### Description

A project to stabilize/reconstruct the slope that supports the roadbed of Watersville Road. The slope is squeezed between the road and railroad and is too steep to remain stable.

### Justification

Requested by the Bureau of Highways. The Bureau's staff has done temporary repairs. The extent of permanent repair work needed is beyond their capabilities.

### Remarks

1. Work to be coordinated with CSX Railroad.
2. Watersville Road is a scenic road.

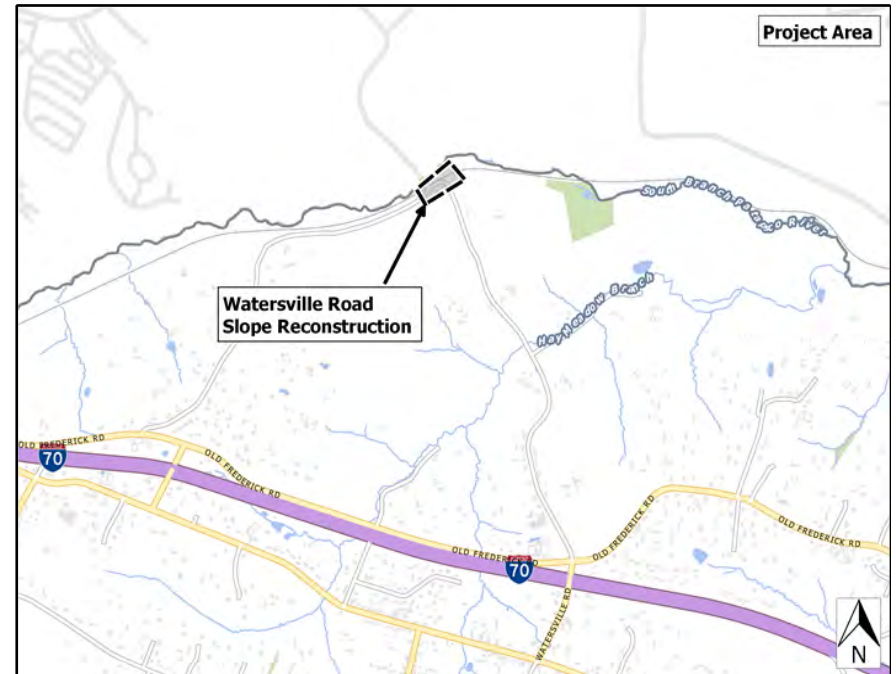

### Project Schedule

FY18 - Construction.  
FY19 - Complete and close.

### Operating Budget Impact

Annual Bond Redemption \$ \$24,750

Estimated annual maintenance costs upon construction completion:  
Decrease.

## Project: J4211-FY2007 ROADWAY CAPACITY IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4211

### Description

A project to provide increased capacity and safety on various County roads and intersections.

### Justification

This project is consistent with recommendations provided in the Comprehensive Transportation Plan.

### Remarks

This project replaces J4164.

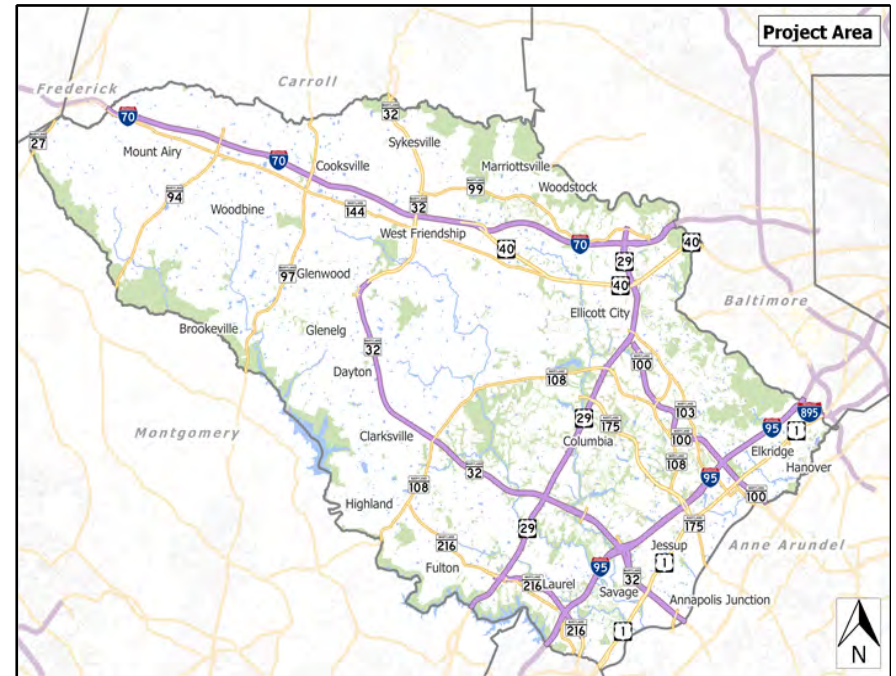

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$85,500

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane mile of new roadway.

## Project: J4212-FY2007 STATE ROAD CONSTRUCTION

# ROAD CONSTRUCTION PROJECTS

Number: J4212

### Description

A project for cost sharing of new State roadway construction within Howard County that is consistent with the objectives of the Plan Howard 2030.

### Justification

The State Highway Administration (SHA) cannot proceed with these projects in a timely manner without financial assistance. The local funding will accelerate the construction of State roadways in order to address capacity and safety problems in the County network.

### Remarks

1. This project replaces J4177
2. Projects will be mutually identified by the State and County and prioritized by need.
3. Projects include: MD32 dualization, MD97 at Burntwoods Road, MD103 at Old Columbia Pike and US1 at MD103.
4. Grant represents State Aid Funds.
5. DEVELOPER CONTRIBUTION represents funds from adjacent development for the US1 and MD103 intersection improvements.

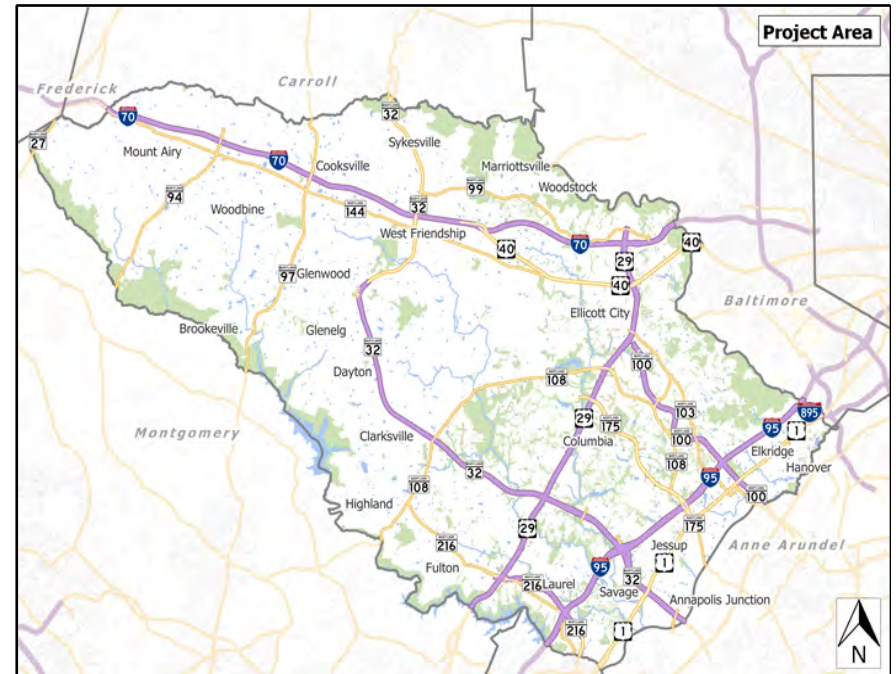

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$1,496,250

Estimated annual maintenance costs upon construction completion: No Change.

# ROAD CONSTRUCTION PROJECTS

## Project: J4214-FY2007 GUILFORD AT VOLLMERHAUSEN IMPROVEMENTS

Number: J4214

### Description

A project to design and construct improvements to the intersection of Guilford Road at Vollmerhausen Road and along Guilford Road to the west towards Carroll Heights Ave.

### Justification

The vertical curve on Guilford Road creates problems for the traffic at the intersection with Vollmerhausen. Project was requested by the Traffic Division and the Community.

### Remarks

1. A study determined the most feasible improvements include reducing a crest vertical curve, widening lanes, signalization at the intersection and pedestrian improvements.
2. Project will be coordinated with K5040.
3. Project will be phased.  
Phase 1: Install signal and relocate utilities.  
Phase 2: Sight distance, pedestrian and drainage improvements.
4. Request represents latest engineer's estimate.

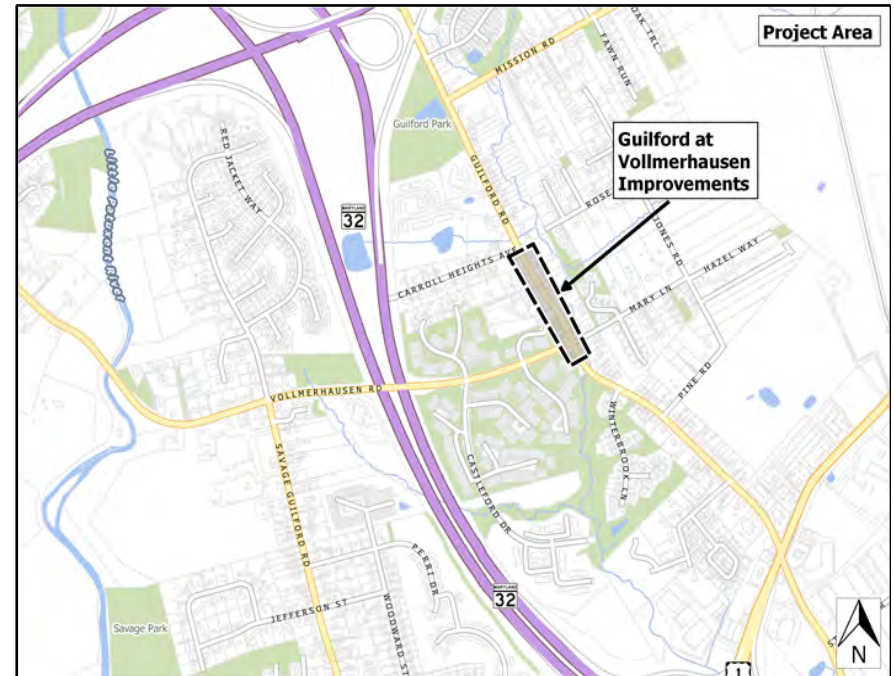

### Project Schedule

- FY18 - Complete Construction of Phase 2.
- FY19 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$159,300

Estimated annual maintenance costs upon construction completion: Increase.

# ROAD CONSTRUCTION PROJECTS

**Project: J4215-FY2007 MARRIOTTSVILLE ROAD from US40 to MD144**

**Number: J4215**

## Description

Realignment and shoulder improvements to Marriottsville Road from US40 to MD144. Marriottsville Road is classified as a Major Collector.

## Justification

Increased traffic will necessitate the improvements to the road. Project requested by the Traffic Division.

## Remarks

1. The County is coordinating with the State Highway Administration regarding the improvements at US40 and MD144.
2. Project to be coordinated with J4205 at US40.
3. The improvements will be constructed in phases. Phase one will be the US40 intersection and the road for approximately 850 feet to the south.
4. The County may enter into an agreement with the developer to construct the County improvements.
5. Phase 2 will be the widening of Marriottsville Rd. from MD144 to the US40 intersection improvements.

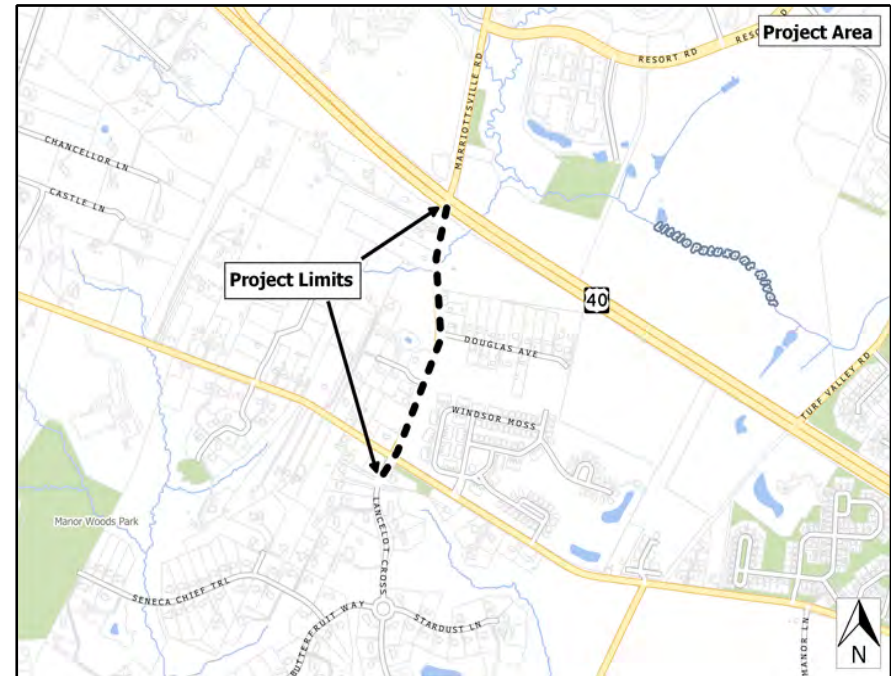

## Project Schedule

- FY18-19 - Design, Land Acquisition and Construction (Phase One).
- FY20 - Design and Land Acquisition (Phase Two).
- FY21 - Construction (Phase Two).
- FY22 - Complete and close.

## Operating Budget Impact

Annual Bond Redemption \$ \$400,050

Estimated annual maintenance costs upon construction completion: \$19,000 per two lane mile of new roadway.

## Project: J4219-FY2015 ENGINEERING STUDY PROGRAM

# ROAD CONSTRUCTION PROJECTS

Number: J4219

### Description

A project for engineering roads to conform to the Plan Howard 2030 Highways Map to evaluate realignment schemes and to support the transportation and safety needs of the County. This effort will also address those roads identified by Department of Planning and Zoning as a result of traffic impact studies.

### Justification

Preliminary engineering studies must be conducted to determine the right-of-way needs and alignments of future developer roads and existing roads impacted by the General Plan so that the resultant network is functional and safe. Studies done under this program are considered a refinement to the General Plan.

### Remarks

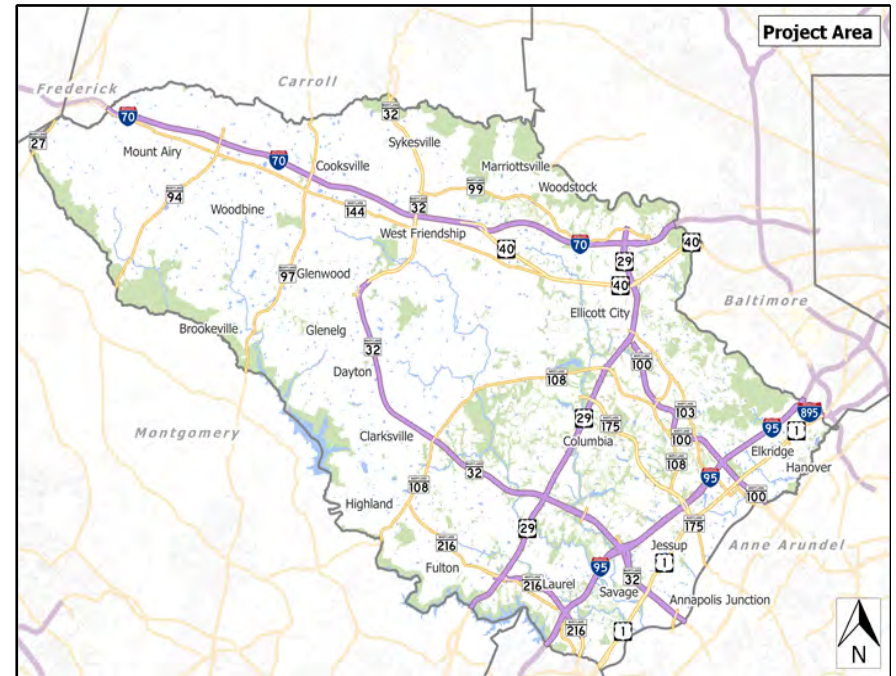

Request represents program advancement.

### Project Schedule

Program

### Operating Budget Impact

Estimated annual maintenance costs upon construction completion: No Change.

# ROAD CONSTRUCTION PROJECTS

**Project: J4220-FY2014 DEVELOPER/COUNTY SHARED IMPROVEMENTS**

**Number: J4220**

## Description

A project to facilitate the design, land acquisition and construction of roadway modifications and their appurtenances at various intersections or roadway segments. This occurs when the development of land is conducive to future comprehensive roadway development to which the current developer should contribute or when the roadway structural capacity, width transitions, bypass lanes, horizontal and vertical geometric changes for safety or to compliment developer improvements are anticipated in the near future. All improvements will be compatible with the General Plan and its engineering study refinements.

## Justification

This project will serve as a receiving project to accumulate developer contributions for a future comprehensive capital project or for the immediate construction of improvements to improve traffic flow or safety along substandard segments.

## Remarks

The County may enter into an agreement for the developer to construct the County's improvements.

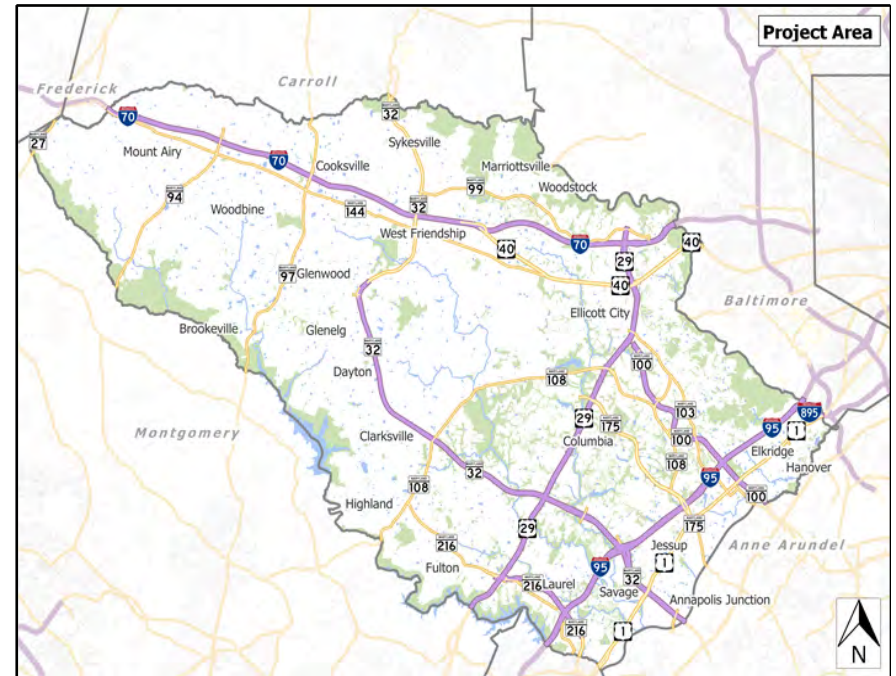

## Project Schedule

Program

## Operating Budget Impact

Annual Bond Redemption \$ \$25,875

Estimated annual maintenance costs upon construction completion:  
Increase.

# Fiscal 2018 Capital Budget

# ROAD CONSTRUCTION PROJECTS

Project: J4222-FY2008 SNOWDEN RIVER PARKWAY WIDENING BROKENLAND TO OAKLAND MILLS

Number: J4222

## Description

A project to design and construct a widening of Snowden River Parkway (intermediate arterial) by adding a third lane and sidewalks from Broken Land Parkway to Oakland Mills Road.

## Justification

This project will develop the third lane on each side between these two intersections, will increase the capacity of the roadway and provide an improved level of service. Project requested by the Traffic Division.

## Remarks

1. Project will be phased.
2. The County may enter into an agreement(s) for adjacent developers to construct the County improvements.

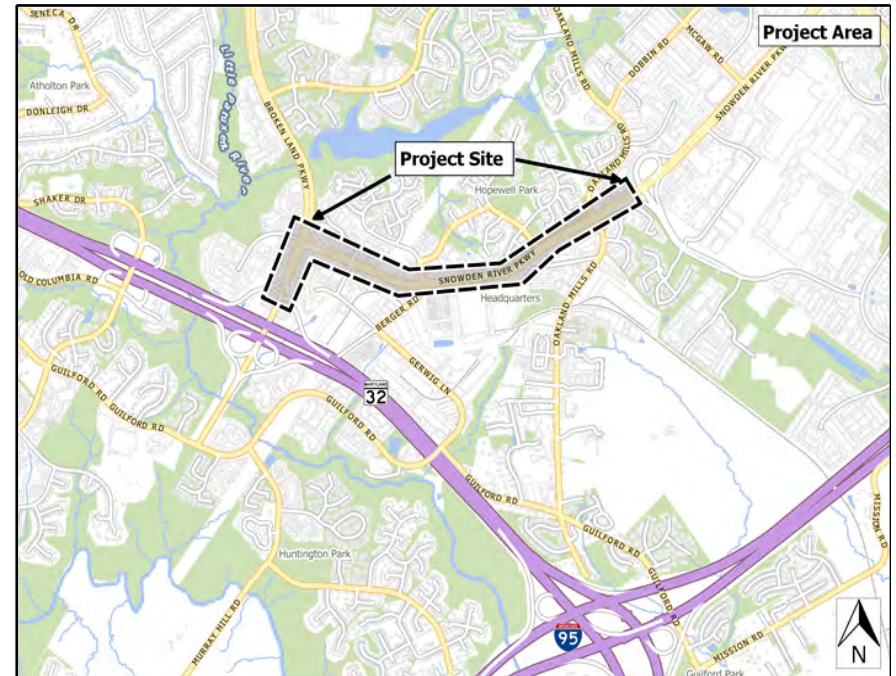

## Project Schedule

- FY18 - Design and land acquisition.
- FY19 - Construction.
- FY20-22 - Future construction phases.

## Operating Budget Impact

Annual Bond Redemption \$ \$546,525

Estimated annual maintenance costs upon construction completion: \$19,000 per two lane mile of new roadway.

# ROAD CONSTRUCTION PROJECTS

**Project: J4225-FY2008 ELLICOTT CENTER DR CONNECTION to ROGERS**

**Number: J4225**

## Description

A project to design and construct a road to connect Ellicott Center Drive to Rogers Avenue.

## Justification

This connection will aid in the flow of traffic in the US29/US40/Ridge Road area.

## Remarks

The County entered into an agreement for the developer to construct the County improvements.

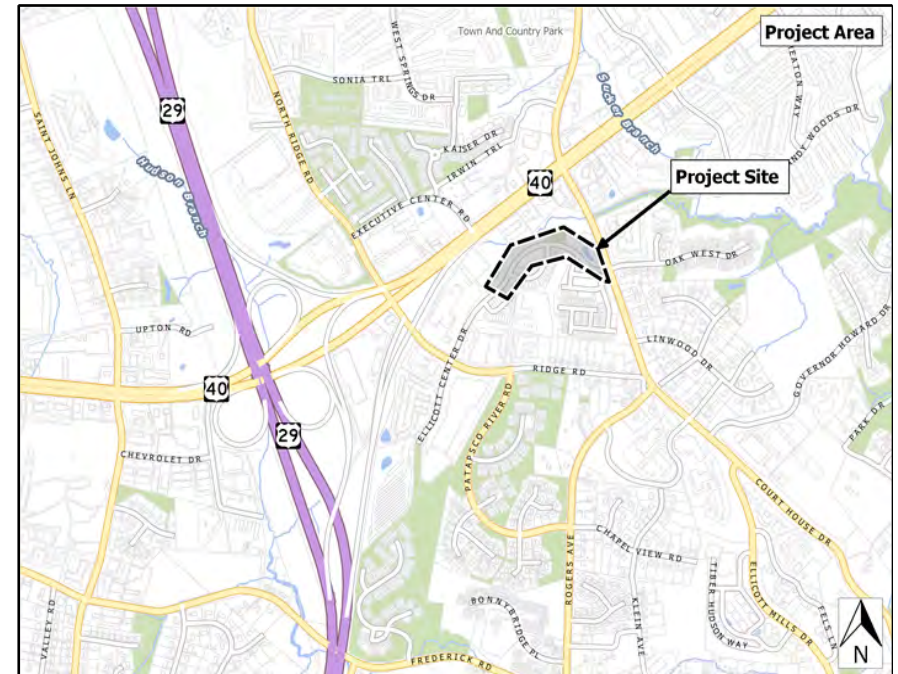

## Project Schedule

FY18 - Complete, Close.

## Operating Budget Impact

Annual Bond Redemption \$ \$83,700

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane mile of new roadway.

# Fiscal 2018 Capital Budget

## Project: J4226-FY2008 ROAD PROJECTS CONTINGENCY FUND

# ROAD CONSTRUCTION PROJECTS

Number: J4226

### Description

A project to provide funds for unanticipated needs related to bridges and roadways. This can include design, land acquisition and construction related to the bridge, storm drainage, roadway and pedestrian programs.

### Justification

This fund would allow the County to act on situations where funding is needed before a formal capital project can be developed, or when additional funds are needed in existing capital projects. Examples include: when land comes available that meets the future needs of the County to serve the public interest and no funded Capital Project exists; for roadway improvements when project funding is needed sooner than anticipated; or, when a project's costs are higher than projected and delaying the project is not in the best public interest.

### Remarks

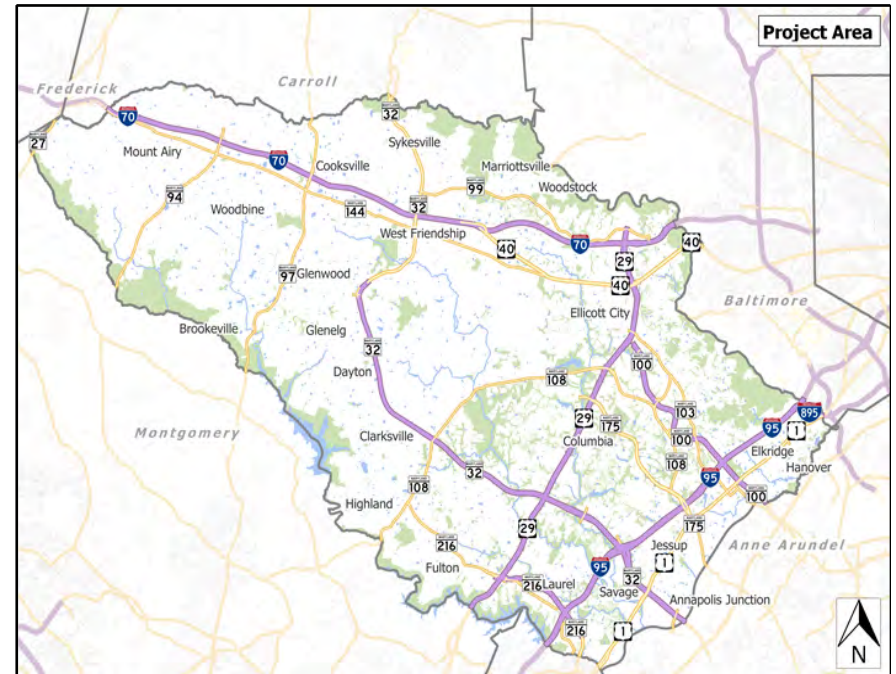

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$99,000

Estimated annual maintenance costs upon construction completion: No Change.

# ROAD CONSTRUCTION PROJECTS

**Project: J4228-FY2008 ILCHESTER and LANDING ROAD INTERSECT**

**Number: J4228**

## Description

A project to realign the intersection of Landing Road with Ilchester Road so that Landing Road intersects Ilchester Road directly across from Ilchester Point Court.

## Justification

The current intersections of Landing Road and Ilchester Point Court with Ilchester Road are offset. A new development at the corner of Landing Road has provided the land for the realignment of the road. The Traffic Division supports the realignment of the intersection.

## Remarks

1. Both Ilchester and Landing are Scenic Roads.
2. The County has entered into an agreement for the developer to construct the County improvements.

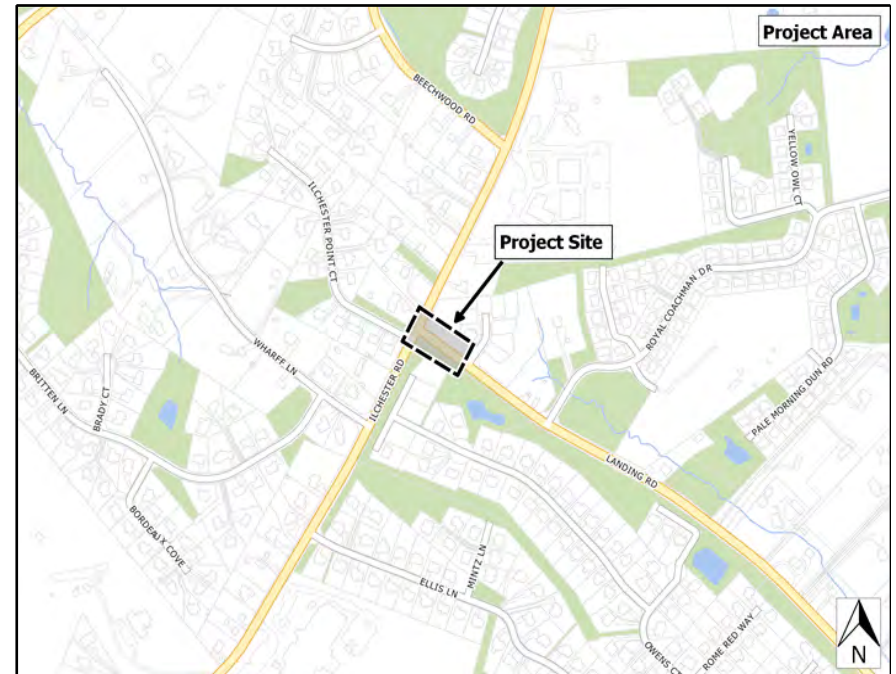

## Project Schedule

FY18 - Close.

## Operating Budget Impact

Annual Bond Redemption \$ \$41,625

Estimated annual maintenance costs upon construction completion: No Change.

## Project: J4229-FY2008 WHISKEY BOTTOM ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4229

### Description

A project to design and construct improvements to Whiskey Bottom Road from just west of US1 to the Anne Arundel County Line. Work will include the US1 / Whiskey Bottom Road intersection. Anticipated improvements include through lanes, turn lanes, intersection controls and pedestrian improvements.

### Justification

Anticipated new development in the immediate area and increases in traffic associated with BRAC and its accompanying development will increase the traffic along US1 and Whiskey Bottom Road. The improvements will help to mitigate the expected increases in traffic.

### Remarks

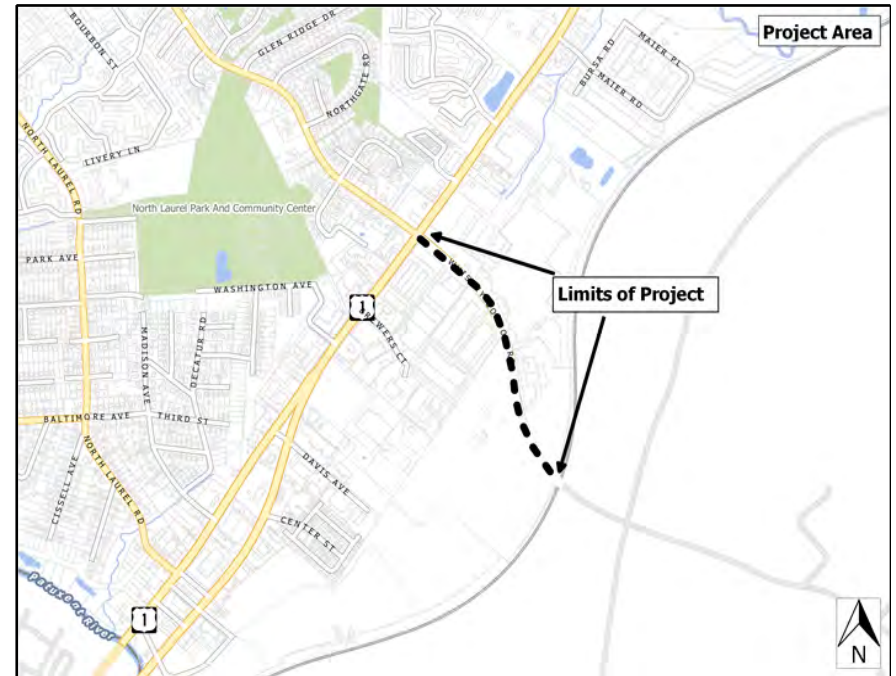

1. The project is supported by the Traffic Division.
2. A study will be conducted to develop the full scope of the project.
3. Developer contributions are expected to help fund the project.
4. This project may be used as a funding source for public improvements constructed by others under an agreement approved by the County Council.
5. Other funds are from County share of Race Track funds allocation.

### Project Schedule

FY18 - Design

### Operating Budget Impact

Estimated annual maintenance costs upon construction completion: \$19,000 per two lane mile of new roadway.

# Fiscal 2018 Capital Budget

## Project: J4230-FY2017 SANNER ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4230

### Description

A project to provide bicycle compatibility by widening the existing 10-foot lanes to 12 feet and filling in the missing shoulders along both sides of the road. This work will include acquisition of the necessary land for the widening and the accompanying storm water management.

### Justification

The current lanes are not a full 12 feet wide and should be upgraded for the current standard. The County has completed bicycle compatibility improvements on Guilford Road which connects to Sanner Road. There is a large contingent of bicyclists at the Johns Hopkins Applied Physics Laboratory that could make use of the shoulders. The shoulders will also provide for less maintenance of the road because the car and truck traffic will not be driving so close to the edge of the road upon completion of these improvements.

### Remarks

1. Project is part of the County's Bicycle Master Plan.
2. Project to be coordinated with W8306.

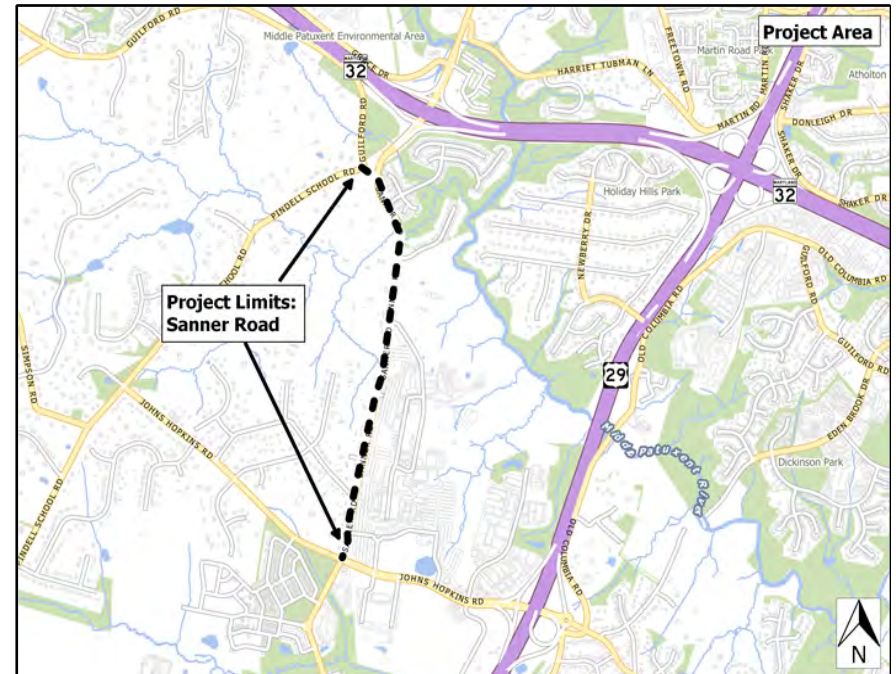

### Project Schedule

- FY18 - Design.
- FY19 - Land Acquisition.
- FY20 - Construction .

### Operating Budget Impact

Annual Bond Redemption \$ \$41,850

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane mile of new roadway.

# Fiscal 2018 Capital Budget

# ROAD CONSTRUCTION PROJECTS

**Project: J4237-FY2010 MD175/OAKLAND MILLS ROAD INTERCHANGE**

**Number: J4237**

## Description

A project to design and construct a new MD175/Oakland Mills Road interchange and the re-alignment of Oakland Mills Road through the proposed Blandair Park.

## Justification

This project will provide access to the proposed Blandair Park as shown on the approved master plan for the park. The improvements will also provide vicinity roadway network connectivity and capacity for the area bordering the south side of the park.

## Remarks

1. This project will be coordinated with Capital Project N3102.
2. Design will be consistent with the Blandair Park Master Plan.
3. This project will require approval by the State Highway Administration to establish a break in the MD175 right-of-way.
4. The improvements will be in two phases. Phase One will be the southern roadway improvements. Phase two will be the northern roadway and bridge construction.
5. Request represents project advancement.

## Project Schedule

- FY19 - Construction of Phase 1 and Phase 2.
- FY20 - Construction of Phase 2.
- FY2021 - Phase 2 construction completed.

## Operating Budget Impact

Annual Bond Redemption \$ \$1,057,500

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane mile of new roadway.

# Fiscal 2018 Capital Budget

## Project: J4239-FY2014 OLD ROXBURY ROAD

# ROAD CONSTRUCTION PROJECTS

Number: J4239

### Description

A project to design and construct improvements to Old Roxbury Road. Old Roxbury Road is classified as a local road.

### Justification

Old Roxbury Road is a public road but it does not meet current standards. Recent development will increase the traffic on the road. The Community has requested the improvements and the request is supported by the Bureau of Highways. The improvements are beyond the capability of the Bureau of Highways.

### Remarks

1. Construction may depend on donation of necessary easements and/or resident cost share participation.
2. Request represents program advancement.

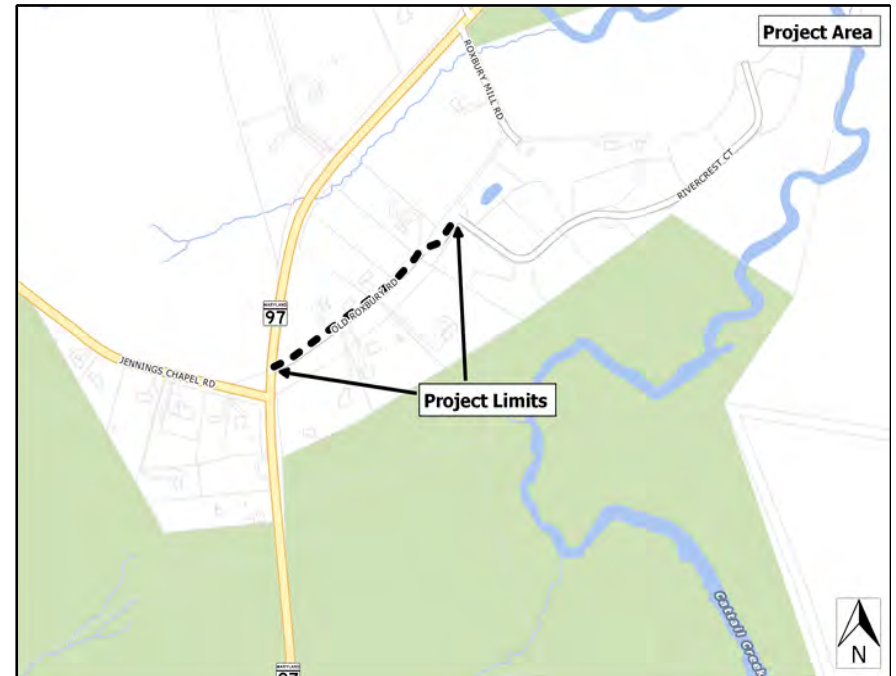

### Project Schedule

FY18 - Land acquisition and Construction.  
FY19 - Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$36,450

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane mile of new roadway.

## Project: J4240-ROADWAY REHABILITATION/SAFETY PROGRAM

# ROAD CONSTRUCTION PROJECTS

Number: J4240

### Description

A project to correct safety or structural problems on existing roads. Projects include but are not limited to improvements to roadway geometrics, elimination of roadside hazards, pavement and/or base failures.

### Justification

This project is intended to correct deficiencies in the County road system that have been identified in studies or recommended by the Bureau of Highways' Maintenance or Traffic Divisions.

### Remarks

This project replaces J4168

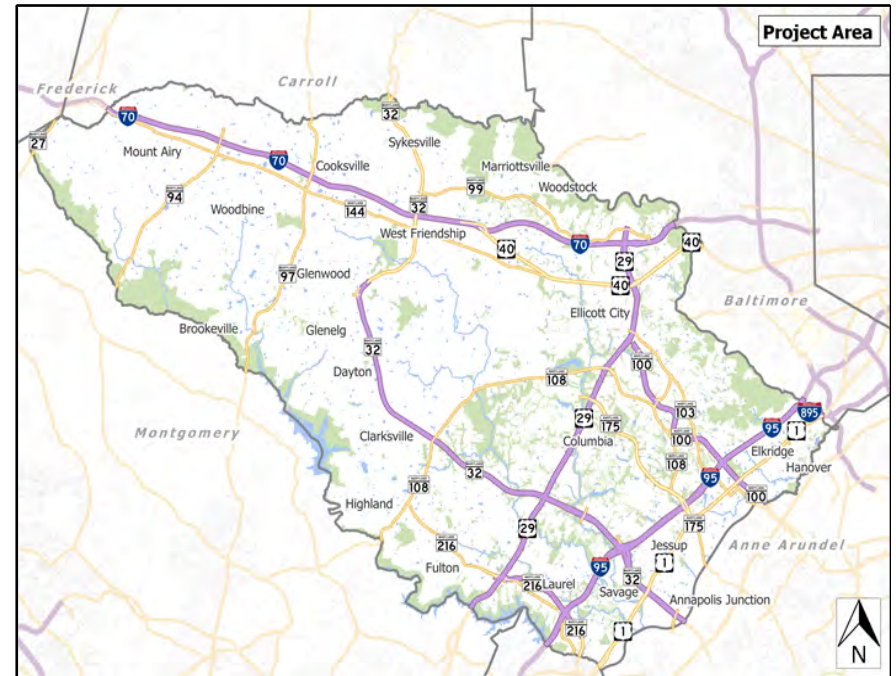

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$76,500

Estimated annual maintenance costs upon construction completion:  
Decrease.

## Project: J4241-FY2011 US RT 1 RT 175 to MONTEVIDEO ROAD

# ROAD CONSTRUCTION PROJECTS

Number: J4241

### Description

A project for the design and reconstruction of approximately 2,500 feet of US1 from MD175 to Montevideo Road.

### Justification

These improvements will be the first County capital project to implement the RT1 Corridor Improvement Strategy which includes a new roadway typical section. It is located proximate to two large mixed use developments and is a complement to developer installed improvements.

### Remarks

1. Project to be designed and constructed by Howard County.
2. Project to be coordinated with J4206, Montevideo Road.

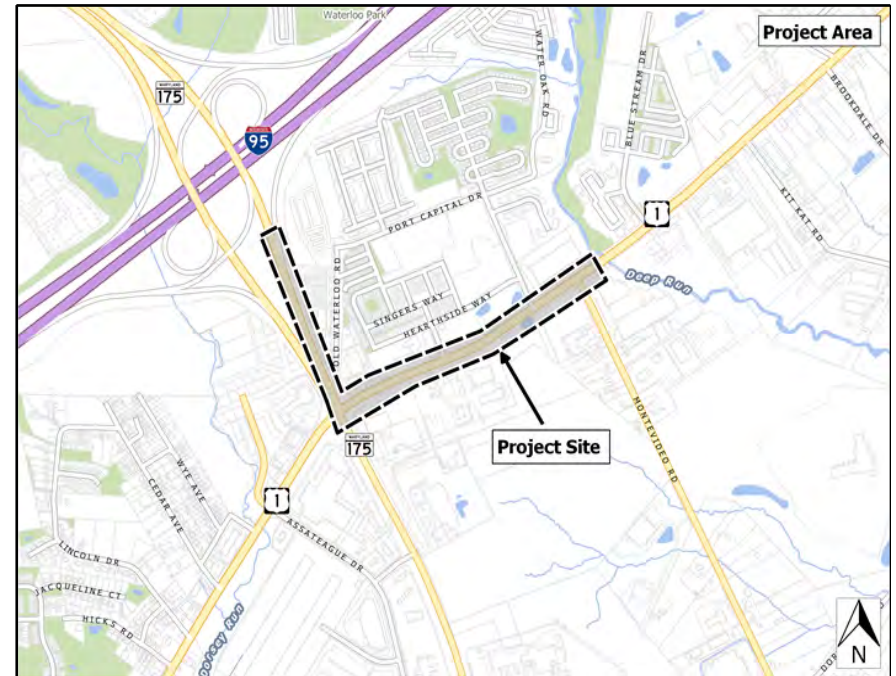

### Project Schedule

- FY18 - Design.
- FY19 - Land Acquisition and Construction.
- FY20 - Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$792,000

Estimated annual maintenance costs upon construction completion: No Increase.

# ROAD CONSTRUCTION PROJECTS

Project: J4244-FY2015 BUSINESS PARKWAY-BLUESTREAM DRIVE EMERGENCY ACCESS

Number: J4244

## Description

A project to design and construct a connection between Business Parkway and Bluestream Drive to act as an emergency access or exit. This connection will be approximately 500 feet in length.

## Justification

The Fire and Police Departments prefer to have more than one way in and out of the Bluestream Development and a connection between Business Parkway and Bluestream will be provided for emergency access/egress only. This connection will also provide a place for the Trinity Episcopal Church to unload their hearse in a location that provides easier access to the adjacent cemetery.

## Remarks

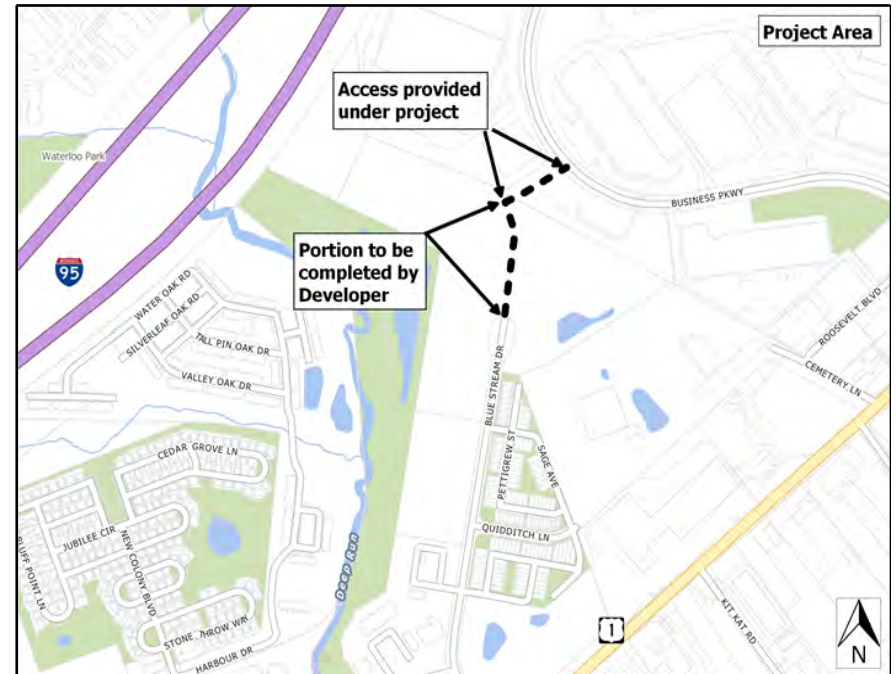

## Project Schedule

FY18 - Close.

## Operating Budget Impact

Annual Bond Redemption \$ \$10,350

Estimated annual maintenance costs upon construction completion: \$19,000 per two lane mile of new roadway.

## Project: J4245-FY2016 SCENIC ROADS ENHANCEMENT

# ROAD CONSTRUCTION PROJECTS

Number: J4245

### Description

A project to plan, design, and install enhancements at certain historic or high visibility locations along the National Scenic Byway or County scenic roads. Projects will preserve and enhance the intrinsic historic and scenic qualities of the roads and byways.

### Justification

The Scenic Roads Act of 1994 established protections for features of designated roadways that contribute to the scenic character of the roadway. Certain historic features (e.g. mile markers, monuments) are often central to a roadway's designation and therefore, may be eligible for enhancements.

### Remarks

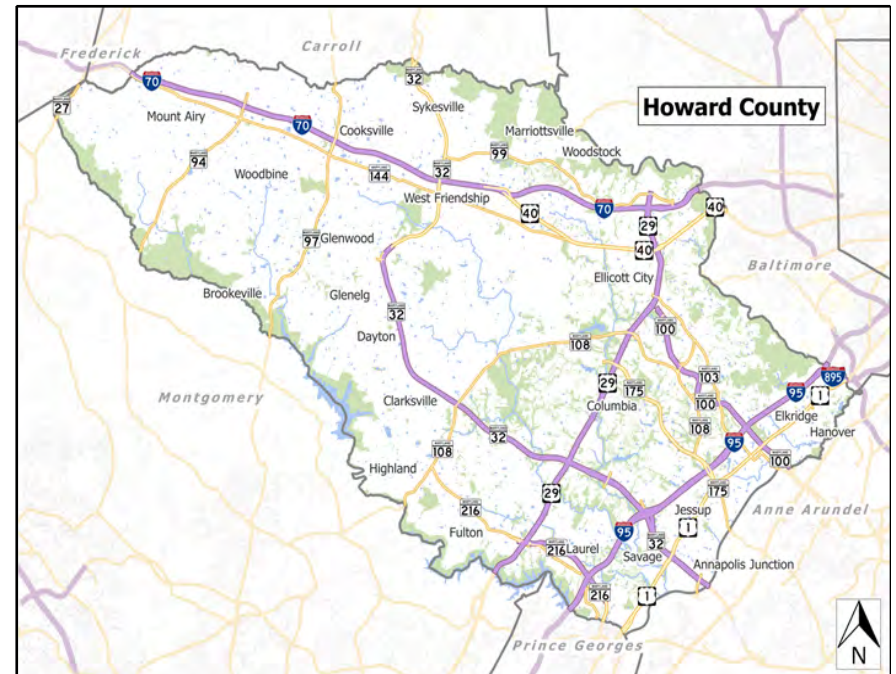

Funds may be used to acquire easements or ROW adjacent to the roadway/byway to accommodate the improvements.

### Project Schedule

FY18 - Inventory potential sites for improvements; establish design goals; identify and design pilot, and construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$8,100

## Fiscal 2018 Capital Budget

## ROAD CONSTRUCTION PROJECTS

### Project: J4246-FY2018 OLD MONTGOMERY ROAD AT BRIGHTFIELD ROAD INTERSECTION IMPROVEMENTS

Number: J4246

#### Description

A project to reconfigure the intersection of Old Montgomery Road and Brightfield Road for safety and increased capacity. This project will determine the type of reconfiguration and then proceed to design, acquire the necessary land and construct the improvement.

#### Justification

The present intersection is a remnant of the time when Old Montgomery Road was a through road connecting Old Waterloo Road (MD108) to Montgomery Road (MD103). Old Montgomery Road no longer allows northbound traffic to access Montgomery Road (MD103); there is only a southbound movement from Montgomery Road to Old Montgomery Road. This significantly decreases the traffic on Old Montgomery Road north of Brightfield Road. The main traffic movement today is to and from Brightfield Road to Old Montgomery Road heading to the south toward Old Waterloo Road (MD108).

#### Remarks

1. Request represents project initiation.
2. Project to be coordinated with Trotter's Knoll development.

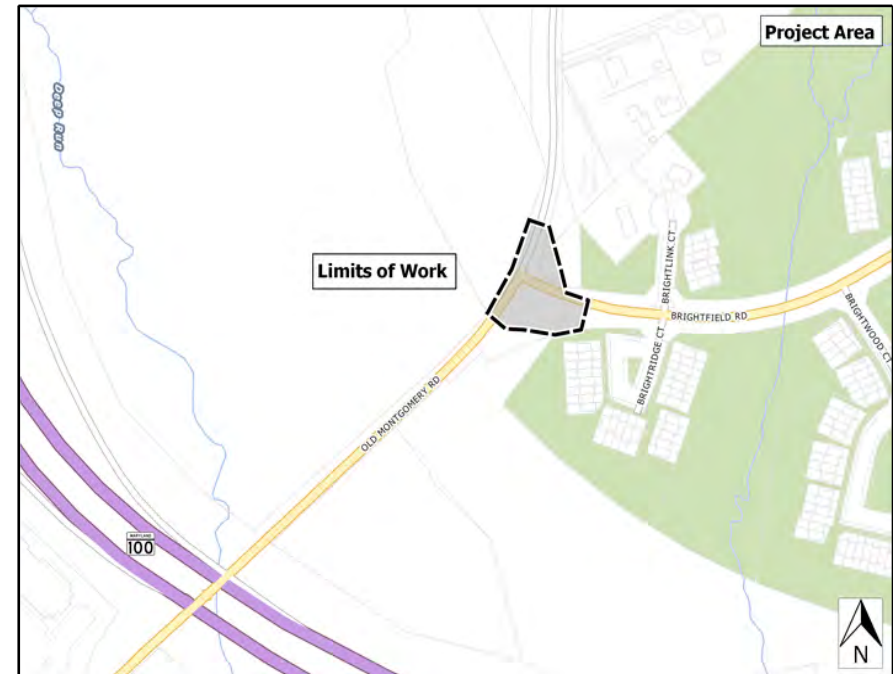

#### Project Schedule

FY18 - Study and Design.  
FY19 - Land Acquisition.  
FY20 - Construction.

#### Operating Budget Impact

Annual Bond Redemption \$ \$82,125

Estimated annual maintenance costs upon construction completion: No Change.

# Fiscal 2018 Capital Budget

## Project: J4247-FY2017 KIT KAT ROAD

# ROAD CONSTRUCTION PROJECTS

Number: J4247

### Description

A project to improve the safety of Kit Kat Road by widening the road enough to allow for the traffic to be able to pass each other more easily. Kit Kat Road is classified as a major collector road but is only built as a local road with a 20 feet width paving. It has significant truck traffic because of the types of businesses on the road.

