Corporation

If the recipient is a non-governmental entity, is it governed by:

Board of Directors Board of Trustees

Other. If other, please explain:

Address of Project and Recipient (If project and recipient have different address, include both)

5460-5466 Ruth Keeton Way, Columbia, MD 21044

Briefly describe the purpose and reason for the project:

Our site has 31 assisted living residents and is licensed to serve daily 70 adults for adult medical daycare. We are required by state regulations to maintain our temperature between 70-80 degrees at all times. When power is out and the temperature deviates from the guidelines we must evacuate the building which is very disruptive to the people we serve. In March 2018, during a wind storm the power went out and due to the outside temperature the building quickly got below 70 degrees. Even though the power returned less than two hours after our departure, we had no choice but to send people home from the daycare and move our residents. A generator is needed to avoid these +

Amount of Matching Fund:

Equal match (this also includes an amount higher than that of the bond requested)

Unequal match (less than the amount of the bond requested)

Amount of unequal match:

No match

Type of Matching Fund:

Money In kind (e.g., donated services)

Real property Funds expended before June
