

# Smoke Alarms

## Scavenger Hunt

Take your parent on a scavenger hunt around your home to find all the smoke alarms.

How many smoke alarms did you find? \_\_\_\_\_

How many floors in your home do you have? \_\_\_\_\_

Is there a smoke alarm on every level? \_\_\_\_\_

**Parent Note:** A smoke alarm should be on every level of the home, including the basement.

## Parent and child activity.

While you are on your scavenger hunt for smoke alarms, test each one to ensure they are working properly.

Be sure to have an adult help you reach the smoke alarms.

Simply hold the test button down for three to five seconds. If your smoke alarm is working properly, you should hear either a beep or a series of beeps.

If you do not hear anything, it is time to replace the smoke alarm.

# Maze

Can you help the smoke alarm make it through the maze?