### Justification

The State Highway Administration is going to improve the intersection of US1 and Kit Kat Road by installing a traffic signal and deceleration lane. At the public hearing the public asked that the road be widened a little to make it easier to maneuver the road with all of the large trucks that use the road. The Traffic Division and the Engineering Division support this request.

### Remarks

1. Project to be coordinated with SHA's project to install a traffic light at the intersection of US1 and Kit Kat Road.
2. Request represents project advancement.

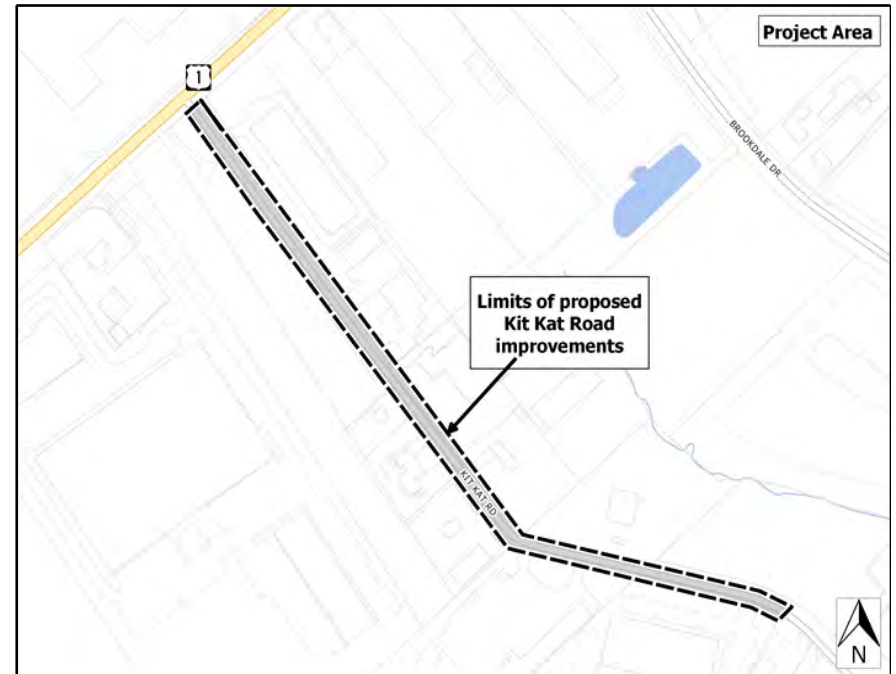

### Project Schedule

- FY18 - Study and Design.
- FY19 - Design and Land Acquisition.
- FY20 - Land acquisition.
- FY21 - Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$79,875

Estimated annual maintenance costs upon construction completion:  
\$19,000 per two lane mile of new roadway.

# Fiscal 2018 Capital Budget

## Project: J4248-FY2017 SAVAGE AREA COMPLETE STREETS

# ROAD CONSTRUCTION PROJECTS

Number: J4248

### Description

The project includes complete street improvements in Savage, Maryland to enhance multimodal travel for pedestrians, bicyclists, transit, and automobiles. ESD/LID practices will also be implemented along the roadsides to enhance management of stormwater runoff.

### Justification

A separate project (S6290) will relocate existing sewers currently located on private property to existing public right-of-way and/or utility easements. The sewer realignments will place several of the relocated sewer lines within the existing streets which will impact existing pavement, curbs, sidewalks and other roadside amenities. This project will enhance the required roadway rehabilitation by implementing complete streets improvements in conjunction with the utility improvements to minimize costs and impacts to the community. The proposed complete street improvements will include missing sidewalk segments, sidewalk upgrades meeting ADA guidelines, curb extensions (bulb-outs), intersection modifications, shared use pavement markings (sharrows), signing, micro-bioretenion facilities, pervious pavement, and landscaping designed to reduce motor vehicle speeds, enhance pedestrian and bicycle travel and improve water quality treatment along the local streets. The stormwater ESD/LID practices will help the County achieve its Watershed Implementation Plan (WIP) objectives.

### Remarks

1. Concept plans and cost estimates were completed on June 15, 2015.
2. A community meeting was held on July 14, 2015 and June 23, 2016 to present the concepts to the Savage Community. The proposed improvements are supported by the community.
3. Request represents project advancement.

### Project Schedule

FY18 - Complete Design FY19 - Start Construction.  
FY20 - Complete Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$118,125

Complete street improvements will not significantly affect future operating and maintenance requirements. Stormwater ESD/LID practices will require annual maintenance.

# Fiscal 2018 Capital Budget

Project: J4249-FY2017 MD 100 AT MD 103

# ROAD CONSTRUCTION PROJECTS

Number: J4249

## Description

A project to design and construct a replacement of the roundabouts of MD103 on the north and south sides of MD100 with a diverging diamond interchange in order to increase the capacity of the interchange. MD100 is a principal arterial and MD103 is a minor arterial.

## Justification

The intersection is unable to handle the traffic at peak hours and restricts the movement of cars off of MD100 onto MD103 (Meadowridge Road).

## Remarks

1. Project will require the cooperation of the State Highway Administration as most of the existing infrastructure and land is theirs.
2. Request represents project advancement.
3. "Other" represents State funding.

## Project Schedule

FY18 - Design and Construction.  
FY19/20 - Construction and Close.

## Operating Budget Impact

Annual Bond Redemption \$ \$90,000

Estimated annual maintenance costs upon construction completion: No Change.

# Fiscal 2018 Capital Budget

## Project: J4250-FY2019 HOWARD ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4250

### Description

A project to improve the safety of Howard Road north of Big Branch Drive. Howard Road is a scenic road.

### Justification

Roadway improvements are requested by the Bureau of Highways. The existing sight distance for the road in this area is below standard and poses safety concerns for the travelling public.

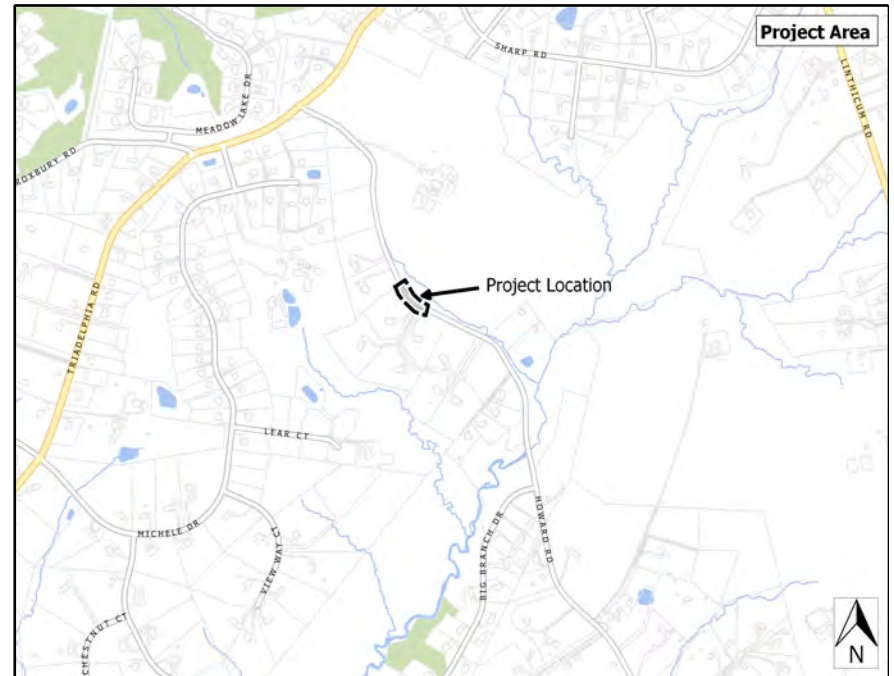

### Remarks

### Project Schedule

### Operating Budget Impact

Annual Bond Redemption \$ \$20,250

Estimated annual maintenance costs upon construction completion:  
None.

# Fiscal 2018 Capital Budget

## Project: J4251-FY2018 LIME KILN ROAD IMPROVEMENTS

# ROAD CONSTRUCTION PROJECTS

Number: J4251

### Description

A project to improve the roadway and drainage along Lime Kiln Road between MD 216 and Reservoir Road. Lime Kiln Road is a minor collector.

### Justification

Culvert replacement has been requested by the Bureau of Highways. The existing culvert floods regularly, necessitating the closure of the roadway. This, along with the existing sub-standard roadway, causes a safety concern and an inconvenience to the travelling public. The project will be phased for short term culvert replacement and long term roadway improvements.

### Remarks

Request represents project initiation.

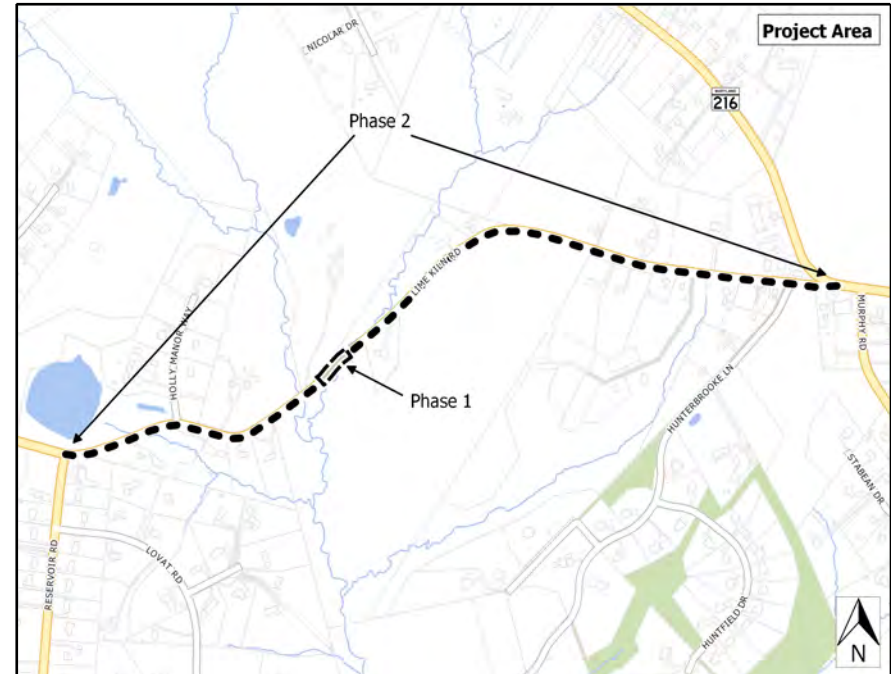

### Project Schedule

- FY18 - Phase I Design and Land Acquisition.
- FY19 - Phase I Land Acquisition and Phase II Design.
- FY20 - Phase I Construction and Phase II Land Acquisition.
- FY21 - Phase II Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$456,750

Estimated annual maintenance costs upon completion: Decrease.

# Fiscal 2018 Capital Budget

# ROAD CONSTRUCTION PROJECTS

Project: J4252-FY2019 SYSTEMIC INFRASTRUCTURE IMPROVEMENTS TO DNTN ELLICOTT CITY

Number: J4252

## Description

A project to improve or upgrade road and drainage infrastructure systems as a result of the 2016 Ellicott City Flood. Work will include, but not be limited to: paving, curb and gutter, storm drainage conveyance systems, sidewalks, streetscape, crosswalks, ADA ramps, street lighting, and traffic signal adjustments in the historic Ellicott City perimeter area.

## Justification

The 2016 flood caused numerous and obvious road and drainage infrastructure deficiencies. DPW could only address the most urgent needs during the emergency declaration period. Main Street was temporarily repaired, but restoration is not complete. Roads and drainage systems surrounding Main Street such as Old Columbia Pike, Court Avenue, Church Street, Emory Street and Fels Lane also require attention. Upgrades, replacements, corrections and renovations are needed to sustain the public infrastructure into the future.

## Remarks

1. Request represents project initiation.
2. Project to be coordinated with C0337.
3. GRANT represents FY18 State Bond Bill not received.

## Project Schedule

## Operating Budget Impact

Annual Bond Redemption \$ \$99,000

Estimated annual maintenance costs upon construction completion: \$19,000 per two lane mile of new roadway.

# Fiscal 2018 Capital Budget

## Project: J4711-FY2011 DEVELOPER INSPECTION PROGRAM

# ROAD CONSTRUCTION PROJECTS

Number: J4711

### Description

A project to provide engineering and related services, computer management, asset management, inspection, testing, staff training, supplies, tools, equipment and vehicles necessary for site inspections for the implementation of developer projects that make additions to the public road and storm water management systems. All projects undertaken with this authority will be fully funded by private funds received from developers requesting such additions to the public system.

### Justification

This project is necessary to provide an appropriation for engineering and inspection services. The services are necessary for determining the acceptability of developer work into the infrastructure of the County.

# Fiscal 2018 Capital Budget

## Project: K5035-FY1998 SCHOOL ROUTE PATHWAYS or SIDEWALKS

# SIDEWALKS

Number: K5035

### Description

This project is for the installation of sidewalks and/or pathways to provide for improved routes for school children.

### Justification

The public school system requested the construction of sidewalks and pathways. Installation of these sidewalks and/or pathways are primarily for children walking to and from school. Other recreational and pedestrian transportation benefits can be gained by their installation.

### Remarks

1. This project will be coordinated with the Public School System.
2. This project is compatible with the 1999 Sidewalk Policy for placing sidewalks in existing residential communities.
3. Sites next in priority to be evaluated are Old Frederick Road, Crescent Road/Northfield Road, Winter's Lane, Florey Road. Montgomery Road at Bellanca, and Ilchester Road - Beechwood Point Court to Ellis Lane.
4. Request represents program advancement.

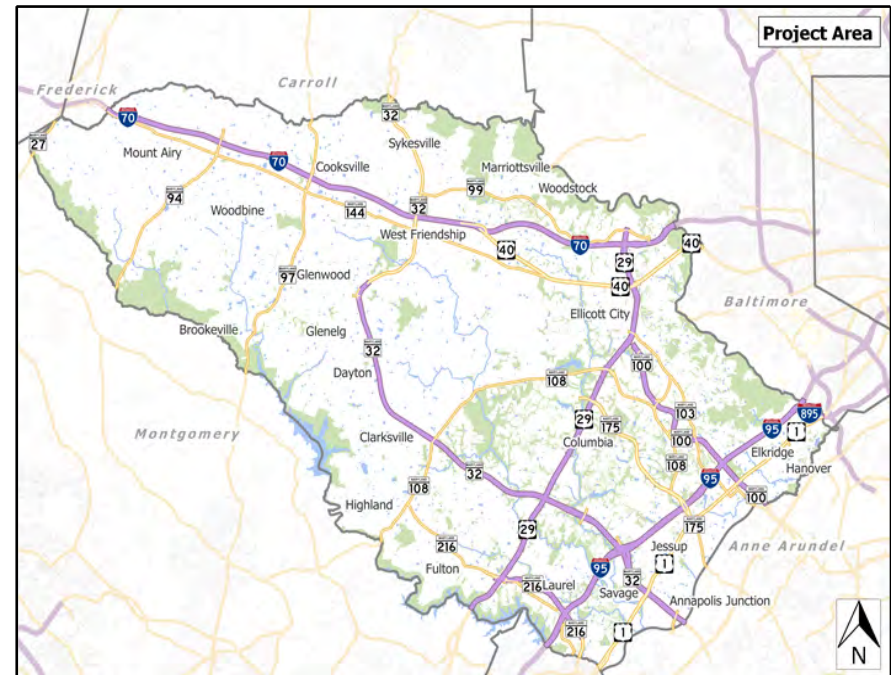

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$77,985

Estimated annual maintenance costs upon completion: No Change.

## Project: K5036-FY1998 ROUTINE SIDEWALK / WALKWAY EXTENSIONS

# SIDEWALKS

Number: K5036

### Description

A project to design and construct routine sidewalk and walkway extensions up to about 1,000 feet in length.

### Justification

Projects will be initiated by public request or where a need is created by development or to connect existing walks.

### Remarks

1. This project is compatible with the 1999 Sidewalk Policy for placing sidewalks in existing residential communities.
2. Construction of some projects may be dependent on donation of necessary easements.
3. Current project locations include: Montgomery Rd at Lynn Ln., Elberta Dr at South Haven Dr., Falls Run Rd., and MD108 at Jericho Rd.
4. Request represents program advancement.

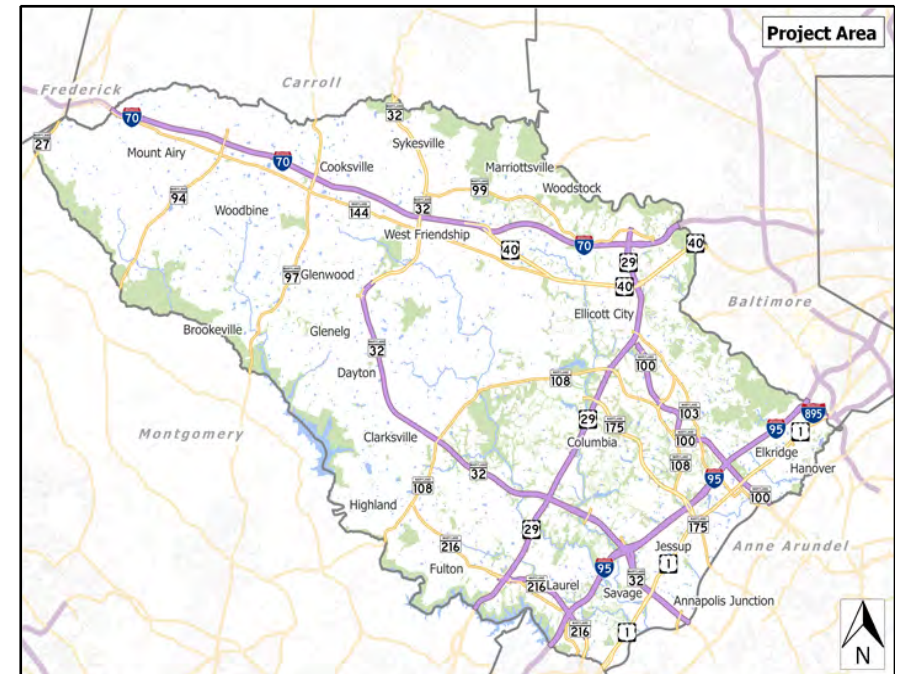

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$81,900

Estimated annual maintenance costs upon completion: No Change.

# Fiscal 2018 Capital Budget

## Project: K5040-FY2005 GUILFORD RD PEDESTRIAN/BIKE IMPROVE

# SIDEWALKS

Number: K5040

### Description

A project for the design and construction of sidewalk on one or both sides of Guilford Road between Oakland Mills Road and US1.

### Justification

Significant pedestrian and bicycle activity has been observed on Guilford Road. Housing in the area generates a substantial number of trips. The need for improvements to Guilford Road is cited in the Howard County Comprehensive Transportation Plan.

### Remarks

1. Department of Recreation and Parks requested extension of sidewalks from US1 and Oakland Mills Road to Guilford Park.
2. Project to be coordinated with D1140 and J4214.
3. Project to be completed in phases: Additional phasing to be determined in the future.
4. Construction of this project may be dependent upon donation of easements and/or resident cost share participation.

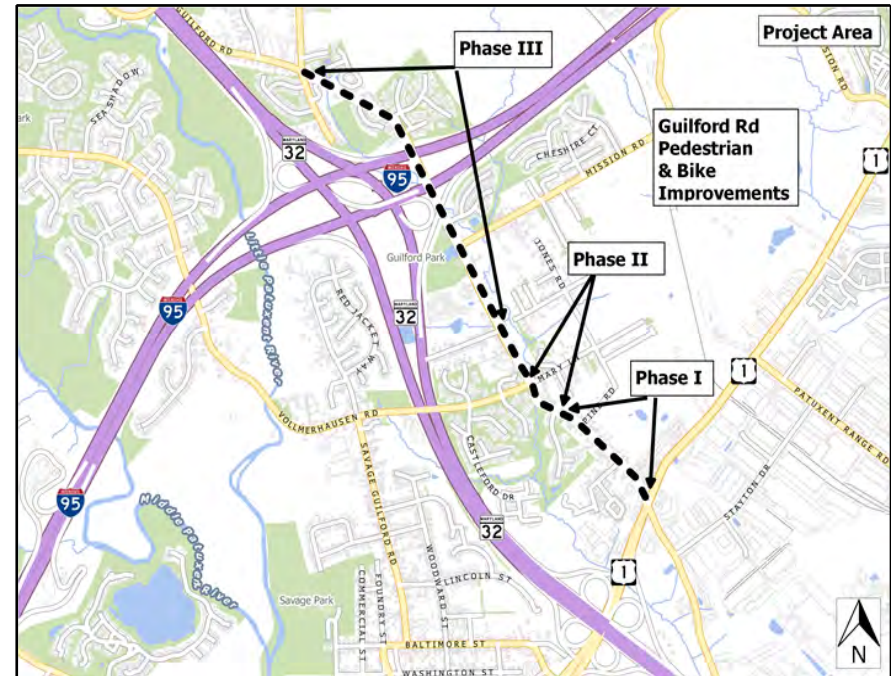

### Project Schedule

- FY18 - Phase 1 Design.
- FY19 - Phase 1 Land Acquisition.
- FY20 - Phase 1 Construction.
- FY21-24 - Future Phases.

### Operating Budget Impact

Annual Bond Redemption \$ \$107,775

Estimated annual maintenance costs upon completion: No change for sidewalks.

# Fiscal 2018 Capital Budget

## Project: K5043-SIDEWALK REPAIR PROGRAM

# SIDEWALKS

Number: K5043

### Description

This project is for the repair of deteriorated sidewalks and driveway aprons that are in the public rights-of-way.

### Justification

Program has been developed in response to Council Bill #63/1988 for sidewalk repair by County contract, with the provision that abutting property owners shall reimburse the County for expenses or identified repairs over a five-year period.

### Remarks

1. This project was first funded in FY99 as a replacement for one begun in FY92.
2. The programmed monies will be used on a first-come first-served basis.
3. OTHER funds represent private homeowner reimbursements.
4. County will be responsible for walks damaged by tree root and/or County water and sewer connections or related causes.
5. County owns and maintains approx.4,734,200 linear feet (900 miles) of sidewalks.

### Project Schedule

Approximately 10 miles of sidewalks replaced per \$1M budgeted.  
Close at program completion.

### Operating Budget Impact

Annual Bond Redemption \$ \$35,550

# Fiscal 2018 Capital Budget

## Project: K5054-FY2003 ROADSIDE IMPROVEMENT PROGRAM

# SIDEWALKS

Number: K5054

### Description

This project is to repair, replace or install sidewalks and ramps for disability areas, curbs, trees, and guardrails to comply with applicable Federal, State and County codes, and to reduce liabilities due to deteriorating appurtenances within County rights-of-way.

### Justification

In accordance with Federal Americans with Disabilities Act and Council Resolution 195/1985 to provide disability ramps throughout the County, and to replace damaged curb, trees and guardrails that could pose other hazards.

### Remarks

1. Locations to be determined on a requested or as needed basis.
2. Developer monies can be used in lieu of them making limited improvements.

### Project Schedule

FY17 - Program funding not available. Close at program completion.

### Operating Budget Impact

Annual Bond Redemption \$ \$88,425

# Fiscal 2018 Capital Budget

## Project: K5061-FY2007 PEDESTRIAN PLAN PROJECTS

# SIDEWALKS

Number: K5061

### Description

A project for the ongoing evaluation, design and construction of pedestrian improvements listed in the Howard County Pedestrian Master Plan. The candidate project list is updated annually by the Department of Planning and Zoning in coordination with the Department of Public Works.

### Justification

Pedestrian projects in Howard County, both private sector and State/County funded, need to be implemented in a consistent ongoing manner derived from a comprehensive, systemic planning process. The Howard County Pedestrian Master Plan provides a comprehensive plan and ongoing process for prioritizing the use of capital funds directed at improving pedestrian safety, mobility, and access to transit, schools, parks etc.

### Remarks

1. Project addresses collector classification roads. Local roads are addressed under other programs.
2. Project is a cooperative effort of the Department of Public Works and the Department of Planning and Zoning.
3. Grant represents Transportation Enhancement Grant from SHA.
4. Construction of some projects may be dependent on donation of necessary easements.
5. Request represents program advancement.

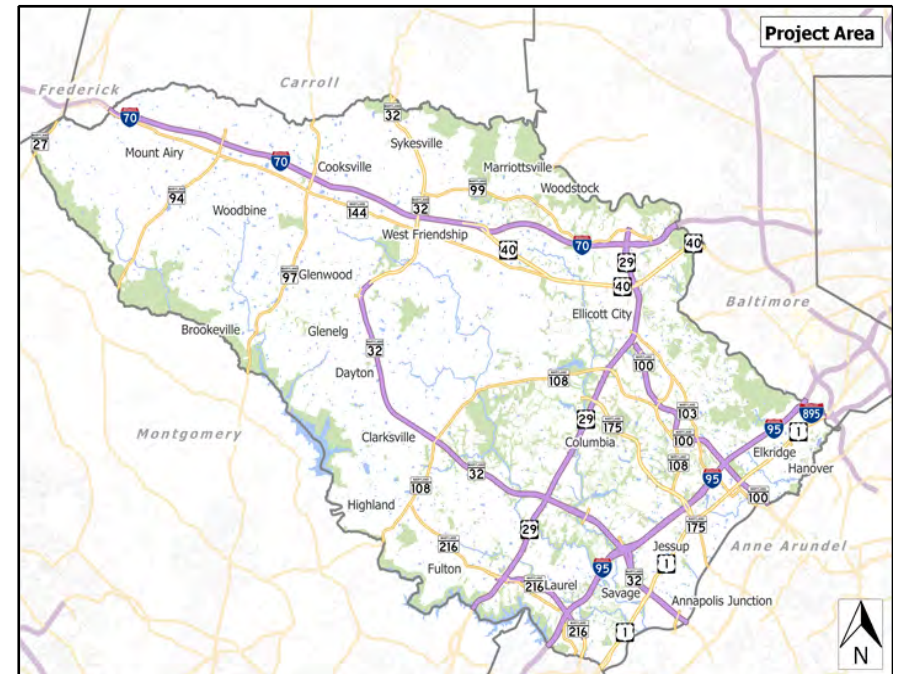

### Project Schedule

## Project: K5062-FY2009 STATE ROADS SIDEWALK RETROFIT PROGRAM

# SIDEWALKS

Number: K5062

### Description

A project to design and construct improved pedestrian access along State roads.

### Justification

Many State roads are without sidewalks or shoulders for pedestrians. Citizens have expressed interest in improving access for residential areas and/or commercial industrial sites. These projects will reduce pedestrian accident potential.

### Remarks

1. GRANT funds are State Retrofit Sidewalk Program available to complement County funds. The County must provide matching funds for each site.
2. Program is coordinated with SHA.

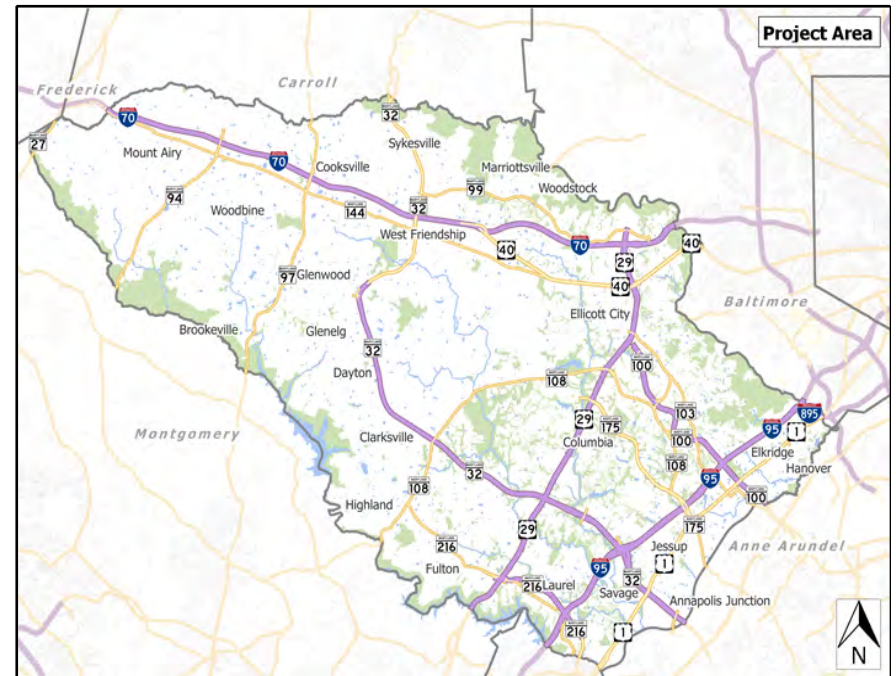

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$15,750

Estimated annual maintenance costs upon completion: No Change.

## Project: K5063-FY2017 NORTH LAUREL ROAD SIDEWALK

# SIDEWALKS

Number: K5063

### Description

A project for the design and construction of a sidewalk along the southwest side of North Laurel Road from Linville Ave to US1.

### Justification

This project was requested by the community, will complement the work done to extend the sidewalk from Baltimore Ave to Linville Ave and will provide a pedestrian connection to US1.

### Remarks

1. The sidewalk will be approximately 1,100 feet in length.
2. Curb and gutter may be included if necessary.
3. Request represents project initiation.

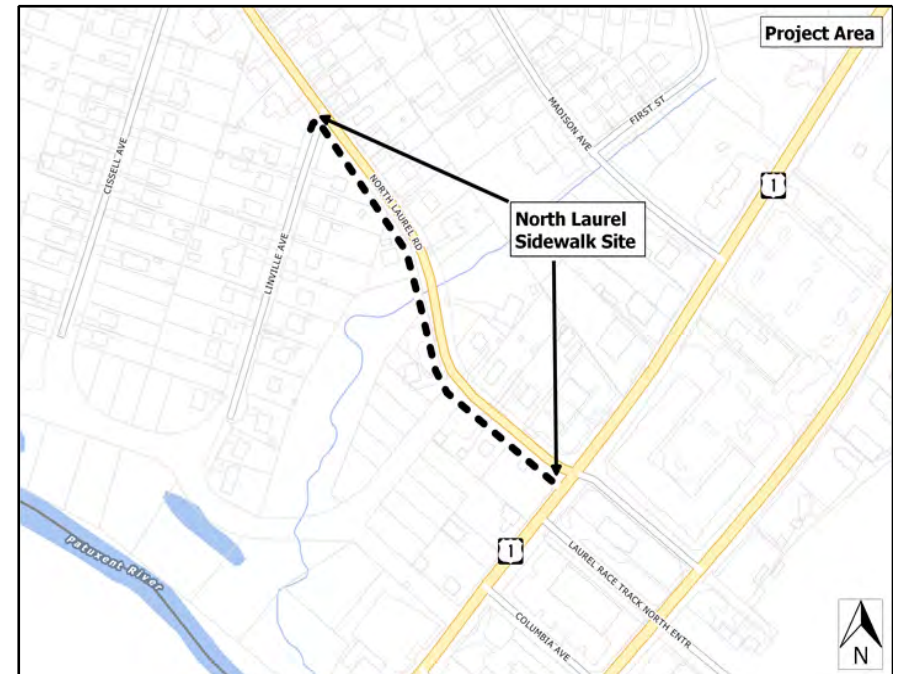

### Project Schedule

FY18 - Design.  
FY19 - Design and Land Acquisition.  
FY20 - Construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$9,900

Estimated annual maintenance costs upon completion: No Change.

## Project: K5064-FY2017 MISSION ROAD SIDEWALK

# SIDEWALKS

Number: K5064

### Description

A project to install sidewalk along parts of Mission Road. Area 1 will install sidewalk from Pleasant Chase Road to the Ridgley's Run Community Center. This installation involves modification of the existing culvert in order to accommodate a sidewalk. Area 2 will address Mission Road from Guilford Road to Concord Drive.

### Justification

Area 1 - There are a number of residents that could walk to the community center rather than drive if a sidewalk was installed. Area 2 - Some sidewalk already exists; this project will complete the system.

### Remarks

Request represents project initiation.

### Project Schedule

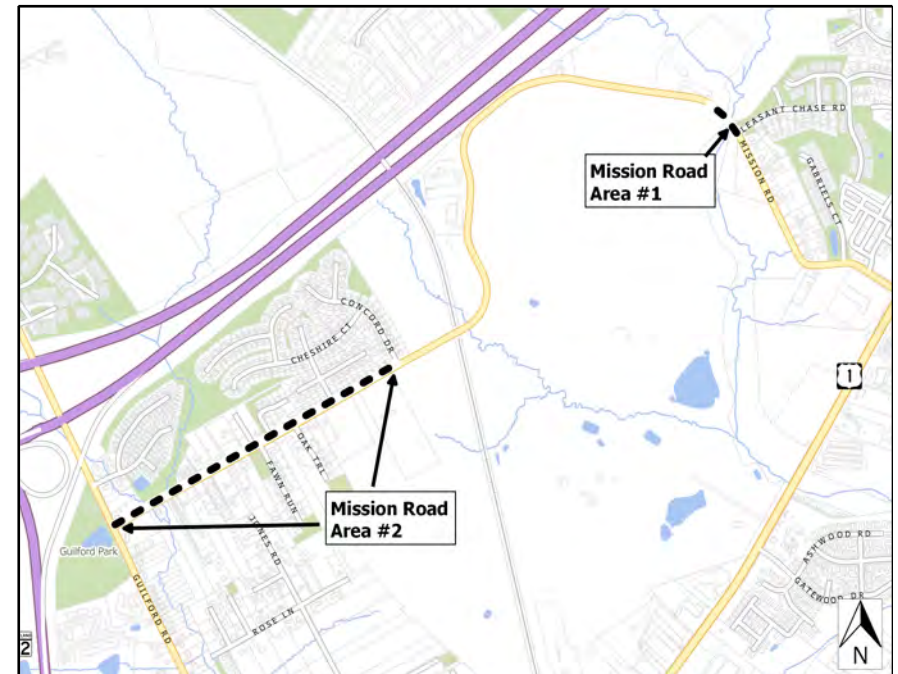

FY18 - Design.

FY19 - Land acquisition and construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$12,825

Estimated annual maintenance costs upon completion: No Change.

## Project: K5066-FY2014 BICYCLE PLAN PROJECTS

# SIDEWALKS

Number: K5066

### Description

A project for the implementation of the comprehensive Howard County Bicycle Master Plan. The candidate project list will be updated annually by the Office of Transportation in coordination with the Department of Public Works.

### Justification

The FY2013 Howard County Bicycle Master Plan will provide a comprehensive plan and ongoing process for prioritizing the use of capital funds directed at improving bicycle safety, mobility, and access to transit, schools, parks, retail and employment centers, etc.

### Remarks

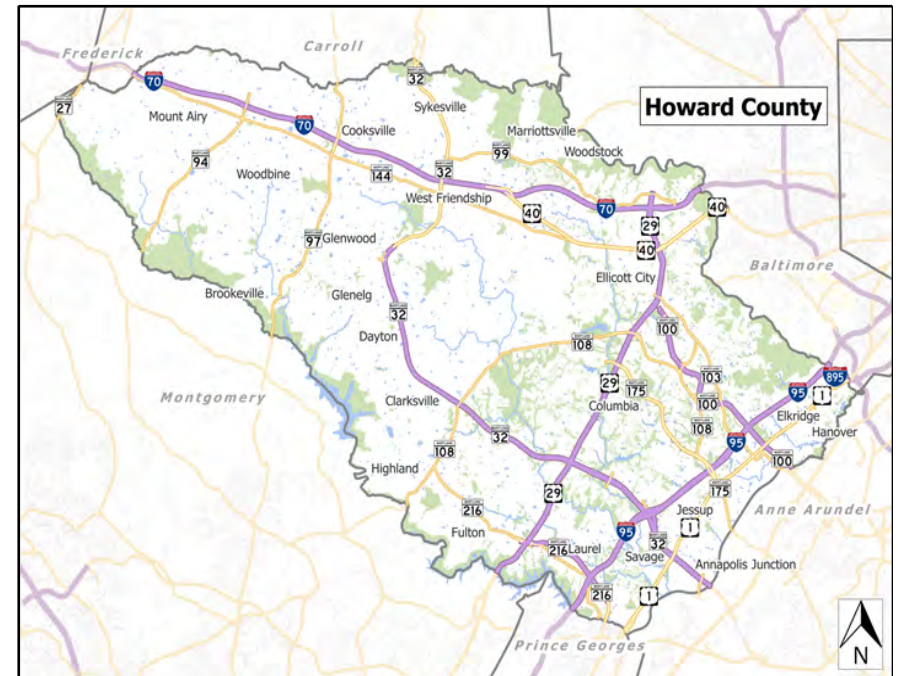

1. Project addresses collector classification roads and local roads.
2. Grant funding will be sought.
3. Construction of some projects may be dependent on donation of necessary easements.
4. Replacing unsafe storm drainage grates for cyclists.

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$365,220

# Fiscal 2018 Capital Budget

## Project: K5067 ADA RAMPS COMPREHENSIVE STUDY PROGRAM

# SIDEWALKS

## Number: K5067

### Description

A program to self-evaluate Countywide ramps and curb cuts in compliance with American with Disabilities Act 1990 (ADA) requirements. The purpose of the self-evaluation is to evaluate County roadway network and facilities for accessibility.

### Justification

A. Self-Evaluation Assessment - The sidewalk ramp upgrades are mandated by governmental laws. Field surveys are conducted for all sidewalks along County roadways including sidewalks, curb ramps, curb cuts, and detectable warning pads. Design elements include width, slope, gaps.

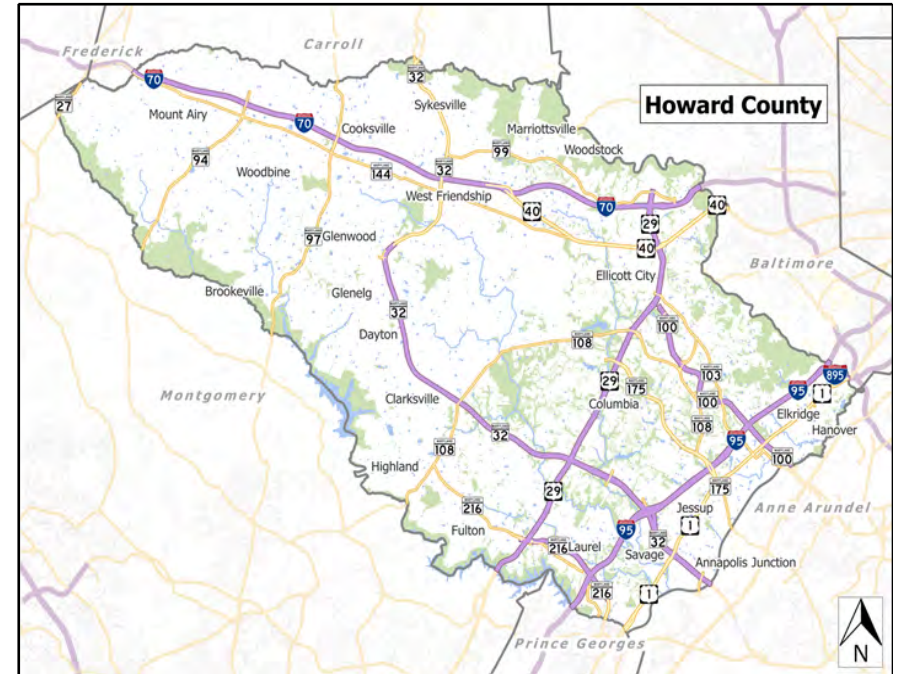

B. Transition Plan - Develop a transition plan to identify deficiencies, outline steps to address, prioritize and plan for the improvements. The current plan is to provide ramps at all locations where the resurfacing will take place in various parts of the County. In the years 2013 through 2015, DPW has placed approximately 1,000 ramps at a cost of approximately \$3.5 million. The County will continue upgrading the remaining ramps and curb cuts through road resurfacing construction to meet ADA requirements. The new element that needs to be provided is to have an inspector inspect the work done to make sure it is in compliance with the latest ADA requirements.

### Remarks

1. County owns and maintains approx. 7,800 each sidewalk ramps.
2. Companion project K5068.

### Project Schedule

FY17 - Program funding not available.  
Close at program completion.

# Fiscal 2018 Capital Budget

## Project: K5068 ADA RAMPS UPGRADE PROGRAM

# SIDEWALKS

Number: K5068

### Description

A program to upgrade sidewalk ramps and curb cuts in compliance with Federal Americans with Disabilities Act 1990 (ADA) requirements. The upgrade shall be aligned with road resurfacing construction projects.

### Justification

The sidewalk ramps upgrade are mandated by governmental laws. The current plan is to provide ramps at all road intersection locations where the resurfacing will take place, or other non-compliant ramp areas in various parts of the County. In the year 2013 through 2015, DPW has placed approximately 1,000 ramps at a cost of approximately \$3.5 million. The County currently has approximately 6,800 ramps that do not meet ADA requirements and will be replaced as the resurfacing program continues in the future. DPW has another program that repairs sidewalks. The sidewalk repair program is budgeted at \$650,000 per year and provides repairs to sidewalks with number of deficiencies.

### Remarks

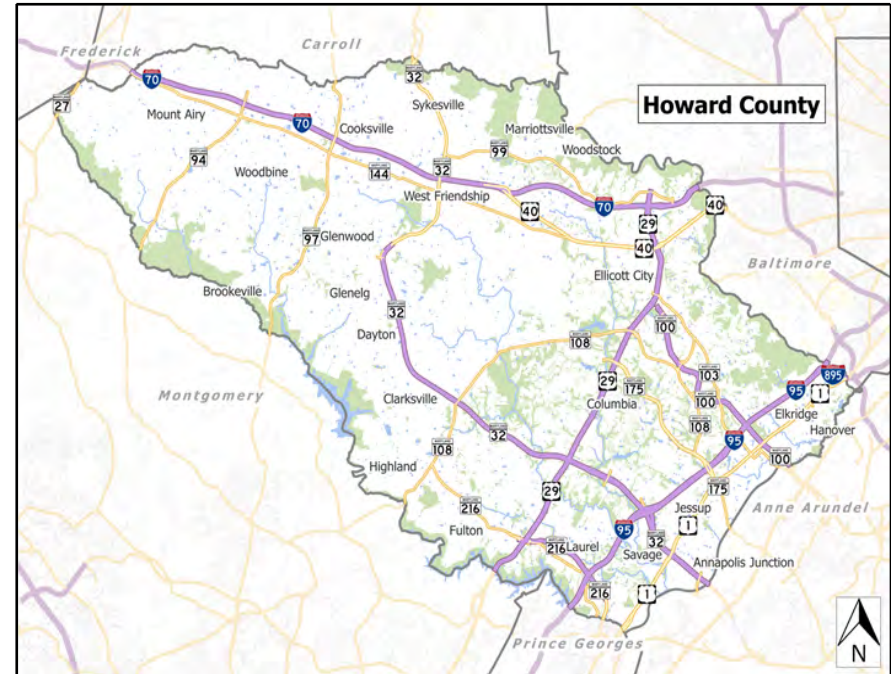

County owns and maintains approx. 7,800 each of sidewalk ramps.

### Project Schedule

Approximately 200 each of ramps upgraded to ADA compliance per \$1M budgeted.  
Close at program completion.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,255,500

# Fiscal 2018 Capital Budget

## Project: K5069 BITUMINOUS CURB REPLACEMENT PROGRAM

# SIDEWALKS

Number: K5069

### Description

A program to replace bituminous curbs with concrete ones.

### Justification

Bituminous curbs replacement is based on the age and maintenance and drainage history. The bituminous curbs in older subdivisions become brittle due to losing asphalt content and strength. The curbs receive damage annually because of the combination of snow removal and roadway drainage activities. Each maintenance shop has spent tremendous efforts in repair, backfill, seed and mulch the affected areas. The homeowners have been constantly concerned that the new replaced bituminous curbs are not matching the color and shape of the old ones. The concrete curb will have a life of 50 years, which is three times more than bituminous curbs. In the long run, installing concrete curb in lieu of bituminous curb is very cost effective.

### Remarks

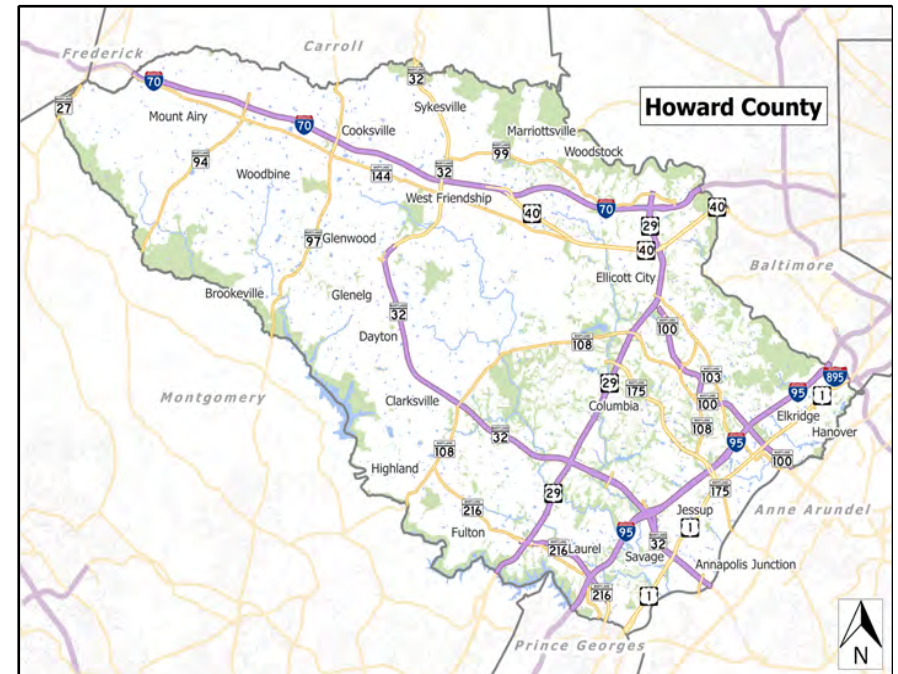

County owns and maintains approx. 1,000,000 linear feet (190 miles) of bituminous curbs and 5,205,700 linear feet (985 miles) of concrete curbs.

### Project Schedule

Close at program completion.

### Operating Budget Impact

Annual Bond Redemption \$ \$445,500

# Fiscal 2018 Capital Budget

## Project: L0012-FY2007 MILLER BRANCH/HISTORICAL CENTER

# LIBRARY PROJECTS

Number: L0012

### Description

A project to replace Howard County Library's (HCL) existing Miller Branch with a new, up-to-date facility on a separate parcel of land. The space and other functional requirements of the new facility are fully defined in the Howard County Library Facilities Assessment & Master Plan of December 2004.

### Justification

Based on the Howard County Library Long-Range Facilities Report updated by the HCL Board of Trustees in 1992, 1994, and 1999, the Miller Branch required renovation by the year 2005. The Howard County Library Facilities Assessment & Master Plan of December 2004 determined that the current facility is undersized by a factor of three, and that a 63,000 SF building is required to meet current needs in the Ellicott City service area. The existing Miller Branch will be converted to HCL Business Office space under a separate project (L0014).

### Remarks

1. The HCL Miller Branch was expanded in 1985 from 5,000 SF to 23,500 SF. Initial analysis indicated that renovations/expansion would result in an inadequate facility that would not meet the near term space requirements. The nature and cost of the new facility is outlined in the Howard County Library Facilities Assessment & Master Plan of December 2004. The new Charles E. Miller Branch & Historical Center will include a unique emphasis on history, health, and environmental education. This project has benefited significantly from the new State Capital Grants Program for Public Libraries through the Maryland State Department of Education.
2. FY11/12 - \$1.7M was added to the project for the initial book collection (\$1M), Teaching Garden (\$200K), and Radio Frequency Identification System (automated tracking, borrowing, and security system) (\$500K).
3. Reallocate funds to L0016 Central & East Columbia Branch Renovations.

### Project Schedule

FY18 - Project Close Out

### Operating Budget Impact

Annual Bond Redemption \$ \$1,173,915

The renovated HCL facility will begin operation in FY12. While Howard County Library Facilities Assessment & Master Plan estimates the facility will require an additional 21 FTEs, HCL's assessment of the implementation of RFID Technology along with the building's efficient design reduces this number to 12 FTEs. Estimated annual utility/custodial costs upon construction completion: \$325,000.00

# LIBRARY PROJECTS

## Project: L0014-FY2011 MILLER BRANCH PHASE II: LIBRARY SPACE CONVERSION

Number: L0014

### Description

This project repurposes the obsolete Howard County Library, Miller Branch into consolidated HCL business offices (23,000sf). Once converted, HCL administrative staff members, currently working in two locations (HCL Central Branch in a 7,000 SF area, and East Columbia Branch in a 9,000 SF area), will relocate to this unified location, enhancing operating efficiencies and educational opportunities. The building will also provide space for the adjoining senior center activities and other community use.

### Justification

Capital Project L0014 renovates the existing Miller Branch into consolidated offices, to include employee work areas, IT support services, meeting spaces, and instructional space for staff training requirements. This project will enhance administrative efficiencies called for in the HCL Facilities Assessment & Master Plan of December 2004.

### Remarks

1. The former Miller Branch collection has been moved to the Miller Branch & Historical Center, the old facility will be renovated to provide consolidated HCL Business Office space and senior center wellness activities space.
2. GRANT represents state funding from Maryland State Department of Education. While HCL requested \$3,799,000 for FY12 & FY13, HCL was awarded a total of \$2,492,335 for the new Administrative Branch.

### Project Schedule

FY18 - Complete/Project Close Out

### Operating Budget Impact

Annual Bond Redemption \$ \$262,305

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~The renovated HCL business offices will begin operation in FY2014. There will be no impact on ongoing operating costs for HCL. ~Estimated annual utility/custodial costs upon construction completion: No increase

## Fiscal 2018 Capital Budget

### Project: L0015-FY2008 ELKRIDGE BRANCH/SENIOR CENTER

## LIBRARY PROJECTS

Number: L0015

#### Description

A project to provide additional required public library & senior center space in the RT1 Corridor of Elkrige. This project will satisfy the existing and projected 19,300 SF public library space deficit in the Elkrige area, as well as increase the amount of Senior Center space available. The library space and other functional requirements of this project are fully defined in the Howard County Library Facilities Assessment & Master Plan of December 2004.

#### Justification

The current Howard County Library Facilities Assessment & Master Plan, as approved by the HCL Board of Trustees, calls for 35,000 SF of library space for the Elkrige service area. The existing HCL Elkrige Branch is 15,700 SF. Furthermore, the size of the existing Senior Center will be increased to 10,000 SF. Additional space is needed to accommodate current and projected growth. This project will consider constraints and opportunities presented by land use, parking, and engineering; meet the goals and objectives of the RT1 Corridor Study; and be consistent with anticipated BRAC growth.

#### Remarks

1. OTHER represents funding from the liquidation of an HCLS liability to Howard County from a prior year. 2. State grant anticipated.

#### Project Schedule

FY18 - Construction Complete. Project is in the financial close out process.

#### Operating Budget Impact

Annual Bond Redemption \$ \$1,319,445

Additional FTEs: 6 to 8 ~Estimated annual utility/custodial costs upon construction completion: \$100,000.00

# LIBRARY PROJECTS

## Project: L0016-FY2012 RENOVATE CENTRAL & EAST COLUMBIA BRANCHES

Number: L0016

### Description

While this project does not expand total square feet for the buildings, it converts former administrative space into public service space, to the benefit of students of all ages. The project provides additional public space at both HCL's Central and East Columbia branches through the renovation of spaces vacated by HCL administrative and technical staff as specified in Capital Project L0014.

### Justification

The HCL Facilities Assessment & Master Plan of December 2004 outlines the need for 142,000 SF of additional library space to meet current and anticipated public service needs in the Planned Service Area. This project will add 16,000 SF of public space in the two Columbia branches by renovating existing administrative space gained through the relocation of HCL administrative and technical staff. It will alleviate current overcrowding and registration close-outs of high-demand educational initiatives for adults, children, and teens. Initiatives that will realize an immediate benefit from this project include Project Literacy, a highly successful adult basic education initiative that annually teaches 500 adult students math, reading and writing skills through free, one-on-one tutoring and class sessions; and Teen Time, an A+ Partners in Education after-school academic initiative for at-risk youth. The project triples the amount of space for both by creating classroom, private tutoring, and individual study spaces in current demand.

### Remarks

1. The nature and cost of this renovation project was outlined in the Howard County Library Facilities Assessment & Master Plan of December 2004.
2. Grant represents state funding from Maryland State Department of Education. FY12/13, HCL was awarded a total of \$1,105,000 for the renovated spaces at East Columbia and Central Branches.
3. Reallocated funds from L0012 & L0017.

### Project Schedule

FY17 - Additional Construction required.

### Operating Budget Impact

Annual Bond Redemption \$ \$222,075

The renovation of the space will have no impact on staffing or the operating budget. ~Estimated annual utility/custodial costs upon construction completion: No increase

## Fiscal 2018 Capital Budget

### Project: L0017-FY2008 SAVAGE BRANCH

## LIBRARY PROJECTS

Number: L0017

#### Description

A project to provide additional required public library space in the RT1 Corridor of North Laurel. This project is designed to address the insufficient meeting, classroom, and public service space. Leveraging the vacated space at the former Senior Center & Health Center facilities, this project will renovate the three distinct spaces to create a unified building with common public spaces in accordance with current codes. The project will enable site modifications that are in alignment with the Chesapeake Watershed objectives for water and land conservation.

#### Justification

HCLS has been recognized nationally for its unprecedented and innovative approach to deliver education for all ages. The current HCLS Facilities Assessment & Master Plan calls for 35,000 SF of library space for Savage service area based on anticipate population growth rate. This project enables HCLS to become more closely aligned with the Master Plan and national standards for libraries based on population and use data.

