

Bedroom Safety

Close Before you Doze

Explain why it is important to close your bedroom door before going to sleep for the night.

Parent and child activity.

Practice with your children what to do if a fire starts at night and they cannot open the bedroom door because it is too hot.

Remind the child to not hide under the bed or in the closet.

Have the child go to the window and wave their hands around.
Teach them how to open the window, so they can yell for help.