#### Remarks

1. A feasibility study was conducted in FY2009 to determine whether a 35,000 SF branch could be constructed at same site. The study concluded that, while construction of a new 35,000 SF building is possible at current site, an accompanying parking garage would be required. Based on this study, further analysis is needed to determine the pace of growth, best location and schedule. The renovation completed for L0014 resolve some of the immediate spatial concerns. State Grant funds requested for FY14 were not approved.
2. Reallocate funds to L0016 Central & East Columbia Branch Renovations.

#### Project Schedule

FY18 - Project is in the financial close out process.

#### Operating Budget Impact

Annual Bond Redemption \$ \$239,130

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.~Additional FTEs: 6 to 8 (35,000 SF Branch). ~Estimated annual utility/custodial costs upon construction completion: Bur. of Facilities estimates the FY17 and beyond annual impact to O&M and utilities at \$163,000.

## Project: L0018-FY2018 GLENWOOD BRANCH RENOVATION

# LIBRARY PROJECTS

Number: L0018

### Description

A project to renovate the Glenwood Branch to include much needed study rooms and classroom space for the benefit of students of all ages. Refurbishment of interior spaces for teen areas, child reading rooms and restrooms will also be completed.

### Justification

There is currently only one study room at the Glenwood library. Interior finishes need replacement or substantial repair, teen area needs sound insulating modifications and child reading areas need improvements to lighting.

### Remarks

### Project Schedule

FY18 - Design renovations and award construction contracts.

### Operating Budget Impact

Annual Bond Redemption \$ \$32,850

Bureau of Facilities estimates the year completed and beyond impact to annual O&M and utility costs at \$26,000.

## Fiscal 2018 Capital Budget

### Project: M0536-FY2015 NURSING and ST BUILDING RENOVATIONS

## HOWARD COMMUNITY COLLEGE

Number: M0536

#### Description

Renovate the Nursing Building and ST Building of approximately 107,000 GSF following the move of health sciences programs and science, engineering and technology programs into their new buildings. Once the space currently occupied by health sciences and science and technology is vacated, renovations will need to occur to provide classrooms, labs, collaborative study areas, teaching and learning services, as well as administrative areas.

#### Justification

The Nursing building was constructed in 1976 and is the second oldest building on campus. The building is connected to the ST building which was constructed in 1989. Currently, the buildings cannot support the demand for additional instructional spaces and is being used to its maximum capacity. This project is necessary following the move into the new buildings and will provide the necessary space for social sciences and teacher education divisions. It will also accommodate the center for service learning, teaching and learning services, honors center, faculty development center plus administrative offices. The college must expand its physical space and renovate its existing buildings in order to accommodate its students and staff.

#### Remarks

The construction phase of this renovation project is being proposed for split-funding.

#### Project Schedule

FY15-FY17 - Plan and design renovations to existing buildings.

FY18-FY19 - Design and construction phase for renovations to existing buildings.

FY19 - Furnish and equip renovated buildings. There are no funds requested for the upcoming fiscal year; the project is continuing in the design phase.

#### Operating Budget Impact

Annual Bond Redemption \$ \$1,006,110

The projected impact of the completed project on the current expense budget: no increase.

## Fiscal 2018 Capital Budget

### Project: M0539-FY2020 MATHEMATICS BUILDING

## HOWARD COMMUNITY COLLEGE

Number: M0539

#### Description

The purpose of this project is to design and construct a new mathematics building of approximately 70,000 GSF. The math division currently shares the Hickory Ridge Building with continuing education. The construction of this new facility will accommodate the increased enrollment growth and future needs for math instructional space as well as support STEM initiatives.

#### Justification

Over the past five years, the math division has grown by 29 percent. The College and Career Readiness and College Completion Act requires students to complete developmental mathematics and college mathematics courses within the first 24 credits. This legislation along with current enrollment trends drive future growth making the current facilities no longer capable of accommodating the demand.

#### Remarks

#### Project Schedule

FY20 - Plan and design new building.

FY21 - Construct new building.

FY22 - Furnish and equip new building. There are no funds requested for the upcoming fiscal year and no use of funds planned.

#### Operating Budget Impact

Annual Bond Redemption \$ \$686,250

The operations of this building will increase the operating budget by approximately \$21.25 per square foot. The projected impact of the completed project on the current expense budget: no increase until completed in FY22.

# Fiscal 2018 Capital Budget

## Project: M0542-FY2016 CAMPUS ROADWAYS and PARKING

HOWARD COMMUNITY COLLEGE

Number: M0542

### Description

Provide required modifications to campus roadways and parking to accommodate necessary changes to vehicular and pedestrian traffic patterns. Upgrade the existing roadway infrastructure to accommodate the college's enrollment growth. Provide additional parking facilities to address the severe parking shortage on campus.

### Justification

The college must upgrade its campus roadways to provide safe driving conditions and address state and local codes and compliance. The college strives to keep automobile traffic on the periphery of campus to promote safety and provide a vehicular-free learning environment. This project will address ongoing roadway improvements as well as parking requirements for the college.

### Remarks

The college will propose split-funding of construction for this project as eligible. Funds listed as "OTHER" are provided by the college. Funds listed as CC Bonds are county general obligation bonds that are paid for with funds from the college. The source of these funds is through college fund balances, student fees, and the operating budget.

### Project Schedule

FY17 - Construction of the garage expansion of 750 spaces at the East Garage.  
FY25 - Design the north garage of 750 spaces.  
FY26 - Construct the north garage of 750 spaces. There are no funds requested for the upcoming fiscal year and no use of funds planned.

### Operating Budget Impact

Annual Bond Redemption \$ \$920,250

The projected impact of the completed project on the current expense budget: no increase.

# Fiscal 2018 Capital Budget

# HOWARD COMMUNITY COLLEGE

## Project: M0543-FY2012 SCIENCE ENGINEERING and TECHNOLOGY BLDG

Number: M0543

### Description

Design and construct a science, engineering, and technology building of approximately 145,300 GSF. The new facility will support the science and technology disciplines and prepare students for a career in science, technology, and engineering. This new facility will help address local and state workforce shortage areas and supports STEM initiatives.

### Justification

This new facility will provide students with appropriate classrooms, labs, and study areas to promote collaborative learning environments needed for the science, engineering and technology disciplines. The disciplines to be housed in this facility include biology, chemistry, physics, astronomy, meteorology, horticulture, physical science, geology, engineering technology, telecommunications, computer forensics, cyber forensics, cyber security, biomedical engineering, and advanced computer systems. This building addresses local and state workforce shortage areas and STEM initiatives. The building will provide the necessary facilities to educate and train students for a career in these fields.

### Remarks

With consideration to the debt capacity and funding limitations for both the county and state, the college has requested multi-year funding for the construction phase of this project. Funds listed under "other" are provided by the college. The source of these funds is through the college fund balance, student fees, and the operating budget.

### Project Schedule

FY14 - Complete design of new building.

FY15-FY17 - Construct new building.

FY17 - Furnish and equip new building. The use of the funds for the upcoming fiscal year includes continuing the planned construction phase of the building; funds will be applied to the completion of construction and the procurement of furniture and equipment needed to open the building.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,722,060

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. The operations of this building will increase the operating budget by approximately \$18.70 per square foot. The projected impact of the completed project on the current expense budget: no increase until completed in FY18.

# Fiscal 2018 Capital Budget

## Project: M0545-FY2025 MAINTENANCE BUILDING

# HOWARD COMMUNITY COLLEGE

Number: M0545

### Description

The purpose of this project is to obtain a maintenance building to support plant operations and facilities. As the college continues to grow, the campus maintenance area must also expand. The college's utilities also need to be upgraded to support future buildings and load requirements. This project will help increase efficiency between the utility plant and the maintenance building. It will assist the college in developing cost-savings programs that will enhance building efficiency and ultimately decrease operating costs.

### Justification

With the recent construction and renovations on campus, the college's total on-campus gross square feet is 774,368. In order to properly service the campus buildings, infrastructure, and college community, a maintenance building is needed. With the continued growth, the current area can no longer accommodate the demand. A proper maintenance and plant operations facility is required. Plant operations and maintenance also assure the cleanliness of all college facilities and grounds to sustain an environment conducive to learning. A new facility is required to provide responsive, reliable, and cost-effective services for a safe and comfortable environment for college students, faculty, and staff.

### Remarks

### Project Schedule

FY25 - Design new facility.  
FY26 - Construct new facility.  
FY26 - Furnish and equip new facility. There are no funds requested for the upcoming fiscal year and no use of funds planned.

### Operating Budget Impact

Annual Bond Redemption \$ \$117,000

The operations of this building will increase the operating budget by approximately \$21.25 per square foot. The projected impact of the completed project on the current expense budget: no increase until completed in FY26.

# Fiscal 2018 Capital Budget

## Project: M0546-FY2022 ATHLETIC and FITNESS CENTER

# HOWARD COMMUNITY COLLEGE

Number: M0546

### Description

Construct a new athletic and fitness center of approximately 110,000 gross square feet to replace the existing facility constructed in 1969. Since the existing building requires significant repair beyond its structural life, the college must plan for a new facility to house athletics and fitness.

### Justification

While the college has been maintaining the existing facility, it was determined that the cost of renovation exceeds the cost of new construction. The existing building consists of cast-in-place concrete walls and floor slab. The condition of the concrete has spalled and cracked at the walls, floors, and beams making it structurally unsound. In addition, the leaching of chemicals and mineral deposits has had an adverse affect on the overall life of the building. Because the building requires significant repair beyond its structural life, the college is proposing a new multi-level facility.

### Remarks

The construction phase of this facility will be proposed for split-funding.

### Project Schedule

FY22 - Plan and design new facility.

FY23-FY24 - Construct new facility.

FY25- Furnish and equip new facility. There are no funds requested in the upcoming fiscal year and no use of funds planned.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,113,750

The operations of this building will increase the operating budget by approximately \$20.24 per square foot. The projected impact of the completed project on the current expense budget: no increase until completed in FY25.

## Project: M0547-FY2026 CONTINUING EDUCATION BUILDING

# HOWARD COMMUNITY COLLEGE

Number: M0547

### Description

Construct a new continuing education and workforce development facility of approximately 60,000 GSF to support noncredit courses, contract credit courses, and professional services to individuals, county agencies, and employers throughout the State of Maryland.

### Justification

Continuing education provides special services to the community as well as county and state agencies such as workforce development and contract training (credit and noncredit) in business management, healthcare, advanced technology, and other areas. Courses and programs are offered in a variety of formats and held at various sites throughout Howard County including the public schools, Ecker Business Training Center, Laurel College Center, and Mt. Airy College Center. A new building is required to ensure that the college continues to provide quality services to the community including online and web accessibility.

### Remarks

### Project Schedule

FY26 - Plan and design new building.

FY27 - Construct new building.

FY28 - Furnish and equip new building. There are no funds requested for the upcoming fiscal year and no use of funds planned.

### Operating Budget Impact

Annual Bond Redemption \$ \$481,500

The operations of this building will increase the operating budget by approximately \$21.25 per square foot. The projected impact of the completed project on the current expense budget: no increase until completed in FY28.

# Fiscal 2018 Capital Budget

## Project: M0550-FY2017 SYSTEMIC RENOVATIONS

# HOWARD COMMUNITY COLLEGE

Number: M0550

### Description

This project addresses campuswide systemic renovations and deferred maintenance. The project includes improvements to the college's physical plant, maintenance and repairs, facility renewals, as well as safety and code compliance at all college campuses.

### Justification

The project was formerly known as Safety Compliance and Facility Renewals. It includes renovations and upgrades to address ADA requirements, life safety issues, code compliance, critical deferred maintenance and facility renewals.

### Remarks

The college prioritizes and schedules its renovation needs as documented in the facilities condition assessment, facilities master plan, and identified by the renovations assessment committee.

### Project Schedule

FY18-FY21 Includes IT/AV/cable TV upgrades, campus-wide security system installation, public restroom upgrades, athletic field modifications, academic studio repurposing, signage installation, major interior improvements, deferred maintenance, and necessary modifications to all college buildings, facilities, and campuses.

The use of funds for the upcoming fiscal year addresses campuswide interior improvements and deferred maintenance; funds will be applied to cafe renovations, IT/AV/cable upgrades, restroom upgrades, interior upgrades.

### Operating Budget Impact

Annual Bond Redemption \$ \$2,213,640

The projected impact of the completed project on the current expense budget: no increase.

# Fiscal 2018 Capital Budget

## Project: N3102-FY2000 BLANDAIR REGIONAL PARK

# PARKS PROJECTS

Number: N3102

### Description

A project to master plan, design, and construct a 298-acre regional park, and restore the 19th century Blandair Mansion and out buildings located off MD175 in Columbia.

### Justification

Project identified in the 2005 and 2012 Land Preservation and Recreation Plan and is endorsed by the Recreation and Parks Advisory Board, and the Blandair Planning Committee.

### Remarks

1. Prior funds include \$1,475,000 in State Bond Bill and FY11-\$219,000, FY12-\$438,000, FY13-\$440,000 and FY14-\$1,443,000 in Program Open Space funds.
2. FY18 request addresses funds for construction management fees for the construction of Phase III and start the design of Phase IV. Request includes grant revenue adjustment (\$1,013,000). Note: The funding for Phase IV construction will be proposed in the fiscal year 2020 budget. Phase IV construction cannot begin until the bridge that will be constructed over RT 175 to connects the southern side of Blandair to the northern side is completed.

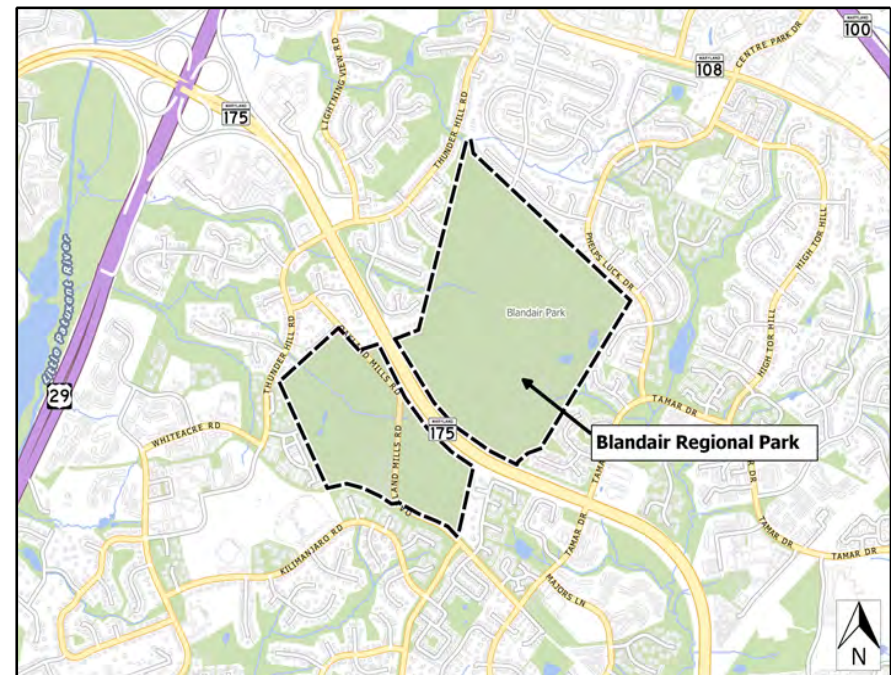

### Project Schedule

- FY18 - Construction of the caretaker's house and construction management fees for the construction of Phase III.  
FY19 - Start the design of Phase IV.  
FY20 - Finish the design of Phase IV, start construction of Phase IV and start the design of Phase V.  
FY21 - Continue the construction of Phase IV and continue the design of Phase V.  
FY22 - Start construction of Phase V.  
FY23 - Continue construction of Phase V.  
FY24 - Start the design of Phase VI.  
FY25 - Start construction of Phase VI and start the design of Phase VII.  
FY26 - Start construction of Phase VII.

### Operating Budget Impact

Annual Bond Redemption \$ \$2,721,510

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. The start-up costs for this entire regional park will be \$500,000. The operational costs after construction for each phase is estimated: Phase II -\$180,000, Phase III - \$300,000, Phase IV - \$50,000, Phase V - \$300,000, Phase VI - \$400,000, Phase VII - \$100,000

# Fiscal 2018 Capital Budget

## Project: N3103-FY2000 PARKLAND ACQUISITION PROGRAM

# PARKS PROJECTS

Number: N3103

### Description

This project establishes a fund for County-wide park land acquisition and related expenses. This project allows the County to move quickly to acquire land which becomes available, and satisfies one or more of the following objectives: addresses State and County Greenway objectives, protects sensitive natural resources threatened by development, acquire additions to existing parks, and/or satisfies park and open space needs as identified in the 2005 and 2012 Land Preservation, Recreation and Recreation Plan.

### Justification

This project has been endorsed by the Recreation and Parks Advisory Board and is supported by the 2005 and 2012 Land Preservation and Recreation Plan.

### Remarks

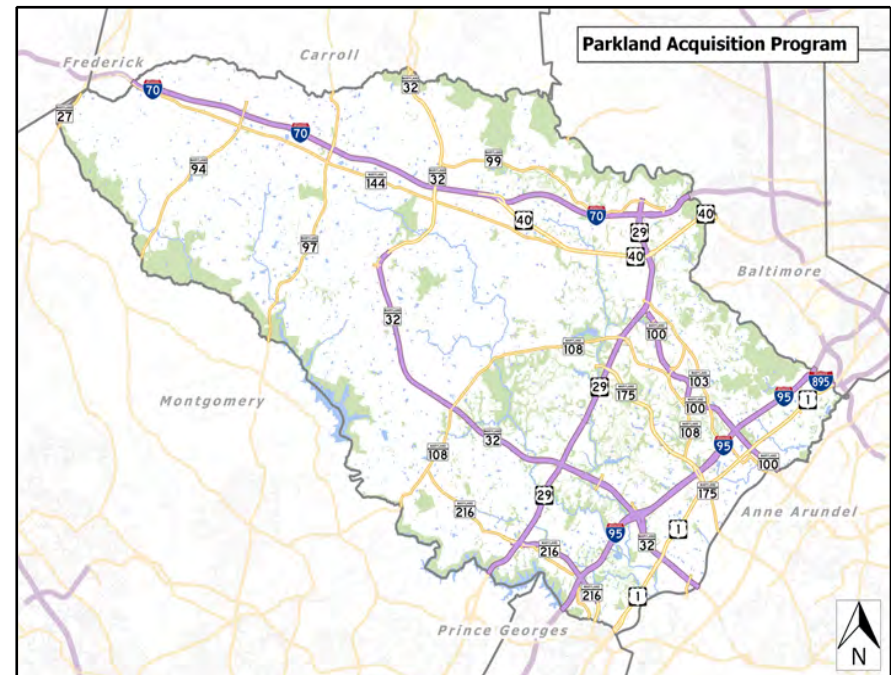

1. Acquire additional park land and County and State greenway property in accordance with our Land Preservation, Park & Recreation Plan (LPPRP).
2. A prior year (FY15) funding reduction of \$4,883,000 reduction in Program Open Space grants funds due to request versus award in prior open space funding. Request addresses Program Open Space funds for 2017 Land Preservation, Park & Recreation Plan, appraisals and environmental studies. \$300,000 (FY17) in other sources is from the subdivision regulation's fee-in-lieu of open space developer payments.
3. FY 18, this capital project will be closed and a new capital project will open with a new capital project number.

### Project Schedule

FY18 - Close and open with a new Capital Project number.

### Operating Budget Impact

Operating costs of woodland and natural areas are absorbed within current operational budgets. Developed park areas are maintained at an average cost of \$3,900 per acre per year.

# Fiscal 2018 Capital Budget

## Project: N3105-FY1995 MEADOWBROOK PARK

# PARKS PROJECTS

Number: N3105

### Description

A project to master plan, design, and develop an 84-acre park located southeast of MD100/US29. Facilities have been determined by the master plan and citizen input.

### Justification

This project conforms to the goals and objectives of the 2005 and 2012 Land Preservation and Recreation Plan. It has been endorsed by the Recreation and Parks Advisory Board and the Meadowbrook Park Citizen Planning Committee.

### Remarks

Prior funds include State Program Open Space and State Transportation Equity Act funds. Prior appropriation reflects TAO #2-FY2009 and TAO #1-FY2010.

FY18 request (\$10,000 T-tax) addresses grant revenue that was budgeted but not received.

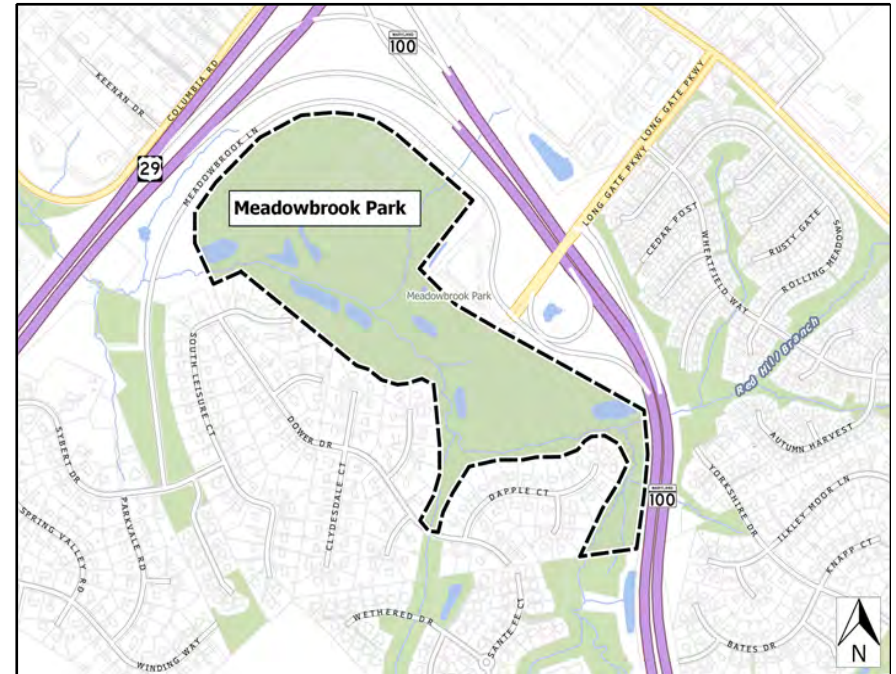

### Project Schedule

FY18 - Financial adjustment required, Close.

### Operating Budget Impact

Annual Bond Redemption \$ \$53,145

The operating costs are absorbed within current operational budget.

## Project: N3107-FY2000 ROCKBURN BRANCH PARK

# PARKS PROJECTS

Number: N3107

### Description

A project to provide additional improvements at Rockburn Park to include the synthetic turf field, parking, a restroom and utility extensions. This park is located at Landing and Montgomery Roads.

### Justification

This project is identified in the 1999, 2005 and 2012 Land Preservation and Recreation Plans, and is endorsed by the Recreation and Parks Advisory Board.

### Remarks

Prior appropriation reflects TAO #2-FY2009

### Project Schedule

FY25 - Phase III installation of light and synthetic field on field 15.

FY26 - Design and construction of restroom and utilities.

### Operating Budget Impact

Annual Bond Redemption \$ \$155,160

## Project: N3108-FY2004 PARK SYSTEMIC IMPROVEMENTS

# PARKS PROJECTS

Number: N3108

### Description

This project will provide replacement of all types of park facilities and related engineering to include equipment, or building elements which have deteriorated beyond routine maintenance efforts. This project will also address small park upgrades.

### Justification

Project endorsed by the Recreation and Parks Board and is consistent with 1999, 2005 and 2012 Land Preservation and Recreation Plan.

### Remarks

Prior funds FY 17 \$150,000 State Bond Bill for the relocation and construction of a basketball court, playground and pathway at Huntington Park.  
FY18 - Ongoing Park improvements. \$87,000 Ellicott City FEMA grant, \$100,000 Design grant for Ellicott City Lot F and the old Roger Carter Reception Center site with a \$100,000 match (T-tax).

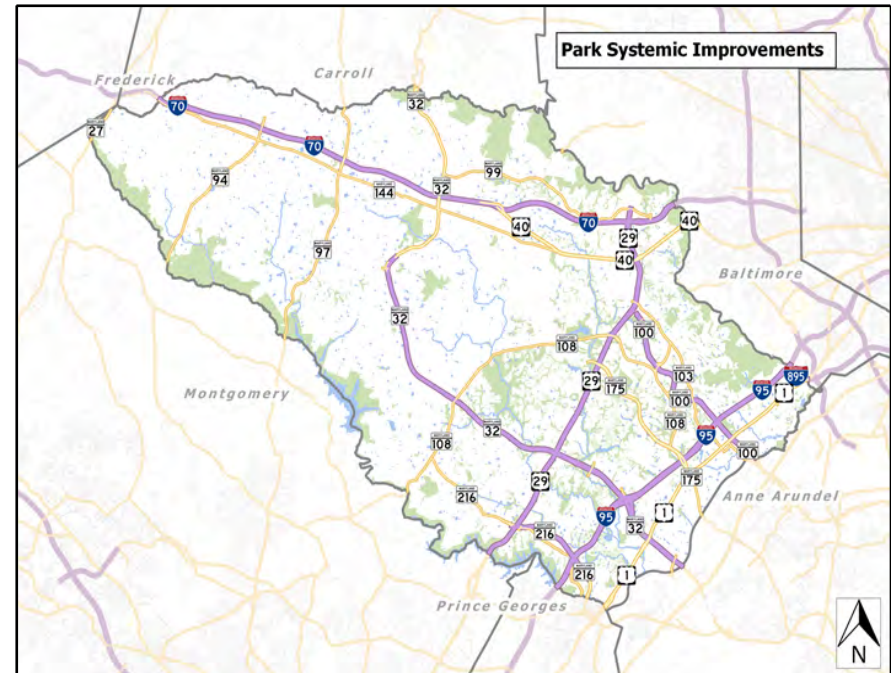

### Project Schedule

FY18 - Planning and Construction Continues  
FY18-23 - Construction Continues

### Operating Budget Impact

Annual Bond Redemption \$ \$888,750

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate. No additional operating funds required. Projects are upgrades of existing facilities or small improvements where the operating expenses are already addressed in the operating budget.

## Project: N3932-FY2000 WESTERN REGIONAL PARK

# PARKS PROJECTS

Number: N3932

### Description

A project to design and construct a 160-acre regional park located northwest of the intersection of Carrs Mill Road and MD97. Included will be concession, restroom, pavilion and all utilities.

### Justification

This project is identified in the 1999, 2005 and 2012 Land Preservation and Recreation Plans. This project has been endorsed by the Recreation and Parks Advisory Board.

### Remarks

Prior funds include Program Open Space funds.

FY18 request (\$203,000 T-tax) addresses grant revenue that was budgeted but not received. \$284,000 grant reduction due to grants not received. \$3,000 developer contribution.

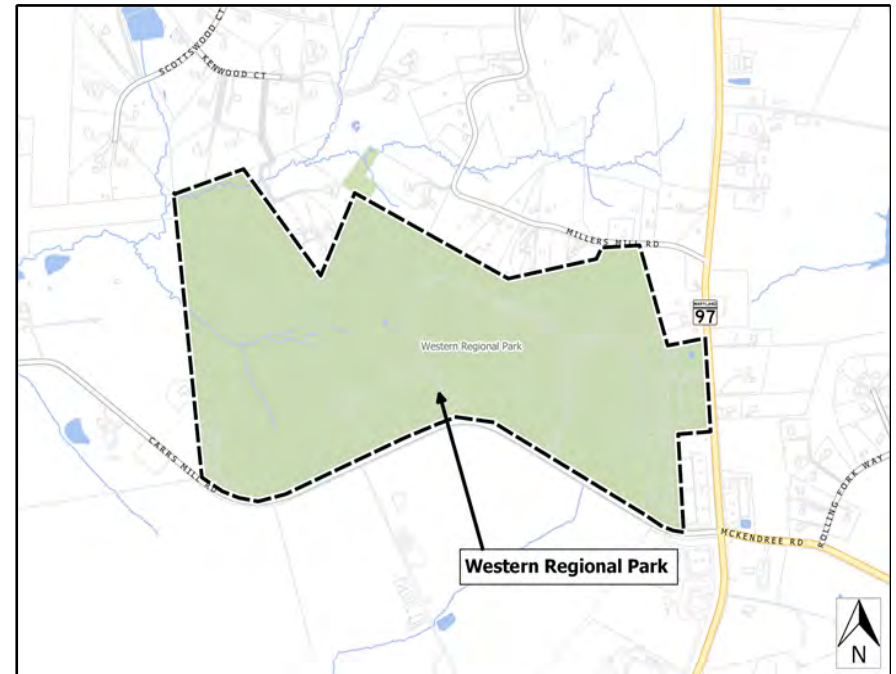

### Project Schedule

FY26 - Design Phase V restroom/pavilion/concession building and parking.  
FY27 - Construction Phase V.

### Operating Budget Impact

Annual Bond Redemption \$ \$113,355

Estimated operating costs for Phase V restroom and concession building is estimated at \$20,000 annually.

# Fiscal 2018 Capital Budget

## Project: N3940-FY2000 NORTH LAUREL PARK

# PARKS PROJECTS

Number: N3940

### Description

A project to design and construct a 51-acre park and swimming pool lying northeast of North Laurel Road and Washington Avenue. Facilities are being determined by a citizen's advisory committee and a master plan effort.

### Justification

This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan, and is endorsed by the North Laurel Planning Committee and the North Laurel Civic Association.

### Remarks

Prior year funds available will address the construction of the park which consists of roads and parking, playground, pavilions, restrooms, skate park, basketball courts, tennis courts, baseball fields, and multi-purpose fields and design funds for swimming pool. Prior appropriation reflects a TAO FY13 of a reduction of \$700,000. Begin the design process for the swimming pool.  
FY18 - Request addresses additional design funds for the swimming pool.

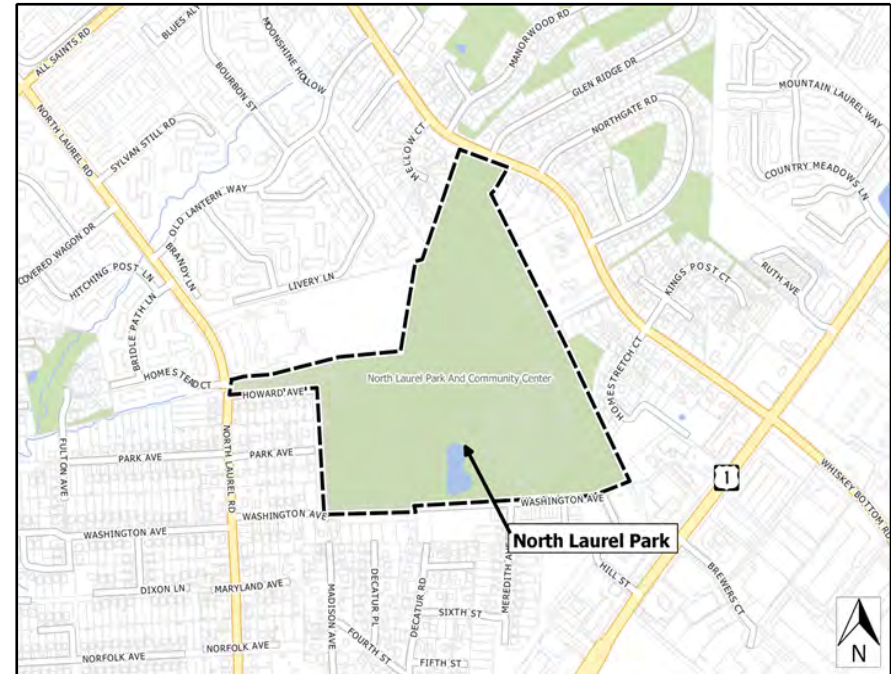

### Project Schedule

FY18 - Continue with swimming pool design.  
FY19- Fund construction cost of a swimming pool.  
FY20 - Start swimming pool construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$920,745

Annual operating costs for the park is estimated to be \$50,000.

# Fiscal 2018 Capital Budget

## Project: N3947-FY1999 NEIGHBORHOOD PLAYGROUND PROGRAM

# PARKS PROJECTS

Number: N3947

### Description

This project will develop neighborhood playground facilities on County parkland or open space throughout the County where community need has been demonstrated.

### Justification

This project is endorsed by the Recreation and Parks Advisory Board and is consistent with the 2005 Land Preservation, Recreation and Parks Plan.

### Remarks

1. To participate in this program the community must contribute 10% of the equipment cost not to exceed \$4,000.
2. Prior funds represent 10% contribution from the Governor's Run HOA towards playground replacement in the future.
3. FY18 request (\$1,000 T-tax) addresses Other Sources revenue that was budgeted but not received.

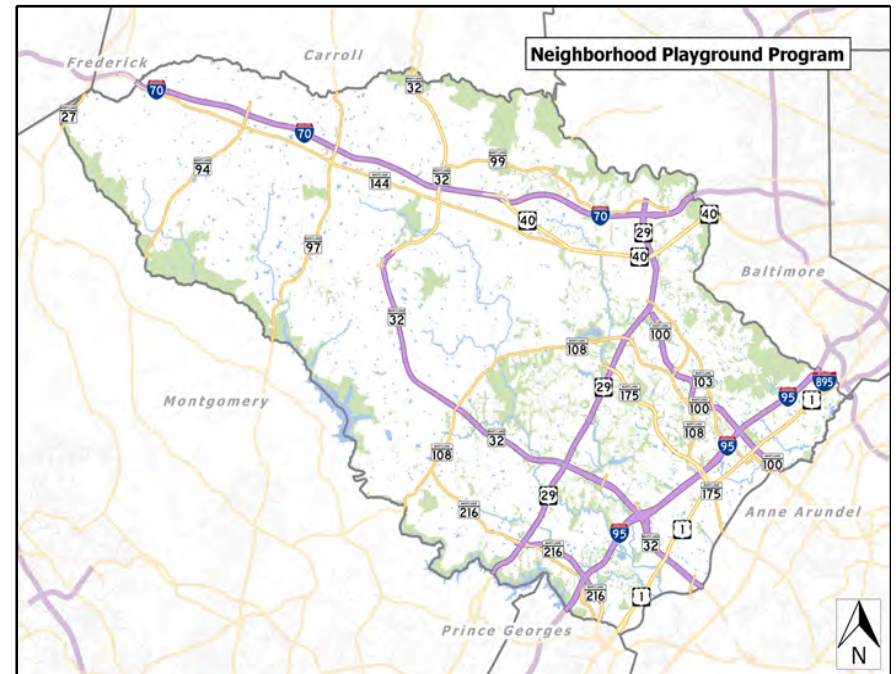

### Project Schedule

FY18 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$2,295

Annual Maintenance costs average \$3,000 per playground.

## Project: N3953-FY2000 CENTENNIAL LAKE RESTORATION

# PARKS PROJECTS

Number: N3953

### Description

A project to design and construct improvements to Centennial Lake to include dredging, artificial aeration, and shoreline stabilization.

### Justification

In 1995 a study was conducted by Coastal Environmental Services Inc. recommending that the above measures be taken to restore the health of the lake. This project is endorsed by the Recreation and Parks Advisory Board and is included in the 2005 and 2012 Land Preservation and Recreation Plan.

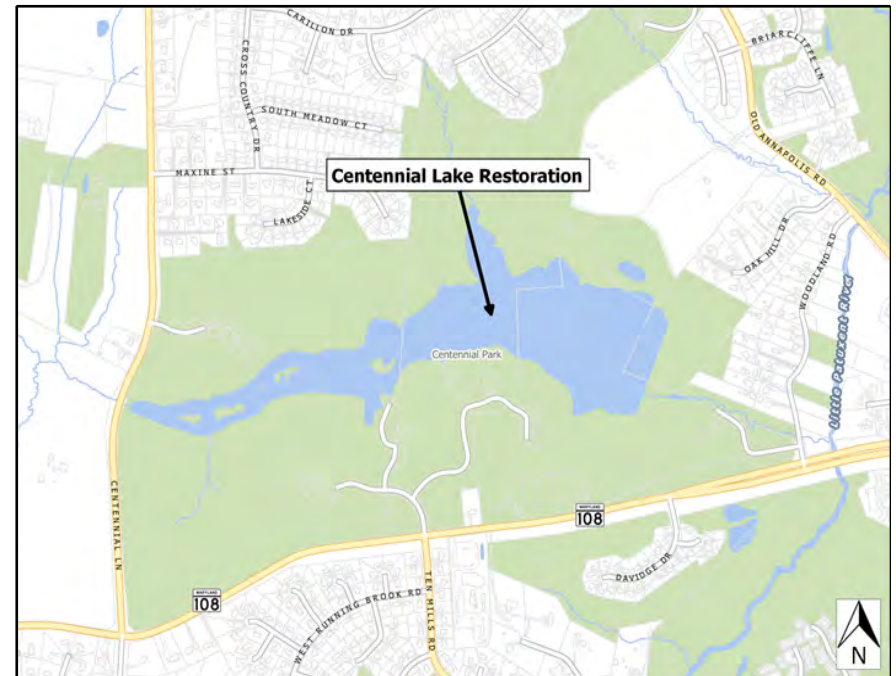

### Remarks

FY17-The Department will use the remaining portion of the existing funds to initiate an updated profile survey of the existing lake bottom to determine the scope of work for the dredging project. Upon the completion of the survey, will then have current information to allow for the County to better determine the future design needs/costs and construction costs for dredging the lake. Project partly defunded.

### Project Schedule

### Operating Budget Impact

Annual Bond Redemption \$ \$945

# Fiscal 2018 Capital Budget

## Project: N3957-FY2003 TROY PARK & HISTORIC REHABILITATION

# PARKS PROJECTS

Number: N3957

### Description

A project to acquire an additional 5 acres, rehabilitate an 1820 historic house, and design and construct a 106-acre Regional Park and Community Center/Athletic Complex at MD100 and US1.

### Justification

This project conforms to the goals and objectives of the 1999, 2005 and 2012 Land Preservation and Recreation Plan. This park will provide needed recreation facilities for the Elkridge Planning Area. The rehabilitation of the Troy House is endorsed by Preservation Howard County. This project is a key component to the US1 Corridor Revitalization effort.

### Remarks

Prior funds include FY11-\$219,000 in Program Open Space Funds and, FY09-\$150,000 and FY10-\$455,000 in State Bond Bills.  
FY18 - Request addresses funds for continuing the construction of Phase II stadium field and the design of Phase III maintenance shop. Request includes grant revenue adjustment (\$500,000). \$100,000 (Other Sources) National Park Service funds received due to services not rendered during design of Troy Mansion.

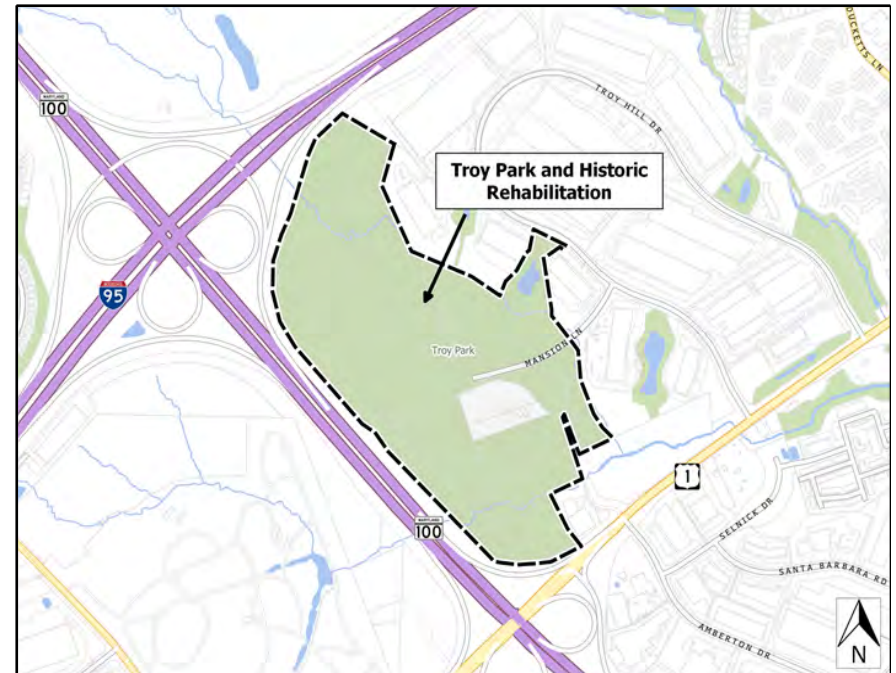

### Project Schedule

FY18 - Start the design of Phase III.  
FY19 - Start construction of Phase 2B, the Stadium Field and complete the design for Phase III.  
FY20 Partial funding for Phase III construction.  
FY21 Start the construction for Phase III  
FY26 - Start the Design of Phase IV.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,335,825

The Bond funding listed for this project includes both long term bond funding. The start up costs for this entire regional park will be \$500,000. Operational cost after construction for each phase is estimated: Phase I - \$20,000, Phase II - \$180,000, Phase III - \$300,000, Phase IV - \$500,000 and Phase V - \$100,000.

## Project: N3958-FY2003 HISTORIC STRUCTURES REHABILITATION

Number: N3958

### Description

This project creates a fund for the preservation and rehabilitation of historic properties under the management of the Department of Recreation and Parks. Work may include archeology studies, historical assessments, design and engineering related to historic buildings and site improvements.

### Justification

This project is in compliance with the 2005 and 2012 Land Preservation and Recreation Plan, and it is endorsed by the Recreation and Parks Advisory Board and Preservation Howard County.

### Remarks

1. Prior year OTHER funds represent insurance recovery on building loss at former Tisano property and revenue from the sale of property and development rights, grants and private contributions.
2. Prior Year OTHER sources may include revenue from the FY14 sale of the Dobbin property - \$780,000, FY13 - \$1,000,000, FY15 - \$500,000, & FY16 - \$1,740,000 for the sale of property development rights for the Belmont property and other properties, private contributions and \$125,000 for FY14 State Bond Bill.
3. FY18 - Request addresses funds for ongoing renovations/improvements on park historic structures/sites. \$30,000 grant adjustment. A \$100,000 Maryland Heritage Areas Authorities Capital Grant for design work for the historic Bernard Fort House located in Ellicott City above Lot F with \$100,000 (T-tax) match.

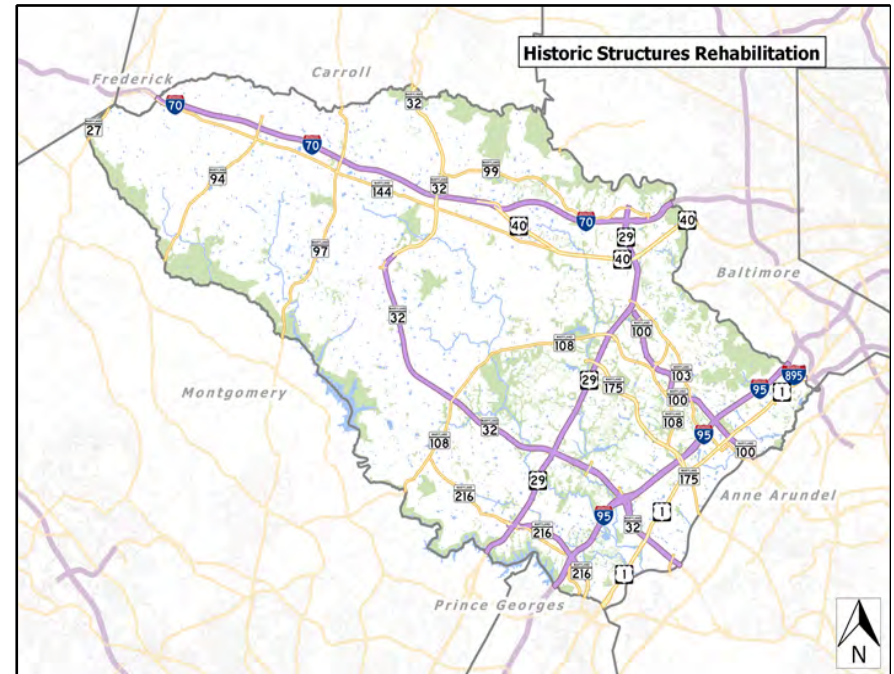

### Project Schedule

FY18 - Construction  
FY18-23 - Construction Continues

### Operating Budget Impact

Annual Bond Redemption \$ \$47,250

Upon completion of the renovation of a project, operating costs will be determined.

## Project: N3959-FY2005 PATAPSCO FEMALE INSTITUTE SITE WORK

Number: N3959

### Description

A project to design and construct site improvements related to the historic Patapsco Female Institute located on Sarah's Lane in Ellicott City. The improvements will include: upgraded roads, parking, retaining wall reconstruction, walkway and stairway reconstruction, historic fencing, lighting, gazebos, restroom, storage space, caretaker's office, caterer's prep room and landscaping.

### Justification

This project has been endorsed by the Friends of The Patapsco Female Institute, the Recreation and Parks Advisory Board, Preservation Howard County, Historic Ellicott City and the Ellicott City Restoration Foundation, and it meets the goals and objectives of the 2005 and 2012 Land Preservation and Recreation Plan related to park and historic site rehabilitation.

### Remarks

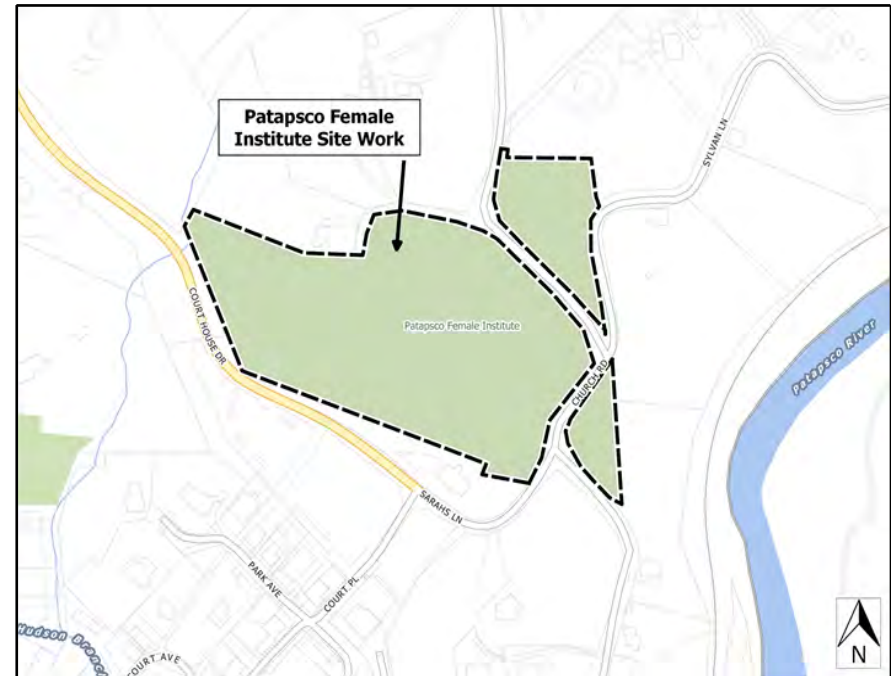

Prior year funds address design fees for site improvements and construction of the out building on the site.

### Project Schedule

### Operating Budget Impact

Annual Bond Redemption \$ \$51,750

Upon the total renovation work on this project, the estimated maintenance and operating cost in after construction will be \$150,000.

## Project: N3960-FY2006 ROBINSON PROPERTY NATURE CENTER

# PARKS PROJECTS

Number: N3960

### Description

A project to design and construct a nature center and related site improvements on the former Robinson property located at Cedar Lane and Harriet Tubman Lane.

### Justification

This project provides a nature center along the Middle Patuxent River as recommended in the 2005 Land Preservation, Recreation and Parks Plan.

### Remarks

Prior year OTHER funds indicates a \$700,000 donation received from the James and Ann Robinson Foundation, Inc., for future construction efforts. Also addresses \$800,000 in State Bond Bill Grants and the remaining \$400,000 donation including interest received from the James and Ann Robinson Foundation. Prior appropriation reflects TAO #2-FY2009 and TAO #1-FY2010 and a TAO FY2013 for a reduction of \$300,000.

FY18 Grant adjustment.

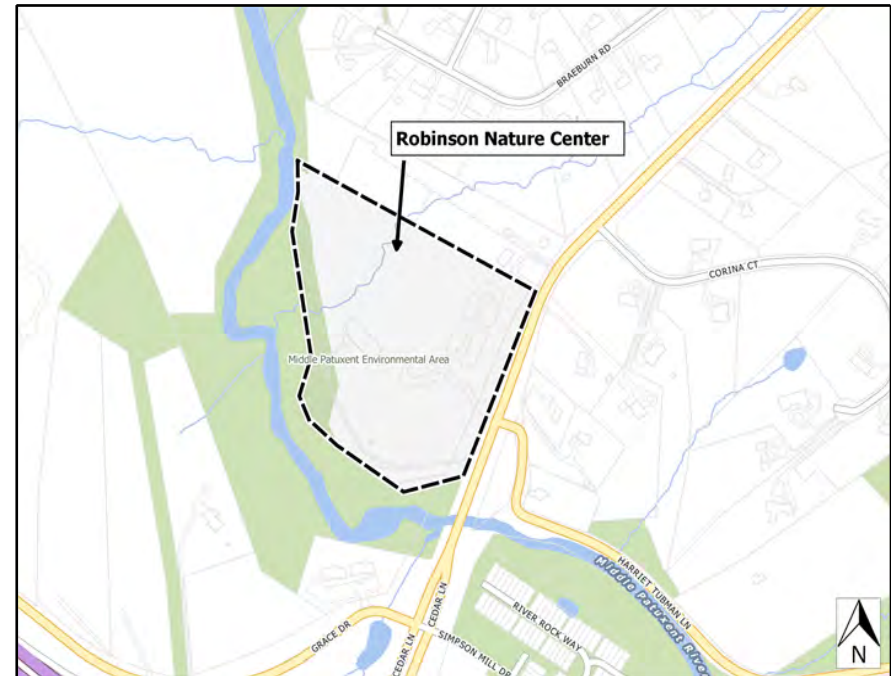

### Project Schedule

FY18 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$555,975

The operating costs of the final phases of this project will be absorbed within current operational budget.

## Project: N3962-FY2008 CENTENNIAL PARK IMPROVEMENTS

# PARKS PROJECTS

Number: N3962

### Description

This project consists of improvements to Centennial Park to include replacement of field lights, synthetic turf field, expanded parking, pond to stream retrofit, stream bank stabilization, maintenance shop/office addition, boat rental expansion, roadway/parking repairs and upgrades, and new signage.

### Justification

This project is endorsed by the Recreation and Parks Advisory Board and is necessary to address the continued heavy usage of Centennial Park. This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan.

### Remarks

Prior funds address the required park improvements and design and construction.

FY18-\$215,000 State Water Ways Grant adjustment for the boat dock improvement.

### Project Schedule

FY26 - Design synthetic turf field, replacement of ballfield lights and parking.

### Operating Budget Impact

At this time the operating impact cannot be determined until we get closer to construction.

## Project: N3963-FY2009 PATHWAY and TRAIL REHAB and EXPANSION

Number: N3963

### Description

A project to rehabilitate and expand the existing Pathway and Trail System throughout the County. Rehabilitate and expand the existing pathway and trail systems which currently extends from Savage Park through Columbia to Dorsey's Search and throughout the County. Project includes an evaluation and possible improvements to the RT29 Pedestrian Bridge and its approaches.

### Justification

This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan and is endorsed by the Recreation and Parks Advisory Board and the Oakland Mills Master Plan Committee.

### Remarks

1. Prior year funds address the evaluation and design of a pathway system from Savage Park to High Ridge Park and along the Little Patuxent River from Dorsey Search to Patapsco State Park. This project is meant to encompass three Counties.
2. Grant represents funding from the TEA-21 Transportation Equity Act.
3. Conduct a centerline survey of the existing Spinal Pathway System, perform a condition assessment, and \$100,000 reduction in Grant funds due to not receiving a Transportation Equity Act grant.
4. FY17 Continue trail and pathway assessments, and engineering on our County-wide trail/pathway system. Funds also address a \$1,092,000 Transportation Alternatives Program Grant and a match of \$278,000.
5. FY18 Request addresses additional funds for construct an accessible natural surface trail and overlook at Haviland Mill Park.

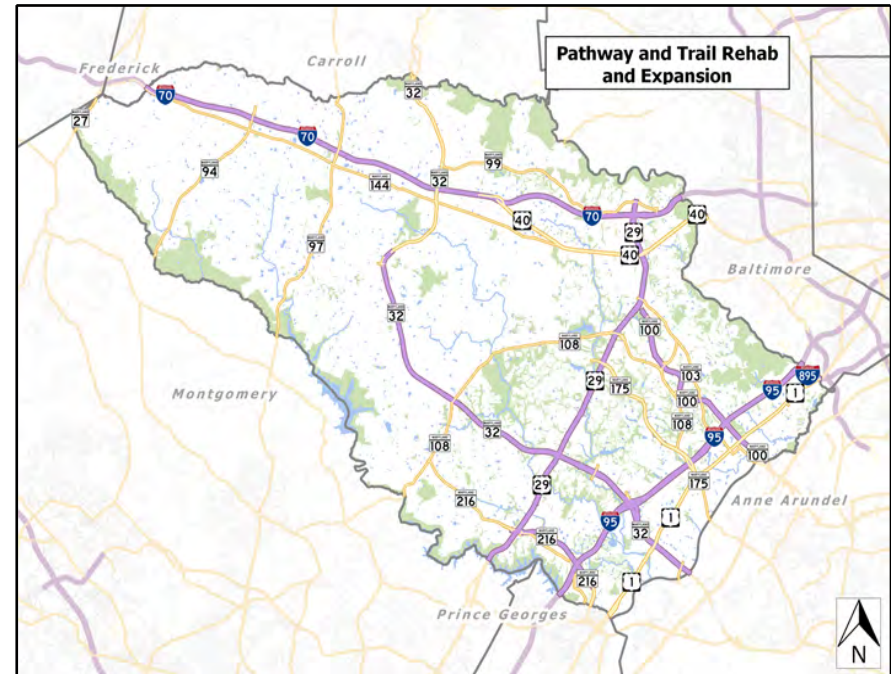

### Project Schedule

- FY18 - Constructing Haviland Mill Park accessible natural surface trail.
- FY19 - Planning, Engineering and Construction
- FY20 - Planning, Engineering and Construction
- FY21 - Planning, Engineering and Construction
- FY22 - Planning, Engineering and Construction
- FY23 - Planning, Engineering and Construction

### Operating Budget Impact

Annual Bond Redemption \$ \$21,510

Future rehabilitation of the existing pathway and trails will increase ongoing maintenance efforts by \$1.20 per linear foot of pathway or trail.

## Project: N3965-FY2007 MIDDLE PATUXENT IMPROVEMENTS

Number: N3965

### Description

A project to design and construct a restroom, storage building, parking improvements and bridges in the Middle Patuxent Environmental Area located southeast of the intersection of MD108 and Trotter Road.

### Justification

This project is endorsed by the Recreation and Parks Advisory Board and will benefit school groups and trail users.

### Remarks

1. Prior funds address funds for design and construction.
2. FY14 funds include a \$150,000 State Bond Bill. Prior year funds will be used for the Bond Bill match.
3. FY17-Request reflects additional funds for construction.

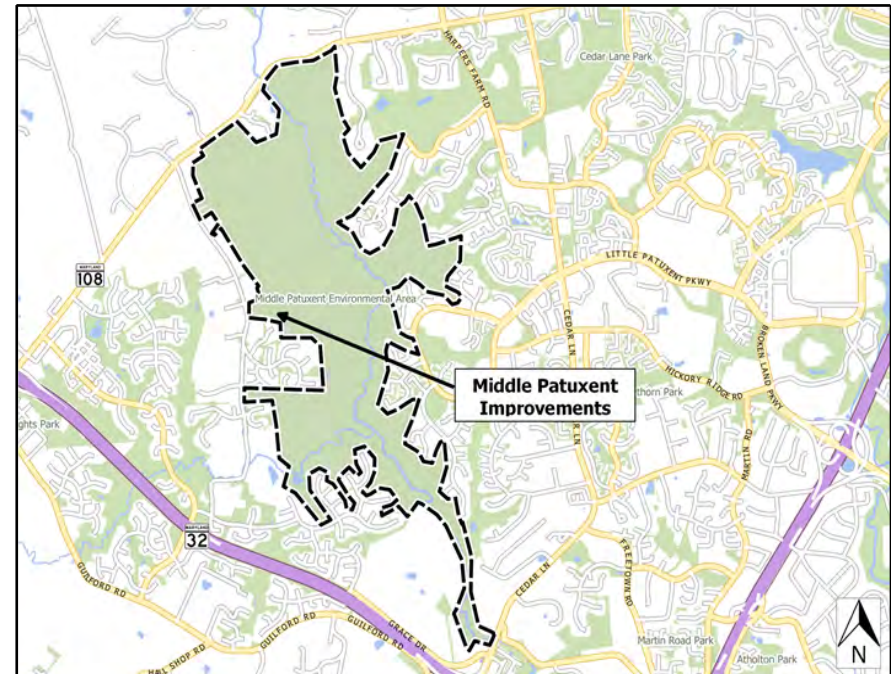

### Project Schedule

FY18 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$42,750

The estimated annual operating cost for start up for maintenance and utilities related to the restroom and storage shed is \$70,000.

## Project: N3967-FY2007 SOUTH BRANCH PARK

# PARKS PROJECTS

Number: N3967

### Description

A project to design and construct a seven-acre park located at Old West Friendship Road and the Patapsco River just south of Sykesville. Improvements include utility connections, building renovations, court games, playground, pathways, and parking.

### Justification

This project is identified in the 2005 and 2012 Land Preservation and Recreation Plan and is endorsed by the Recreation and Parks Advisory Board.

### Remarks

1. Prior year funds address the Town of Sykesville continued design and construction under lease agreement.
2. FY17 request addresses parking lot construction funds. Funds also address a \$100,000 State Bond Bill
3. FY18 request addresses an \$8,000 reimbursement from the Town of Sykesville.

### Project Schedule

FY17 - Begin the parking lot construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$36,000

The estimated annual operating cost will be paid by the Town of Sykesville.

## Project: N3971-FY2009 FOREST CONSERVATION MITIGATION EASEMENT PGM

Number: N3971

### Description

A project to conserve or create forested areas within the County through the use of developer fees in accordance with local and State forest mitigation requirements. This project will fund the acquisition of non-County owned property to create forest conservation mitigation easements and to undertake planting on the sites acquired utilizing fees paid in lieu of mitigation on individual development sites. This project will also hire a contractual employee to manage the program.

### Justification

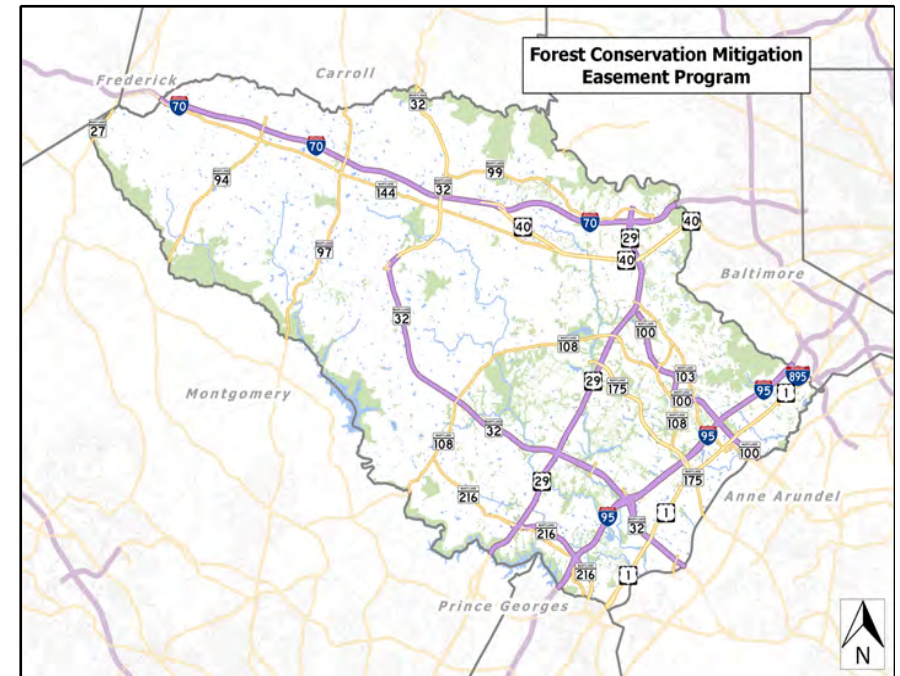

Forest areas are critical for air quality, water quality, erosion control and wildlife habitat. This program addresses the goals and objectives of the Howard County Forest Conservation Act of 1993.

### Remarks

1. Prior year funds addresses developer fees collected by the Department of Planning and Zoning utilizing fees paid in lieu of mitigation on individual development sites in accordance with the Howard County Forest Conservation Act of 1993. Funding also consists of the Department of Public Works fee requirements for forest conservation.
2. FY15 Request addresses additional funds collected by the Department of Planning and Zoning utilizing fees paid in lieu of mitigation on individual development sites in accordance with the Howard County Forest Conservation Act of 1993.

### Project Schedule

FY18 - Continue Land Acquisition and Planting

## Project: N3972-FY2011 DEFAULTED FOREST CONSERVATION and LANDSCAPING

Number: N3972

### Description

A project to provide for planting of shrubs, trees, as necessary in a subdivision or site where a developer failed to install the forest conservation improvements and landscape improvements in accordance with the approved forest conservation plan, landscape plan and developer agreement.

### Justification

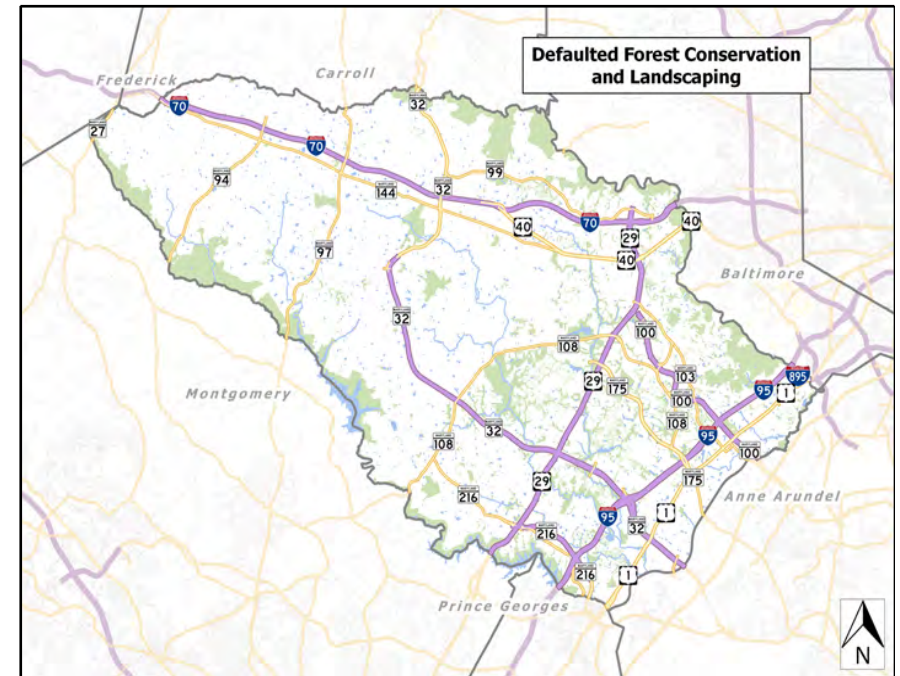

Upon developer's failure to complete construction, the surety of the developer is declared to be in default and the proceeds from the surety are placed in this account and used to finance construction.

### Remarks

Developer funds indicate proceeds from the developer's defaulted surety.

### Project Schedule

Program - Defaulted projects as they occur.

## Project: N3973-FY2014 EAST COLUMBIA LIBRARY ATHLETIC FIELD and SITE IMPROVEMENTS

Number: N3973

### Description

A project to upgrade the athletic fields at East Columbia Library, located off of Cradlerock in Columbia. Upgrades will include no spill/glare ballfield lighting and synthetic turf fields.

### Justification

This project will provide a safer playing surface, and improve site utilization.

### Remarks

Prior fund request addresses funds to start the design process to renovate the existing fields to add synthetic turf.

FY18 request addresses construction management fees for construction.

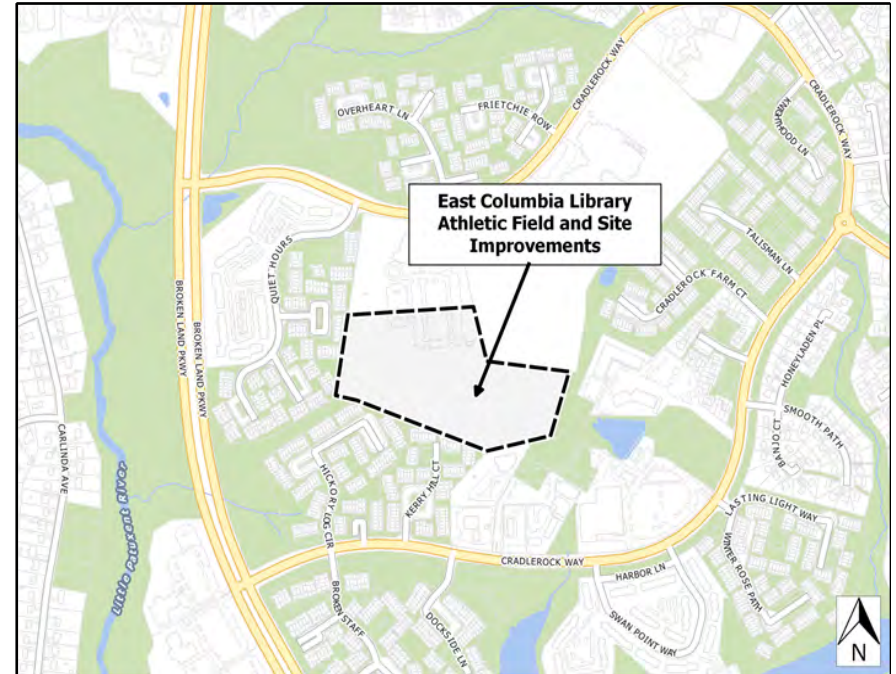

### Project Schedule

FY18 - Construction management fees for construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$175,500

The operational cost after construction for this project is estimated to be \$75,000 a year.

Number: N3976

### Description

A project to master plan, design and construct a 84-acre community park located off of Rt29 and Murphy Road, north of the Patuxent River. Facilities will be determined by a citizen's advisory committee and a master plan effort.

### Justification

This project is identified in the 2012 Land Preservation and Recreation Plan.

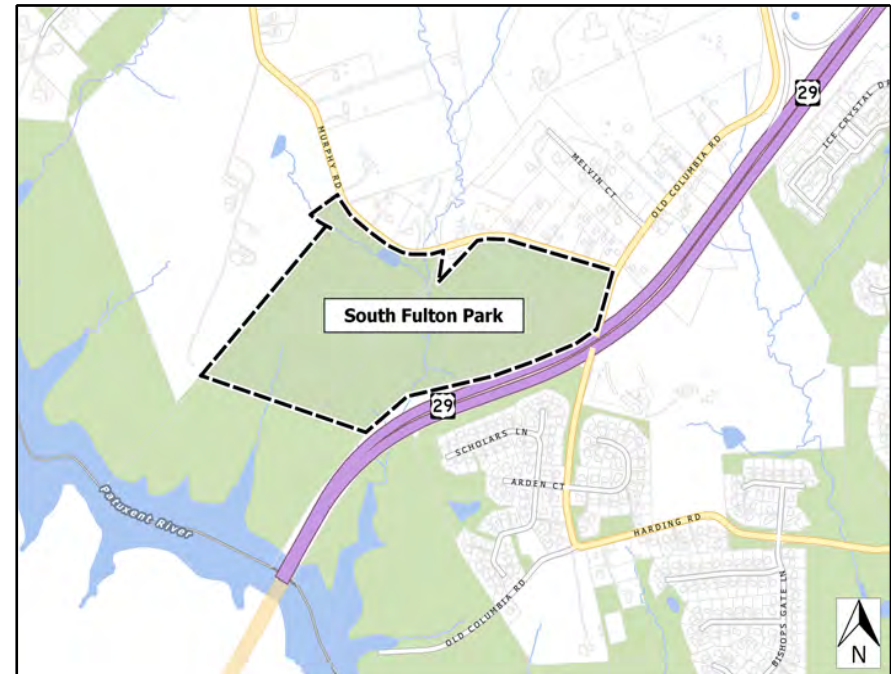

### Remarks

### Project Schedule

### Operating Budget Impact

Annual Bond Redemption \$ \$31,500

At this time the operating impact cannot be determined until we get closer to construction.

# Fiscal 2018 Capital Budget

## Project: N3978-FY2018 PARKLAND ACQUISITION PROGRAM

# PARKS PROJECTS

Number: N3978

### Description

This project establishes a fund for County-wide park land acquisition and related expenses. This project allows the County to move quickly to acquire land which becomes available, and satisfies one or more of the following objectives: addresses State and County Greenway objectives, protects sensitive natural resources threatened by development, acquire additional land adjacent to existing parks, and/or satisfies park and open space needs as identified in the Departments most recent Land Preservation, Parks and Recreation Plan (LPPRP).

### Justification

This project has been endorsed by the Recreation and Parks Advisory Board and is supported by the 2005 and 2012 Land Preservation and Recreation Plan.

### Remarks

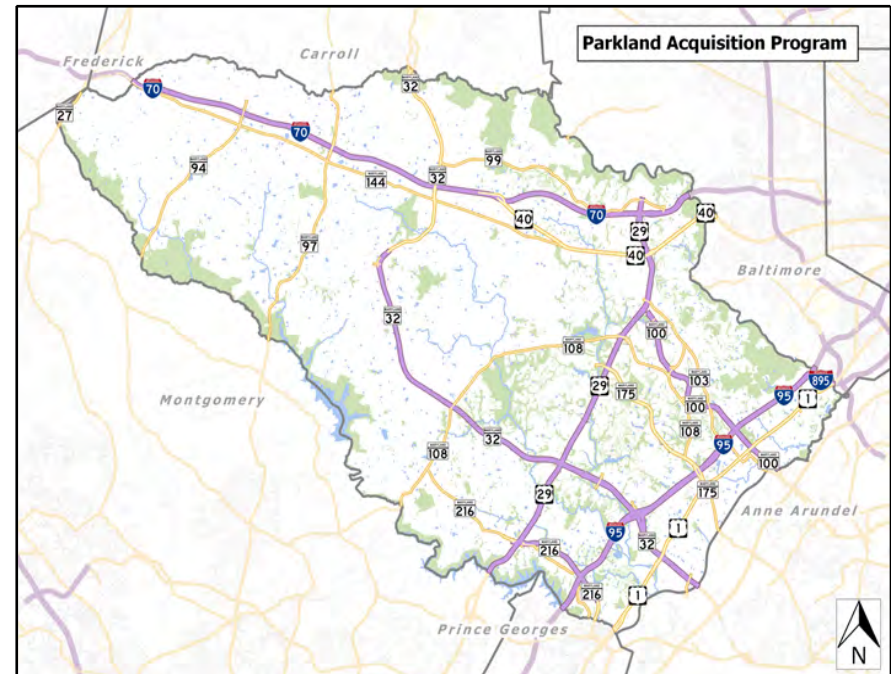

1. FY18 - Acquire additional park land and County and State greenway property in accordance with our Land Preservation, Park & Recreation Plan (LPPRP). Provide Program Open Space (POS) Acquisition funding for POS approved projects. \$80,000 request Program Open Space funds for future LPPRP plan and land acquisition and remaining fund request addresses funds for appraisals and environmental studies.

### Project Schedule

FY18 - Land Acquisition and Development Continues

### Operating Budget Impact

Operating costs of woodland and natural areas are absorbed within current operational budgets. Developed park areas are maintained at an average cost of \$3,900 per acre per year.

# Fiscal 2018 Capital Budget

## Project: P4920-FY2001 MOBILE DATA POLICE COMPUTERS

# POLICE PROJECTS

Number: P4920

### Description

Project for the purchase, installation and support of mobile computers for police operations in the field.

### Justification

Project has the goal of providing officers with computers in the field on which they could generate police reports, run queries, and more efficiently respond to routine calls for service. Purchase of hardware and software for e-citations.

### Remarks

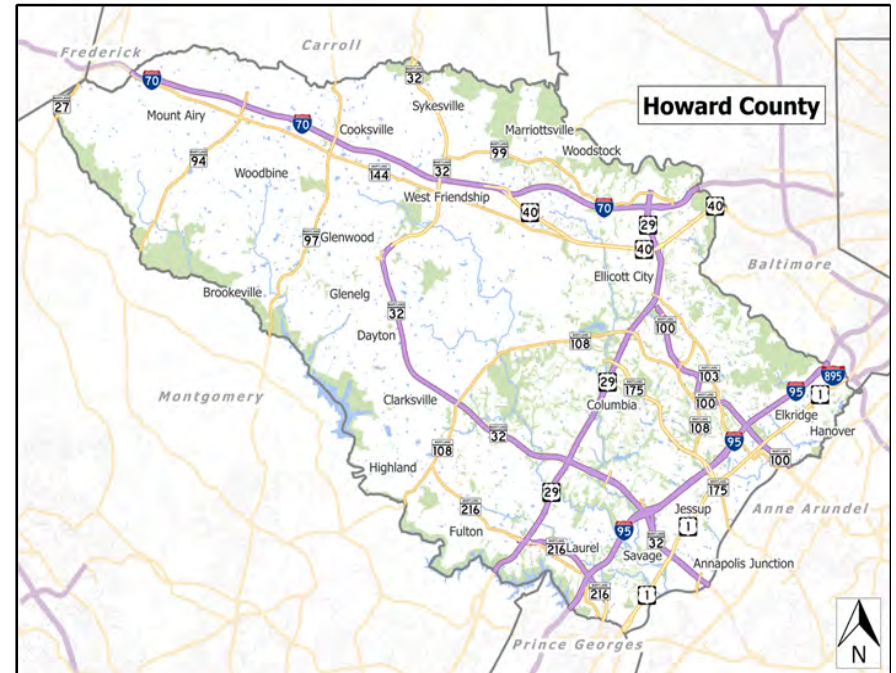

1. OTHER funds represent Federal Drug Forfeiture Dollars.
2. GRANT represents US Department of Justice funds.

### Project Schedule

FY16-17 - Complete automated field reporting project.  
FY18 - Complete and close.

### Operating Budget Impact

Accounts funding installation and maintenance will have to be increased. Staff will have to expand to provide hardware and software technical support. Periodic upgrading and replacement of computer equipment and software will be needed on an annual basis once the system has been completed.

# Fiscal 2018 Capital Budget

## Project: P4926-FY2009 CHILD ADVOCACY CENTER

# POLICE PROJECTS

Number: P4926

### Description

A project for the provision of a larger Child Advocacy Center, maintaining a "child friendly" environment, but meeting the expanding facilities requirements for the present and future policing demands.

### Justification

The prior facility (Latona House, 3421 Rogers Avenue) is outdated, and greatly undersized to meet the current police functions associated with the investigation and prosecution of physical and sexual abuse of children. The facility does not provide the environment necessary for the sensitive interactions required with young children and their families, nor for the effective operations of the police staff in performing this critical function. Additionally, the parking is wholly inadequate for both staff and clients. Therefore, the decision has been made to move the Center into rental space until the new facility can be funded, designed & constructed.

### Remarks

1. This project will be accomplished by: (a) Developing a Family Justice Center which consolidates the multiple services of public governmental agencies and private non-governmental organizations under one roof in order to reduce the number of places victims of domestic violence, sexual abuse, child abuse and elderly abuse must go to receive needed services; or (b) by buying an existing residence in reasonable proximity to existing police facilities, and then converting it to meet the pertinent interior and parking requirements; or (c) by buying an acceptable lot and constructing a new facility that provides a residential environment, but with all the required operational spacing. The 1st option is the preferred option.
2. Previously provided Study Funds will be used to do the analysis to determine which option will be optimum for this project.

### Project Schedule

- FY20 - Location Analysis/Purchase
- FY21 - Design
- FY22 - Construction
- FY23 - Close Out

### Operating Budget Impact

Annual Bond Redemption \$ \$319,275

Estimated annual utility/custodial costs upon construction completion: \$ 17,500.00

## Fiscal 2018 Capital Budget

## POLICE PROJECTS

**Project: P4927-FY2009 CRIMINAL INVESTIGATIONS BUREAU BLDG/WARFIELD ADDITION**

**Number: P4927**

### Description

A project for the construction of new Criminal Investigations space and space for the relocation of Police forces from the Gateway Building, as an addition to the present Northern District Police Station. The dedicated Criminal Investigations Bureau space will meet the tremendous demands which are being placed on the very limited space provided in the Northern & Southern District Police Stations.

### Justification

The new facility will provide the professional space required for the effective operation of the Criminal Investigations Bureau, both for the present and future, as well as provide the necessary space for Police forces being relocated from the Gateway Building. The present space for the Bureau is wholly inadequate, disjointed, inefficient, and without the professional amenities necessary to allow effective operations.

### Remarks

Study funds previously provided are being used to define the feasibility of expanding the Northern District Police Station, and how to best integrate space between District Police Stations.

### Project Schedule

FY19 - A/E Selection; Design Initiation  
FY20 - Design Completion; Construction  
FY21 - Construction Completion  
FY22 - Project Close Out

### Operating Budget Impact

Annual Bond Redemption \$ \$520,425

Estimated annual utility/custodial costs upon construction completion  
\$135,000.00

# SEWER PROJECTS

## Project: S6175-FY2001 LITTLE PATUXENT WATER/WASTEWATER PARALLEL SEWER

Number: S6175

### Description

A project for the study, design and construction of the Little Patuxent Parallel Sewer.

### Justification

This project is needed to meet the existing and projected sewage flows of Little Patuxent (LP) Sewer service area as outlined in approved Master Plan for Water and Sewerage.

### Remarks

1. Consists of four phases. Phase I - Flow Monitoring/Modeling Study; Phase II - Evaluation of Alternative; Phase III - Design; and Phase IV - Construction.
2. Phase I study has concluded that LP Interceptor Sewer has insufficient capacity to convey current wastewater flows. Ten and a half (10.5) miles of the LP Sewer will require paralleling between MD108 and LP Water Reclamation Plant to meet the year 2020 population projection of drainage area.
3. Phase II study for year 2035 population projection has concluded that another half mile of sewer will be required above MD108.
4. Contract 20-4536 received MDE stimulus funding approval.

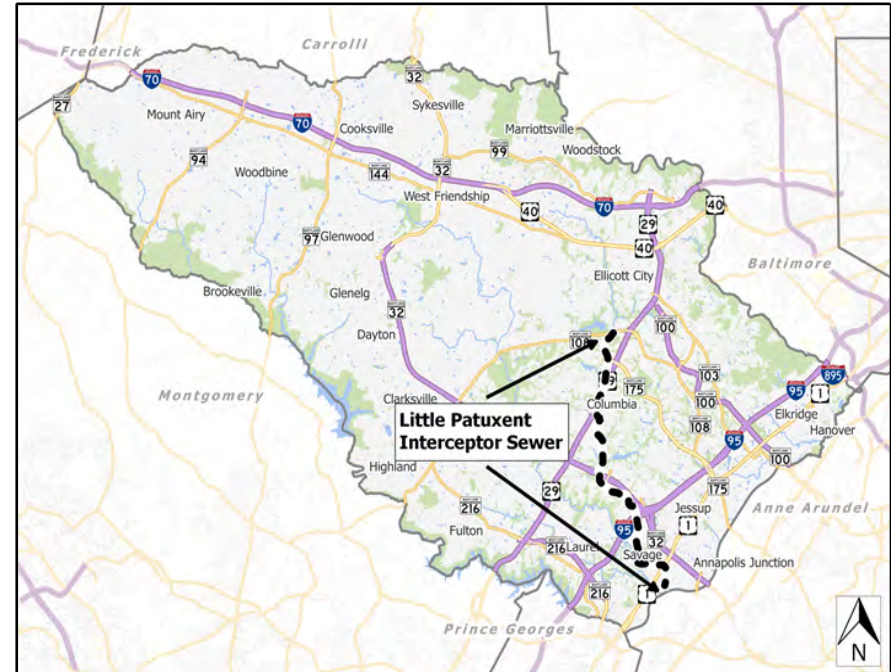

### Project Schedule

- FY18 -19 - Mitigation Monitoring
- FY20 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$2,068,795

\$3,300 per annum represents televising of sewer main and maintaining the easements over sewer alignment.

# Fiscal 2018 Capital Budget

## Project: S6214-SEWER CONTINGENCY FUND

# SEWER PROJECTS

Number: S6214

### Description

The fund is designed for use as a revenue source for transfers of appropriations when either construction costs are higher than originally estimated or engineering must be advanced from future years to the present fiscal year for critical sewer needs. Additionally, this fund will be utilized for various costs such as advertising, printing, public hearing notices, enhanced nutrient removal, etc., to meet requirements when charges to individual projects are not feasible.

### Justification

This fund will allow for the timely completion of approved projects by using contingency funding as required and will allow rapid response to critical situations.

### Remarks

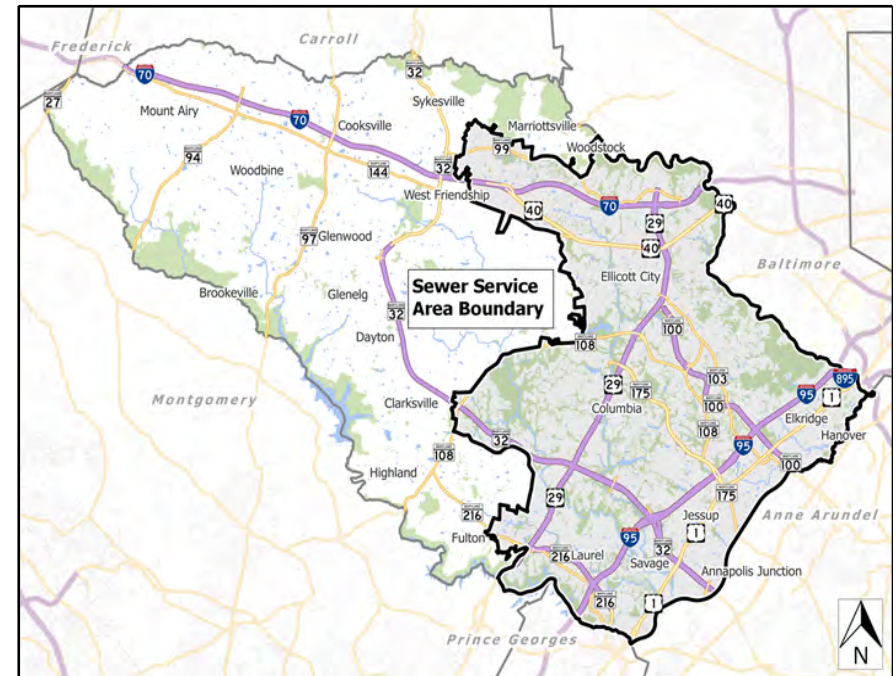

1. Prior appropriation reflects TAO #1-2008 in which Water Quality Bonds were transferred to S6251 as replacement for Metro Bonds.
2. Prior appropriation reflects TAO #2-2009 in which Water Quality Bonds were transferred to S6214 as replacement for Metro Bonds.
3. This project will receive State Water Quality Loan funds prior to transfer of those funds into designated projects.
4. Collection of revenues for enhanced nutrient removal.
5. Other Sources also include developer contributions and reimbursements.

### Project Schedule

Ongoing program

### Operating Budget Impact

Annual Bond Redemption \$ \$2,383,458

# Fiscal 2018 Capital Budget

## Project: S6232-FY2001 SEWER CORROSION CORRECTION PROGRAM

# SEWER PROJECTS

Number: S6232

### Description

A project to televise sewer pipes in the County's sanitary sewer system for evidence of corrosion. The project will effect repairs in the areas of imminent failures and prioritize and perform rehabilitation and replacement efforts in areas where corrosion has compromised the integrity of the system. This project will also analyze the chemical composition (waste stream strength) of sewage in the County's sewer system to determine need for pipeline or structure coating requirements and various treatment options. This project will also provide protection of existing sewers under excessive outside pressures via structural lining.

### Justification

The collapse of a 35 year old sewer adjacent to US1 in 1999 required an expensive and disruptive repair effort lasting several weeks and involving assistance from the adjoining municipality. The sewer in question was damaged by sulfide-induced corrosion. This project will provide a preventive approach, identifying and rehabilitating problem areas prior to their structural failure.

### Remarks

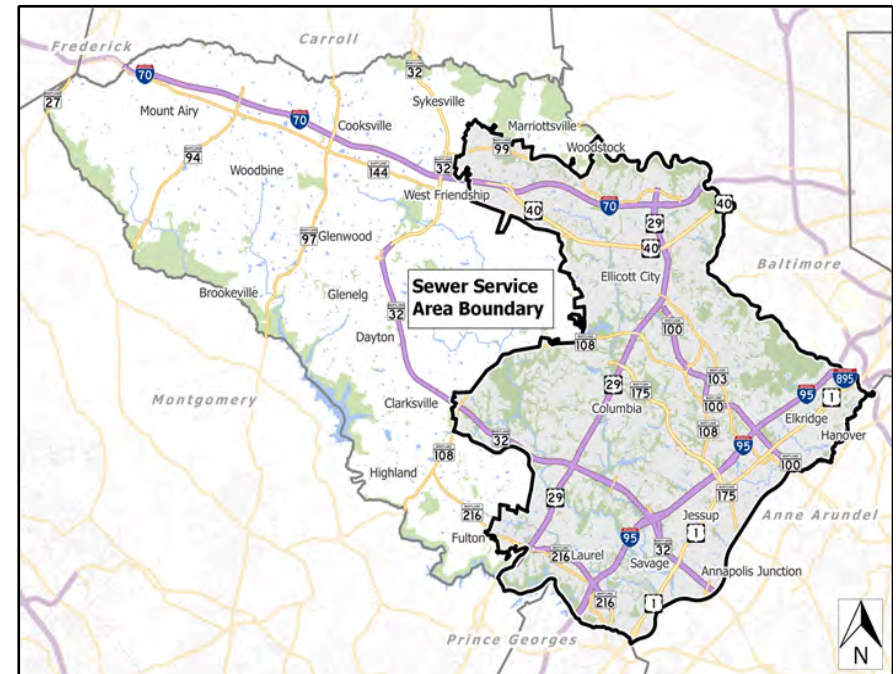

1. An ongoing program for inspection and repair of interceptor and collector sewers.
2. The project will inspect 20,000 LF of sewer and rehabilitate 15,000 LF sewer per year.
3. Request represents the advancement of funds in the capital program.

### Project Schedule

Ongoing program  
FY18 - 1. King Contrivance 2. Sewells Orchard

### Operating Budget Impact

None. The project will reduce overtime and system maintenance costs.

# Fiscal 2018 Capital Budget

## Project: S6237-FY2001 PATAPSCO CONVEY/TREAT FACILITIES

# SEWER PROJECTS

Number: S6237

### Description

A project for Howard County's participation in the cost sharing for the capital funding of the Patapsco Treatment Plant at Wagners Point and the related Patapsco Interceptor, Pump Station, and Force Main. The conveyance and treatment facilities will be expanded, paralleled or replaced.

### Justification

The Patapsco Treatment Plant processes wastewater flows from the Howard County portion of Patapsco Drainage Area. Wastewater from the Elkridge and Ellicott City areas is conveyed to the Patapsco Plant by the Patapsco Interceptor, Pump Station and Force Main. Howard County along with Baltimore County and Anne Arundel County are required to participate in funding the cost of the improvements as a condition of use.

### Remarks

1. This project is a continuation of capital projects S6076 and S6156.
2. The Patapsco Wastewater Treatment Plant is being expanded from 73 to 81 MGD. Howard County's share of Patapsco plant's ultimate 81 MGD capacity is 11.5 MGD.
3. The funds in the 5-year capital program represent an estimate of Howard County's agreement share of the Patapsco Treatment Plant's expansion costs.

### Project Schedule

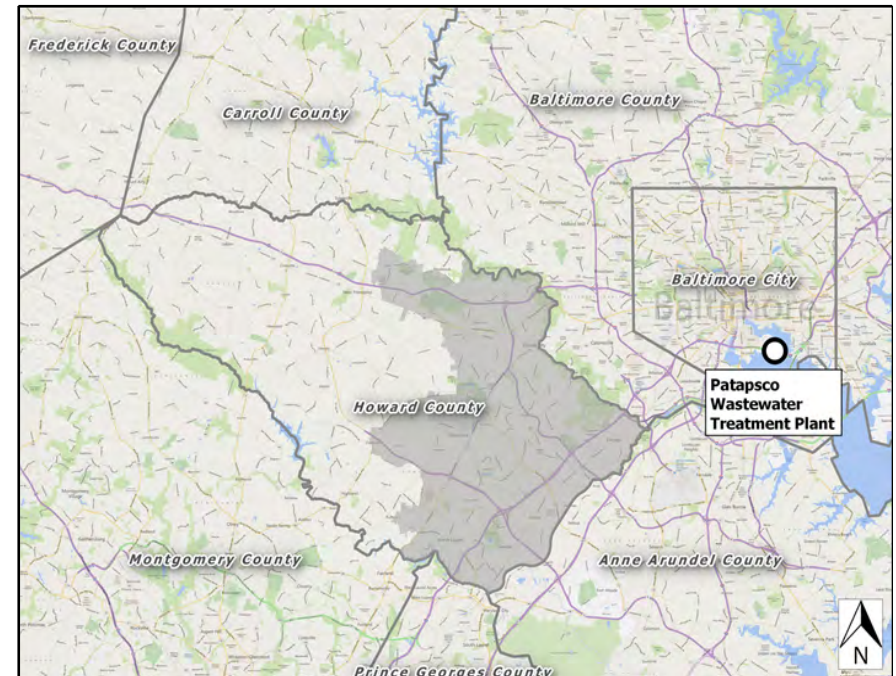

Ongoing program

FY18 - (at Patapsco Waste Water Treatment Plant) 1. ENR Modifications; 2. Chlorination/Dechlorination conversion; 3. EWT Assessment; 4. SW Diversion Pressure Sewer - Phase II; 5. Improvement to Liquid Oxygen Plant; 6. Denitrification Filters; 7. Grit Facility; 8. Sludge Blending Tanks; 9. Screen Storage at Facility; 10. Chlorine Contact Chambers; 11. Nitrification Filters; 12. Roof Replacement; 13. Arc Flash Improvements

### Operating Budget Impact

Annual Bond Redemption \$ \$2,164,924

No impact. The Patapsco facilities are operated by Baltimore County.

# Fiscal 2018 Capital Budget

## Project: S6249-DEFAULTED DEVELOPER AGREEMENTS

# SEWER PROJECTS

Number: S6249

### Description

An appropriation is requested under this project to construct water, sewer and associated facilities where the developer has failed to build all facilities in accordance with the plans and Developer Agreement. Also included is the cost of administration and any additional engineering that may be required. This project is implemented as a revolving fund account. In the event that the collection of the cash or bond proceeds from the surety are delayed, expenditures from this project are authorized when the County determines that continuing delays in the completion of the public improvements will cause significant negative impact to the residents and the subdivision and/or the environment.

### Justification

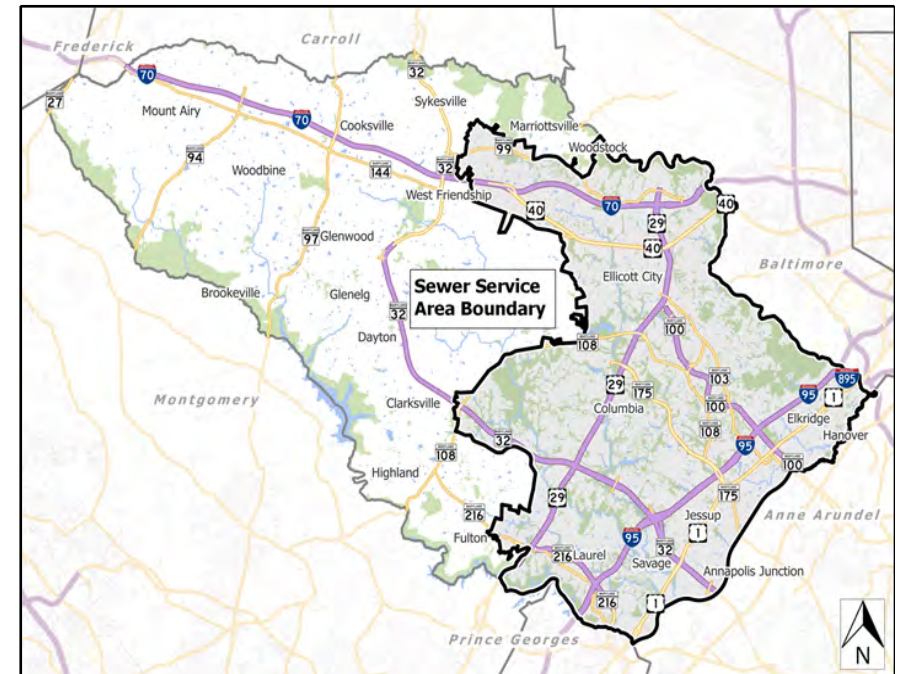

Upon developer's failure to complete construction, the surety of the developer is declared to be in default and the proceeds from the surety are placed in this account and used to finance construction.

### Remarks

Construction as required. DEVELOPER CONTRIBUTION represent monies received from surety.

### Project Schedule

Ongoing program

# Fiscal 2018 Capital Budget

## Project: S6264-FY2008 LPWRP CAPITAL REPAIRS

# SEWER PROJECTS

Number: S6264

### Description

A project to systematically repair, replace, or upgrade existing facilities at the Little Patuxent Water Reclamation Plant (LPWRP), and existing water distribution and wastewater collection system facilities. Work may include the performance of energy audits, alternative power source up-upgrades and/or the installation of energy conservation techniques at the plant or system facilities.

### Justification

Much of the infrastructure at the LPWRP and at Water/Wastewater Collection System Facilities is aging and is not currently scheduled for replacement by existing upgrades. These infrastructure facilities are beginning to experience age related failure, and systematic replacement and upgrades will extend their useful life.

### Remarks

1. The project management will be performed by in-house LPWRP staff with possible professional services and requirements contract support.
2. This will be an ongoing project.

### Project Schedule

1. FY08 - Project initiation
2. Ongoing project FY23, funded each year.

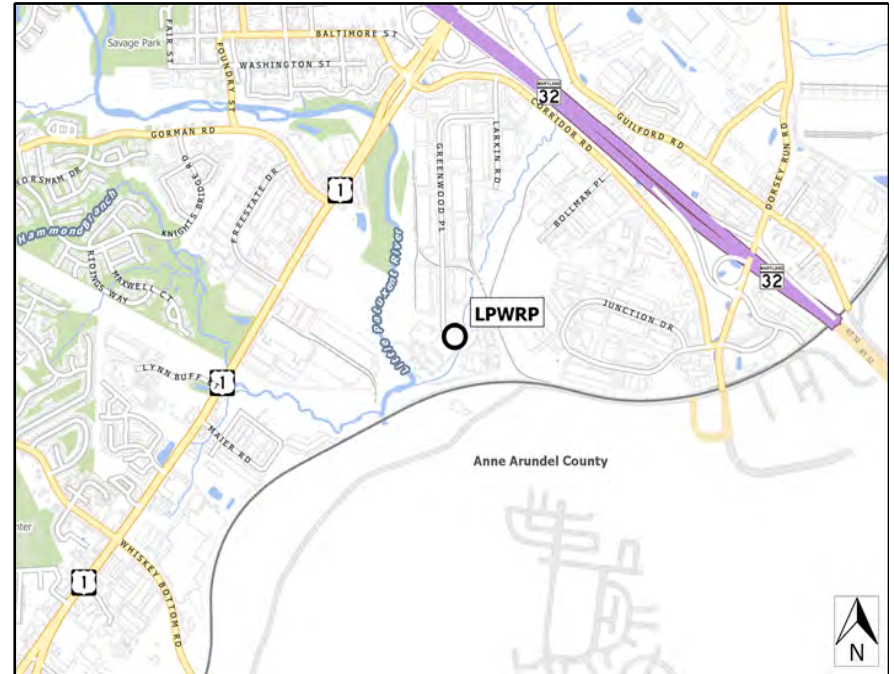

FY18 Projects: Chamberlea and Mt. Hebron pump station rehab

FY19 Projects: Allenford and Patapsco pump station rehab.

### Operating Budget Impact

Annual Bond Redemption \$ \$1,473,925

Reduction in the number and dollar amount of emergency repairs estimated to be in excess of \$100,000 annually.

# Fiscal 2018 Capital Budget

## Project: S6268-FY2008 PIPELINE REHABILITATION PROGRAM

# SEWER PROJECTS

Number: S6268

### Description

A project to protect and stabilize sewers and water mains in areas where stream and soil erosion have compromised the integrity of the system.

### Justification

Streams and waterways can meander depending on the geomorphic properties of the stream, and soil conditions. Gravity sewer systems often parallel streams and waterways due to the need to collect waste from low-lying properties. Stream meanders and soil erosion have undercut and exposed the sewer system in many areas within the County. Similarly, water mains often cross streams and can become exposed when a stream undercuts the pipe crossing. This capital project will rehabilitate and stabilize the sewer and water systems in these areas.

### Remarks

1. The project will prevent sewer system overflows and sewage spills thereby reducing environmental impacts and costly remediation measures and fines.
2. The rehabilitation efforts may include stabilizing and armoring the stream or repair/relocation of the sewer or water main.
3. The project will prevent costly water main breaks resulting from damage to exposed pipes.

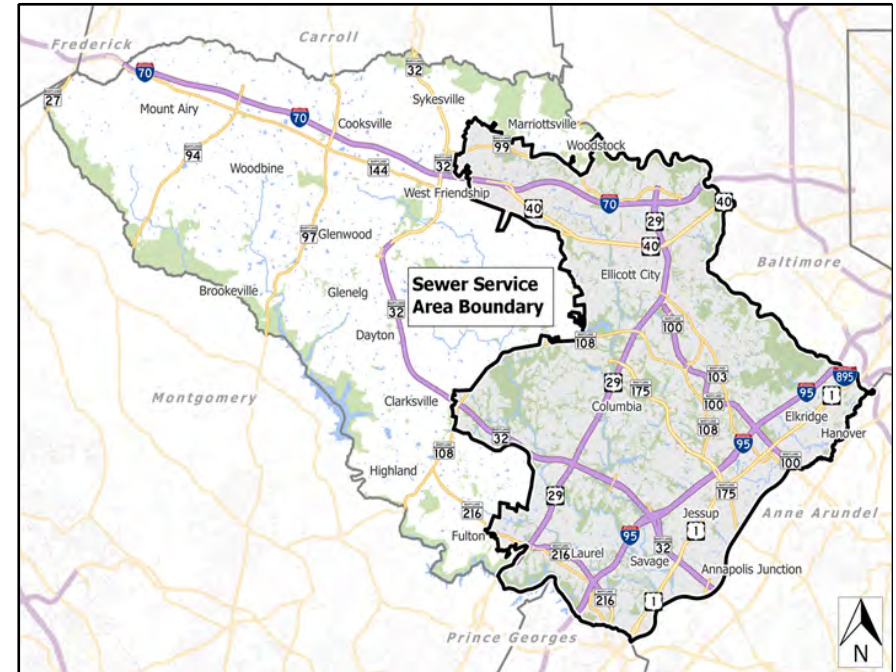

### Project Schedule

Ongoing program

FY18 - 1. Mary Lane; 2. Mellow Wine Way; 3. Bright Passage; 4. Athol Avenue; 5. Gales Lane; 6. Gragsmoor Road; 7. Bonnie Acres; 8. Phelps Luck Drive

### Operating Budget Impact

The project will reduce operating costs.

# Fiscal 2018 Capital Budget

# SEWER PROJECTS

**Project: S6269-FY2009 ASHLEIGH KNOLLS SHARED SEWAGE DISP FAC UPGD**

**Number: S6269**

## Description

A project to design and install a wastewater treatment system for the Ashleigh Knolls Shared Septic Facility to meet new Maryland Department of the Environment (MDE) discharge permit limits.

## Justification

The original and subsequent MDE Groundwater Discharge Permits did not have effluent concentration limits for various nutrient loadings. The new permit, effective August 1, 2014, sets the treatment limits for BOD (30/mg/l), TSS (30 mg/l), and total nitrogen (8 mg/l). A wastewater treatment system designed to meet these limits must be installed by March 31, 2019.

## Remarks

Plans for the construction of the wastewater treatment facility were completed in July 2013. Construction of the wastewater treatment plant will begin in FY17. Howard County expected a Bay Restoration Fund grant in the amount of \$500,000 to \$1,000,000 . However, the grant application for FY18 was denied by the Maryland Department of the Environment.

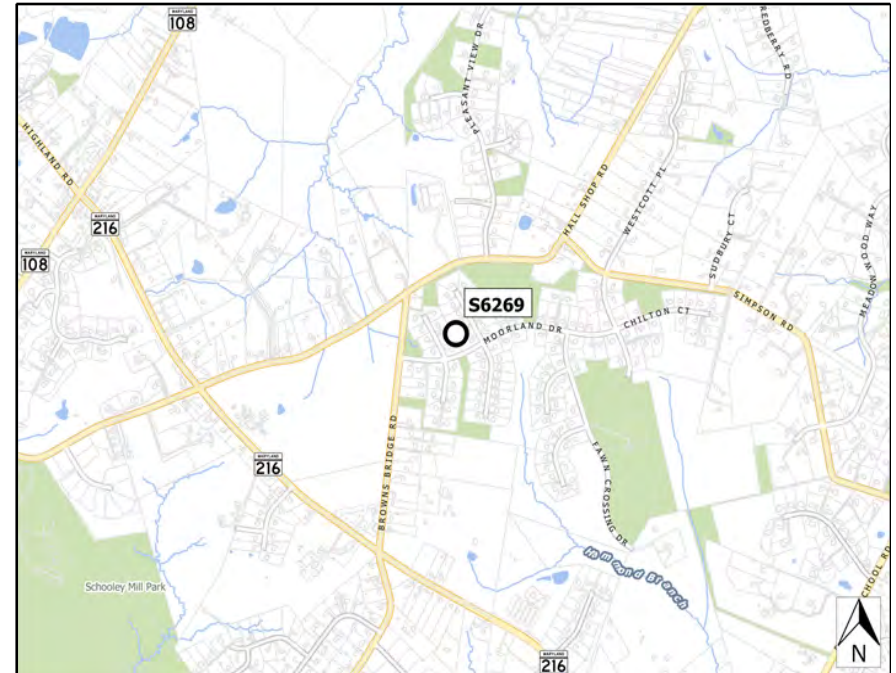

## Project Schedule

FY17/18 - Wastewater Treatment Plant Construction  
FY19 - Project Close

## Operating Budget Impact

Annual Bond Redemption \$ \$84,330

The annual operation and maintenance of the new treatment system will be included in the Operating budget of the Bureau of Utilities, and is estimated initially to be approximately \$250,000. The cost of operation and maintenance is borne by the connected residential lots.

# SEWER PROJECTS

## Project: S6273-FY2011 LITTLE PATUXENT INTERCEPTOR IMPROVEMENTS

Number: S6273

### Description

A project to reline and repair the 10 1/2 miles of the original Little Patuxent Interceptor from the Water Reclamation Plant to RT108.

### Justification

The Little Patuxent Interceptor sewer was first constructed in 1966. Preliminary inspection and metering efforts have revealed that portions of the sewer are subject to stream erosion and groundwater infiltration. The capital project will reduce groundwater infiltration into the sewer and correct areas affected by stream erosion; thereby extending the useful life of the sewer and protecting the environment.

### Remarks

1. The project was brought before the Public Works Board on December 10, 2008.
2. The flow capacity of the existing sewer is augmented by a paralleled sewer constructed under capital project S-6175. Following construction of the Little Patuxent Parallel Sewer, the flows will be diverted into the new sewer to allow an internal inspection and repair of the original interceptor sewer.
3. The project consists of several stages of inspection, design and construction as the new segments of parallel interceptor have been completed under Capital Project S-6175 and are now available to divert flow.

### Project Schedule

FY18 - Project complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$475,000

The project will reduce the cost of operation and maintenance of the existing system.

# SEWER PROJECTS

## Project: S6274-FY2015 UPPER LITTLE PATUXENT PARALLEL SEWER

Number: S6274

### Description

A project for the design and construction of 2,500 LF of parallel sewer, adjacent to the Little Patuxent Interceptor Sewer, north of MD108.

### Justification

The project is required to provide for adequate sewer capacity in the Little Patuxent sewer between MD108 and the confluence with the Plum Tree Branch sewer. Computer modeling based on population projections from the Department of Planning and Zoning has indicated that 2,000 feet of the existing Little Patuxent Interceptor north of MD108 will flow surcharged by the year 2020 if the sewer is not paralleled.

### Remarks

1. The project was brought before the Public Works Board on December 10, 2008.
2. The Little Patuxent Interceptor south of MD108 to the Water Reclamation Plant in Savage has been lined under capital project S-6273 and paralleled under capital project S-6175.
3. Request represents the advancement of funds in the capital program and latest engineering estimate.

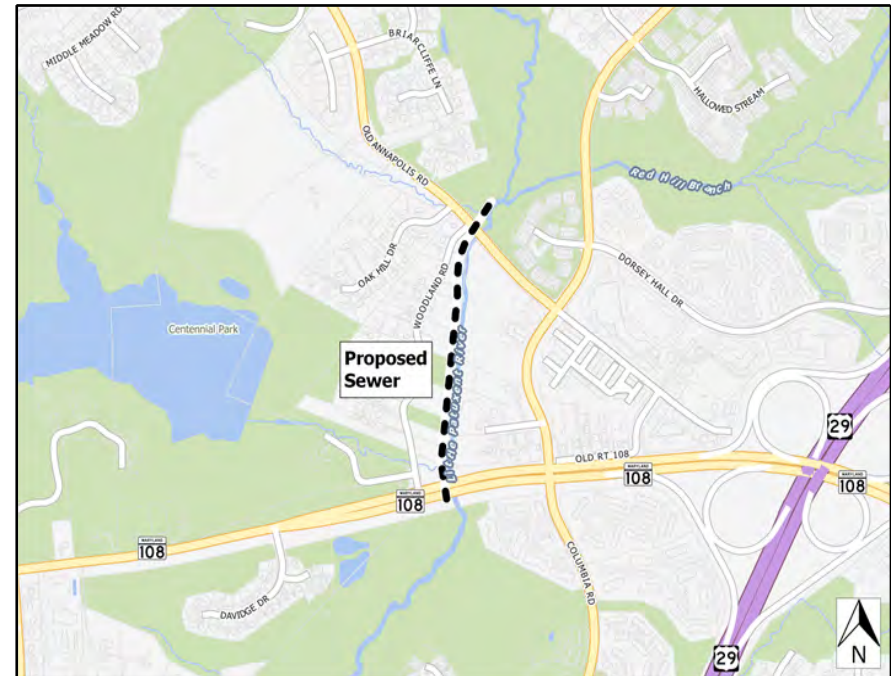

### Project Schedule

- FY18 - Design, Land Acquisition
- FY19 - Construction
- FY20 - Project complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$149,625

\$5,275 per year represents the cost of operation and maintenance of the sewer

# SEWER PROJECTS

## Project: S6275-FY2012 DANIELS AREA PUMPING STATION

Number: S6275

### Description

A project for the study, design and construction of a wastewater pumping station and force main to serve the Daniels Area east of Old Frederick Road.

### Justification

It is Howard County policy to provide gravity sewer service whenever possible. A pumping station is required in order to provide gravity sewer service to the properties east of North Rogers Avenue between Old Frederick Road and I-70. The Master Plan for Water and Sewerage has identified the Sunell Property as a location for a future pumping station to provide gravity sewer service to this drainage area. In order to insure that the station is properly sited to meet the needs of the drainage area, the Department of Public Works will work with the property owner in constructing the pumping station and force main in return for the property owner providing the land and infrastructure (grading, roads, etc.) to access the site during the development of the property.

### Remarks

1. The project was brought before the Public Works Board on January 12, 2010.
2. Land for the pumping station is required from a property owner abutting I-70. The property owner has agreed to reserve land for a pumping station during the development of his property at no cost to the County and provide adequate sewer easements to access the adjoining properties.
3. The property owner will construct the road and infrastructure to access the pumping station site.

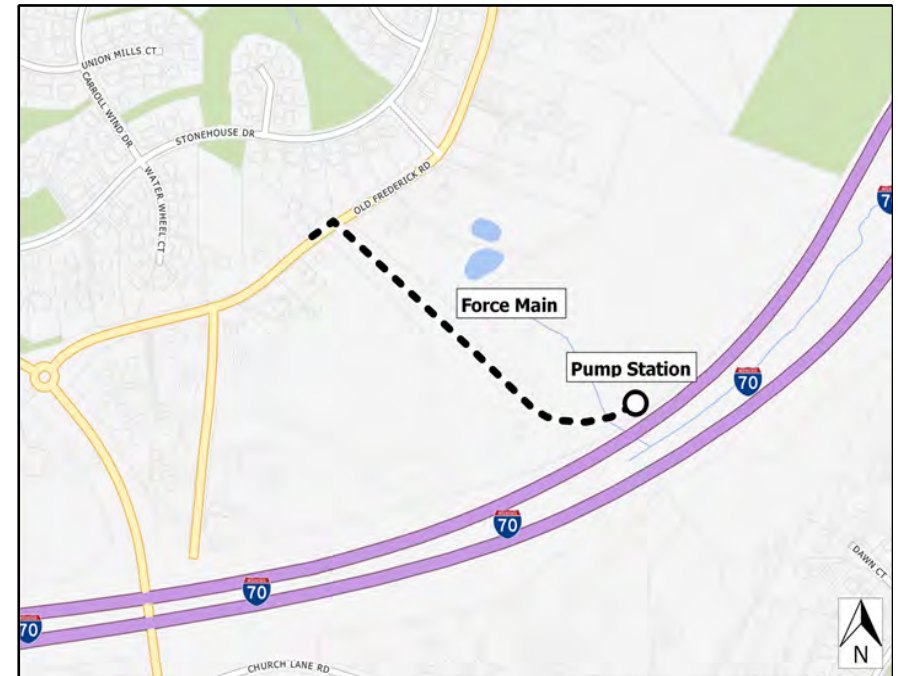

### Project Schedule

- FY18 - Design
- FY19 - Construction
- FY20 - Project Complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$118,750

\$50,000 per year represents the cost of operation and maintenance of the pumping station.

# SEWER PROJECTS

## Project: S6276-FY2011 SEWER CLEANING MAPPING AND TELEVISION INSPECTION MAINTENANCE

Number: S6276

### Description

Develop a Sewer Manhole and Line Segment Inspection and Cleaning Program to include all County-owned water sewer lines within the collection system. During the cleaning process, sewer lines will be inspected, power cleaned and their operability and condition verified. Deficiencies found during inspection will be prioritized for repairs using in-house staff or outside contractors, funded through this project. This project includes the services of a consultant to assist with MDE Consent Agreement Compliance, to include on-site consultant services for compliance monitoring, development of a GIS mapping system for both water and sewer mains, as required by the Agreement and GIS mapping of areas cleaned, inspected, and repaired.

### Justification

Howard County has entered into a Consent Agreement with the Maryland Department of the Environment (MDE) to reduce Sewer System Overflows (SSO's), and each of the activities included in this project are required by the Agreement.

### Remarks

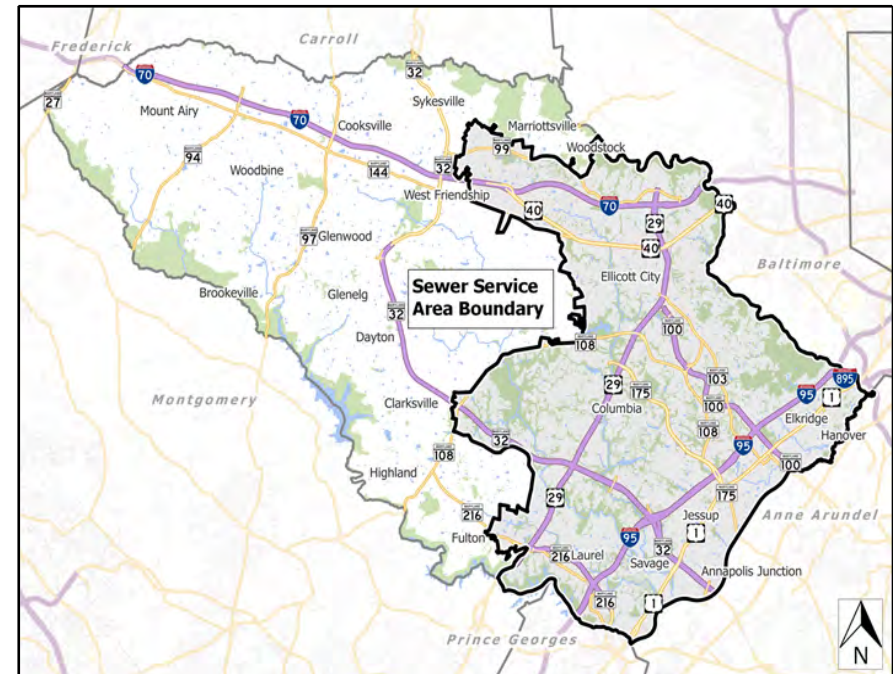

1. Sewer cleaning and inspections would commence by grids on an annual basis, including approximately one-fifth of all sewer lines in the system over a five year period.
2. There are approximately 1,000 miles of sewer line.
3. Preparation of a water/sewer GIS mapping layer linked to the Bureau's Hansen maintenance/management software is being developed by a consultant as part of the Consent Agreement with MDE.

### Project Schedule

1. FY18 - Yearly cleaning, approximately 1/5 (200) miles of pipe per year, televised sewer inspections, smoke testing, on-going repairs and project management.
2. On-going projects:  
Continued Sewer Maintenance program in accordance with the MDE Consent Agreement.  
GIS integration with Hansen Asset Management Program.

### Operating Budget Impact

Reduction in labor/administrative costs anticipated.

## Project: S6279-FY2013 MEADOWRIDGE FORCE MAIN REPLACEMENT

Number: S6279

### Description

A project for the design and construction of 2,500 LF of 8-inch replacement force main and improvements to the Meadowridge Wastewater Pumping Station.

### Justification

The ductile iron force main has failed 3 times since 2010. A corrosion evaluation has revealed that the source of the failures is stray currents from two parallel gas mains in US1 coupled with low resistivity soils, causing corrosion pitting and failures of the iron pipe. Additionally, the original pumps are 33 years old and need to be replaced.

### Remarks

The project was brought before the Public Works Board on December 13, 2011.

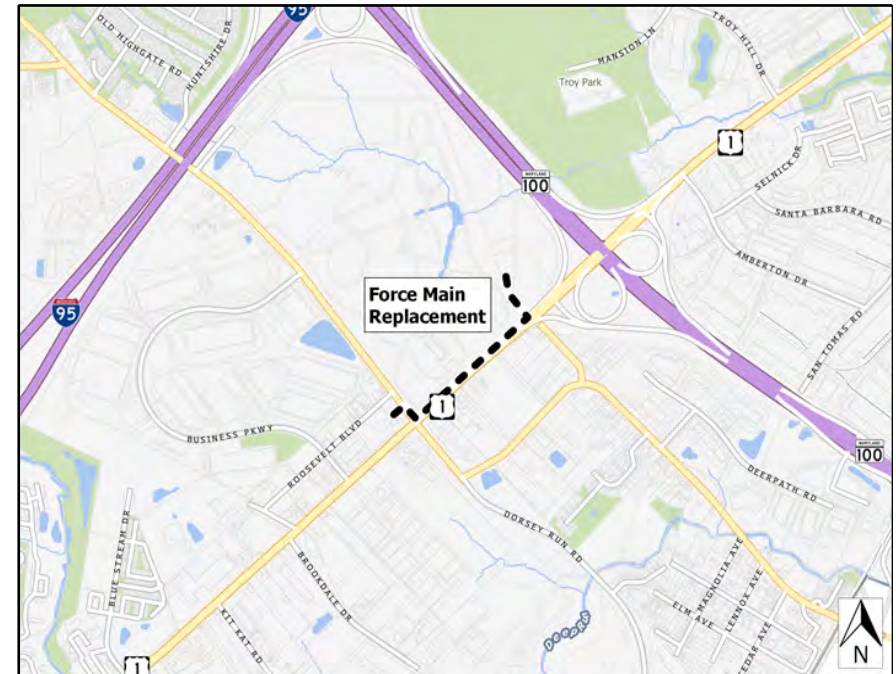

### Project Schedule

FY18 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$90,250

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

## Project: S6280-FY2013 HAMMOND/PATUXENT INTERCEPTOR IMPROVEMENTS

Number: S6280

### Description

A project for the study, design and construction of 20,000 feet of parallel sewer in the Hammond Branch and Patuxent sewer drainage areas.

### Justification

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

### Remarks

1. Computer modeling under capital project S-6255 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. Phase I of the capital project will correct potential wastewater overflow conditions and will consist of 9,000 feet of parallel sewer.
3. Phase II of the capital project will correct potential surcharged flow conditions within the sewer and will consist of 11,000 feet of parallel sewer.
4. The project was brought before the Public Works Board on January 10, 2012.
5. An emergency repair of 1,100 LF was completed under S6232.
6. The request represents advancement of funds in the capital program and latest engineering estimate.

### Project Schedule

#### Phase I

FY18 - Design, Permitting, Land Acquisition

FY19 - Construction

FY20 - Phase I Complete

#### Phase II

FY19-20 - Design, Land Acquisition

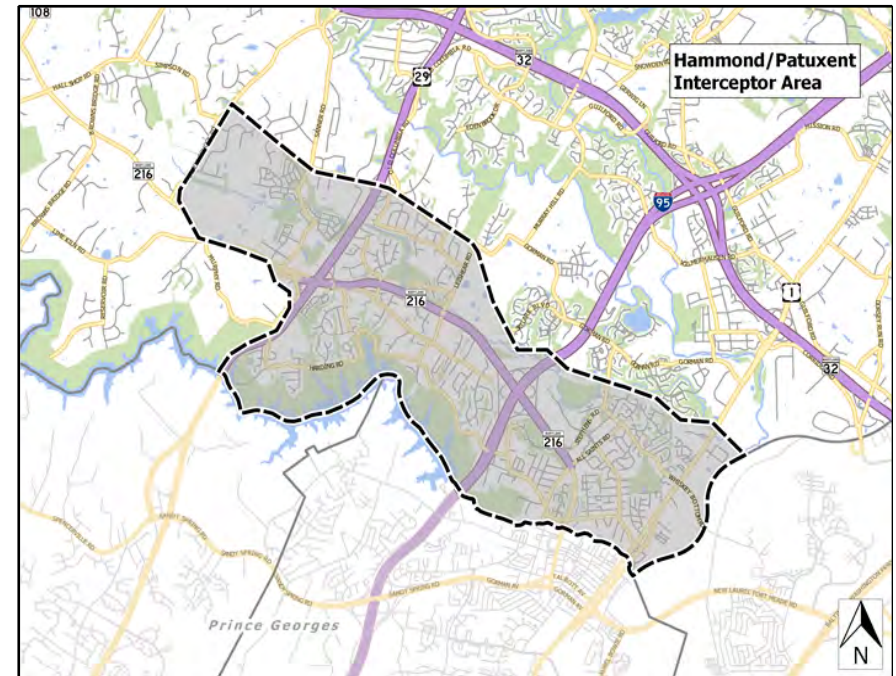

FY21-22 - Construction

FY23 - Phase II complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$1,258,988

The annual cost of operation and maintenance of the sewer is \$7,500.

## Project: S6281-FY2013 DORSEY/GUILFORD INTERCEPTOR IMPROVEMENTS

Number: S6281

### Description

A project for the study, design and construction of 14,600 feet of parallel sewer in the Dorsey Run and Guilford Run sewer drainage areas.

### Justification

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

### Remarks

1. Computer modeling under capital project S-6255 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. Phase I of the capital project will correct potential wastewater overflow conditions and will consist of construction of a new junction chamber and 600 feet of parallel sewer.
3. Phase II of the capital project will correct potential surcharged flow conditions within the sewer and will consist of 14,000 feet of parallel sewer.
4. The project was brought before the Public Works Board on January 10, 2012.
5. Request represents advancement of funds in the capital program and latest engineering estimate.

### Project Schedule

#### Phase I

FY18 - Design, Permitting, Land Acquisition

FY19 - Construction

FY20 - Phase I Complete

#### Phase II

FY19 - Design, Land Acquisition

FY20-21 - Construction

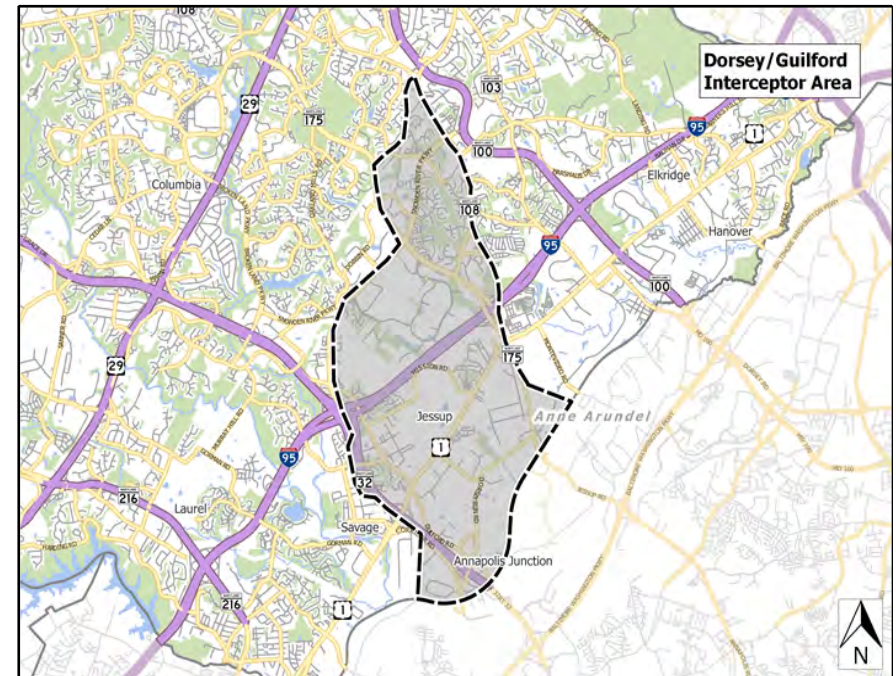

FY22 - Phase II Complete

FY23 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$634,838

The annual cost of operation and maintenance of the sewer is \$5,500.

# SEWER PROJECTS

## Project: S6282-FY2013 BONNIE BRANCH/ROCKBURN INTERCEPTOR IMPROVEMENTS

Number: S6282

### Description

A project for the design and rehabilitation of 6,100 feet of interceptor sewer in the Bonnie Branch sewer drainage area and the re-commissioning and upgrade of the Kerger Road Pumping Station and force main.

### Justification

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

### Remarks

1. Computer modeling under capital project S-6250 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. Phase I of the capital project will consist of the re-commissioning of the Kerger Road Pumping Station.
3. Phase II of the capital project will correct potential surcharged flow conditions within the sewer and will consist of the rehabilitation of 6,100 feet of interceptor sewer including the construction of a new billing meter and vault.
4. The project was brought before the Public Works Board on January 10, 2012.
5. The project scope has been reduced due to the re-commissioning of the Kerger Road Pumping Station. The Kerger Road station will divert wastewater flows to the Shallow Run Interceptor reducing the improvements needed in the Bonnie Branch and Rockburn Interceptors.

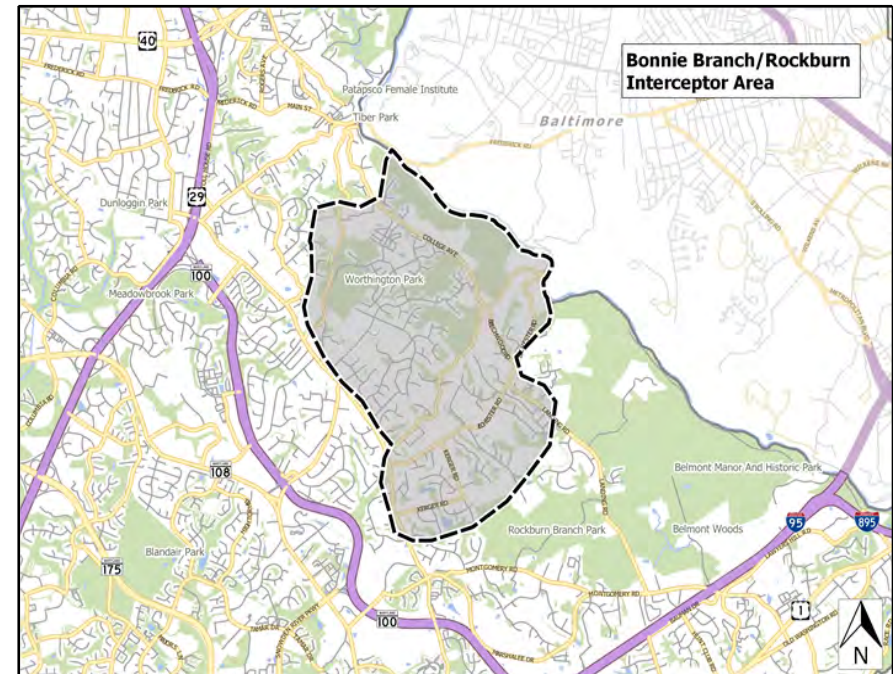

### Project Schedule

- Phase I  
FY18 - Project complete, Close
- Phase II  
FY18 - Construction  
FY19 - Project Complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$252,938

The annual cost of operation and maintenance of the sewer is \$12,000, and the annual cost of operation and maintenance of the sewage pumping station is \$50,000.

## Project: S6283-FY2013 TIBER/SUCKER BRANCH INTERCEPTOR IMPROVEMENTS

Number: S6283

### Description

A project for the design and construction of 18,000 feet of parallel sewer in the Tiber Branch and Sucker Branch sewer drainage areas.

### Justification

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

### Remarks

1. Computer modeling under capital project S-6250 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. Phase I of the capital project will correct potential wastewater overflow conditions and will consist of replacement of a flow meter and 350 feet of parallel sewer on the Tiber Branch and 4,000 feet of parallel sewer on the Sucker Branch.
3. Phase II of the capital project will correct potential surcharged flow conditions within the sewer and will consist of replacement of 8,500 feet of parallel sewer on the Tiber Branch and 5,400 feet of parallel sewer on the Sucker Branch.
4. The project was brought before the Public Works Board on January 10, 2012.
5. Request represents the advancement of funds in the capital program.

### Project Schedule

FY18 - Design, Permitting, Land Acquisition, Construction

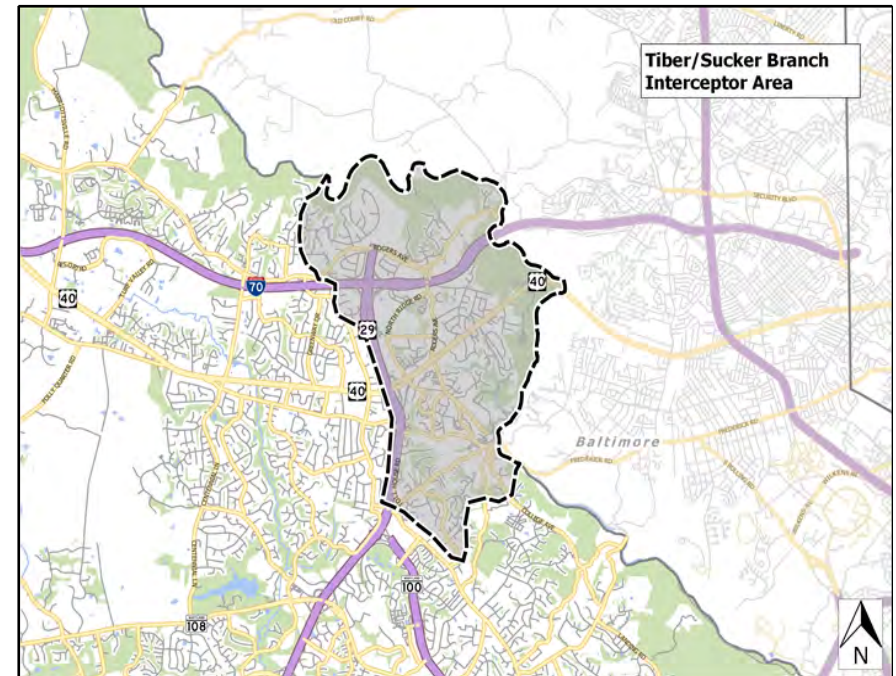

FY19-20 - Construction

FY21 - Project complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$446,500

The annual cost of operation and maintenance of the sewer is \$38,000.

## Project: S6284-FY2013 DEEP RUN/SHALLOW RUN INTERCEPTOR IMPROVEMENTS

Number: S6284

### Description

A project for the design and construction of 44,000 feet of parallel sewer in the Deep Run and Shallow Run sewer drainage areas.

### Justification

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

### Remarks

1. Computer modeling under capital project S-6250 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. Phase I of the capital project will correct potential wastewater overflow conditions and will consist of 20,000 feet of parallel sewer.
3. Phase II of the capital project will correct potential surcharged flow conditions within the sewer and will consist of 24,000 feet of parallel sewer.
4. The project was brought before the Public Works Board on January 10, 2012.
5. Request represents the advancement of funds in the approved capital improvement program.

### Project Schedule

FY18 - Design, Permitting, Land Acquisition, Construction

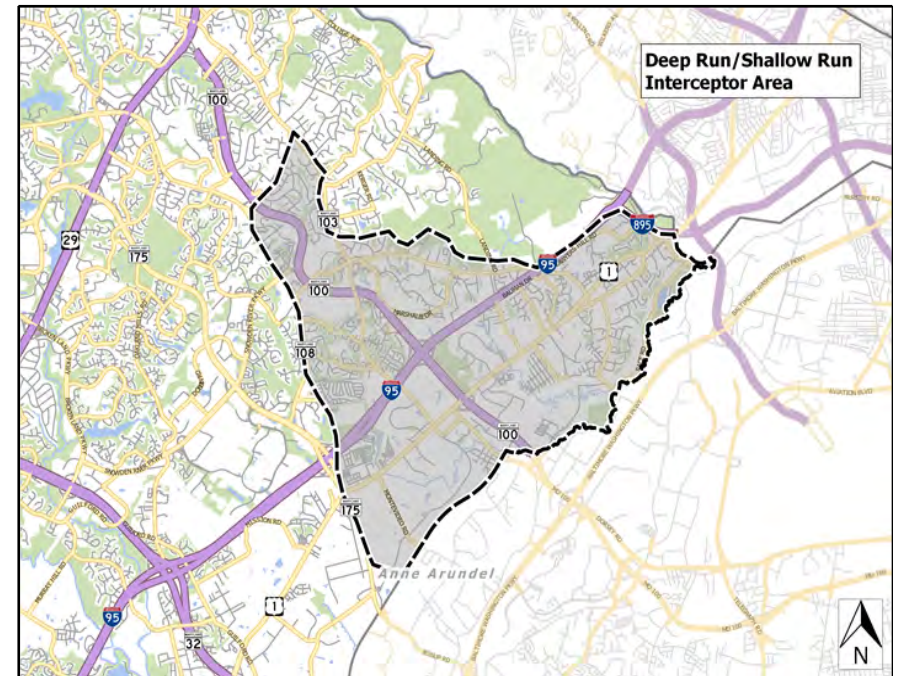

FY19-20 - Construction, Project Complete

FY21 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$983,725

The annual cost of operation and maintenance of the sewer is \$14,500.

# SEWER PROJECTS

## Project: S6285-FY2017 MD108 PUMP STATION OUTFALL IMPROVEMENTS

Number: S6285

### Description

A project for the design and construction of 1,700 feet of parallel sewer in the Tiber Branch sewer drainage area and connection into the Patapsco Interceptor to support flows from the MD108 Pumping Station.

### Justification

The improvements are required to prevent potential wastewater overflows and surcharged flow conditions within the interceptor sewers under ultimate zoning densities.

### Remarks

1. Computer modeling under capital project S-6250 has identified areas of potential overflow and surcharge flow conditions under current zoning build-out.
2. During emergency conditions, the MD Route 108 Pumping Station diverts flow from the Little Patuxent sewer service area to the Patapsco sewer service area by way of the Cat Rock Branch / Tiber Branch Interceptor sewer. The improvements are necessary to allow an emergency diversion of wastewater flows into the Patapsco Interceptor without resulting in potential overflow or surcharged conditions.
3. The project was brought before the Public Works Board on January 10, 2012.

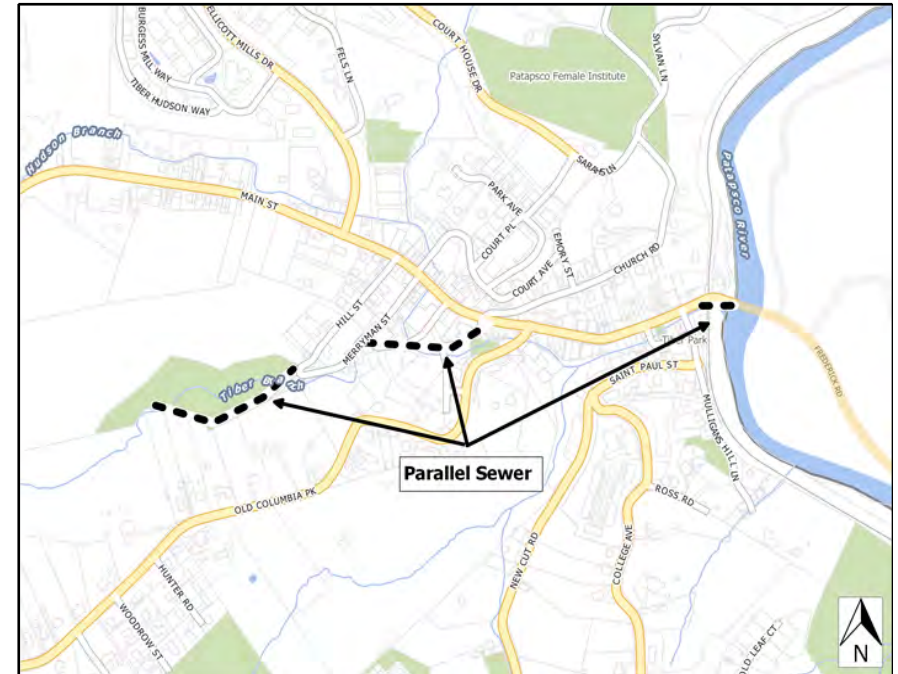

### Project Schedule

- FY18 - Design, Permitting, Land Acquisition
- FY19 - Construction
- FY20 - Project complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$61,750

The annual cost of operation and maintenance of the sewer is \$700.

## Project: S6286-FY2013 DORSEY RUN PUMP STATION UPGRADE

# SEWER PROJECTS

Number: S6286

### Description

A project to upgrade and increase the pumping capacity of the Dorsey Run Pumping Station.

### Justification

The pumping station is currently operating at full pumping capacity during rain events. The pumps, motors and drives are 25 years old and nearing the end of their useful life. Computer modeling under capital project S-6255 has identified the need to upgrade the capacity of the Dorsey Run Pumping Station to handle the ultimate projected flow conditions.

### Remarks

1. The improvements are required under the Master Plan for Water and Sewerage.
2. The project was brought before the Public Works Board on January 10, 2012.
3. Request represents the latest engineering estimate.

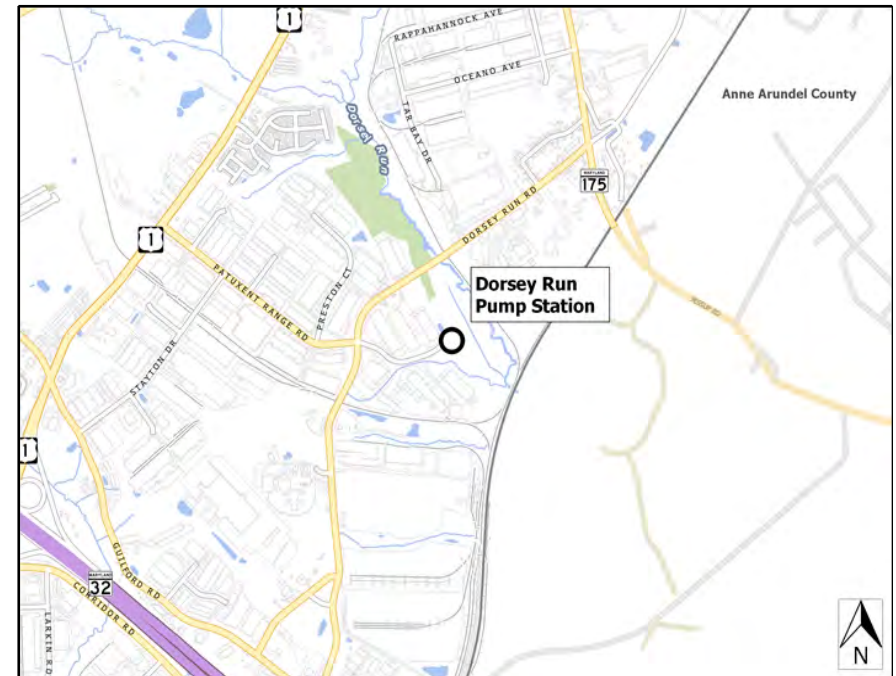

### Project Schedule

FY18 - Design, Construction  
FY19 - Project complete, close

### Operating Budget Impact

Annual Bond Redemption \$ \$220,258

The annual cost of operation and maintenance of the sewer is \$ 50,000.

**Project: S6287-FY2017 NORTH LAUREL PUMP STATION PARALLEL FORCE MAIN**

**Number: S6287**

## Description

A project for the design and construction of 4,600 feet of parallel force main to supplement the pumping capacity of the North Laurel Wastewater Pumping Station.

## Justification

The parallel force main is required to allow for a greater pumping capacity with the existing pumps.

## Remarks

1. Computer modeling under capital project S-6255 has identified the need to upgrade the capacity of the North Laurel Pumping Station to handle the ultimate projected flows.
2. The project was brought before the Public Works Board on January 10, 2012.
3. Project schedule revised from FY21 to FY17 due to results of condition assessment of existing FM.
4. Request represents the advancement of funds in the Capital Program and latest engineer's estimate.

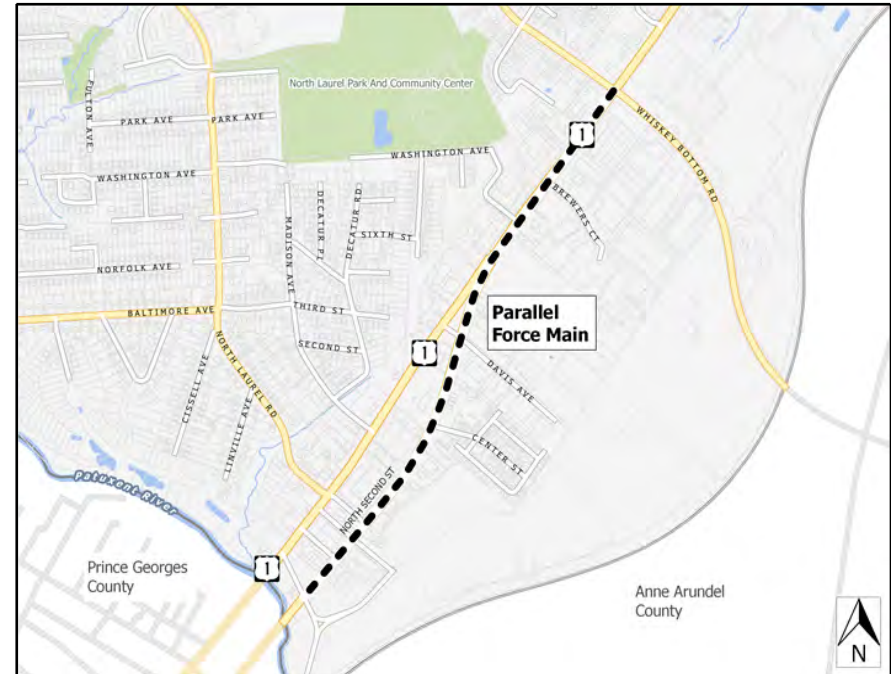

## Project Schedule

FY18 - Design, Construction  
FY19 - Project complete, Close

## Operating Budget Impact

Annual Bond Redemption \$ \$119,225

The annual cost of operation and maintenance of the sewer is \$ 20,000.

## Project: S6288-FY2020 ROCKBURN PUMPING STATION UPGRADE

# SEWER PROJECTS

Number: S6288

### Description

A project to upgrade and increase the pumping capacity of the Rockburn Pumping Station.

### Justification

Computer modeling under capital project S-6250 has identified the need to upgrade the capacity of the Rockburn Pumping Station to handle the ultimate projected flow conditions.

### Remarks

The project was brought before the Public Works Board on January 10, 2012.

### Project Schedule

FY20 - Design

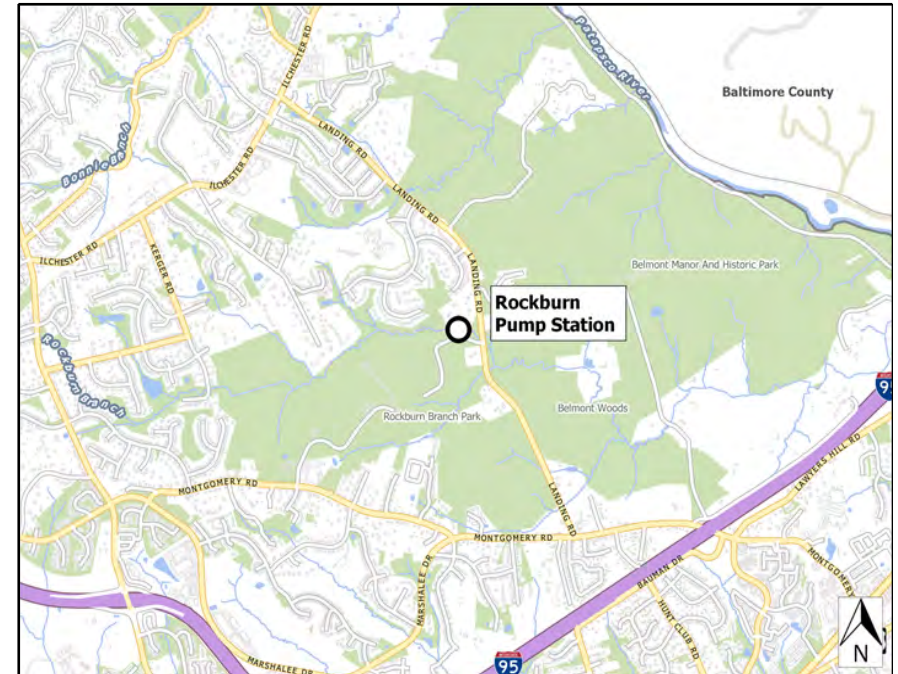

FY21 - Construction

FY22 - Project complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$157,700

The annual cost of operation and maintenance of the sewer is \$ 20,000.

# SEWER PROJECTS

## Project: S6289-FY2014 PARK AVENUE SEWER EXTENSION

Number: S6289

### Description

A project for the design and construction of 350 LF of 8-inch sewer to serve three properties on Park Avenue in Ellicott City.

### Justification

The three properties are currently served by a private shared sewer house connection. The shared private sewer is located under one of the homes being served. Shared private sewer house connections serving multiple properties are not permitted under current County regulations.

### Remarks

1. The capital project will replace the shared private sewer with a public sewer relocated out from under the private home.
2. All easements required for the construction of the sewer will be provided by the property owners being served at no cost to the County.
3. The project was brought before the Public Works Board on December 11, 2012.

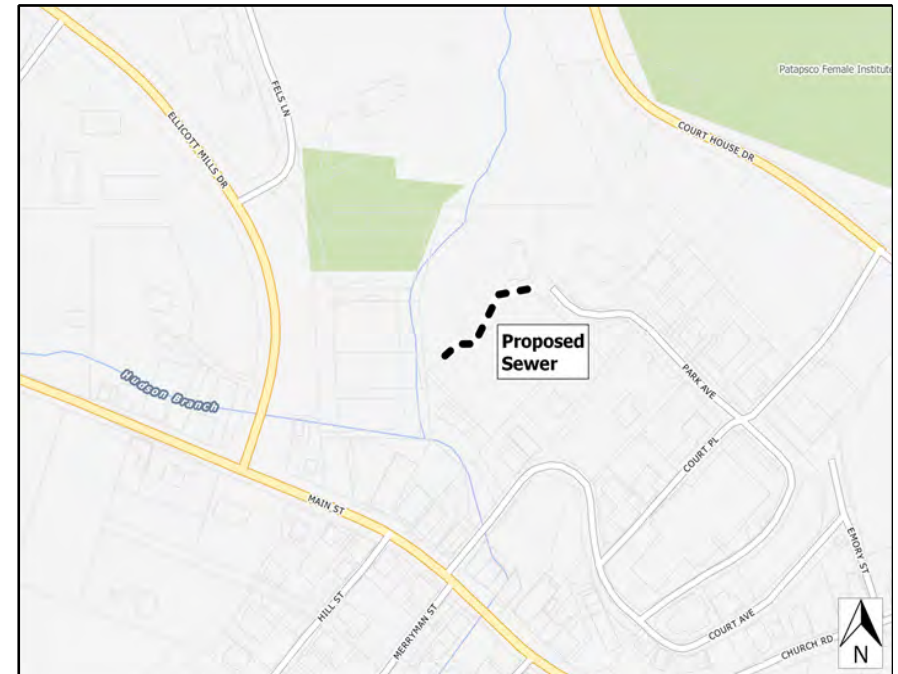

### Project Schedule

FY18 - Project complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$12,350

The annual cost of operation and maintenance of the sewer is estimated at \$750.

# SEWER PROJECTS

## Project: S6290-FY2014 SAVAGE AREA SEWER STUDY and REALIGNMENT

Number: S6290

### Description

A project for the study and realignment of 3,500 linear feet of sewer in the area of Baltimore Street and Washington Street, west of William Street in Savage, Maryland.

### Justification

The existing sanitary sewers in this area of Savage were constructed as part of the original Savage Mill factory housing and accepted into the County public sewer system in the 1960s. The sanitary sewers were constructed in back yards, abutting the foundations of buildings and private homes without recorded easements. The capital project will study the feasibility of relocating the sewers into public roadways or easements under the current standards and reconnecting the buildings and homes into the new public sewer.

### Remarks

1. Relocation of the sewers will reduce or eliminate the need for the County to enter onto private property and excavate adjacent to existing buildings and homes to maintain the public sewer.
2. The project was brought before the Public Works Board on December 11, 2012.

### Project Schedule

- FY18 - Construction, Project complete
- FY19 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$201,875

The cost of operation and maintenance will be reduced by relocating the public sewers to more accessible locations within public rights-of-way or easements.

## Project: S6292-FY2015 OLD FREDERICK ROAD SEWER

# SEWER PROJECTS

Number: S6292

### Description

A project for the design and construction of 900 LF of sewer to serve four properties located on Old Frederick Road.

### Justification

The project was requested by three property owners located on Old Frederick Road in the vicinity of Toby Lane. The properties are within the Metropolitan District. The properties are assessed ad-valorem charges and are eligible for public water and sewer service.

### Remarks

1. The project was brought before the Public Works Board on January 14, 2014.

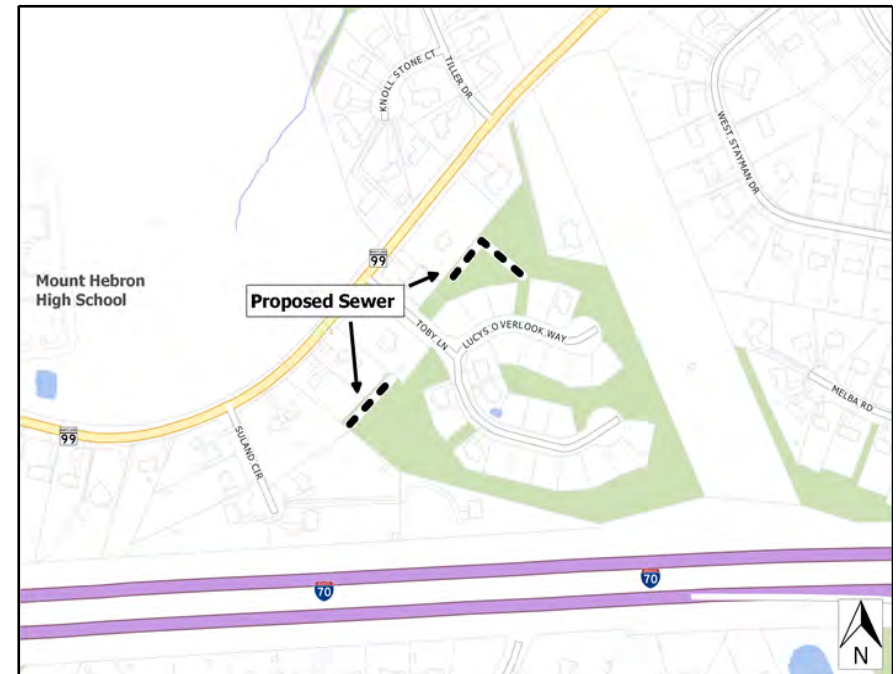

### Project Schedule

FY18 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$16,530

The annual cost of operation and maintenance of the sewer is \$2,000.

## Project: S6294-FY2015 ANNAPOLIS JUNCTION PUMPING STATION RENOVATION

Number: S6294

### Description

A project for the renovation of the Annapolis Junction Pumping Station.

### Justification

The County has been requested to make certain modifications to the existing Annapolis Junction Pumping Station to accommodate planned land use by the adjacent property owners. The modifications include fence relocations and installation of odor control facilities. The requested modifications will be paid for by adjacent land owners. Other desired station improvements will be cost shared between the County and the adjacent land owners.

### Remarks

1. Requested modifications to the pumping station will be contingent on receipt of funds from those requesting the modifications.
2. Other sources represents developer contributions and funds received from the adjacent land owners.
3. The project was brought before the Public Works Board on January 14, 2014.
4. Request represents the latest engineer's estimate for construction.

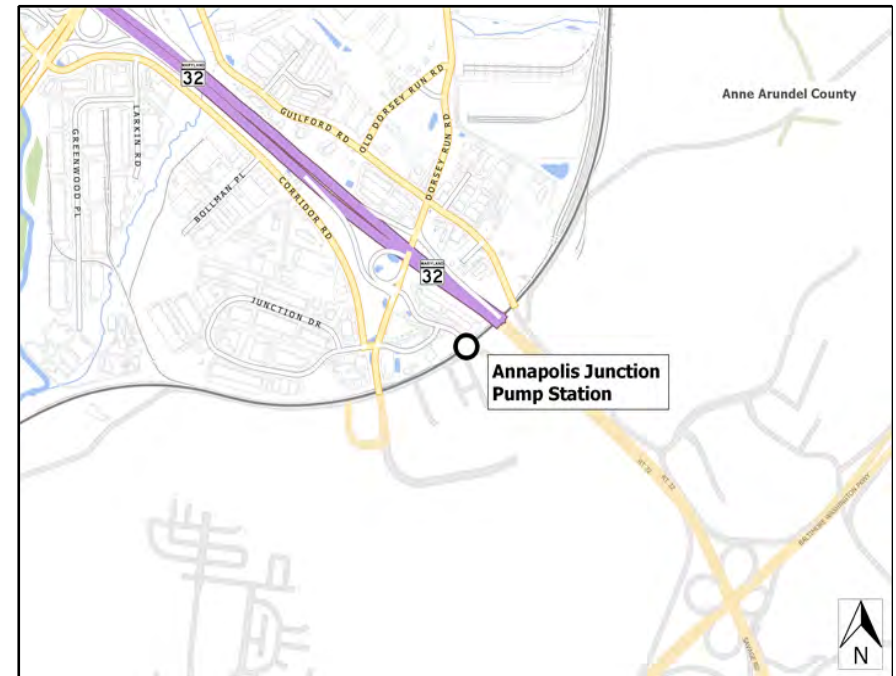

### Project Schedule

FY18 - Construction

FY19 - Project complete, Close

### Operating Budget Impact

The annual cost of operation and maintenance will be unchanged.

## Project: S6295-FY2016 LPWRP 8th ADDITION BIOSOLIDS PROCESSING FACILITIES

Number: S6295

### Description

A project to design and construct new biosolids processing facilities at the Little Patuxent Water Reclamation Plant (LPWRP) for the purpose of meeting new Maryland Department of the Environment (MDE) biosolids storage and disposal regulations, achieve biosolids volume reduction, and enhance biosolids quality for end-use purposes. Work may include the performance of energy audits, alternative power source upgrades and/or the installation of energy conservation techniques at the plant or system facilities.

### Justification

Biosolids from Howard County's LPWRP are currently dewatered, treated using an advanced alkaline (lime) stabilization process, and applied in bulk as a fertilizer to agricultural fields within Maryland.

### Remarks

1. Howard County completed a Biosolids Master Plan and Preliminary Engineering Report that recommend replacing the existing RDP advanced lime stabilization process with anaerobic digestion and direct heat drying to produce a Class A, exceptional quality (EQ), dried biosolids product.
2. The project is being designed and constructed via a Construction Manager at Risk (CMAR) alternative delivery process.
3. FY18 budget increase needed to account for more defined project scope with additional treatment processes and structures determined to be required through engineer's detailed design.

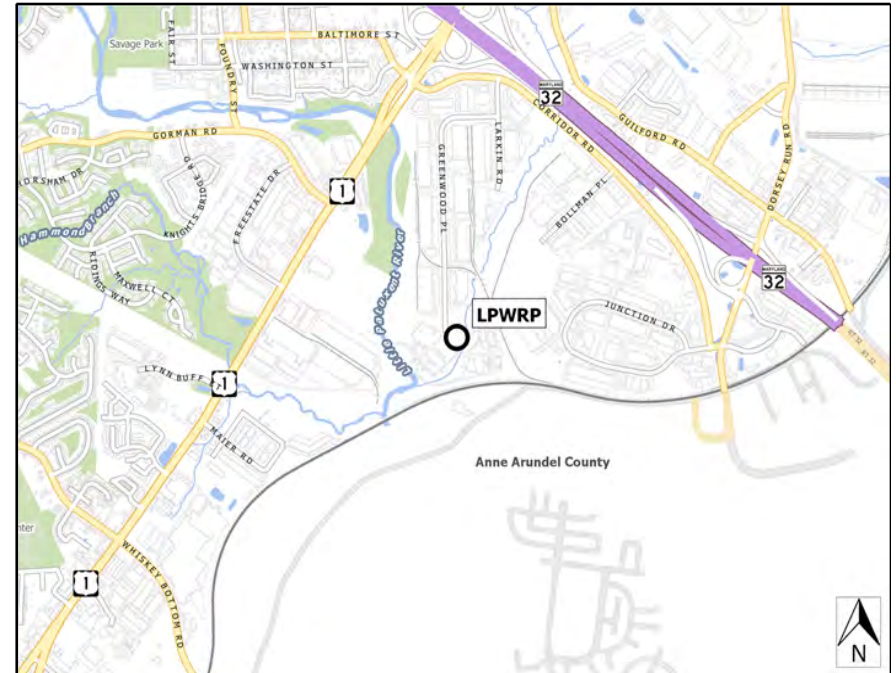

### Project Schedule

- FY17 budget based upon preliminary engineering and conceptual design. Project now at 50% design with construction manager acquiring actual bid prices for first phase of project.
- FY17-FY18 - Project Design and Permitting.
- FY17-20 -Construction startup phase of new facilities. Approximate 36 month construction, and 6 month startup to achieve full operation.
- FY21 - Project Complete and Close

### Operating Budget Impact

Annual Bond Redemption \$ \$4,132,500

Annual Bond Redemption of \$4,132,500. The annual operation and maintenance of the new biosolids processing facilities will be included in the Operating Budget of the Bureau of Utilities, and the cost of operation and maintenance is recovered through the User Rates.

### Explanation of Changes

1. FY18 budget increase needed for construction cost designed through the engineer's detailed design.

## Project: S6296-FY2016 HARRIET TUBMAN LANE SEWER EXTENSION

Number: S6296

### Description

A project for the design and construction of 150 LF of sewer to serve one property on Harriet Tubman Lane.

### Justification

The sewer extension was requested by one property owner located on Harriet Tubman Lane. The property is improved, is within the Metropolitan District and is eligible for public sewer service.

### Remarks

1. The project was brought before the Public Works Board on December 9, 2014.

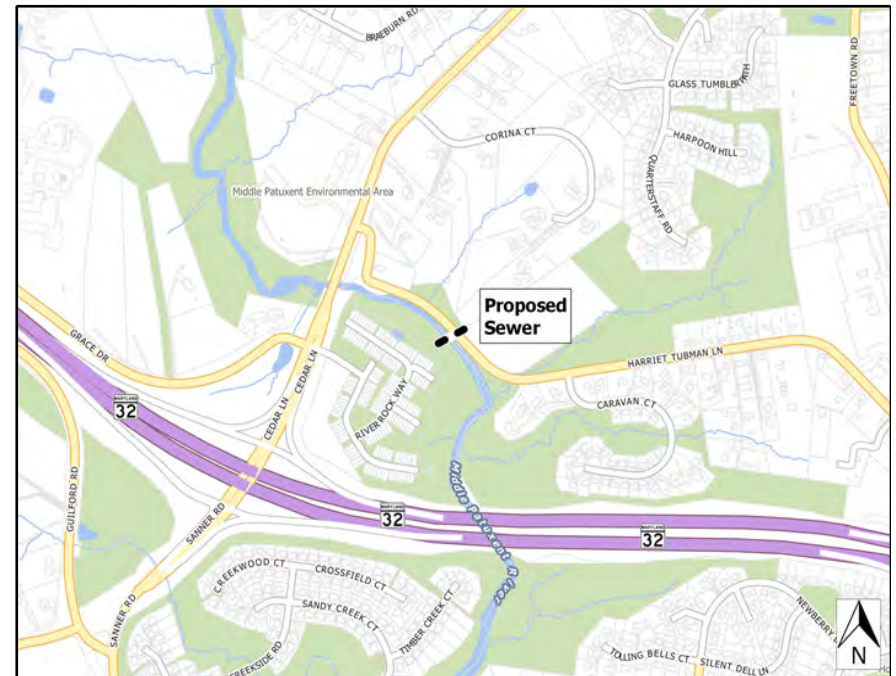

### Project Schedule

FY18 - Construction.

FY19 - Project complete, Close

### Operating Budget Impact

The annual cost of operation and maintenance of the sewer is \$320.

## Project: S6297-FY2016 OLD FREDERICK ROAD PUMPING STATION UPGRADE

Number: S6297

### Description

A project for the design and construction of upgrades to increase the pumping capacity of the Old Frederick Road Pumping Station. Work includes improvements to the station discharge force main and downstream interceptor sewer in conjunction with increasing the station capacity.

### Justification

The pumping station is currently operating at capacity. A desktop analysis performed under capital project S6275 has indicated the need to upgrade capacity of the Old Frederick Pumping Station to handle projected flow conditions. The pumps, motors, controls and associated piping will be upgraded.

### Remarks

### Project Schedule

FY18 - Study, design and land acquisition

FY19 - Construction

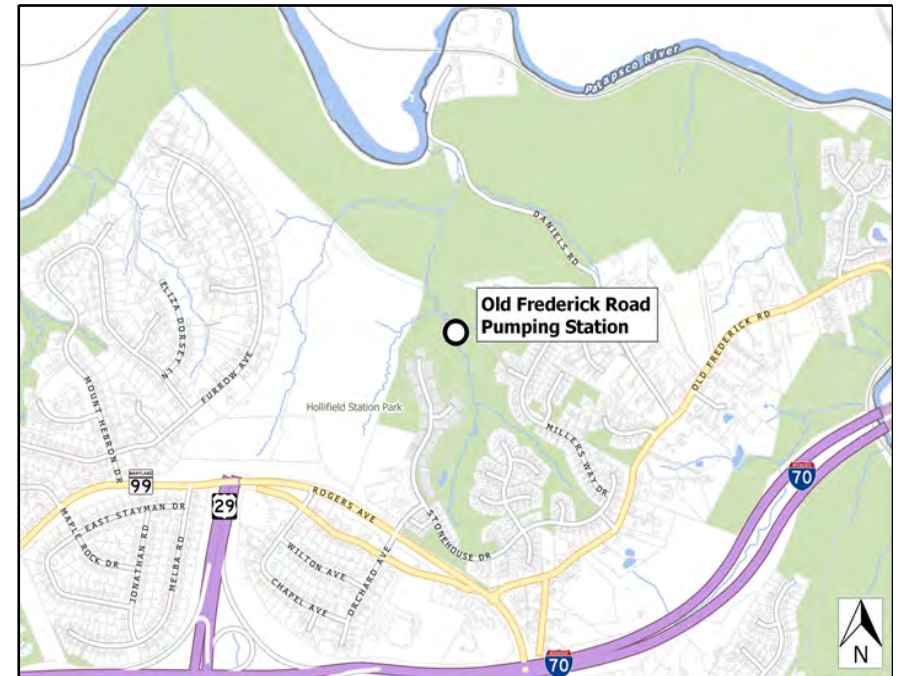

FY20 - Construction, Project complete

FY21 - Project close

### Operating Budget Impact

Annual Bond Redemption \$ \$82,413

The annual cost of operation and maintenance of the sewer pumping station is \$50,000.

## Project: S6298-FY2018 DORSEY RUN ROAD SEWER EXTENSION

# SEWER PROJECTS

Number: S6298

### Description

A project for the design and construction of 475 LF of 8-inch sewer main along Dorsey Run Road to serve one property with a failing septic system.

### Justification

The requesting property is currently served by a septic system that is failing. The business, Praxair, requested that the County extend sewer service to allow connection to the public system.

### Remarks

1. The project was brought before the Public Works Board on December 13, 2016.

### Project Schedule

FY18 - Design

FY19 - Construction; Project complete

FY20 - Project close

### Operating Budget Impact

Annual Bond Redemption \$ \$19,000

The annual cost of operation and maintenance of the sewer main is estimated at \$1,400.

## Project: S6500-FY2017 SEWER AREA ASSESSMENT AND MODELING

Number: S6500

### Description

A project [program] for the study and evaluation of sewer areas and/or water zones.

### Justification

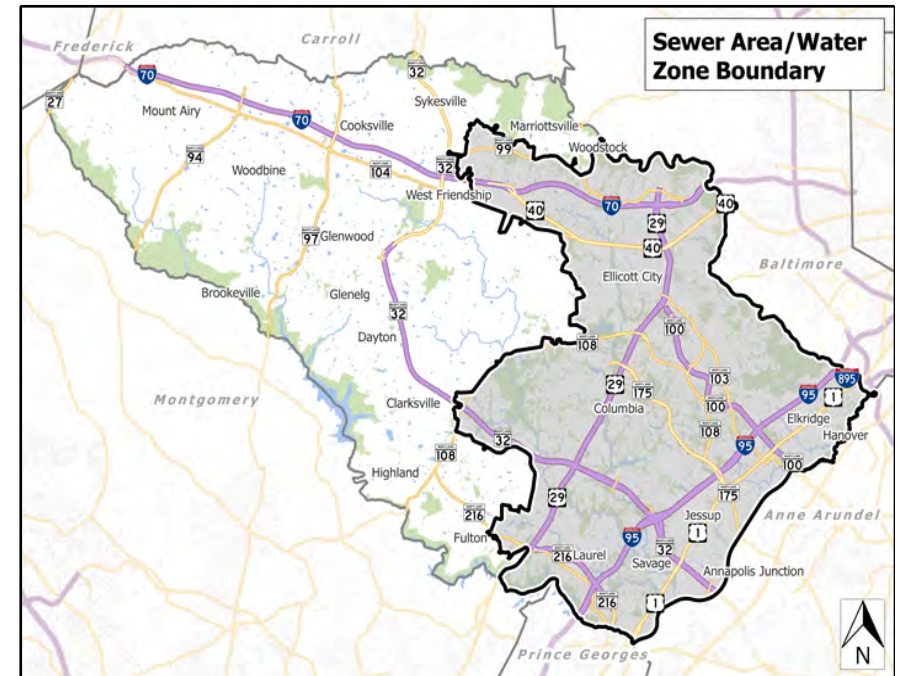

The project [program] was initiated by the Department of Public Works. This project [program] will be utilized to examine related needs within specific sewer areas or water zones when it is determined that a need exist to evaluate a sewer area or water zone due to emergency, future capital project(s), future development(s), etc.

### Remarks

1. The project [program] will be used to perform sewer system evaluation surveys (SSES) in areas of excessive infiltration and inflow.
2. Sewer and/or water modeling or other desktop analytical methods as well as minor field level evaluations will be performed.
3. The project was brought before the Public Works Board on December 8, 2015.
4. Request represents the advancement of funds in the capital program.

### Project Schedule

Ongoing program

## Project: S6698-ROUTINE SEWER EXTENSION PROGRAM

# SEWER PROJECTS

Number: S6698

### Description

A project to design and construct routine sewer main extensions in the Metropolitan District requested by landowners.

1. To serve parcels with existing dwellings and existing dwellings in recorded residential subdivisions where sewer mains have not been constructed.
2. To serve existing dwellings or businesses on failing private systems as identified by the County Health Department.
3. These routine extensions must also meet the following criteria:
  - a. A written request has been made by a property owner who is without a sewer main fronting their property.
  - b. Properties to be served must abut a County or State road.
  - c. The extension is less than 1,000 feet.
  - d. The extension is a gravity sewer main and continues a gravity sewer system currently in service within the sewer shed.
  - e. Acquisition of utility easements are not required.
  - f. Capacity is available per section 18.122B of the County Code.
  - g. The extension is supported by at least 50% of the abutting property owners.

### Justification

This project will provide service in a shorter time frame for small extensions.

### Remarks

1. See Capital Project W8698 for Routine Water Main Extension program.

### Project Schedule

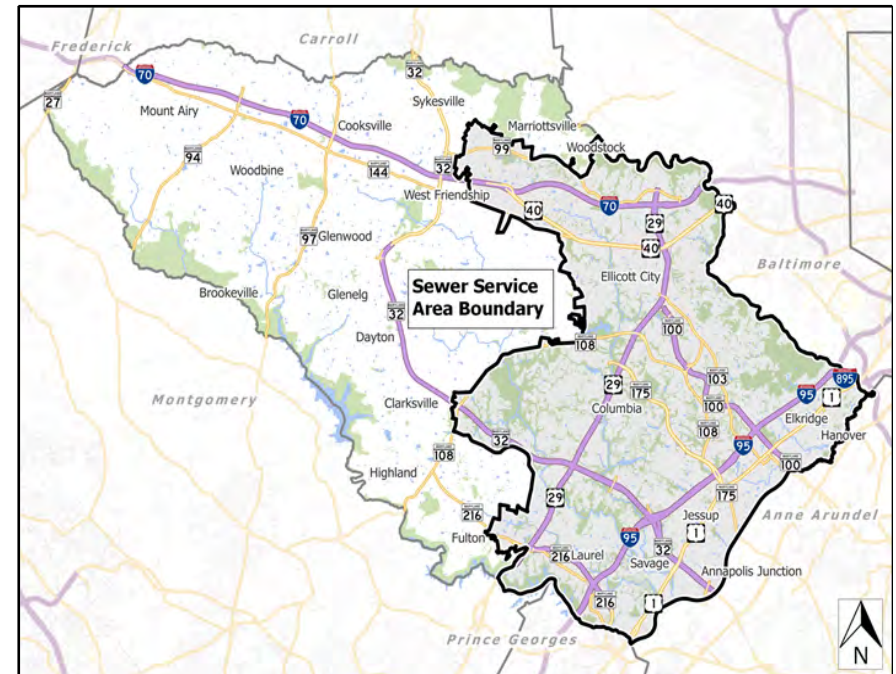

Ongoing program

FY18 - Cedar Lane Routine Sewer Extension

### Operating Budget Impact

Annual Bond Redemption \$ \$380,000

\$2.15 per foot per year represents the estimated cost of maintenance of the sewer man (small diameter), manholes and easements over the utility.

# Fiscal 2018 Capital Budget

## Project: S6699-ON SITE SEPTIC SYSTEM CONVERSION PROGRAM

# SEWER PROJECTS

Number: S6699

### Description

A project for the study, design and implementation of converting properties within the water and sewer Planned Service Area that are currently on private on-site septic systems to public sewer service.

### Justification

Properties within the planned service area on private septic systems often produce a greater nutrient loading on the environment than waste treated at the County's water reclamation facilities. By providing improved properties access to public sewerage facilities, the County will be able to lower the overall nutrient impact on the County's watersheds.

### Remarks

1. The project was brought before the Public Works Board on April 9, 2013.
2. The project will provide construction of the necessary infrastructure to allow properties to connect to the public sewer system.
3. Properties must be within the Planned Service Area and Metropolitan District prior to connection to the public sewer system.

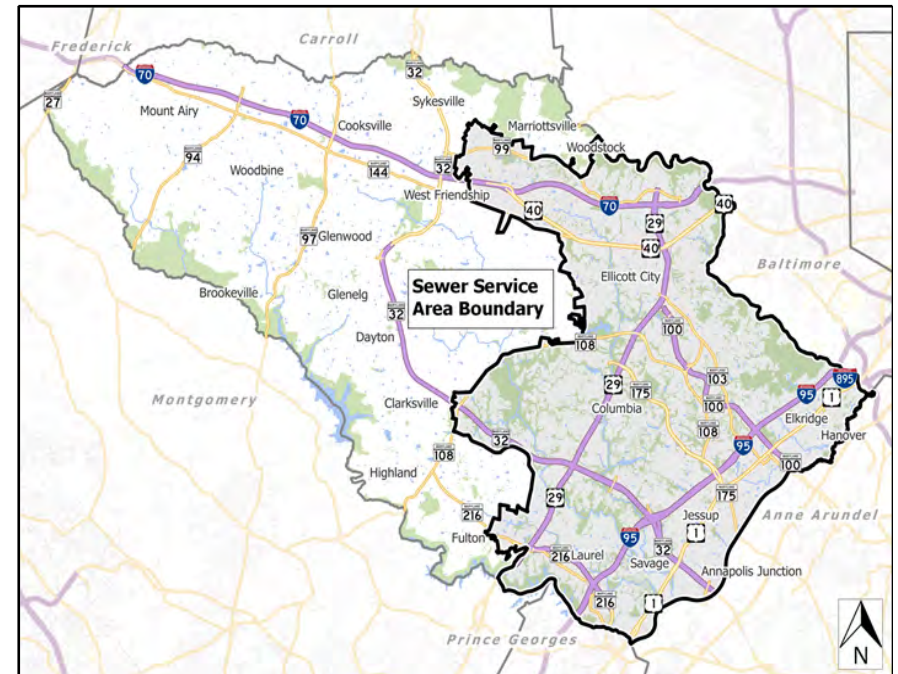

### Project Schedule

Ongoing program

### Operating Budget Impact

Annual Bond Redemption \$ \$712,500

The annual cost of operation and maintenance is \$10,000.

## Project: S6711-FY2011 DEVELOPER INSPECTION PROGRAM

# SEWER PROJECTS

Number: S6711

### Description

A project to provide engineering or administrative services, computer management, asset management, inspection, testing, staff training, supplies, tools, equipment and vehicles necessary for site inspections for the implementation of developer projects to make additions to the public water and sewer systems. All projects undertaken with this authority are primarily funded by private funds received from developers requesting such additions to the public system.

### Justification

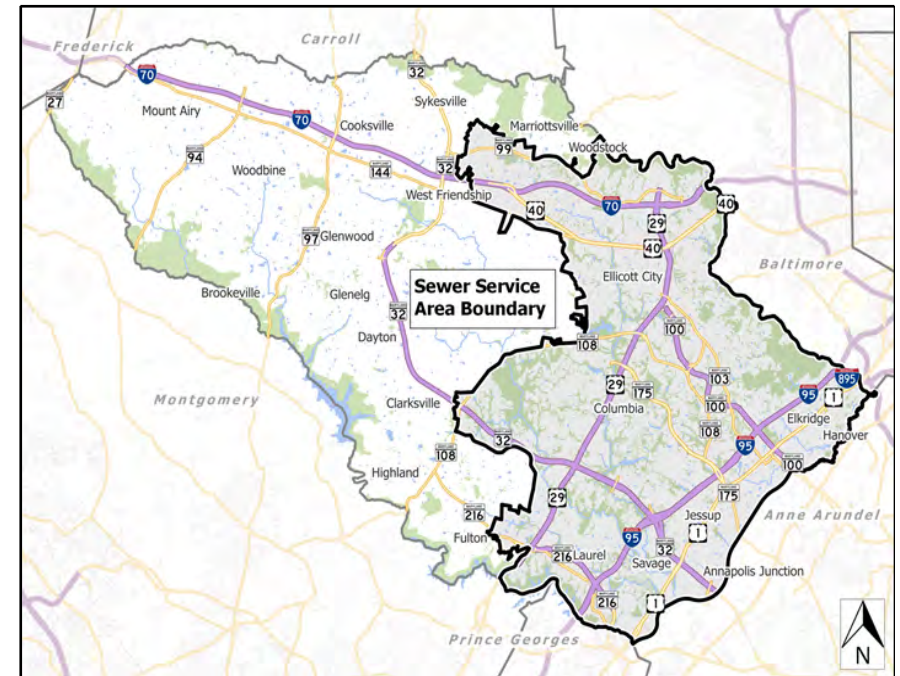

This project is necessary to provide an appropriation for engineering and inspection services. The services are necessary for determining the acceptability of developer work into the County system.

### Remarks

1. Utility cash is requested as an additional revenue source to meet project goals during current economic conditions.
2. OTHER represents Underground Utility Permit Fees.
3. Request represents additional funds required for inspection services.

# Fiscal 2018 Capital Budget

## Project: S6812-FY2012 ADV DEPOSIT LARGE HSE CONNECTIONS

# SEWER PROJECTS

Number: S6812

### Description

A project to provide for the construction and inspection services for sites that do not require formal developer agreements, but instead require Advanced Deposit Order (ADO) agreements for water services 8 inches and larger, short main extensions, or other appurtenances. Construction work limited to 200 feet (combined water/sewer). The following criteria must be met: 1. Extensions are necessary to provide frontage to existing lots or parcels within the Metropolitan District. 2. Developer is responsible for all engineering, plans, and construction stakeout. 3. Parcels or lots are not subdividable. 4. Acquisition of utility easements is not required. 5. Front foot benefit charge affects the ADO requester only.

### Justification

The Howard County Code Section 20.308 establishes the requirements to charge for connections, and the requirement to receive payment prior to making the connection.

### Remarks

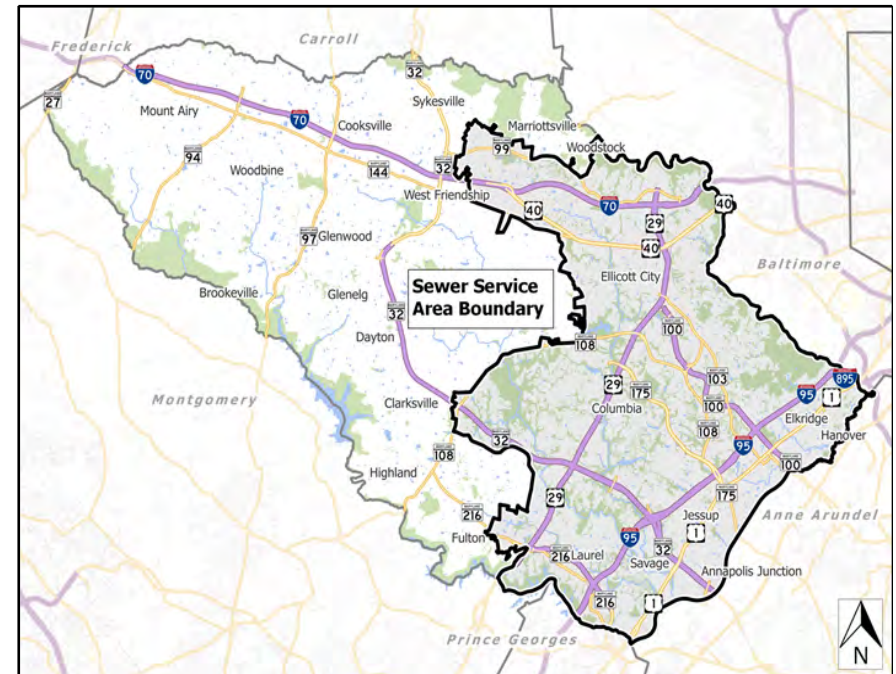

1. An ADO agreement provides for the contractual basis for the connection request. Each connection's cost is accounted for separately against this project.
2. After August 1, 2007, developers will hire Howard County licensed on-site utility contractors, at their cost, to perform the work. The County will continue to construct these connections only at the discretion of the Director of Public Works.

### Project Schedule

Ongoing program

### Operating Budget Impact

There is no Operating Budget impact associated with this project.

# Fiscal 2018 Capital Budget

## Project: S6862-FY2012 SEWER HOUSE CONNECTIONS

# SEWER PROJECTS

Number: S6862

### Description

A project to provide for the construction of sewer house connections by the Bureau of Utilities for 4 and 6 inch residential sewers. These connections are made when new connections are required for lots or homes where none exist. Connections installed by developer agreement, capital project, or by developer's utility contractor under County inspection (post August 1, 2007) are not included.

### Justification

The Howard County Code Section 20.308 establishes the requirements to charge for connections. This capital project allows for the installation costs to be capitalized and incorporated into the County's asset management system.

### Remarks

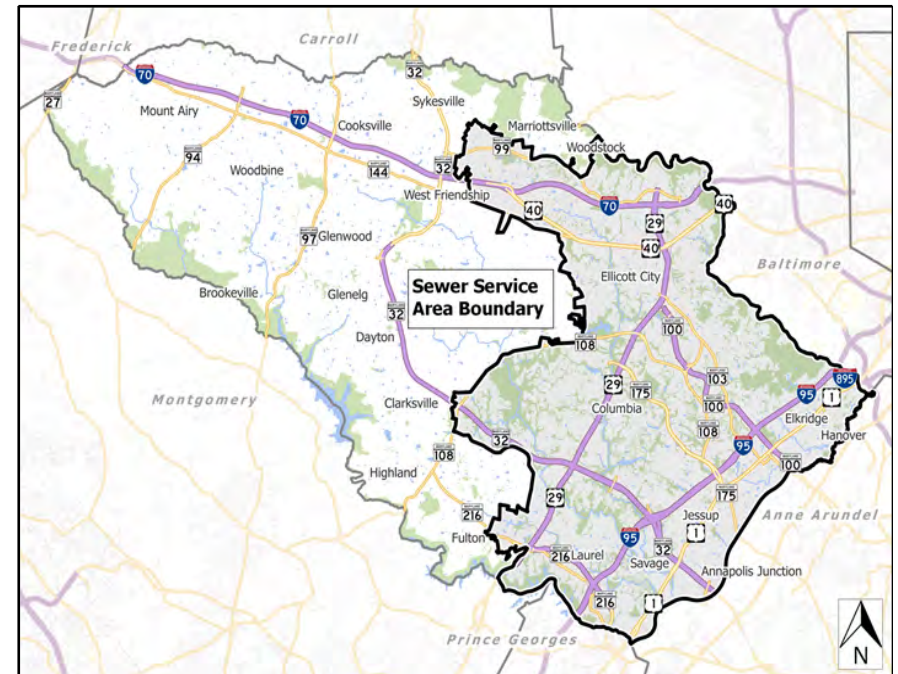

1. Sewer house connection charges are collected when the property owner submits an application to connect to the public system.
2. Funds collected from the connection charges are credited to this project when the connections are not existing.
3. House connections previously installed by the Bureau of Utilities are to be installed by the developer's utility contractor under County inspection (post Aug. 1, 2007). Bureau of Utilities will install connections only at the discretion of the Director of Public Works.

### Project Schedule

1. FY18 - Construction.
2. Project to remain as an ongoing program

### Operating Budget Impact

There is no Operating Budget impact for this project.

# SEWER PROJECTS

## Project: S6950-DEVELOPER CONSTRUCTED HOUSE CONNECTIONS

Number: S6950

### Description

A program for the reimbursement to developers for construction of water and sewer house connections to existing lots outside of their subdivision.

### Justification

A developer may be asked to provide water and/or sewer house connections to existing lots which are not part of the developer's subdivision. This capital project will allow reimbursement to developers for installation of water and sewer house connections outside of their subdivision.

### Remarks

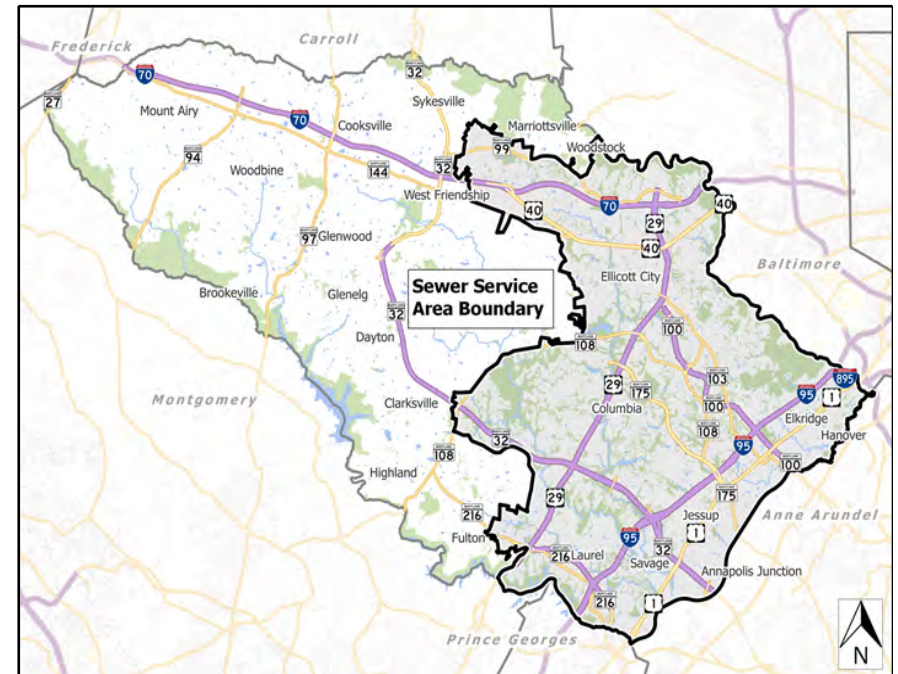

The installation of water and/or sewer house connections during construction of the mains is more cost effective and will prevent future traffic disruption, excavation and road repair required if these connections were constructed at a later date.

### Project Schedule

Ongoing program

### Operating Budget Impact

No impact on Operating Budget

# Fiscal 2018 Capital Budget

# SEWER PROJECTS

## Project: S6960-FY2015 DEVELOPER CONSTRUCTED MAJOR FACILITIES

Number: S6960

### Description

A project to reimburse developers for construction of major water and sewer facilities as shown on the approved Howard County Master Plan for Water and Sewerage.

### Justification

The Howard County Master Plan for Water and Sewerage allows for the systematic extension of the public water and sewer system to serve those properties within the water and sewer Planned Service Area and Metropolitan District. Existing and proposed major facilities such as transmission mains, pumping stations, elevated water storage facilities, major collector sewers and interceptor sewers are shown and noted in the master plan. Major facilities are intended to serve as the backbone of the public water and sewer system and to allow for the systematic extension of public water and sewer services. The construction of major facilities is normally undertaken by the County through capital projects. When a developer or land owner wishes to advance construction of a major facility that is required to serve an area of the County, the County will consider reimbursing the developer for the cost of construction of the major facility through this capital project.

### Remarks

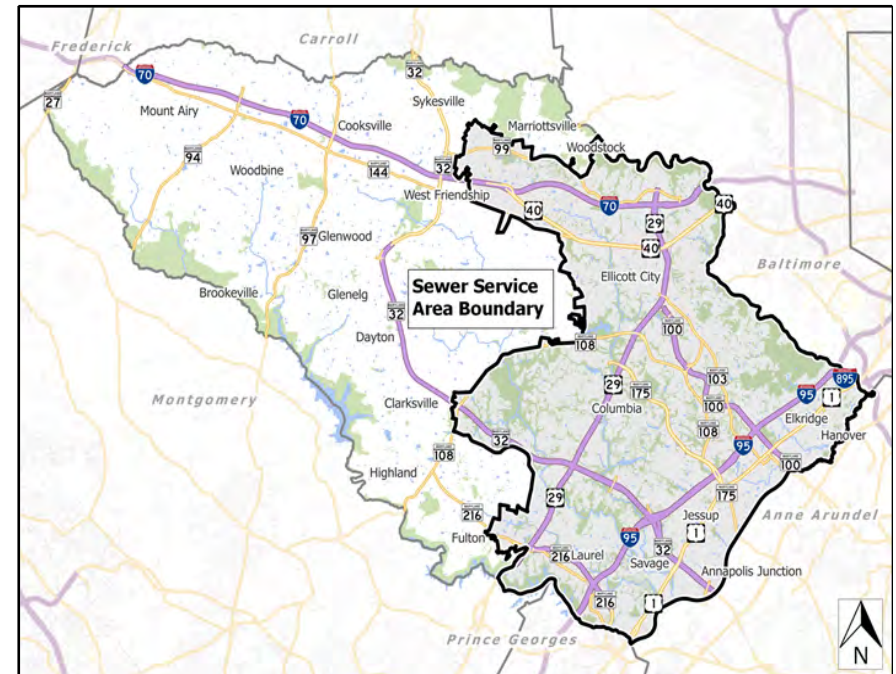

1. Reimbursements through this capital project will require the execution of a major facilities agreement between the developer and the County.
2. Reimbursement will include only the actual construction cost of the major facility.

### Project Schedule

Ongoing program

### Operating Budget Impact

No impact on Operating Budget

## Project: T7087-FY1999 STREET LIGHT SETBACK SAFETY PROGRAM

Number: T7087

### Description

A program to provide safety improvements along arterial roadways in Columbia by setting back and upgrading all existing street lights.

### Justification

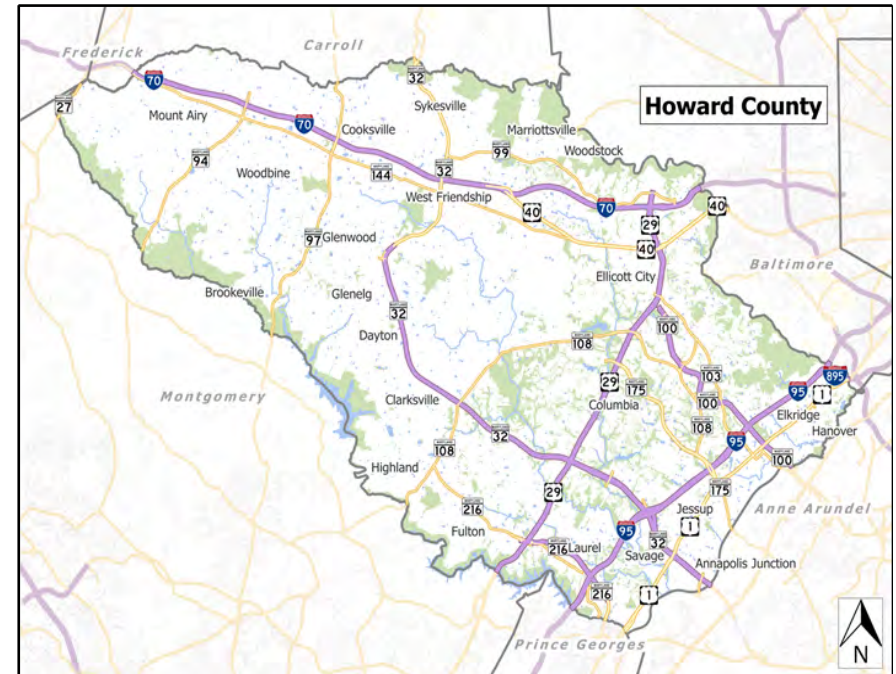

Most of the existing street light poles along arterial roadways in Columbia are located less than 2 feet behind the face of curb. There have been numerous accidents involving single vehicles running off the roadway and striking a street light pole. This project will relocate street light poles a minimum of 4 feet behind the face of curb and in some cases behind the sidewalk. In addition, each pole and arm will be upgraded to a 30 foot fiberglass pole with a 12 foot arm (existing poles use a 6 foot arm). The longer arm allows the pole to be set back and not reduce the existing level of illumination and in most cases the level and quality of illumination will be improved. This project will also address the number of damaged or peeling fixtures/poles as required.

### Remarks

Request represents installing new poles and LED fixtures along Governor Warfield Pkwy (from Windstream Dr to the Little Patuxent Pkwy/Banneker Rd intersection).

### Project Schedule

# Fiscal 2018 Capital Budget

## Project: T7089-FY2005 RESIDENTIAL TRAFFIC CALMING

# TRAFFIC IMPROVEMENTS

Number: T7089

### Description

A project to construct geometric roadway changes to reduce traffic speeding in residential areas.

### Justification

Speeding on residential local and collector roadways has generated many requests to slow traffic by geometric changes as police enforcement is only partly effective.

### Remarks

1. The installation of traffic calming devices must meet the warrants.
2. Community concurrence shall be achieved on qualified roads per County policy prior to construction or installing calming or geometric changes.
3. Speed tables and other calming devices may require community cost share.
4. Replacement/repairs of existing speed humps.
5. OTHER revenues represent Automated speed enforcement (ASE).

### Project Schedule

Program

### Operating Budget Impact

Annual Bond Redemption \$ \$11,250

# Fiscal 2018 Capital Budget

## Project: T7094-FY2007 STREET LIGHTING PROGRAM

# TRAFFIC IMPROVEMENTS

Number: T7094

### Description

This project is for the installation of new street lights in existing communities and commercial/industrial areas, and the conversion of existing street lights to high pressure sodium vapor (HPS) and/or LED fixtures.

### Justification

New street lights will be provided at warranted locations based on existing guidelines and the need to increase safety along County roads. Additional targeted locations will include major intersections along minor arterial, major collector and minor collector roadways that have inadequate levels of street lighting. Conversion of existing street lights to high pressure sodium vapor (HPS) or LED fixtures provides improved lighting with less energy consumption.

### Remarks

1. Request represents installation of warranted new street lights, conversion of existing mercury vapor fixtures to LED fixtures and to supplement developer funds for new lights in new developments for the added cost of LED fixtures.
2. OTHER represents community contributions and developer/contractor payments for pole relocations.

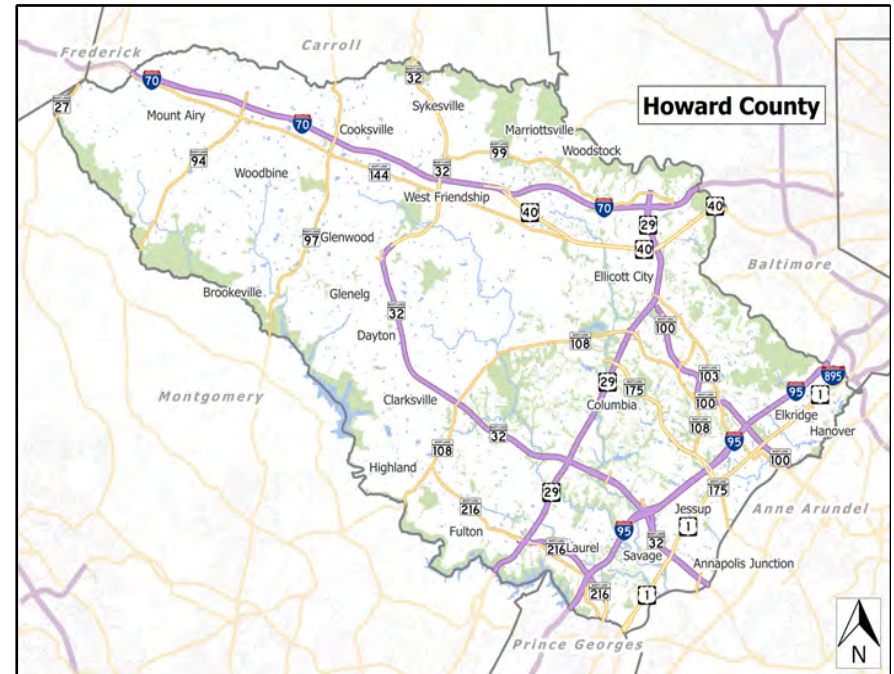

### Project Schedule

PROGRAM

### Operating Budget Impact

Annual Bond Redemption \$ \$38,925

The Bond funding listed for this project includes both long term bond funding and the use of the master lease program as appropriate.

# Fiscal 2018 Capital Budget

## Project: T7101-FY2008 STATE/COUNTY SHARED INTERSECTIONS

# TRAFFIC IMPROVEMENTS

Number: T7101

### Description

A project for the design, review and construction funding of geometric and traffic control modifications at various intersections of State and / or County roads. Project may include flattening of curves, adjusting utilities, road reconstruction/repair, adding auxiliary lanes and roundabouts.

### Justification

This project will be used to share funding on the State or County improvements that will provide increased capacity and/or increased safety, or improved roadway conditions. This project may be used as a funding source for public improvements constructed by others under an agreement approved by the County Council.

### Remarks

1. The program of improvements will be developed jointly by State and County personnel.
2. Funding represents County share of improvement costs.
3. This project may be used as a funding source for public improvements constructed by others under an agreement approved by the County Council.
4. Any evaluation undertaken for purposes of this paragraph shall include the Route 108 corridor between Route 32 and Linden Linthicum Lane. TAO 2011-1 transferred appropriation of \$600,000 into FY2012 prior appropriation.

### Project Schedule

## Project: T7102-FY2008 STREET SIGN PROGRAM

# TRAFFIC IMPROVEMENTS

Number: T7102

### Description

A project to provide street sign services and related line striping that are included in the implementation of developer projects that expand the County road network of public roads and upgrade signing and striping projects along existing County roads. Developer projects undertaken with this appropriation authority will be fully funded by private funds received from developers who create new roads to serve their subdivisions.

### Justification

This project is necessary to provide an appropriation for materials, manufacturing, installation of street signs, and related striping for all new public roads. The County has assumed this responsibility to ensure that there are uniform standards of signage and materials employed throughout the County for ease of utilization and maintenance.

### Remarks

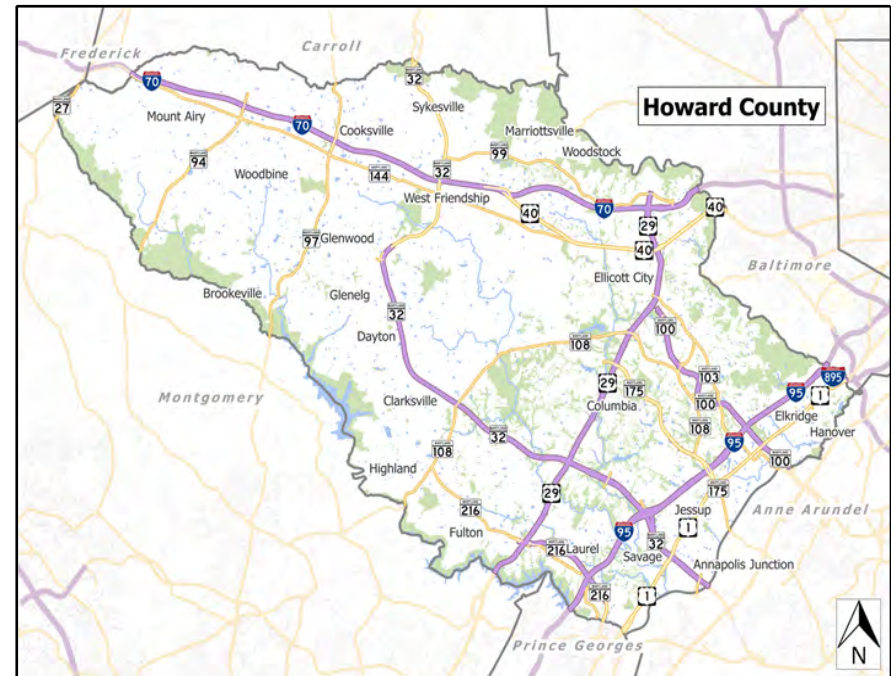

Request represents up to an estimated 250 signs per year.

### Project Schedule

PROGRAM

### Operating Budget Impact

Annual Bond Redemption \$ \$10,800

# Fiscal 2018 Capital Budget

## Project: T7103-FY2009 STATE/COUNTY SHARED TRAFFIC CONTROL

# TRAFFIC IMPROVEMENTS

Number: T7103

### Description

A project for design, review and construction funding of traffic control at various intersections of State and County roads.

### Operating Budget Impact

Annual Bond Redemption \$ \$42,750

### Justification

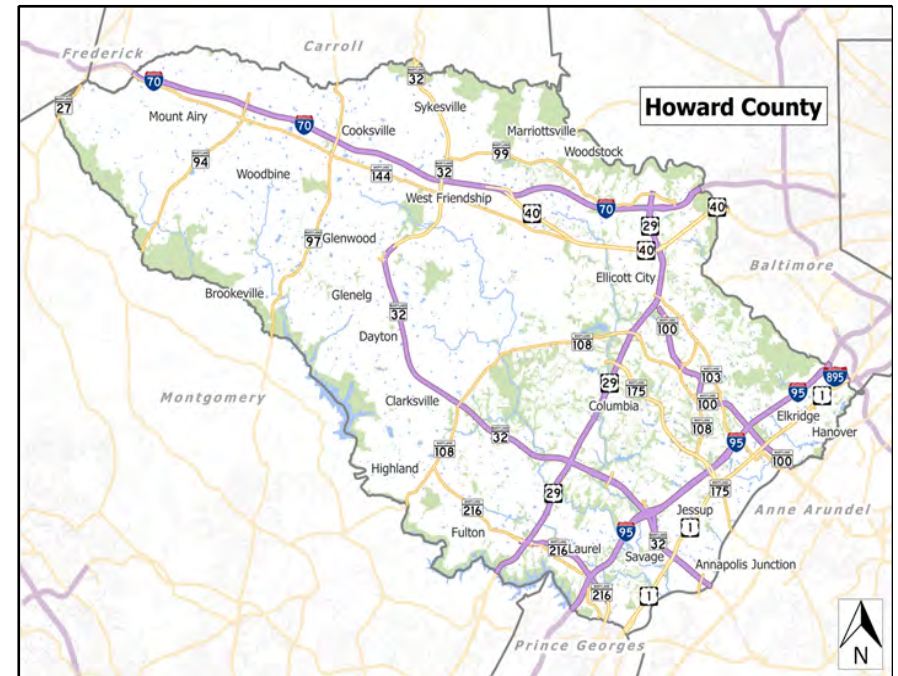

When State Highway Administration has analyzed the traffic volumes and determined that the signal warrants have been met, the County is responsible for its net share of the State expense based on the number of legs of the intersection under its ownership. Therefore, this project acts as a funding source when a critical intersection is at issue for signalization or other types of traffic control such as a roundabout, or the addition of geometric improvement to an existing signalized intersection, and/or the replacement of vehicle detection on County approaches resulting from a County project.

### Remarks

1. Design and construction will be by the State Highway Administration.
2. Cost of each new signal: \$50,000 per approach.
3. Project includes cost share for LED conversion on state maintained signals.

# Fiscal 2018 Capital Budget

## Project: T7104-FY2009 DEVELOPER/COUNTY SIGNALS

# TRAFFIC IMPROVEMENTS

Number: T7104

### Description

A project to facilitate the design, construction, and modification of traffic signals and appurtenances at various new development locations where warranted. New or modified traffic signals are considered where land development increases traffic to levels where design warrants are met, in accordance with the Manual on Uniform Traffic Control Devices (MUTCD).

### Justification

1. This project will provide a funding source to accumulate developer contributions to traffic signal capital construction and have a project in place to expedite the construction of signals when the warrants are met.
2. This project will be used to implement the Adequate Public Facilities Ordinance (APFO) based on need and traffic studies. It will also be used as a conduit for mitigation under APFO.
3. This project will fund the County's portion of cost share agreements.

### Remarks

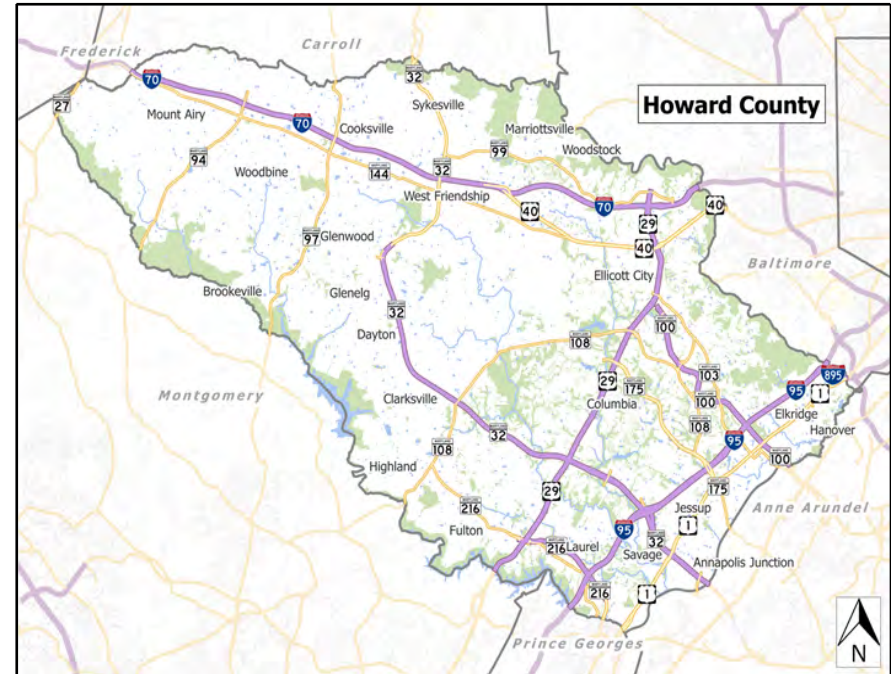

1. The capital cost of design, construction and modification of traffic signals required for a development shall be paid for by the proposed development.
2. Project will allow the County to complement developer construction with minor needed ancillary improvements such as additional detection and minor curb modification.
3. This project may be used as a funding source for public improvements constructed by others under an agreement approved by the County Council.

### Project Schedule

# Fiscal 2018 Capital Budget

# TRAFFIC IMPROVEMENTS

## Project: T7107-FY2014 DOWNTOWN COLUMBIA PATUXENT BRANCH TRAIL EXTENSION

Number: T7107

### Description

A project connecting Downtown Columbia at Lake Kittamaquindi and extending to the existing Patuxent Branch Trail. This project would provide a car-free connection from Downtown Columbia to Savage; including the existing portion of the trail, and will connect to the planned east-west Hospital to Blandair Park multi-use pathway.

### Justification

To complete the missing link in the off-road pathway between the existing Patuxent Branch Trail and the planned Downtown Columbia multi-use pathway. The project study considered multiple alignments between Columbia and the existing Patuxent Branch Trail.

### Remarks

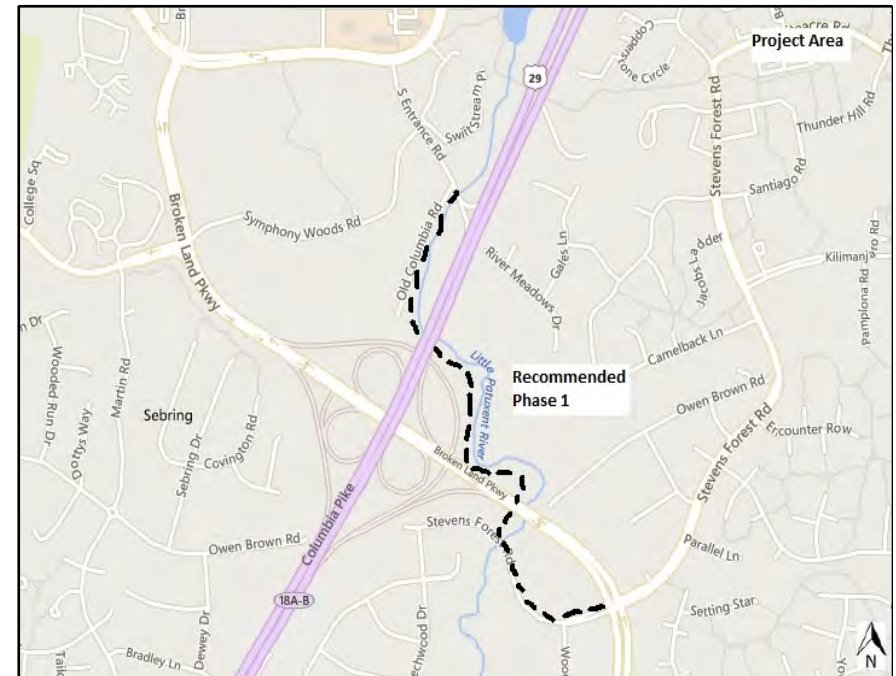

1. Project addresses the need for a major off-road pathway connection.
2. Grant funding from the state of MD was approved September 2014. Project has been approved for preliminary plans and engineering for Phase 1. Additional grant funding will be sought for construction.
3. Project will be done in partnership with the Columbia Association (CA).
4. DEVELOPER CONTRIBUTION represents funding from CA.
5. The feasibility study is complete and recommended the project to be completed in two phases. Phase 1 is for alignment from Columbia Town Center to Stevens Forest Road only. Phase 1 offers a flat off road alternative connection to cross under US29 and Broken Land Parkway.

### Project Schedule

- FY17 - Completion of 30% Phase 1 design.
- FY18 - 100% of Phase 1 design completion and permitting application.
- FY 19 - Construction of Phase 1.

### Operating Budget Impact

Annual Bond Redemption \$ \$143,325

# Fiscal 2018 Capital Budget

# TRAFFIC IMPROVEMENTS

## Project: T7108-FY2016 CLARKSVILLE-RIVER HILL STREETScape IMPROVEMENTS

Number: T7108

### Description

A project to plan, design and construct road and related improvements -- including streetscape, storm water management, pedestrian, bicycle, and public space enhancements -- in the Route 108 corridor.

### Justification

PlanHoward 2030 calls for the enhancement of established communities through strategic public infrastructure investments (Policy 10.1). Projects will improve the transportation system, increase safety, accessibility and mobility, improve treatment of storm water runoff and will implement the community-based vision for street, pedestrian and bike circulation and public open space design.

### Remarks

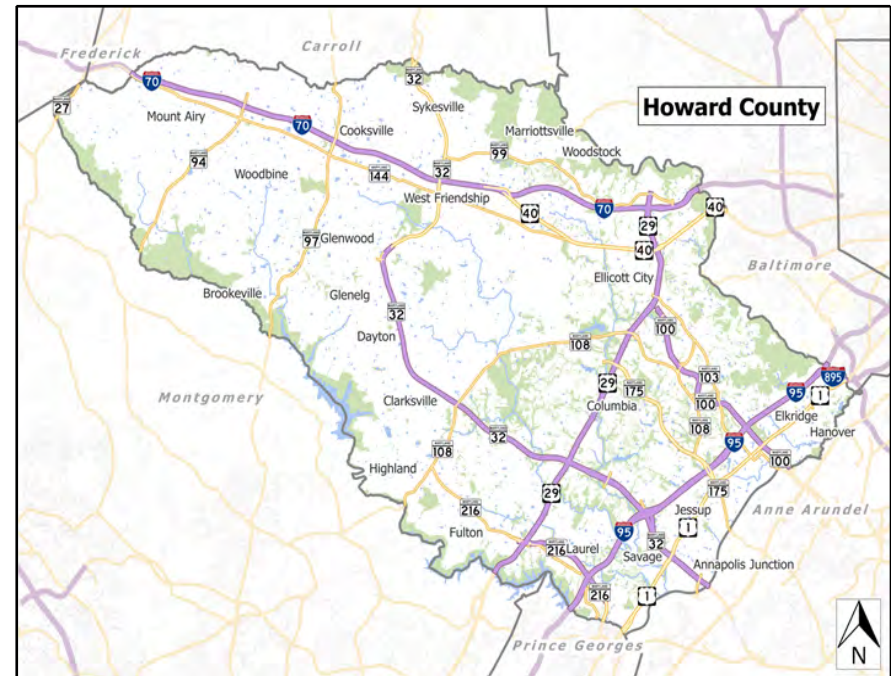

1. The County is working with the community to implement road related improvements and design guidelines that address the public right-of-way along Route 108 and adjacent private property.
2. Public easements on private property will be needed to advance certain improvements.

### Project Schedule

- FY17 - Community design guidelines and permit approval.
- FY18 - Short term improvement design and land acquisition.
- FY19/FY20 - Short term improvement Project construction.

### Operating Budget Impact

Annual Bond Redemption \$ \$189,000

## Project: T7109 FY2016-DEVELOPER STREETLIGHT PROGRAM

# TRAFFIC IMPROVEMENTS

Number: T7109

### Description

A project to facilitate the design, installation and modification of street lights in new developments. New street lights are planned for most new residential developments and many site development plans based on DPZ and DPW guidelines.

### Justification

This project will provide a funding source to accumulate developer street light funds collected as part of the developer agreement process and to pay BGE for the installation of the street lights when the development is constructed.

### Remarks

1. The capital cost of the construction and installation of the street lights for each development will be paid for by the funds collected for that development when the developer agreement was signed.
2. OTHER represents the existing developer street light funds that are being transferred from the developer street light balance sheet account to this project.
3. Request represents funding to allow the County to make minor improvements/upgrades to the developer street light plan.

# Fiscal 2018 Capital Budget

## Project: W8206-FY1995 METALLIC PIPELINE CORROSION STUDIES

# WATER PROJECTS

Number: W8206

### Description

A project to fund the study, maintenance, and remediation of corrosion related failures at various locations throughout the County. Work will include testing soil for chlorides, sulfides, acidity, redox potential, soil voltage potential and electrical resistivity. The project also includes funding to install sacrificial anodes, monitor existing test stations, test coating thicknesses, maintain the computer corrosion database, purchase corrosion investigation equipment and replacement of water and sewer mains damaged as a result of corrosion. The project will also provide review and analysis of Developer generated corrosion reports.

### Justification

Corrosion problems usually develop long after the capital project has been financially closed out. As problems arise and corrosion is suspected, corrosion testing and mitigation will be performed to extend the service life of the facility. This project will also support the County's Corrosion Control Program and monitoring of existing test stations.

### Remarks

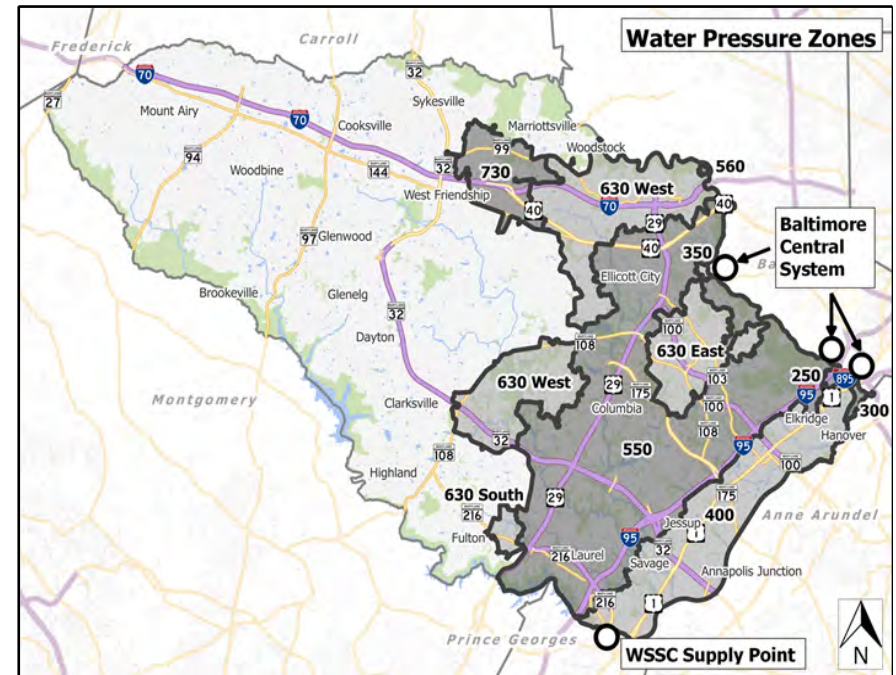

1. Project is an ongoing program to investigate water main failures due to corrosion.
2. The project will reduce main failures and thereby reduce operating cost.
3. A "Hot Spot" protection program will be initiated under this Capital Project.
4. Set up and maintain the GIS corrosion database.
5. Request represents the advancement of funds in the Capital Project.

### Project Schedule

Ongoing program

### Operating Budget Impact

The project will reduce operating costs.

## Project: W8218-WATER CONTINGENCY FUND

# WATER PROJECTS

Number: W8218

### Description

The fund is designed for use as a revenue source for the transfer of appropriations when either the construction costs are higher than originally estimated or engineering costs must be advanced from future years to the present fiscal year for critical water needs.

### Justification

This fund will allow for the timely completion of approved projects by contingency funding as required and rapid response to critical situations.

### Remarks

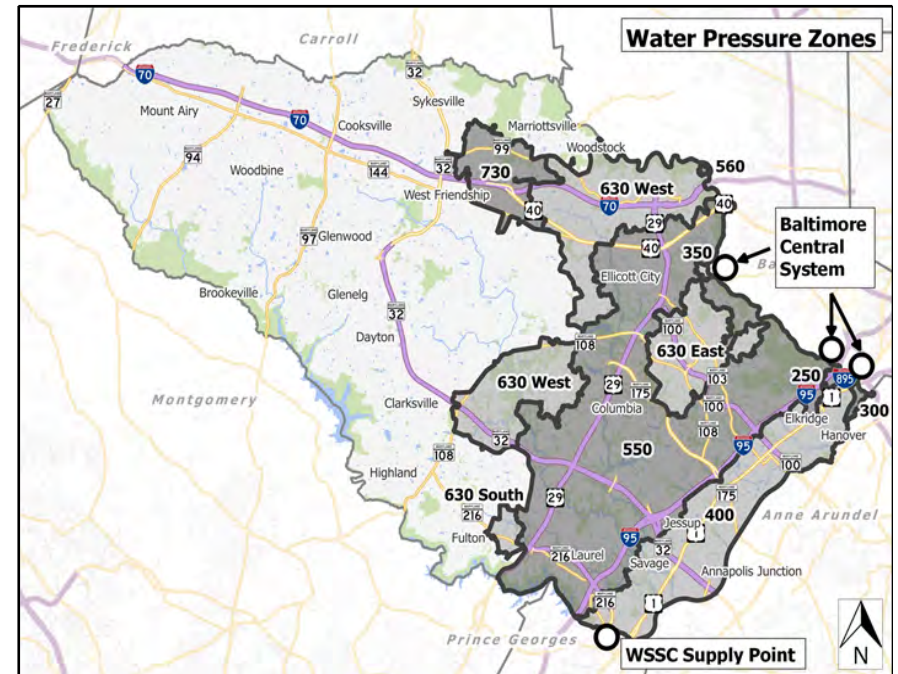

### Project Schedule

Ongoing program

### Operating Budget Impact

Annual Bond Redemption \$ \$14,250

None

## Project: W8220-FY1998 SHARED WATER FACILITY IMPROVEMENTS

Number: W8220

### Description

A project for the planning, design and construction of major water facilities, mains, pumping stations, reservoirs and treatment plants in the Baltimore City Central Water System. The improvements are required in order to insure reliability and dependability of the water supply to Howard County.

### Justification

The project is a joint effort between Baltimore City, Baltimore County, Anne Arundel County and Howard County. The effort is necessary in order to meet the goals of the Howard County Master Plan for Water and Sewerage.

### Remarks

1. Construction funding will be determined based on cost ratios from the planning estimates received from the various jurisdictions.
2. This project is a continuation of Capital Project W8082.

### Project Schedule

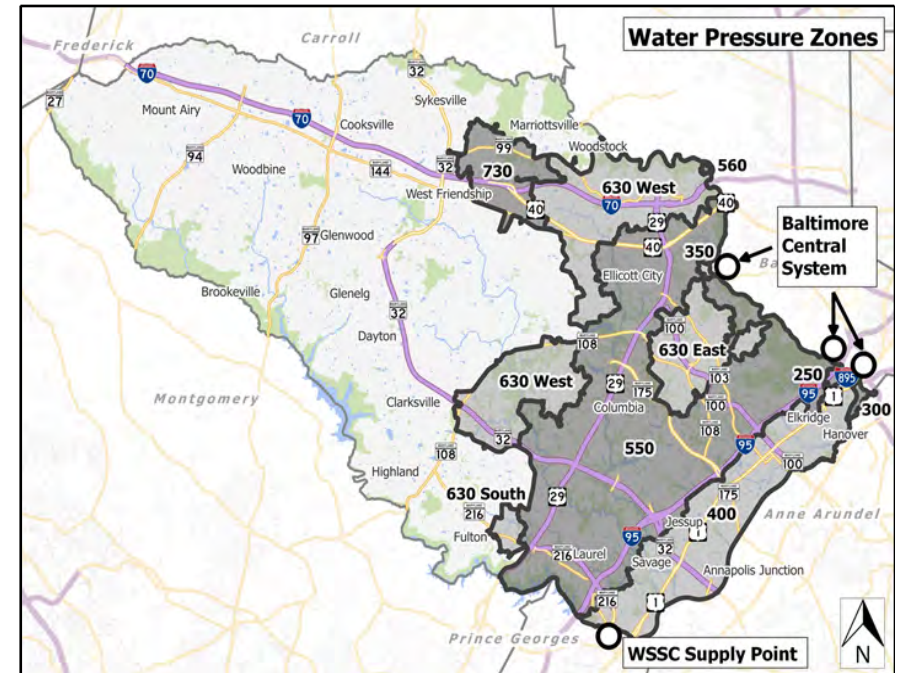

Ongoing program

FY18 - 1. Fullerton Reservoir; 2. Fullerton Pumping Station Second Zone Modifications; 3. Fullerton Filtration Plant; 4. Guilford Reservoir; 5. Druid Reservoir; 6. Ashburton Reservoir

### Operating Budget Impact

Annual Bond Redemption \$ \$1,230,250

No impact on the Howard County operating budget. Construction is outside of Howard County. Reimbursement of operating cost will be made to Baltimore City through the Baltimore City water user rate charges.

# Fiscal 2018 Capital Budget

## Project: W8245-FY2003 RIGHT of WAY RESTORATION PROGRAM

# WATER PROJECTS

Number: W8245

### Description

State and County roads, sidewalks and curbs that are damaged, primarily by water main breaks, require permanent restoration. This effort will provide the capability to repair these facilities to their original condition.

### Justification

This project will restore road surfaces, sidewalks and curbs to State/County specifications.

### Remarks

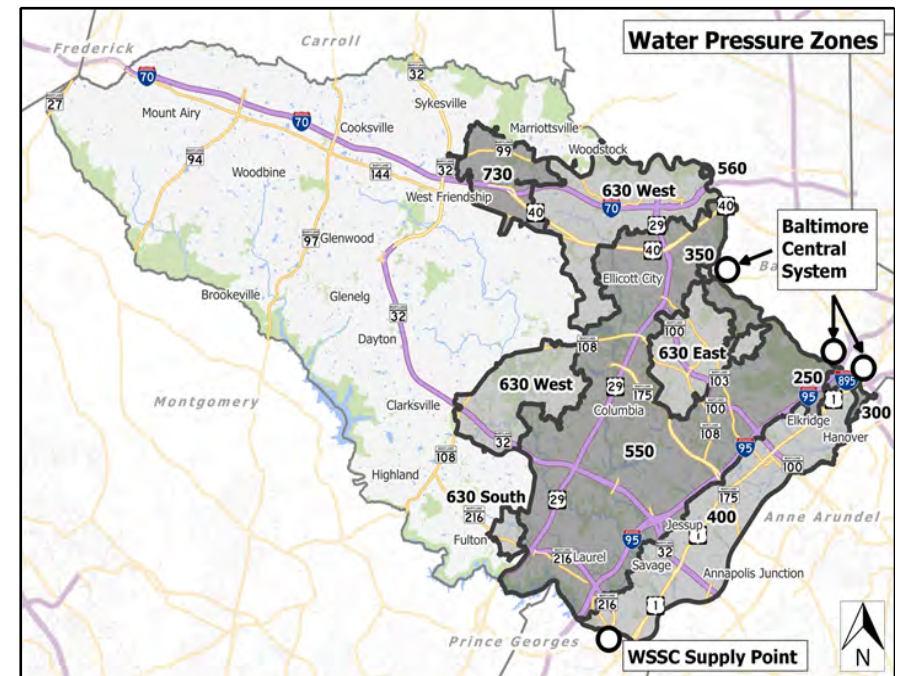

1. Project is replacement of Capital Project W-8183 first funded in FY92.
2. Contract services will be utilized to complete these efforts estimated at 100 incidents per year.
3. It is difficult to have crews performing the concrete, curb, sidewalk and driveway apron restoration work so those jobs were added to the contract.
4. FY18 - A funding increase is being requested. The number of watermain breaks have increased as a result of aging infrastructure in the County.

### Project Schedule

FY18 - Ongoing program.

### Operating Budget Impact

None

## Project: W8262-FY2004 GUILFORD ELEVATED WATER TANK

# WATER PROJECTS

Number: W8262

### Description

A project for the design and construction of a 2.5 million gallon elevated water storage tank and related piping to serve the elevation 400 water service zone.

### Justification

The project was initiated by the Department of Public Works in response to the needs of the County's approved Master Plan for Water and Sewerage. The elevated water tank is required in order to stabilize the pressures in the 400 water zone and meet the future water needs of the area.

### Remarks

The project was brought before the Public Works Board on December 10, 2002.

### Project Schedule

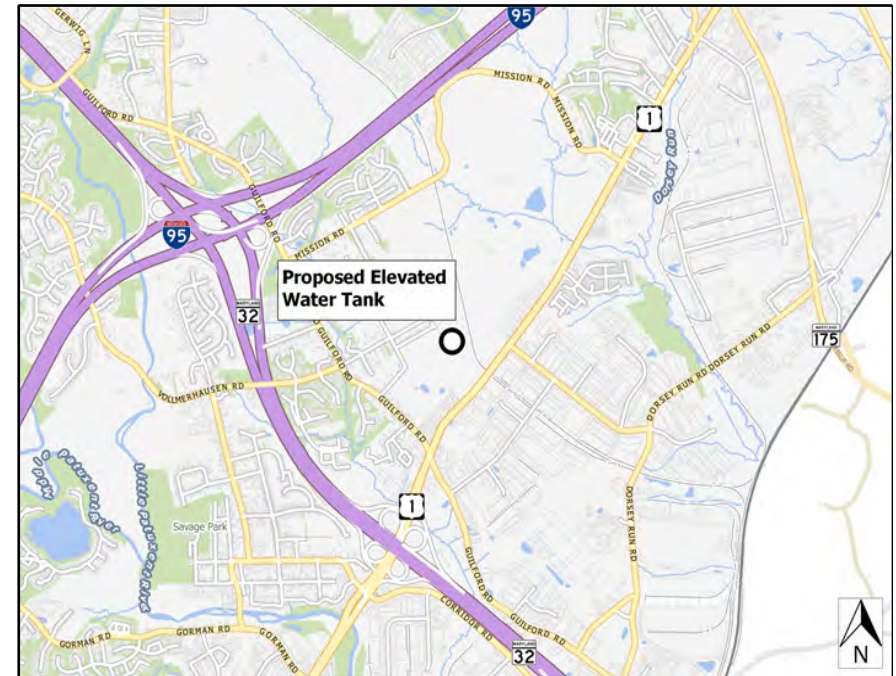

FY18 - Land Acquisition, Design

FY19 - Construction

FY20 - Construction, Complete and close project

### Operating Budget Impact

\$50,000 per year represents the cost of operation and maintenance of the tank.

# Fiscal 2018 Capital Budget

# WATER PROJECTS

Project: W8265-FY2005 US 29 WATER MAIN/RIVERS MEADOWS DR to BROKEN LAND PKWY

Number: W8265

## Description

A project for the rehabilitation of the water transmission main located in the vicinity of Broken Land Parkway and US29. Phase 1 - Design and construction of 2,400 LF of 36 Inch diameter water main to parallel the existing water transmission main. Phase 2 - Design and replacement of 1,000 LF of 30 Inch Diameter water transmission main.

## Justification

The 30 inch diameter transmission main is the major water supply serving this area of Howard County. A acoustic monitoring of the transmission main revealed premature failures of the prestressing wires in the reinforced concrete cylinder pipe. The failures are attributed to stray electrical currents in the area. The capital project will replace the affected portions of the pipeline and provide protective measures against future failures. The parallel main is needed to meet the increased demands as outlined in the Master Plan.

## Remarks

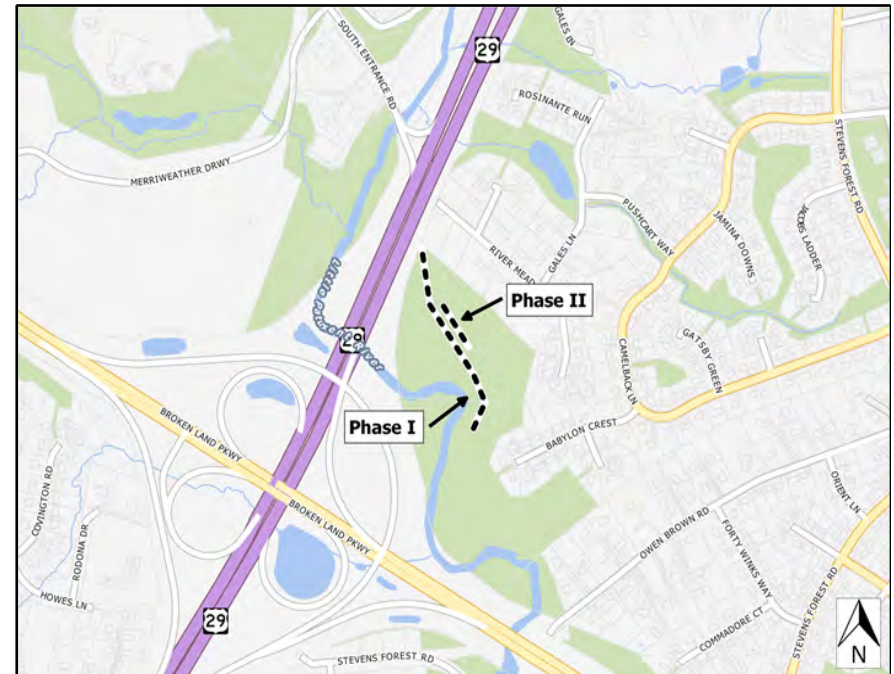

1. The project was brought before the Public Works Board on December 9, 2003.
2. Title changed FY2018 to clarify project location. Previous Title: US29 WATER MAIN/BROKEN LAND PARKWAY 30inch WATER.

## Project Schedule

- FY18 - Construction, Project Complete
- FY19 - Close

## Operating Budget Impact

\$3,500 per annum represents the cost of operation and maintenance of the proposed parallel water main.

# Fiscal 2018 Capital Budget

## Project: W8267-FY2005 WATER VALVE MANAGEMENT SYSTEM

# WATER PROJECTS

Number: W8267

### Description

The purpose of this project is to exercise and maintain all County owned valves within the water distribution system. That initial phase has been completed. There is an ongoing need to keep a routine valve inspection program.

### Justification

Water valves routinely get covered over during paving by property owners or developers. New development can change grades, covering valves and removing tie landmarks. Roadway boxes will fill with debris, and covers can be damaged by traffic, particularly snowplows. For all these reasons, there is a need to operate a program to routinely look at all water system valves. At this point, it is more cost effective to handle this work with contract services as opposed to hiring additional Howard County employees. Valves need to be operational in order to properly operate the water distribution system.

### Remarks

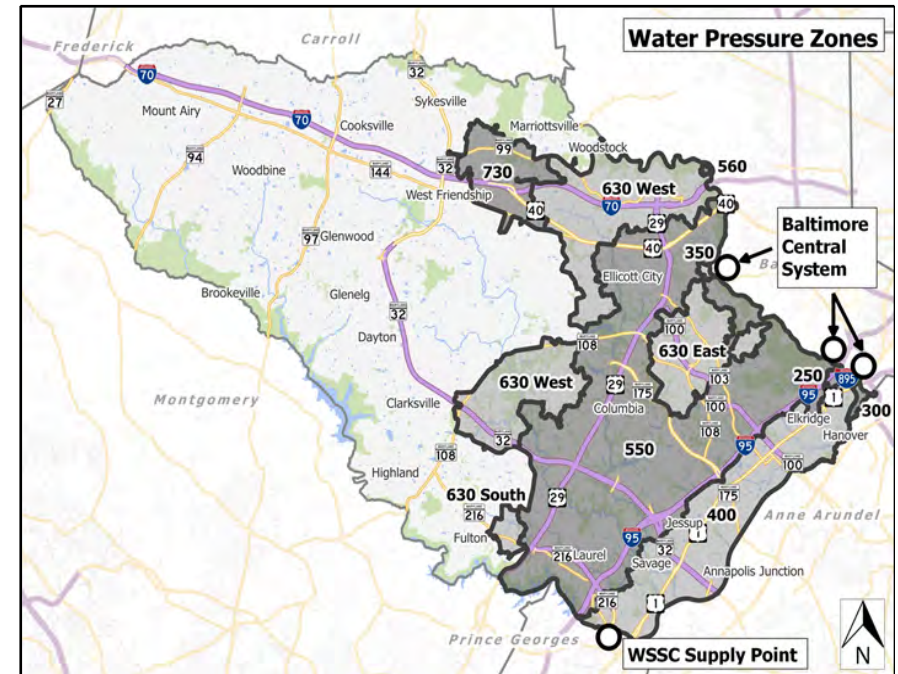

1. The valve inspections would start with the largest valves, i.e. 12-inch through 48-inch, on a biannual basis.
2. There are approximately 16,000 valves.

### Project Schedule

FY18 - Ongoing program

### Operating Budget Impact

No impact on the operating budget.

# WATER PROJECTS

## Project: W8269-FY2005 PARTICIPATION 3RD ZONE WATER SUPPLY

Number: W8269

### Description

A project for the construction of major water transmission and distribution mains to convey water from Baltimore City to Howard County. The project will fund a cost sharing agreement between Baltimore City, Baltimore County and Howard County on improvements to Baltimore City's Western Third Water Zone.

### Justification

This project is necessary to achieve the objectives of the approved Master Plan for Water and Sewerage by providing sufficient water to meet the County's future needs.

### Remarks

1. See project schedule for projects to be included in this effort.

### Project Schedule

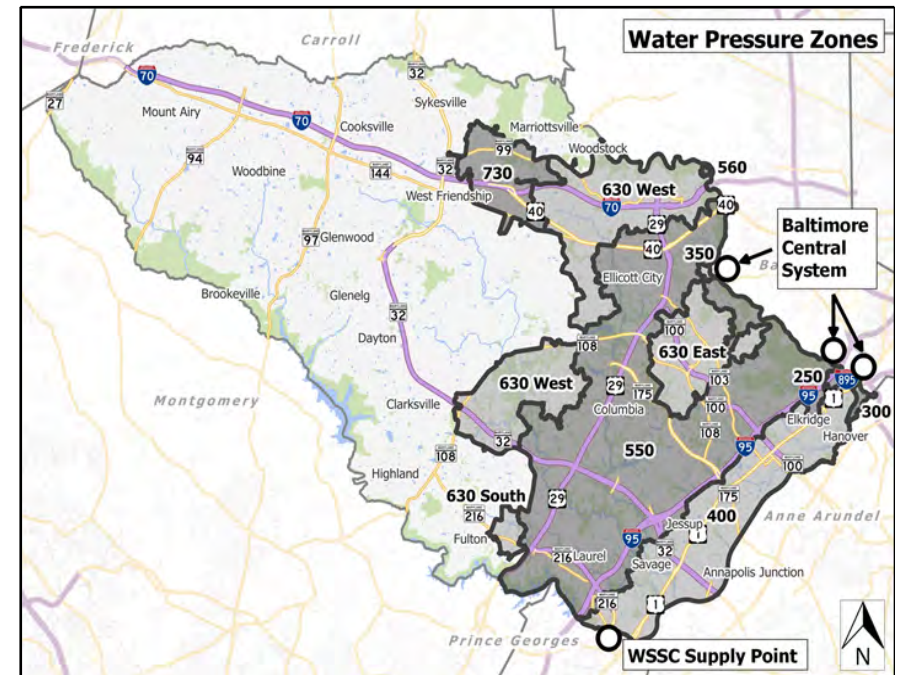

Ongoing program

FY18 - 1. Catonsville Reservoir - Second Bay; 2. Rolling Road 16-inch diameter Transmission Main; 3. Melvin Avenue Cleaning and Lining; 4. Harlem Lane Cleaning and Lining; 5. Rolling Road Cleaning and Lining; 6. Rolling Road Transmission Main (under construction)

### Operating Budget Impact

Annual Bond Redemption \$ \$1,615,000

Construction is outside of Howard County. No impact on Howard County operating budget. Reimbursement of operating costs will be made to Baltimore City through the Baltimore City water user rate changes.

## Project: W8274-FY 2007 SCADA SYSTEM UPGRADE

Number: W8274

### Description

A project to upgrade the Supervisory Control and Data Acquisition System (SCADA) at the Bureau of Utilities Operations building and all remote sites. The upgrade will transform the current fixed telephone based system into a multi-user, web-based system that allows for enhanced system controls and operation from both the Utilities Operation Center and the LPWRP.

### Justification

The existing SCADA system was originally installed in 1993, and upgraded in 1998. The present system allows for point-to-point communication and control over leased telephone lines. A web-based system will allow for each remote terminal unit to have a high speed internet connection that can be accessed from individual desktop units for superior monitoring. In addition, there will be a reduction in the leased line telephone costs.

### Remarks

This project will be managed by the Bureau of Utilities. Improvements include: 1) remote web access for better monitoring, control and maintenance of the SCADA system; 2) older RTUs that were not replaced under Phase I of this project will be upgraded; 3) Phase III replacement/upgrade of buried telephone service lines from the property line to the water/sewer facility as part of a fiber optic upgrade to connect with the new County system.

### Project Schedule

1. FY16 - Six sewage pump stations have been converted to cellular and testing has been initiated.
2. FY17 - Conversion of remaining water and sewer facilities.
3. FY18 - Project is being excelerated due to the degradation of service from Verizon.

# Fiscal 2018 Capital Budget

## Project: W8289-FY2009 WATER METER BATTERY REPLACEMENT

# WATER PROJECTS

Number: W8289

### Description

This project is to provide for the replacement of the battery systems, radios and meters in the County's existing residential and commercial radio read water metering system that have reached the end of their projected ten (10) year lives. As part of the program, the County will use new integral radio/battery technology more directly related to the meters.

### Justification

The water meters (with radio read registers) installed beginning 9 years ago are reaching the end of their battery life. New battery technologies will enable the installation of systems with a 20-year battery life and associated guarantees.

### Remarks

1. Early and later installations with smaller numbers.
2. Changeout insides by appointment.
3. Bureau of Utilities to utilize in-house staff to perform changeouts.

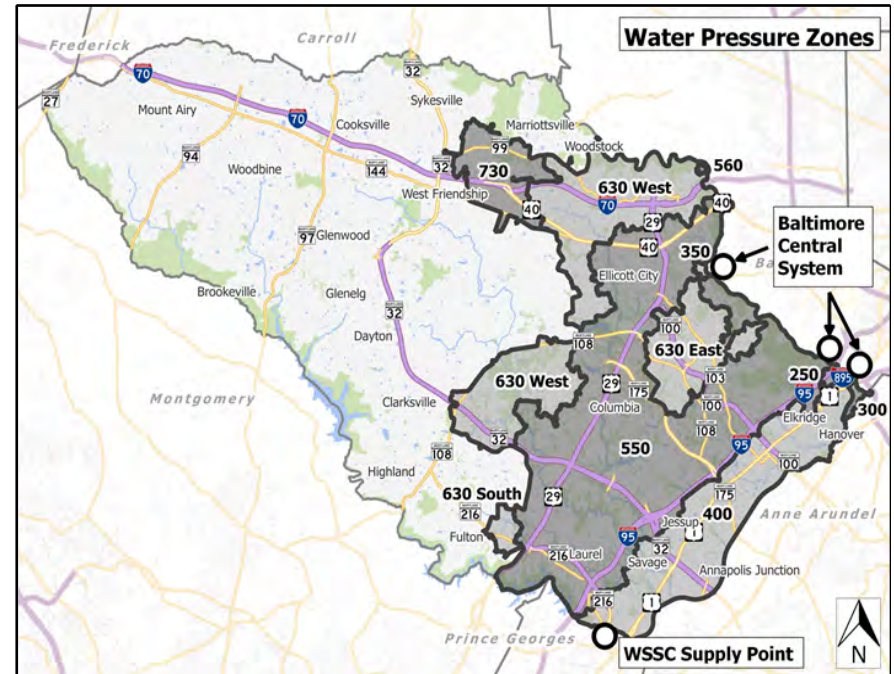

### Project Schedule

FY16-FY20 - Continued changeouts  
FY20 - Final year of changeouts, project close.

### Operating Budget Impact

Annual Bond Redemption \$ \$97,850

Meter radio changeouts being performed by in-house Bureau of Utilities personnel; some overtime expended for inside appointments.

## Project: W8291-FY2009 ELEVATED WATER TANK RECOATING

# WATER PROJECTS

Number: W8291

### Description

A project to study and prioritize the cleaning, repairing and recoating of the County water system's existing elevated water storage tanks.

### Justification

The County's water system has eleven (11) existing elevated water tanks, ranging in age from 2 to 45 years. One (1) tank is being converted to a reclaimed water tank, one (1) replacement tank for the converted reclaimed tank is under design, and a Fort Meade Reclaimed Tank is completed and being prepared for ownership transfer to American Water. It is necessary to establish and maintain a rehabilitation program to insure continued reliable operation.

### Remarks

This project will be managed by the Bureau of Utilities.

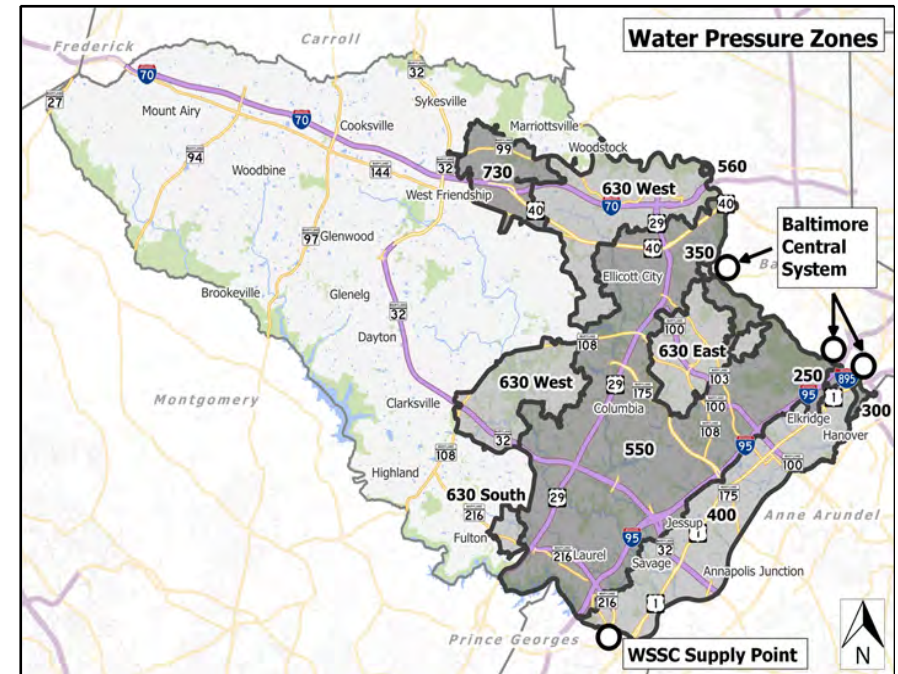

### Project Schedule

FY18 - Interior/exterior of Oakland Tank completed.

FY18-FY20 - Various cleaning, painting and top coating projects.

### Operating Budget Impact

No operating budget impact.

## Project: W8292-FY2009 DORSEY RUN ROAD PHASE B WATER MAIN

# WATER PROJECTS

Number: W8292

### Description

A project for the design and construction of 5,500 LF of 12-inch water main and relocation of 1,500 LF of sewer within proposed Dorsey Run Road from existing Dorsey Run Road to Montevideo Road.

### Justification

The project was initiated by the Department of Public Works in conjunction with capital project J-4148 for the construction of Dorsey Run Road from the existing Dorsey Run Road to Montevideo Road. The project will enable the installation and relocation of the utilities prior to the construction of the road.

### Remarks

1. The project was brought before the Public Works Board on December 11, 2007.
2. The construction will be coordinated with capital project J-4148.

### Project Schedule

FY18 - Close

### Operating Budget Impact

\$12,000 per year represents the increased cost of operation and maintenance of the proposed water and sewer mains.

## Project: W8296-FY2010 US29 WATER MAIN/MD108 TO SOUTH ENTRANCE ROAD

Number: W8296

### Description

A project for the design and construction of 18,000 LF of 36-inch water main within the US29 corridor from MD108 to South Entrance Road.

### Justification

The project will provide additional hydraulic capacity and increased water supply to the 3 million gallon Scaggsville Elevated Water Tank. The improvement is part of the Howard County central water system, providing water to the upper 630 and 730 zones as well as to the lower 400 zone. The improvement is required under the 2008 Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection for the County.

### Remarks

1. The project was brought before the Public Works Board on December 10, 2008.
2. The project has been split into 2 phases. Phase I - South Entrance Road to Little Patuxent Parkway. Phase II - Little Patuxent Parkway to Route 29 Booster Pumping Station.

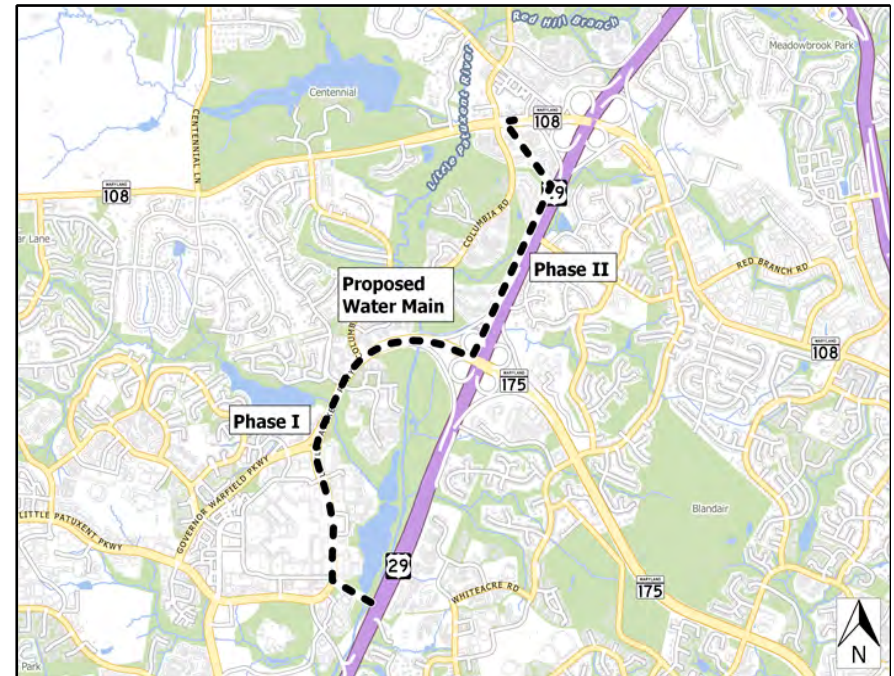

### Project Schedule

- FY18 - Construction, Project Complete
- FY19 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$1,306,250

\$27,000 per year represents the cost of operation and maintenance of the water main

# Fiscal 2018 Capital Budget

## Project: W8300-FY2011 LEVERING AVENUE WATER MAIN

# WATER PROJECTS

Number: W8300

### Description

A project for the design and construction of 6,350 LF of 12-inch water main from Gun Road in the Patapsco State Park in Baltimore County to Levering Avenue in Howard County to US1.

### Justification

The water demands in the elevation 400 zone are operating under very high pressure in the existing old (1934) cast iron water main. The proposed 12-inch transmission main will increase the reliability of the water supply in the 400 zone. The improvement is required under the 2008 Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

### Remarks

1. The project was brought before the Public Works Board on December 10, 2008 and January 12, 2010.
2. The water main within the Patapsco State Park was constructed in 1935 and is the feed to the Howard County Gun Road Water Supply from Baltimore County. The Department of Natural Resources (DNR) has informed Howard County that the water main within the park has had several failures and presents a hazard to the park. DNR is requiring that the water main through the Park be repaired or replaced.
3. Request represents Engineer's latest estimate.

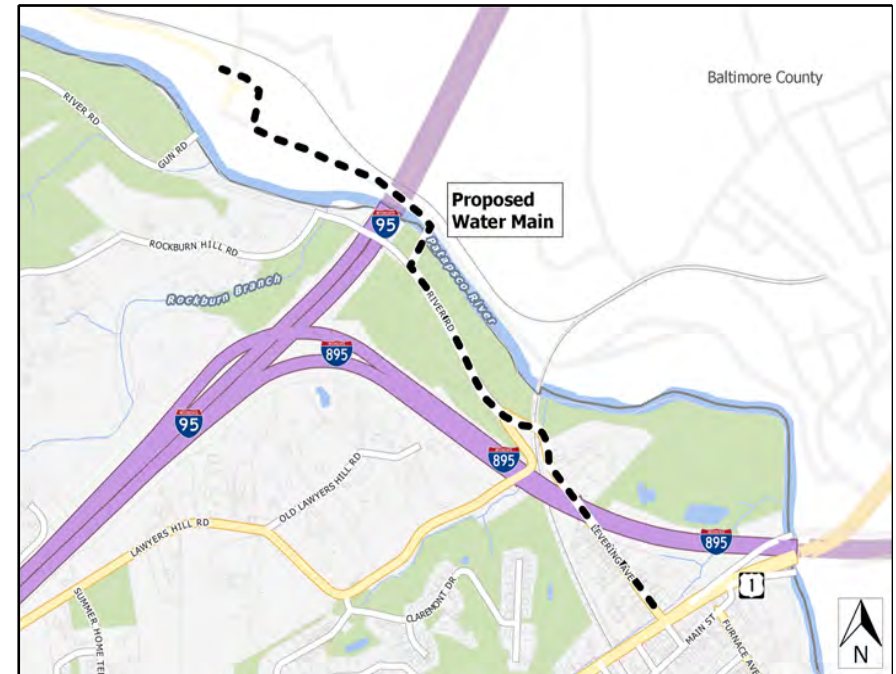

### Project Schedule

- FY18 - Construction  
FY19 - Construction, Project Complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$139,935

\$9,500 represents the cost of operation and maintenance of the water main.

## Project: W8303-FY2018 LOUDON AVE/RAILROAD STREET WATER MAIN

Number: W8303

### Description

A project for the design and construction of 3,000 LF of 8-inch and 12-inch water main along Loudon Avenue and Railroad Street to Hanover Road.

### Justification

Projected water demands have indicated that a secondary water main loop will be required to provide adequate flows and pressures for the area. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

### Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Project schedule revised from FY14 to FY18 to reflect Master Plan priority.
3. Request represents the advancement of funds in the capital program.

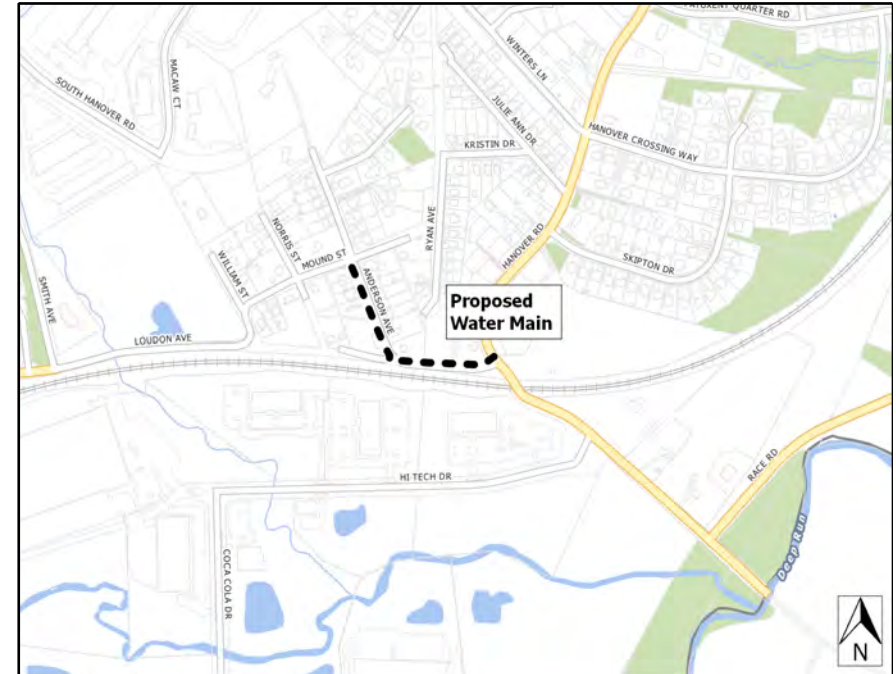

### Project Schedule

- FY18 - Design
- FY19 - Construction
- FY20 - Project Complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$47,500

\$4,500 represents the cost of operation and maintenance of the water main.

# WATER PROJECTS

## Project: W8304-FY2015 COLUMBIA WATER PUMPING STATION IMPROVEMENTS

Number: W8304

### Description

A project to upgrade the Columbia Water Pumping Station.

### Justification

The project will upgrade and increase the pumping capacity at the Columbia Water Pumping Station by upgrading pumps, motors and station controls. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection to meet the anticipated increased demands in the 630 water zone.

### Remarks

1. The project was brought before the Public Works Board on January 13, 2009.

### Project Schedule

FY18 - Design

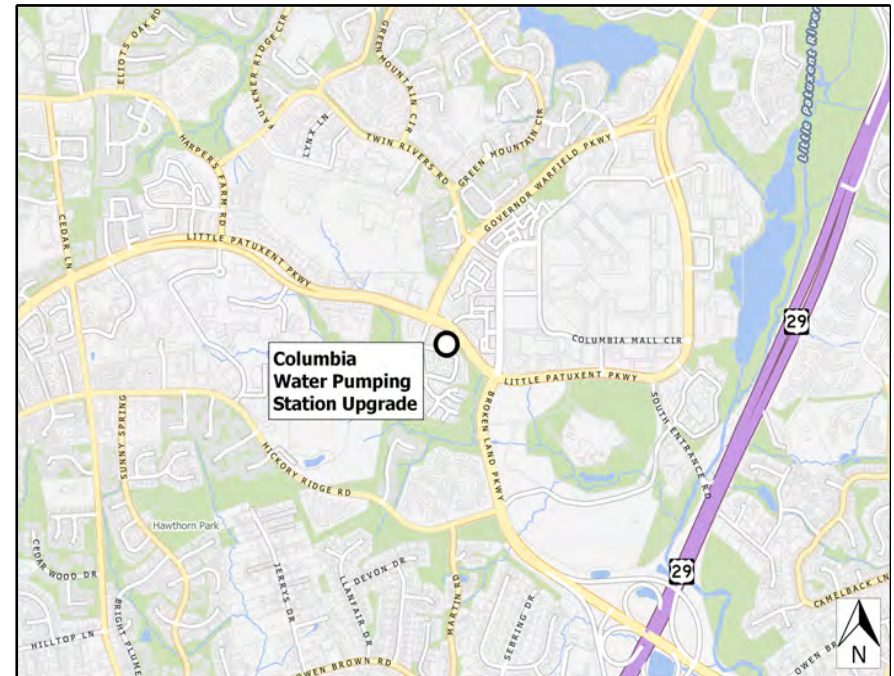

FY19 - Construction

FY20 - Project complete, close

### Operating Budget Impact

Annual Bond Redemption \$ \$11,400

\$50,000 represents the additional cost of operation and maintenance of the station.

## Project: W8305-FY2018 LANDING ROAD WATER MAIN LOOP

# WATER PROJECTS

Number: W8305

### Description

A project for the design and construction of 4,300 LF of 12-inch water main along Landing Road to connect the water mains between Ilchester Road and Montgomery Road.

### Justification

The project will complete the loop of the elevation 550 water system in Landing Road and provide for an emergency connection to the elevation 630 east water zone. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

### Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Project schedule revised from FY15 to FY18 to reflect Master Plan priority.
3. Request represents the advancement of funds in the capital program.

### Project Schedule

FY18 - Design

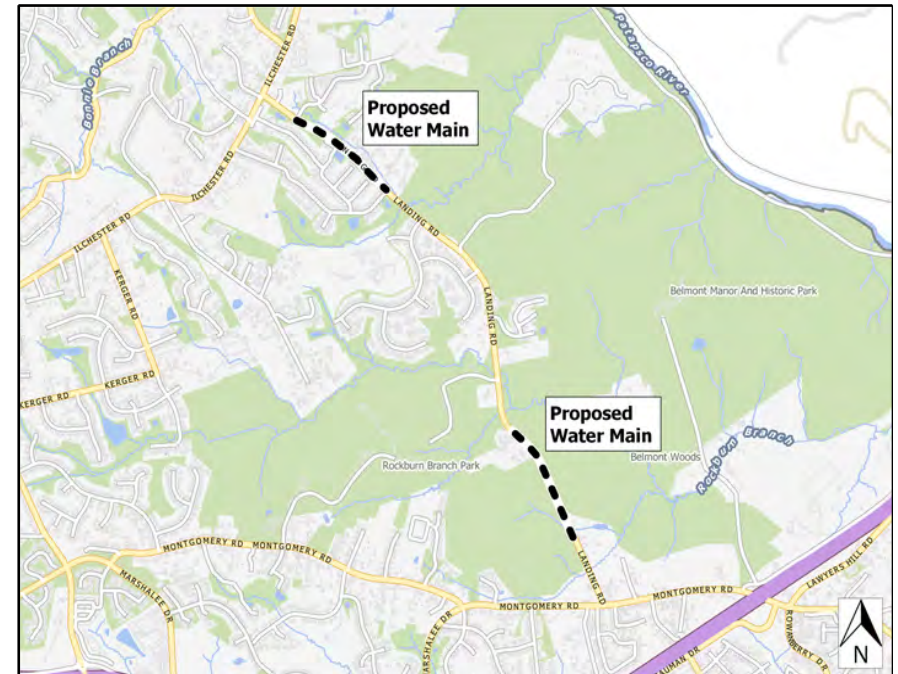

FY19 - Construction

FY20 - Project Complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$71,250

\$6,400 represents the cost of operation and maintenance of the water main.

# Fiscal 2018 Capital Budget

## Project: W8306-FY2013 SANNER ROAD WATER MAIN LOOP

# WATER PROJECTS

Number: W8306

### Description

A project for the design and construction of approximately 750 LF of 12-inch water main on Johns Hopkins Road east of Sanner Road.

### Justification

The project will extend the 630 water zone east along Johns Hopkins Road and provide 630 zone water service to the Johns Hopkins Applied Physics Laboratory.

### Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Subsequent computer modeling has revealed that the extension of the water main along Sanner Road will not provide the desired redundancy in the water supply to the Howard County General Hospital. The length of the water main extension has been reduced from 5,800 feet to 4,000 feet. The modified scope will allow 630 zone water service to the Johns Hopkins Applied Physics Lab Campuses for fire protection and water supply.
3. The Alignment Report prepared during the Preliminary Design phase revealed an alternative that will reduce the length of water main extension required from 4,000 feet to approximately 750 feet.

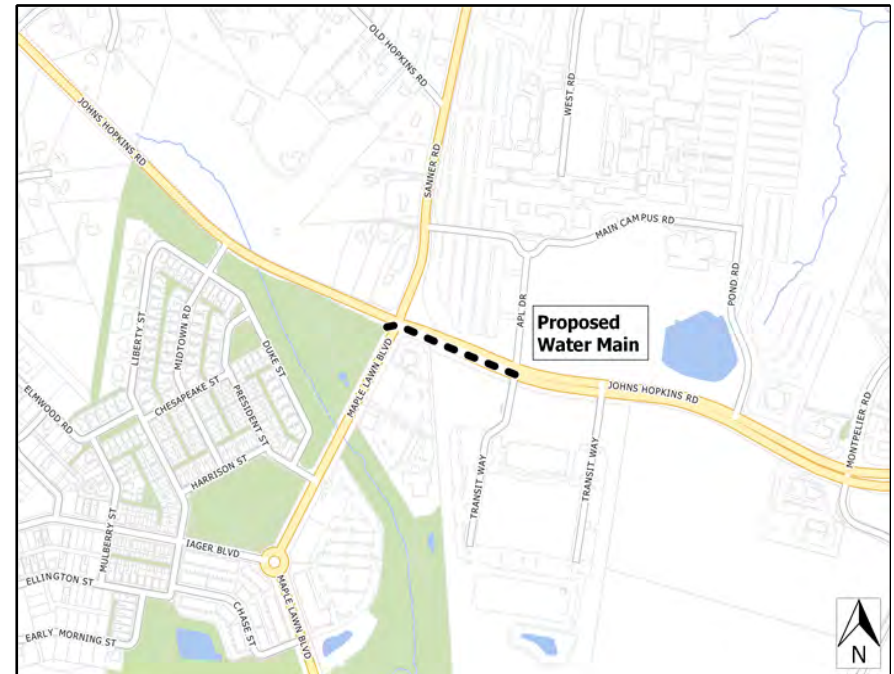

### Project Schedule

FY18 - Close project

### Operating Budget Impact

Annual Bond Redemption \$ \$95,000

\$6,500 represents the cost of operation and maintenance of the water main.

## Project: W8307-FY2013 BROKEN LAND PKWY WATER MAIN

Number: W8307

### Description

A project for the design and construction of 4,100 LF of 30-inch water main along Broken Land Parkway from Stevens Forest Road to Cradlerock Way.

### Justification

The project will provide a secondary loop for the water systems, improving integration of the major water supplies from US40 and the Elkrige area. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

### Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Request represents latest engineering estimate.

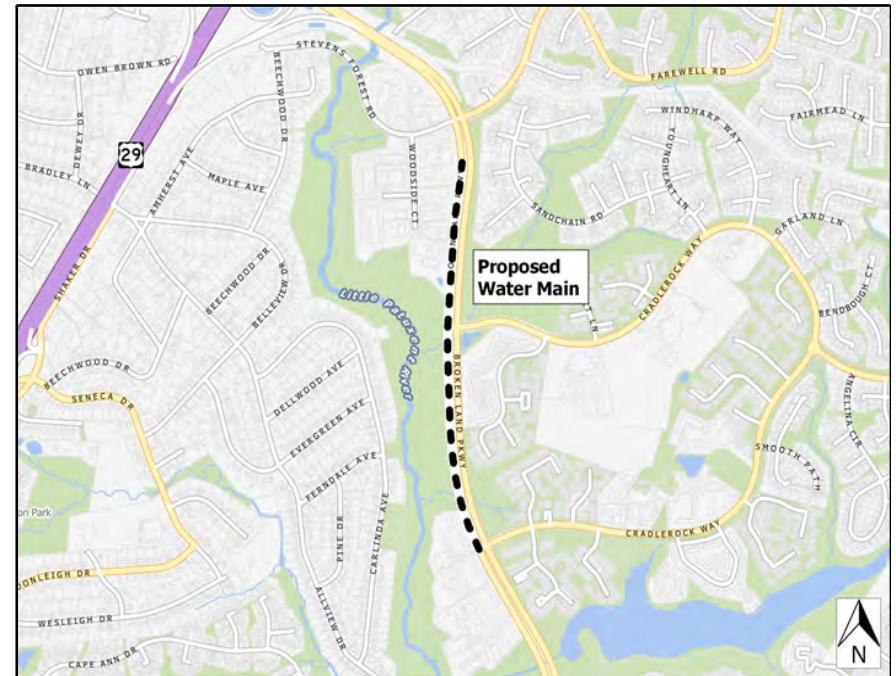

### Project Schedule

FY18 - Construction, Complete, and Close Project.

### Operating Budget Impact

Annual Bond Redemption \$ \$266,000

\$6,100 represents the cost of operation and maintenance of the water main.

## Project: W8309-FY2014 MISSION ROAD WATER MAIN LOOP

# WATER PROJECTS

Number: W8309

### Description

A project for the design and construction of 4,500 LF of 12-inch water main along Mission Road to Columbia Gateway Drive.

### Justification

The project will complete the loop of the elevation 550 water zone along the I-95 corridor. The improvement is required under the Howard County Master Plan for Water and Sewerage and is needed to provide for adequate domestic water supply and fire protection.

### Remarks

1. The project was brought before the Public Works Board on January 13, 2009.
2. Project schedule revised from FY22 to FY14 due to the need to loop the water system to provide for adequate fire protection.

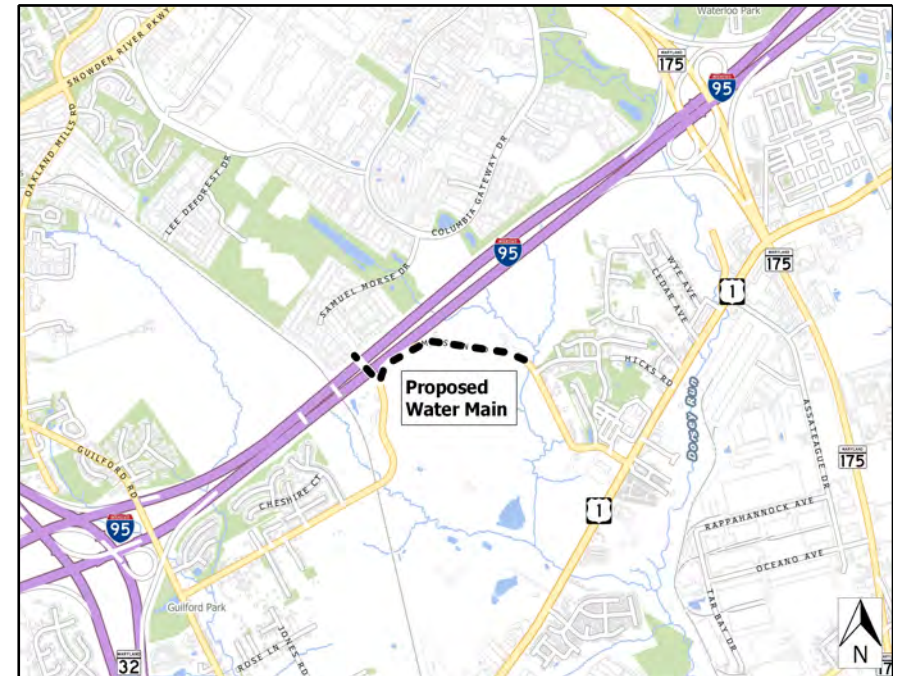

### Project Schedule

FY18 - Design, Construction  
FY19 - Construction, Project Complete  
FY20 - Project Close

### Operating Budget Impact

Annual Bond Redemption \$ \$112,100

# Fiscal 2018 Capital Budget

## Project: W8313-FY2011 FIRE HYDRANT INSPECTION PROGRAM

# WATER PROJECTS

Number: W8313

### Description

Develop a Fire Hydrant Inspection Program that will include all County owned fire hydrants within the distribution system. The data will be stored in our current database, cataloging specific fire hydrant information such as manufacturer, year installed, size, number of turns, turn direction, and cataloged inspection data for each scheduled inspection. During the inspection process, fire hydrants are to be exercised and their operability verified, and hydrant valves located and exercised. Fire hydrants damaged during the inspection process or found damaged are to be repaired or replaced in this project. Simple lubrication and maintenance will be performed during the inspections.

### Justification

Howard County Fire and Rescue has requested that the Bureau of Utilities perform annual inspections on each fire hydrant as part of their ISO program. This will include populating the existing Hansen Database with fire hydrant information for speedier reporting of fire hydrant status, creation of fire hydrant reports, and documentation of inspection information. Exercising the fire hydrants during inspection will verify that the fire hydrants are operational in the event of a fire, and ensure the Fire Department's certification of the fire hydrant inspection requirement. The Bureau of Utilities owns and maintains approximately 10,000 fire hydrants. HCFR is requesting hydraulic modeling of various sites for fire flows from time to time.

### Remarks

1. Fire hydrant inspections are done by grids on an annual basis. It is the goal to do a thorough inspection of every Howard County owned fire hydrant once a year.
2. There are approximately 10,000 fire hydrants owned by Howard County.
3. HCFR requirements for modeling and inspections are followed throughout.

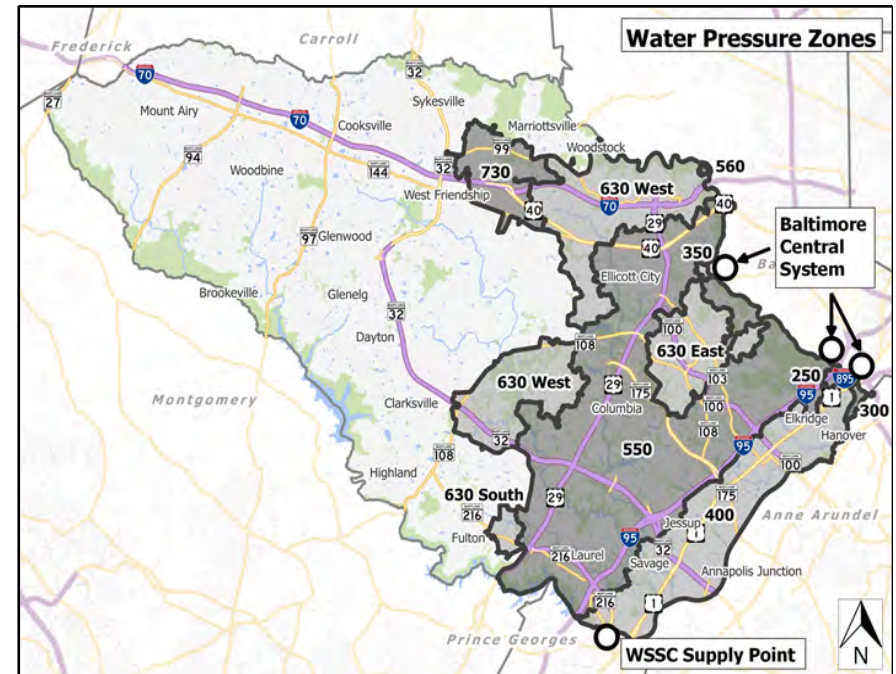

### Project Schedule

FY18 - Continued hydrant inspections and repairs.

### Operating Budget Impact

Annual Bond Redemption \$ \$82,935

No operating budget impact.

## Project: W8317-FY2013 ELKRIDGE PUMP STATION IMPROVEMENTS

Number: W8317

### Description

A project for the design and installation of a 1,250 kW emergency generator and electrical, mechanical, and structural improvements at the ElkrIDGE Water Pumping Station.

### Justification

The ElkrIDGE Pumping Station provides for one third of Howard County's summer water demands. During the 2011 storm events, the station lost both the primary and secondary incoming electrical services. An emergency generator is necessary to insure an adequate water supply for domestic needs and fire protection. Electrical, mechanical, and structural upgrades are needed to replace failed equipment and provide reliability to the station.

### Remarks

1. The project was brought before the Public Works Board on December 13, 2011.

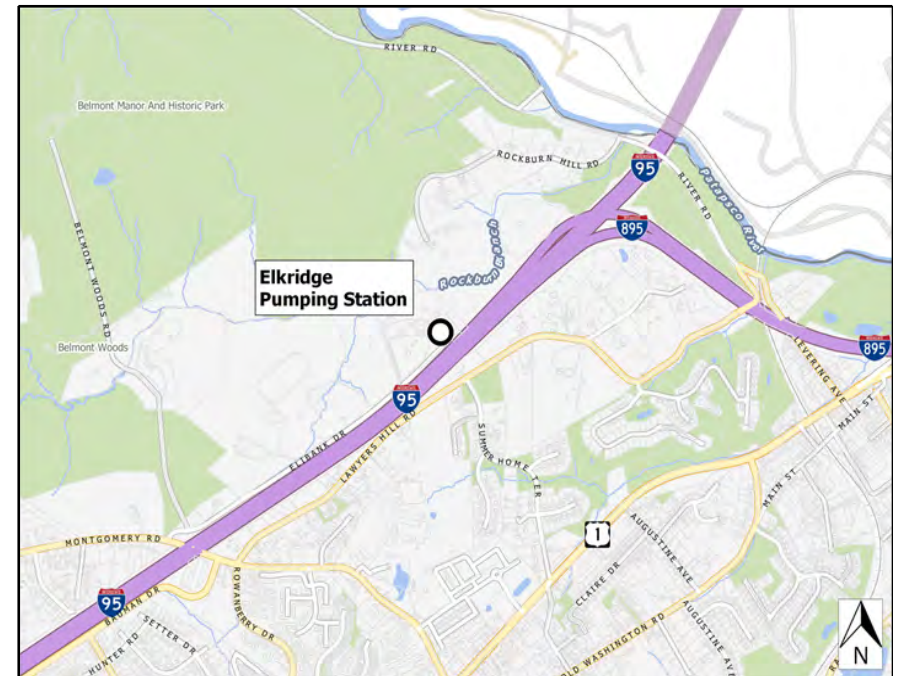

### Project Schedule

FY18 - Construction, Project complete, Project close

### Operating Budget Impact

Annual Bond Redemption \$ \$147,250

The annual cost of operation and maintenance is estimated at \$50,000.

## Project: W8318-FY2013 MONTGOMERY ROAD WATER MAIN REHABILITATION

Number: W8318

### Description

A project for the rehabilitation of 12,000 feet of 12-inch water main within Montgomery Road from Lawyers Hill Road to Rockburn Drive.

### Justification

The water main was constructed in 1962 and has ruptured numerous times. The project will determine the cause of the failures and repair or replace defective portions of the water main.

### Remarks

1. The project was brought before the Public Works Board on December 13, 2011.

### Project Schedule

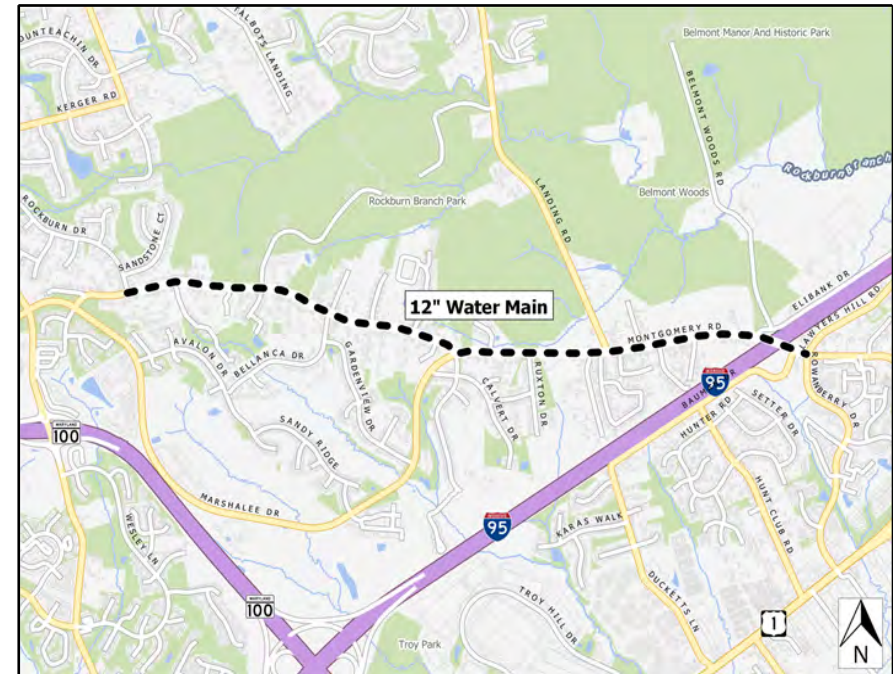

FY18 - Construction, Project Complete

FY19 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$313,975

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

## Project: W8320-FY2013 WHISKEY BOTTOM PUMP STATION RELOCATION

Number: W8320

### Description

A project to relocate the Whiskey Bottom Road pumping station and related suction and discharge pipelines and to increase pumping capacity.

### Justification

New agreements with the Washington Suburban Sanitary Commission (WSSC) will allow Howard County to increase the water supply from 5 MGD to 10 MGD. The improvements to the Whiskey Bottom Road pumping station and pipelines will allow Howard County to pump the additional water from the elevation 400 water zone to the elevation 550 water zone.

### Remarks

The project was brought before the Public Works Board on December 13, 2011.

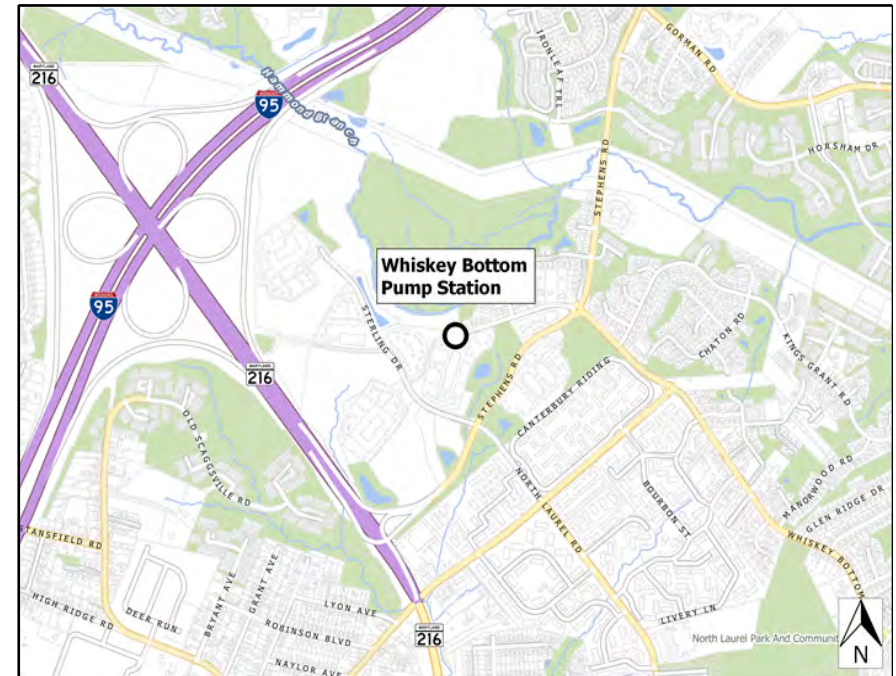

### Project Schedule

FY18 - Construction  
FY19 - Complete  
FY20 - Close project

### Operating Budget Impact

Annual Bond Redemption \$ \$237,500

The annual additional power cost and the cost of operation and maintenance of the pipelines is estimate at \$25,000.

## Project: W8322-FY2013 WILDE LAKE WATER MAIN STUDY and REHABILITATION

Number: W8322

### Description

A project to determine the condition of 44,000 feet of water main in the Wilde Lake area and to perform necessary repairs or replacements.

### Justification

There have been 35 water main breaks in the Wilde Lake area. A preliminary study of the water mains in the Wilde Lake area has determined that the ductile iron water mains may be subject to corrosion due to stray currents from gas mains and the low resistivity soils in the area, causing corrosion pitting and failure of the iron pipe.

### Remarks

1. The project was brought before the Public Works Board on December 13, 2011.
2. Study is complete.
3. Rehabilitation of corroded areas to begin.

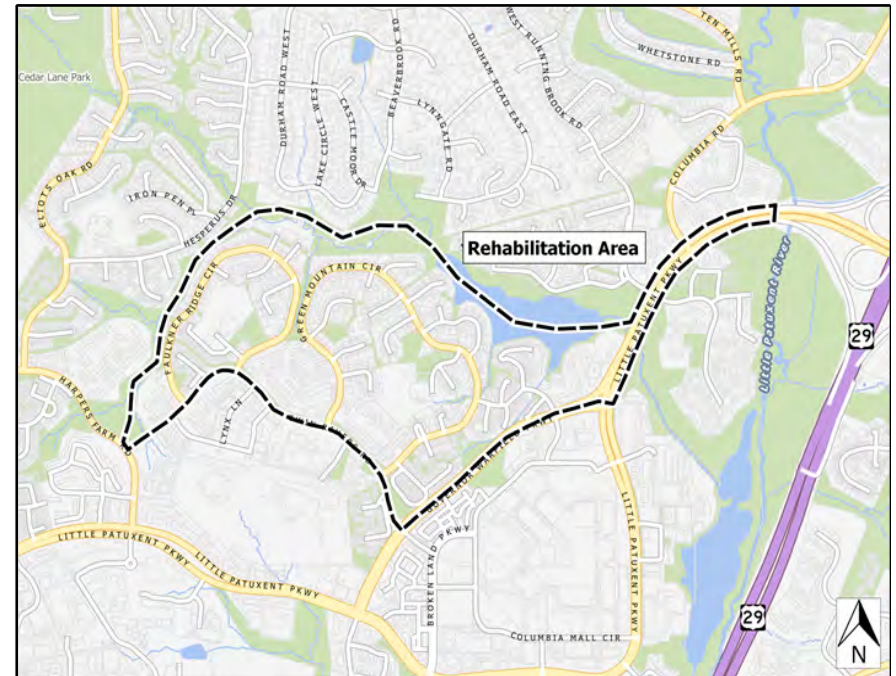

### Project Schedule

FY18 - Project complete, close

### Operating Budget Impact

Annual Bond Redemption \$ \$80,750

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

# WATER PROJECTS

## Project: W8324-FY2014 WATER SYSTEM LOOPING/FIRE PROTECTION UPGRADE

Number: W8324

### Description

A project for the design and construction of various water system upgrades and improvements to meet County standards for water system redundancy, pressure and flow rates requirements for fire protection.

### Justification

Howard County standards require a 1,500 gallon per minute (gpm) fire flow rate with a 20 psi residual pressure for residential multi-family, commercial, industrial, educational and institutional areas. As development occurs and water use increases, certain areas within the County may require additional water supply loops to maintain the required pressure and flow rates to meet fire protection requirements. The project will provide for minor water main extensions to meet water system requirements.

### Remarks

1. Each new project for water system upgrades required for redundancy, pressure or flow will be brought before the Public Works Board for consideration and approval.
2. The project was brought before the Public Works Board on December 11, 2012.

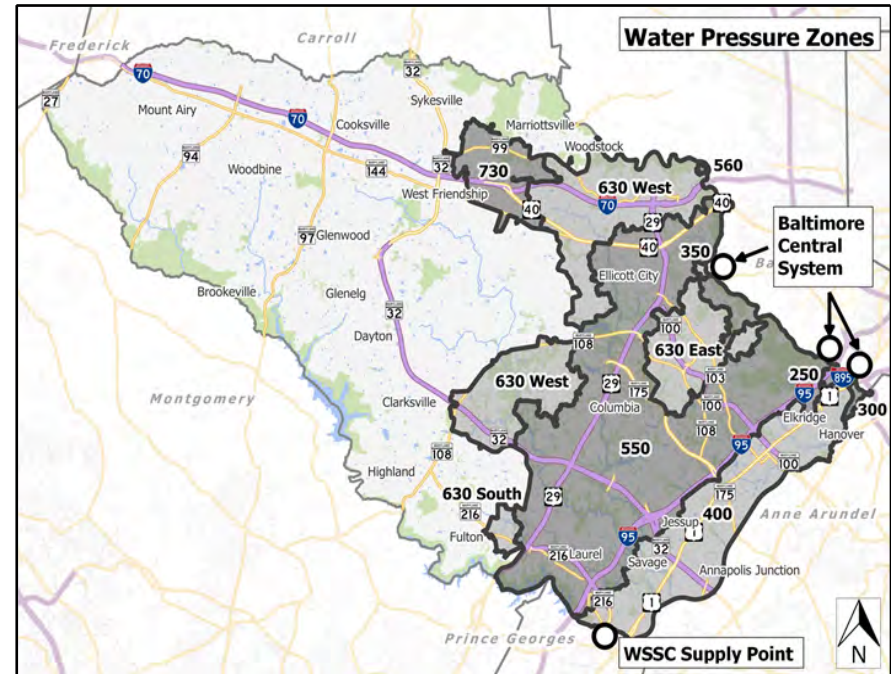

### Project Schedule

Ongoing program  
FY18 - 1. Southern District Police Headquarters Loop; 2. Shaker Drive/Allview Loop

### Operating Budget Impact

Annual Bond Redemption \$ \$190,000

The annual cost of operation and maintenance of the water mains is \$1,200.

# Fiscal 2018 Capital Budget

## Project: W8325-FY2014 RECLAIMED WATER SYSTEM DEVELOPMENT

# WATER PROJECTS

Number: W8325

### Description

Develop, design, and construct a reclaimed water system to serve various parts of the County with reclaimed water from the Little Patuxent Water Reclamation Plant, or a stand-alone system constructed under this project. This project is to complete and extend the system that was initially constructed under Capital Project S6245, with expansion to other areas of the County's Metropolitan District as customers are identified.

### Justification

The first phase of the County's reclaimed water system was constructed under capital project S6245, a project that was initiated for the reduction of nitrogen in the discharge of the Little Patuxent Water Reclamation Plant's effluent by the construction of the Enhanced Nutrient Removal Facilities (ENR) and the initial construction of the Reclaimed Water System. This construction has been completed, and the Maryland Department of the Environment (MDE) has released its regulations for the use of Class IV Effluent (Reclaimed Water). The County's reclaimed water system is ready for additional features to enhance its functionality and expand to meet customer demand.

### Remarks

1. The existing reclaimed water system consists of a pumping station located at the LPWRP, and a reclaimed water pipeline that extends to the property line of the Dreyer's Ice Cream facility in Laurel.
2. Initial design and construction funded under this project will be to extend a second reclaimed water pipeline from the pumping station to the existing 3 million gallon Guilford Water Storage Tank on US Rt 1, and to upgrade the Guilford Water Storage Tank to accept reclaimed water. Additional pipelines connecting the tank and other potential users in the vicinity are also expected to be constructed as continuing phases of this project.
3. Additional customers may include construction of scalping plants.

### Project Schedule

FY18 - Alignment study and design of reclaimed water pipeline from the LPWRP to the existing Guilford Water Storage Tank.

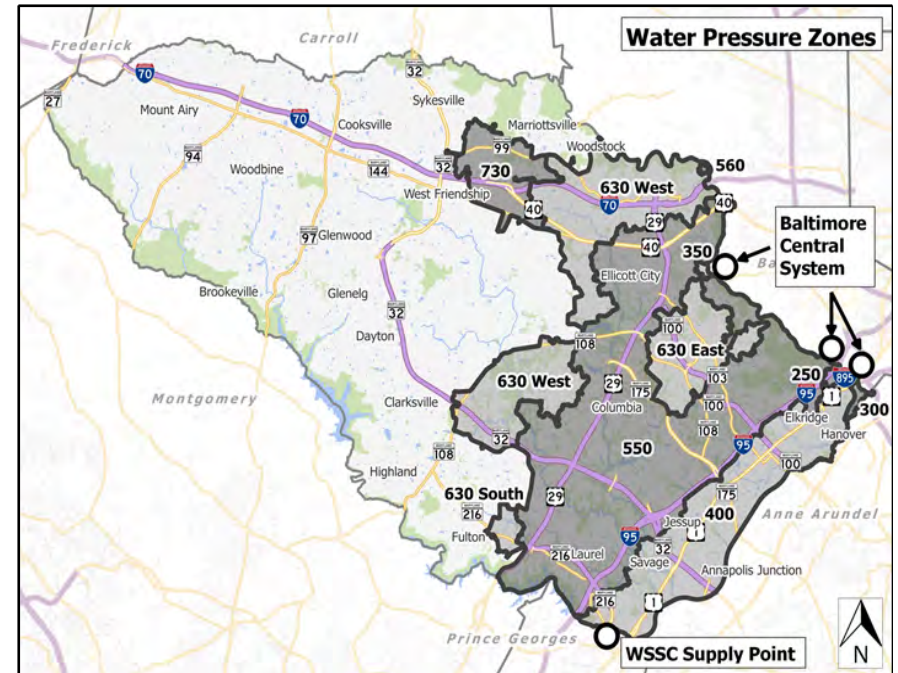

FY19 - Construction.

FY19-20 - Design and construction of system extensions.

### Operating Budget Impact

Annual Bond Redemption \$ \$309,653

The operating costs associated with the operation and maintenance of the Reclaimed Water System will be offset by a Reclaimed Water volumetric rate charge approved by the County Council as part of the annual User Fee charges. Revenues generated are anticipated to offset purchased water and sewage treatment cost increases.

## Project: W8327-FY2015 OLD LAWYER HILL ROAD WATER SUPPLY MAIN REPLACEMENT

Number: W8327

### Description

A project for the replacement of 2,300 LF of 8-inch water main in Old Lawyers Hill Road.

### Justification

The existing water main was constructed in 1956 and is cast iron pipe. The water main is a supply source from the Baltimore City water system and operates between 130 and 150 psi, with pressures exceeding 200 psi at its connection to the water main in River Road. Test pits performed on the water main have shown significant corrosion. The replacement of the main is needed to ensure long term fire protection and domestic water supply for the residents along Old Lawyers Hill Road and to maintain a vital water supply source from the Baltimore City water system.

### Remarks

1. The water mains on either end of the Old Lawyers Hill Road water main have been replaced or are in the process of being replaced.
2. The project was brought before the Public Works Board on January 14, 2014.
3. The map has been updated to reflect the revised limits of proposed work. The segment north of I895 is now included in the scope of W8300.

### Project Schedule

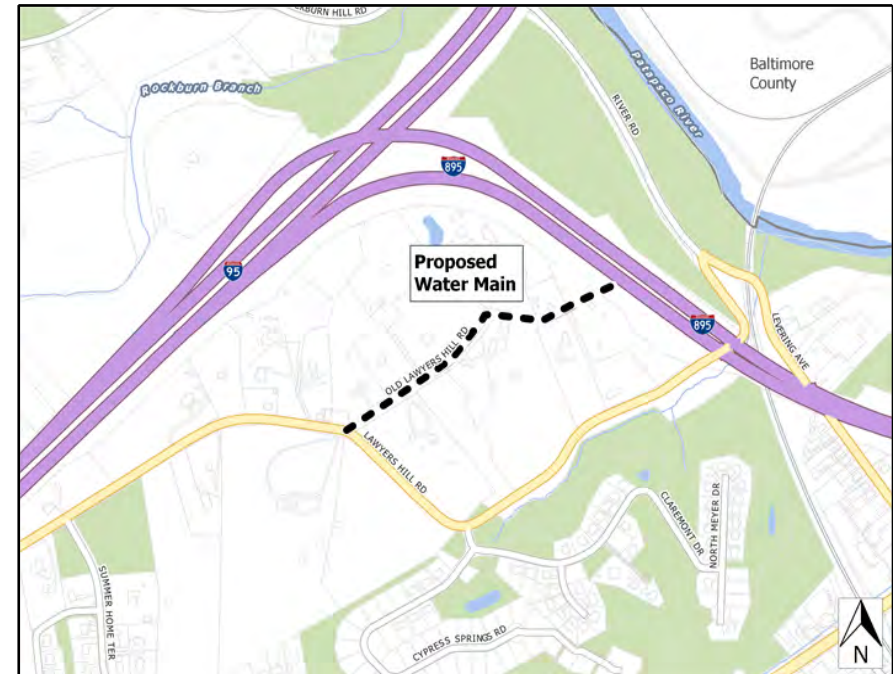

FY18 - Construction

FY19 - Project complete, Close

### Operating Budget Impact

Annual Bond Redemption \$ \$50,350

The annual cost of operation and maintenance of the water main will be reduced.

## Project: W8328-FY2015 630 WEST ZONE WATER PUMPING STATION

Number: W8328

### Description

A project for the design and construction of a pumping station to serve the Elevation 630 West water zone.

### Justification

The Elevation 630 West water zone extends from Centennial Lane to Guilford Road and encompasses the Villages of Harper's Choice and River Hill and includes portions of Hickory Ridge and Wilde Lake. The zone is supplied primarily by one pumping station, located in the vicinity of Banneker Road in Columbia, and an elevated water storage tank located at Harper's Choice. Any failure of the Columbia Pumping Station will affect Howard County's ability to supply water to the residents and critical institutions located within the 630 West water zone, impacting schools and the Howard County General Hospital.

### Remarks

1. The project was brought before the Public Works Board on January 14, 2014.
2. Request represents the advancement of funds of the capital program.

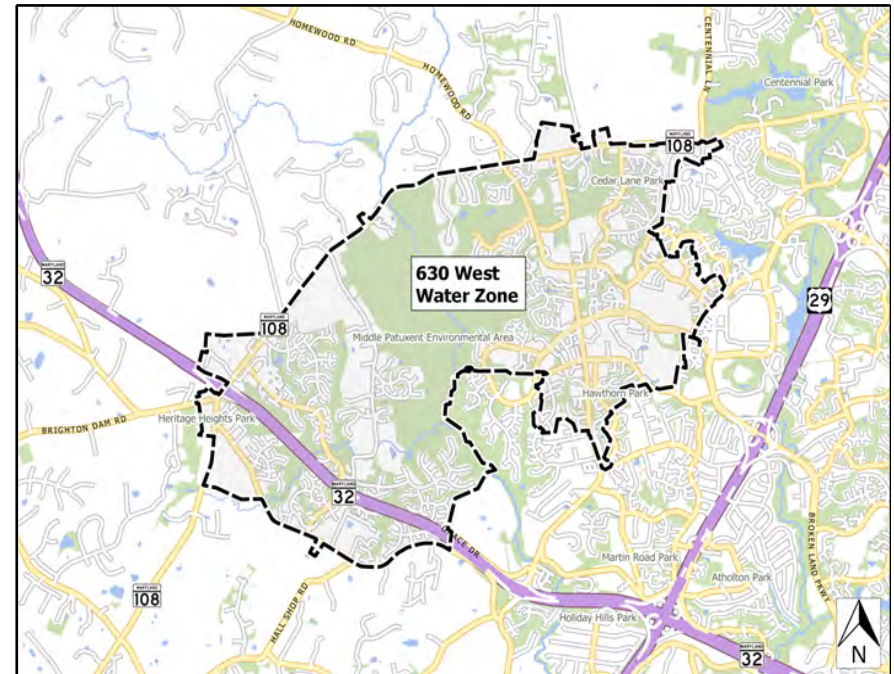

### Project Schedule

- FY18 - Design, Construction
- FY19 - Construction, Project complete
- FY20 - Close

### Operating Budget Impact

Annual Bond Redemption \$ \$475,000

The annual cost of operation and maintenance of the pumping station is \$50,000.

## Project: W8329-FY2015 PCCP STUDY AND FAILURE MITIGATION

# WATER PROJECTS

Number: W8329

### Description

A project to investigate and determine the condition of all prestressed concrete cylinder pipe (PCCP) transmission mains in the water distribution system. The project will include: internal and external inspections; design and construction of inspection facilitating structures; purchasing of repair pipe, parts, and equipment for inspection; and participation in acoustical monitoring and internal inspection of PCCP to maximize the service life.

### Justification

Howard County has experienced multiple failures of Prestressed Concrete Cylinder Pipe (PCCP) transmission mains. This project will allow the County to inspect the condition and structural integrity of the PCCP water mains and replace defective portions of the mains before failures occur.

### Remarks

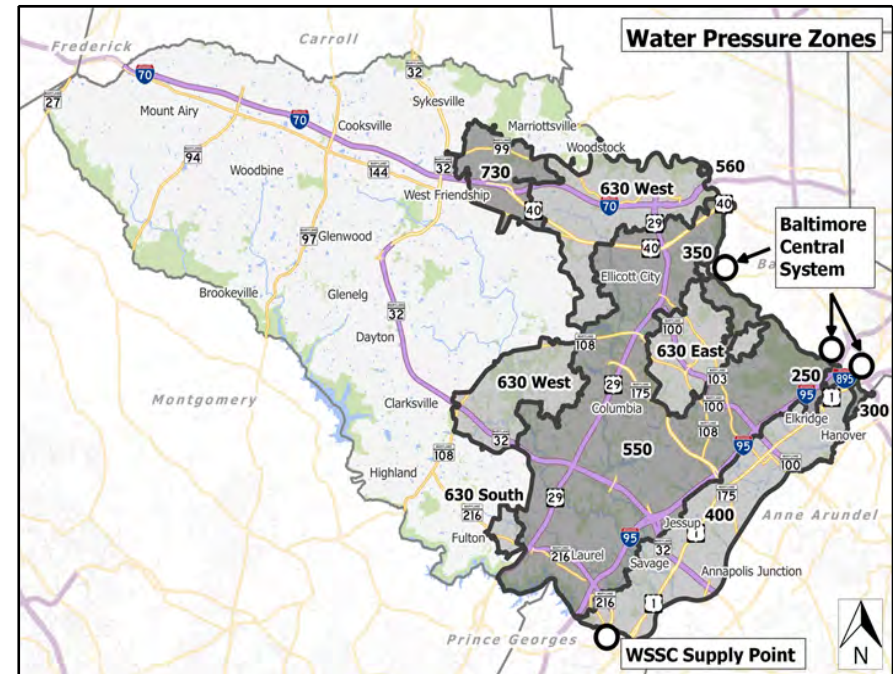

1. Project is an ongoing program to inspect PCCP.
2. This project replaced capital project W8207, FY1995 PCCP Study and Failure Mitigation, to allow the capitalization of funds spent under W8207. W8207 was closed after FY2015.
3. Request represents the advancement of funds in the capital project.

### Project Schedule

Ongoing program  
FY18 - Scheduled and routine PCCP monitoring and inspection

### Operating Budget Impact

No impact on operating budget.

## Project: W8330-FY2017 OLD COLUMBIA PIKE WATER MAIN REHABILITATION/REPLACEMENT

Number: W8330

### Description

A project to rehabilitate/replace 9,850 LF of 4-inch, 6-inch and 8-inch diameter water mains in Old Columbia Pike between Montgomery Road (MD Route 103) and Main Street (MD Route 144). Scope includes the study, design and construction necessary to relocate and/or replace defective or inadequate portions of pipeline.

### Justification

Numerous failures on the water mains installed within the project area have occurred over the past several years. Project area mains are in close proximity to large diameter gas transmissions mains which are protected with impressed currents, are located in areas know to have corrosive soils and stray currents impacts; each of which are conditions likely to lead to metallic pipe deterioration and/or failure.

### Remarks

1. The project was brought before the Public Works Board on December 8, 2015.
2. Request represents the advancement of funds in the capital program.

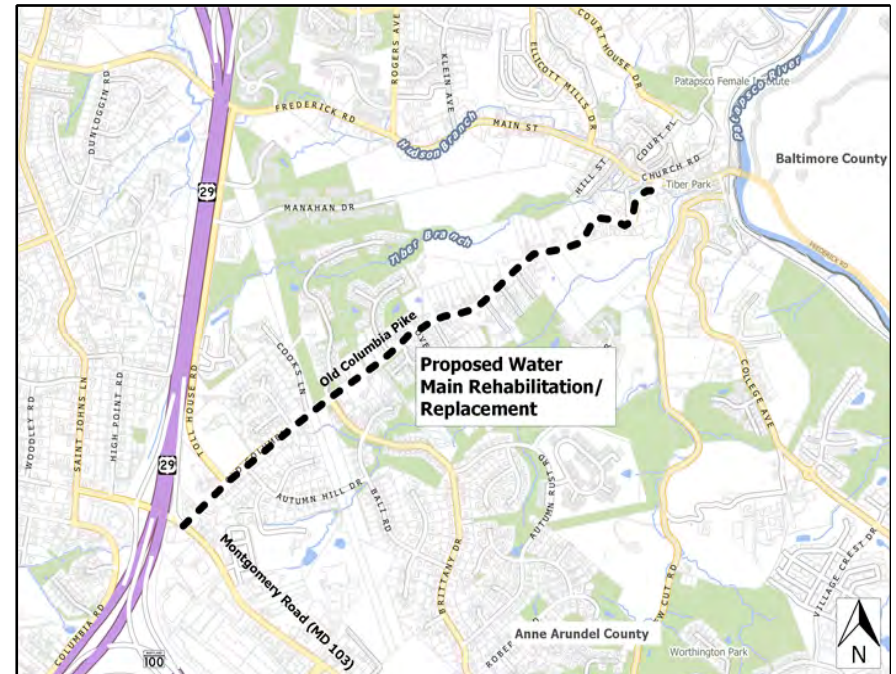

### Project Schedule

- FY18 - Design, construction
- FY19 - Construction, project complete
- FY20 - Project Close

### Operating Budget Impact

Annual Bond Redemption \$ \$190,713

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

## Project: W8331-FY2017 TWIN RIVERS ROAD WATER MAIN REPLACEMENT

Number: W8331

### Description

A project to replace 6,000 LF of 12-inch diameter water main within Twins Rivers Road; between Governor Warfield Parkway and Harpers Farm Road. Scope includes the design and construction necessary to replace the deteriorating water main.

### Justification

Under W8321, a condition assessment was performed on water mains within the Village of Wilde Lake. The results of which determined that there were areas of stray currents as well as corrosive soils in the vicinity; each of which are conditions likely to lead to metallic pipe deterioration and/or failure. Collected data indicates that the Wilde Lake community has experienced a high rate of water mains breaks (35 over the past 15 years). The study determined that the Twin Rivers Road 12-inch diameter water main segment was a priority for replacement.

### Remarks

1. The project was brought before the Public Works Board on December 8, 2015.
2. Request represents the advancement of funds in the capital program.

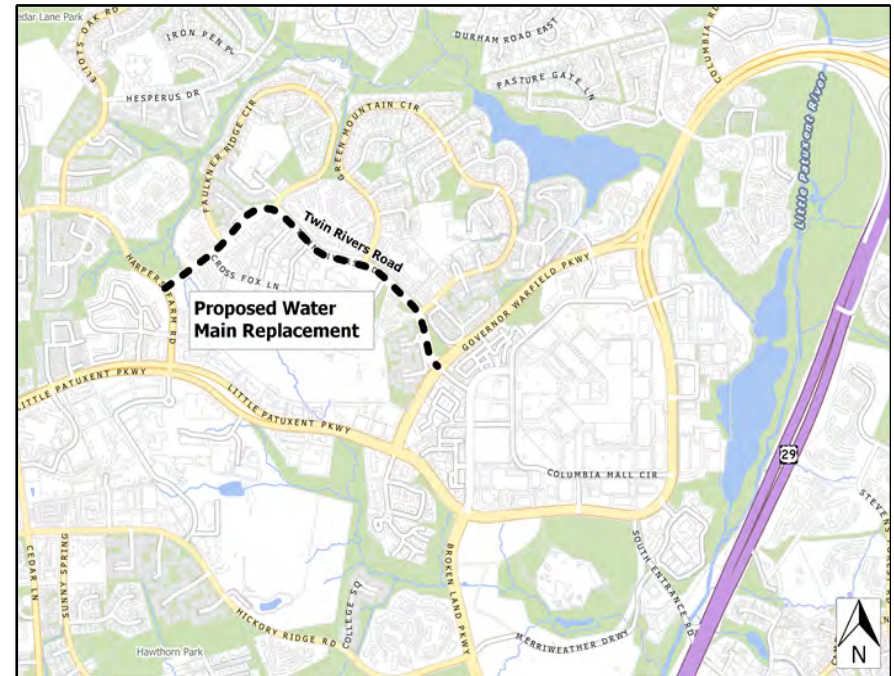

### Project Schedule

- FY18 - Design, construction
- FY19 - Construction, project complete
- FY20 - Project Close

### Operating Budget Impact

Annual Bond Redemption \$ \$121,838

The cost of operation and maintenance will be reduced by the reduction of main breaks in this area.

## Project: W8332-FY2018 HERITAGE HEIGHTS WATER AND SEWER EXTENSIONS

Number: W8332

### Description

A project for the design and construction of 700 LF of 8-inch water main within Thompson Drive, 700 LF of 8-inch sewer main within Thompson Drive and 700 LF of 8-inch sewer main within Tulane Road in the Heritage Heights community.

### Justification

An extension of water and sewer service was initially requested by two (2) property owners located on Thompson Drive. After receipt of this initial request notifications were distributed to each owner along Thompson Drive and Tulane Road seeking their input and interest in having the water and sewer system completed (in full) therein. The returned responses indicated support for this capital project to complete water and sewer service along Thompson Drive and Tulane Road.

### Remarks

1. The project was brought before the Public Works Board on December 13, 2016.

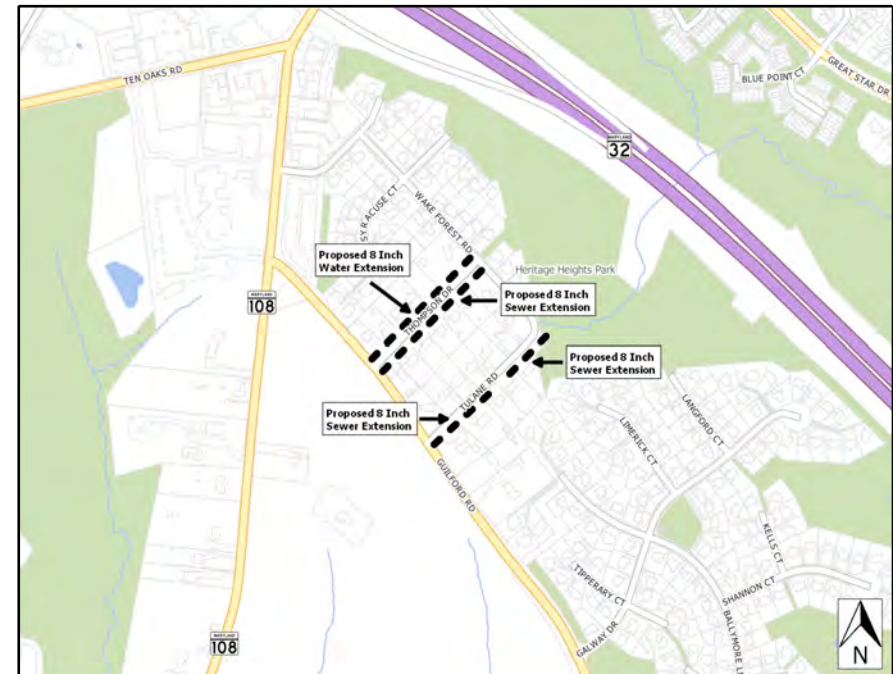

### Project Schedule

FY18 - Design; Construction  
FY19 - Construction; Project complete  
FY20 - Project close

### Operating Budget Impact

Annual Bond Redemption \$ \$42,750

The annual cost of operation and maintenance of the sewer main is estimated at \$1,400. The annual cost of operation and maintenance of the water main is estimated at \$1,050.

## Project: W8600-UTILITY SYSTEMIC ADDITIONS / IMPROVEMENTS

# WATER PROJECTS

Number: W8600

### Description

A project for the design and construction of various additions and improvements to the water and sewer system or its associated infrastructure.

### Justification

Water and Sewer, or related system components, deteriorate or become outdated with use and time requiring major improvements or correction beyond routine maintenance.

### Remarks

1. The County's operations require modern infrastructure to provide and sustain the level of service to meet the needs of the citizens of the Metropolitan District.
2. This project may be implemented in conjunction with other capital projects.
3. GRANT represents anticipated FEMA funding for Ellicott City.

### Project Schedule

Ongoing program

FY18 -

1. Decommissioning of the North Laurel Waste Water Pumping Station

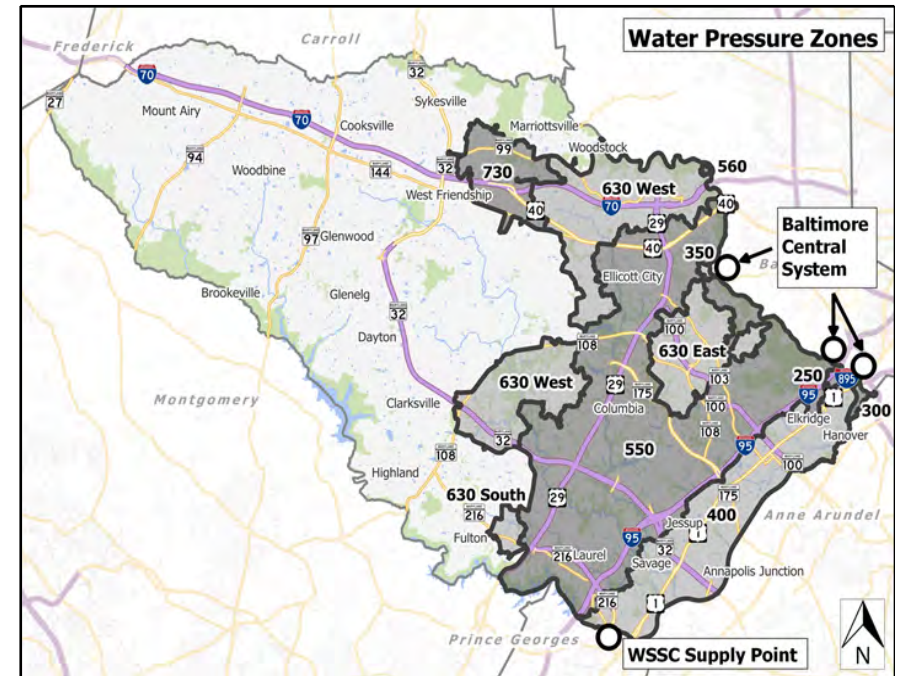

2. Decommissioning of replaced sections of the South West Transmission Main

FY19 - Decommissioning of the Whiskey Bottom Water Pump Station

### Operating Budget Impact

Annual Bond Redemption \$ \$380,000

## Project: W8601-FY2016 ACQUISITION CONTINGENCY FUND

# WATER PROJECTS

Number: W8601

### Description

Project funding will be used to resolve easement and rights-of-way issues on water and sewer projects which have been constructed or special quick response projects of a capital nature requiring title research, appraisals and acquisition.

### Justification

This project is provided as a contingency fund for plats, legal fees, title research, appraisal and acquisition on projects that do not have monies funded for this type of work.

### Remarks

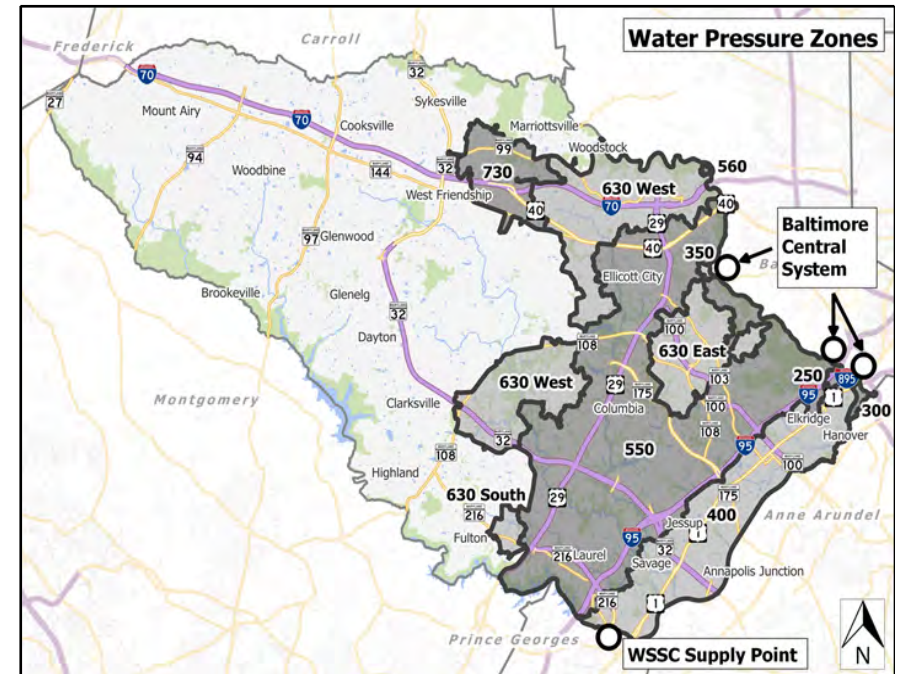

1. Land acquisition as required.
2. W8601 replaced capital project W8146, Acquisition Contingency Fund, to allow the capitalization of funds spent under W8146.

### Project Schedule

Ongoing program  
FY18 - Hunting Lane Sewer

## Project: W8602-FY2016 SLEEVES RELOCATIONS AND APPURTENANCES

Number: W8602

### Description

A project for funding design and construction of sewer and water lines in conjunction with Maryland State Highway Administration (SHA) and Howard County projects prior to construction. This funding will be used to relocate the existing sewer and water mains in the SHA's rights-of-way as a result of road construction, or construct lines prior to capital project initiation in the Howard County construction program. The project will also provide funding for the addition of valves and fire hydrants on the existing system, inspection testing, supplies, and equipment for the implementation of the existing system.

### Justification

These sleeves, mains, relocations, and appurtenances are required in conjunction with future Howard County and SHA projects. This early construction will reduce construction expenditures in the future.

### Remarks

1. W8602 replaced capital project W8248, FY2002 Sleeves Relocations & Appurtenances, to allow the capitalization of funds spent under W8248.

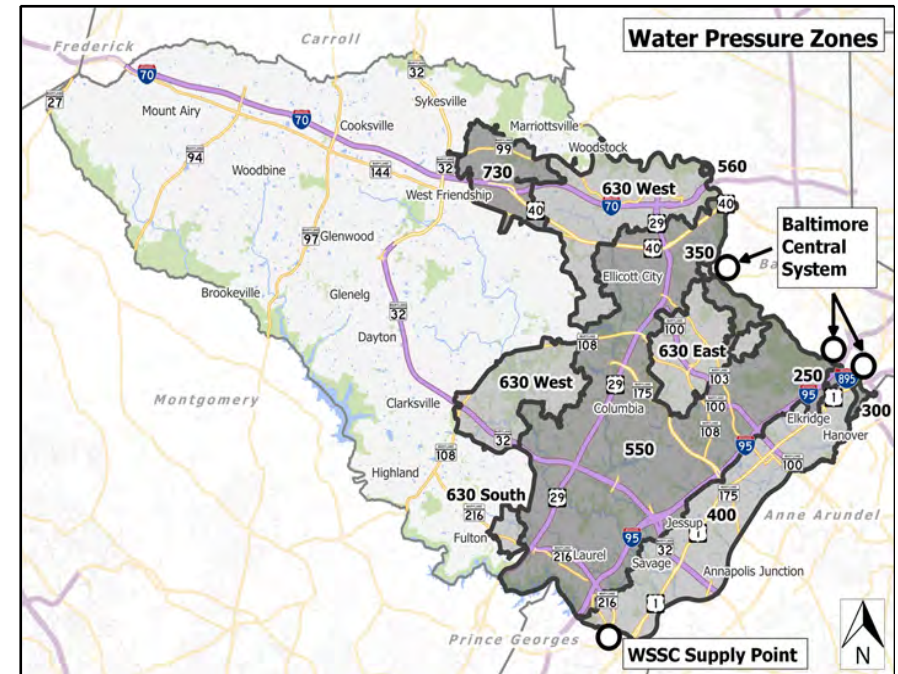

### Project Schedule

Ongoing program

### Operating Budget Impact

Annual Bond Redemption \$ \$144,875

None.

## Project: W8698-ROUTINE WATER EXTENSION PROGRAM

# WATER PROJECTS

Number: W8698

### Description

A project to design and construct routine water main extensions in the Metropolitan District requested by landowners.

1. To serve parcels with existing dwellings or an existing dwelling in recorded residential subdivisions where water mains have not been constructed.
2. To serve existing dwellings or businesses on failing private systems as identified by the County Health Department.
3. The routine extensions must also meet the following criteria: a. A written request has been made by a property owner who is without a water main fronting their property. b. Property to be served must abut a County or State road. c. The extension is less than 1,000 feet. d. The extension must be a continuation of a water main currently in service in the same pressure zone. e. Acquisition of utility easements are not required. f. Capacity is available per section 18.122B of the County Code. g. The extension is supported by at least 50% of the abutting property owners.

### Justification

This project will provide service in a shorter time frame for small extensions.

### Remarks

1. See capital project S6698 for Routine Sewer Extensions.
2. Request represents the advancement of funds in the capital program.

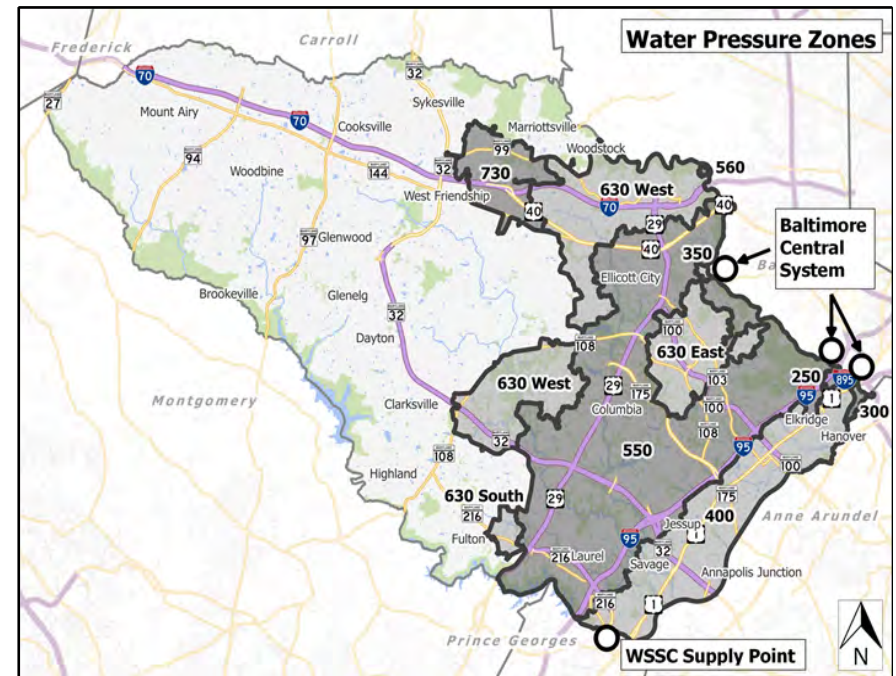

### Project Schedule

Ongoing program

### Operating Budget Impact

Annual Bond Redemption \$ \$351,500

\$1.50 per foot per year represents the estimated cost of maintenance of water mains (small diameter), valves and easement over the utility.

Number: W8812

### Description

A project to provide for the construction, inspection services, and ordering of large water meters for sites that do not require formal developer agreements, but instead require Advanced Deposit Order (ADO) agreements for water services larger than 1 inch, fire hydrants, short main extensions, or other appurtenances. Construction work limited to 200 feet (combined water/sewer). The following criteria must be met: 1. Extensions are necessary to provide frontage to existing lots or parcels within the Metropolitan District. 2. Developer is responsible for all engineering, plans, and construction stakeout. 3. Parcels or lots are not subdividable. 4. Acquisition of utility easements is not required. 5. Front foot benefit charge affects the ADO requester only.

### Justification

The Howard County Code Section 20.308 establishes the requirements to charge for connections, and the requirement to receive payment prior to making the connection.

### Remarks

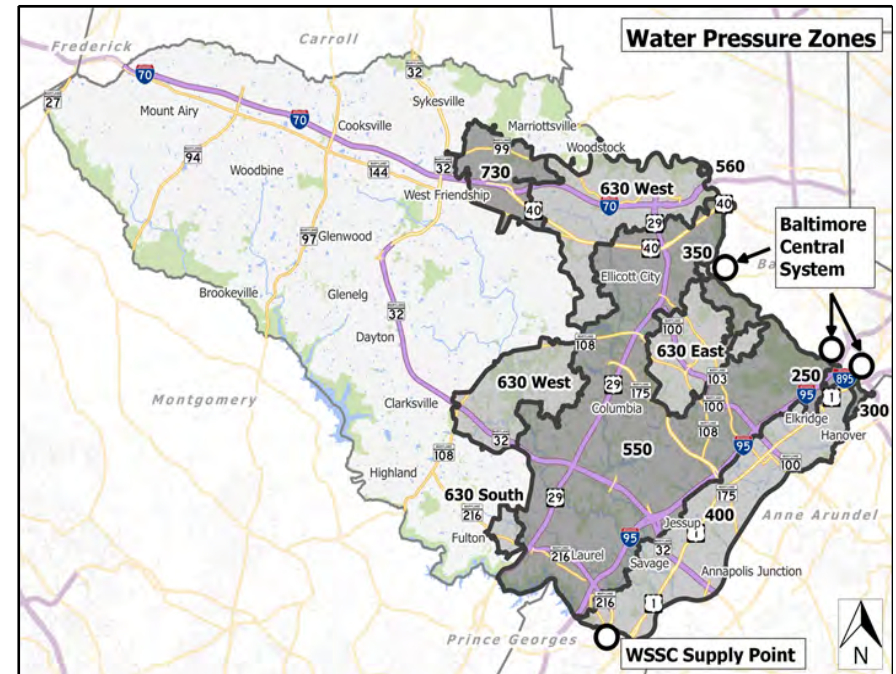

1. An ADO agreement provides for the contractual basis for the connection request. Each connection's cost is accounted for separately against this project.
2. After August 1, 2007, developers will hire Howard County licensed on-site utility contractors, at their cost, to perform the work. The County will continue to construct these connections only at the discretion of the Director of Public Works.

### Project Schedule

FY18 - Construction  
Ongoing project

### Operating Budget Impact

None

# Fiscal 2018 Capital Budget

## Project: W8862-FY2012 WATER HOUSE CONNECTIONS

# WATER PROJECTS

Number: W8862

### Description

A project to provide for the construction of water house connections by the Bureau of Utilities for residential size up to 1 inch. These connections are made when new connections are required for lots or homes where none exist. Connections installed by Developer Agreement, capital project, or by developer's utility contractor under County inspection (post August 1, 2007) are not included. Also included are charges for water meters under DILP application process.

### Justification

The Howard County Code Section 20.308 establishes the requirements to charge for connections. This capital project allows the installation costs to be capitalized and incorporated into the County's asset management system.

### Remarks

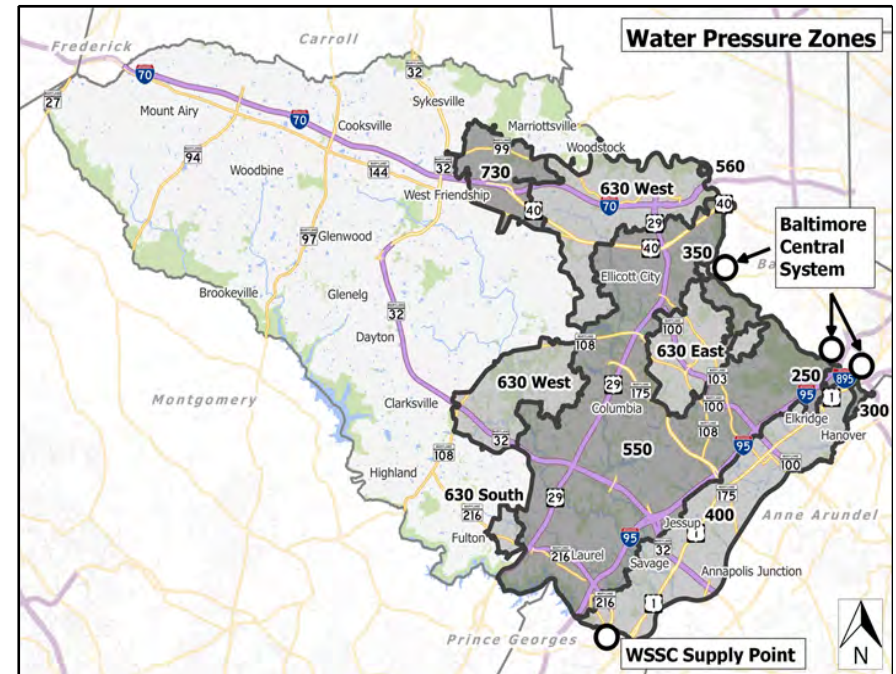

1. Water house connection charges are collected when the property owner submits an application to connect to the public system.
2. Funds collected from the connection charges are credited to this project when the connections are not existing.
3. House connections previously installed by the Bureau of Utilities to be installed by the developer's utility contractor under County inspection (post Aug. 1, 2007). Bureau of Utilities will install connections only at the discretion of the Director of Public Works.

### Project Schedule

FY18 - Construction.  
Ongoing project.

### Operating Budget Impact

None.

# Fiscal 2018 Capital Budget

## Project: W8913-FY2013 DEVELOPER REBATES WATER & SEWER

# WATER PROJECTS

Number: W8913

### Description

Land developers in Howard County desiring to provide public water and/or sewer services to a proposed development, request the County to permit them to extend the existing systems to serve their proposed developments through pre-financing of these extensions under terms of a developer's agreement. All such facilities when completed will be County owned and maintained.

### Justification

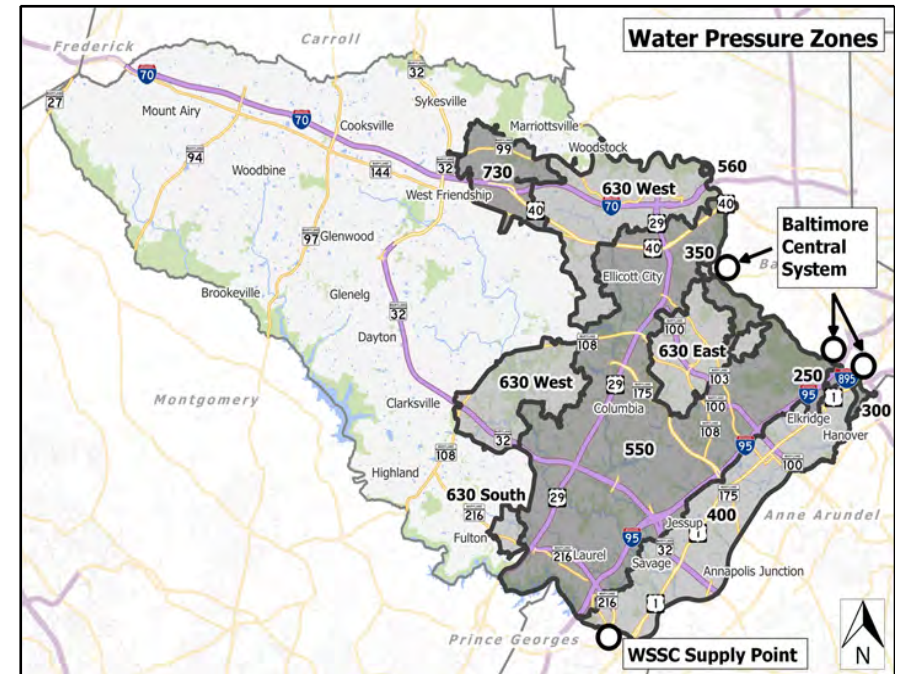

The Developer's Agreements establish a rebate policy providing for the reimbursement of certain monies when new accessible base and front foot benefit charges are created. The aggregate refund will not exceed 100% of the actual cost of the extensions excluding the construction cost of the house connections, rights-of-way, and engineering. The specific rebate amount is predicated upon the front foot assessments which provide the source of the debt service for the County's refinancing requirements.

### Remarks

FY18 - Defunding represents Financial reconciliation.
